TOWN WARRANT

The State of New Hampshire

To the inhabitants of the Town of Brookline, in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Daniels Academy Building in Said Town of Brookline on Tuesday, the fourteenth day of March next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise and appropriate such sums of money as may be necessary to defray town charges for the ensuing year.
3. To hear reports of Agents, Auditors, Committees, and all other officers heretofore chosen, and pass any vote relative thereto.
4. To see what sum the Town will vote to raise and appropriate for Highways and Bridges.
5. To see if the Town will vote to authorize the Selectmen to enter into a three year contract for snow removal on Town Roads.
6. To see what sum the Town will vote to raise and appropriate for the Public Library.
7. To see if the Town will vote to raise and appropriate the sum of \$300.00 to be put in a Capital Reserve Fund for the celebration of the Bi-Centennial anniversary of the Town in 1969, or take any action relative thereto.

8. To see if the Town will vote to ratify and confirm the contract entered into by the Board of Fire Engineers and the Farrar Company of Woodsville, Massachusetts for purchase of a fire truck at a cost of \$16,469.00.

9. To see if the Town will vote to raise and appropriate the sum of \$1,125.00 for the first semi-annual payment of interest on the bond issue for the construction of the new Fire Station.

10. To see if the Town will vote to raise and appropriate the sum of \$2,500.00 for the first annual payment on the principal of the serial notes issued for the construction of the new Fire Station.

11. To see if the Town will vote to adopt a "Group Alerting and Dispatch System" for the Fire Department for a minimum period of five (5) years at an annual cost of \$766.20.

12. To see if the Town will vote to raise and appropriate the sum of \$766.20 to defray the annual cost of the "Group Alerting and Dispatch System" if the preceding article is adopted.

13. To see if the Town will vote to raise and appropriate the sum of \$600.00 for an air compressor and tank for an alarm system for the Fire Department.

14. To see if the Town will vote to raise and appropriate the sum of \$500.00 for new fire equipment.

15. To see if the Town will vote to authorize the withdrawal of funds from the "Capital Reserve Fund for Fire Fighting Equipment" in the amount of \$1,000.00, and vote to authorize the Board of Fire Engineers to use said sum for the purchase of new hose and nozzles for the new fire truck.

16. To see if the Town will vote to allow any discount on property tax.

17. To see if the Town will vote to authorize the Selectmen to sell any property on tax liens acquired by Tax Collector's Deed or Tax Collector's Sales.

18. To see if the Town will vote to raise and appropriate the sum of \$50.00 for a swimming instructor.

19. To see if the Town will vote to charge a penalty of twenty cents on each poll tax unpaid after September first.

20. To see if the Town will vote to raise and appropriate the sum of \$1,000.00 for the purchase and installation of a six thousand gallon fuel oil tank for Daniels Academy and the new Fire Station.

21. To see if the Town will vote to raise and appropriate the sum of \$800.00 for outside repairs to Daniels Academy Building.

22. To see if the Town will vote to raise and appropriate the sum of \$300.00 for the purchase of an adding machine to be used by Town Officers.

23. To see if the Town will vote to raise and appropriate the sum of \$100.00 for Civil Defense.

24. To see if the Town will vote to raise and appropriate the sum of \$125.00 for Memorial Day.

25. To see if the Town will vote to authorize the Selectmen to enter into a contract for janitor at Daniels Academy Building.

26. To see if the Town will vote to raise and appropriate the sum of \$478.83 to secure State Aid for permanent improvements of highways.

27. To see if the Town will vote to raise and appropriate the sum of \$100.00 for Blister Rust Control.

28. To see if the Town will vote to raise and appropriate the sum of \$300.00 for cutting, spraying and removal of trees.

29. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the maintenance and modification of communication equipment.

30. To see if the Town will vote to raise and appropriate the sum of \$500.00 for cutting of brush along town roads.

31. To see if the Town will vote to authorize the Selectmen to enter into contract for the purchase of fuel oil for the Town Hall and Fire Station.

32. To see if the Town will vote to discontinue the Town paying for opening and closing of graves.

33. To see if the Town will vote to establish a Water Pollution Commission to consist of the Board of Selectmen.

34. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

35. To see if the Town will vote to raise and appropriate the sum of \$50.00 to perpetuate the custom of a Town Christmas tree, children's program and gifts to teachers.

36. To see if the Town will authorize the consuming of food in the upper hall of Daniels Academy, with any per-

son, party, organization or corporation to be held responsible for any damages to the building or grounds.

37. To see if the Town will establish a town Conservation Commission as set forth in R. S. A. 36-A.

38. To see if the Town will vote to accept the following legacies:

1. The sum of \$200.00, the income of same to be used for the perpetual care of the Kline lot.
2. The sum of \$100.00, the income of same to be used for the perpetual care of the Rohrabacher lot.

39. To transact any other business that may legally come before said meeting.

Given under our hands and seals, this twenty-seventh day of February, in the year of our Lord nineteen hundred and sixty-seven.

GROVER C. FARWELL, SR.

DISTRICT FOREST FIRE WARDENS REPORT

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.
2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us: (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 A. M. and 5:00 P. M. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the best way to dispose of rubbish is at your authorized town or municipal dumping area.
2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT FOREST FIRES

NASON W. FESSENDEN
District Fire Chief
WINTHROP H. HANNAFORD
Forest Fire Warden

REPORT OF THE LIBRARY TRUSTEES

The Brookline Public Library held Open House on April 18, 1966 to observe National Library Week. The response was gratifying with many of the townspeople attending.

During the month of August, story hours were held for the younger children. These were a success and plans are being made to hold them again.

In October a coffee hour was held at the library with the Elementary School teachers as guests. At this time, arrangements were made to loan library books to the classrooms. It was felt that this meeting led to better cooperation between library and school with resulting benefit to the children.

1966 also saw the Brookline Public Library open another day. This means that the Library is now open four days a week for a total of seven hours.

The Library obtained 134 new books (67 adult and 67 children) and wishes to thank those people who donated books.

Respectfully submitted,

GERALDINE PHILLIPS
CHARLOTTE FARWELL
BEATRICE DENEHY

CHARLOTTE WRIGHT

Treasurer

REPORT OF THE POLICE DEPARTMENT 1966

I would like to extend my sincere thanks to the Board of Selectmen for the splendid co-operation and support they have given to me and to my department during 1966.

As you will see by the police activity report, there is a never ending increase in police activity here as well as all over the country and according to all reports and forecasts this will continue for some time to come.

This year as in the past the officers of the department have attended police training schools, meetings with other departments and regional police meetings, in order to keep abreast of the ever changing laws and new and revised rules of police practice.

In closing I would like to thank our local newspaper the Brookliner for its support of the police department. Also, I would like to express my gratitude to the members of my department for their support, fine work and many hours of services. Last but not by any means least I would like to thank the many townspeople that through their support and co-operation have helped to make my job more pleasant and my department more efficient. THANK YOU.

Respectfully submitted

ALVIN W. TAYLOR
Chief of Police
Brookline, N. H.

FIRE HOUSE BUILDING COMMITTEE REPORT

Following last year's Town Meeting, the Fire House Building Committee and the architectural firm of Edward L. Baker and Assoc. of Leonminster, Mass. drew detailed plans of and specifications for a new fire station. The specifications were offered for bids with three contractors returning figures of \$9,000 over the money available.

The committee and Mr. Baker negotiated with two contractors and by omissions and revisions came up with a contract of \$22,700. awarded to Earl L. Davis and Sons of Pepperell, Mass. The main features left out from the original specifications were the hot top drive, pump and line to the river, cupola, painting and hose drying rack.

Ground was broken on December 1st and construction was underway. As the building will not be completed until late spring a full report will be presented next year.

MELENDY POND REPORT OF 1966

The Melendy Pond Authority has undertaken two improvement projects this year. The first being a paved ramp for easier access to the water for boats. The second was the tarring of the Hood Road from Old Route 13 to the Melendy Pond Authority property.

The Selectmen have reassessed the camps in the projects increasing the total assessment to over \$93,000.00. This is a tax revenue of over \$3,500.00 for the town.

We have plans for more improvements in the project this coming year which will make it an even greater asset to the town.

PLANNING BOARD REPORT

The Brookline Planning Board has worked very hard in preparing the Zoning and Land Use Ordinances to be voted on at this year's Town Meeting.

The Planning Board feels that zoning is an inevitable necessity for the future growth of Brookline. We have tried to set forth realistic minimum standards for efficiency and economy in the process of the development of our Town.

It is the Planning Board's realization that as the Town continues its growth, there will be a definite need for revisions of and amendments to the proposed Zoning and Land Use Ordinance.

The Board strongly recommends that the voters take time to think of Brookline's future and vote accordingly.

WARRANT FOR THE ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Brookline qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the ninth day of March 1967, at eight o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agents of the district.
2. To hear the reports of agents, auditors, committees or officers chosen and pass any vote relating thereto.
3. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
4. To hear the report of the School Building Committee.
5. To see if the district will vote to raise and appropriate the sum of \$196,500.00, or any other sum, for constructing and originally equipping and furnishing an addition to the Elementary School, and to determine whether such appropriation shall be raised by borrowing or otherwise.
6. To see if the district will vote to raise and appropriate a sum of money for renting or purchasing portable classrooms to be used at the elementary school.

7. To see if the district will vote to authorize the School Board to expend invested capital reserve funds to defray the cost of adding additional classrooms to the Elementary School.

8. To see if the district will vote to authorize the School Board to make application for and accept on behalf of the district any or all grants or funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire or from any other source.

9. To see if the district will vote to approve the position of Business Manager for Union #40 and accept State Aid for that position.

10. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries of school district officials and agents, and for the payment of the statutory obligations of the district.

11. To transact any other business which may legally come before said meeting.

Given under our hands at said Brookline this 14th day
of February, 1967.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

I herewith submit my second annual report as Superintendent of the Union No. 40 public schools. My report will be directed at three areas: 1. An assessment of the past year, 2. Implementations of recommendations made in 1965-66, and 3. Recommendations for future needs.

The 1965-66 school year was rewarding and successful. For this, I owe a great debt of gratitude to an excellent corps of teachers and administrators, to the cooperation and enthusiasm of the parents of this community, to an extremely capable and dedicated central office staff, and to the firm foundation laid by past administrators.

I would be remiss if I did not single out members of the School Board for special commendation. Without their cooperation, understanding, and wisdom, a successful year could not have been realized. The School Board has discharged its responsibilities with admirable courage and determination in the true spirit of dedicated public service.

If I was to single out one outstanding accomplishment during this past year, it would be the opening of the new Milford Area Junior-Senior High School in September of 1966. This school was forced to open under extremely difficult conditions. We were without heat, rooms were partially completed, and the workmen went about their busy schedule of construction in the midst of pupils and teachers busily at the task of education. In spite of the difficulties, our pupils and teachers conducted themselves in an outstanding manner. Without their full cooperation, school operation would not have been possible. It is also important to note the fine cooperation received from parents in the area towns. My office had only one call to protest the school conditions during this period. You, the parents, are to be commended for your patience and support.

The new school is now substantially completed and the people can be well assured that this building is the product of quality construction. You have a school that you can be proud of. The library facilities are recognized as the finest in the state. The planning and design are a tribute to a hard working area committee, school building committee and School Board. These people spent long hours overseeing the completion of this project, and their dedication to the task has borne quality results.

This year, for the sake of administrative efficiency, we have reorganized the staff at the Area School. Rather than continue with two principals, we have appointed Mr. Corson principal of the Area School with complete administrative authority. Mr. Buck has been appointed Curriculum Director with authority in the area of curriculum research. Mr. Desmarais has been appointed vice-principal and functions in the area of pupil discipline, extra curricula activities and general plant management. These three men have done a remarkable job organizing their staff and guiding the program at the Area School.

The Junior High School building was put to use during this past year. Supervisory Union offices have been moved into this building and occupy four classrooms as office space and one room for conference purposes. The gymnasium has been used by the Special Class and the Jacques School pupils. It was necessary to move one third grade from the Garden Street School to the Annex due to larger primary grade enrollments.

An equally rewarding experience was to see the completion of plans for a new elementary school in the Town of Amherst. The building, which is now under construction, will represent the careful planning of a dedicated group of men who labored long hours to plan the State's first library-centered elementary school. The building will be ready for occupancy in September of 1967.

This year also marked initiation of a special study committee to examine the long range needs of the Milford schools. A similar committee is scheduled to begin operation in Mont Vernon in early spring of 1967. As is becoming more evident each day, the southeastern

corner of New Hampshire is expanding rapidly in population, and the foresight shown by citizens in our community to plan for long range educational needs is truly rewarding.

Mont Vernon has continued to provide a quality program under the very capable direction of Mrs. Clark. Unfortunately, Mrs. Clark has decided to culminate her career in education in 1967. Mrs. Clark will be missed by all who have been fortunate enough to have worked with her. Retiring with Mrs. Clark will be Mrs. Scully, our most capable first grade teacher. Filling these two positions with equally competent personnel will be one of the greatest challenges I have faced as Superintendent in this district. I extend best wishes to Mrs. Clark and Mrs. Scully for a well deserved and enjoyable retirement.

Mont Vernon has been plagued with space problems this year. We have had to divide the grade one-two combination and have hired an additional teacher for grade two. By doing this, we have moved into the former work room and now are utilizing the building 100%. Projection studies show that the present facilities will not be adequate for more than one or two years.

This year has been a very successful one for Brookline in terms of educational growth. We have been able to concentrate on the immediate needs of the elementary program and have made significant improvements at all levels. Among the most significant is a modified team approach to instruction in grades four, five and six, and the addition of physical education to the upper elementary program.

The Town of Brookline has also embarked on a planning program and their committee will present to the townspeople, plans for a four or six room addition to the present elementary facilities. Brookline, like other communities, is faced with rapid growth. At present, classes are being conducted in the basement of Daniels Academy and two sections meet in the all-purpose room of the Elementary School. I hope the citizens of Brookline will act favorably to extend the facilities at the Elementary level and allow growth in the quality of educational offerings.

The Hollis School Board appointed a special study committee in 1966 to examine their educational needs and this completed the cycle for the Union 40 schools. When Mont Vernon begins their study in March, we will have 100% activity in the area of educational planning. Hollis, like each community, is plagued with growth problems and, like each other town, they are getting ready in advance. The Hollis committee will be making recommendations for additions at both the Elementary and Secondary schools. The projections of the Hollis Study Committee indicate a marked population increase in the years ahead and a need for continued planning for school space.

The residents of Hollis should be extremely proud of their efforts to support education. This effort has been one of the greatest in the State of New Hampshire and it has provided one of the state's most highly regarded programs. I would like to pay special tribute to the Hollis principals for their dedication to education and for the quality job done by them. It is a pleasure to work with administrators like Mrs. Jacques and Mr. Thorburn. Hollis is fortunate to have them on the staff.

Another event worthy of consideration was the large number of vacancies filled before September of this year. I have made a special effort to observe our new teachers and I take great pride in reporting that this is the finest group of young people we could ever hope to have on our staff. I am sure that the citizens of the community have been equally impressed with the quality of these new teachers. Our new members, together with our very competent veteran staff, have allowed us to continue forward in our quest for quality education in Union 40.

As I completed my first year as Superintendent of Schools, I was most impressed with the remarkable job done by the laymen of our community. Your dedicated contributions have placed education where it is. You can be proud of your accomplishments. I hope that each member of our community, who has contributed, will accept this message as my sincere note of thanks for the accomplishments of the past year. You have made the greatest contributions; your time and energy and the results have already begun to pay big dividends.

Some citizens may not be in agreement with my assesment of the progress in our schools. They may feel that the schools are not progressing at a rate that is commensurate with the community's potential. If this is the case, I urge you to please bring your criticism to us. Too often, our critics are vocal only when out of range of school officials. We welcome constructive criticism and solicit your comments on education.

We have no monopoly on wisdom. You, the citizen, should demand good reasons for the actions we advocate and when you doubt our actions, please come forward and express your opinion. By the same token, I also urge you to speak up for education. You must let your School Board know that you support excellence, and that you are willing to pay for it with tax dollars, with votes and with service. It is not the educators who are in charge of your schools, but you the citizens. You take charge every time you attend the School District Meeting and vote on issues, and everytime you grasp or neglect an opportunity for planning and financing education. This office is open to the people of our community, and I welcome your comments, positive or negative. I want to work with you to stress fine schools and excellence in general. I hope you will agree that our children deserve the best.

Review on Recommendations

With the assistance of Federal funds, two of the recommendations made a year ago have been implemented. In April of 1966, we organized a Curriculum Council designed to improve coordination of curriculum -- one through twelve. The council is composed of twenty-three faculty members and their primary objectives are to: 1. Coordinate curriculum by subject area in grades one through twelve, 2. An interdisciplinary coordination of curriculum, 3. Improvement of communication between faculty, administration and school board, 4. Improvement of communication between the Union 40 schools for the development of a meaningful program. The council will be responsible for developing complete course guidelines in each of the major subject areas. This project is designed for completion in a three year period.

The second recommendation that was made a year ago was to establish an elementary guidance program. Again, with the assistance of Federal funds, we were able to hire Miss Nancy Mauri as an elementary counselor to serve the Union 40 towns. Miss Mauri has been assigned a tremendous task and has carried on her duties in a most commendable manner. In addition to conducting student conferences, Miss Mauri is available for parent conferences Thursday evenings of each week from 7 in the evening until 10. We are also in the process of developing a better testing and test evaluation program through the elementary guidance office.

The third recommendation made a year ago was the implementation of a kindergarten program for the area towns. Unfortunately, due to the increased costs and rising number of pupils in the towns, this recommendation has had to take a lower order of priority in our program development.

Future Needs

The basic test that we must apply to our schools is "Does the growth sought in pupils coincide with the functions established for the schools". The schools of our community are effective if they are accomplishing the objectives as stated in their philosophy, i.e. the schools are dedicated to educating every child to the maximum of his potential. In assessing our current program, we can say that the schools are doing a most commendable job of caring for the majority of our pupils. We are neglecting a few at the extremes, however, and recommendations are being made to care for these deficiencies. We are presently offering an effective program for the retarded. We have, however, another group of youngsters that is presently being cared for in private facilities due to lack of public school concern for their needs. These youngsters, defined as trainable, are as entitled to learning experiences as any other member of our community, and for this reason, I recommend the adoption of a program for their education in Milford. The Milford school could serve as a base for receiving tuition pupils from other districts. A program of this type should be no more costly to Milford residents than tuitioning their children to other towns. Each sending district will contribute to the total operating costs of the program. At the other end of the spec-

trum, we have our gifted children. We are attempting to accelerate their program through grouping practices at the elementary and secondary schools. There are, however, a percentage of pupils in each community who will benefit from a special program designed for the creative child. Next year, I am recommending a pilot program for the Town of Amherst. If accepted by the district, this program will serve as a pilot project for the State of New Hampshire, and together with our trainable program in Milford, will give us an opportunity to assess full implementation of our philosophy of education.

As stated earlier, we are in an area of rapid population growth and must continue to assess our needs. Each town is presently studying future population impact on education. I hesitate to make recommendations pending the findings of these studies, but feel that thought should be given in the Milford area complex to the consolidation of elementary programs at the intermediate level, grades five through eight. The construction of such a central facility would provide an emergency valve for elementary expansion in each community and relieve possible overcrowded conditions at the present Junior-Senior High School. Hollis is located in an area that could be expanded to include Brookline and other non-district towns at the 7-12 level.

We are also faced with a need of additional staff members at both the elementary and secondary schools to keep the pupil-teacher ratio at an acceptable level. This year's budget will request additional staff members in all of the area towns to maintain this ratio. The remainder of my recommendations will be found incorporated in the reports of the Teacher Consultant and the principals. I hope that careful consideration will be given to each of these recommendations.

I would like to pay tribute to those teachers who will be retiring at the end of the 1966-67 school year. They are: Mrs. Margaret Clark and Mrs. Elizabeth Scully in Mont Vernon, and Mrs. Hazel Tonella, Miss Elsie Wheeler, Miss Doris Rowell and Miss Mary McGettigan in Milford. These teachers have served our community and children faithfully for the past years. I join the entire faculty and community in thanking them for contributions to this field.

In conclusion, I would like to pay tribute to the memory of Mabel Connolly who died during the 1965-66 academic year. Miss Connolly had planned to retire from her Teacher Consultant position in June of 1966, but unfortunately was taken from us in March. Miss Connolly was a dedicated and devoted member of the Union 40 staff. As Teacher Consultant, Miss Connolly brought new life to the schools. Through her efforts, the elementary program reached an all time high. Miss Connolly possessed, to an unusual degree, the personal attributes and professional requirements of a great teacher and administrator. She established a standard of quality to guide and inspire all who will be associated with the Union 40 school.

JOHN A. MURPHY, JR.

Superintendent of Schools

TEACHER CONSULTANT

This constitutes my first annual report as Teacher Consultant for Union No. 40 schools. Since assuming the position in August, 1966, I have found it to be both an exciting challenge and a rewarding experience. Considering the growth potential of the area and the constantly increasing educational needs and desires of our children and our society, there is every reason to expect more exciting and demanding challenges, with unlimited opportunity for rewarding experiences in the future.

This report is intended to explore the requirements of the position, focus upon the challenges and suggest the potential benefits to Union No. 40 communities resulting from meeting these challenges. To accomplish these purposes, this report is organized in sections as follows:

1. Details of Position
2. Impressions
3. Action Initiated
4. Recommendations
5. Concluding Remarks

Details of Position

Basic responsibilities of the position remain unchanged from the past year. Emphasis on various responsibilities has changed, however. The addition of a full time elementary guidance counselor has shifted much of the direct involvement in details of guidance, testing, home and community work to that office. General supervision of the work of the guidance counselor has become the direct responsibility of the teacher consultant. Curriculum studies, help to teachers to secure materials, suggestions for use of materials, organizations of in-service programs and assorted research projects, all designed to aid instructors and help improve instruction occupy a considerable percentage of the teacher consultant's time. Directly related to these duties is the continuing responsibility of cooperating with the secondary principals to hasten articulation of curriculum from grades one through twelve.

Also, much more time is to be devoted to assisting in the recruitment of elementary level teachers by this office.

Finally, the most significant change in emphasis has been the establishment of supervisory and evaluation techniques which will help teachers in classroom situations and also rate them for merit pay purposes. The number of visits to each classroom for these purposes now represents the greatest time requirement of this office.

Reporting, advising and recommending on coordination and supervision of the curriculum and the instructional program is done constantly through the superintendent to the various boards of education.

Impressions

The general quality and dedication of staff members, administration and members of the various boards of education represent encouraging strength in planning and implementing the instructional program. An apparently strong foundation laid by previous staff, administration and board members contributes immeasurably to the present status of the instructional program in Union No. 40 schools.

There have been several encouraging, significant innovations during the past year. The forementioned addition of a full time guidance counselor was one. Another was the establishment of a curriculum council, comprised of and directed by Union No. 40 teachers which has already resulted in identification of curriculum problems and implementation of steps to improve our programs. Also important, was the establishment of a merit evaluation pay program for teachers intended to reconcile payment of salaries with performance and to encourage individual initiative, instructional improvement and the recruitment and retention of superior teachers. These and other efforts indicate an awareness of and concern for providing a quality program for Union No. 40 children.

Action Initiated

Since the beginning of the present school year, a number of programs and/or steps have been initiated by principals, by this office, or through mutual cooperation, which have been intended to help strengthen the instructional program and to assist teachers in improving instructional techniques and in evaluating new materials and programs.

Among these are the following:

1. Initial steps to coordinating curriculum programs from grade one through twelve. (In conjunction with the curriculum council and secondary principals.)
2. Team teaching organization (Amherst-Grade 4) — Departmentalization (Grade 4-6 Brookline).
3. Revised readiness testing program.
4. Adjusted achievement and I. Q. testing programs.
5. In-Service programs for teachers including consultant service in mathematics, reading and language arts, and, provision for scheduling teachers from one union town for visits in classrooms in another union town to derive benefits from observing different, effective teaching techniques and exchanging ideas.
6. Provision for more extensive purchase of visual-aid materials.
7. Establishment of a teacher-resource library at the Superintendent's office.
8. An independent reading program (apart from the regular program, but intended to complement it) in Brookline grade six.
9. Revisions in the penmanship program.
10. Initial steps in each of the following:
 - a. An evaluation of school program project in conjunction with the State Education Department in Amherst.
 - b. A study of permanent record cards for improvement upon present system.
 - c. A study of the system of grouping children for instruction purposes.
 - d. Orientation program for substitute teachers.

Recommendations

The position of teacher consultant offers a unique vantage point for involvement in and evaluation of the total school program. It is obvious that the consultant has a fundamental responsibility to make recommendations related to the educational program. To identify and overlook problems would be a serious neglect of the interests of the children, staff members and taxpayers of the Union No. 40 towns. After careful, studied consideration, the following recommendations are offered:

1. Addition of specialists in reading at the elementary and secondary level. Eventual addition of consultants in other major subject areas for assistance to staff members rather than for evaluation purposes.
2. Reduction of teacher-pupil ratio to 25 to 1 generally and 20 to 1 at the grade one level. (Large group instruction organizations excepted.) This recommendation is not simple opinion; it is based upon consideration of the Union program and research data.
3. Consideration of a Middle School Program for Area towns and an eventual Cooperative School Program from grades five through twelve.
4. Consideration of a kindergarten program throughout the Union.
5. Addition of a full time aide in Special Class. Initiation of a program for trainable children.
6. Consideration of a full time physical education instructor at the elementary level. (Obvious building facility plan adjustments necessary to implementation.)
7. Addition of the position of Assistant Superintendent for Instruction with retention of the position of Teacher Consultant. This is necessary to more effective implementation of merit pay evaluation and general supervision.

Concluding Remarks

This is a lengthy report, of necessity. Re-directed emphasis and expanding requirements resulting from demands of a modern society on the educational program help to make it so. This, in my best judg-

ment. represents a true assessment of the present situation and immediately apparent future needs. The educational program of this Union has many strengths, but much is yet to be accomplished if we are simply to sustain what is good and improve upon weaknesses. Assuming a desired quality beyond the status quo, however, this report considers necessary steps to accomplishing minimal standards and offers programs for progress beyond that which is minimal. This office will constantly work towards quality in the interest of progress throughout Union No. 40.

EDWARD J. LAWTON

Teacher Consultant

REPORT OF THE BROOKLINE SCHOOLS

Robert Harris, Principal

It is pleasant to submit this, my third report, as Principal of the Brookline Schools. School opened last September with two new teachers and continued increase in the student body.

Mrs. Harris — Grade One	38 pupils
Mrs. Madigan — Grade Two	28 pupils
Mrs. Dunn — Grade Three	41 pupils
Mrs. Smith — Grade Four	22 pupils
Mr. Harris — Grade Five	26 pupils
Mr. Macierowski — Grade 6	29 pupils
	<hr/>
	184 pupils

I feel the present school year has been greatly enhanced by Mrs. Mary-Ann Smith taking over grade four. Mrs. Varney, "semi-retired", since she is still with us in the capacity of a reading-remedial teacher three half days a week, was replaced by Mr. Neil Macierowski in grade six. Mr. Macierowski has included a physical education program which, I feel, is a welcome addition to the overall picture.

This year we are working with team teaching at the new building, with the exception of grade three. Mrs. Smith is handling the reading program in grades 4-6. Mr. Macierowski is doing a fine job with science and social studies. I am handling arithmetic and English for grades 4-6 with the exception that Mrs. Smith retains science and English in grade four. To my mind, this is working out very well.

I am pleased to note steps are being taken to add rooms to the new building to take care of an overcrowded condition. To partly alleviate this overcrowding, particularly in grades one and three, Miss Sandra Mallette and Mrs. Judith Atherton have been added to the staff to teach sections of these grades. Mr. Tong is doing a fine job with the music program, having replaced Mrs. Stiff. I find Mr. Edward Lawton, new Teacher Consultant, to be a fine man to work with as Mr. John Murphy continues to be as Superintendent of Schools.

In closing, I want to thank the Board, Mr. Murphy and Mr. Lawton, parents and youngsters for making the first half of the school year 66-67 a pleasant and rewarding experience.

SCHOOL BOARD REPORT

The large increase of enrollment that took place during this last school year occupied much of the time and energy of the Brookline School Board. Last May, we anticipated 28 students in the first grade, 36 in the second grade, 27 in the third grade, 30 in the fourth grade, 31 in the fifth grade and 22 in the sixth grade. When school opened last fall, we actually had 36 in the first grade, 29 in the second grade, 41 pupils in the third grade, 22 pupils in the fourth grade, 25 pupils in the fifth, and 30 in the sixth. The number of pupils in grades one and three constitute an overload for both teachers. In grade one, 36 pupils appears to be too many for a single teacher to effectively introduce to school life and teach pupils to read. In grade three, 41 pupils is more than any one teacher should be expected to handle and more than the size of the room can adequately accommodate.

Because of this situation, it was agreed by the School Board to employ a teacher's aide to help half a day in grade one and half a day in grade three. This was obviously a makeshift solution and anticipating that any further increases would make even this impractical, we went to the selectmen and asked for permission to use the dining room facilities in the Town Hall for additional classroom space if any more pupils were to come into either grade one or grade three. By the end of December, the enrollment in grade one reached 40, and we decided that the time had come to split grade one into two parts under the supervision of Mrs. Harris, but with a full time aide assisting with the other youngsters. This required hiring an additional aide to help in grade three. This means, that during the current school year, we will be using eight classrooms and six teachers with two aides. We now have two first grades and two third grades. This situation will continue next year. In addition, we will have coming into the first grade, according to our anticipated figures right now, 35 children. This appears to require two first grades next year, in addition to two second grades and two fourth grades, for a total of nine classrooms and nine teachers.

II

To adequately provide this amount of classroom space, the School Board recommends that we add to the present school building and consolidate all our classrooms at one location. If we add four rooms to the present four classrooms, we would still have to use the all-purpose room for classroom space next year. We would no longer be able to use the all-purpose room for small group instruction, assembly purposes, physical education, music classes and library facilities. It would leave no place to accommodate the large first grade we presently anticipate the following year. Our present census figures give us an enrollment of 44 pupils coming into the first grade the year after next. Building only four classrooms appears to be inadvisable and the School Board does not recommend this solution, but it will be presented as an alternative to the voters. If we build six additional classrooms to the Elementary School, we could anticipate that this would take care of our problems for the next two or three years anyway. An eight room alternative is also being presented to the voters. This would appear to answer our problems for the next five years at

a minimum, maybe longer. With building costs increasing at an estimated 7% a year, this would appear to be the best long range solution. However, because of the impact of increasing operational costs in addition to capital costs involved in building, the School Board is recommending the six room alternative. If we do not build, we have to face providing for these increased enrollments which we now anticipate anyway. If we do not build this year, we will have to find another classroom somewhere in town to take care of the two first grades we anticipate next year. The following year, we would have to find still another classroom in the community. This would be in addition to the use of the dining room in Daniels Academy and the all-purpose room we are using now. We will be faced with these added operational costs of hiring new teachers and providing these spaces. Wherever we find space to house these youngsters, there will be cost involved in making these temporary classrooms adequate for our children to learn in. Obviously, this is a self limiting process and eventually, we will have to face building added facilities whether we like it or not, and in the meantime, building costs are bound to rise.

III

Other changes in the budget include our annual tuition increase for our junior and senior high pupils to Nashua. This year, we will have an increase from \$467 to \$518 for each pupil in grades seven through nine. We will have an increase for each pupil in the Senior High from \$521 to \$589. This \$51 increase in grade seven through nine compares to the \$29 increase we experienced last year. This \$78 increase for Senior High compares to a \$12 increase last year. This reflects the greatly increasing costs in education we have experienced all over the state during this last school year. Last year, we budgeted \$68,115 and this year we are budgeting \$78,421. Last year, we allowed for a possible increase in enrollment of 10% in this account and this year, we have cut this to 5% because of the big increase in other budget items this year.

IV

We have eliminated, for economic reasons, the position of part time remedial teacher which Mrs. Varney filled for us this year. Even though Mrs. Varney's services have added greatly to our Ele-

mentary School facilities, we feel that the large increase in other budget items has made it imperative that we discontinue this position. We have had to increase the amount planned for text books and instructional supplies because of increased enrollments and increased cost.

V

There are no hidden costs in this budget. The School Board feels that, together with the town, we must face the alternatives that are open to us and what increasing enrollments mean in terms of what we will have to provide in the coming years.

A \$4,000 contingency has been included if we do not build. This would include the cost of purchasing new desks, etc. for the incoming first grade, and improving the temporary facilities we are presently using. For any alternative, the voters choose, some costs can be removed. Below is a summary of the cost of these alternatives.

	Cost of Construction	Cost of Operation 67-68 Inc. Principal & Interest	Income Over 66-67 Am't. Raised By Taxes	Approx. Tax Increase
8 Rooms	196,500	152,783	51,304	14.75/1000
6 Rooms	150,500	147,615	46,136	13.18/1000
4 Rooms	109,500	143,366	41,887	11.96/1000
No bldg.		136,087	34,608	9.87/1000

SCHOOL STUDY COMMITTEE REPORT

The School Study Committee has studied the present salaries of teachers in our union, southern New Hampshire, and northern Massachusetts. In view of the higher pay scale in surrounding towns, the increasing shortage of good, qualified teachers and in general, the problem of attracting these qualified teachers, the Committee makes the following salary schedule recommendations:

1. The present salary schedule be deleted and a new one instituted beginning with the 1967-68 school year.

2. The following salary schedule be adopted:

Starting	B.A. \$5,200	M.A. \$5,400
1	5,500	5,700
2	5,800	6,000
3	6,100	6,300
4	6,400	6,600
5	6,700	6,900

Teachers hired under this proposed system will be carefully evaluated at the end of each year and will either progress according to this schedule or will not be rehired.

Teachers presently in the school system are to be placed within the proposed scale according to individual negotiation with and evaluation by the School Board.

The School Study Committee thanks the members of the board and the Superintendent of Schools for the help contributed and information supplied to aid our study task.

CARL E. ANDERSON, Chairman
KENNETH RUSSELL

PAULA STRUCKMAN

REPORT OF THE BUILDING COMMITTEE

A School Building Committee was appointed at the March 1966 School District Meeting to investigate the need for a school addition and what is required to fulfill that need.

The elementary school population growth has been eight new students per year since 1953 with an accelerated growth rate of fifteen per year for the last four school years. This growth rate indicates a minimum of one new class of thirty or more students every three years or a more realistic growth rate of a new class every two years. Presently there are eight classes in Grade 1 through 6 with a projection of two first grades next year for a total of nine classes.

The need for additional classrooms is a present reality. One classroom is being held in the basement of Daniels Academy and another in the all-purpose room in the new school house. The renovation of other facilities presently existent in the town is not recommended as it would be only a temporary arrangement and would be a non-recoverable investment and would not provide for the projected school population increase.

The addition to the present five room school will provide for centralized administration and availability to the facilities of educational T. V. and the audio-visual provisions required to meet the need of educational demands of today's society. The costs of maintaining multiple educational plants will be eliminated, thereby lessening the overhead expenses which add nothing to the education of the student.

RECOMMENDATION

It is the recommendation of the School Building Committee that a six classroom addition be added to the Elementary School by the vote of the School District Meeting in March, 1967. The structure should be completed as soon as economically feasible.

1. The six room addition will provide for present requirements and reasonable future growth. School structure costs have risen 7% annually.

2. We recommend that all capital reserve funds for constructing and equipping additional classrooms be applied to the cost of the addition to reduce the bond required.

SYNOPSIS OF SCHOOL MEETING

March 3, 1966

The annual School Meeting was called to order by the Moderator, Thomas Arnold, and the meeting opened for business under Article 1.

Article 1. It was voted that since the items covered in this Article are covered in the budget under Article 10, this article be passed over and considered under Article 10. Motion made by Beatrice Hall and seconded by Herbert Benton.

Article 2. As the School Study Committee report was inadvertently omitted from the Town Report, copies were passed out at this meeting. Allan Fessenden and William Snell gave a brief explanation of the report. It was voted that the reports be accepted as printed in the annual report and the report of the School Study Committee be accepted as presented. Motion made by Beatrice Hall, seconded by Agnes Homoleski.

Article 3. The motion was made by Beatrice Hall and seconded by Agnes Homoleski to continue the present School Study Committee. Geraldine Phillips resigned from this Committee. An amendment was then made by Donald Skidmore and seconded by Mr. Russell that John Sheehan be appointed to fill the vacancy created by Mrs. Phillips' resignation.

A second amendment was made by Marjorie Soper and seconded by Miriam Jepson that Paula Struckman be appointed to fill the vacancy.

The first amendment was voted on and defeated.

The original question was then put to the meeting and carried.

The names of Walter B. Fessenden and Allan O. Fessenden were presented in nomination for auditors of the School District by Miriam Jepson and seconded by Arthur Bent, Jr. By vote of the meeting, Walter B. Fessenden and Allan O. Fessenden were elected auditors. Allan Fessenden was sworn into office.

Article 4. Beatrice Hall moved that the moderator appoint a committee of two to serve with the three members of the School Board on a school building committee and that the Board report on its findings and make recommendations at the next annual district meeting. Seconded by Allan Fessenden.

An amendment was made by Donald Skidmore and seconded by Frank Keeler that the School Board appoint the members. The amendment was voted on and defeated. The original question was then voted on and was carried.

Article 5. It was voted that the district raise and appropriate the sum of \$300 to prepare preliminary architect's plans for an addition to the elementary school. Motion made by Beatrice Hall and seconded by Allan Fessenden.

Article 6. It was voted that the district raise and appropriate the sum of \$2,500 to be invested in a Capital Reserve fund for constructing and equipping additional classrooms in the elementary school. Motion made by Beatrice Hall and seconded by Gardner Benson.

Article 7. It was voted that the district authorize the school board to make application for and to accept on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire or from any other source. Motion made by Allan Fessenden and seconded by Sidney Hall.

Article 8. It was voted that the district vote to accept the provisions of PL 89-10 and authorize the school board to make application for and expend the sum of \$2,500 in the 1965-66 school year for such projects as it may designate and further to authorize the board to apply for and expend an additional \$2,900 in PL 89-10 funds for the 1966-67 school year. Motion made by Beatrice Hall and seconded by Donald Skidmore.

Article 9. It was voted that the district raise and appropriate the sum of \$1,200 for the salary of a part-time remedial teacher. Motion made by Beatrice Hall and seconded by Quentin Young.

Article 10. It was voted that the district raise and appropriate the sum of \$146,723.27 for the support of the schools, for the payment of salaries for school district officials and agents, and for the payment of the statutory obligations of the district. This amount includes those amounts passed on under earlier articles in this warrant. Motion made by Beatrice Hall and seconded by Allan Fessenden.

Article 11. Under this Article, the Moderator read a letter of resignation from Marguerite Porter, School Board member. A motion was made to have the School District ballots reprinted: the three-year School Board term to be shown with the three names of those who filed and a space for a write in; and in addition, a space for a write in for a School Board member for a two-year term to replace Mrs. Porter. Motion was made by John Sheehan and seconded by Allan Fessenden. An amendment was made by Allan Fessenden and seconded by Frank Keeler that a printed X be placed in the box so provided for the two-year term for School Board. After some discussion, the amendment was withdrawn and the original question voted on and carried.

The meeting recessed at 9:55 P. M.

Respectfully submitted,

GERALDINE PHILLIPS, Clerk
