DEDICATION

DEDICATED TO THE MEMORY OF

ALBERT R. JEE

"AL"

1928 - 1985

a gentleman who will be remembered
for his friendship and genuine kindness.

Al's dedication to service in the Town of Rye included serving as the Clerk on the Board of Adjustment for twelve years, and as the Treasurer for the Rye Library for ten years.

Al also served as a member of the Rye Lion's Club from 1970 until his death, December 28, 1985.

SPECIAL RECOGNITION

We wish to recognize a life-long resident, whose values and strength give meaning to the phrase "She has done it, so can I"!

In 1972 her husband was diagnosed as having multiple sclerosis. Committed to the belief that as long as possible the ill should be cared for in the love that only that person's own home can provide, she brought new hope to those who suffer from catastrophic long-term illnesses as well as to their families.

Always expressing her appreciation for the many friends who have aided her, overshadows what she has found time to do for others despite her own burdens. Through her efforts, a little more directly than she would ever admit, two regional multiple sclerosis home care courses were established, and now there is even a national course.

She is a former 4-H Leader, Sunday School Teacher, Mother of six children, and long-time Ambulance Corps Volunteer.

RYE is quite proud of ESTHER V. WOODS. She has done it, so can you!

TOWN OFFICIALS
FOR THE YEAR ENDING DECEMBER 31, 1985

<u>MODERATOR</u> (2-year term)	
Henri A. Camire	Term expires 1986
<u>SELECTMEN</u> (3-year term)

TOWN WARRANT

The State of New Hampshire

To the inhabitants of the Town of Rye, in the County of Rockingham in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Rye Elementary School in said Rye on Tuesday, the eleventh (11th) day of March, next, at nine o'clock in the forenoon, to vote by ballot on the following subjects:

ARTICLE 1. To choose a Moderator for the ensuing two years; a Selectman for the ensuing three years; a Town Clerk for the ensuing three years; a Treasurer for the ensuing year; a Cemetery Trustee for the ensuing three years; a Library Trustee for the ensuing three years; a Supervisor of the Checklist for the ensuing six years; a Budget Committee member for the ensuing year; two Budget Committee members for the ensuing three years; a Trustee of Trust Funds for the ensuing three years; two Planning Board members for the ensuing year; two Planning Board members for the ensuing two years; and two Planning Board members for the ensuing three years.

ARTICLE 2. To choose all necessary officers for the Rye School District in accordance with the statutory procedure adopted by said District at its March 1962 annual meeting.

ARTICLE 3. To see if the Town will vote to amend the Town of Rye Zoning Ordinance as proposed by the Rye Planning Board, to wit:

Amendment 1. To adopt the December 1985 Reorganized Rye Zoning Ordinance prepared by the Planning Board as a replacement of the present zoning ordinance text?

Amendment 2. To amend Section III-E to make the one-building, one-lot rule applicable only to residential buildings?

Amendment 3. To amend Section III-F.1 to make the setback distance requirement for septic systems a uniform twenty (20) feet for side and rear lot boundaries?

Amendment 4. To amend Section III-F to delete Section F.2 which states that "Alteration, repairs or replacement or extensions of existing septic systems must comply with State Water Supply and Pollution Control Regulations promulgated under RSA 149-E"?

Amendment 5. To amend Section IV-C by replacing it with the new standards for home occupations prepared by the Planning Board and delete the definition of "home occupation" from Section I?

Amendment 6. To amend Sections IV and V to permit aquaculture as a use permitted by special exception in the Single Residence and General Residence Districts?

Amendment 7. To amend Section IX-A to delete residential uses as permitted uses in the Commercial District?

Amendment 8. To amend Section XIII-B.2 to delete the requirement that a lot-of-record buildable under the "grandfather" clause requires a variance from the Zoning Board of Adjustment?

Amendment 9. To amend Section XIV-B to delete airports as a use permitted by special exception anywhere in Rye?

Amendment 10. To amend Section XVI-A to delete mobile home parks and subdivisions as uses permitted by special exception in the Business, Commercial and Industrial Districts?

Amendment 11. To amend Section XVI to require that all mobile homes located in mobile home parks and subdivisions meet the manufactured housing definition provided by NH RSA 674:31?

Amendment 12. To amend Section XVI-C(5) to increase the minimum lot size for mobile home or trailer spaces within approved mobile home parks to: "... the greater of: (1) 15,000 square feet, or (2) the area required by NH Administration Rules WS 1004.03?"

Amendment 13. To amend Section XIX to adopt the provisions of NH RSA 676:2 allowing joint meetings or hearings of the Zoning Board of Adjustment and Planning Board when an application requires action from both boards?

Amendment 14. To amend Section XXIII-D to provide that the maximum fine for violations of the zoning ordinance shall be "\$100.00 for each day such violation may exist or continue to exist beginning on the date that notice of a violation is received from the municipality or upon conviction, whichever is earlier?"

Amendment 15. To amend the Section I definition of "Frontage" to state that frontage must be continuous?

Amendment 16. To amend the Section I definitions of "Lot" and "Lot of Record" to read as follows:

"LOT. The whole area of a single parcel of land, whether buildable or not, with any amount of square footage and ascertainable boundaries, undivided by a street."

"LOT OF RECORD. A lot described in a deed which has been lawfully recorded in the Registry of Deeds for the County of Rockingham, or which, if not so deeded, is a lot which is part of a subdivision, the plan of which has been lawfully recorded in such Registry of Deeds?"

Amendment 17. To amend the Section I definition of "Non-Conforming Use" to delete the requirement that secondary non-conforming uses must be discontinued?

Amendment 18. To amend the Section I definition of "Structure" to read as follows:

"STRUCTURE. Any temporary or permanently constructed, erected or placed material or combination of materials in or upon the ground, including, but not limited to buildings, mobile homes, radio towers, sheds and storage bins, storage tanks, portable carports, swimming pools, tennis courts, parking lots, and driveways with a man-made surface but not subsurface waste disposal facilities. Fences, stonewalls and driveways are structures, but are exempt from dimensional requirements?"

Amendment 19. To adopt the new Rural Residence (RR) District prepared by the Planning Board, which establishes a 60,000 square foot minimum lot size and a 200 foot minimum frontage for lots permitted there and reclassify (i.e. re-zone) the southern area of Rye from the Single Residence (SR) District to the new Rural Residence (RR) District, as delineated on a copy of the Official Zoning Map entitled "Proposed 1986 Zoning Map Amendments?"

Amendment 20. To adopt the new Highway Business (HB) District prepared by the Planning Board and reclassify (i.e. re-zone) all land having frontage on Lafayette Road (i.e. U.S. Route 1) from the present zoning classifications to the new Highway Business (HB) District, as delineated on a copy of the Official Zoning Map entitled "Proposed 1986 Zoning Map Amendments?"

Amendment 21. To adopt the zoning standards for approved cluster subdivisions prepared by the Planning Board, which include provisions that cluster subdivisions set aside at least three (3) acres of open space for the common use of residents of the subdivision; that cluster subdivision be at least ten (10) acres in size; and that cluster subdivisions have an overall density no greater than one single family dwelling per acre and amend Section IV-G to allow, in the Single Residence (SR) District only, approved cluster and subdivisions having lot sizes no less than 30,000 square feet in area and reduced frontages no less than 120 feet?

ARTICLE 4. To see if the Town will vote to appropriate the sum of \$3,500,000 for the purpose of constructing a Town Complex to include a Police Station, Fire Station, Town Hall, and Library, such appropriation to be raised by the issuance of bonds or notes under and pursuant to the Municipal Finance Act, N.H. RSA Chapter 33, as amended and supplemented, and to authorize the Selectmen to issue and sell such bonds or notes, determine their details and take such other action as may be necessary to carry out and complete the financing of the project, or to pass any other vote relating to the foregoing matters.

(This Article will require a two-thirds vote.)

(This Article is recommended by the Budget Committee.)

ARTICLE 5. To see if the Town will vote to appropriate the sum of \$2,000,000 for the purpose of constructing a Town Complex to include a Police Station, Fire Station, and a Town Hall, such appropriation to be raised by the issuance of bonds or notes under and pursuant to the Municipal Finance Act, N.H. RSA Chapter 33, amended and supplemented, and to authorize the Selectmen to issue and sell such bonds or notes, determine their details and take such other action as may be necessary to carry out and complete the financing of the project, or to pass any other vote relating to the foregoing matters.

(This Article will require a two-thirds vote.)

(This Article is recommended by the Budget Committee.)

ARTICLE 6. To see if the Town will raise and appropriate the sum of \$421,000 to be used to cover the Rye Landfill area as mandated by the State of New Hampshire, Department of Solid Waste to be financed for 1986 as follows: \$200,000 from 1985 unreserved fund balance (surplus), \$171,000 from the City of Portsmouth, and \$50,000 from 1986 taxes.

(This Article is recommended by the Budget Committee.)

ARTICLE 7. To see if the Town will vote to raise and appropriate \$9,400 (nine thousand, four hundred dollars) for Mosquito Control to purchase an **ALL TERRAIN VEHICLE**, and to authorize the withdrawal of these funds from Federal Revenue Sharing Funds.

(This Article is not recommended by the Budget Committee.)

ARTICLE 8. To see if the Town will vote to raise and appropriate \$19,000 (nineteen thousand dollars) for additional costs of re-valuation, for all properties within the Town of Rye, and to authorize the withdrawal of these funds from Federal Revenue Sharing Funds.

(This Article is recommended by the Budget Committee.)

ARTICLE 9. To see if the Town will vote to create the position of Administrative Assistant to the Selectmen, and to raise and appropriate the sum of \$30,000 (thirty thousand dollars) to pay the salary. The Administrative Assistant shall be a college graduate with experience in municipal administration, and be familiar with the state and federal statutes regarding town government.

(This Article is recommended by the Budget Committee.)

ARTICLE 10. On petition of **JEFFREY CONNOR, JEAN M. LOW, THOMAS HANLEY** and 13 others, to see if the Town will raise and appropriate \$2,750 for the Seacoast Mental Health Center as requested of the Selectmen, but denied by them, for the year 1986, and also to raise and appropriate an additional \$2,000, an amount which the Selectmen reduced the 1985 request of the Seacoast Mental Health Center from the appropriation the Town of Rye has been contributing for many years. These funds are needed by the Center to continue to serve about 75 Rye residents per year. The Center requests roughly \$1.00 for each member of the Town's population, though Rye has usually contributed only about \$.50, even before the heavy cuts were made in 1985 and 1986.

(This Article is not recommended by the Budget Committee.)

ARTICLE 11. On petition of **A. VAUGHN SANBORN, RICHARD E. KUTZLEB, CHARLES CONWAY** and 13 others, to see if the Town will vote to raise and appropriate the sum of two thousand, six hundred dollars (\$2,600) to reimburse the voters who paid that amount in legal fees to secure a court order requiring the selectmen to insert in the Warrant of the 1985 Town meeting an article which had been submitted to them according to state law R.S.A. 39:3, (Article 3A . Are you in favor of increasing the Board of Selectmen to five members?) The money is to be paid to **MELVIN R. LOW** who will distribute it to the other contributors..

(This Article is not recommended by the Budget Committee.)

ARTICLE 12. On petition of **MARGARET C. CLARK, JACQUELINE A. BISHOP, SARAH C. MILLER** and 13 others, to see if the Town of Rye will vote to raise and appropriate the sum of \$1,100 (one thousand one hundred dollars) to assist SEACOAST HOSPICE, a non-profit organization.

(This Article is not recommended by the Budget Committee.)

ARTICLE 13. To see if the Town will adopt the provisions of RSA 72:37 for the exemption for the blind from property tax? This statute provides that every inhabitant who is legally blind shall be exempt each year from the property tax on a residence to the value of \$15,000."

ARTICLE 14. On petition of PAULA S. SNYDER, MARGARET H. READ, BARBARA A. HANSEN and 12 others, to see if the Town will vote to change the present annual tax billing to a semi-annual billing beginning in tax year 1987. If this is adopted, taxes would be due and payable on July 1 and December 1 in accordance with New Hampshire tax statute 76:15 a.

ARTICLE 15. On petition of HARTLEY G. WORMHOOD, DAVID REYNOLDS, STEVE JEFFERSON and 7 others, to see if the Town will vote to authorize the Selectmen to accept, on behalf of the Town, a deed to a certain road known as "RANDOM ROAD". The same being completed according to the specifications approved by the Planning Board and the Selectmen, and further that the Director of Public Works and Highways shall confirm to the Selectmen that said road is in conformity with such specifications.

ARTICLE 16. To see if the Town will vote to authorize the Selectmen to apply for, accept and expend, without further action by the Town Meeting, money from the state, federal or other governmental unit or private sources which becomes available during the fiscal year. Pursuant to New Hampshire Revised Statutes Annotated 31:95-b as amended.

ARTICLE 17. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

ARTICLE 18. To see if the Town will vote to accept the budget, submitted by the Budget Committee and pass any vote in relation thereto, and to raise and appropriate such sums of money as may be necessary to defray Town charges for the Calendar Year 1986.

ARTICLE 19. To see if the Town will vote to eliminate a five percent (5%) discount on all property taxes paid within thirty (30) days from the date of mailing of the tax bills.

ARTICLE 20. To see if the Town will vote to authorize the Planning Board to prepare a six (6) year capital improvement program pursuant to NH RSA 674:5 so that the Town may legally update and enforce a growth control ordinance?

ARTICLE 21. To see if the Town will vote to oppose the burial, storage, transportation and production of high level radioactive waste in the Town of Rye and State of New Hampshire; and to call upon Congress to conduct an independent investigation, with full public participation, into the feasibility and prudence of the US Department of Energy's (DOE's) present plan to dispose of radioactive waste, and into the DOE's competence to carry out such a plan, and to request from DOE a 90-day extension of the response period for the Draft Area Recommendation Reports?

ARTICLE 22. To see if the Town will vote, in affirmation of the unanimous position taken by the Board of Selectmen not to participate in any graded or ungraded emergency evacuation drills or exercises, until a radiological emergency evacuation response plan has been approved by majority vote at Town Meeting after public hearing by the Board of Selectmen.

ARTICLE 23. To see if the Town will vote pursuant to the New Hampshire RSA 31:105 to provide indemnification for Selectmen, Town Employees, Town Officers or Agents from personal loss or expense including reasonable legal fees and costs, if any, arising out of any claims, demand suit or judgement by reason of negligence or other act resulting in accidental injury to a person or accidental damage to property providing the indemnified person was at the time of the accident acting within the scope of his employment or office.

ARTICLE 24. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction or sealed bid such surplus Town equipment as is not traded in on new equipment this year.

ARTICLE 25. To see if the Town will vote to remove from Town Forest Management three (3) of the 46 (forty-six) acres of land abutting the First National Bank property and Parsons Field, shown as lot 97 on sheet 13 of the Rye Town Map.

ARTICLE 26. To transact any other business which may legally come before this meeting.

Given under our hands and seal this fourteenth day of February in the year of our Lord, nineteen hundred and eight-six

AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of
the Board of Selectmen
Town of Rye
Rye, New Hampshire

We have examined the combined financial statements and the combining fund financial statements of the Town of Rye, New Hampshire as of and for the year ended December 31, 1985, as listed in the accompanying table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation as explained in the above paragraph, the combined financial statements and the combining fund financial statements referred to above present fairly the financial position of the Town of Rye, New Hampshire at December 31, 1985 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The combining fund financial statements and supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Town of Rye, New Hampshire. The information has been subjected to the auditing procedures applied in the examination of the combined financial statements and, in our opinion, is stated fairly in all material respects in relation to the combined financial statements taken as a whole.

January 31, 1986

SELECTMEN'S REPORT

The Selectmen's office is no longer a part-time position. Whoever decides to run for office must make a complete commitment of time and energy. As chairman for 1985-86, I have in the past two years, spent an average of 35 to 45 hours per week doing the day to day demands placed on the town. The staff has increased to two full-time secretaries and the workload has more than tripled from just a few years ago.

To enlighten the Rye residents, a quick rundown for daily duties and projects under way or in the future will be listed:

1. The Rye Sewer project has taken up many hours. This is a \$2,600,000 project that certainly requires many meetings and decisions. The project has seen many delays and is approximately one year behind schedule. There were changes in location of the tank brought on by Demoulas and his concern of the effects on his property. That has now been resolved. There were also public notices as required by State and Federal law requiring 30 days for public input. There is still the sewer use ordinance and payment schedule to be revised and adopted. There is the financing of the project that takes many hours of Selectmen's time for correct procedure and borrowing. The project is projected to start this summer of 1986. Many meetings have been and will be required with our engineer Kimball-Chase.

2. The second time consuming project is our land-fill dump. Mandated by the state, we have had test wells installed which will require monitoring over the years. Our close-out plan consists of obtaining funds to reduce the burden of the cost to cover this land fill from the citizens of Rye. The Selectmen may find over 1/2 of the funds of a \$400,000 project without increasing the burden to the citizens. There have been and will be many meetings with our Engineering firm of Dubois and King.

3. The third project has been our Master Plan. Upon my arrival in office in 1983, I found our master plan gathering dust. Since then it has been basically completed, and many revisions are going before the voters. This revival of the master plan came on line in the nick of time as the following year it was mandated by the state to be completed by 1986 and very necessary if we want to have some control over the rapid growth of Rye. We are issuing building permits of new buildings and remodeling of nearly \$5,000,000 each year for the past two years. To control growth we must have this master plan and also adopt a master capital improvement formula for the future. (See Planning Board report).

4. This brings up the fourth project. A Building Committee has been working since the last town meeting on a proposed new town complex. Many hours and meetings have been held. Two proposals will be before the town. One consists of a new Fire, Police and Town Hall building along with a new Library. The second will be for Fire, Police and Town Hall without the Library, but anticipated the town would vote the Library in 1988. Not enough can be said for the benefit to the town in favor of these projects. They should have been planned years ago and built when costs were down. It is projected a

Selectmen's Report (continued)

10%/year increase each year we wait.

5. The fifth project consists of many hours spent on various day to day items such as assessing for tax cards, revising current use cards, welfare projects, some court cases, coordinating various departments, budget preparations, preparing for town meetings and other elections, computerization, town maps update and regular day to day office procedures.

6. A sixth project will be a study and plan by our Selectmen and Dump committee to find a solution to our rubbish. With state mandates and time running out, we will have to find a solution in the very near future.

I reiterate, the office of Selectmen is a dedicated job with people willing to give up many hours of their time. I speak highly of fellow Selectmen Jack Tobey and J. P. Nadeau, as I find the town is a very important part of their time and devotion. Our office has handled over \$7,000,000 this year and the financing, legal issues, Evacuation Plan for Seabrook, our Solid Waste district, will consume many hours of planning. The job of a Selectmen is one for a dedicated person, not a part-time hobby.

Respectfully submitted,

FOR THE BOARD OF SELECTMEN

MAYNARD L. YOUNG, Chairman

BUDGET COMMITTEE

The Budget Committee has met quarterly with the Board of Selectmen and the School Board to review the receipts and expenditures.

Presently the committee is conducting meetings for preparations of the upcoming annual meetings.

In addition to the routine Town and School expenses the committee is being asked by the Selectmen to consider our appropriation of up to \$3,500,000.00 to construct a new Town Complex. These monies will be raised by a long term bond issue. This debt would be in addition to the \$475,000.00 debt already incurred for construction of the sewer system.

Another major cost to be considered this year is about \$400,000.00 to enable the Town to seal the landfill at Breakfast Hill with some type of impervious material.

I wish to thank various boards, commissions, and department heads for their assistance in providing the necessary information needed to prepare the budgets for the annual meetings.

Respectfully submitted,

Robert B. Goss, Chairman

POLICE CHIEF'S REPORT

The Rye Police Department wishes to express their appreciation to those who assisted the Department throughout 1985. Thanks to the Rye Fire Department for their continued working relationship, the New Hampshire State Police and the Rockingham County Sheriff's Department for their continued support.

I wish to thank the United States Coast Guard for their help and support in trying to keep our shore line safe for the beach goers.

The following is a list of arrests and summonses brought to Court by the Officers working the beach this past summer: over 550 summonses issued for alcohol offenses, over 50 drug related arrests and over 350 warnings for various offenses. Again, I want you, the people of Rye and the people who own cottages along the beach, to understand that during the early months before the summer really begins, the summer help has not yet started employment for the season.

The beaches and the rest of the Town are covered by the regular patrol cruiser and the Officers are unable to leave the cruiser for any length of time to patrol the beaches on foot. It was my desire to increase the beach patrol this past year from 10 weeks to 12 weeks, however, due to budget cuts, I was unable to do so.

The following are some of the laws that we, at the Rye Police Department are quite frequently asked about: RSA 644:13 Unauthorized Use of Firearms and Firecrackers. A person is guilty of a violation if, within the compact part of a town he fires or discharges any cannon, gun, pistol, or other firearm; or fires or discharges any rockets, squibs, or firecrackers except by written permission of the Chief of Police or Selectmen. RSA 644:14 Selling Air Rifles to Young Persons. If any person shall sell, barter, rent, lend or give an air rifle to a person under the age of eighteen without written consent of the parent or guardian, as the case may be, shall be guilty of a violation. Air rifles may be used in New Hampshire only in the home of the person under eighteen under parental supervision or in an approved range under responsible adult supervision. Air rifles may be possessed by a person under eighteen only in his own home under parental supervision or on the way to or from an approved range that is under the supervision of a responsible adult such as an instructor in gun safety or marksmanship. RSA 215-A:29 OHRV Operation and License. 1. No person under 12 years of age shall operate an OHRV unless he is on land owned or leased by his parent or guardian, or unless he is accompanied by a person 18 years or over who has assumed the responsibility, and who shall be liable according to law for personal injury or property damage to others which may result from such operation. A resident or a non-resident over the age of 12 years, must complete an approved OHRV safety training course and shall be allowed to cross a highway as directly as possible. Said person shall carry with him at all times while operating evidence of completion of the approved OHRV safety training course. IMPORTANT. RSA 215-A:6 It is illegal to operate an OHRV in or on active railroad rights of way, airports or cemeteries.

Police Chief's Report (continued)

The following is a list of some items handled by this Department last year: 1,326 summonses; 130 arrests; 1,349 warnings; 197 accidents; 544 alarms answered; 681 parking tickets issued; 1,295 miscellaneous; 8,171 incidents handled by the Rye Police Department in 1985.

Respectfully submitted,

Walter E. Dockham, Jr.
Chief of Police

1985 JUVENILE REPORT

Activity for the year of 1985 is reflected in the following figures: Total number of youths handled were 109 (80 males, 29 females). Offenses which make up these figures are: 30 alcohol related; 6 drug related; 35 delinquency; 9 CHINS; 2 Truancy; 2 OHRV; 2 auto theft; 2 fireworks; 17 checkups.

For 1985 the Juvenile Officers and Courts tried to use diversion programs instead of putting the children into the Court system. There were several cases which involved acts which should have put the children in Court, but we decided to try our diversion program. The parents and children as well as the victims were all receptive and pleased with the program. The Juvenile Diversion Program had 28 children go through the program and of those 28 we have not had a repeat offender.

For the past 6 to 7 years there have been occasional visits to the Junior High and the Elementary schools by Officers of the Rye Police Department. In 1985 the Police Department began its first formal year visiting the Elementary School as a part of their "Police and Kids" program. I made a total of 10 visits to the school, going to each classroom and discussing different areas of safety and child related areas. The recent cases of child abduction and missing children gave the section of "Stranger Danger" new meaning to the children and hopefully they will remember the things which will help keep them safe.

For those parents whose children were given a Child Registry booklet last year and still have not filled it out, please do.

For the year 1986 we plan to continue with the "Police and Kids" program at the schools.

I would like to thank publicly those who have supported the Child Registry Trust, because without your help the Towns' youth may suffer.

There is one law that I would like to bring to the attention of parents of school age children: RSA 193:2; Duty of Custodian "Every person having the custody of a child shall cause the child to attend such a school during all the time the public schools are in session." Failure to do so could result in a fine to the parent of up to \$500.00.

Respectfully submitted,
Chief Walter E. Dockham, Jr.

Randall B. Tompkins
Juvenile Officer

1985 ANIMAL CONTROL OFFICER'S REPORT

The following events were broken into various groups for better understanding. Most of the statistics used are under actual amounts due to instances that were handled on the spot by either picking up the animal and returning it to the owner or by notifying the owner of the violation.

52 dogs in pounds; 47 dogs released; 128 all complaints; 8 dog bites; 1 cat bite; 42 warnings; 18 summonses; 79 lost and found dogs.

Most of the complaints occurred during warm weather months.

Respectfully submitted,
Chief Walter E. Dockham, Jr.

Irwin Paris
Animal Control Officer

BUILDING INSPECTOR'S REPORT

I assumed responsibility for the office of Building Inspector on September 1, 1985.

I have and will continue to maintain the integrity of this office by treating each request, proposal and case on an individual basis with consistency and fairness under the law. I have found that although some areas need clarification, our ordinances, Building Code and enforcement procedures are sufficient when properly administered.

The work load long ago exceeded the capability of any part time position and an inherited back log of unprosecuted violations and court cases attests to this. Each will be dealt with but time is required for investigation which is often complicated. By cooperation with the Board of Adjustment and the Planning Board, my research can serve to expedite approval or rejection of numerous applications.

I have discovered the Town of Rye is being served by a cooperative and dedicated professional staff in its Town Offices. Each is a supportive member of a team effort providing an invaluable service to my office both through office skills and by providing communication at times when I am in the field.

	<u>1984</u>	<u>1985</u>

Building Inspector

FIRE CHIEF'S REPORT

Fire Department incidents for 1985 totaled 208 detailed as follows: structure 10; oil burner 2; arcing wires 31; electrical 4; chimney 21; woods/grass 20; auto accidents 7; auto fires 7; investigations 22; public assist 6; ambulance assist 6; fuel spill 9; false alarm 1; unauthorized burning 3; alarm activation 40; mutual aid given 10; mutual aid received 13; gas grill 1; lightning 2; police assist 2; rescue 1; hazard material response 3.

Other activities include: ambulance runs dispatched 269; fire permits issued 504; other permits 89; inspections 75; consultation/plans review 18; dispatched New Castle 32. We also received an increasing number of telephone calls for police assistance; animals; directions; court and the usual Chamber of Commerce type call.

The fire alarm in the public library is now connected to the municipal fire alarm system which provides a higher level of protection for our library. The fire alarm system was extended to the Webster Pines Nursing Home, thanks to the donation of materials by the home and the loan of a bucket truck from an area Fire Department. Labor was provided by fire department personnel.

Respectfully submitted,

George W. Moynahan, Jr.
Fire Chief

REPORT OF THE TOWN FOREST FIRE WARDEN AND STATE FOREST MANAGER

Between July 1984 and June 1985, we experienced more forest fires throughout our state than in any year in the last 50. Two of the leading causes of the 1,605 fires were children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more

Report of the Town Forest Fire Warden and State Forest
Manager (continued)

information.

Enforcement of a state timber harvest regulations is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you will become responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

Forest Fire Warden

PUBLIC WORKS DIRECTOR'S REPORT

During 1985, the highway department rebuilt one thousand four hundred twenty-five feet of Love Lane which completed the reconstruction of that street. The highway department also resurfaced another thirteen thousand feet of roadway including parts of South Road, Sagamore Road, Dow Lane and Love Lane.

The Town of Rye was very fortunate this past September when hurricane Gloria visited the area. The prediction of the hurricane was a good opportunity to set up and operate the Emergency Operations Center under the excellent leadership of Richard Tompkins, Director of Rye Civil Defense. The only deficiency of the public works department was not having two-way communications with the equipment and crews trying to keep the roads cleared of fallen trees. Despite the inability to communicate with headquarters and between crews, plus working after dark by lights, the men of the department worked hard and well to clear the roads of trees and limbs that were free of the power lines and not require help from Public Service Company.

The brush dump is fast filling up due to all the construction in Rye. Users of the brush dump are still dumping too much paper and household trash in the brush dump which should be placed in the packer for transporting to the refuse to energy plant at Pease Air Base.

The Town of Rye is required, by law, to be in a solid waste district. Rye has joined with New Castle, Portsmouth, North Hampton, Hampton, Exeter, and Derry to form the "Eastern Solid Waste Planning District." This planning district is looking into solid waste problems for the area and will work as a group to solve these problems.

The plans for the closure of the landfill at Breakfast Hill have been completed and are being reviewed by the State of New Hampshire, Department of Health and Human Services, Division of Public Health Services for approval. After the plans are approved, this work will be put out for bids and the work is to be done during the spring and summer months.

The construction of the transfer station was stopped and put on hold in August while we were getting approval and a permit from the State of New Hampshire. We received the approval and permit in December and the construction will continue as soon as the weather allows.

I wish to thank all the town employees and the citizens of Rye for their continued cooperation and support throughout 1985.

Respectfully submitted,

Roger O. Philbrick, Director
Public Works and Highways

MOSQUITO CONTROL

After the wet season of 1984, we were blessed with a dry season in 1985, until September. The beginning of September was cold and damp, so all supervisors cleaned and winterized the truck mounted sprayers. Every night we prayed for a frost, but every night the temperature stayed warm. After consulting with the other supervisors, I decided not to bring my spray trucks out of winter storage. I felt that the benefit of spraying one night was not worth the cost of chemical, labor and setting the sprayer back up for operation. This was a tough decision since so many residents were calling on me to spray. We never thought indian summer would last so long.

The State Pesticide Control Division outlines rules for all pesticide applicators to obey. One of these rules is to follow all guidelines on the insecticide label. The label specifies no adulticiding (spraying for adult mosquitoes at night) when temperatures drop below 65°F or when the wind is greater than 5 mph. These ideal spray conditions are not common, particularly in June and September. Another important law prohibits adulticiding near oceans, rivers, ponds, salt marshes, swamps and beehives. We honor all requests from residents alerting us to potential mosquito breeding habitats. All requests or inquiries may be left at the town hall by phone or mail.

Drivers of the truck have been instructed not to stop for anyone when spraying at night. Please do not attempt to do so for the safety of everyone.

This mosquito project is alive year round. October thru March is spent winterizing or reconditioning equipment, attending meetings and seminars, preparing budgets and writing reports. Late in March, we head into the woods in search of snow-melt pools and swamps where tiny larvae have started hatching from the eggs. Mosquito larvae develop in stagnant water only. Over 25 species of mosquitoes have been found in Rye. Each species has a different habitat. Some species prefer salt water, while others require freshwater. One species uses tree-holes, another occupies old tires. Homeowners may help control mosquitoes by eliminating stagnant water in rain gutters, tires, flower pots and any artificial container. Change the water in bird baths often. When elimination is not possible, chemical treatment may better suit the problem. If you suspect mosquito breeding on your property, then leave your name, address, phone number and a brief description at the town hall. We employ a variety of insecticides. This includes use of insect growth hormones, stomach poisons, mineral oil, bacteria (similar to DIPEL used to control gypsy moths). Literature is available for each insecticide.

I was pleased with the mosquito project in 1985. September mosquito populations were high in comparison to data from previous years.

Mosquito Control (continued)

Once again, I would like to thank my assistant, Rebecca Goodson. This was her third year in mosquito control. Of course, many thanks to the mosquitoes. I can't live with them, but I can't live without them.

Respectfully submitted,

Sarah Tillotson
Supervisor/Entomologist

RECREATION COMMISSION

The Rye Recreation Commission has been busy in 1985. In the spring we hired our new director, Linda Petersen, who immediately began planning programs for the year.

One of our biggest successes ever, was our first Reading/Discussion Series which was partially funded by a grant from the New Hampshire Council of the Humanities and co-sponsored by the Commission and the Rye Library. There were over forty people in attendance. The series featured speakers and writers from surrounding universities and schools and will be offered again in February of 1986.

The summer program was well run and well attended with over sixty children who participated in various sports, crafts and field trips. A few clinics and training sessions were also provided for activities such as bicycling and juggling. A small pre-school group also met at the Recreation Area twice weekly. Both programs will again be offered in July and August.

Another popular program that has recently been implemented and will be continued this coming summer was our pick-up volley ball games. The net and equipment were offered to residents on the town beach at the end of Cable Road Extension several evenings a week.

Ken Fox again deserves appreciation for all his personal supervision and commitment to the running of our town beaches. The hours of life guarded supervision were extended this year to meet the ever-increasing popularity of our beaches. More coverage will again be one of Ken's top priorities this year with the addition of a new guard. All safety equipment has been up-dated and increased to provide maximum safety to all beach-goers. We also owe thanks to the cooperation of the Rye Police Force who stand ready to help our guards in times of emergency. We hope and expect another safe summer season.

Fall started off with the kick of soccer balls and our fields were ready. John Murtagh has been recently appointed to our Commission and has already done a wonderful job in making sure that the fields are kept in top condition. Our new bleachers have also added to the comfort of those foot-weary parents who faithfully attend the soccer and football matches. This year we have also made it easier to see just what's going on during the games by lining the field with our newly purchased line machine.

Ghosts and goblins again haunted Parsons Field with the most successful Halloween Party ever held by Rye Recreation. Nearly six hundred children and their parents rode on the Hayrides, received balloons, apples, candy, doughnut holes, decorated gourds and cookies and generally had fun. Many towns-people generously gave of their time and talents. We would like to make special mention this year of Mr. Trefethen, Kit Baker and Jeff of Evergreen of Rye (the ugly ghoul with the pumpkin).

Recreation Commission's Report (continued)

Our winter activities were mostly school oriented but Rye Recreation made a spectacular splash with its unique entry in the Annual Rye Town Christmas Parade where Janice Hanley and Mimi White took first place in the float competition. Next year we challenge all the other town Commissions in this event. Warning: We plan to win again!

Presently, there is an active after school program under the guidance of our director. The new offering for the Reading/Discussion in February is entitled "Regional Women Writers in America". In the works are programs for co-ed aerobics and skiing if the snow ever comes back.

Respectfully submitted,

Rye Recreation Commission

RYE CONSERVATION COMMISSION

Our principal concern is preserving the wetlands of Rye. We receive copies of wetland applications for filling or dredging. We try to evaluate the impact of each proposal, and made a report on particular concerns.

We have been consulted on a regular basis by the Building Inspector where wetland questions have been raised. On several occasions, property owners have asked for our evaluation of their proposals on problems.

A survey of coastal wetlands is in progress, under Coastal Zone funding. Planned by Office of State Planning, the work is being done by Normandeau Associates. Conservation Commission members from each town meet at intervals with the survey team. Completed study due about about May 1986, will show wetland lines on a set of the local tax maps.

A donation of conservation land was donated to the Commission by the heirs of Jacob Ciborowski. This lies to the east of Lafayette Road.

Two members of the Commission attended the annual meeting of the Association of Conservation Commissions. Wetland and pollution problems were discussed.

Respectfully submitted,

Louise H. Tallman, Chairman
Rye Conservation Commission

CIVIL DEFENSE DIRECTOR'S REPORT

Many hours were spent this year with the other department heads attempting to identify problem areas that would require a combined effort of all the town resources to minimize or prevent the loss of life or property. We decided that our greatest threat would be the weather, either in the form of a winter storm or hurricane. This was followed by a chemical or hazardous materials accident and an aircraft accident. A good emergency plan is like insurance, if you don't have one, it's hard to sleep at night; and if you do have one, you hope you never have to use it. The big dilemma now arises; how much preparation and resources do you expend to prepare for something that may never happen? The middle course is probably the most practical. To have a plan that will cover emergencies in a general way, without being too specific or having to stockpile materials. The Civil Defense director works only as a coordinator for the Selectmen and the other town agencies. Each agency is more than capable of responding to a particular problem, but when the problem becomes big enough, there must be a coordinated effort between each one of them and possibly a county or state unit. The C. D. director becomes the coordinator.

On September 27th, hurricane Gloria hit us and although it was not a major storm, it did give us a test and we were able to identify problems that we hope to correct. We opened the shelter in the Jr. High and everyone cooperated in making the evacuees comfortable. We had some very dedicated volunteers who operated the shelter, but if the storm had been more severe and lasted longer, they could not have held out. The major area that needs improvement is that of shelter management and more people who will volunteer to help. Volunteers are a key to any neighborhood problem and my goal for this year is to train 10 people in shelter operations. The Red Cross has such a course and will conduct it for us when we are ready. We need a few good people who will give some time to learn how to take care of their friends in time of need.

I want to thank all the department heads and their people for their cooperation in helping me draft the emergency plan as well as all the volunteers who helped during Gloria.

Respectfully submitted,

Richard D. Tompkins
Civil Defense Director

RYE LIBRARY TRUSTEES

In 1985, the Rye Public Library continued to update services providing many interesting programs including book discussions and writing classes for adults which will again be offered in 1986. Special children's programming was offered due to our Children's Librarian, Susan Cronin, who secured grants from the Commission the Arts and Humanities. One of her summer programs resulted in the acquisition of two paintings by children's author, David McPhail, which have been framed for preservation.

Improvements to the library building include painting of the exterior trim and the installation of the fire detection equipment. Connected directly to the fire station, this equipment provides excellent protection for the building and its valuable contents.

Part of the valuable contents is a Leading Edge Computer which was recently purchased for use by the staff and eventually will be utilized for computerized inter-library loans. Another computer, a Tandy 1000, will soon be available for public use.

In anticipation of these purchases, Bette Owens, our library director, completed a course in computer literacy. Also upgrading her library skills is Kathleen Rudden who replaced Pat Stetson as the Adult Services Librarian. Her course in Public Library Administration will be credited toward a Masters Degree in Library Science.

We bring these updated skills and equipment to your attention and also some of our long range concerns regarding the future of library services in the town of Rye.

Since the library was built in 1911, many improvements and additions have been made. But these have always been within the constraints of the limited parcel of land available. State standards now force us to look ahead toward 1988. By that time, if the library is not handicapped accessible, we face the loss of ALL services provided by the State Library. These services are substantial and play an integral part of our operation. And, because of our multi-level building, handicapped accessibility will be most difficult and expensive.

An immediate problem is the lack of space. All facilities are being utilized to capacity. The staff lacks adequate work space and any expansion of the collection is virtually impossible since there is no room to house new materials.

We invite you to tour and utilize your facility and to ask questions you may have concerning our future together.

1985 came to a close with the library's participation in the "Walk Through Rye" sponsored by the Historical Society and the 3rd annual "Wassail-Open House" sponsored by the Library trustees and staff just before Christmas. Fellowship, tasty treats and good cheer were shared by all. We urge you to add the "Wassail-

Rye Library Trustees' Report (continued)

Open House to your calendar for 1986.

And lastly, the trustees wish to extend their appreciation to the entire library staff for their dedication and service throughout 1985.

And as we speak of dedicated service, we are reminded of Albert Jee whose death on December 28th, touched each of us who knew him. During his ten years he served as Treasurer of our library, his knowledge, friendship and genuine kindness enriched the lives of those with whom he worked. We will always remember Al Jee with love.

Respectfully submitted,

Lucille N. Hall, Chairman

LIBRARIAN'S REPORT

Once again the Rye Library has had a busy and productive year. In January, the staff consisted of Pat Stetson, Adult Services Librarian; Susan Torres Cronin, Children's Librarian; and Teddy Wyatt and Marjorie Little, Assistants. In May, Pat resigned and was replaced by Kathleen Rudden. Charles Lockhart is the Custodian. All of these people were important in providing quality library service to the town.

During the year the library has been the scene of much activity. Circulation reached a new high as it continues to increase each year. More than 300 new borrowers joined the library. Throughout the year, the staff kept a tally of people using the library, and the results were gratifying. Nearly 1800 year-round residents used the library at least once during the year (representing 998 families). This shows that a good percentage of Rye residents are making use of their local library for one reason or another.

The monthly newsletter was distributed at several places and provided residents with news of library events, book reviews, and the most popular feature, the list of new books. Books on tape continued to be very popular and more were purchased to keep up with demand. A series of reading/discussion programs were held. This was so popular that another series will be held in 1986. Another program for adults which will be repeated in 1986 is the Creative Writing class conducted by Mimi White.

The Children's Room offered a varied collection of activities for the young people of the town. During the year, the following were presented: craft workshops, movies, summer reading program, International Club, Rosenshontz Concert, Lost Nation Review, and book talks. Pre-school story hours were held for 3, 4, and 5-year olds. The Children's Librarian also visited the schools for book talks on a regular basis. The Christmas carolling in local nursing homes was successful. Again this year, more than 1400 children participated in activities at the library.

Library staff members attended various professional classes and meetings during the year, hosting several of them. The Library is a member of the Seacoast Library Cooperative, and the Director of the Rye Library is the current Chairman. The Library

Librarian's Report (continued)

is also part of the Seacoast Film Cooperative and the Seacoast Fiction Depository.

The Friends of the Library have continued to provide assistance for the Library. At their monthly meetings, they do various library tasks. They also provide goodies for special occasions (such as holiday story hours), and they decorate the library for Christmas. The proceeds of their annual book sale were used to purchase additional card catalog sections for the Children's Room. They also purchased the beautiful Christmas tree which gave the library a special touch during the Christmas season.

Many local organizations and individuals have been very generous to the Library. The Rye Lions, the Rye Art Study Group, the Exercise Class, and the Rye Business Association have all contributed money to the library during the year.

The increase in circulation and usage of the Rye Library during the past few years has shown that the current building is rapidly becoming inadequate for the requirements of a growing and productive library. Shelf space for new books is practically non-existent, which means that as long as the current building is in use, the library will have to discard a book for every book that is added. This means zero growth in the collection. Back issues of periodicals that it would be desirable to keep for research must also be discarded.

In 1985, the New Hampshire State Library issued standards for all libraries in the state. If the basic requirements are not met by 1988, the local library could lose all assistance from the State Library, including interlibrary loan, reference assistance, consultant service, on-line cataloging, film service, etc. The Rye Library meets all of the criteria but one -- handicapped accessibility. The cost of renovating the current building to provide accessibility would be extensive, and would actually take away space which we need desperately.

In addition to these factors, the traffic and parking situation in front of the building has become a major problem, especially for the elderly and for children. Also, the current office/work area/staff lunch area is very crowded.

Because of all of these factors, the voters may soon be asked to vote on a new library building. If library use continues to increase at the present rate, new facilities are crucial. If the library remains in the present facility for many more years, the Rye Library will become a stagnant institution with few innovations and zero growth. The Rye community must continue to show an interest in and an involvement with its library for the benefit of all of the people of Rye. The Rye Library will continue in its efforts to provide quality library service to the town. We hope that we are a vital part of the Rye community, and we appreciate the support and interest of the town and its citizens. Do yourself a favor -- become a library user. You won't regret it!

I would like to thank the staff, the trustees, and the Friends of the Library for their efforts during the year. We wish the very best to former Adult Services Librarian Pat Stetson and welcome aboard her replacement, Kathleen Rudden. All of

Librarian's Report (continued)

us will do our best to ensure that you use your local library to your advantage.

Respectfully submitted,

Bette C. Owens
Library Director

PLANNING BOARD

During an exceptionally busy year the Planning Board, assisted by Michael Donovan, had twelve regular meetings, three Public Information Hearings on the Rye Master Plan, two other Public Information Hearings, one joint meeting with the Zoning Board of Appeals, and twenty-six work sessions.

Board actions during the year included:

- approval of six new subdivisions creating nineteen new lots from six parcel;
- approval of two lot-line revisions;
- approval of five site plans;
- completion and approval of the Rye Master Plan and Master Plan Summary, the latter for mailing to each household;
- completion and approval of a reorganized and revised Zoning Ordinance.

Drafting of the Master Plan was guided by development of eleven goals which included:

- preservation of the present semi-rural and rural character of the interior
- protection of water quality, wetlands, scenic coastline and natural resources;
- continuation of orderly, modest growth with reasonably diversified housing consistent with regional responsibilities and environmental limitations.

Master Plan copies are available at the Clerk's Office for \$10/copy.

The Master Plan provides for some redistricting along the lines of the three principal use differences within the Town -- the developed seacoast, the semi-rural and rural interior and the commerce along Route 1. Three land use Zoning Ordinance amendments were prepared for voter action in March, 1986.

- 1-A rural district in the relatively undeveloped southern portion of the Town which provides for single residences on 60,000 square feet (1.4A) having 200 feet frontage.
- 2-A highway business district along both sides of Route 1. This includes the present commercial and business districts and a 3.6 A. parcel zoned single family residential.
- 3-Cluster zoning is permitted in the single residential district. Building density remains one house per 44,000 square feet with house lots set at 30,000 square feet and the remainder -- 14,000 square feet -- placed in perpetual open spaces.

Our thanks to Mr. David Wajda, who left to join the Board of Adjustment, and Mr. Tom Varrell who was an alternate for Selectman Nadeau. We welcome Mrs. John Dawley on the Board.

Planning Board (continued)

Thanks to all Board Members for their many hours of diligent service.

1986 should prove nearly as busy and just as challenging as many of the other provisions of the Master Plan are prepared for Town action.

Respectfully submitted,

James D. Brown, Chairman

RYE AMBULANCE CORPS

The loyalty and support of the citizens of Rye continue as always. Both your annual \$10.00 subscriptions and tax deductible contributions make it possible for the Corps to have the most modern equipment and also keep our training consistently up-to-date.

Improvements on the Ambulance Corps building are still proceeding and now include siding, several new windows, an electric overhead door and a cement floor in the bay side of the building. The newly painted meeting room has already hosted several seminars for area pre-hospital emergency personnel, our annual Red Cross Advanced First Aid and CPR courses and, of course, our weekly meetings.

The Ambulance Corps responded to 269 calls in 1985. The majority (154) were to private homes but we were also called to 46 motor vehicle accidents, 15 emergencies at local beaches and restaurants and there were numerous medical transfers to and from hospitals and nursing homes. The North Hampton Ambulance Corps requested five mutual aid assists and the Portsmouth Fire Department ambulance called on us for help once. These organizations respond without hesitation whenever Rye needs additional ambulances and their cooperation has been invaluable over the years.

Membership in the Corps includes Registered Nurses, Advanced First Aiders and Emergency Medical Technicians - several of whom also serve as volunteer firefighters for the Rye department. As always, we welcome new members and interested persons may contact any Corps member or leave word with the dispatcher at 964-6411.

No Annual Report would be complete without a special thank you to the Rye Fire and Police Departments. The Fire Department dispatches for us with a high degree of professionalism and also assisted on six runs this past year. There were 133 police assists in 1985 and the officers were of inestimable help. Rye is indeed fortunate in the caliber of our police and fire departments and both have our grateful thanks. They are always there when we need them.

Respectfully submitted,

Cynthia J. Berube, REMTA
President

RYE BOARD OF ADJUSTMENT

In 1985, the Rye Board of Adjustments heard 66 petitions at their 12 regular monthly hearings and 9 special hearings. 34 petitions were approved, 13 denied, 9 continued, 5 withdrawn without prejudice, 1 reheard, 3 appealed - 2 approved, 1 denied, and 1 tabled.

Josephine Catalino was appointed to replace the late Albert Jee, who could not consider a reappointment because of ill health. Mr. Jee served the Board as Clerk for many years and deserves the thanks and appreciation of the Town as well as our board. We miss him.

David Wajda was appointed to replace John Squires, who resigned, and David Paterson and David Rosania were appointed alternates.

Respectfully submitted,

Emily C. Seaver, Chairman

RYE HISTORIC DISTRICT COMMISSION

One major project this year has been to change the Rye Town Common Entrance as voted at the 1985 Rye Town Meeting. At the direction of the Board of Selectmen, the arch was removed and the granite blocks modified. After evaluation, the blocks were removed and are in the process of being replaced with old granite posts. One post is in place. The second will be installed in the spring. The reconstructed entrance will be in keeping with other existing old wall entrances in Rye.

The Commission has reviewed numerous requests for building changes within the Historic District. The Commission notes increasing pressure for use of land and buildings. Examples are: recreational facilities at the Town Common, the Bethany Church addition and parking lot, the Parsonage Apartment changes, and the renovation and/or removal of the town buildings. Per its charter, the Commission will continue to monitor and advise in its roll to preserve the integrity, character, and property value of the lands and buildings within the Rye Historic District.

Respectfully submitted,

Richard E. Kutzleb, Chairman
Rye Historic District Commission

CEMETERY TRUSTEES

The Cemetery Trustees wish to thank the Conservation Commission for planting several maple trees near the front of the cemetery, in memory of John Grimes.

During 1985 we did experience a few problems at the cemetery. Hurricane Gloria caused extensive damage to many of the trees, and, in the older part of the cemetery, many monuments have been kicked over resulting in damage to a lot of them. If those responsible for this malicious activity are caught, we certainly intend to prosecute to the fullest extent of the law.

We found it necessary to close the cemetery from sunset to sunrise because of people using the rear section as a place to park and drink beer, throwing their litter out onto the grounds. We feel it should not be necessary for our people to have to spend time cleaning up this litter several times a week.

Our thirty-two year old back hoe needs a lot of work and is worn out. During 1986 we hope to replace it with a good, newer one.

A reminder to those who have winter decorations on some of the graves: You should remove them no later than May 1st if you want to keep them.

Respectfully submitted,

Edward J. Ireland
Gordon E. Gaskell
John W. Patrick

TRUSTEES OF TRUST FUNDS

Our greatest accomplishment for 1985 was having the Library and Cemetery Perpetual Care Funds put into the town's computer system. Very few towns in the State of New Hampshire have accomplished this and this was completed due to the efforts of Jane Ireland with assistance from Janet Thompson. The Town of Rye paid David Singer for computer programming services.

This will eliminate an annual expense of \$500.00 for outside accounting and computer services, and all records will be held within the Town of Rye Offices.

There is a balance in the Sale of Lots fund of \$15,538.23 which will take care of the upcoming purchase of a new tractor backhoe that will replace a 1954 tractor that has outlived its usefulness.

Respectfully submitted,

Melvin R. Low
George McAlpin
Robert B. Goss

RESULTS OF 1985 TOWN MEETING

March 12, 1985 - Ballot Voting

- Art. 1 To choose all necessary Town Officials for the ensuing year.
- Art. 2 To choose all necessary School District Officers for the ensuing year; results recorded by the School District Clerk.
- Art. 3 To increase the Board of Selectmen to five (5) members.
Article DEFEATED Yes 582; No 641
- Art. 4 To adopt Zoning Ordinance amendment as proposed by petition of George Carpenter. This article required a 2/3 vote in order to be adopted because a protest was filed with the Selectmen.
Article DEFEATED Yes 728; No 464 (Needed 794 votes in order to pass.)

March 16 - General Business Meeting

- Art. 5 ADOPTED - To authorize the Selectmen to provide for alternates to service the Town's Boards as provided for under the provisions of RSA 673:6.
- Art. 6 ADOPTED - To authorize the Selectmen to apply for, accept and expend money from the state, federal or other governmental unit which becomes available during the calendar year.
- Art. 7 ADOPTED - To authorize the Selectmen to borrow money in anticipation of taxes.
- Art. 8 ADOPTED - To allow a five (5) percent discount on all property taxes paid within thirty days from the date of mailing of the tax bills.
- Art. 9 ADOPTED - To authorize the Selectmen to sell to the highest bidder such surplus Town equipment as is not traded in on new equipment this year.
- Art. 10 ADOPTED - To direct the Selectmen to appoint a committee of at least seven members to study needs for town offices and facilities for the police department and the municipal court and be authorized to hire professional assistance as needed, and report to the next annual Town Meeting, and to raise and appropriate \$5,000.00 for this purpose. (N.H. Department of Revenue Administration subsequently disallowed this appropriation.)
- Art. 11 ADOPTED - To raise and appropriate \$15,000.00 for the development of a closure plan for the Rye Landfill site on Lafayette Road
- Art. 12 ADOPTED - To authorize the Selectmen to participate in the formation of a Maine-New Hampshire Solid Waste Cooperative; and to authorize the Selectmen to enter into obligations in the name of the Town of Rye for such purposes.
- Art. 13 DEFEATED - To approve the completion of the bandstand at Parson's Field.

- Art. 14 ADOPTED - To substantiate the dictum that whenever an article has been acted on at Town Meeting, the result of the vote has indicated a policy which will be binding on the Town until rescinded or changed, and that Selectmen and all town officials shall be bound to obey and enforce that policy.
- Art. 15 ADOPTED - To elect the members of the Planning Board in accordance with RSA 673:2II(b).
- Art. 16 ADOPTED - To have the granite blocks and iron arch at the entrance of Parsons Park removed and replaced by stone work which shall be approved by the Historic District Commission and a committee of former Parsons Park directors.
- Art. 17 ADOPTED - To adopt a Dump Ordinance.
- Art. 18 TABLED - To deed to Harold W. and June L. Higgins of 476 Washington Road, for the sum \$750.00, a strip of land on Washington Road.
- Art. 19 ADOPTED - To authorize the Selectmen to accept, on behalf of the Town, a deed to Wayside Lane providing the Public Works Director confirms to the Selectmen that the completed road meets specifications as approved by the Rye Planning Board.
- Art. 20 ADOPTED - To accept a budget, as amended, in the amount of \$1,683,837.00. (N.H. Department of Revenue Administration subsequently disallowed appropriations totalling \$19,600, \$14,600 of which was included as amendments to Art. 20.)
- Art. 21 To transact any other business which may come before this meeting.

Meeting ADJOURNED at 11:02 p.m.

A true record, ATTEST: Jane E. Ireland, Town Clerk
