BERLIN

NEW HAMPSHIRE 03570  
*The City That Trees Built*

March 1, 1964

Mayor and Council  
Citizens of Berlin  
Berlin, New Hampshire

Dear Citizens:

Economically, the past year has not been a pleasant one for Berlin with the closing of one mill and the announced closing of a second mill by the area's major employer. This has meant much unemployment and the forcing of many heads of families to go to other areas to find work. As many other communities have found, the solution to this problem is not easy, quick, or painless, but this is no cause to panic and say that Berlin has no future. It has a future, but only if its citizens believe it has and fight for this future.

The past year the Mayor and Council have worked with private citizens and City employees to improve the City and proceed towards solving the problems facing us. Special attention is directed towards the activities of three Citizen Committees - Planning Board, Industrial Development Committee, and Committee on Urban Renewal and Housing.

The following pages show what your local government has been doing during 1963. These accomplishments have been possible only by the cooperation of the people who make up the Council, the various Boards and Agencies of the City and those of us who are employees of the City.

Very truly yours,

*Stanley Judkins*  
Stanley Judkins  
City Manager

## *Industrial Development*

The Industrial Development Committee, which has been expanded to twenty - five members, has held regular monthly meetings beside having meetings of the executive committee and other sub - committees.

In February, the Committee received the Industrial Development Report from the Fantus Area Research, Inc. In this report, a program of action was recommended. This action program has been started by the Committee. A selected program of contacts has been made by mail with follow-ups where indicated. When definite interest has been expressed, personal visits to industrialists have been made and industrialists have come to Berlin for on - the - spot information.

## *Housing Authority*

The Mayor appointed a Housing and Urban Renewal Study Committee several months ago to investigate the need for urban renewal and public housing in this community.

As the result of the investigation of this citizens' committee, the City Council found a need for public housing and urban renewal here. Then, as required by state statute, the Mayor appointed a Housing Authority. This Authority has just been organized, and thus, is only starting to function. The work of this group can have far-reaching effects on Berlin in the years ahead.

## *Planning Board*

The Planning Board continued its planning activities started during the previous year, looking forward to the completion of the master plan within the next few months.

The two major accomplishments of the Board were:

Adoption of Sub-division regulations.

Presentation of a proposed Zoning Code to the Mayor and City Council.

## *Mayor and City Council*

The Mayor and Council met weekly at 8:00 P. M., Mondays, during the past year. In addition, when necessary, special meetings were held for such things as repaving the runway at the airport and considering a petition. Very high attendance was recorded at these meetings with 100% attendance frequently.

Some of the improvements authorized by this Body during the past year were:

- Centralized accounting.
- Creation of the position of Finance Director.
- New street resurfacing program.
- Repair and converting to oil of the boilers at the High School and City Hall.
- Centralized gasoline service.

# Executive Department

CITY MANAGER: STANLEY JUDKINS  
FINANCE DIRECTOR: DONALD McKAY

PERSONNEL: 2  
2 Part-time

The past year Berlin operated under the first year of the Council-Manager plan. This has meant several changes in operation such as:

- Set-up purchase order system
- Bulk purchase of some supplies at lower costs
- Creation of the post of Finance Director
- Purchase of accounting machine
- Centralization of city accounting
- Monthly fiscal reports to the Council
- Appointment of personnel on merit
- Coordination of the activities of the various Departments
- Coordination of the activities of the various Departments and Boards

# City Clerk

CITY CLERK: MARY E. MORGAN

PERSONNEL: 3

The office of the City Clerk is responsible for:

## RECORDINGS AND FILINGS

Filing and indexing all financing statements and termination statements - Deeds to property acquired by the city - agreements, leases and releases.

## VITAL STATISTICS

Issuing marriage licenses.

Recording marriages, births deaths and delayed certificates of birth.

Issuing copies of birth certificates to parents and copies of all vital statistics to the State Department of Health at Concord.

Issuing copies of birth and marriages, when requested, for Social Security purposes.

## REGISTRATIONS

Issuing permits for registration of cars, trucks, tractors, motorcycles and trailers.

Issuing dog licenses - taxi licenses, package delivery licenses.

## REPORTS

Keeping cash book of all cash transactions in office.

Issuing report to City Treasurer each month of all monies collected.

Issuing report to Retirement System each month.

Issuing report of collections Blue Cross - Blue Shield each month.

Processing Metropolitan sick and death benefit claims.

Preparing disbursement report and filing vouchers.

## ELECTIONS

Preparing ballots and warrants - notices to paper for Municipal and other elections - Issuing, receiving and listing absentee ballots - Receiving and filing election returns.

## MISCELLANEOUS

Selling cemetery lots - recording cemetery deeds - Issuing orders to Public Works Department for digging of graves - Collecting bills for work done by Fire and Public Works Departments.

The City Clerk acts as clerk of the City Council - recording minutes of the council meetings - filing and indexing all communications, petitions, ordinances and resolutions.

# City Treasurer

CITY TREASURER: RICHARD L. ROBERGE

PERSONNEL: 2 Part-time

The Treasurer is responsible for the deposit of city funds in designated depositories, and the disbursement of city funds as ordered by the City Council. This office is charged with preparing the necessary papers for the borrowing of monies on short and long term basis and the maintenance of Debt records. The City Treasurer also acts as treasurer of the Board of Education.

# Tax Collector

TAX COLLECTOR: L. LAURIER ROUSSEAU

PERSONNEL: 2

1 Part-time

The duty of this Department is the collection of Taxes. In order to collect Taxes, it is of prime importance that records be kept. In this area, the Tax Collector's Department has the duty of maintaining Property, Head and Poll Tax Records; preparing Tax Lists for Head and Poll Taxes; sending bills to Taxpayers for Property, Head and Poll Taxes; making daily deposits of all monies received to the City Treasurer; making daily and monthly distribution of all Taxes received; preparing verification notices for the City Auditor; providing verification slips for Taxpayers who wish to register their vehicles; preparing Tax Sales of all delinquent Property Taxes.

Brud Warren - Berlin Reporter Photo

# Assessors

PERSONNEL: 1                      3 Part-time

The following is the inventory of taxable property of the City of Berlin for the year 1963:

Lands and Buildings	\$ 12,208,261.00
Mills and Machinery	12,518,060.00
House Trailers 27	28,020.00
Electric Plants	2,943,200.00
Stock in Trade	2,387,211.00
Boats 58	4,080.00
Horses 1	100.00
Cows 33	3,300.00
Neat Stock 2	200.00
Fowls 1,220	1,220.00
Gasoline Pumps and Tanks	48,205.00
Construction Machinery	24,270.00
Total Gross Valuation before Exemption	\$ 30,166,127.00
Less: Exemption to Veterans and Blind	1,085,160.00
Net valuation on which tax rate is computed	\$ 29,080,967.00

TAX RATE: \$70.00 per thousand

#### TAXES COMMITTED TO COLLECTOR:

Property	\$ 2,035,667.69
Poll Taxes 6,906 at \$ 2.00	13,812.00
National Bank Stock Taxes	1,264.42
TOTAL TAXES COMMITTED	\$ 2,050,744.11

#### SPECIAL WARRANTS TO TAX COLLECTOR

Property Taxes 1963	217.00
Yield Taxes 1963	1,385.70
Head Taxes 1963 - State of N. H. 8,817 at \$ 5.00	44,085.00

# Police Department

CHIEF: PAUL TREMBLAY

Personnel: 32

The past year has been a year of reorganization and change for this Department -

- Appointment of a new chief
- Creation of a detective division
- Emergency ambulance service by using combination cruiser-ambulance
- New record system
- Program of firearms training
- Sending policemen away to training schools
- Giving a first aid course to all members of the Department

Some of the departmental activities were -

- Complaints investigated - 992
- Escorts to banks, Post Office - 1186
- Automobile accidents investigated - 227
- Railroad cars checked - 471
- Animal calls - 741
- Investigation of crimes - 106
  - Robberies - 2
  - Aggravated Assault - 1
  - Burglary - breaking or entering - 31
  - Auto theft - 11
  - Larceny - 61
- Violation of road and driving laws - 129
- Violation of traffic and motor vehicle law - 40
- Drunkness - 100
- Driving while intoxicated - 25

*New Combination Police Car and Ambulance*

*Evidence of Crime*

# Fire Department

CHIEF: ADELARD L. LABRANCHE

PERSONNEL: 28

The Fire Department in addition to fighting fires is responsible for electrical service to other city departments, fire inspection and fire prevention. A regular program of testing fire pumpers was started this year.

In performing the duties of a Fire Department the following activities and work were performed:

- Calls for fires to buildings or contents - 290
  - Mills and factories - 16
  - Grass or brush fires - 35
  - Dump and rubbish fires - 27
  - Automobile or tractor fires - 22
  - False alarms - 10
  - Shacks and camp fires - 12
  - Miscellaneous calls washing gas off streets and removing ice off public buildings stand by duty on water main breaks, etc. - 44
  - Calls at schools - 4

The Department apparatus traveled 550 miles and worked 154 hours and 55 minutes on above calls and used the following equipment and materials. 2,700 feet of 2 $\frac{1}{2}$ " hose, 2,150 feet of 1 $\frac{1}{2}$ " hose, 40,830 gallons of water from booster tank, 12,217 feet of  $\frac{3}{4}$ " booster hose. Tank trucks for fires, 21,000 gallons. Lighting units used 4 times. Rescue boat was used 3 times. Used 875 feet of ladders, 19 pounds of extinguisher dry powder, 28 pounds of co2 chemical. The smoke ejector was used 8 times. Indian pumps were used 5 times.

## *Welfare Department*

OVERSEER OF PUBLIC WELFARE: MAURICE A. BELANGER

PERSONNEL: 3

This Department's functions are the administration and defrayment of public funds for the temporary care and need of the poor of the City until such time as these cases have been re-habilitated or directed to the proper agencies for permanent assistance according to their legal settlement based on the laws of the State of New Hampshire. In addition, The Department counsels the citizens of Berlin in regards to other programs that they might be entitled to receive.

# Civil Defense

DIRECTOR: MAYOR EDWARD L. SCHUETTE

PERSONNEL: ALL VOLUNTEERS

Locally, Civil Defense has been reorganized with the Mayor becoming the local Director. A new headquarters for Civil Defense has been set - up in the former coal bin of City Hall. This area was chosen as it meets federal requirements for fallout. As of October, Berlin was one of forty - nine communities out of two hundred thirty-six (236) in this State that had submitted and received approval on the 1963 activity programs. This means that Berlin can and is taking advantage of Civil Defense surplus goods and matching funds. The City, in matching funds, received over \$4,000.00 from the federal government for two - way radio equipment. Once again, one of the most active groups is the Police Auxiliary.

# Inspection Service

SEALER OF WEIGHTS AND MEASURES: EMILE J. PARENT  
 BUILDING INSPECTOR: JOHN E. RAMSEY

## SEALER'S REPORT

SCALES	CHECKED	OK	ADJUSTED	CONDEMNED
Platform	46	30	16	0
Counter	47	40	5	2
Suspension	28	20	7	1

Kerosine	3	3		
Coal Trucks	2	2		
Packages	6,180	5,821	under 71	over 288

## BUILDING INSPECTOR'S REPORT

94 permits were issued during the year, with a total estimated value of \$ 221,195.00

These permits divided as follows:

5 permits	new homes	\$ 47,000.00
1 "	mobile home	
9 "	additions	12,275.00
8 "	" " " cost unknown	
17 "	repairs and alterations	22,245.00
16 "	" " " " " cost unknown	
8 "	one car garage	7,125.00
13 "	" " " " " cost unknown	
3 "	two car garage	2,550.00
5 "	" " " " " cost unknown	
3 "	electric signs	
1 "	to demolish building	
1 "	to build a sawmill	cost unknown
1 "	platform for gas storage	
1 "	to move office building	
1 "	Tel. Dial building	130,000.00
1 "	steel staging	

# Health Department

HEALTH OFFICER: EDWARD J. MONTMINY

PERSONNEL: 6

Public Health is "the art and science of preventing disease, prolonging life and promoting physical and mental efficiency through organized community effort".

The Health Department is an affiliate of the St. Louis Hospital School of Nursing and assists in the Public Health on the job training of Senior Student Nurses.

Last year, the Health Officer conducted a series of special training sessions in First Aid for all Police personnel prior to the implementation of the new City Ambulance service.

One hundred fourteen food facilities within the City were inspected by the Health Officer. In addition, sixty-six unsanitary conditions were investigated. Continuing laboratory tests were made of dairy products, foods and municipal water supply to protect the people of Berlin from possible epidemics.

Clinics for babies, pre-school children, dental fluorine, diabetes detection, orthopedic, and tuberculosis were made available.

The following immunizations were given:

- D. T. P. Vaccine - 865
- D. T. Toxoid Vaccine - 287
- Sabin Polio Vaccine - 10,365
- Salk Polio Vaccine - 301
- Smallpox Vaccinations - 326
- Influenza Vaccine - 271
- Rabies Canine Vaccine - 884

The Nurses of this Department made over two thousand seven hundred (2,700) calls during the past year, and made over one thousand three hundred (1,300) student inspections.

# Parks and Playgrounds

RECREATION DIRECTOR: ROBERT J. LOWE

PERSONNEL: 5  
9 Part-time

This Department has two major responsibilities. One is the maintenance of parks and recreational facilities for the City. Second is to provide a recreational program for the people of the City to supplement what other recreation programs are existing here.

The crew of this Department have done their customary maintenance work in keeping up the parks, playgrounds, skating rinks, Recreation Center, and other facilities for which it is responsible.

Special projects for the Department during the year were the refilling, sodding and fertilizing the football area at Memorial Field; the filling in up river from Memorial Field for a football practice area. Provided a drinking fountain at central playground, new toilet and locker room facilities for women and girls at the Recreation Center.

In providing a recreational program for the City, thirty-three separate programs and nineteen special events were conducted during the past year. Some of these programs are girls and women's basketball, badminton and softball leagues; a reorganized summer program for the youngsters; punt, pass and kick football programs; little league, Babe Ruth league, and broom hockey.

# Library

LIBRARIAN: MRS. GERMAINE THOMPSON

PERSONNEL: 4  
2 Part - Time

1963 circulation of books showed a tremendous increase over 1962 with a circulation of 64,403. Circulation of books in the children's library was 36,920, an increase of 5,717 over the previous year.

In checking the best sellers last year "What America is Reading" the Library has over 98% of the books listed. In order to meet the special needs, 358 books were borrowed from the State Library.

Students, particularly those of high school age, are regular patrons name-ly coming to the Library to search for material on assigned projects.

Major addition to the Library this year was a new set of Britannica Encyclopedia to replace a 1951 set. The adult department was redecorated and a new tile floor was installed. The magazine room was painted

# School Department

SUPERINTENDENT: LAWRENCE W. DWYER

## PERSONNEL

Bartlett School .....	8
Brown School .....	10
Marston School .....	8
Junior-Senior High School .....	46
Home-Bound Instructor .....	1
Secretaries .....	4

97

*Space Needed*

#### *BUILDING SITUATION*

Near capacity at Junior-Senior High, Bartlett, Marston

Needs: Long range: new buildings, especially a senior high school

Short range: modify present junior-senior building by adding shop area and creating two classrooms

Needed: home economics, tenth grade shop, welding area, and minimum of two classrooms

*Sprinkler System On Guard*

*Kindergarten Is Making Friends*

#### *MAINTENANCE*

Major accomplishments this year: weatherproofing, cleaning, and restoration of walls, conversion of heating plant, and electrical work to improve safety and efficiency

*On The Long Trail Of Education*

**GROWTH**

	1953	1958	1963
All public school students	1112	1463	1936
Junior - Senior High students	589	658	1063

**STATE REQUIREMENTS — EFFECT ON CURRICULUM AND BUDGET**

- One guidance counselor for 400 students - so counselor - teacher is requested
- Library of 6,000 volumes and tables and chairs for ten per cent of students (110) - so library needs enlarging
- Continued approval for shops in grades 11 and 12 dependent upon a general shop - so shop for grade 10 is requested in budget
- Electricity - electronics lab will be lost unless used - so budget proposes starting shop in this field for grades 11 and 12 and as area school

*Classroom Work Is Basic*

*IN — SERVICE TRAINING*

During past year 20 teachers on staff attended different schools

*MANPOWER TRAINING*

Three different programs have been run: industrial stitching, transmissions, and machine operators

Much equipment has been added to school through program: textbooks, tool kits, machines and attachments, repair of equipment, tools, and stock

*LEARNING  
TO EARN*

*PRODUCTION IN  
THE PRINT SHOP*

*Creative For a Better Living in a Better Life*

*BECAUSE OF GROWTH*

- At least two more classrooms
- Start electricity - electronics course
- Add mathematics teacher
- Add language teacher
- Add two elementary teachers

*BECAUSE OF STATE REQUIREMENTS — MINIMUM STANDARDS*

- Expansion of library
- General shop for grade 10
- Removing welding to school area
- Add guidance counselor

*CREATES THESE PROBLEMS*

- Need for more space
- Need to obtain qualified teachers
- Need to provide instructional materials
- Curriculum revision
  - Added industrial and vocational course
  - New sequence in high school mathematics
  - New approaches in science

*Linotype Operators are in Demand*

*Good Teachers Make Good Schools*

*STATE AID FOR SCHOOLS*

New Hampshire still last  
Berlin gets nothing but small Federal funds  
which come through State

*FOR THE FUTURE*

Get and keep best teachers possible  
Give them and students material to work with  
Work for smaller classes  
Provide more reading help  
Make more provisions for slow learners

*Concentrated Work*

## *Public Works*

PUBLIC WORKS DEPARTMENT

CITY ENGINEER: CLARENCE J. BRUNGOT

PERSONNEL: 66

The Public Works Department continued their usual maintenance program and regular service such as repair of streets, snow and ice control, garbage collection, maintenance of sewers and catch basins, repair of sidewalks, repainting of traffic control signs, sweeping of streets, airport maintenance, and cemetery maintenance.

One of the time consuming tasks for the City Engineer and his Assistant was the engineering and inspection in connection with the repaving of the airport runway.

The past year saw the relocation of the burning dump from Route 1 to a modern sanitary landfill operation on East Milan Road and the location of a special dump for metal objects and noncompressibles located off the Cates Hill Road. This corrected an unsatisfactory condition located on one of the access roads to Berlin.

The Hillside Avenue bridge reconstruction was finished this year and is now capable of taking heavy truck traffic. Some of the projects done this year are 1,600 feet of new sidewalks, 9,500 feet of new hot top service, 21,500 feet of asphalt concrete resurfacing treatment, 37 new catch basins, 7 new manholes, about 1,800 feet of asphalt concrete curbing, over 2,000 feet of sewer, and reconstruction of 3 retaining walls.

## *Airport*

**CHAIRMAN:** MAYOR EDWARD L. SCHUETTE

**MANAGER:** CLARENCE J. BRUNGOT

Two major changes have taken place at the Airport during the past year. At a cost exceeding \$100,000.00 the old surface of runway has been removed; the base has been regraded; and a new asphaltic concrete surface has been laid. This is the first major work on the runway since it was built over twenty years ago. Starting this winter season the Public Works Department has assumed the responsibility of plowing the Airport rather than having it done by private contract which should mean a saving to the City.

## Water Works

SUPERINTENDENT: ERNEST E. TANKARD

PERSONNEL: 10

3 Part-Time

Twelve new houses were taken on to the water system and sixty-one old services relaid to the property line at Water Works expense.

Precipitation was 4 inches below normal this year or 33.9 inches. Water consumption for the year was 987,940,000 gallons, or 200,000 gallons less per day than last year.

The least rainfall usually occurs during July and August, also the driest season of the year. Consumption is also the highest during this period. In some past years we have been obliged to restrict the use of the garden hose for all purposes which included car washing during drought periods. This year we put no restrictions on car washing, but stopped lawn sprinkling during the daytime. City-wide lawn sprinkling was permitted between the hours of seven and nine p. m. This worked out very well. Our water pressure remained normal, the gardens and lawns about the city looked better than other years, the water waste which has been visible the next morning in various streets was eliminated and the recording meters showed less consumption.

Major work this year was confined to improvements within the distribution system. At a cost of \$4,500.00 new flow measuring equipment and chlorinators were installed at both the Bean Brook and Dummer Yard Chlorinating Plants, replacing equipment purchased in the 1930's.

Equipment at the Bean Brook plant consisted of a new chlorinator and flow-watch recording register. At the Dummer Yard plant we installed a new flow-watch recording register, a new chlorinator and a venturi tube.

Two new fire hydrants were installed and 2,123 feet of new 8-inch, 6-inch and 2-inch water pipes were laid. All this was done within city limits to further provide better fire protection and domestic service for the customers.

The beginning of an additional 8-inch supply line was started for the Liberty Park section of the City. The line begins at the Bean Brook chlorinating plant where an 8-inch connection was made from the existing 10-inch line coming from the Bean Brook reservoir. The pipe extends easterly up Wood Street, crosses the Boston and Maine railroad track, thence crossing Maynesboro Street, Verdun Street and presently is connected to the existing line on Rheims Street. We hope to connect both Maynesboro and Verdun Streets with the new line next year. Upon completion of this proposed hook-up we will have a complete circuit around the Liberty Park area and two feeder lines into this area.

Many of the new houses built during the last ten years do not receive satisfactory water service. This is caused by improper pipe size within the houses. Since the introduction of copper tubing as water pipe the public has been sold on the idea that being non corrosive a smaller size pipe will be satisfactory. We find many new homes piped with copper tubing no larger than  $\frac{1}{4}$  inch inside dimensions. As far back as forty years ago the minimum inside pipe diameters used were  $\frac{1}{2}$  inch, and most of them  $\frac{3}{4}$  inch. There is no component of a home water system more important than the piping network. The size of the pipes vary directly with the available water pressure. Modern household necessities such as the automatic dish washer, washing machine, flushometer, etc. are equipped with automatic valves and for proper operation require large volumes of water at a moments notice, and if not immediately available, the equipment is sluggish and operation unsatisfactory. Building codes and proper inspection would eliminate such troubles and give the customer better service.

Two-thirds of the city water supply now is derived from the Ammonoosuc River and the necessity of an adequate and sufficient quantity requires the rebuilding of this water line. When the wooden pipe line was installed in 1927 a 25-foot right of way was purchased from the landowners. Trench digging equipment was not available at that time and all excavation was done by hand labor. Now, with mechanical equipment, we need more land for operation, so an additional strip of 50 feet has been purchased and is in the process of being brushed out, and a road built. Estimates on the cost of replacing the balance of 4 miles of old wooden pipe amounts to \$385,000.00: The Federal Government have an accelerated public works program whereby we hope to obtain a fifty percent outright grant for this work which we applied for last October. The other one-half will be financed through a bond issue which will be paid for out of income. We had set aside \$25,000.00 for operations on our Ammonoosuc pipe line replacements this year. Only \$5,365.00 was spent. The balance is on hand which we expect to use this coming year.

# Fiscal Report

LEO J. CAMPAGNA  
CERTIFIED PUBLIC ACCOUNTANT  
BOLOUC BUILDING  
CONWAY, NEW HAMPSHIRE

HICKORY 7-2241

February 20, 1964

To the Board of Water Commissioners  
City of Berlin, New Hampshire

Gentlemen:

I have examined the balance sheet of the Berlin Water Works as at December 31, 1963, and the related statement of income for the year then ended. My examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances, except as follows:

In conformity with prior practice, the earnings for the year include only charges accumulated at the regular billing dates, and unbilled revenue at December 31, 1963 has not been accrued. Also, a check of the 1964 invoice files indicated approximately \$3,600 of 1963 invoices which have not been included in accounts payable in this report. As in prior years, the value of insurance premiums unexpired at December 31, 1963 are not included in the balance sheet.

My examination did not include a detailed check of meter readings and service records supporting the billing to customers. I was not present at the taking of the physical inventories of materials and supplies, but I verified the mathematical accuracy of the inventory submitted to me.

In my opinion, subject to the foregoing exceptions, the accompanying balance sheet and statement of income present fairly the financial condition of the Berlin Water Works as at December 31, 1963, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

*Leo J. Campagna*

Leo J. Campagna, C.P.A.  
City Auditor
