Friday

Dear Dorsey,

Just received your letter dated Jan 28. I am quite sure though that the questions were answered on the call that was made via Radio and the message that I sent on Wednesday telling you that our jaunt would be in New York Feb 7 early. I will give you the telegram telling you of this information from Clinton and Ara.

Mom hasn't arrived yet. Daddie is sick so she might not be able to make a trip here. I really had depended on her coming. But I guess I will make out.

I am busy as you can guess trying to get ready and with the inoculations and colds we just haven't felt much like writing. Sgt Mitchell said that any time that I have a special message to be sure and call him by 8:31 he would transmit the message right away. As soon as I get definite word I will let you know.

Marilyn has made you a Valentine. I am sending it to you. Dried complaints of her chest hurting. I will take her to the Doctor today. Tomorrow to Boston to try and get their coats and the extra trunk that Ned hoped to get sooner.

I will be talking to you on Wednesday so I will save you up some news. I will really have to dig in order to find any.
I'm a doll for now Love and kisses

Friday

Dear Ivorey,

Just received your letter dated Jan 28.

I am quite sure though that the questions were answered on the call that we made via Radio and the message that I sent on Wednesday telling you that our passport would be in New York Feb 7 early. I will give you the telegram telling you of this information from Clinton and Eva.

Mom hasn't arrived yet. Daddie is sick so she might not be able to make a trip here. I really had depended on her coming. But I guess I will make out.

I am busy as you can guess trying to get ready and with the inoculations and colds we just haven't felt much like writing. Sgt Wintchel said that any time that I have a special message to be sure and call him by 8:30 he would transmit the message right away. So as soon as I get definite word I will let you know.

Marilyn has made you a Valentine. I am sending it to you. Gretel complains of her chest hurting. I will take her to the Doctor today. Tomorrow I am going to Boston to try and get their coats and the extra trunk that I had hoped to get sooner.

I will be talking to you on Wednesday so I will save you up some news. I will really have to dig in order to find any.

This is all for now. Love and kisses.
