Boston Library Consortium Member Libraries

Cover Photograph - ELIZABETH TOBEY JEWELL

Elizabeth is the daughter of Selectman Jack Tobey, and his wife, Bettey Tobey. The picture was taken during Elizabeth's work with the NH Fish and Game Department, and it captures the spirit of working harmoniously with nature for the benefit of present and future generations. This is synonymous with the Rye Selectmen's purpose of working for the benefit of all Rye citizens.

1986
TOWN REPORT
Is Dedicated To
ELIZABETH A. GREENE
FRANCES I. HOLWAY
SHIRLEY B. TIBBETTS

ELIZABETH A. GREENE

SHIRLEY B. TIBBETTS

FRANCES I. HOLWAY

THE CITIZENS OF RYE SALUTE YOU!

DEDICATION

ELIZABETH A. GREENE

Elizabeth A. (Betty) Greene has been and continues to be an active woman and citizen. The following are examples of how she has spent her time, and how she continues to spend her time today.

Her local past activities include serving twenty years on the Budget Committee, nine years on the School Board, six years as a Library Trustee, eighteen years as a 4-H Leader, ten years as a swimming instructor at Rye Harbor, and Betty holds a Life Membership in the PTA.

Her past state activities include serving on the Air Pollution Control Commission (1973-76), as Chairman of the Environmental & Agriculture Committee (1971), as a NH Oceanographic Foundation Trustee (1975-76), as Chairman of the Educational Committee (1979), and as State Representative to the House of Representatives, General Court (1961 to date), and as Chairman of the Environmental & Agriculture Committee (1971 to date).

Betty's federal involvements include serving on the National Environmental Control Advisory Council, EPA (1970), the Department of Agriculture, National Water Bank Advisory Board (1972-74), and served as a trustee on the NH Oceanographic Foundation Trustees (1975-76).

Currently, she serves as State Representative, House of Representatives, General Court, District 18, and is active on the Acid Rain Task Force, and the Hazardous Materials Transportation Advisory.

Betty's awards are numerous. In 1969, she received the Seacoast Education Service Award; in 1971, the National Wildlife Conservation Award; in 1980, Woman of Achievement Award; in 1983, the Tudor Richards Award; and in 1985, the EPA Region I Environmental Award. Betty sponsored legislation which secured the Rye Recreation area from the state. She was chosen to be included in the 1986 edition of N.H. Notables, published by the New Hampshire Historical Society.

DEDICATION

FRANCES I. HOLWAY

Frances I. Holway's life was refilled with new ventures after her husband's death in 1971. She began participating in Rye civic activities with a dedication that has lasted.

She was the founder of the Rye Civic League and the editor of its Town News for ten years. She served on the Rockingham County Courthouse Committee, was elected to the Budget Committee for two terms, served on the Dump Committee since its inception ten years ago. Also, Frances was appointed to fill a vacancy for one year on the Board of Selectmen, and is presently serving her second term as Trustee of the Trust Funds. This is a record she should be richly proud of.

DEDICATION

SHIRLEY B. TIBBETTS

In 1967, Shirley B. Tibbetts was the first woman to be elected to the Rye Board of Selectmen. She served three (3) consecutive three (3) year terms in this capacity. In 1983, she served as personal advisor to the Rye Board of Selectmen. In 1984, she was again elected to the Selectmen's office. Shirley's service as Selectman totals ten (10) years. She also served as the Town's official welfare administrator.

Shirley has helped more people in need than any one will ever know, which proves a recent statement made by her, -- "Rye and all the people who live here have always been my first concern, even though I am not in public life anymore."

Shirley expresses her sincere thanks to the Board of Selectmen for choosing her to share in the dedication of the 1986 Rye Town Report.

IN MEMORIAM

Rye has suffered a great loss with the sad and untimely passing of Bob Goss. Bob's limitless knowledge of everything that significantly affects the quality of life in Rye, was equally matched by his limitless dedication to serving "his" town.

At times his mannerism may have seemed to some people to be abrupt. To those who had the good fortune of knowing him and working with him he was a perpetual puppy dog with a heart always bursting with caringness and a bark much bigger than its bite. We will miss dearly his unique countrified way of making people face reality and rightfully toe the mark of responsibilities each of us has to the town he so fervently made an extension of his family.

The differences he raised were wholesome and predictably correct. He was a giant of a man not just because of the knowledge he acquired and the dedication he exhibited, but also because of the rare ability he possessed to leave any difference behind and move on for the common good of Rye.

In an all-too-real sense, the Town of Rye just lost a great big chunk of its proud history. No man has given more of himself to our Town, than did Bob Goss. And certainly no one came even close to caring as much.

It is a rare occurrence for any person to rise to the level of being legendary. Bob Goss is a legend that we will not forget and the only solace we have rests in the knowledge that the legacies of his unselfish toil will live on as beacons in the night to guide and protect the good of Rye.

J. P. Nadeau
Former Selectman

TOWN OFFICIALS

FOR THE YEAR ENDING DECEMBER 31, 1986

MODERATOR (2-year term)

Henri A. Camire	Term expires 1988
-----------------	-------------------

SELECTMEN (3-year term)

Maynard L. Young, Chairman	Term expires 1987
Jack B. Tobey	Term expires 1988
John Coffey	Term expires 1989

TOWN CLERK (3-year term)

Jane E. Ireland	Term expires 1989
-----------------	-------------------

TREASURER (1-year term)

Barbara J. Flynn	Term expires 1987
------------------	-------------------

REPRESENTATIVES TO THE GENERAL COURT (2-year term)

Elizabeth A. Greene (Rye)	Term expires 1988
Eugene Ritzo (Rye)	Term expires 1988
Herbert R. Drake (Rye)	Term expires 1988
Douglas R. Woodward (New Castle)	Term expires 1988

CEMETERY TRUSTEES (3-year term)

Gordon E. Gaskell	Term expires 1987
John W. Patrick	Term expires 1988
Edward J. Ireland	Term expires 1989

SUPERVISORS OF THE CHECKLIST (6-year term)

Aldrich Mitchell, Jr.	Term expires 1988
John W. Patrick	Term expires 1990
Robert S. Barber	Term expires 1992

LIBRARY TRUSTEES (3-year term)

Doris J. Valley	Term expires 1987
Nancy C. West	Term expires 1988
Lucille Hall	Term expires 1989

MOSQUITO CONTROL COMMISSION (3 members; 3-year term)

Robert J. Reardon	Term expires 1987
William R. Jenness	Term expires 1988
Herbert R. Drake	Term expires 1989

TRUSTEES OF TRUST FUNDS (3-year term)

Melvin R. Low	Term expires 1987
Karin L. Phelps *	Term expires 1987
Frances I. Holway	Term expires 1989

* Robert B. Goss died on April 13, 1986. Mr. Goss had been Chairman of the Budget Committee, a Representative to the General Court, Planning Board member, and Trustee of Trust Funds. Dr. Rolf Lium was appointed to fill out the term on the Trustees of Trust Funds. Sadly, however, Dr. Lium died on September 27, 1986. His daughter, Karin Phelps, has been appointed to fill the term. Paula Snyder was appointed to the Budget Committee, and David Dawley to the Planning Board.

Town Officials, continued

PLANNING BOARD (7 members; 3 year term)

James D. Brown, Chairman	Term expires 1988

Christopher Christo, Clerk

TOWN WARRANT

The State of New Hampshire

To the inhabitants of the Town of Rye, in the County of Rockingham in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Rye Elementary School in said Rye on Tuesday, the tenth (10th) day of March, 1987, next, at nine o'clock in the forenoon until 7:00 o'clock in the evening to vote on the following subjects:

ARTICLE 1. To choose a Selectman for three (3) years, a Treasurer for the ensuing year, a Cemetery Trustee for three (3) years, a Library Trustee for three (3) years, two (2) Budget Committee Members for three (3) years, a Budget Committee Member for two (2) years, and a Budget Committee Member for one (1) year, two (2) Planning Board members for three (3) years, a Planning Board member for two (2) years, and a Planning Board member for one (1) year, a Trustee of Trust funds for three (3) years, and a Trustee of Trust Funds for one (1) year.

ARTICLE 2. To choose all necessary officers for the Rye School District in accordance with the statutory procedure adopted by said District at its March 1962 annual meeting.

ARTICLE 3. To see if the Town will vote in favor of having a three (3) year term for the town treasurer.

ARTICLE 4. To see if the Town will vote to amend the Rye Zoning Ordinance as recommended by the Rye Planning Board, to wit:

Amendment 1. Proposed Reorganized and Updated Rye Zoning Ordinance

This proposed ordinance represents a simplification, reorganization, statutory updating and clarification of the present Rye Zoning Ordinance. The proposed text does not alter any zoning regulations or policies expressed in the current ordinance. The principal changes are:

1. The proposed ordinance is better organized and indexed than the present ordinance.
2. Unnecessary, verbose and/or repetitive language has been removed.
3. Confusing language has been clarified.
4. References to state and federal statutes have been updated.
5. Text required by the federal flood insurance program has been added to the Flood Hazard District.
6. In some sections language taken directly from state statute has been included.
7. Amendments enacted at the March, 1986 Town Meeting have been added.

The members of the Planning Board believe the reorganized ordinance sets forth Rye's zoning regulations in a manner that is clearer, more straightforward and easier to use and understand than the present ordinance.

Amendment 2. Growth Management Ordinance

1. Delete existing Section XVIII-Growth Management Ordinance.
2. Add new section as follows:

SECTION XVIII GROWTH MANAGEMENT ORDINANCE

A. AUTHORITY AND PURPOSE

This ordinance is enacted pursuant to authority granted by NH RSA 674:22. It is intended to regulate and control the timing of development in accordance with the objectives of both the Master Plan and the Capital Improvements Program adopted by the Rye Planning Board. These two documents assess and balance the community development needs of the Town of Rye and consider regional development needs.

B. BUILDING PERMIT LIMITATIONS

2.1 ANNUAL LIMITATION.

The number of building permits for new dwelling units (hereinafter referred to as "building permits") that are issued in a calendar year by the Town of Rye shall be limited to an amount that is 1.75 percent of the total dwelling units existent in Rye as of December 31 of the prior year. For the purposes of this ordinance the December 31 base of dwelling units shall be determined from the 1980 United States Census, updated with building permit data reported annually to the New Hampshire Office of State Planning. For the year 1987 the December 31, 1986 base of dwelling units is 2006, and the annual 1.75 percent limitation is 35.

2.2 ISSUANCE OF BUILDING PERMITS.

The Building Inspector shall issue building permits on a "first come-first serve" basis, subject to the limitations set forth herein, which are designed to promote fairness in distributing permits throughout the year.

2.21 Application: A person may apply for a building permit at anytime. If the Building Inspector is unable to issue a permit because of the limitations of this ordinance, the person making application shall be placed on a waiting list.

2.22 Issuance Schedule: Throughout the year the Building Inspector shall issue building permits in a manner that complies with the following schedule:

<u>Date</u>	<u>Maximum Allowable Building Permits (Aggregate)</u>
By February 28 (29)	No more than 15% of annual limitation
By April 30	No more than 35% of annual limitation
By June 30	No more than 60% of annual limitation
By August 31	No more than 80% of annual limitation

2.23 Equitable Distribution: In order to assure equitable distribution of available permits, no single individual, partnership, corporation or other entity shall be issued more than four (4) building permits during a calendar year. However, after December 1, surplus permits may be issued to such individuals, partnerships, corporations or other entities if there is no other applicant remaining on the waiting list.

2.3 CARRY FORWARD OF SURPLUS.

If on December 31 of any year the number of building permits issued was less than the number allocated for that year, the surplus shall be added to the annual limitation of the following year only, provided that the number of building permits for new dwelling units issued in any calendar year does not exceed 47. Table I below, illustrates how the carry forward operates.

2.4 UNUSED PERMITS.

Permits that are issued but not utilized shall not be added back into the annual limitation.

2.5 ADMINISTRATED PROCEDURES.

The Building Inspector is hereby authorized to establish administrative procedures necessary to implement this article. All such procedures shall be posted. The Building Inspector shall annually post, no later than January 10 of each year, the annual limitation and a numerical schedule of aggregate issuances.

C. Preservation of Significant Natural Features/Open Spaces.

It is the intent of this ordinance that only significant amounts and/or types of natural features and open spaces be preserved by cluster subdivisions. The ordinance is not intended to provide the benefit of smaller lot sizes and frontages to every subdivider, but, rather, only to those who can demonstrate that the types or amounts of features preserved are significant enough to warrant use of the cluster subdivision provisions. Thus, in addition to the threshold requirements of section B.6, the area proposed for preservation must qualify as significant by meeting one of the four conditions set forth below:

1. A size of seven (7) contiguous acres, or more; or,
2. A minimum of seventy-five percent (75%) of the preserved area shall consist of any combination of the following characteristics:
 - a. The buffer required by section B.5.
 - b. Wetlands as defined by the Wetlands Conservation District.
 - c. Land within 100 feet of such wetlands, fresh or salt water or waterways.
 - d. Woodlands.
 - e. Land within 100 feet of open spaces owned by the Town of Rye; the Rye Conservation Commission; the State of New Hampshire; the Rye School District, or the Rye Water District.
 - f. Land within 100 feet of golf courses or cemeteries.
 - g. Soils where the depth to ledge is greater than three (3) feet but less than five (5) feet or where the depth to the seasonal high water table is greater than two (2) feet but less than three (3) feet; or,
3. Presence of other locational or site characteristics which, subject to specific findings thereto by the Planning Board, are determined significant enough to warrant preservation in accordance with the intent of this ordinance.

D. Ownership of Preserved Areas.

1. Membership Cooperation: Provisions shall be made so that the preserved area shall be owned by a membership corporation, trust or association whose members are all the owners of the lots in the subdivision. The subdivider shall submit proposed articles of incorporation/association or proposed trust instruments to the Planning Board and Town Counsel for review and approval. The Planning Board may approve other forms of ownership of preserved areas if it is in the best interest of the neighborhood and Town.
2. Deed Restriction: The area to be preserved shall be so defined on the subdivision plan and shall be made subject to a deed restriction which shall hereafter prohibit further subdivision of the preserved area or use of it for purposes other than originally designated.
3. Access: All preserved areas shall be accessible to the owners of lots in the subdivision by way of streets or easements.

E. Cluster Subdivision Procedures.

Cluster subdivisions are subdivision of land. Therefore all cluster subdivisions must be approved by the Planning Board in accordance with its subdivision regulation procedures. Because of the innovative nature of cluster subdivisions, all cluster subdivision applicants shall be required to make a preliminary application and submit to a preliminary public hearing as per the procedures of the Subdivision Regulations. This requirement will assure that each cluster subdivision proposal has at least two public hearings.

Amendment 3 - Cluster Subdivisions

Add new section as follows:

SECTION IV-A CLUSTER SUBDIVISIONS

A. Purpose

The purpose of the cluster subdivision provisions of this ordinance is to help preserve Rye's rural character. It will allow nature land features and/or open spaces to be conserved while providing greater land subdivision flexibility for larger parcels of land. In cluster subdivision a density no greater than that allowed by a Single Residence District (one dwelling per acre) must be maintained but the lot sizes and frontages may be reduced in order to permanently preserve areas within the subdivision which contain significant nature features and/or open spaces.

B. Criteria

1. Parcel Size: Cluster subdivisions shall not be permitted on parcels less than ten (10) acres in area. Wetlands may be counted to make up the minimum parcel size but may not be counted to determine the number of dwellings permitted under section B.4.

2. Dwellings: No buildings other than single family detached dwellings shall be permitted in cluster subdivisions.

3. Lot Size and Frontage Reductions: In the Single Residence District only, lot area and frontage requirements may be reduced to 30,000 square feet and 120 feet, respectively, in cluster subdivisions approved pursuant to this section. All other requirements of the Single Residence District shall be met.

4. Density: The number of dwellings permitted in a cluster subdivision shall not exceed the number of non-wetland acres in the parcel. This requirement is intended to provide an overall density of one dwelling per acre on non-wetland soil.

5. Mandatory Buffer: Every cluster subdivision shall have a natural buffer of open space of 75 foot depth from every road or street off which the subdivision is developed. The ownership of the buffer area shall be as per section D. The Planning Board may waive this requirement if a buffer is not appropriate to the configuration of the parcel.

6. Minimum Preservation Acreage: The total land area reserved for preservation shall not be less than three (3) acres in size or twenty-five percent (25%) of the parcel size, whichever is greater. The buffer required by section 5 above may count towards this replacement. The preserved area shall be integrally related to the development of the subdivision. The preserved area may consist of more than one piece, but every such piece shall have a minimum contiguous area of at least one (1) acre of five percent (5%) of the parcel size, whichever is greater. However, the buffer required by section 5 above is exempt from the 1 acre/5% requirement.

7. Preservation of Significant Natural Features/Open Spaces: The land area reserved for preservation shall be "significant" as per section C, below.

8. Cul-de-Sac Frontage: The Planning Board is authorized to establish appropriate frontage requirements for cluster lots having more than half of their frontage on a cul-de-sac, teardrop or T.

C. SUBDIVISION APPROVAL LIMITATIONS

3.1 ANNUAL LIMITATIONS.

The number of new lots approved for recording by the Rye Planning Board in a calendar year shall not exceed the annual building permit limitation established under section 2.1. This limitation shall apply only to lots approved for recording (i.e. final subdivision plats). It shall not prevent the Planning Board from granting preliminary approval of subdivision layouts creating greater number of lots.

3.2 TIME OF SUBDIVISION REVIEWS

The Planning Board shall amend its subdivision regulations to assure that its review of subdivision applications throughout the year is timed so that:

3.21 April 30: No more than one third (1/3) of the annual limitation is approved prior to April 30.

3.22 August 31: No more than two-third (2/3) of the annual limitation is approved prior to August 31.

3.3 EQUITABLE DISTRIBUTION

In order to assure equitable distribution of lots approved for recording, no single subdivision shall receive final plat approval for more than six (6) lots in any calendar year. However, if on November 1 all of the annual limitation has not been utilized, the Planning Board shall grant final plat approval to additional lots in a subdivision if requested to do so by the subdivider and if the Planning Board, in good faith, determines that the available balance will not be utilized by other pending subdivision applications prior to December 31. If there is more than one such request, the Planning Board shall equally distribute the balance among those making requests.

3.4 YEAR END BALANCE.

Because there is an adequate surplus of approved, vacant building lots in Rye, any year end balance in the annual limitation on lots approved for recording shall not be carried over to subsequent years.

D. CONFLICTS

In matters governed by this ordinance, this ordinance shall supersede conflicting local ordinances and regulations.

E. SEVERABILITY

Should any part of this ordinance be held invalid or unconstitutional by a court, such holding shall not affect, impair or invalidate any other part of this ordinance, and, to such end, all articles, sections and provisions of this ordinance are declared to be severable.

F. EFFECTIVE DATE

This ordinance shall take effect upon passage and shall supersede the present Growth Management Ordinance, which is Section XVIII of the Zoning Ordinance for the Town of Rye, New Hampshire. Said existing ordinance is hereby repealed.

TABLE I
EXAMPLE OF CARRY FORWARD CALCULATIONS

Year	Base D/U	1.75% of Base	Annual Limitation	Actual Permits Issued	Surplus Carried Forward
1	2006	35	35	30	5
2	2036	36	36+5=41	33	3*
3	2069	36	36+3=39	39	0
4	2108	37	37	37	0

* The important thing here is to recognize that the Surplus Carried Forward is 36-33=3 not 41-33=8.

Amendment 4 - Planned Business Park District

Add new section as follows:

SECTION VIII PLANNED BUSINESS PARK DISTRICT

A. Purpose.

The purpose of the Planned Business Park District is to implement the Rye Master Plan by providing for well planned office and light industrial developments on larger tracts of land having good access to U.S. Route 1 and the regional transportation network. In the Planned Business Park District the only uses allowed are Planned Business Parks that are approved by the Rye Planning Board and that comply with the requirements set forth herein.

B. Minimum Area of Park.

A Planned Business Park must have a minimum area of [thirty] [(30)] acres. A Planned Business Park may be subdivided into smaller lots in accordance with the provisions of the Rye Subdivision Regulations, but no lot in a Planned Business Park shall be less than four (4) acres in size nor have a frontage less than 250 feet.

C. Utilities.

Planned Business Parks must be served with both public water and public sewerage services.

D. Open Space.

At least twenty percent (20%) of the area of a Planned Business Park shall be preserved a common open space. The preserved open space shall be integrally related to the site plan for the park. The manner of ownership of the open space shall be as approved by the Rye Planning Board.

E. Buffer.

There shall be a fifty (50) foot wide buffer area provided for residential properties which abut a Planned Business Park. The buffer area may be counted as part of the open space requirement of section D, above.

F. Business Park Uses.

1. Permitted Uses: In a Planned Business Park, only the following uses are permitted:
 - a. Business, financial, professional or government offices, including medical offices and clinics.
 - b. Laboratory or research facilities.
 - c. Radio or television studios.
 - d. Printing, binding, publishing and related graphic arts and trades.
 - e. Places of manufacturing, assembly, testing or packaging of goods provided that:
 1. All resulting noise, dust, glare, vapors, smoke, odors and refuse are confined to the interior of buildings; and,
 2. No outside storage of goods or materials occurs.
 3. The manufacturing activity shall not jeopardize the public health, safety or welfare.
 - f. Warehouses and storage buildings for non-flammable and non-explosive materials, provided that the conditions of e.1., e.2 and e.3. above are met.
2. Special Exceptions: In Planned Business Parks, only the following uses are permitted by special exception:
 - a. Accessory uses to any permitted use.
 - b. Bottling of beverages.
 - c. Private membership athletic and health clubs, as an accessory use in a planned business park.
 - d. Heliports, as an accessory use.

e. Outdoor storage as an accessory use provided that the visual impact of said storage shall not detract from the overall attractive environment of a planned business park; shall not be detrimental to the abutters or the neighborhood, and shall not occupy required buffer or setback areas.

G. Other Site Development Criteria.

1. Minimum Yard Requirements.

- a. Front Yard : 60 feet.
- b. Side Yard : 50 feet.
- c. Rear Yard : 50 feet.

2. Height: No building shall exceed thirty-five (35) feet in height except by special exception. The Board of Adjustment shall determine that adequate fire protection exists for buildings granted special exceptions for heights in excess of thirty-five (35) feet.

3. Coverage: Building coverage shall not exceed thirty percent (30%) of lot area. Total impermeable coverage (including building coverage) shall not exceed seventy-five percent (75%) of lot area. A lot may contain more than one building.

4. Bulk Storage: There shall be no bulk storage above ground or sub-surface of any fuels or liquid chemicals, except heating oil to be used on site.

5. Water Quality: The project shall not adversely affect surface water quality or groundwater quality.

6. Noise, Glare, Odors: Operations on the premise shall not generate any noise, glare or odors noticeable on abutting properties.

H. Plan Approval Procedures.

All Planned Business Parks shall be developed in strict compliance with an overall development plan that has received site plan approval from the Rye Planning Board (and/or subdivision review approval if applicable). The Rye Planning Board shall amend its site plan review and subdivision regulations to assure that such plans receive a minimum of two (2) public hearings.

Revise Official Rye Zoning Map to reclassify (rezone) the old airport tract, parcel numbers 14-6, 14-7, 14-39, and 14-40 from Commercial to Planned Business Park District.

ARTICLE 5. To see if the Town will vote to instruct the moderator to appoint three (3) citizens to serve on a special unpaid committee to be known as Regional Refuse Disposal Planning Committee for the purpose of studying the advisability of establishing a regional refuse disposal district and drawing up a proposed agreement; therefore, as authorized by RSA 53:B.

ARTICLE 6. To see if the Town will raise and appropriate the sum of seventy two hundred and ninety three (\$7,293) dollars for the purpose of meeting the expense of the Regional Refuse Disposal Planning Committee established in Article 5.

(This article is recommended by the Budget Committee.)

ARTICLE 7. To see if the Town will vote to authorize the withdrawal from the Federal Revenue Sharing Fund ninety nine thousand (\$99,000) dollars to be used as an offset to the following appropriations; the sum of fifty thousand (\$50,000) dollars to share in the purchase of a new fire truck and twenty nine thousand (\$29,000) dollars to purchase equipment for the Highway Department. The balance of twenty thousand (\$20,000) dollars to be used to renovate the Recycling Building. This will deplete the Federal Revenue Sharing Fund as ordered by October 1, 1987.

(This Article is recommended by the Budget Committee.)

ARTICLE 8. To see if the Town will vote to raise and appropriate two hundred and fifty thousand (\$250,000) dollars for the purchase of an engine/ladder truck to replace a 1956 fire engine, by withdrawing one hundred seventy six thousand seven hundred and forty eight (\$176,748) dollars plus accrued interest from the Fire Department Equipment Capital Reserve Fund, fifty thousand (\$50,000) dollars from the Federal Revenue Sharing Account and the balance of twenty three thousand two hundred and fifty two (\$23,252) dollars to be raised by taxes.

(This Article is recommended by the Budget Committee.)

ARTICLE 9. To see if the Town will vote to raise and appropriate the sum of sixty one hundred (\$6,100) dollars to perform the testing of the monitoring wells at the landfill closure located on Breakfast Hill Road, Town of Rye. The sum is for four (4) quarterly testings as required by the New Hampshire Water Supply and Pollution Control Commission in accordance with the state requirements for landfill closures.

(This Article is recommended by the Budget Committee.)

ARTICLE 10. To see if the Town will vote to create the position of Administrative Assistant to the Selectmen, and to raise and appropriate the sum of thirty thousand (\$30,000) dollars to defray the cost of hiring and for the payment of a salary. The Administrative Assistant shall be a college graduate with experience in municipal administration, and be familiar with the state and federal statutes regarding town government.

(This Article is recommended by the Budget Committee.)

ARTICLE 11. To see if the Town will raise and appropriate the sum of twenty thousand (\$20,000) dollars for the purpose of renting, leasing and/or buying a building for the Rye Police Department and to authorize the Rye Board of Selectmen to enter into an agreement for such under whatever terms the Selectmen deem appropriate.

(This Article is recommended by the Budget Committee.)

ARTICLE 12. On petition of ELIZABETH A. GREENE, and thirteen (13) others, to see if the Town will vote to raise and appropriate the sum of one hundred thousand (\$100,000) dollars for the purpose of purchasing a low ground pressure hydraulic backhoe for drainage work and ditch maintenance on salt marshes in order to control mosquitoes and to rejuvenate the salt marshes.

(This Article is recommended by the Budget Committee.)

ARTICLE 13. On petition of D. JEFFREY DIETRICH, and twelve (12) others, to see if the Town will vote to raise and appropriate the sum of one thousand (\$1,000) dollars for the purpose of reimbursing RENEW Counseling Center of Rye, NH (A non-profit organization offering its services to the public on a sliding fee basis) for counseling services rendered to residents and families of the Town of Rye.

(This Article is not recommended by the Budget Committee.)

ARTICLE 14. To see if the Town will vote to reaffirm its long standing position that the emergency planning for Seabrook Station does not provide adequate safety for the people of Rye in the event of a major accident at Seabrook Station and that no operating license should be issued unless the emergency plan is approved by majority vote of Town Meeting after a public hearing by the Board of Selectmen.

ARTICLE 15. To see if the Town will vote to re-name the Rye Town Hall, "The Robert B. Goss Municipal Building", and to raise and appropriate the sum of fifteen hundred (\$1,500) dollars for the purchase of an appropriate sign indicating the name on the front of the building and an appropriate bronze plaque near the side entry of the building.

(The Article is recommended by the Budget Committee.)

ARTICLE 16. On petition of DWIGHT HAMSLEY, and ten (10) others, to see if the Town will vote to approve the MOSQUITO DEPARTMENT, Rye, NH, to return to carrying back packs for the distribution of chemical sprays to kill mosquitoes in the marsh tidal pools because the current method of driving an eight wheeled vehicle has proved detrimental to the marshes by leaving deep scarring tire tracks, and if approved the ATV vehicle be sold, and the money used to hire part-time help to carry the packs, OR the ATV vehicle be kept for emergencies and/or made available for the Rye Police, Fire, and Highway Department's use.

ARTICLE 17. On petition of DWIGHT HAMSLEY, thirteen (13) others, to see if the Town will vote to approve the banning of any type of hunting within the limits of the Town of Rye until voted otherwise.

ARTICLE 18. On petition of FRANCES I. HOLWAY, and fourteen (14) others, to see if the Town will vote to disallow the tabling of any petitioned article until after the petitioner and two (2) other persons have had an opportunity to speak.

ARTICLE 19. On petition of WILLIAM C. BRADLEY, and eleven (11) others, to see if the Town will vote to protect the health and safety of all residents by directing Town public safety officials to ensure that Town emergency plans take into consideration the operation of Seabrook Station, providing that the cost of these plans will be borne by the Seabrook owners through existing agreements with the State of New Hampshire. These plans shall be developed regardless of any decision to reduce the official Emergency Planning Zone around Seabrook Station.

ARTICLE 20. To see if the Town will waive the fee to be charged for a permit to register one motor vehicle owned by any person who was captured and incarcerated for thirty (30) days or more while serving in a qualifying war or armed conflict as defined in RSA 72:78, IV and who was honorably discharged, provided the person has provided the Town Clerk with satisfactory proof of these circumstances.

ARTICLE 21. To see if the Town will vote to approve and implement a Snow Obstruction Town Ordinance to read as follows:--"No person shall put or place or cause to be put or placed any snow or ice upon the right of way or travelled portion of any Town highway or State maintained highway with the Town of Rye for any purpose. Any person shall be guilty of a violation if a natural person, or guilty of a misdemeanor of any other person."

ARTICLE 22. To see if the Town will vote to authorize the Selectmen to apply for, accept and expend, without further action by the Town Meeting, money from the state, federal or governmental unit or private sources which becomes available during the fiscal year. Pursuant to NH RSA 31:95-b as amended.

ARTICLE 23. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

ARTICLE 24. To see if the Town will vote to accept the budget, submitted by the Budget Committee and pass any vote in relation thereto, and to raise and appropriate such sums of money as may be necessary to defray Town charges for the Calendar Year 1987.

ARTICLE 25. To see if the Town will vote pursuant to the NH RSA 31:105 to provide indemnification for Selectmen, Town Employees, Town Officers or Agents from personal loss or expense including reasonable legal fees and costs, if any, arising out of any claims, demand suit or judgement by reason of negligence or other act resulting in accidental injury to a person or accidental damage to property providing the indemnified person was at the time of the accident acting within the scope of his employment or office.

ARTICLE 26. To see if the Town will vote to authorize the Selectmen to sell to the highest bidder at public auction or sealed bid such surplus Town equipment as is not traded in on new equipment this year.

ARTICLE 27. To see if the Town will vote to eliminate a five percent (5%) discount on all property taxes paid within thirty (30) days from the date of mailing of the tax bills.

ARTICLE 28. On petition of PAULA S. SNYDER and eleven (11) others, to see if the Town will vote to change the present annual tax billing to a semi-annual billing beginning in tax year 1988. If this is adopted, taxes would be due and payable in July 1 and December 1 in accordance with New Hampshire tax statute 76:15a.

ARTICLE 29. To transact any other business which may legally come before this meeting.

Given under our hands and seal this seventeenth day of February in the year of our Lord, nineteen hundred and eighty-seven.

AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of
the Board of Selectmen
Town of Rye
Rye, New Hampshire

We have examined the general purpose financial statements of the Town of Rye, New Hampshire and the combining fund financial statements of the Town as of and for the year ended December 31, 1986, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly the financial position of the Town of Rye, New Hampshire, at December 31, 1986, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining fund financial statements referred to above present fairly the financial position of each of the funds of the Town of Rye, New Hampshire, at December 31, 1986, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining fund financial statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Town of Rye, New Hampshire. Such information has been subjected to the auditing procedures applied in the examination of the general purpose and combining fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective funds taken as a whole.

SELECTMEN'S REPORT

The Town of Rye has completed its revaluation by the State of New Hampshire. The reviews have been finished, and the State is compiling errors and/or corrections with a notice to each and all of the one hundred and seventy (170) resident inquiries who requested a review.

As noted last year, the Sewer Project has now escalated to a three million (\$3,000,000) dollar project. The Town and State are negotiating with the Town of Hampton to extend a sewer line along Route 1A rather than having a septic tank treated with chlorine and pump one hundred thirty thousand (130,000) gallons per day into the Atlantic Ocean. The Board of Selectmen feel that an agreement with the Town of Hampton is a much more desirable solution for the future. A decision should be forthcoming in approximately four to six weeks.

A new solution for the Rye Dump is now under revision with Kimball Chase acting as the engineering firm, and by the time this is printed a contract should be signed with MERC (Maine Energy Recovery Company) who is the receiver and is located in Biddeford, Maine.

The Rye Harbor dredging hopefully will be completed this summer. It is a much needed project; however, some residents are not happy about the disposal site, and this is unfortunate.

Our financial records have been audited by Carri-Plodzik-Sanderson, Concord, New Hampshire, and we are happy to report that over two hundred and fifty thousand (\$250,000) dollars will be returned to general surplus.

The Landfill Closure Plan has been carried out successfully, and should be completed by the Spring, 1987 at the total cost of four hundred and twenty one thousand (\$421,000) dollars.

The Board of Selectmen initiated an in-house move involving several offices located in the Town Hall in April, 1986. This move to the upstairs of the Town Hall has greatly improved the working conditions of the offices, i.e., Selectmen's Office, Selectmen's Staff, Treasurer, Mosquito Control, and Recreation Director. The Board feels that this move is not the answer to the space problem; however, it is definitely a start.

Selectmen's Report (continued)

The Selectmen are also involved with the New Hampshire Water Supply and Pollution Control Commission conducting dye testing in many areas of the Town including the Jenness Beach area.

At this time, the Board of Selectmen would like to express their thanks and appreciation to the Rye Fire, Highway, and Police Departments, and all other Town employees for a job well done in 1986. Keep up the good work!

Maynard L. Young, Chairman

Jack Tobey, Selectman

John J. Coffey, Selectman

BUDGET COMMITTEE

The Budget Committee is mourning the loss of our long time member and chairman Bob Goss. Bob was not only a good friend, but he guided the Budget Committee through the budgeting procedure with a knowledge from years of experience in municipal affairs. He will be missed for years to come.

The Budget Committee held an organizational meeting on April 28, 1986. The following officers were elected: Harold N. Sleeper, Chairman; Richard L. Butters, Vice Chairman; and John W. Moynahan, Clerk.

Quarterly meetings have been held with the Selectmen and the School Administration to review expenses through the year. There have been two special meetings to review replacement of a Packer which burned and a tractor which broke down.

The Budget Committee is presently working with all department heads to formulate the 1987 Budgets.

Respectfully submitted,
Harold N. Sleeper
Chairman

TOWN CLERK'S REPORT

<u>New Office Hours</u>	Monday through Friday	8:00 a.m. to Noon 12:30 p.m. to 4:00 p.m.
	Monday evenings	6:30 p.m. to 8:00 p.m.

Beginning January 1st the office will remain open until 4:00 p.m., which is an additional hour per work day. We realize that many people have difficulty finding the time to get to the office in order to register their vehicles, or license their dogs and we are hoping the extra hour per day will help that situation somewhat. The Monday evening hours can also be very convenient for those who work during the day.

REMINDER. Vehicle registrations are renewed each year during the birthmonth of the registrant. Proof of resident tax payment is required by law. This year the State of New Hampshire is issuing new license plates for passenger and vanity plates. If you have a numerical plate numbered from 1 to 9,999 you should remember to register early in your birthmonth as you will then be required to either mail or take the permit to Concord in order to receive the same plate number.

Dog tags and licenses must be obtained each year between January 1 and April 30. A rabies vaccination certificate must be presented.

1986 RECEIPTS

Registration Certificates (5,853)		\$ 408,658.00

POLICE CHIEF'S REPORT

The Rye Police Department would like to express their appreciation to those who assisted the Department throughout 1986. Thanks to the Rye Fire Department, Rye Highway Department, New Hampshire State Police and the Rockingham County Sheriff's Department for their continued support. We also would like to thank the United States Coast Guard for their help along our shoreline. Thanks also to the Rye Ambulance Corps for their prompt response in times of emergency.

This past summer was a very wet summer causing a decrease in the activity at the beaches. The following is a list of arrests and summonses from the beach area: 40 court summonses, 19 drug related arrests and over 150 warnings for various offenses.

The following is the new law on annual inspection, RSA 266:1 vehicles manufactured during the six most recent calendar years shall be inspected annually. Vehicles will continue to be inspected semi-annually until the owner's month of birth. Once in the owner's month of birth, it shall be inspected on a normal twelve month time period. Exceptions to this are motor trucks exceeding ten thousand pounds and school buses, both of which must be inspected semi-annually. Inspection stations shall be guided by the year of manufacture appearing on the vehicle owner's registration to determine which vehicles qualify for annual inspection.

RSA 265:71 Parking Regulations: Except as otherwise provided in this section, every vehicle stopped or parked upon a highway where there are adjacent curbs shall be so stopped or parked with the right hand wheels parallel to the right hand curb; upon a highway where there are no curbs the vehicle shall be so stopped or parked with the right hand wheels parallel to the right hand side of the travelled portion of the highway.

Every vehicle stopped or parked upon a one way highway shall be so stopped or parked parallel to the curb or edge of the highway, in the direction of authorized traffic movement with its right hand wheels twelve inches from the right hand curb or its left hand wheels twelve inches from the left hand curb or edge of the highway.

The following is a list of items handled by the Department in 1986: 1,026 summonses, 108 arrests, 1,200 warnings, 175 accidents, 422 alarms,

Police Chief's Report (Continued)

363 parking tickets issued, 11 burglaries, 21 thefts, 33 thefts from motor vehicles, 1,028 miscellaneous items, 6,812 incidents handled by the Police Department.

Respectfully submitted,
Walter E. Dockham, Jr.
Chief of Police

JUVENILE OFFICER'S REPORT

Activity for the year 1986 is reflected in the following figures: total number of youths handled were 86, 54 males and 32 females. The offenses which make up these figures are 3 runaways, 5 truants, 6 drug related, 11 malicious mischief, 5 malicious damage, 8 motor vehicle, 8 Child in Need of Services (CHINS), 6 thefts, 19 alcohol, 3 trespass, 6 check-up, 3 littering and 3 victims of child abuse.

1986 again saw the Police Department actively involved in the schools. A new program was developed by Mrs. Eileen Murphy that became a great supplement to our Child Registry program. Every student in our Junior High and Elementary school was asked to participate in a program which utilized both video and still photography to help identify the children. Voice patterns and style, along with a still photograph, were taken of each of the participating children. All but 9 students participated in the program.

I would like to publicly thank the principals and staff of both schools for their support and cooperation in the program. I would also like to give a special thanks to Eileen Murphy, who helped put the whole program together and without her help, the program would not have worked so smoothly. Thank you, Eileen!

The plans to continue this program in 1987 have already been started, and we are proud to say that we have already returned to the schools and have included those students who are new to the school or those who have just entered kindergarten.

The Police Department is looking forward to a continuing update of this program, and a continuing positive relationship with the schools.

Respectfully submitted,
Randall B. Tompkins
Juvenile Officer

BUILDING INSPECTOR'S REPORT

The work load of this office continues to increase daily. It divides along two main themes: the inspection for proper construction and adherence to Codes and Ordinances in the field and the associated time consuming office research and reference tasks. Each is a full time job.

During 1986, I responded to more than 1500 telephone calls and 500 plus inspections were carried out resulting in 47 verbal directives for correction including 4 chimneys that were taken down in whole or in part and then rebuilt. Ten written violations were issued that are, at this writing, in various stages of compliance.

The following is a statistical breakdown of building permits issued in 1985 and 1986:

	<u>1985</u>	<u>1986</u>
Total number of permits issued	260	347
Permits suspended or revoked	1	10
New homes	36	23
Additions, repairs, remodeling	159	182
New garages (private)	11	15
Paving driveways, parking areas	9	35
Sheds, workshops, barns	15	18
Repair chimneys	2	3
Swimming Pools	6	7
Decks, fences and walls	10	44
Demolition of buildings	1	2
Observe pits and percolation tests for septic systems	45	70
Repair existing septic system	10	8
Permit fees collected	\$24,848.00	\$25,000.00
Estimated valuation of construction on applications	\$4,773,154.00	\$6,162,722.80

The Rye Building Code in outlining the duties of the Building Inspector states that he shall enforce all provisions of this Code, the Zoning Ordinances, and all statutes and regulations of the State of New Hampshire "including sewerage disposal." It should be understood that in keeping with these

Building Inspector (Continued)

provisions, statutes and regulations, any repair, replacement or modification of an existing septic system requires a permit.

Respectfully submitted,
William R. Jenness
Rye Building Inspector

FIRE CHIEF'S REPORT

The year 1986 shows a decrease in fire department responses for a total of 163 incidents detailed as follows: structure fires 13; arcing wires 6; chimney 11; woods/grass 6; auto accidents 3; auto fires 6; investigations 29; public assist 12; ambulance assist 2; false alarm 11; unauthorized burn 6; alarm activation 18; mutual aid given 14; mutual aid received 14; gas grill 2; police assist 16; hazardous materials response 7; Coast Guard assist 1. We dispatched the ambulance 266 times; issued 571 fire permits; 96 beach fire permits; 95 other permits; 123 inspections; 22 consultations; and New Castle Fire Department 20 times.

This past year we responded to mostly small fires and other incidents, (any fire to an individual is traumatic) which speaks well of our residents. Proper alarms and good housekeeping are easy tasks when balanced against the possibility of damage to your property. This year we watched the completion of a beautiful retirement home with the latest in fire protection and the installation of a fire alarm system in the Highway Garage. We are requesting the replacement of a 1956 engine at Town Meeting with a combination engine/ladder that will better serve the Town.

Again we ask you to post legible house numbers and check your smoke detectors. Thanks to other town departments and individuals who have assisted us in the past year.

Respectfully submitted,
George W. Moynahan, Jr.
Fire Chief

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

FOREST FIRE STATISTICS - 1986

	<u>*STATE</u>	<u>DISTRICT</u>	<u>CITY/TOWN</u>
Number Fires	840	135	6
Acres Burned	751	39	3

*Cost of Suppression \$275,956

Respectfully submitted,
Alfred Grimes,
District Fire Chief
George W. Moynahan, Jr.
Forest Fire Warden

PUBLIC WORKS DIRECTOR'S REPORT

I would like to thank the citizens of Rye, the Town Officials, Department Heads, and all others who have helped me during my first nine months as Public Works Director. I would especially like to thank the Highway Department employees for their efforts and cooperation in making these early months run as smoothly as possible. The Fire Department Dispatchers and Police Officers have been especially helpful during the winter months keeping a close watch on road conditions.

The Highway Department shim-paved 8,000 feet of Washington Road, paved the ambulance building parking lot, broke and repaved 2,000 feet of Sagamore Road and 1,100 feet of Central Road. We have completed the drainage project on Washington Road from Blueberry Lane to its terminus east of Fern Avenue.

The closing of the Breakfast Hill landfill is nearly complete. We were able to transfer a large quantity of material from the brush dump on Grove Road to Breakfast Hill which will help to extend the life of the present brush dump for Rye residents a few more years.

Due to age and complete mechanical failure of both the garbage packer and bucket loader, it was necessary to replace both these pieces of equipment. Updating and a preventive maintenance program of all highway equipment is an important factor in the overall plan of the department, therefore having all equipment serviceable at all times.

Respectfully submitted,
Cornelius "Bud" Moynahan
Public Works Director

CIVIL DEFENSE DIRECTOR'S REPORT

During 1986 Civil Defense activity was dominated by the Seabrook Evacuation Plan controversy. The NRC planning documents followed by the New Hampshire Civil Defense Agency focus on doing as well as possible with existing emergency response resources. The evaluation of plans has asked only whether those existing resources would be used in the most effective way. The question that should be asked is whether those resources are enough to make certain that the people of Rye will not be exposed to dangerous levels of radiation due to an accident at Seabrook. Rye has taken the position that standards for radiation exposure to the public must be adopted as the basis for evaluating the plans. A letter making that point and listing several faults in the planning process has been sent to the New Hampshire Civil Defense Agency along with a detailed discussion of the reasons for the comments. One example of the problems is that no provision to evacuate the Isles of Shoals is included in the final plan. In its response the State flatly declined to consider the Town's concerns. During 1987 we will continue attempts to gain cooperation from the State.

On January 3rd a winter storm occurred combined with the astronomical condition known as syzygy (the alignment of sun and planets) which caused an exceptional storm tide. The U.S. Weather Service initially expected storm conditions to be similar to the winter hurricane of 1978. Fortunately the storm did not materialize to that extent. Voluntary evacuation of beach and low lying areas was recommended by State Civil Defense however, so the storm shelter at the Junior High School was opened. A few beach residents took advantage of the shelter when it seemed, for a while, as though the sea might break through the embankments between Concord Point and Ragged Neck. The storm experience highlighted the need to add radios to the Highway Department vehicles. Had it been necessary to fully evacuate the beach areas communication with Highway Department plows would have been vital. During 1987 we will investigate the possibility of obtaining radios through the Federal Emergency Management Assistance Program and RSA 107.

Respectfully submitted,
David P. MacDonald
Civil Defense Director

ANIMAL CONTROL OFFICER'S REPORT

As I assumed the duties of Animal Control Officer in June, most of this information is taken from official records. The following is a list of items handled by the Animal Control Officer: 83 dogs were confined, 78 dogs were returned to the owners, 3 dogs were placed in new homes and 2 dogs were euthanized. 80 dogs were reported missing, 27 dogs reported returned, 11 dogs were reported found. Records for the past year show 514 dogs were licensed in Rye.

Throughout the year various complaints were received. Among those complaints were 60 dogs, 7 cats, 2 fox, 2 skunks, 1 raccoon, 3 dog bites and 1 cat bite.

The following violations were recorded: 48 dogs at large, 22 unlicensed dogs, 12 nuisance dogs, 3 dogs not displaying tags, 1 menacing dog, 1 vicious dog, 1 dog worrying livestock. Since June, 1986 35 summonses have been issued.

Respectfully submitted,
Rodney E. Sparkowich
Animal Control Officer

MOSQUITO CONTROL

The Summer of 1986 was a normal season with normal occurrences - the truck broke down, the sprayer broke down, and it rained too much. Mosquito-wise the summer was average. There were no record high peaks in the mosquito population, although some residents might argue that point.

This season a new tool was employed - an 8-wheel all terrain vehicle (ATV). In terms of effectiveness, the ATV was a complete success, exceeding our expectations. This machine literally will go anywhere. We put it through the tests and the ATV passed each one. It will go through mud, crawl over stone walls, cross ditches and even float. The ATV also helped the Rye Police Department with an investigation. In terms of money, the ATV saved the Town over \$4,000.00 in labor costs during 1986. This figure will increase each year with the rising cost of labor. The ATV sprays 4 times faster than a crew of 3 on foot, and will have paid for itself by 1988.

The tracks left by the ATV disturbed some people. This is an aesthetic trade-off for cheaper, more effective mosquito control. The tires may lay the tall grass down on some marshes, but it does not destroy the root system thus not destroying the grass. Impact assessments reveal little or no detrimental effect on salt marshes by the 8-wheel ATV's. This conclusion is based upon the findings of mosquito control districts using amphibious vehicles on salt marshes over a period of time. The State Mosquito Control Commission supports these results. To further support this evidence, we should look back to the days when salt marsh haying was conducted on a large scale. The salt marshes hosted far more traffic during the early part of the century in comparison to today's activity. This haying did not destroy the marshes, just as the use of the ATV to spray for mosquitoes once per month does not destroy the salt marsh. A 150 lb. person walking on the marsh applies nearly 3 times more pressure per square inch than the ATV carrying 2 people.

The salt marshes in our area do have a problem and it is not the ATV. The local salt marshes have inadequate tidal circulation and an impaired drainage system. These issues should be addressed soon for the health of our salt marshes.

The use of pesticides is a concern. Mosquito control projects are turning to alternative approaches for controlling mosquitoes on the salt marsh. Using natural fish predators, rather than pesticides or drainage ditches, to reduce mosquito larvae is known as open marsh water management or OMWM. OMWM has been shown to be effective in reducing the number of mosquito larvae while

Mosquito Control (Continued)

at the same time enhancing the marsh habitat for birds and fish. The salt marshes are altered to provide access for these larval predators to areas on the marsh where mosquito breeding is most intense. Up to 100% control of salt marsh mosquitoes has been reported using OMWM.

These alterations must be done using equipment designed to traverse and work in salt marshes without becoming mired or emersed. Equipment with very low ground pressure is important for successful excavation on a salt marsh.

Reducing or eliminating the dependence on insecticides is one of our goals. OMWM will bring us closer to that goal. Currently, several types of insecticides are used to control mosquitoes. During mid-July, a different insecticide was introduced to control adult mosquitoes. The insecticide, SCOURGE, will knock down mosquitoes faster than its predecessor, malathion. SCOURGE also breaks down quickly eliminating any threat of buildup in the environment. SCOURGE, as well as all the insecticides used to control mosquitoes, are carefully applied to avoid harming nontarget organisms, especially beneficial insects such as honey bees. All insecticides used for mosquito control have State and Federal registration and are applied by Registered Commercial Pesticide Applicators.

Those residents opposed to insecticide treatment of mosquitoes on their property must submit a request, in writing, to the Town Hall. This is required every year. All requests will be honored. You must clearly indicate the property lines.

I encourage residents to inform us of potential mosquito breeding sites on their property. Reports of stagnant water during the spring would help us give you better control of mosquitoes.

Fifteen more greenhead traps were added to our fleet on the salt marshes. These black boxes are chemical-free. The greenhead fly enters the trap from the bottom through a narrow opening. The fly rests on the screen at the top of the trap. Unable to escape, the fly dies from dehydration. This is a safe, inexpensive way to control greenhead flies. Twenty more traps are being built in time for the 1987 season.

I would like to thank those residents allowing us access to salt marshes with our ATV via their property. Many thanks to Paul Paradis, the Town's mechanic, whose mechanical abilities and ingenuity lead to the overwhelming

Mosquito Control (Continued)

success of the ATV. Bill Jenness, Bob Reardon and Herbie Drake, the Mosquito Control Commission, deserve special thanks for their support and guidance. My thanks to Mr. and Mrs. Stan Berry, Mr. and Mrs. David Duggan, and Mrs. Robert Goss for the use of their property and electricity for our light traps which monitor the adult mosquito population. Finally, I must thank the mosquitoes for their competitive spirit, even though they cheat.

Respectfully submitted,
Sarah MacGregor
Department Head
Entomologist

RYE RECREATION COMMISSION

The Rye Recreation Commission is pleased to announce our new director is Tippy Duffy. She came on board last May from the York Recreation Department where she worked for the last seven years.

She began by organizing a family-oriented July 4 celebration with fire engine rides, tug-war, egg toss, and running races. Entertainment was provided by the Boss Co. Band and the weather cooperated with blue skies and fair winds. Tippy will continue with this annual event and looks forward to suggestions from residents on how to make the day fun for everyone.

Approximately fifty-five children from ages 4-12 attended the summer playground program which ran five days a week from July 7 - August 29. Besides the regular sports activities and crafts classes, events included an ice-cream social, an airplane decorating contest, playground olympics and a farewell BBQ. Field trips included a popular visit to see Mugsy the Clown and Dan Grady Productions. This coming summer the recreation department will offer two four week sessions. This should help families plan their vacations and still participate in the special activities the summer program offers.

The recreation building and area were updated with new equipment. Six new swings were purchased and repairs were made to The Ship. The recreation building was brightened up with new lighting and it was made more workable for crafts classes with new chairs and counters. The fields are in good condition and have received their regular treatments of lime and fertilizer. We would like to note that a large part of our budget goes to keeping the fields in shape for town sports. Recreational vehicles and horses (!) are not allowed on them at any time.

Although it was a rather sunless summer, we are pleased to say that we once again enjoyed a safe season on the beaches. We would like to thank not only the Rye Police Force, but also the Rye Ambulance Corps for standing by with this assistance. We hope for a repeat of safety and fun but a lot more SUN.

This year's Halloween Party was again supported by many people, which makes this event a true community effort. The temperature was cold during the day of the party, but those who came enjoyed magician BJ Hickman, games, hayrides and brightly-colored balloons. Dracula was frightening as ever and many children dressed up in the spirit of the day. From now on this will always be scheduled the Saturday prior to October 31, so mark your calendar!

Rye Recreation Commission (Continued)

We held our first Annual Tree Lighting ceremony at the Town Hall courtyard. Approximately sixty people attended. The Rye Women's Club supplied the hearty celebrants with welcomed cups of hot chocolate. Many thanks.

Some of our fall and winter classes were low-impact aerobics, co-ed aerobics, fitness fun, morning conditioning, yoga, parent/toddler fitness, co-ed volleyball, and women's basketball. A field trip to a large ski area is in the works for those who like to down-hill and cross-country ski. And further along in the year we have planned to take advantage of the Red Sox's good pitching and fine hitting. We have already ordered tickets and a bus for two games; July 1, 1987 with the Orioles and September 9, 1987 with the Yankees. See you at Fenway, or hopefully much sooner at the Reading/Discussion series at the Rye Library held during February and March. This year the theme is marriage and we look forward to seeing some new faces in those lively discussion groups.

Respectfully submitted,

The Rye Recreation Commission

CONSERVATION COMMISSION

Our principal concern has continued to be preserving and protecting the wetlands of Rye. As applications are made to N.H. Wetlands Board for dredging or filling, we check the site to evaluate its possible impact. It is expected of us that a statement be sent to N.H. Wetlands Board either urging their denial, or suggesting their approval. Our viewpoint does have an impact.

We have maintained good communication with Rye Selectmen, Planning Board, Board of Adjustment, and Building Inspector. Occasionally a property owner has asked that we check a site for a point of land evaluation.

We made a purchase of a one-acre parcel of saltmarsh on Ocean Boulevard near Odiorne Park. New property valuation was \$36,000.00 for the parcel. We paid only a nominal figure that we felt was more correct for a piece of un-buildable land.

A point for future consideration is that house construction will still require dry ground, even along stretches that may be served by a sewer line. N.H. Wetlands Board will not approve filling of wetlands to create a house site. They can approve a roadway across wetlands to reach dry ground.

The new wetlands mapping prepared by Normandeau will aid land evaluation. One series is based on aerial photos, showing every house and road. The other series has the wetlands lines drawn on a set of tax maps.

With present severe pressures for development, we need to be planning more extensive land acquisition. There will be opportunity for matching funds through "Trust For New Hampshire Lands." We have asked for a substantial increase in our Rye Conservation Fund to be ready with our half of this funding assistance.

Respectfully submitted,
Louise H. Tallman
Chairman

LIBRARIAN'S REPORT

1986 has been a busy year at the Rye Library. The staff consists of Kathleen Rudden, Adult Services Librarian; Susan Torres Cronin, Children's Librarian; and Teddy Wyatt and Marjorie Little, Assistants. Charles Lockhart is the Custodian.

During the year the Library has been the scene of various types of activity. Books were circulated at a brisk pace, and special types of media such as large print books and audio cassettes were more popular than ever. Many newcomers to the community make the library one of their first stops, and residents who have not visited the library for years for one reason or another have rediscovered the pleasure that visiting a library can provide.

The newsletter, published quarterly, is distributed at various places in the community and provides residents with news of library events, book reviews, and lists of new books. A series of reading/discussion programs was held and was well-attended. Mimi White conducted a class in writing poetry, and a series of medical lectures was held utilizing speakers provided by Portsmouth Hospital.

The Children's Room provided a wide assortment of activities for the children of Rye. Activities such as craft workshops, pre-school story hours, movies, summer reading program, International Club, performance by the Boston Children's Theatre, reading aloud, musical programs, and book talks were all well-attended. The Children's Librarian also visited both schools for book talks on a regular basis. At Christmas, a group carolled in nursing homes in the area. More than 1500 children took part in these programs.

Library staff members attended various professional classes and meetings during the year and hosted several of them. The Library is a member of the Seacoast Library Cooperative, the Seacoast Film Cooperative, and the Seacoast Fiction Depository. With the acquisition of the computer, we are now part of the New Hampshire Automated Information System. This means that we are on-line to the State Library and can search their records for books requested by patrons. In addition, NHAIS provides a status-of-bills database and a newspaper index database. The computer for public use has been utilized by some people, and as we acquire additional software we hope to see more of our local residents discover how user-friendly the computer is.

The Friends of the Library have continued to provide invaluable assistance for the Library. At their monthly meetings, they do various library tasks. They also provide goodies for special occasions (such as holiday story hours),

Librarian's Report (Continued)

and they decorate the interior of the library for Christmas. The proceeds of their annual book sale were used to upgrade the Tandy computer and to purchase a workstation for the office computer.

In the spring a volunteer program was instituted, and the response has been most gratifying. We now have three volunteers who work at the circulation desk on a regular basis: Marion Dunn, Irene Maskwa, and Winifred Meehan. We also have three other ladies who are in the process of labelling the fiction collection: Anna Byam, Elizabeth Silbaugh, and Mabel Tobey. We appreciate the efforts of all of these ladies and thank them for their time and energy.

Many local organizations and individuals have been very generous to the Library. Among those groups making contributions to the library this year are the Rye Lions, the Rye Art Study Group, the Exercise Class, and the Rye Tuesday Club. Thanks to all of you.

The problems listed in last year's report have not gone away. The crowded conditions have gotten worse, traffic has increased, and materials have had to be discarded that we would have preferred to keep. The staff and trustees will continue to provide the best library service to the town possible under the present conditions while attempting to examine possible solutions to the dilemma.

I would like to thank the staff, the trustees (who decorated the exterior of the library so beautifully at Christmas), the Friends of the Library, and the volunteers for their efforts during the year. A special thanks goes to former Assistant Librarian Lorraine Currier for filling in when we were short-handed. We all look forward to a busy and productive 1987. Come on in and check us out!

Respectfully submitted,
Bette C. Owens
Library Director

RYE PUBLIC LIBRARY TRUSTEES' REPORT

During 1986, the library, under the directorship of Bette Owens, once again provided a wide variety of services to the Town of Rye. Included among these were programs about medical issues, book discussions and a poetry class. In the children's department, Susan Cronin continued to explore the wonderful world of fantasy in juvenile literature and to encourage all youngsters in the enjoyment of the arts. The S.A.T. (Scholastic Aptitude/Achievement Test) were again offered for the benefit of high school students preparing for their college boards. Large print books and audio story cassettes have been progressively more in demand and these demands are being met.

Improvements to the library included the purchase of a new storm door. The Geochron, which was donated in memory of Leland Giard several years ago, was sent out to be reconditioned and updated and is back in the library in perfect working condition. The newspaper stand in the periodical room is new and so helpful to the readers in our library. The Tandy computer has been available for public use this year. It has been popular and has proved a definite asset to the library and all its subscribers. There is an excellent variety of software including tutorial for those who wish to learn how to operate the computer.

During 1986, all members of the library staff continued to grow professionally by attending a number of workshops throughout the state. Kathleen Rudden, the Adult Services Librarian, has been accepted at Simmons College and is now enrolled in a Master's Degree program in Library Science.

Some problems involving the library structure itself remain unresolved. Shelving is inadequate, space is extremely limited, handicapped access is non-existent. Making the building handicapped accessible will be very difficult and expensive. Nevertheless, unless we can make it accessible by October, 1988, we will lose not only the valuable services from the State Library but also any possibility of obtaining federal money. The problem is under consideration. Our main objective is to offer high quality library services to all the people in our community.

Our year ended with the annual Wassail Open House just before Christmas. This year it was co-hosted by the Rye Historical Society. The special event this year at our Open House was the commemoration of the seventy-fifth anniversary of the Rye Public Library. Our thanks to the Historical Society and also to the large number of people who attended and made the party such a huge success.

Rye Public Library Trustees' Report (Continued)

The trustees are most appreciative of the excellent cooperation and the loyal dedication of the entire library staff. We are also most grateful to the general public for their continued interest and constant support. The trustees extend a special welcome to those who have not yet "discovered" the great resources and reading pleasures in their library.

Respectfully submitted,

Doris J. Valley

Chairman

PLANNING BOARD

In this report to Rye citizens we members of the Planning Board honor our former member, Bob Goss. His diligence, accurate and timely advice, fantastic knowledge of Town matters, and his ever evident desire for a better Rye were great contributions to the planning process that are and will be missed.

Rye's first elected Planning Board was voted in this year. Now it is clear that each Board member works for you.

In March the Planning Board recommended 21 zoning amendments. Nine of these were approved by you; however, the land use amendments were defeated. Two of these were designed to help keep our town rural in character - the one and one half acre zoning in the South Road area and the "cluster" zoning which mandated open spaces.

The Board recommended four zoning amendments in November, one of these reorganized and updated the Zoning Ordinance, but did not change any zoning laws. Revisions included complying with revised New Hampshire state statutes and with U.S. government revised Flood Insurance regulations and rearranging text to simplify use. The Planning Board feels that these amendments failed to pass because of inadequate communications. Recently Board business has been getting more press coverage which we hope will improve our communications with the voters.

During 1986 the Board met 38 times to review proposed new subdivisions, site plans and lot line adjustments; and to consider and authorize zoning and subdivision ordinance updating and revisions. Each meeting averaged nearly four (4) hours for a total of approximately 152 hours of meeting time. This time together with the "homework" required represents a significant contribution to the management of growth in Rye. Thanks to the Board members for this contribution.

Additionally the Board prepared a grant proposal for a road crossing study of wetlands which was performed by Normandeau Associates. The Town is finding this study a useful guide for bridge/culvert repair and replacement and for possible marsh restoration. The study is available for public review.

The Board participated in seventeen (17) preliminary consultations and three (3) condo conversions, approved four (4) lot line adjustments, approved one (1) site plan and approved seven (7) new subdivisions creating fifteen (15) new lots. The Board also updated ordinances and created a six year capital improvements program. Resignations were received from Fred Clark and Elizabeth L. Greene. We welcomed David Dawley and Brenda Semprini as Board members and

Planning Board (continued)

William Youschak and Dr. Francine Hall as alternates.

Along with the Board's regular responsibilities it is anticipated that the Board will in 1987:

1. Complete its review and approval of a six (6) year capital improvement program for the Town;
2. Review and approve a revised and strengthened subdivision ordinance;
3. Review recent court actions to determine the need for further strengthening our ordinances;
4. Prepare other ordinance revisions in keeping with the Rye Master Plan; and,
5. Try to improve the Board's public image for increased public support.

Respectfully submitted,

James D. Brown

Chairman

RYE AMBULANCE CORPS

1986 has been a very positive year for the Rye Ambulance Corps. We continue to have the support and enthusiasm of our citizens of Rye.

The renovations at our location at 37 Central Rd. are nearly completed. In November, we were able to move the ambulance down to the new headquarters and relieve some congestion at the Fire Station. The Fire Department continues to dispatch us via our pagers, and this transition seems to have gone smoothly. In 1986, we responded to 272 calls; 178 medical emergencies, 39 motor vehicle accidents, many transfers to and from nursing homes, and we had 4 mutual aid requests from North Hampton and Portsmouth to those communities. The Rye Fire and Police Departments are always helpful; and available to assist us when they can.

During the year, we held an Advanced First Aid Course, and two EMT courses in an effort to bolster our ranks. We have attracted and trained 5 new EMT's who are very enthusiastic about working on the Corps. It is particularly rewarding to see the interest of this young group of men and women who are eager to serve their community. Our duty crew personnel include about 20 dedicated volunteers who give several hours of time each week to the Town of Rye ambulance service. In addition, they spend many hours a year to maintain their emergency medical credentials as RN's, Emergency Medical Technicians, and Advanced First Aiders. Each of our members are valuable, contributing, and caring individuals; and I feel very fortunate to have been able to work with them all.

I am pleased to inform you that our subscription rate has remained unchanged now for seven years at \$10 per family. This entitles each household to free local emergency ambulance service for one year. Our goal in 1987 is to make more residents aware and participating in our \$10 per year subscription service. It is through this tax deductible contribution that we are able to maintain our vehicle, train our personnel, and purchase state of the art equipment such as the new Lifepak 200 Automatic Advisory Defibrillator which we now have on board the ambulance. Currently, about 900 households take advantage of our service. In 1987 we would like to increase this to 1200 households, or about half of the citizens in town.

The Rye Ambulance Corps made some great strides in 1986; with some exciting new life saving equipment, some eager new members, and a remodeled facility to

Rye Ambulance Corps (Continued)

assist us in training and maintenance of our equipment; and for this we thank the citizens of Rye for their loyal support. We plan on serving this community for many years to come.

Respectfully submitted,
Susan McFarland Moynahan
President

HISTORIC DISTRICT COMMISSION

The Historic District Commission is charged with preserving the character of the Rye Historic District. The Commission has reviewed applications for building and use changes brought before it. Commission review is the first step required for building changes within the district, followed by review and approval by other town boards as required by the Rye zoning ordinance and building code. A representative has been working with the Rye Building Committee to resolve the space problem that exists in some of the town departments. The commission is a member of the New Hampshire Association of Historic District Commissions and maintains contact with current legislative trends and other historic district commissions throughout the state. The Rye Historic District is under the same intense development pressure as the rest of the seacoast area. It is important to allow growth while maintaining the unique character of Rye.

Respectfully Submitted,
Richard E. Kutzleb
Chairman

BOARD OF ADJUSTMENT

In 1986 the Board of Adjustment heard 19 petitions for variances, of which 10 were approved and 9 denied; 8 petitions for special exceptions, of which 7 were approved and 1 denied; 5 requests for rehearings, of which all were denied and 2 appeals from Administrative Decisions, one of which was approved and the other was remanded to the Planning Board. We also had one work session with the Planning Board regarding the ground rules for joint meetings, of which one was held at which no decision was reached.

I would like to thank my board for their cooperation and hard work. And special thanks to our Secretary, Anna Byam, without whom we would have been lost.

Respectfully submitted,
Emily C. Seaver
Chairman

TRUSTEES OF TRUST FUNDS

During the last two years the value of each trust fund has achieved tremendous growth due to the appreciation of common stocks. An example of this is as follows:

	Market Value	
	<u>1984</u>	<u>1986</u>
Dalton Fund (for Cemetery)	\$153,347.37	\$179,213.54
Cemetery Perpetual Care Fund	252,548.89	319,655.27
Library Fund	100,081.77	138,640.45

We also want to acknowledge the annual gift received from Ruth Jennings to be added to the Shirley S. and Helen F. Philbrick Fund.

In 1986 our largest capital expenditure was for the purchase of a much-needed CASE backhoe for the cemetery. This was paid for with \$14,700 taken from the Sale of Lots Fund and the balance from the Dalton Fund.

The Trustees of Trust Funds are first established in the '20s for the cemetery and library funds, but have taken on special funds and Capital Reserve accounts for many Town departments. We now handle twelve (12) major investment funds.

We have carefully chosen our investments, seeking professional help when it seemed advisable to do so. We believe they are sound. The newly installed Town computer system seems to be handling the accounts adequately, and during the last year the Town Clerk, Jane Ireland, has taken over the bookkeeping records. But due to the great increase in our program the Town auditors are now planning to set up a new system of bookkeeping for us.

We are sad to report that during the year we lost two of our Trustees. Robert B. Goss died during his second term with us and was replaced by Dr. Rolf Lium who also died within the year. He was then replaced by his daughter Karin L. Phelps who has college degrees and considerable experience in financial management.

Respectfully submitted,
Melvin R. Low, Chairman
Frances I. Holway
Karin L. Phelps

Trustee of Trust Funds (continued)

Since this is my last year as a Trustee of Trust Funds, I would like to acknowledge and express my gratitude to those other trustees who have been so helpful to me in the past. They were John L. Parsons, Harlan L. Goodwin, Sr., Ralph W. Eaton, Robert B. Goss, Frances I. Holway, and George W. McAlpin. Mrs. Jane Ireland has also given much more valuable help than the mere bookkeeping for which she is now paid.

Sincerely,

Melvin R. Low

Melvin Low has been a Trustee of Trust Funds ever since he was asked by the Selectmen to take over the accounts from Agnes M. Brown during her last critical illness in 1962. Since then he has served continuously as its clerk and/or chairman and has been responsible for all of the accounts and work done on the books until the Town employed Mrs. Jane Ireland to keep the books last year. The Town will be forever indebted to Mel for his twenty five (25) years as a dedicated public servant.

Respectively submitted,

Frances I. Holway

March 11, 1986 - Ballot Voting

- Art. 1 To choose all necessary Town Officials for the ensuing year.
Art. 2 To choose all necessary School District Officers for the ensuing year; results recorded by the School District Clerk.
Art. 3 To amend the Rye Zoning Ordinance as proposed by the Rye Planning Board. There were twenty one (21) proposed amendments:

Amendment 1. To adopt the Reorganized Rye Zoning Ordinance as a replacement to the present text. Defeated.

Amendment 2. To make one-building, one-lot rule applicable only to residential buildings. Defeated.

Amendment 3. To change set-back requirements for septic systems to a uniform twenty feet for side and rear boundaries. Adopted.

Amendment 4. To delete a section which regulates alterations and repairs to septic systems. Defeated.

Amendment 5. To amend standards for home occupations. Defeated.

Amendment 6. To permit aquaculture as a use permitted by special exception in Single and General Residence Districts. Defeated.

Amendment 7. To delete residential uses as permitted uses in the Commercial District. Defeated.

Amendment 8. To delete requirement that a lot-of-record buildable under the "grandfather" clause requires a variance. Defeated.

Amendment 9. To delete airports as a use permitted by special exception anywhere in Rye. Adopted.

Amendment 10. To delete mobile home parks and subdivisions as uses permitted by special exception in Business, Commercial and Industrial Districts. Defeated.

Amendment 11. To require all mobile homes located in mobile home parks and subdivisions meet the manufactured housing definition provided by NH RSA 674:31. Adopted.

Amendment 12. To increase minimum lot size for mobile homes within approved mobile home parks. Adopted.

Amendment 13. To allow joint meetings of the Zoning Board of Adjustment and Planning Board when an application requires action from both boards Adopted.

Amendment 14. To provide that the maximum fine for violations of the zoning ordinance shall be \$100.00 per day. Adopted.

Amendment 15. To amend the definition of "Frontage" to state that frontage must be continuous. Adopted.

Results of 1986 Town Meeting, continued

Amendment 16. To amend definitions of "Lot" and "Lot of Record".
Adopted.

Amendment 17. To amend definition of "Non-Conforming Use". Defeated.

Amendment 18. To amend definition of "Structure". Adopted.

Amendment 19. To adopt new Rural Residence District. Defeated.

Amendment 20. To adopt new Highway Business District. Defeated.

Amendment 21. To adopt zoning standards for approved cluster subdivisions.
Defeated.

March 15 - General Business Meeting

Art. 4 DEFEATED - To appropriate \$3,500,000 for the purpose of constructing a Town Complex to include a Police Station, Fire Station, Town Hall and Library. Yes = 64; No = 437. Article required a 2/3 vote.

Art. 5 INDEFINITELY POSTPONED - To appropriate \$2,000,000 for the purpose of constructing a Town Complex to include a Police Station, Fire Station and Town Hall.

Art. 6 ADOPTED - To raise and appropriate \$421,000 to cover the Rye Landfill area as mandated by the State of New Hampshire.

Art. 7 ADOPTED - To raise and appropriate \$9,400 for Mosquito Control to purchase an All Terrain Vehicle and to authorize the withdrawal of these funds from Federal Revenue Sharing funds.

Art. 8 ADOPTED - To raise and appropriate \$19,000 for additional costs of re-valuation and authorize withdrawal of these funds from Federal Revenue Sharing.

Art. 9 DEFEATED - To create the position of Administrative Assistant to the Selectmen and appropriate the sum of \$30,000 to pay the salary.

Art. 10 TABLED - To raise and appropriate a total of \$4750 for the Seacoast Mental Health Center.

Art. 11 ADOPTED - To raise and appropriate \$2,600 to reimburse the voters who paid that amount in legal fees to secure a court order requiring the selectmen to insert an article in the 1985 Warrant. Yes = 166; No = 144.

Art. 12 TABLED - To raise and appropriate \$1,100 for Seacoast Hospice.

Art. 13 ADOPTED - To adopt the provisions of RSA 72:37 for the exemption for the blind from property tax. Yes = 113; No = 101.

Art. 14 TABLED - To change the present annual tax billing to semi-annual tax billing beginning in 1987.

Art. 15 ADOPTED - To authorize the Selectmen to accept a deed to Random Road.

Art. 16 ADOPTED - To authorize the Selectmen to apply for, accept and expend, money from the state, federal or other governmental unit or private sources which becomes available during the fiscal year.

1986 Town Meeting, continued

- Art. 17 ADOPTED - To authorize the Selectmen to borrow money in anticipation of taxes.
- Art. 18 ADOPTED - To accept a budget, as amended, in the amount of \$2,144,229.
- Art. 19 ADOPTED as amended - To allow a 5% discount on all property taxes paid within 30 days from the date of mailing of the tax bills.
- Art. 20 ADOPTED - To authorize the Planning Board to prepare a six year capital improvement program.
- Art. 21 ADOPTED - To oppose the burial, storage, transportation and production of high level radioactive waste in the Town of Rye and State of New Hampshire.
- Art. 22 ADOPTED - To affirm the unanimous position taken by the Board of Selectmen not to participate in any emergency evacuation drills or exercises until a radiological emergency response plan has been approved by a Town Meeting vote after public hearing by the Board of Selectmen. Yes = 112; No = 64.
- Art. 23 TABLED - To provide indemnification for Selectmen, Town Employees, Town Officers or agents from personal loss while acting within the scope of his employment or office.
- Art. 24 ADOPTED - To authorize the Selectmen to sell to the highest bidder such surplus Town equipment as is not traded in on new equipment this year.
- Art. 25 INDEFINITELY POSTPONED - To remove from Town Forest Management three of the forty six acres of land abutting the First National Bank property and Parsons Field.
- Art. 26 To transact any other business which may come before this meeting.

Meeting ADJOURNED at 4:30 p.m.

A true record, ATTEST: Jane E. Ireland, Town Clerk
