Lewis F. Soule

## Tribute to Lewis F. Soule

Lewis F. Soule — born in Salem August 11, 1924; died in Salem April 7, 1986 — left his imprint on New Hampshire's largest town as no other individual has done.

He was the elder son of a traditional "horse and buggy doctor" serving a quiet village of less than 3,000 people and the nurse from New Brunswick who came here to treat a patient and stayed on to marry Dr. Soule. Thus he grew up in a household, the common concern of which was to look after the people of Salem.

He came to know the roads and by-ways winding through Salem's 15,889 then-empty acres, riding around with his father, in the early automobile Dr. Soule had bought to replace his horse and buggy only a year or so after the boy was born.

He studied in Salem's classrooms, leaving Woodbury High School before his graduation to earn his diploma at nearby Mount Hermon.

World War II called him away, as it called away so many young people in the midst of this century, for service in the Pacific theater. After the war he studied as both an undergraduate at Harvard College and a graduate student at Harvard Law School.

Having earned his degree, he practiced law in Boston briefly, and for a few years in Manchester, before coming home in 1960 to open his own law office and to spend the rest of his life.

Those post-war years were the ones in which Salem was beginning to feel the effects of an explosive growth. In 1958, the young lawyer saw the need for change clearly enough to challenge the old-time leadership for a seat on the Board of Selectmen. He served on that Board through only one term, but it was a memorable term, in which Salem adopted the Town Manager form of government; drew up its first tax map, created the beginnings of a Planning Board and a Budget Committee.

Lewis Soule's role in local government shifted slightly, after the close of that single term on the Board, to Salem's legal counsel, an office which was nowhere written, but was universally understood. As the town's legal advisor, he came to know intimately the Town Meeting form of government, and the relationships between the State of New Hampshire and its towns and school districts. Doing so, he laid the basis for a law firm now recognized throughout New Hampshire as a leader in municipal law.

Successive Boards of Selectmen, and the Town Managers who served them, almost instinctively knew when the tough questions arose their responsibility was to "check it out with Lewie, first."

He left the ultimate decisions to the men and women who had been elected to that role, but each and every time Salem came to another perplexing crossroads as it grew into the state's largest town Lewis F. Soule's research and advice were brought to bear.

# REPORT OF THE BOARD OF SELECTMEN

unanimous on all issues, but we feel comfortable that the overall direction of the past year was sound and positive.

In large part, 1986 was a year of motion; ahead, as the Route 28 construction project neared completion and Salem, "Looks Great with its New 28!"; ahead, as we saw substantial growth in our tax base result from the strong, healthy economic climate of New Hampshire; ahead, as we finally made the long-awaited connection to the Greater Lawrence Sanitary District, thereby ending a decade-long problem of waste water pollution; ahead, as we completed the emergency water system connection with the Town of Methuen, ensuring for the immediate future at least, a supply of potable water in a situation where our own supply proves to be inadequate.

As positive as the last year has been we must be increasingly sensitive to the storm clouds forming on the horizon; with the recent business problems experienced by Refuse Fuels, it is likely that we may again be faced with seeking a "permanent" solution to disposal of trash; it is becoming increasingly more clear that the long-term water supply requirements of the town may have to be met from within, necessitating the construction of a treatment facility on the shore of Canobie Lake; the problems of ground water pollution from faulty septic systems continue to pose an environmental threat which can not be ignored and we must continue to seek ways to abate this problem before our opportunity is lost. We must be committed, as a community, to attack these and other problems with enthusiasm and imagination in the next year if we are to continue to grow, prosper and maintain our position of leadership in the "Golden Triangle".

Individually, and as a Board, we salute those who contributed to the success of the past year; to the dedicated employees of the town who consistently rise to the challenge of serving; to the many volunteers who invest hundreds of hours so that we might have a better town; to the elected officials, at all levels, who seek to work in concert and harmony toward a more responsive government; we extend the gratitude of your community. To the citizens of Salem, who have briefly entrusted their town to our collective administration, we extend our sincere appreciation for the opportunity to serve.

Howard C. Glynn  
Chairman of the Board of Selectmen

L-R, Stephen Buco, Ronald Belanger, Chairman Howard Glynn,  
David Tilton, Sr., Charles Coll

1986 was a year of rebuilding and redirection. It was a year spent assessing our existing structure and evaluating how we might do a better job with the same or fewer resources. Our Town Manager, Tom Melena, worked hard to learn the intricacies and subtleties of our Town Meeting form of government; and while his education is far from complete, we believe he has come a long way toward understanding what makes Salem "tick". We have tried to provide Tom with guidance and direction while affording him the opportunity to set his own agenda. We have not been

# TOWN MANAGER ANNUAL REPORT

This year has been very active, to say the least, with the administrative offices involved in everything from labor negotiations to setting tax rates to staffing up new departments to acquiring necessary additional equipment and probably the most important, being involved in the long-term planning for the community. During this last year the Board and administration have authorized and contracted for studies involving the following: (1) Traffic, (2) Water options, (3) Solid waste, (4) Hazardous waste, (5) The Capital Improvement Program, (6) The Master Plan and (7) The Town storm/sewer plan. The reason for all of the above planning is to delineate the Town needs for proper infrastructure to provide the services that you, the citizens, want and need. It is much more beneficial to study a problem and issue and come up with a realistic solution than to just jump in and hope that the off-the-cuff answer that is given is the right solution.

It is becoming very apparent to people in my profession, as well as people at the State and Federal level that the building and replacement of the infrastructure of our local communities is going to be one of the major issues we must face in the near future. Even though we know these infrastructures are necessary we are seeing a shrinking dollar to help pay for those facilities. We no longer have available revenue sharing from the federal government. We no longer have grants available for sewer and water projects; very shortly we will no longer have available block grants for community development. As a result, the Federal and State governments are getting out of the financing of these facilities and that places that burden back on us. With that in mind, we must very carefully determine how we should spend our money so that we can get the most "bang for a buck".

I think an example of the above is the Route 28 project. The 2.2 miles of road from the Massachusetts border to Cluff Crossing Road cost approximately 6.5 million dollars. On the other hand,

Thomas M. Melena  
Town Manager

improvements that the Town made from Cluff Crossing to the Depot for the asphalt, cost \$135,000 and the improvements to the signal lights at Veteran's and 28 cost \$35,000. Those two improvements were done with Town funds and under town contract and although it was not a total reconstruction of the road, it has provided us with a good, smooth driving surface and a substantially improved intersection for traffic control and turning movements on 28 and Veteran's. More and more, we are going to have to find cheaper short-term solutions that will solve the problem.

At the same time, this year the Town of Salem was able to decrease its local property tax rate by 10%. In 1985, the Town tax rate was \$12.99 per thousand, this year for 1986 that same tax rate is now \$11.50 per thousand. The accompanying graphs show the effect of this reduction on the total Town tax rate and shows the trend of the Town taxes from 1980. We are very hopeful that this trend will continue for next year and, if possible, the year after. Again, as administrators we need to realize that taxes cannot automatically go up and up and up. There comes a time when the burden on you, the taxpayers, must not keep on increasing. The Board of Selectmen has realized this and have given very specific direction to staff to control the tax rate. In the first year of my employment by the Town we have been able to do that and hope to continue with tax decrease in the future.

Lastly, I would like to thank the residents of the Town of Salem for their help and support during this last year and I look forward to working with you on the many issues that face us in the upcoming year. Thank you, very much.

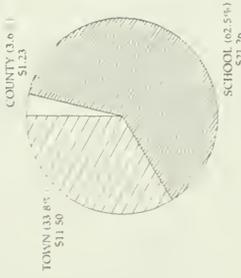

Thomas M. Melena  
Town Manager

## LEGAL DEPARTMENT

Faced with rising legal expenses, the Town in 1986 established an in-house legal department to handle the criminal and civil work generated by the administration of government. The legal department consists of Municipal Attorney Robert D. Ciandella, Prosecutor Diane Gaspar and Secretary Andrea McPherson.

In the context of a shrinking federal government role, governing on the local level has become increasingly complex. As local governments assume more responsibility, they have become exposed to greater legal risks. The job of counsel is to measure those risks and anticipate legal exposure. Like a baseball umpire, legal counsel is working most effectively when there are few controversies and few disputes. When controversies occur, and it is inevitable in a world of competing interests that they will, the job of counsel is to assure that the Town is provided with the best possible legal representation in whichever forum the controversy is contested.

## POLICE DEPARTMENT ANNUAL REPORT

In terms of goals, objectives and accomplishments, the Police Department rates 1986 well. On the positive side while overall crime in Salem increased slightly, as it did nationally, the areas of serious crime and citizen safety remained relatively stable. While most neighboring communities of any size are recording increases in murder, rape and aggravated assaults, those crimes reflect but 2% of the incidents reported to Salem P.D. I am still concerned over the rate of larcenies, primarily shop lifting, and theft of vehicles. In spite of special efforts against these thefts we recorded increases.

Our Patrol Operations recorded a higher level of activity in both our normal traffic monitoring and in intensified efforts against DWI and other priority offenses. Over 300 impaired drivers were apprehended by our Officers on normal patrol and with special teams and the State Police DWI team another 300+ drivers were brought before the court.

### EQUIPMENT

This year we made a decision to hold off purchasing vehicles until new 1987 cars were available. Other factors resulted in delays in acquisition. As a result we experienced frustrations and higher than normal breakdowns in our fleet. Hopefully, allocations in the 1987 budget will relieve those problems. At this writing we are awaiting delivery of new cars, the Communications Console approved at last Town Meeting and an improved phone system.

### PERSONNEL

1986 Town Meeting approved three new Officers who were assigned to Patrol Operations right after January 1 of 1987. They will help in our effort to increase our basic patrol beats to provide better service. The new patrolmen, Mark Cav-  
anaugh, Devin Kinneen and William Teuber are all

### TRAINING

We have increased our emphasis on police training and will do so again in 1987. Precedent setting case law, and court decisions, mandate that action. Every action, reaction, decision and statement it seems is subject to review at some point. Often it is like working under a microscope. Police work involves decision making under stress, usually without a great deal of time to prepare, often under volatile, emergency conditions. Today those decisions are reviewed, challenged and dissected by professional advocates looking for the slightest error of action, reaction or lack of action. To the Officer's credit only a very few of Police Officer decisions are ever found faulty. Statistically 99% of those Officer decisions stand the test. We must continue to give the Officer thorough training in the skills he needs.

### COMMENTARY

Growth in Salem seems to be constant. New businesses, new roads, new developments are everywhere. Services provided by the town obviously grow commensurately. The Police Department is hard pressed to stay abreast. Our mission is to provide the high quality, quick response, Law Enforcement our citizens deserve. We cannot compromise. We strive to be innovative and inventive. We look for a better way that is both cost effective and uncompromising.

Finally, it is obvious to us all that illicit drugs continue to pervade and threaten our society. Our efforts to combat the problem will be even greater in 1987. We will continue to make drug interdiction a high priority. We need your help. We cannot do it alone.

The Department is grateful to both our citizens and the elected community leaders for past support.

John P. Ganley  
Chief of Police

John P. Ganley  
Chief of Police

experienced Officers who have been working full time for other agencies. Dispatcher Susan Young and clerk Bernie Dupuis joined our full time staff along with part time Clerks, Terry Babcock and Linda Blackie. Two civilian employees, Dispatchers Gloria DeFrancisco and Marlene Hanson resigned. Clerk Phyllis Mason retired and Clerk Andrea McIherson moved to the Legal Department at the Municipal Building. Prosecutor Kathleen Dwyer joined the Legal Staff in Portsmouth.

We welcome our new employees and wish the others well in their future activities.

This year our records personnel deserve accolades. In addition to putting our records on the computer and attaining daily input of activities (making us no more than 24 hours behind on the system) we took on the task of centralizing all warrants from the Salem District Court. That meant over 10,000 warrants from Salem, Windham, Atkinson and area State Police cases, dating back years, had to be reviewed, systematized and put into our computer system. That program and others are on-line due to personnel dedication.

The Officers and men and women of the Department continue to do what is expected and more. They remain committed to serving our citizens. Highly visible, strongly motivated, they retain their reputation throughout the State as among the best. With continual changes in the laws, methodology of practice and under increasing threat of liabilities and lawsuits, they do the job and do it well.

# April 1987

## SALEM FIRE DEPARTMENT ANNUAL REPORT

During 1986, the members of the Salem Fire Department continued to upgrade the levels of fire protection and emergency medical service that are provided to the citizens of the Town of Salem. Although Fire Department activities continued to increase significantly, we are thankful that no fire deaths were reported during the year.

Staffing resources have been redistributed so that the North Salem Fire Station is now staffed round-the-clock with three full time personnel, including a Lieutenant and two firefighters. As a result, the initial emergency response capabilities have been significantly improved.

In order to provide supervisory staffing at the North Salem Fire Station, the following individuals were promoted to Fire Lieutenant:

Firefighter Leonard Eden  
Firefighter Thomas Laycock  
Firefighter John Prestosz

Inspector Michael Roberts  
The Department also welcomed on board the following new full-time firefighters, who were chosen based on the results of rigorous written, oral and physical agility testing:

Kevin Breen, Jr.  
Ian Chamberlain  
Timothy Hawthorne  
John Judson

The Fire Department has undertaken a major computer analysis of its emergency response activities. This information has been useful in determining manpower and equipment deficiencies, and in measuring the impact of community growth on fire protection service. Computer analysis will continue to be an important aspect of Fire Department operations and Capital planning during 1987.

In early 1986, the Town took delivery of the Mack-Pierce 1,500 gallon per minute pumper that was funded by the 1984 Town Meeting. This truck replaced the 1969 Mack pumper, which is currently being overhauled after 17 years of front-line

The following individuals attended resident courses at the National Fire Academy in Emmitsburg, Maryland:

Deputy Chief A.J. Bodenrader—Interpersonal Dynamics for the Fire Service  
Capt. David Shanteler—Interpersonal Dynamics for the Fire Service  
Capt. Kevin Kimball—Interpersonal Dynamics for the Fire Service  
Lt. Richard Kimball—Interpersonal Dynamics for the Fire Service  
Lt. Arthur Barnes—Interpersonal Dynamics for the Fire Service  
Lt. Alan Briand—Fire Service Information Management  
Inspector Michael Roberts—Fire Prevention Specialist  
Firefighter Will Warnock—Hazardous Materials Tactical Considerations  
Communications Supervisor Alice Campbell—Interpersonal Dynamics for the Fire Service

The major capital improvement priority of the Fire Department for 1987 is an addition to the Central Fire Station and the renovation of the existing building. The Central Fire Station was designed over twenty years ago to accommodate the needs of a combination paid and volunteer Fire Department. The size of today's Fire Department, combined with a tremendous increase in administration, training, fire prevention, emergency medical and fire suppression functions have made the existing facility obsolete and severely overcrowded.

As we move into 1987, the officers, firefighters, dispatchers, and administrative staff of the Salem Fire Department continue to strive for excellence in the performance of their duties. We are truly proud to serve the citizens of the Town of Salem.

Donald B. Bliss  
Fire Chief

service. The Town also purchased a new "Jaws of Life" rescue tool and a set of air rescue bags which upgraded the Fire Department's heavy rescue capabilities.

Training activities continue to be a priority of the Salem Fire Department. Firefighters and officers have achieved certification in numerous intermediate and advanced firefighter and emergency medical technician skills. Company level training exercises were conducted by the Deputy Chief, Captains, and Lieutenants to ensure that emergency evaluations could be completed safely and efficiently.

# COMMUNITY DEVELOPMENT

## PLANNING DEPARTMENT

The Planning Department has two major responsibilities:

- 1) Day-to-day administration of the Town's planning regulations (zoning, subdivision, and site plan ordinances) and;

- 2) Long-range planning for the community.

One indication of our administrative duties is the number of Planning Board agenda items. Each agenda item entails several meetings with the applicant to review plans, site visits, notification of abutters, preparation of staff comments, and compliance inspections. In 1986, the Planning Board acted on over 300 agenda items, about the same as 1985. A list of major projects approved by the Board is attached.

This year we also made substantial progress on long-range planning, including completion of the 1986 Master Plan (adopted by the Planning Board on September 3, 1986), preparation of a draft Capital Improvement Program to guide major town expenditures for the next six years, and drafting over two dozen zoning amendments to help implement the Master Plan. Assistant Planner Kathryn Welch, hired in July, was a key reason for our long-range planning accomplishments.

Other Planning Department highlights in 1986 include:

- 1) Preparation of an Open Space Preservation Report by Colby College intern Pam Christman.
  - 2) Supervision of the 208 Water Quality Advisory Committee's summer intern, Don Phillips, who produced the 1986 Water Quality Report (summaries available at the Town Municipal Building).
  - 3) Preparation of the 1986 Community Profile and the Development Handbook, a summary of the staff people, boards, and procedures involved in regulating new developments.
  - 4) Initiation of efforts to educate the public about the 1986 Master Plan, including slide show presentations to several community groups, articles in the Town Newsletter, two public forums (televised on the local cable TV station) and several public work sessions and hearings sponsored by the Planning Board.
  - 5) Separation of the Building/Inspections and Planning Department, and relocation to top floor of the Town Office.
  - 6) Staff support to the Wetlands Ordinance Committee appointed by the Board of Selectmen.
  - 7) Revision of Planning Board application fees to more accurately reflect the cost of clerical and staff support.
  - 8) Initiation of townwide traffic study by Vanasse-Hangen, Inc., a Boston-based consulting firm.
  - 9) Welcoming six (6) new members to the Planning Board: Stephen Bucu (Selectmen's Representative), Robert Campbell, Richard Gregory, William Pry, Bernard Campbell, and James Thompson. Emile Corrente remains as chairman.
- The Planning Department's goals for 1987 include:
- A) Revise zoning, subdivision, and site plan regulations in conformance with the Master Plan. Priorities include: new sign ordinance; greater protection of wetlands, flood plains, and groundwater recharge areas; creation of greenbelts along rivers and streams; and provisions for affordable housing.
  - B) Continue efforts to educate the public about planning issues, through newsletters, public forums, presentations to community groups, etc.

Ross Moldoff  
Planning Director

- C) Expand our system of compliance inspections and use performance guarantees to ensure compliance with approved plans.
- D) Investigate "incentive" zoning, such as using density of height bonuses to preserve open space or protect natural areas.
- E) Follow through with recommendations in the townwide traffic study to address major traffic problems.

## BUILDING AND INSPECTIONS DEPARTMENT

Samuel Zannini  
Chief Building Official  
Health Officer

In January, 1986 began with the relocation of the Building Department from the lower level to the upper level of the Municipal Office Building. Many people coming into the Building Department for the first time after the move wore smiles. They were grateful they had survived the maze of corridors through the lower level to their destination—the Building Department. Familiar faces of Samuel Zannini, Rosemarie Hartnett, and Butch Kealey helped make the transition a smooth one.

The first floor location of our department was part of the Town Manager's "one stop shopping" program. After the initial confusion of arranging the department furniture and personnel, locating materials we were sure were lost, it became evident that the public did benefit from the availability of the Building Department, Planning Department and Engineering Department in the same area of the building. The effects of one stop shopping has proven to be beneficial to the departments, too. Along with the new location, the Building Department established a new procedure for the issuing of permits: all permits are issued by the inspectors during their normal office hours of 8:30am-9:30am and 4:00pm-5:00pm, Monday through Friday.

During 1986, Samuel Zannini was promoted to head of the Building Department. His duties include overseeing all department functions and duties relating to the Plumbing Inspector, Building Official Kenneth Diodati is the Building Inspector, he is a new addition to the department and his expertise in residential and commercial construction benefits those seeking construction permits and those planning construction projects.

It is interesting to learn of the many functions handled by the Building Department: permits for new residential and commercial construction and for alterations of same, garages, sheds, pools, fences, signs, yard sales, electrical permits, plumbing and gas permits, chimney permits; citizen concerns and we are responsible for enforcement of the codes of the Town of Salem which includes the building codes, the zoning ordinance and the Sanitary Food Code.

The Town of Salem continued to enjoy a prosperous year in construction with 128 single family dwellings, 30 duplex units, and 20 commercial buildings constructed during 1986. Major commercial projects completed during 1986 included: BJ's Wholesale Warehouse, Brook Properties Commercial Warehouses, Cuomo's, Furniture Barn Plaza, Nettles Plaza, Red Roof Inn and Salem Market Place. Construction of residential dwellings continues throughout the town and in major developments such as Captain's Village, Corinthian Heights, Homestead Development and Porcupine Circle.

## DEPARTMENT OF ENGINEERING

Established in August, 1986 this department is responsible for engineering and construction contract administering associated with roads, sewers and water systems. Additionally, plan reviews of proposed development and inspection of subdivision construction is performed.

*Edward Blaine  
Engineering Director*

A special thank you to the "Engineering Team" of Frank DeCesare, Donna Mae D'Agata, Joe Chamberlain and Jim Brown.

Edward J. Blaine, Jr., P.E.  
Director of Engineering

## DEPARTMENT OF PUBLIC WORKS — UTILITIES DIVISION

Over the past year the Utilities Division has been actively involved in all Water and Sewer construction in Salem. Some of the major projects were:

- 1) Route 28 contracts, which included new drain and water lines.
- 2) New water and sewer lines on Lawrence Road, Wheeler Avenue, Floral Avenue, Hawthorne Street, Iris Avenue and Butler Street.
- 3) Sections of Main Street, School Street, Stiles Road, Pelham Road and Town Farm Road, Barron Avenue extension, Dandridge Avenue and Industrial Way were either installed or inspected by the Utilities Division. Due to the amount of construction over the past year, the Division has repaired 78 water breaks. It has replaced or rebuilt 41 fire hydrants, cleaned 27 sewer mains and repaired 32 manholes.

In addition to these projects, the Water Division is responsible for 130 miles of water mains, 570 fire hydrants, 1,520 water gates, 50 miles of sewer main, 425 manholes. The Division replaced 312

water meters, along with reading every meter. The maintenance of 7 sewer lift stations, 2 water towers, 2 wellsites, 2 water booster stations, 3 dams and the pumping station at Canobie Lake, which pumped over 700,000,000 gallons of drinking water last year.

Four special projects that took place last year were: (1) the closing of the Wastewater Treatment Plant, with all flows going to the Greater Lawrence Sanitary District (GLSD), (2) rebuilding of the control gates at Arlington Dam, (3) the change from gas to liquid chlorine for water treatment, (4) the drain down and repair of the Howard Street Water Tower. Additionally, the Division responded to 2,000 or more citizen concerns.

The Utilities Division consists of ten people who work as a team to create a professional working atmosphere.

## HIGHWAY DEPARTMENT

Drainage problems were corrected at 9 Joseph Road, 160' of 24" drain pipe was used on this project. Also, a drainage problem was repaired at 29 Joseph Road, using 150' of 12" drain pipe.

This Department assisted in the reconstruction of Route 28, raising and repairing catch basins.

The Highway Department was instrumental in the Town-wide Spring Trash Clean-up.

This Department razed the Old Stone Barn to make way for a parking lot at the Public Works Department.

Repairing and replacing of Street signs damaged either by vandalism or other sources.

Refurbishing of the Public Works Building and Office.

Future projects include the completion of the ballfields at Mary Queen of Peace. Also, a Town-wide catch basin cleaning and repairing along with brush cutting and grading and graveling of all roadisides.

## ANIMAL CONTROL

The Kennel has facilities for twenty (20) dogs and is located at the site of the former Wastewater

Treatment Plant, off of Route 28. The amount of Kennel fees collected this year was \$769.00.

This year the Animal Control Officer traveled 13,362 miles, responded to approximately fifty (50) animal bite reports. This is a marked increase of animal bite reports, picked up 273 stray animals and found homes for seven (7) animals.

In 1986, licenses were issued to 1,178 dogs.

## CEMETERIES & PROPERTIES DIVISION

### CEMETERIES

Work on new expansion at Pine Grove Cemetery will be completed in early spring of 1987 and should be ready for use in the fall of the year, this section will contain approximately two hundred (200) single-grave lots, will start new expansion in 1987 for usage in 1988-89, we are averaging 115-120 burials a year and selling about 120 lots per year.

### PARKS AND PROPERTIES

This division was started in the spring of this year, consisting of two (2) men whose principal duties are to maintain all of our ballfields, and all of our public properties, such as the Town Common area. These men also assist in building maintenance jobs, some of this division's accomplishments this year have been construction of two (2) wooden bridges, one at Abnaki Park on Geremonty Drive and one between parking lots at the Salem District Court and the Municipal Office Building. Constructed a flower bed at the corner of Geremonty Drive and Veteran's Memorial Parkway for the Salem Garden Club, renovations at the new Recreation Office on Main Street and also the two levels at the Municipal Office Building.

Some of this division's projects for the New Year are, the cleaning of walking trails at Hedgehog Park and Abnaki Park as well as restoring some of the infields and outfields on some of our ballfields.

## ANNUAL REPORT FINANCE DEPARTMENT

*Gloria J. Kurisko  
Finance Director*

The Finance Department was active in 1986 with the implementation of the general ledger system, additional water and sewer billing and collection, adjustments in utility user fees, betterment assessments and training on a new payroll system.

Three new employees joined our work force between June and October, including two vacated and one new position of Accounts Receivable. The staff now consists of seven full time and one part-time position, including the Finance Director, Assistant Finance Director, Purchasing Coordinator, Accounts Payable, Accounts Receivable, Payroll, one full time and one part-time Utilities Clerks.

The major goals for 1987 will be the enhancement of the payroll system, up-grading of programs in the Utilities section and the installation of electronic meter reading devices, resulting in more productivity.

We were able to stabilize the tax rate in 1986 without affecting the services to residents and look forward to a 1987 Town budget that will reflect little or no increase in taxes.

## PERSONNEL DEPARTMENT

1986 continued to be a busy time for members of the Personnel Department staff. As has been the case in the past, the Department remained active in a wide-range of personnel administration and labor relations issues, and generally provided in-house technical assistance to all departments and employees.

In addition to these daily functions, the department oversaw the development and implementation of a new pay plan for non-affiliated employees and the oversight of the first year of the merit program.

Particular activity was generated in the efforts to fill several positions within the organization. Among those were Municipal Attorney, Assistant Attorney, Alternative Youth Program Coordinator, Mechanic, Light Equipment Operators, a variety of Clerks, Student Clerical Personnel, Senior Engineering Technicians, Public Works Director, Police Patrol Officers, and Fire Fighters.

As always, my deepest thanks to Personnel Assistant, Anne Priestley for her efforts in making 1986 a productive year for the Personnel Department.

Nicholas Manolis  
Personnel Director

## TOWN CLERK'S OFFICE

The Town Clerk's office had some major changes in 1986. Deputy Town Clerk Marjorie Jackson retired in May after 13 years of service in the Town Clerk's office. Mary Fawcett was appointed Deputy Town Clerk to fill that position. One of the clerk's positions was made part-time. Dee Mau was appointed to that 25-hour week position. Susan Norton remains a full-time Clerk and Ruth Hayes remains a part-time bookkeeper.

1987 will bring another major change to the Town Clerk's office. Automobile registrations will be done by a computer beginning January 2. This change should benefit you as it will make the process of titling and registering an automobile faster and more efficient. In the State of New Hampshire only one other municipality, Nashua, has a computer system for automobile registrations. We will be the only municipality that has the capacity for both titles and registrations printed by a computer.

Barbara Lessard  
Town Clerk

# August 1987

## RECREATION DEPARTMENT

The Salem Recreation Department had a very productive year in 1986. The year started off with a move of our office to the Old Town Library building on Main Street. The move quickly preceded our sponsorship of the N.H. Special Olympics Basketball Tournament where over 300 special olympians from around the State participated in the 2-day tournament.

A clear, cool day on April 20th saw over 250 children participate in our Annual Fishing Derby.

We had a very successful summer with our playground program and special summer events, especially the July 4th celebration. The annual Town Halloween Party, co-sponsored with the Salem Community Alliance was a "ghostly" good time with our 400 youths coming dressed for the occasion. Our Christmas Season was a busy one with the Boston Globe pre-season ski show, our Christmas Craft Workshop and the Santa Claus calling program.

Besides these highlights; the Recreation Department offered over 30 bus trips and 100+ skill programs during the year, along with our comprehensive Special Needs Programs and our Youth Intramural After School Programs. Overall, these numbers and programs look impressive and are important for the departments continued success. However, even more important is the quality of our programs and this year we have put special effort to improve the quality in our programs and will continue to do so.

To make all this happen, the Recreation Department depends upon part-time employees, volunteers, local service clubs and businesses to meet our various needs to provide quality recreational services. We want to thank you all for a very successful 1986 year.

In summary, the Recreation Department offers positive recreation experiences for the citizens of Salem. These programs are real alternatives from daily stress, alcohol, drugs and the television set. We challenge you to become an active participant in one of our programs, or some other positive

self-directed activity. Recreation needs to be seen as a high priority in each of our lives.

"Life. Be in it."

July 4th, 1986

July 4th, 1986

Fishing Derby

## SALEM SENIOR CENTER

The Salem Senior Center has special programs Monday through Friday. All programs are well attended, proving the adage, "the proof of the pudding is in the eating".

Feasibility is the watchword and old programs may be replaced by new ones if a program is not interesting.

The dancing classes are a good source of exercise for the Seniors. Socializing before and after lunch is something many seniors need. Socializing is also accomplished at the dancing classes, card games, beano, ceramics or just sitting and talking.

The Town Crier, the senior newspaper sent out every other month for seniors, the editing of the Salem Senior News, which is published in both town newspapers, is readily handled by Ms. Robinson. The newscast of senior news broadcast over WVNH is also handled by Ms. Robinson. The ceramic pieces made by the ceramic class have won may first and second place prizes at the Annual Ceramic Fair.

Several area politicians visited the Senior Center to inform the Elderly of their platforms for the coming elections.

The staff is willing to listen and implement new ideas if feasible. There is excellent communication between seniors and staff. Suggestions are encouraged and weighed.

The many benefactors of the center are much appreciated and we thank them for their support.

*Kelley Library Staff*

## BOARD OF TRUSTEES ANNUAL REPORT

The trustees of the library would like to point out to all the citizens of Salem that we have changed our name to "Kelley Library and Information Center." This was done so as to remind people that the library is not merely a depository of books but a source of knowledge for all its citizens as the "information explosion" of the late 20th Century begins to unfold.

We hope that you will make good use of our new "Center."

Respectfully submitted

Richard J. O'Shaughnessy, Chairperson  
Anna Willis  
Bertice Woodbury  
Kelley Library Board of Trustees

## DIRECTOR'S REPORT

1986 has been another year of challenge and of change for the Kelley Library.

The Children's Department of the library faced with challenge of its most successful year ever—with a 30% increase in circulation over 1985. The overwhelming success of the Children's Department's Summer Program put tremendous demands on all involved, but Sheila, Nannette and Coralyn are looking forward to another such summer program during 1987.

Another challenge has been in dealing with your overwhelming response to our new video cassette collection, which has surpassed all expectations and has proved to be the most popular new service ever undertaken by the library. We now have approximately 500 cassettes in our constantly growing collection, but demand has been so great that it seems continually outstrip supply. During 1987, we plan to begin integrating non-fiction cassettes (such as diet, exercise, sports, business, how-to, etc.) with books in the same subject categories in the adult non-fiction collection and increase the borrowing period to that of books. Feature films and entertainment video cassettes will continue to be shelved as a separate collection and remain at the two-day circulation period.

There have been significant changes at the Kelley Library during 1986 as well as challenges. During the summer, both Meg Maurer and Mary

Gwosch, our reference librarians, resigned to accept positions elsewhere. We are pleased to announce that Debbie Berlin is now the Senior Reference Librarian and Dawn Lomay, who joins us from a Boston library, is Assistant Reference Librarian. Debbie and Dawn will continue the high level of informational assistance you have come to expect from the library. We are also pleased to announce that Jean Williams has been appointed to the position of Technical Processing Librarian and Natalie Ducharme to the position of Head of the Circulation Department. Nannette Dow is currently on maternity leave and Coralyn Weghorst has been filling in for Nannette in the Children's Department.

The library building has also undergone some changes during 1986. The most apparent change is probably the new exterior security lighting. Inside, we have added a small Conference Room to the Lancaster and Beshara meeting rooms on the lower level of the library. The Conference Room, seating eight, is available to any Salem group or organization free of charge.

Our final major change in 1986 was long overdue. In early October, we installed a new Gaylord Circulation System to increase our accuracy and efficiency, and began the re-registration of all of our borrowers. This re-registration, never done before, was partially in response to our old and overflowing registration files and partially to more effectively process the circulation of library materials. As of December, approximately 4,000 adult and 1,000 juvenile borrowers have been re-registered and are using their new borrower's I.D. Cards.

Unfortunately, one aspect of the library has not changed and that is our rate of stolen or missing library books, which continues unabated. Two years ago, an inventory indicated that approximately 1,000 books per year are being stolen. At the low estimate of about \$20.00 per book, that comes to \$20,000 a year in stolen books. We are therefore again asking for community support for a Book Theft Detection System for the library in hope that this system will cut these losses and you will again be able to find all the information you need when you visit the library. This is the final change, and a challenge that must be met if we are to continue to provide quality library service to the community of Salem, N.H.

Respectfully submitted,

Edward V. Reed, Director  
Eleanor Strang, Assistant Director

## SALEM DISTRICT COURT

*Salem District Court*

The court only processed 182 juvenile petitions this past year. If the diversion program was not available, an additional 200 cases could have been brought. Also, people are requesting assistance as there is no court involvement.

These services are so critical to the well-being of the youngsters of this community that the Town of Salem should consider funding a juvenile service officer.

### REPORT OF THE PROBATION DEPARTMENT JUVENILE DIVISION SALEM DISTRICT COURT

The Probation Department also deals with the so-called "status offenders," those youths who habitually disobey the lawful demands of their parents, school officials, and others in various positions of authority. They are generally referred to as uncontrollable, truants, and runaways. Services provided include problem assessment, direct counseling, psychological evaluation, alternative placement (foster care, group homes, institutional), and outside agency referral. The principal focus of this department is delinquency prevention. An effort is made to prevent Court action by way of an elaborate diversion process which zeros in on various "symptoms" of delinquent behavior. Once these symptoms are identified, the wheels can be set in motion in terms of a plan for corrective action. In order for such a plan to produce beneficial results, parental participation and cooperation in the process is absolutely critical. Success in changing negative behavior patterns is often directly proportional to the extent in which parents are willing to actively participate in creating such change.

Raising children is a monumental task, and the decision to raise children carries with it an equally monumental responsibility. Every parent, regardless of educational or social-economic standing has problems from time to time in the trying business of producing mature, stable, responsible,

productive adults from helpless, screaming infants. Some parents see it as a labor of love, some see it as just labor. However you see it, what is important for you to know, is that help is available. Don't wait until what may appear to be routine behavior problems become unmanageable. Early identification remains an indispensable tool in problem resolution.

For further information or consultation, contact the Chief Probation Officer, Brad Mulhearn at 893-6597.

Robert D. Marshall  
District Court Judge

### SALEM PROBATION DEPARTMENT ADULT DIVISION

Probation in Salem is an inexpensive and effective means of disposing of criminal and juvenile cases while providing appropriate supervision of offenders, protection for society and rehabilitation that returns to the community a productive, tax-paying citizen.

Currently, the Adult Probation supervises in excess of 140 cases to include adult and juvenile offenders and is responsible for the alternative sentencing program involving public service projects throughout the community. In addition, the Department collects indigent fees and oversees approximately 200 DWI offenders who are referred to the Alcohol Awareness Program.

Throughout its activities, the Adult Probation Department keeps the Court informed of a person's progress and makes recommendations as to his or her adjustment in relation to society's expectations based upon the Probation Officer's working knowledge and final assessment of the individual.

Arthur H. Wyman  
Probation Officer  
Salem District Court

The Salem District Court processed 14,408 cases in 1986, a slight decrease in last year's total of 15,408 (9%).

It is expected that the State of New Hampshire will be taking over the town's probation department as of July 1, 1987. The adult probationers will be supervised by the Department of Corrections and the juvenile offenders will be managed by the Division of Children and Youth Services. It is hoped that these departments will provide the same level of service that has been provided to the community in the past by the local department.

I am extremely concerned that the juvenile diversion programs we now have will be eliminated in the state takeover. It would be a tremendous loss to the community. The focus of the program is delinquency prevention. Instead of bringing youngsters into court on delinquency petitions, they are placed in a supervised diversion program. We then attempt to identify the individual's problems, teach them that they are responsible for their own actions, and develop a constructive case plan to produce beneficial results.

# THE HOUSING AUTHORITY OF THE TOWN OF SALEM

Salem, New Hampshire

*Salem Housing Authority, L-R, Bertrand H. Duvernoy, Michael Carney, Nancy Rochira, Executive Director, Delbert Downing, Chairman, Raymond Bower, Doris Beshara*

The Salem Housing Authority operates the Public Housing Program funded by the Department of Housing and Urban Development, assisting one hundred and fifty (150) eligible households. The Authority received an additional allocation of units under the Section 8 Housing Assistance Payments Program in 1986 and now assists forty-two (42) households under this program; subsidizing rentals with private landlords.

CIAP (Comprehensive Incentives Assistance Program) funds were received from HUD enabling the Authority to provide installation of energy efficient window panels, additional roof insulation, as well as energy efficient hot water heaters and lighting in common areas. The project was successfully completed and closed out in 1985-1986.

1986 was a year of change for rent levels, as all assisted households now pay thirty percent (30%) of adjusted income for rent. Assistance was provided on the basis of tenants paying twenty-five percent (25%) of income for rent in the past, phasing up to the thirty percent level in 1986. This is evidence of the Federal Government's attempt at reducing subsidy levels for assisted housing.

Of course the need for additional assistance is extensive as reflected by the Authority's Waiting Lists of over two hundred and fifty (250) applicants for Public Housing and Section 8. An analysis of the Waiting Lists reveals that some applicants (elderly and families) are paying over fifty percent (50%) of income for rent. Federal funding for construction of new units is virtually nonexistent and thus, we are working on the possibility of entering into a program in cooperation with the State Housing and Finance Authority. Our agency has worked with the Town to acquire land for development of units in concert with the State Agency. Research of this possibility still continues and will continue, but no definitive or concrete plans are in place at this time.

It was with a great deal of pride in 1986 that the Salem Housing Authority accepted the NAHRO Award for Project Design Excellence for New England. Teller Circle was in competition with several other housing projects and was selected as the New England Award winner for its outstanding architectural design and unique construction concepts.

A very valued member of the Authority retired in 1986. George Geli, senior Commissioner of the SHA who served with the utmost dedication since 1971, retired in March of 1986, deciding not to seek reappointment. George's loyalty and commitment shall be long remembered.

The Salem Housing Authority takes this opportunity to thank the Town of Salem for its support and cooperation. The Authority will continue its efforts to expand housing assistance despite reduced Federal Funding, always progressing to achieve our objective to better serve the community.

Respectfully submitted,

Nancy M. Rochira, PHM

## DERRY VISITING NURSES ASSOCIATION

Derry Visiting Nurses Association believes that the overall health of any community springs from the health of each individual, family and group within the community. We also believe that many different services are effective in supporting individual health. Since 1979, Derry VNA has provided Salem residents with homemaking service, a very vital link in the chain of services which helps individuals to stay as healthy as they can be, and live independently as long as they can.

Homemaker services are provided to meet a need related to problems of chronic or temporary illness, problems of aging, handicapping conditions, or family stress. A nurse-supervisor makes a home visit to each client admitted to help the client assess needs and plan for services. Homemaking services are carefully tailored to the individual client to assure that the most needed tasks for his/her household are accomplished. A statistical unit of service is one half hour of in-home service; a typical visit consists of four units. The Salem town allocation for this past year has been combined with funds granted by the State of New Hampshire and modest client donations to provide this service.

In the 1985-86 year Derry VNA also provided a significant number of units of HELP service for Salem residents. HELP is a full fee, private pay service which provides respite care, in-home day care, adult sitting and various other in-home services. (Also listed in the statistical report below are a minimal number of other visits which were provided in special situations.)

In addition to services provided to individuals in Salem, Derry VNA is very pleased to be able to work with various Salem organizations in the Healthy Older People initiative. "HOP" is a program of education and community activities sponsored by the United States Department of Human Services and the New Hampshire Bureau of Health Promotion.

As this service of New Hampshire grows in population and more services are needed by our residents, it becomes ever more important for helping organizations to work together. Derry VNA is anxious to cooperate with local agencies to ensure that Salem residents receive the best service possible.

## WELFARE DEPARTMENT

Salem's Town Welfare Department offers a safety net, temporarily providing assistance in the form of vouchers for food, shelter, heat, utilities, and other necessities to residents who have no other resources to get through difficult times or crises. The Town assisted 124 households in need of general assistance in 1986 at a cost of \$42,654. The greatest expense was in housing which has been the trend in recent years because of the lack of affordable and low income housing in Salem. The Town Welfare Office also incurred costs of \$3,344 for court ordered youth expenses, and \$7,611 for the local share cost of State administered programs: Old Age Assistance, Disability and Nursing Home Care. These expenses will be the responsibility of the State and Rockingham County in 1987.

Local welfare reforms in 1986 encouraged local involvement and local resources in solving problems at the community level. Accordingly, the Town Welfare Department is involving itself in developing alternative youth programs for troubled children, such as a Big Brother/Big Sister Program.

One of our goals is to continue to coordinate services and work closely with other agencies to better serve Salem's needy.

We want to send out a special thanks to these community spirited groups: Salem Community Alliance, Pleasant Street Methodist Church, Salem Kiwanis Club, K-Mart, Salem Bikers, and Town Municipal employees for providing Thanksgiving and Christmas baskets, turkeys, and Christmas presents for children of needy families.

ACCOUNTANT'S REPORT ON FINANCIAL PRESENTATION

To the Members of  
the Board of Selectmen  
Town of Salem  
Salem, New Hampshire

We have examined the combined financial statements and the combining, individual fund and account group financial statements of the Town of Salem, New Hampshire as of and for the year ended December 31, 1985, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the combined financial statements and the combining, individual fund and account group financial statements referred to above present fairly the financial position of the Town of Salem, New Hampshire at December 31, 1985, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining, individual fund and account group financial statements. The accompanying financial information listed as supplemental schedules in the table of contents, including the supplemental Schedule of Federal Assistance, is presented for purposes of additional analysis and is not a required part of the combined financial statements of the Town of Salem, New Hampshire. The information has been subjected to the auditing procedures applied in the examination of the combined, combining, individual fund and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROLS

To the Members of  
the Board of Selectmen  
Town of Salem  
Salem, New Hampshire

We have examined the combined financial statements and the combining, individual fund and account group financial statements of the Town of Salem, New Hampshire, for the year ended December 31, 1985, and have issued our report thereon dated June 26, 1986. As part of our examination, we made a study and evaluation of the internal control systems, including applicable internal administrative controls, used in administering Federal financial assistance programs to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards, the standards for financial and compliance audits contained in the Standards For Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the U.S. General Accounting Office, the Single Audit Act of 1984, and the provisions of OMB Circular A-128, Audits of State and Local Governments. For the purpose of this report, we have classified the significant internal accounting and administrative controls used in administering Federal financial assistance programs in the following categories:

- Budgeting Controls
- Assessing, Levying and Collecting Taxes
- Payroll Cycle
- Expenditure (other than payroll) Cycle
- Electronic Data Cycle
- Revenue Cycle
- Financial Reporting Cycle
- Controls Used in Administering Federal Programs
- Political Activity
- Davis-Bacon Act
- Civil Rights
- Cash Management
- Relocation Assistance and Real Property Acquisition
- Federal Financial Reports

The management of the Town of Salem, New Hampshire, is responsible for establishing and maintaining internal control systems used in administering Federal financial assistance programs. In fulfilling that responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control systems used in administering Federal financial assistance programs

Town of Salem

Auditor's Report on Internal Accounting Controls (Continued)

are to provide management with reasonable, but not absolute, assurance that, with respect to Federal financial assistance programs, resource use is consistent with laws, regulations, and policies; resources are safeguarded against waste, loss, and misuse; and reliable data are obtained, maintained, and fairly disclosed in reports.

Because of inherent limitations in any system of internal accounting and administrative controls used in administering Federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed above. During the year ended December 31, 1985, the Town of Salem, New Hampshire expended 100% of its total Federal financial assistance under the major Federal financial assistance programs. With respect to internal control systems used in administering major Federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are being followed satisfactorily, and evaluating any weaknesses.

With respect to the internal control systems used solely in administering the nonmajor Federal financial assistance programs of the Town of Salem, New Hampshire, our study and evaluation was limited to a preliminary review of the systems to obtain an understanding of the control environment and the flow of transactions through the accounting system. Our study and evaluation of the internal control systems used solely in administering the nonmajor Federal financial assistance programs of the Town of Salem, New Hampshire, did not extend beyond this preliminary review phase.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems used in administering the Federal financial assistance programs of the Town of Salem, New Hampshire. Accordingly, we do not express an opinion on the internal control systems used in administering the Federal financial assistance programs of the Town of Salem, New Hampshire. Further, we do not express an opinion on the internal control systems used in administering the major Federal financial assistance programs of the Town of Salem, New Hampshire.

Also, our examination, made in accordance with the standards mentioned above, would not necessarily disclose material weaknesses in the internal control systems used solely in administering nonmajor Federal financial assistance programs.

However, our study and evaluation and our examination disclosed no condition that we believe to be a material weakness, except as indicated in our management letter of June 26, 1986, in relation to a Federal financial assistance program.

Town of Salem

Auditor's Report on Internal Accounting Controls (Continued)

This report is intended solely for the use of management and the applicable Federal agencies and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which, upon acceptance by the Town of Salem, New Hampshire, is a matter of public record.

HARLEY G. FEATHERSTON  **49**

DAVID M. GROFF  **50**

STEPHAN W. HAMILTON  **51**

MARK A. PEARSON  **52**

ALBERT RAYMOND  **53**

ARTICLE 2

Shall a charter commission be established for the purpose of establishing a new municipal charter?  YES **59**

NO **60**

ARTICLE 3

By Petition: Shall we adopt the provisions of RSA 72:37 for the exemption for the blind from property tax? This statute provides that every inhabitant who is legally blind shall be exempt each year from the property tax on a residence to the value of \$15,000.  YES **62**

NO **63**

ARTICLE 4

Shall the powers and duties of the office of collector of taxes be transferred from said office to that of town manager?  YES **66**

NO **67**

ARTICLE 5

Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would revise Section 309-114 of the Zoning Ordinance, dealing with violations and penalties, to conform with state law RSA 876:17.)  YES **69**

NO **70**

ARTICLE 6

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would delete Section 309-46A of the Zoning Ordinance, which allows special exceptions for zoning requirements in the Commercial District.)  YES **74**

NO **75**

**ARTICLE 7**  
 Are you in favor of the adoption of Amendment No. 3 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would allow the Board of Adjustment to grant special exceptions for in-law conversions in Residential and Rural Districts if certain conditions are met.)

YES **78**   
 NO **79**

**ARTICLE 8**  
 Are you in favor of the adoption of Amendment No. 4 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would add a new Section 309-51 D to the Zoning Ordinance to allow churches, parish houses, and convents in the Recreational District.)

YES **83**   
 NO **84**

**ARTICLE 9**  
 Are you in favor of the adoption of Amendment No. 5 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would revise the sections of the Zoning Ordinance dealing with year-round conversion of seasonal properties. Conversions would be restricted unless lot size, frontage, setback, and septic system requirements are met.)

YES **88**   
 NO **89**

**ARTICLE 10**  
 Are you in favor of the adoption of Amendment No. 6 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would specify the minimum lot size and frontage requirements in the Business Office Districts.)

YES **93**   
 NO **94**

**ARTICLE 11**  
 Are you in favor of the adoption of Amendment No. 7 as proposed by the Planning Board for the Town Zoning Ordinance as follows? (This amendment would create a new Open Space Residential District which permits single and two-family dwellings with smaller lot size and frontage requirements in Residential and Rural Districts (areas of 10 acres or more). Provided that 35% of the site remains as open space. Developments in this district would have an overall density no greater than that permitted in the underlying districts. Restrictions on setbacks, frontage, height, and open space are specified.)

 NO **98**

**ARTICLE 12**  
 Are you in favor of the adoption of Amendment No. 8 as proposed by the Planning Board for the Town as follows? (This amendment would repeat the 1976 National Building Code and adopt the 1984 BOCA Basic/National Building Code and amendments thereto.)

YES **105**   
 NO **106**

**ARTICLE 13**  
 Are you in favor of the adoption of Amendment No. 9 as proposed by the Planning Board for the Town as follows? (This amendment would adopt the 1984 BOCA Fire Prevention Code, and amendments thereto.)

YES **110**   
 NO **111**

**ARTICLE 14**  
 Are you in favor of the adoption of Amendment No. 10 as proposed by the Planning Board for the Town as follows? (This amendment would adopt the 1981 Life Safety Code, and amendments thereto.)

YES **114**   
 NO **115**

**ARTICLE 15**

Are you in favor of the adoption of Amendment No. 11 to the Zoning Ordinance and Zoning Map as proposed by petition of the voters of this town? (This amendment would rezone property located off Bridge Street shown on Salem Tax Map 90, Lot B, from partly Rural and partly Residential to all Residential.) The Planning Board disapproves this amendment.

YES **117**   
 NO **118**

**ARTICLE 16**

Are you in favor of the adoption of Amendment No. 12 to the Zoning Ordinance and Zoning Map as proposed by petition of the voters of this town? (This amendment would rezone property located on the north side of Main Street, between Clinton Street and Sullivan Avenue, shown on Salem Tax Map 41, Lots 46, 47, 47A, and 48, from Residential to Business-Office District 1.) The Planning Board disapproves this amendment.

YES **123**   
 NO **124**

**ARTICLE 17**

Are you in favor of the adoption of Amendment No. 13 to the Zoning Ordinance and Zoning Map as proposed by petition of the voters of this town? (This amendment would rezone property located on the south side of Veterans Memorial Parkway, shown on Salem Tax Map 94, Lot 4-1, from partly Residential and partly Commercial-Industrial C to all Commercial-Industrial C.) The Planning Board approves this amendment.

YES **130**   
 NO **131**

ARTICLE 18

Are you in favor of the adoption of Amendment No. 14 to the Zoning Ordinance and Zoning Map as proposed by petition of the voters of this town? (This amendment would rezone property located on the north side of Main Street, between School Street and North Main Street, shown on Salem Tax Map 20, Lot 44, from Residential to Commercial-Industrial C.) The Planning Board disapproves this amendment.

YES 136 NO 137

ARTICLE 21

Are you in favor of the adoption of Amendment No. 17 to the Zoning Ordinance as proposed by petition of the voters of this town? (This amendment would amend the section of the Zoning Ordinance dealing with season's greetings and political signs.) The Planning Board approves this amendment.

YES 156 NO 157

ARTICLE 19

Are you in favor of the adoption of Amendment No. 15 to the Zoning Ordinance as proposed by petition of the voters of this town? (This amendment would repeal the existing wetlands section of the Zoning Ordinance and replace it with a Wetlands Conservation Overlay District. The new district would include those areas that contain swamps, marshes, poorly or very poorly drained soils, and wetland vegetation. Separate sections of the ordinance discuss disputed boundaries, permitted uses, special use permits, buffer provisions, assessment and enforcement.) The Planning Board disapproves this amendment.

YES 143 NO 144

ARTICLE 22

Are you in favor of the adoption of Amendment No. 18 to the Zoning Ordinance as proposed by petition of the voters of this town? (This amendment would create a new Adult Manufactured Housing District and rezone land in the southwest corner of Salem, shown on Tax Map 102, Lots 3 and 4, from Rural to Adult Manufactured Housing. The new district would permit manufactured housing/mobile homes to be occupied by no more than two adults (45 years old and over) per unit. Restrictions on setbacks, screening, size and density are specified.) The Planning Board disapproves this amendment.

YES 163 NO 164

ARTICLE 20

Are you in favor of the adoption of Amendment No. 16 to the Zoning Ordinance and Zoning Map as proposed by petition of the voters of this town? (This amendment would rezone property located on the north side of Lowell Road, shown on Salem Tax Map 98, Lot 12, from Rural to Commercial-Industrial B.) The Planning Board approves this amendment.
