Town of Jaffrey Annual Report 1988

ALICE E. E. LEHTINEN
(1901-1988)

Few human beings ever know their own towns as intimately as and with less discord than Alice E. E. Lehtinen, Jaffrey's Town Historian. As recorder, writer, poet and community servant, Alice gave freely and abundantly to the Jaffrey she loved. But, for all her giving, her own individuality was never diminished. Throughout her 87 years she clung tenaciously to her farming way of life, cherishing old values and ignoring changes which she felt added little or nothing. Yet, more than most, she understood and respected the process of change.

Her confidence in that process is best stated in her own words:

We are still a typical New England Town
We live, we plan, we work together
Nevertheless we differ in opinions, tastes,
and objectives, else life would become static.
It is these differences that make it possible
to press on for fuller achievement of the common weal.

Whatever our own objective, may we also remain respectful of that process.

REPORT OF THE BOARD OF ADJUSTMENT

Requests for Variances and/or Special Exceptions as provided by the terms of the Code of the Town of Jaffrey are normally scheduled for Public Hearings on the first Tuesday of each month. Date, time, and locations of the Public Hearing are contained in the Notice of Hearing which is posted in two (2) locations as well as being mailed to all applicants and abutters. Applicants appear at the Public Hearing and state their case after which the Board conducts a Site Review followed by the decision of the Board.

In 1988 the Jaffrey Board of Adjustment held forty (40) Public Hearings concerning requests for forty-five (45) Variances, nine (9) Special Exceptions, and one (1) request for re-hearing from the Board's decision. Of the cases heard, thirty-one (31) were granted which amounts to 78% of the cases requested. Seven (7) cases or 18% were denied. One (1) case was not heard due to the applicant's failure to appear and one (1) case did not need the Board of Adjustment's approval.

The requests for Variances/Special Exceptions fell into sixteen (16) categories. The majority of relief requested was: Use Variances, 7; Expansion of NonConforming Use, 7; Lot Size-Setback Requirement, 11; Construction in Wetland Conservation District, 9.

In 1988 the Board of Adjustment instituted a case numbering system which makes for more accurate identification of each case as well as keeping track of the cases heard during the year.

The Board of Adjustment invites and encourages all interested parties to attend our Public Hearings. In some cases the applicant's request affects more than just the abutters and may affect the entire district or Town. Input from all interested parties is encouraged and appreciated.

Respectfully submitted,

Christopher A. Struthers, Chairman

REPORT OF THE CONSERVATION COMMISSION

1988 saw the Jaffrey Conservation Commission involved in a number of activities that will help our community grow into the 1990's. Working with our Town Tax Assessor, Mr. Norman Irish, we were able to compile an inventory of protected lands in the Town. This, coupled with the work done by the Southwest Regional Planning Commission, has provided the Conservation Commission with new wetlands maps and soil maps that will aide us in the future in defining our wetlands to be protected.

The Commission continued its role as an advisor for the State Wetlands Board by doing on-site inspections for proposed alterations of wetlands. A number of major projects throughout the Town required our Board to raise ecological concerns which we consulted with the State and the Environmental Protection Agency.

The Commission was strongly opposed to the regional landfill proposal on and near Coll's Farm. This Commission was also opposed to the development in the wetlands off Amos Fortune Road. This saw a considerable reduction in the number of proposed units. In addition, while this Commission supported the construction of the proposed golf course at the Shattuck Inn, we felt it important to raise the issue of to what degree development should take place in poorly drained soils? This focused the Commission to work with the Planning Board to examine the Wetlands Ordinances, a task we will undertake in 1989.

The Chairmen of the Conservation Commission, Planning Board, and the Board of Adjustment, with a Selectman Representative met on a regular basis this past year. We are hoping to streamline the processes involved in applications for development, and by working more closely together work towards the common interests of our citizens.

HIGHWAY DEPARTMENT

Reconstruction of Roads

School Street: The entire length of School Street was reconstructed using the reclamation method. New sidewalks were also constructed and new drainage was completed.

Hunt Road: The whole length of Hunt Road was reconstructed using the reclamation method. New drainage and appurtenances were built as necessary.

Charlonne Street: The construction of the sidewalk was completed.

Parker Road: Reconstruction of Parker Road commenced, but was not completed. It will be in 1989.

Coolidge Road, Harling Street, Hillcrest Circle, Pinecrest Road, and Ridgecrest Road were shimmed with one inch of bituminous concrete and sealed with oil and sand.

Lehtinen Road: (From Route 202 to the Lehtinen Farm) was shimmed with one inch of bituminous concrete.

Pierce Crossing Road: (From Route 202 to the Sawyer Farm) was sealed with oil and sand.

Howard Hill: (From Contocook Beach to Humiston Field) was sealed with oil and sand.

Internal Road at Landfill: (From Old Sharon Road to Landfill) was penetrated with oil.

Other Projects

Oak Street: New storm drainage lines and catchbasins were installed to replace and relocate existing ones.

Guard Rail: Installation of "State Standard" guard rail on Old Peterborough Road, Amos Fortune Road, Sawtelle Road and Lehtinen Road at different locations such as bridges and steep slope areas.

Lehtinen Road Drainage Pipe: Furnished and installed new 72 inch culvert pipe to correct washout of travelled way due to failure of existing stone box culvert.

Mountain View Drive: At the expense of the developer, new drainage pipe and appurtenances were installed to correct storm drain deficiencies.

Chamberlain Road: Replaced bridge deck and carrying timbers on wooden bridge at entrance to Chamberlain Road.

Dublin Road: Completed reconstruction of Dublin Road as per State specifications.

River Street: With cooperation from NH Department of Transportation catchbasins and appurtenances were constructed to replace failed ones.

Peabody Hill: Installed underdrainage and replaced travelled way in several areas.

Phillips Cemetery: With sincere thanks to John Heil, a new addition called the Phillips Heil Cemetery was added to the existing cemetery and a new entrance was constructed.

Tree Farm: Assisted the Chamber of Commerce to buy out and set up the Tree Farm adjacent to the Town sewage treatment facilities.

SEWER DEPARTMENT

New sewer construction for Contract No. 5 (Riverside Ridge and Old Peterborough Road) was completed allowing homes in this area to connect to municipal sewer.

The pretreatment program for industrial sewage is still waiting approval of the EPA. We expect to implement this program in 1989.

WATER DEPARTMENT

Water supplies were at a concerned low this year due to a lack of rainfall and not having the ability to use the Contoocook Well. After much testing and approval from the State, the Contoocook Well will be back on line on a limited basis this year.

LANDFILL

As of this date the State has not yet approved our plan of operation for the landfill. If and when implemented, including mandatory recycling, our intent is to continue adding to our existing area by raising the elevation by about 25 feet. After this is completed, it is planned to construct a "State of the Art" landfill in the area between the old landfill and the completed one.

ANTICIPATED PROJECTS FOR 1989

Road Work: Reconstruction of the remainder of Gilmore Pond Road, Parker Road, Aetna Street, Wheeler Street, Thorndike Pond. Shim and seal Forcier Way and Emery Road.

Sewer: Implement industrial pretreatment sewage plan.

Water: Commence construction for water storage tanks and appurtenances.

Landfill: Set up mandatory recycling center.

In conclusion, many thanks to the DPW employees for their knowledge and help in the completion of our projects for 1988.

Kenneth E. Saunders, Jr.
Director of Public Works

REPORT OF THE HISTORIC DISTRICT COMMISSION

During 1988 the Jaffrey Historic District Commission held eleven regular monthly meetings, one District-wide general meeting and a number of work sessions. Six applications were received and heard: Two were approved as submitted; three were approved subject to certain conditions and one was disapproved.

The Commission expended \$99.97 of its \$100 annual appropriation. Application fees totalling \$30 were turned over to the Town leaving a net expenditure of \$69.97.

The major task of the Commission throughout 1988 was completion of its second Certified Local Government grant project. This multi-task project included preparing a plan for the District, developing regulations, producing a slide show of Jaffrey's architectural heritage and assisting the Planning Board in updating the Town's Comprehensive Plan. The Commission's third grant-supported CLG project is about to commence, a reconnaissance survey of archeological sites within the District and its surroundings.

Throughout the year Commission members actively assisted in the updating of the Town's Comprehensive Plan largely through participation in the Sounding Board. Members were particularly active in the tabulation and analysis of the Citizen Survey.

During the year members attended various regional and national meetings including those of the New Hampshire Association of Historic District Commissions, the New Hampshire Historical Society, New Hampshire Archeological Society, Inherit New Hampshire, Historic Massachusetts Inc. and the annual meeting of the National Trust for Historic Preservation. Members also participated in such local endeavors as the Baptist Cemetery restoration project.

During 1988 Peter Davis replaced Franklin W. Sterling, Jr. as the Selectman member while George Cox became the Commissioner's newest member.

All residents are reminded that the Commission's regular monthly meeting is on the first Thursday of each month at 7:30 p.m. in the Town Office Building. Questions about the Commission and its procedures may be directed to and application forms obtained from the Chairman or the Secretary.

Respectfully submitted,

Martha S. Brummer, Secretary

REPORT OF THE JAFFREY PUBLIC LIBRARY

The March 1988 Town Warrant article to fund the Library addition did not achieve the two thirds majority vote required by law. During the months to follow, the Library Building Committee chaired by Elizabeth Shea has continued in a very positive way.

1. We have met various times with the Town Manager and Selectmen.
2. A Building Fund was established. We have been very fortunate to have Helen Krause assume the Chairmanship of the Library Building Fund Drive. Her Committee includes Burgess Ayres, Claire Bean, Homer Belletete, Herbert Bixler, Philip Cournoyer, Margaret Johnson, Stephen Krause, Jean Page, Dorrie Richmond, Diane Schott, Charles Royce and Linda Zecka. The Bean Foundation kicked off the drive with a donation of \$50,000. Since then many contributions have been received from the private and business sector. By mid December \$208,000 had been received.
3. The Trustees have continued their association with architect John Jordan. They voted unanimously to have all construction documents and a model of the Library by the end of December 1988.

The Library has contributed in many ways to the Community in 1988. The Trustees sponsored an essay contest for students in the 3rd and 6th grades in local schools. Fifteen dollar gift certificates were awarded courtesy of the Toadstool Book Shop. National Library Week's theme was the library registration card. In this area "The Card With The Charge" gave holders a discount at various Keene stores. Amos Fortune Day was May 16. Cynthia Hamilton, Library Director, invited author Elizabeth Yates McGreal to be the guest speaker for the Jaffrey program. The Friends of the Library, with Andy Elde as auctioneer, held an auction July 9 on the Library lawn. The auction netted over \$21,000 for the Children's area in the proposed Library addition. Cynthia Hamilton served as moderator at the Amos Fortune Forum on July 22 for speaker Shirley Adamovich, State Library Commissioner. The Trustees hosted a very well attended reception afterwards in the First Church Parish House. The Library staff prepared a float on the theme "Christmas in July" for the Jaffrey Jubilee parade. The Little Red Wagon, a puppet show made its annual appearance to the delight of all. The Friends of the Library decorated the Library for the Christmas season.

The Summer Reading Program was set up to "Use Your Library to ..." The end word and the device for the children to color and display in the Library changed each week. Jeanne Burr, Children's Librarian, and Elizabeth Shea, Chairman of the Trustees, presented certificates on August 12 to 258 children. Mothers and Friends of the Library provided refreshments.

Trustees, staff and Friends represented the Library at State, regional and local meetings. The staff continues to take Library Techniques courses.

To the INDISPENSABLE staff, Friends of the Library, donors, volunteers, newspaper reporters and everyone who has shown interest, given support and time, we say THANK YOU.

REPORT OF THE OLD BURYING GROUND TRUSTEES

Robert B. Stephenson replaced the Old Burying Ground Informational sign which is attached to the west wall of the horse sheds. The sign is silk screened aluminum with wood frame and plexiglass cover.

Jaffrey Fire Protection donated the aluminum. Rob Stephenson volunteered his time and expertise to accomplish this worthwhile project.

The only cost for materials was \$377. These funds were taken from the Old Burying Ground Trust Funds.

No lots were sold this year.

We plan to continue the resetting of headstones next summer.

REPORT OF THE PLANNING BOARD

Planning Board activities for 1988 included the following:

10 Site Plan Reviews, including one for 28 units of housing for the elderly

19 Subdivisions approved, totalling 37 new lots

5 "Technical" subdivisions, which include lot line adjustments and exchanges of property between abutters

3 Subdivisions denied (applications for all of these were revised and resubmitted)

Presently under consideration is one application for a 31 unit subdivision and one for 343 units to be constructed over a period of ten years.

In addition, the Planning Board dealt administratively with a number of applications for site plans involving no external construction or impact on parking, utilities or roads. In order to speed up the process and thus give faster service to residents and merchants, the Planning Board believes that requests such as these should be handled by an administrative subcommittee. A proposal to authorize this will be on the ballot for the March town meeting.

Revision of the Master Plan formed the major focus of our attention. The update is now in the final stages, and the base mapping showing data such as terrain, slopes, wetlands, watersheds and present land use is now complete. As with the development of the original plan ten years ago, a Sounding Board was established to obtain the input of Jaffrey's people. The Executive Committee of the Sounding Board has performed yeoman work over the past year and a half: writing, administering, and reporting on a public opinion survey sent to all residents; and holding monthly discussion sessions at which citizens could voice opinions and express ideas. We acknowledge with grateful appreciation the splendid efforts of the Sounding Board's Steering Committee: Cynthia Hamilton, Ed Pittman, Robert Potter, Robert Stephenson and Marc Tieger.

A year ago, when the Planning Board requested funding for the hiring of a paid clerk, the Budget Committee responded with the suggestion that the fees be raised to cover not only that salary but all expenses involved in review of applications: staff review, legal fees including filing with the registry, and supplies. In response, the Planning Board raised fees. As a result, over \$7,000 income went to the general fund. Starting in January, the Planning Board will have a paid clerk.

Officers for 1988 were: Chris Bean, Chairman; Robert Potter, Vice Chairman; and Stella Pillsbury, Secretary.

As has been our long-standing practice, the Planning Board reserves the first half hour of every meeting for anyone who wishes a preliminary discussion or has any matter to discuss with the Board. Just call the Chairman or the Secretary to get on the agenda.

Respectfully submitted,

Christopher V. Bean
Chairman

REPORT OF THE CHIEF OF POLICE

1988 has been an incredibly busy year for the Police Department. In going over the statistics at year's end I find that our calls for service have risen 40% over 1987. Total calls for service for 1988 were 4,223 compared to 3,008 in 1987. As a reminder, a call for service is any type of request where an Officer must physically go and do something. What is not included in that figure are incoming phone calls and walk in traffic at the Police Station, as well as follow up investigations.

As I am sure most of you are aware, we have taken a pro-active role in the area of drug interdiction. Our community, like so many others, is faced with an increasing drug problem. This problem will only escalate as time goes on if we sit passively by and assume someone else will take care of it. To that end, we have undertaken a very aggressive enforcement posture which has resulted in numerous felony drug arrests. However, it is imperative that we also attempt to deal with this plague through education for our children during their formative years. We have asked our local businesses to help in funding our chemical awareness program, "Officer Phil," for the grammar school and they have been very gracious. Now, we are asking you to please spend some time with your children discussing drugs and the hazards associated with their use. If you need help or material, I would like to invite you to contact us at the Police Department and we will gladly provide you with the information.

All of the members of the Police Department would like to thank the community for their help and assistance during this last year. We have attempted to serve you in a prompt and friendly manner. To that end, I believe we have been successful. This is not to say, however, that there is no room for improvement. I would like to invite each of you to let us know when you feel there are areas where we can improve our service and be more responsive to the community. It is, of course, a cooperative effort, one in which the Police Department works in partnership with the community it serves.

Considering the quality and the incredible amount of work that was performed by the Officers of the Department, I would like to publicly thank each member. They are: Officers Steve Reynolds, Dave Ellis, John McCann, Aaron Thompson, Jeff Proulx, Sergeant Rick Carpenter, Detective Sergeant Bob Pelio, Lieutenant Gary Phillips and Desk Officer Terry Talmadge. Also, part time Officers Chris Struthers, Karen Hanson-Shaw, Scott Plante, and Bill Sheldon. Based on my 18 years of experience in law enforcement, these people are clearly some of the finest police personnel in the State of New Hampshire.

REPORT OF THE RECREATION DEPARTMENT

During 1988 the Jaffrey Recreation Committee held 12 monthly meetings, with 3 work sessions, addressing issues and operations regarding recreation programming, budget and long range recreation facility improvements. The Recreation staff attempted its best to accomplish its goals set by the Committee, and provide its services to the community, organizations and school athletics. We did not accomplish 100% of our goals due to staff changes and increased service hours to the community, but we are proud of our major programming and facility improvement accomplishments as noted below:

1. The Jaffrey Recreation Dept. provided administrative and organizational support services to the Jubilee Committee, Babe Ruth Baseball, Little League Softball, and other community recreation or sports organizations accumulating over 600 service hours (75 days), which reflects 20.55% of the Recreation staff's time.

2. Successful volunteer coaches training clinics through NYSCA for baseball, softball, soccer and basketball are well established; a major step in the Department's risk management program.

3. In working with the Jaffrey Friend's of Recreation in 1988, an unprecedented donation of \$7,100 in equipment and program sponsorships was made. They have financially supported the Recreation Dept.'s youth sports activities (basketball, soccer, track) and special events (school vacation, Christmas, Halloween, Easter) while conducting their own activities for the community (rollerskating, Red Sox games, etc.). The Friends is a vital asset to our Town as a service provider and financial resource. Please offer your assistance and become an active member of the Friends of Recreation to keep many community recreational activities alive and financially affordable.

4. The Recreation Dept., with the support of the Monadnock Bank and a grant from the NH Council of the Arts, conducted 6 well attended Bandstand Summer Concerts. "A wonderful community tradition continues" was adopted as its official slogan.

5. The John Morgan Road Race has established itself as an annual event and this year 180 runners from 3 states participated. The California Cuties novelty softball team stunned the Jaffrey Police and Fire Dept.'s All Star Team when they were in Town - a successful fundraiser for Jaffrey youth programs. Halloween and Christmas special events expanded and exceeded past attendance records with all programs running smoothly.

6. For facility improvement projects this year the Department, with a donation from the Friends of Recreation, completed a landscaping project at Contoocook Beach. Part of a collapsing retaining wall was replaced at Humiston Field. Ball diamond restoration is partially complete at Humiston and school fields.

7. The Recreation Committee is updating the recreation facility improvement, capital improvement, and long range plans, and will supply this information to the Sounding Board and Selectmen for review.

8. The Jaffrey-Rindge School District and Recreation Dept. has continued to cooperate in combined athletic, Town and school facility use by the general public and recreational activities.

The Recreation Committee and Staff wish to recognize the following for their continued unselfish support of community recreation activities, all whom the Town should be proud of:

Jaffrey Friends of Recreation, John Humiston Post and Unit American Legion, Jaffrey VFW, Chamber of Commerce, Lion's Club, Jaffrey Grange, Women's Club, Community League, Jaffrey-Rindge Senior Citizens, Sunshine Twirlers, school clubs, Boy Scouts, Girl Scouts, 4-H, and Town Department and School District personnel.

Jaffrey's merchants, industries, businesses and shops all equally deserve a round of applause for their support. The literally hundreds of volunteers giving the most precious gift to our community and its people - TIME, we salute your dedication and sense of caring for the community.

The Recreation Department activities vary each year based on the need and desires of Jaffrey residents. We have summarized our programs for 1988 below, giving participation figures. To best provide recreational activities and services to Jaffrey residents, we seek your constant input and suggestions, as well as volunteer assistance in some cases, in the development and execution of a well rounded program for the community.

Many new challenges for 1989 lie ahead. Issues of open space, recreational lands set aside within land developments, volunteer liability, user fees and facility use policies, all need to be addressed. The Recreation Committee and Staff have set these priorities of 1989, keeping these issues in mind knowing the restraints of time and money and personnel:

1. Develop and institute a program development plan - a process to survey, analyze and recommend the future programming of activities for Jaffrey residents. Set policy for recreational services provided to organizations and the community.
2. Update operational policy on Town recreational facilities - Bandstand, beaches, ballfields and skating rink.
3. Continue update of facility improvement plans through C. I. P. and master plan, and continue the commitment of carrying out work projects using private as well as public resources.
4. Foster school and Town relationships regarding recreational and athletic services, and the facility use by the public.
5. Assist in the development of a teen/community center for Jaffrey.
6. Continue implementation of the Department's risk management plan regarding volunteer and staff training, facility and equipment safety, and program implementation.

Nothing feels better than the satisfaction one receives from people helping people. Be a part of our Recreation "WE CARE" clan! Please support us, as you have in the past, with our efforts to provide quality recreation activities and services in the Town of Jaffrey.

REPORT OF THE SELECTMEN

January 1988 found Selectmen Robert M. Chamberlain, Robert V. Mitchell and Franklin W. Sterling, Jr. with Town Manager Donald Rich preparing for the Annual Town Meeting. Bob Chamberlain declared his intentions not to run for a 3rd term.

In early February 1988 Town Manager Don Rich gave notice of his resignation and departed for his home state of Vermont prior to our March Town Meeting.

The Town Forester, David Kent, stopped cutting the Town's mountain property, Map 16 - Lot 7, in March due to spring thaw. The Town realized a sum of \$113,441.08 from this cutting which was placed into the General Fund.

A search for a new Town Manager was successfully completed in May. After reviewing 31 resumes, the Screening Committee presented six outstanding individuals to the Selection Committee from which our new Town Manager, Hunter F. Rieseberg was selected.

Shortly after the new Town Manager arrived he had an audit conducted of all Town funds. Lisa Sirois, Tax Collector for the previous four years resigned from her position. The Selectmen appointed Dawn L. Oswalt to the position of Tax Collector to complete Mrs. Sirois' term.

The Town, as a member of the Southwest Solid Waste Management District (149-M) and the Ashuelot Vally Refuse Disposal District (53-B) became one of the three top contenders in the District with the possibility of having the regional (double lined) landfill in its town. A petition requesting a Special Town Meeting to vote the Town out of 53-B was presented to the Selectmen in August. The meeting was held on October 15, 1988 and the Town voted to withdraw from the District.

Since the Town can no longer look forward to disposing of its solid waste in a regional landfill outside of its own boundaries, recycling must become manditory during 1989 in order to conserve space and extend the life of our landfill.

This year we have had building permits for 27 new dwelling units. A total of 113 building permits for all structures were approved by the Selectmen.

The Selectmen thank each of the Town's employees for their hard work in helping to make Jaffrey a better place to live in.

We also wish to thank all the interested citizens of Jaffrey. It has been a pleasure to work with you on the myriad activities involving Town government.

Respectfully submitted,

BOARD OF SELECTMEN

to Scout Leaders Rose Pecor and Ray Gruda for their scouts service as

to the hard working ballot counters and the many others who manned the

impossible to get through the four elections this year,

and to the countless others who have coached me through the year.

Town Clerk

As many of you are aware, the year 1988 represented great change for the Town of Jaffrey. As is usually the case, change while promising a better future, often carries with it some level of turmoil during necessary transitions.

Upon my arrival in Jaffrey this year, I quickly learned of the many problems facing Jaffrey. These diverse issues, not uncommon to many New Hampshire communities, were none-the-less serious and as such were worthy of immediate attention.

With the assistance of the Board of Selectmen, a list of priorities was established for 1988. The list included among others the stabilization of our finances, normalization of accounting practices, personnel management, and cost containment geared towards municipal tax relief. While many of these goals have been accomplished, continued vigilance and hard work will be necessary to complete our tasks.

Over the past several months, difficult and sometimes unpopular decisions have had to have been made. Such decisions were carefully considered with the best interests of the community at large being paramount. All of those concerned are confident that these decisions, in time, will prove prudent and will yield significant benefits to the tax payers of Jaffrey.

It is our overall goal to create a stable, efficient and responsive municipal government. Once achieved, the people of Jaffrey will enjoy the ability to direct future events rather than be controlled by them.

1989 will be a year of continued progress and the realization of benefits derived from the hard work and dedication of the many employees and volunteers who have served your community. Your elected representatives need your input and our staff needs your understanding and support in order that we may be successful in our efforts to provide you with the best possible services at the lowest possible costs.

In closing I wish to thank the Board of Selectmen, the Budget Committee and the Town's Department Heads and staff for their hard work and support. I also wish to thank the many citizens of Jaffrey who have been so understanding and helpful during these trying times.

Please feel free to call or visit our office with your comments and suggestions. We welcome your input and will be pleased to discuss our upcoming programs and projects.

Hunter F. Rieseberg, Town Manager

To the Members of
the Board of Selectmen
Town of Jaffrey
Jaffrey, New Hampshire

Dear Members of the Board:

We have examined the financial statements of the Town of Jaffrey for the year ended December 31, 1987 and have issued our report thereon dated July 14, 1988. In connection with our examination, we reviewed and tested the Town's systems of internal accounting control and operating procedures to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards. The purpose of our review of these systems was not to express an opinion on internal accounting control, and it would not necessarily disclose all weaknesses in the system.

In the following paragraphs, we present our comments and recommendations for improving specific aspects of the Town's systems and procedures. We also refer you to the Appendix to this letter which explains the purpose of our review, its limitations, and the professional standards involved.

GENERAL

Our audit engagement covering the year end December 31, 1987 was for the purpose of expressing an unqualified opinion on the fairness of presentation of the Town's financial statements at that date. Because of the overall lack of internal accounting control and significant weakness in accountability for the Town's resources, the audit was not sufficient in scope to enable us to form an opinion on the financial statements. As a result, a disclaimer of opinion has been issued.

Our 1987 examination has concluded that there is an urgent need to establish and implement an accounting system which will provide a complete general ledger system for all the various funds of the Town. The system should have an adequate audit trail which will enable the independent auditors to express an unqualified opinion on the Town's financial statements.

Responsible officials should determine that there are sufficient trained staff to operate such a system. Presently, the Town has one individual serving as bookkeeper and elected Treasurer. While the individual performs her job admirably, it is an impossible task for one person to attempt to maintain an entire accounting system for a Town the size of Jaffrey. We believe further findings and comments in this report will confirm this fact.

TOWN OF JAFFREY

NEW HAMPSHIRE

LETTER OF COMMENTS AND RECOMMENDATIONS

DECEMBER 31, 1987

SIGNIFICANT FINDINGS

1. Monthly reports were not adequately reconciled to the cash in the bank. A year-end adjustment of \$5,558 was necessary to balance the 1987 financial statements to the cash in bank. The Town has nine bank accounts for the general fund cash alone. There is a definite need for consolidation of these cash accounts.
2. Contrary to the New Hampshire Revised Statutes Annotated, the Town Manager and/or Selectmen did not in many instances approve bills for payment throughout 1987. Apparently, by precedent, only department heads have in the past approved invoices for payment. Inasmuch as the Town Treasurer is also the Bookkeeper, this represents a major weakness in internal accounting control. We have recommended that the Town Manager/Board of Selectmen begin immediately to approve all bills and that the Treasurer not expend any funds without this approval. It will also be necessary to have formal approval for all expenditures retroactive to January 1988.
3. There were numerous budgeting errors detected in the Statement of Appropriation Report (MS-2) filed with the State and utilized in setting the 1987 tax rate. Estimated revenues totaling approximately \$158,000 were improperly listed and not detected by anyone, either at the Town or State level.
4. The general fund surplus as listed in the Town report and confirmed by the auditors at December 31, 1986 was \$556,000. Of this amount, \$508,275 was due from the Sewer Fund for apparent advances made to the fund. However, the Sewer Fund, which was in a deficit position of \$418,000 at that date, could not possibly meet existing revenue demands and still pay off this debt to the general fund. This matter is discussed further on in this letter.
5. In some instances, the Treasurer has not maintained separate cash journals for each cash account in her custody. Nor were any formal records maintained for accounting for investments in certificates of deposit. We have also recommended better control over unissued Town checks.
6. Yield tax deposits on hand total \$5,935 and refer as far back as 1982. Releases apparently have not always been posted.
7. Because of the lack of an adequate general ledger system, there are virtually no accounting controls existing over tax warrants issued by the Board of Selectmen. This has caused major problems in the past as evidenced by previous auditors' comments and is mentioned further in this report.

8. There are numerous transactions between funds for which there are no formal accounting entries made in order to control the amounts due from one fund to another.

TAX COLLECTOR'S RECORDS

Our examination revealed major inadequacies and inconsistencies in the records maintained by the Tax Collector, requiring the scope of our examination to be expanded to include a detailed examination of all aspects of the record keeping. The reasons for expanding the scope of our examination are enumerated below:

- A. Tax warrants were not reconciled at any time during the year resulting in incorrect summaries of tax warrants at December 31, 1987. The Tax Collector forced the uncollected figures in order to balance the report at year end. In addition, no tax sale summary for 1987 was prepared. The Tax Collector informed us that since becoming Tax Collector in 1984, she has never been able to reconcile the tax warrants.
- B. It does not appear that all collections have been posted to the tax warrants. There is a discrepancy of \$192,291 in balancing all the tax warrants and tax sale accounts at December 31, which appears to be the result of not posting to the books properly. For example, the tax warrants indicate \$92,185 in uncollected 1986 property taxes and \$25,674 in 1985 property taxes, when in actuality there should be no uncollected property taxes for these levies, as they should have all been paid or gone to tax sale.
- C. There appears to be an extreme lack of control with regard to handling and safekeeping of receipts and records. For example, during our audit, we observed that the Tax Collector's cash register while operational was completely unattended for a considerable amount of time. Also, checks from taxpayers, some three weeks old, were found carelessly thrown in desk drawers. Further, the second half of the 1985 property tax warrant could not be located for our audit purposes.
- D. There is a very limited understanding of the computer system/software on the part of the Tax Collector, which appears to be compounding the existing problems. The system precludes us from tracing individual receipt postings to the tax warrants and deposits in a reasonably efficient manner.
- E. The tax sale book for the 1986 levy was inaccurate, in that it contained names of taxpayers who had paid their taxes prior to tax sale. In addition, tax deeds have not been issued for three years, and the tax sale for 1987 was held on the last possible legal date.

- F. Abatements issued for 1987 did not agree with the Town report. Abatement forms could not be accounted for satisfactorily. In some instances, the tax levy and date of issue were missing.
- G. Supplemental resident tax warrants were not issued by the Selectmen to the Collector, and the Tax Collector's annual report in the Town report shows a zero amount as added resident taxes. However, a cursory accounting of supplemental resident taxes posted in the warrant disclosed approximately one hundred and fifty names, which would total around fifteen hundred dollars, had been collected.
- H. Property tax discounts as listed in the Town report totalled approximately \$147,000. The present data processing system does not provide a separate accounting for discounts as discounts are recorded in the abatement column of the tax warrant. Therefore, this discount figure for 1987 could not be satisfactorily confirmed.

In summary, there has been criticism in previous auditors' management letters concerning the operation of this office. It is clear that these findings have not been adequately addressed as evidenced by the above comments. The Tax Collector should reconcile all tax warrants and tax sale accounts on a periodic basis. The Tax Collector's year-end report should contain accurate information as obtained from the tax warrants. Simply inserting uncollected tax figures to balance is unacceptable. A difficult task now presents itself for the Tax Collector to follow through with current property owners regarding old unpaid balances to close these accounts.

In light of the severity of this situation, we have made ourselves available for on-going technical assistance to the Tax Collector. We strongly recommend that the Town consider providing for a formal monitoring of these accounts and computer applications on at least a quarterly basis until all questionable items have been resolved. We have also recommended that responsible officials contact the State Department of Revenue Administration for their assistance in resolving the problems which presently exist in this department. The situation in this office should no longer be allowed to continue.

Note: Subsequent to the date of this report, but prior to its issuance, the Tax Collector has resigned effective August 5, 1988. Under State law, an audit of the records must be performed at that time, with new warrants committed to the succeeding Tax Collector.

TOWN CLERK

The present Town Clerk took office in November 1987. As a result, many questions regarding the postings of cash receipts to the computer could not be answered, and the purpose of some of the reports is unclear.

We noted during our examination that approximately thirteen out of one hundred twenty auto permits we tested were not posted to the computer. Throughout the

year, the previous Town Clerk printed duplicate reports for some weeks, while deleting others. Since all reports were not available, we were unable to determine how many permits were not recorded. In addition, the Town Clerk could not reconcile her records with the Treasurer. Therefore, we were unable to confirm the collections. Also, deposits were not made on a timely basis as required by present state regulations.

It was also noted that the Town Clerk did not keep the verification sent by the Division of Motor Vehicle on the number and count of motor vehicle permits sent to the Town.

We recommend that the Town Clerk post all monies received daily to the computer. A daily print-out of this information should be prepared. The Town Clerk must reconcile with the Treasurer on a regular basis.

It is also required that the verifications sent by the Division of Motor Vehicle be retained for audit purposes.

SEWER FUND

The previous auditor's report covering calendar year ending December 31, 1986, qualified the opinion on the financial statements of the Sewer Fund as follows: "Because of the inadequacy of accounting records for the Sewer Fund, we were unable to form an opinion regarding the amounts of accounts receivable for services due at December 31, 1986 or the amount of revenue (modified accrual basis) for the year."

We noted that there was an accumulated deficit of \$418,631 in the Sewer Fund at December 31, 1986. As mentioned previously in this letter, this deficit included \$508,275 due the general fund for cash advances made in previous periods. Present Town management does not agree with the 1986 financial report which stated "that increases in user fees will in future years reduce the deficit". As a result, management has adjusted the interfund payable by \$225,000 at December 31, 1986, to report more realistically the Sewer Fund's ability to reimburse the general fund for these reported advances.

In addition in 1986, approximately \$130,000 of State Aid Reimbursement for Water Pollution projects was erroneously credited to the general fund instead of the Sewer Fund.

As a result of the above adjustments, along with an adjustment to reflect beginning sewer rents receivable, the Sewer Fund fund balance at December 31, 1986 reflects a revised deficit balance of \$45,113, instead of \$418,631 as previously reported.

The weaknesses in internal accounting control, noted in the auditor's report on internal accounting control for the year ended December 31, 1986, dated February 2, 1988, remained the same for 1987. There is a lack of segregation of duties, sewer warrants were not reconciled for the entire year, and the

system does not provide an adequate audit trail to test the meter book readings to the warrant books.

The recommendations made in the report mentioned above, covering this area of the Sewer Fund, should be implemented immediately.

In general, the apparent lack of formal accounting for this fund has caused a tremendous amount of confusion as to its actual financial status at any period of time.

WATER DEPARTMENT FUND

General

Prior to March 1987, the Water Department Fund was considered a separate reporting entity. An audit has not been performed in the past on the financial statements, only an auditor's compilation report.

There is no formal general ledger system maintained and there are no fixed asset records. There was also no indication that the inventory of materials and supplies is confirmed periodically.

Cash Disbursements

Prior to the Town takeover, the Water Commissioners approved bills authorizing the Town Treasurer to make payment. Subsequent to this date, either the Superintendent or Public Works Director approved bills. There is no indication that, in addition to the above, the Town Manager/Board of Selectmen formally approved bills for payment by the Treasurer as required by State law. Also, in our testing of paid bills, we noted some instances where proper documentation was missing.

Cash Receipts

Our review of the billing procedures for the Water Department disclosed many weaknesses in internal accounting control. There was no reconciliation of the billings performed for 1987. In some instances, individuals responsible for the billings also collect the money, primarily in the areas of lake, new services, and miscellaneous billings.

Summary

A complete general ledger system is required. A manual of procedures, outlining internal accounting control procedures for billings, collections, and payments, should be developed.

WELFARE FUND

The overseer of public welfare handled the following accounts in 1987:

<u>Account Title</u>	<u>1987 Activity</u>	
	<u>Receipts</u>	<u>Expenditures</u>
General Account	\$ 7,987	\$14,113
Alice W. Poole Fund	21,068	20,638
Luigi Cilli and Warren Fund	4,489	4,116
Dorothy Badger Trust	<u>18,454</u>	<u>18,036</u>
<u>Total</u>	<u>\$51,998</u>	<u>\$56,903</u>

There were no formal cash journals maintained, nor were bank statements reconciled throughout the year for the above accounts. Total receipt and expenditure information was taken from the check registers. In addition, expenditure testing was virtually impossible because of the manner in which paid invoices were filed. For the most part, all paid bills for the above disbursements were stuffed in one envelope, with no indication on the invoices as to check number or which account paid the bill. In some instances, we were advised by the overseer of welfare that the bills could have been paid by more than one of the above accounts. Further, there was no approval for general fund expenditures by the Board of Selectmen, contrary to the State Statutes which read in part as follows:

RSA 41:29 "The Town Treasurer shall have custody of all moneys belonging to the Town, and shall pay out the same only upon orders of the Selectmen."

In our opinion, all disbursement of general fund and trust fund income monies should be by the Treasurer with the approval of the overseer of public welfare and the Selectmen. No separate checking accounts should be required. Also the monies should be included in the annual operating budget which is voted on at the annual Town Meeting.

Included in the Alice W. Poole Fund are student loans and general assistance. There is a balance due the Town from this source of approximately \$49,655 at December 31, 1987. Internal accounting controls are very weak in this area. Many accounts are delinquent, there is no formal policy for general assistance aid, and no formal receipt or expenditure journals are maintained. There is an obvious requirement to become more formalized regarding the handling of all public welfare funds.

SEWER CAPITAL PROJECT FUND

The Sewer Capital Project Fund indicated an audited fund balance of \$894,146 at December 31, 1986. As a result of the 1987 audit, we made adjustments of \$123,237, as enumerated below, to restate the fund balance at that date.

Certificate of Deposit not reflected on financial statements	\$ 30,000
Amount due contractor recorded twice in error	76,102
Correction of amount due from Federal Government	<u>17,135</u>
<u>Total Adjustment To Beginning Fund Balance</u>	<u>\$123,237</u>

It should be noted that reliance cannot be placed on the independent audit to discover and correct financial statements when the entities' accounting system is deficient. In this instance, it is necessary to maintain a double entry general ledger accounting system. All cash accounts, as well as accruals for receivables and payables, must be recorded and reconciled periodically to detail subsidiary records.

AERONAUTICAL FUND

There are no formal records maintained for the Aeronautical Fund. While the amount of activity may not be material (1987 income \$18,768 and expenditures of \$11,372), there is nevertheless a requirement to maintain formal records. There were monies totaling \$4,697 entitled "Airport Project Account" which were maintained in a non-interest bearing account throughout 1987.

Funds should be in the custody of the Town Treasurer and payments approved by the Board of Selectmen, in addition to the Airport Manager. An annual budget should be prepared and approved at the annual Town Meeting similar to any other Town department.

CONSERVATION COMMISSION

There are three separate bank accounts totaling \$6,233 making up the Conservation Commission Fund at December 31, 1987. We noted that there were no formal records maintained and that the funds were not in the custody of the Town Treasurer in 1987. However, the situation has been rectified in 1988, as the Treasurer is now handling the funds and will be maintaining formal records.

AMOS FORTUNE FUND

This fund apparently is established for school purposes. There were no disbursements from the fund in 1987, only income earned of \$215. The cash balance is \$3,959 at December 31, 1987.

The fund is presently in the custody of the Town Treasurer. Fund documentation would indicate that the fund should be in the custody of the Trustees of Trust Funds.

We have suggested the above to the Treasurer and recommend that the Trustees administer the fund in accordance with its requirements.

PUBLIC LIBRARY

As indicated by the financial statements at December 31, 1987, the Public Library has cash and investments on hand totaling \$355,581. The records have not been maintained in a manner which allows for the segregation of funds on hand in accordance with generally accepted accounting principles for funds of this type.

The Public Library Fund should be segregated in the following categories and we have recommended separate accounting for each classification of activity as described below:

Library - General Operating Fund - To include general operating revenues and expenditures for the fiscal year, including general fund transfers.

Library - Nonexpendable Trust Funds - To include those bequests which can be expended only for specified purposes, the principle of which cannot be expended.

Library - Expendable Trust Funds - To include those bequests which have no expenditure restrictions, and can be fully expended.

Library - Building Fund - To include monies received to date which are earmarked for new library building purposes.

The Library Treasurer did not appear to reconcile the bank statements on a monthly basis, and should do so. There is also a need to establish formal records for all investments held by the Trustees. For example, the audit report for the calendar year ending December 31, 1986, did not include two investments totaling \$19,000. We expended a considerable amount of time in analyzing brokerage statements for 1987, in an attempt to determine the investment transactions for the year, with no related Trustee records for comparison purposes. Formal record-keeping should be implemented as soon as possible in this area.

CONCLUSION

In summary, it is clear that the Town Manager needs to strengthen the organizational, operational, and functional areas representing all accounting and record-keeping functions of the Town to accomplish the objectives required to meet generally accepted accounting principles. The acquisition of adequate data-processing hardware and software and the need to organize the operation of the business and treasury functions are the key elements to address.

The function of key accounting and operational controls is dependent upon the task knowledge of a few key employees, such that the absence or termination of certain employees may not provide the continuity necessary to ensure the continued enforcement of control procedures. Without documented policies and procedures and constant review by management officials, a gradual erosion may

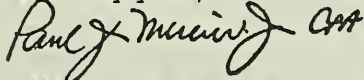

occur in the centralized accounting, receiving and treasury functions (so important to proper internal control).

We recommend that formal accounting policies be established for the accounting office and the various departments involved in the collection of Town funds. An accounting procedures manual will serve as the support for the accounting policies. The manual should contain: 1) a description of all departments' bookkeeping records; 2) an organizational chart and job description for each bookkeeping function; 3) a detailed chart of accounts and their description; 4) a listing of and procedure for preparing regular financial reports; 5) a policy statement regarding document filing and records retention; and 6) a description of accounting checks and proofs to be performed regularly and procedures for accounting for all recurring types of financial transactions.

In closing, we would like to express our appreciation to those persons whose cooperation and assistance during the course of our examination has helped us to achieve efficiencies in completing our audit.

If, after you have had the opportunity to review our report, you have any questions, we would be pleased to meet with you at your convenience to discuss them.

Very truly yours,

PURPOSE AND LIMITATIONS OF REVIEW

The purpose of our study and evaluation was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the Town's financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

The management of the Town is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Town taken as a whole. However, our study and evaluation disclosed conditions that we believe result in more than a relatively low risk that errors or irregularities in amounts that would be material in relation to the financial statements of the Town may occur and not be detected within a timely period.

These conditions are described in the preceding report and were considered in determining the nature, timing, and extent of the audit tests to be applied in our examination of the 1987 financial statements. This report does not affect our report on these financial statements dated July 14, 1988.

The preceding report is intended solely for the use of management and should not be used for any other purpose.

To the Members of
the Board of Selectmen
Town of Jaffrey
Jaffrey, New Hampshire

Dear Members of the Board:

We have audited the financial statements of the Town of Jaffrey for the year ended December 31, 1988 and have issued our report thereon dated February 10, 1989. In connection with our examination, we reviewed and tested the Town's systems of internal accounting control and operating procedures to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards. The purpose of our review of these systems was not to express an opinion on internal accounting control, and it would not necessarily disclose all weaknesses in the system.

In the following paragraphs, we present our comments and recommendations for improving specific aspects of the Town's systems and procedures. We also refer you to the Appendix to this letter which explains the purpose of our review, its limitations, and the professional standards involved.

GENERAL

During our audit of the Town's financial statements for the year ended December 31, 1988, we did note that management and staff had acted diligently to implement many of our recommendations, as a result of our 1987 audit which we reported on in our letter of comments and recommendations dated July 14, 1988. However, despite the effort put forth by all parties, including timely monitoring by the independent auditors, there were still some major weaknesses in internal control that could not be corrected in the six-month time frame.

We reiterate the need for management to implement a complete general ledger system for all the various funds of the Town and to hire sufficiently trained staff to maintain such a system. The major weakness in internal accounting control continues to be caused by the failure to reconcile and balance the various proprietary accounts of each fund on a timely basis.

While some of our comments and recommendations that follow were contained in our prior-year's management letter, they are significant enough to warrant repeating.

TOWN OF JAFFREY

LETTER OF COMMENTS AND RECOMMENDATIONS

DECEMBER 31, 1988

GENERAL FUND

- A. An inordinate amount of time was spent matching up the budget approved by the Department of Revenue Administration to the Town's appropriation report. Budget reclassifications were made by the bookkeeper, apparently without management approval. The classification of expenditures should be set up, in order to support the adopted budget which contains the standard reporting terminology.
- B. The Town's trial balance was out of balance by approximately \$13,000 and no detail was available, other than monthly totals. As a result, we performed our audit based on cash transactions, which is a more time consuming approach. Detailed reports should be printed monthly as a standard procedure, in order to reconcile any discrepancies existing in the trial balance. In addition, a year-to-date printout of all accounts should be made available for auditing purposes.
- C. Yield tax deposits on hand total \$5,935 and refer as far back as 1982. An effort should be made to rectify this liability of the Town.
- D. It is the desire of management to file expenditure documentation by account number. If such a system is used, the expenditure manifest must then make reference to that source, so that an adequate audit trail may exist. We spent an inordinate amount of audit time in our testing of expenditures, because of the difficulty in tracing the substantiation for expenditures.

TAX COLLECTOR

Many improvements have been made in this area by management and the present Tax Collector. The individual has performed admirably under sometimes difficult conditions to rectify previous deficiencies. Many of the following comments are made to stress the previous problems of this department that still need to be addressed.

- A. The property tax warrant book for 1988 exceeded by approximately \$20,000 the signed commitment issued to the Tax Collector by the Selectmen. Management has been advised on how to find the variance and should consult us when the difference has been identified. We have reserved an amount equal to this variance on the General Fund balance sheet as of December 31, 1988.
- B. Many abatement refunds were issued to the Tax Collector by the Selectmen over the course of the year. This procedure can cause some confusion in balancing the tax warrants if they are not properly segregated from abatements made prior to payment. Abatement refunds need not be recorded by the Tax Collector, since the commitment is satisfied prior to the abatement. It would be more appropriate to issue these abatements to the Town Bookkeeper, so that such a reimbursement is directly communicated.

- C. Tax warrants need to be reconciled on a periodic basis, and a year-end summary should be prepared directly from the Tax Collector's trial balance (computer report) on a timely basis for the year-end audit.
- D. Uncollected taxes committed to the new Tax Collector did not agree with the beginning figures listed on the Tax Collector's trial balance. We recommend that at the beginning of every accounting period, beginning figures be verified to audited reports. Also, as noted in finding A, new commitments should always be proved to the signed warrants.
- E. The past practice of abating whole amounts and correcting the original tax due by issuance of supplemental warrants should be eliminated. This practice can overstate revenues and overlay if taken at face value. The proper procedure is to abate the difference between the original tax and the corrected amount.
- F. Overall, we are very pleased with the orderly, business-line approach of the Tax Collector in resolving most of the previous deficiencies of that office.

TOWN CLERK

- A. We noted that the Town Clerk issued refund checks in 1988. We have advised the Clerk that she does not have this authority under the New Hampshire Revised Statutes Annotated. Refunds should be paid by the Treasurer with Selectmen approval. The Town Clerk has since eliminated this practice.
- B. An audit trail must exist to trace Motor Vehicle permits issued from the cash book to the individual permit. The sequence by which the Town Clerk presently files the permits, mandates that the expiration date must be shown in the cash book, in order to make this audit trail possible.

WATER DEPARTMENT

- A. It was extremely difficult to extract financial information for reporting purposes at year end for the Water Department Fund. There appears to be no one totally responsible for the entire departmental operation, to include water billings, collections, fixed assets and inventory. Written accounting policies and procedures need to be documented for this department immediately.
- B. There appears to be no periodic or perpetual inventory of materials and supplies, nor are fixed asset records maintained, although they could be started based on previous audit reports.
- C. An unappropriated \$50,000 transfer was made by the General Fund to the Water Department as a reimbursement for that department's share of the Department of Public Works building. As the Town of Jaffrey has adopted the provisions of the Municipal Budget Law, such a transfer, we believe,

can only be authorized through a Town Meeting appropriation. Management has concurred with this finding, and the transfer has been reversed December 31.

- D. A recommendation to prepare periodic reconciliations of water billings was not followed. To provide better controls, the water billings are now being committed to the Tax Collector, effective January 1, 1989. As a result of past deficiencies in this area, the Town may have lost revenue because of the failure to collect past-due accounts.

WELFARE FUND

Most of our recommendations, including the closeout of the various cash accounts being maintained for the disbursement of Welfare Funds, have been instituted. However, we still recommend that expenditure documentation within the Welfare Fund be separated by account. If more than one account disburses funds based upon the same invoice, a copy should be retained for each account with reference as to the portion of the bill paid by each.

SEWER CAPITAL PROJECT

There were still no formal accounting records maintained by the Town for this project, only a basic cash receipt and expenditure record maintained by the Treasurer. We have specified the importance of accounting records in order to discover any accruals for receivables and payables. For example, as part of our routine audit inquiry of the engineering firm, we were advised that there was a payment request to EPA of \$92,000 dated in December 1988. We refer to the comments made previously under *GENERAL* for the need to establish and maintain an adequate accounting system.

PUBLIC LIBRARY

Many bookkeeping improvements have been made during the past year. There still remains, however, a couple of bookkeeping irregularities that need to be improved.

- A. When preparing the Treasurer's report, it is important to show all bank transfers on a gross basis. By netting out the transfers, the cash transactions become difficult to follow. We recommend that these transfers not be netted out to provide a better audit trail.
- B. We again expended a considerable amount of time in analyzing brokerage statements for 1988, in order to determine the investment transactions for the year. Trustees' records should include a formal cash book which summarizes all investment transactions for the year.

BUDGETING

There existed two major budgeting errors detected in the Statement of Appropriation Report (MS-2) filed with the State and utilized in setting the 1988 tax rates.

- A. The original budget, prior to DRA approval, showed State Aid Water Pollution Control revenues as an offset to the sewer appropriations correctly. State officials, apparently with Town approval, made an adjustment to the budget, resulting in a shortfall in tax revenues of approximately \$131,000 as a result of this change.
- B. The Water Department is a proprietary fund of the Town. All debt of such a fund type should be budgeted solely within this fund, since any debt incurred is a direct liability to this fund. The 1988 tax rate papers indicated that revenues were underestimated in the Water Department budget, apparently because of incorrect budgeting for this debt. This caused an excess of tax revenue to be raised by approximately \$98,000.

GENERAL FIXED ASSET ACCOUNTING

In general, accounting for fixed assets provides information for estimating the amount of insurance needed, monitors assets utilization, provides a safeguard over the asset, and allows for depreciation expense when applicable. The Town does not maintain records for its investment in property, plant and equipment. Consideration should be given in the near future to maintaining a fixed asset record-keeping system, in order to comply with generally accepted accounting principles.

LEASE AGREEMENTS

The Town of Jaffrey has recently entered into a lease agreement for a sweeper without the required approval of the legislative body. The State has issued statements, within the past two years, regarding the authority to enter into new lease agreements. Lease agreements require prior approval of the legislative body of the Town (Town Meeting) before such lease agreements may be executed by Town officials. Lease agreements containing a "fiscal funding clause" require a majority vote; lease agreements without such a clause constitute long-term debt and, as such, pertain to the provisions of the Municipal Finance Act.

CONCLUSION

In summary, we believe that the key to correcting the problems noted is to establish written and formal accounting policies and procedures. The procedures should contain:

- A. A description of all departments' bookkeeping records;
- B. an organizational chart and job description for each bookkeeping function;
- C. a detailed chart of accounts and its description;
- D. a listing of, and procedure for, preparing regular financial reports;
- E. a policy statement regarding document filing and records retention;
- F. a description of accounting checks and proofs to be performed regularly; and
- G. procedures for accounting for all recurring types of financial transactions.

In closing, we would like to express our appreciation to those persons whose cooperation and assistance during the course of our examination has helped us to achieve efficiencies in completing our audit.

If, after you have had the opportunity to review our report, you have any questions, we would be pleased to meet with you at your convenience to discuss them.

TOWN OF JAFFREY, NEW HAMPSHIRE

PURPOSE AND LIMITATIONS OF REVIEW

The purpose of our study and evaluation was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the Town's financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

The management of the Town is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Town taken as a whole. However, our study and evaluation disclosed conditions that we believe result in more than a relatively low risk that errors or irregularities in amounts that would be material in relation to the financial statements of the Town may occur and not be detected within a timely period.

These conditions are described in the preceding report and were considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the 1988 financial statements. This report does not affect our report on these financial statements dated February 10, 1989.

The preceding report is intended solely for the use of management and should not be used for any other purpose. This restriction is not intended to limit distribution of this report which, upon acceptance by the Members of the Board, is a matter of public record.

Complete Financial Reports are available for inspection at the Town Office.

John G. Heil

Claire C. Moore

As 1988 came to an end, two of Jaffrey's most dedicated and public minded citizens decided to close out their long careers as public servants. John G. Heil has served as Jaffrey's Health Officer since 1956 (32 years) and Claire C. Moore has served as Overseer of Public Welfare for Jaffrey since 1970 (18 years).

It is an honor for Jaffrey to have these two outstanding individuals as their citizens. The interest and concern these individuals have for Jaffrey and the welfare of its citizens has enabled Jaffrey to be a most desirable Town to call home.

The years of experience and leadership John and Claire have given to their respective public positions have benefited all of Jaffrey. Replacing them will be a challenge.

We, the citizens of Jaffrey, thank you for your years of dedication and wisdom. May we carry the tradition on.
