DURHAM, NH – First District Congressman Frank Guinta remains very unpopular in his district and trails former Congresswoman Carol Shea-Porter. Second District Congresswoman Ann Kuster is in a close race with two relatively unknown Republican challengers.

These findings are based on the latest **WMUR Granite State Poll**,* conducted by the University of New Hampshire Survey Center. Five hundred and fifty-nine (559) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between August 20 and August 28, 2016. The margin of sampling error for the survey is +/- 4.1 percent. Included were four hundred and thirty-three (433) likely 2016 general election voters (MSE = +/- 4.7%). Two hundred and seventy (270) residents (MSE = +/- 6.0%) and two hundred and eleven (211) likely voters (MSE = +/- 6.7%) were from the First Congressional District and two hundred and eighty-nine (289) residents (MSE +/- 5.8%) and two hundred and twenty-two (222) likely voters (MSE +/- 6.6%) were from the Second District.

Favorability Ratings – Frank Guinta

In New Hampshire’s First Congressional District, incumbent Congressman Frank Guinta remains unpopular. Currently, only 25% of 1st District likely voters have a favorable opinion of Guinta, 43% have an unfavorable opinion of him, 7% are neutral, and 25% don’t know enough about him to say. His net favorability rating is -18%, down slightly from -20% in July. Guinta is only somewhat popular among Republicans (net +9%), unpopular among Independents (-17%), and very unpopular among Democrats (-40%). Guinta’s favorability ratings overall and among Republicans have stayed steady over the past year.

Favorability Ratings - Frank Guinta - 1st District

*All favorability ratings shown in July 2016 and August 2016 results are among likely voters

Republican Challengers – 1st District

Guinta is being challenged in the September 13th primary for the Republican nomination, but his challengers are largely unknown among 1st District likely voters. Rich Ashooh of Bedford, who challenged Guinta for the nomination in 2010, remains largely unknown – currently 15% of 1st district likely general election voters have a favorable opinion of Ashooh, 6% have an unfavorable opinion, 4% are neutral, and 74% don't know enough about him to say. Ashooh's net favorability is +9%.

Favorability Ratings - Rich Ashooh - 1st District

Only 1% of 1st district likely general election voters have a favorable opinion of Jamieson Gradert (R-Hampstead), 5% have an unfavorable opinion, 5% are neutral, and 90% don't know enough about him to say. Gradert's net favorability is -4%.

Only 2% of 1st district likely general election voters have a favorable opinion of Michael Callis (R-Conway), 3% have an unfavorable opinion, 4% are neutral, and 91% don't know enough about him to say. Callis' net favorability is -1%.

And only 1% of 1st district likely general election voters have a favorable opinion of Robert Risley (R-Sanbornton), 2% have an unfavorable opinion, 4% are neutral, and 94% don't know enough about him to say. Risley's net favorability is -1%.

Favorability Ratings - GOP Congressional Candidates - August 2016 - 1st District Likely Voters

Favorability Ratings – Carol Shea-Porter

Former Congresswoman Carol Shea-Porter, who held the first district seat from 2007-2011 and from 2013-2015, will once again be the Democratic nominee in 2016. Shea-Porter is currently popular in the district -- 45% of 1st District likely voters have a favorable opinion of Shea-Porter, 27% have an unfavorable opinion, 4% are neutral, and 24% don't know enough about her to say. Her net favorability is +18%. Shea-Porter is very popular among Democrats (+55%), popular among Independents (+23%) but very unpopular among Republicans (-33%).

Favorability Ratings – Carol Shea-Porter – 1st District

Shea-Porter vs. Guinta – 1st District

If the 2016 election for Congress in New Hampshire's 1st District was held today and the candidates were Shea-Porter and Guinta, 48% of likely voters say they would vote for Shea-Porter, 29% would vote for Guinta, 5% would vote for someone else, and 19% are undecided. Shea-Porter is doing better than Guinta among members of their own parties (Shea-Porter leads Democrats 76%-6%, Guinta leads Republicans 62%-13%) and has a 44%-23% advantage among Independents. There is a significant gender gap as Shea-Porter leads 60%-18% among women and Guinta has a 42%-34% advantage among men.

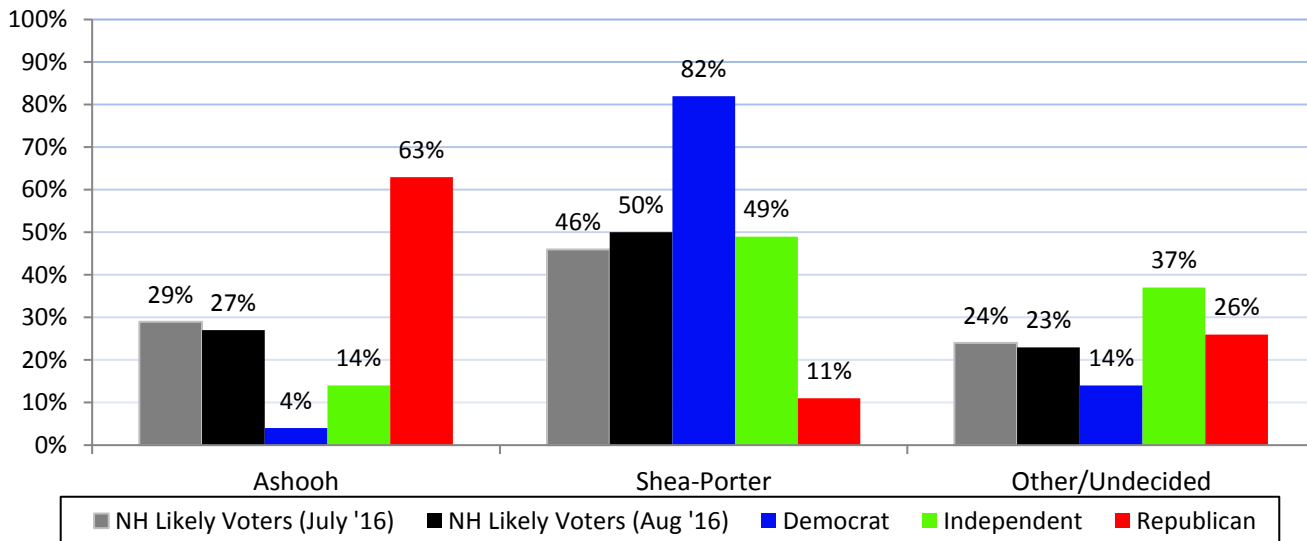

Guinta vs Shea-Porter -- 1st District Likely Voters

Shea-Porter vs. Ashooh – 1st District

If the candidates were Ashooh and Shea-Porter, 50% of likely 1st District voters say they would vote for Shea-Porter, 27% would vote for Ashooh, 4% would vote for someone else, and 19% are undecided. While Shea-Porter leads 82%-4% among Democrats, the lesser-known Ashooh only has a 63%-11% lead among Republicans. Independents currently favor Shea-Porter 49%-14%.

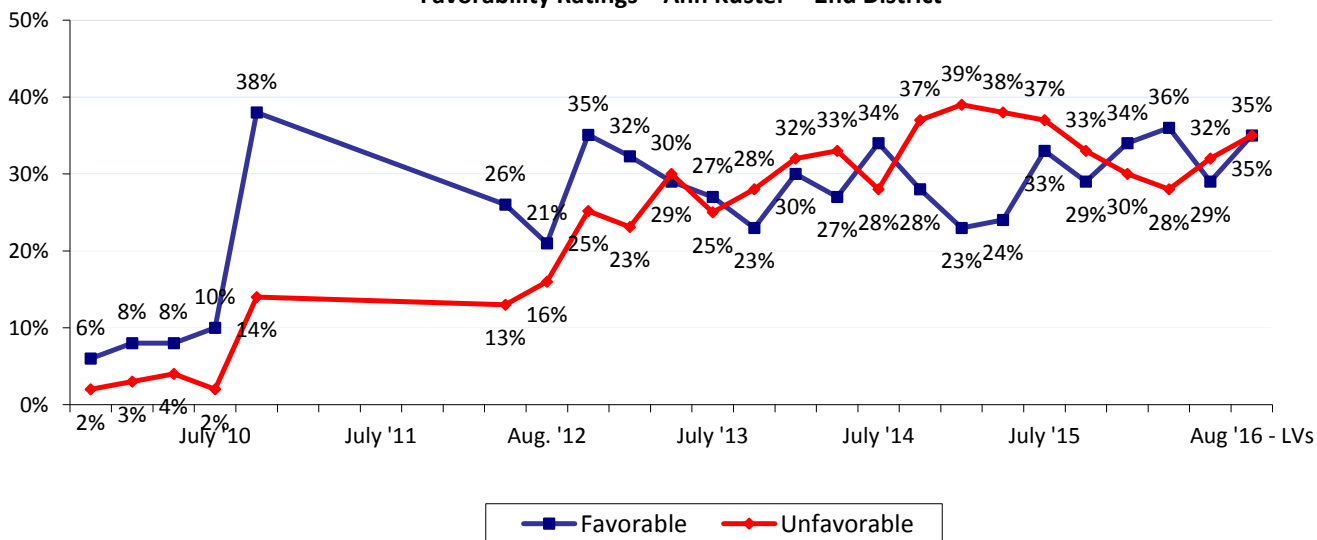

Ashooh vs Shea-Porter -- 1st District Likely Voters

Favorability Ratings – Ann Kuster

In New Hampshire’s Second District, incumbent Democrat Ann Kuster continues to not be viewed favorably by voters in her district. In the most recent Granite State Poll, 35% of 2nd District likely voters have a favorable opinion of Kuster, 35% have an unfavorable opinion of her, 8% are neutral, and 21% don’t know enough about her to say. Her net favorability rating is 0%, which is up slightly from -3% in July. She is very popular among Democrats (net +57%), unpopular among Independents (-17%), and very unpopular among Republicans (-53%).

Favorability Ratings – Ann Kuster -- 2nd District

Republican Challengers – 2nd District

Republican challengers in the Second District are not well-known among likely voters -- 10% have a favorable opinion of State Representative Jack Flanagan (R-Brookline), 5% have an unfavorable opinion, 9% are neutral, and 76% don't know enough about him to say. Flanagan's net favorability is +5%.

Former State Representative Jim Lawrence (R-Hudson), who ran for the nomination in 2014, is also unknown -- 10% have a favorable opinion of Lawrence, 4% have an unfavorable opinion, 9% are neutral, and 77% don't know enough about him to say. Lawrence's net favorability is +6%.

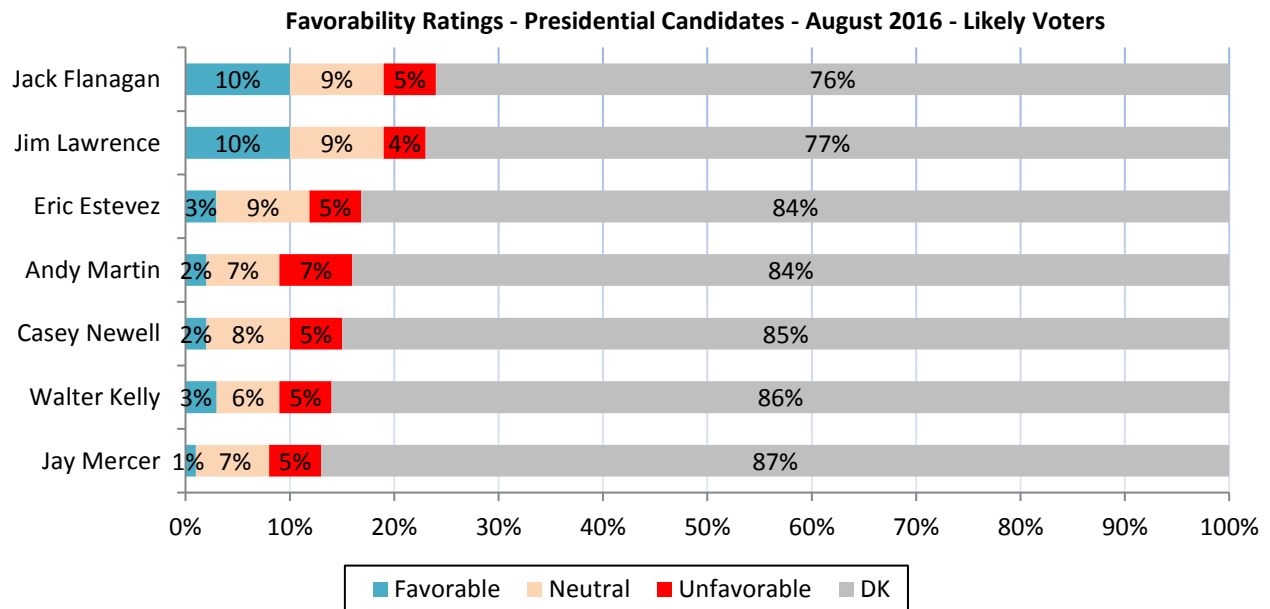

Currently 3% have a favorable opinion of State Representative Eric Estevez (R-Pelham), 5% have an unfavorable opinion, 9% are neutral, and 84% don't know enough about him to say. Estevez's net favorability is -2%.

Currently 2% of likely voters have a favorable opinion of Andy Martin (R-Manchester), 7% have an unfavorable opinion, 7% are neutral, and 84% don't know enough about him to say. Martin's favorability is -5%.

Casey Newell (R-Danville) is unknown to most 2nd District likely voters -- only 2% have a favorable opinion, 5% have an unfavorable opinion, 8% are neutral, and 85% don't know enough about him to say. Newell's net favorability is -3%.

Currently 3% have a favorable opinion of Walter Kelly (R-Lancaster), 5% have an unfavorable opinion, 6% are neutral, and 86% don't know enough about him to say. Kelly's net favorability is -2%.

Only 1% have a favorable opinion of Jay Mercer (R-Nashua), 5% have an unfavorable opinion, 7% are neutral, and 87% don't know enough about him to say. Mercer's net favorability is -4%.

Kuster vs. Flanagan – 2nd District

If the 2016 election for Congress in the Second District was held today and the candidates were Flanagan and Kuster, 40% of likely voters say they would vote for Kuster, 35% would vote for Flanagan, 3% would vote for someone else, and 22% remain undecided. Both candidates do well with members of their own party (Kuster leads 79%-4% among Democrats, Flanagan leads 73%-6% among Republicans), and Flanagan has the edge (31%-16%) among Independents, although 48% of Independents are undecided.

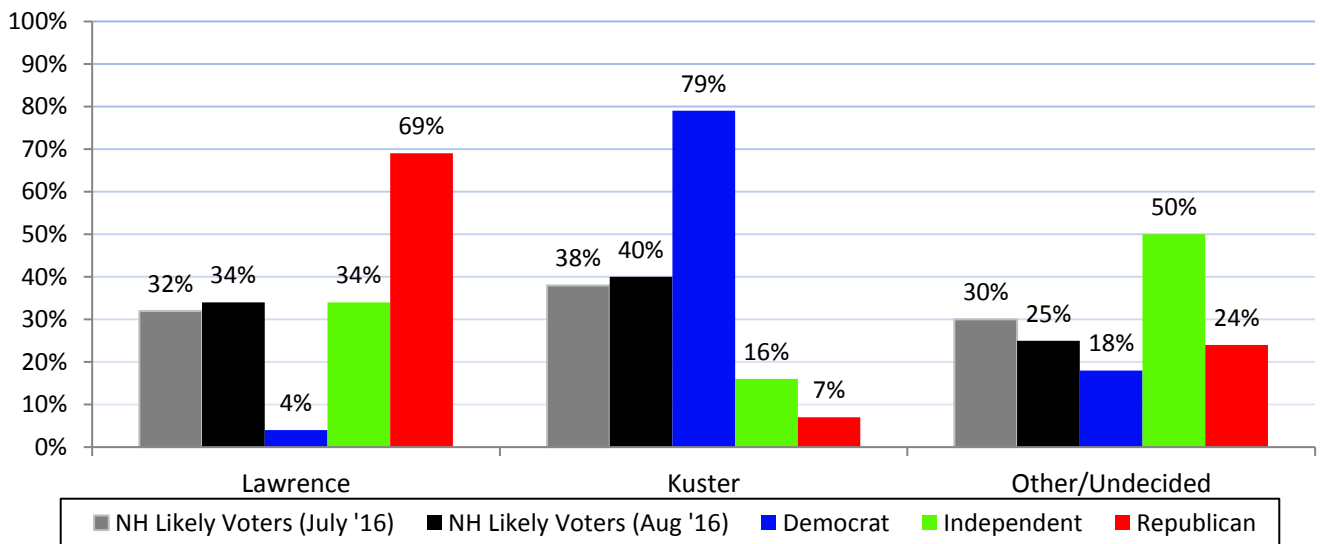

Flanagan vs Kuster -- 2nd District Likely Voters

Kuster vs. Lawrence – 2nd District

If the candidates in the Second District were Lawrence and Kuster, 40% of 2nd District likely voters say they would vote for Kuster, 34% would vote for Lawrence, 3% would vote for someone else, and 22% are undecided. Kuster leads 79%-4% among Democrats, while Lawrence leads 69%-7% among Republicans. Lawrence also has a slight edge among Independents (34%-16%).

Kuster vs Lawrence -- 2nd District Likely Voters

Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center and funded by WMUR-TV, Manchester, NH. Five hundred and fifty-nine (559) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between August 20 and August 28, 2016. If a household included more than one adult, the adult who had the most recent birthday was selected to be interviewed.

The margin of sampling error is +/- 4.1 percent for the entire sample. Included were four hundred thirty-three (433) likely 2016 general election voters (MSE +/- 4.7%). Two hundred and seventy (270) residents (MSE = +/- 6.0%) and two hundred and eleven (211) likely voters (MSE = +/- 6.7%) were from the First Congressional District and two hundred and eighty-nine (289) residents (MSE +/- 5.8%) and two hundred and twenty-two (222) likely voters (MSE +/- 6.6%) were from the Second District. These MSE's have not been adjusted for design effect. The design effect for the survey is 1.1%.

The random sample used in the WMUR Granite State Poll was purchased from Marketing Systems Group (MSG), Horsham, PA. MSG screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

The data have been weighted to adjust for numbers of adults and telephone lines within households. Additionally, data were weighted by respondent sex, age, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

For more information about the methodology used in the WMUR Granite State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at andrew.smith@unh.edu.
