TOWN REPORT COVER

This is an original drawing of the Seabrook Clam Flats on Common Island which was done by:

PETER A. SANBORN, JR. OF SEABROOK, NH.

The Board of Selectmen thought it appropriate and agreed that the clam flats, which had been closed for several years and just reopened in the fall of 1994, be pictured on our 1994 Town Report cover.

We wish to thank Mr. Sanborn for this work and the accompanying "digga" sketch above. Mr. Sanborn is a lifelong resident of Seabrook.

DEDICATION

The Seabrook Board of Selectmen wishes to take this opportunity to dedicate the 1994 town report to the men and women of Seabrook who have made their living from the sea. For most of its 226 or more years, Seabrook's marine industry has been the lifeblood of our community. It is therefore only fitting that we should take the time to recognize the valuable contributions they have made to our town. Whether it be fishing, clamming, lobstering, shucking, selling or whatever, all are a part and parcel of our heritage and we salute those who participate in it. And, to those who have given their lives to the sea, a special tribute to them and their families.

Article 2: Are you in favor of the adoption of the amendment as proposed by the Planning Board for the Town Zoning Ordinance as follows:

1. Create a new Article XV as follows:

ARTICLE XV
SEXUALLY ORIENTED BUSINESSES

SECTION 1. PURPOSE AND INTENT

It is the purpose of this article to establish reasonable and uniform regulations to prevent the concentration of sexually oriented businesses within the Town of Seabrook; and, it is the intent to promote the health, safety and general welfare of the citizens of the Town of Seabrook; and, it is the intent of this article that the regulations be utilized to prevent problems of blight and deterioration which accompany and are brought about by the concentration of sexually oriented businesses; and, the provisions of this amendment have neither the purpose nor the effect of imposing limitation or restriction on the content of any communicative materials, including sexually oriented materials; and, it is not the intent nor effect of this article to restrict or deny access by adults to sexually oriented materials protected by the First Amendment, or to deny access by the distributors and exhibitors of sexually oriented entertainment to their intended market; and, neither is it the intent nor effect of this article to condone or legitimize the distribution of obscene material.

SECTION 2. PERMITTED LOCATIONS

Sexually oriented businesses shall only be permitted in Zone 2 provided all regulations, requirements and restrictions pertaining to that zone are met, and sexually oriented businesses shall not be permitted within 1,000 feet of a church or place of worship, parish house or convent, a public, parochial or private school, a state approved day care center, another sexual oriented business, a sexually oriented business for which a building permit has been applied for, or 300 feet from a residence, or 500 feet from any establishment in which minors constitute more than 50% of the patrons or 500 feet from public sports, recreation park or 500 feet from Town boundaries or 500 feet from

buildings owned by the Town of Seabrook and operated for government use.

SECTION 3. MEASURE OF DISTANCE

The measure of distance between any sexually oriented business and other named point of reference shall be measured in a straight line.

SECTION 4. SITE PLAN APPROVAL

Site Plan Approval by the Seabrook Planning Board shall be a prerequisite for the establishment of a sexually oriented business. The Planning Board may impose reasonable restrictions relative to buffers, outdoor lighting, signs, parking, egress and ingress, pedestrian movement, landscaping, building aesthetics, and measures to ensure that displays of merchandise conform with NH RSA 571-B.

SECTION 5. NON CONFORMING SEXUALLY ORIENTED BUSINESSES

Sexually oriented businesses which have been established at their existing locations prior to the effective date of this ordinance and which are not in conformity with the requirements of this ordinance, may continue to operate. Once established in a permitted location under this ordinance, a sexually oriented business operating as a conforming use is not rendered a non-conforming use by the subsequent location of:

- i) A church or place of worship, parish house or convent within 1,000 feet;
- ii) A state approved day care center within 1,000 feet;
- iii) A public sports, recreation park within 500 feet;
- iv) A residence within 300 feet
- v) A public, parochial or private school within 1,000 feet;
- vi) Any establishment in which minors constitute more than 50% of the patrons within 500 feet; or
- vii) The location within 500 feet of such business or buildings owned by the Town of Seabrook and operated for government use.

SECTION 6. PUBLIC NUISANCE PER SE

Violation of the use provisions of this ordinance is declared to be a public nuisance per se, which shall be abated by the Town by way of civil abatement procedures.

SECTION 7. LIMITING CLAUSE

Nothing in this ordinance is intended to authorize, legalize or permit the establishment operation or maintenance of any business, building or use which violates any Town of Seabrook ordinance or statute of the State of New Hampshire regarding public nuisances, sexual conduct, lewdness, or obscene or harmful matter or the exhibition or public display thereof.

SECTION 8. SEVERABILITY

If any section, subsection, sentence, clause, phrase or any portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not effect the validity of the remaining portions of this ordinance. The legislative body of the Town of Seabrook hereby declares that it would have adopted this ordinance and each section, subsection, sentence, clause, phrase or portion thereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or portions be declared invalid or unconstitutional.

2. Add the following definitions to Article II of the Town of Seabrook Zoning Ordinance:

Establishment: means and includes any of the following for the purposes of Article XV only:

- 1) The opening or commencement of any sexually oriented business as a new business;
- 2) The conversion of an existing business whether or not a sexually oriented business, to any sexually oriented business;
- 3) The relocation of any sexually oriented business;
- 4) The substantial enlargement of a sexually oriented business, which means the increase in floor areas occupied by the business by more than 25%, as a floor area exists on the date of the adoption of this ordinance; or

5) The transfer of ownership or control of a sexually oriented business, which means and includes any of the following:

A) the sale, lease, or sublease of the business;

B) the transfer of securities which constitute a controlling interest in the business, whether by sale, exchange or similar means;

C) the establishment of a trust, gift or other similar legal device which transfers the ownership or control of the business, except for transfer by bequest or other operation of law upon the death of the person possessing the ownership or control.

Sexually Oriented Business: any place of business in which any of the following activities are conducted:

1) Adult Bookstore or Adult Video Store: A business that devotes more than 15% of the total display, shelf, rack, table, stand or floor area, utilized for the display and sale of the following:

A) books, magazines, periodicals, or other printed matter, or photographs, films, motion pictures, video cassettes, slides, tapes, records, CD-ROMs or other forms of visual or audio representations which meet the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1, or,

B) instruments, devices, or paraphernalia which are designed for use in connection with "sexual conduct" as defined in NH RSA 571-B:1, other than birth control devices.

An adult bookstore or adult video store does not include an establishment that sells books or periodicals as an incidental or accessory part of its principal stock and trade and does not devote more than 15% of the total floor area of the establishment to the sale of books and periodicals.

2) Adult Motion Picture Theater: An establishment with a capacity of five or more

persons, where for any form of consideration, films, motion pictures, video cassettes, slides or similar photographic reproductions are shown, and in which a substantial portion of the total presentation time is devoted to the showing of material which meets the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1, for observation by patrons. For the purposes of this ordinance, substantial portion of the total presentation time shall mean the presentation of films or shows described above for viewing on more than seven days within any 56 consecutive day period.

3) Adult Motion Picture Arcade: Any place to which the public is permitted or invited wherein coin or slug operated or electronically, electrically or mechanically controlled still or motion picture machines, projectors, or other image producing devices are maintained to show images to five or fewer persons per machine at any one time, in which a substantial portion of the total presentation time of the images so displayed is devoted to the showing of material which meets the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

4) Adult Drive-In Theater: An open lot or part thereof, with appurtenant facilities, devoted primarily to the presentation of motion pictures, films, theatrical productions and other forms of visual productions, for any form of consideration to persons in motor vehicles or on outdoor seats, in which a substantial portion of the total presentation time being presented for observation by patrons is devoted to the showing of material which meets the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

5) Adult Cabaret: A nightclub, bar, restaurant, or similar establishment which during a substantial portion of the total presentation time features live performances which meet the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1, and/or feature films, motion pictures, video cassettes, slides or other photographic reproductions, a substantial portion of the total presentation time of which is devoted to showing of material which meets the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

6) Adult Motel: A motel or similar establishment offering public accommodations for any form of consideration which provides patrons with closed circuit television transmissions, films, motion pictures, video cassettes, slides or other photographic reproductions a substantial portion of the total presentation time of which are distinguished or characterized by an emphasis upon the depiction of materials which meet the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

7) Adult Theater: A theater, concert hall, auditorium or similar establishment, either indoor or outdoor in nature, which for any form of consideration, regularly features live performances, a substantial portion of the total presentation time of which are distinguished or characterized by an emphasis on activities which meet the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

8) Nude Model Studio: A place where a person who appears in a state of nudity or displays male genitals in a state of sexual arousal and/or the vulva or more intimate parts of the female genitals, and is observed, sketched, drawn, painted, sculptured, photographed, or similarly depicted by other persons who pay money or any form of consideration or such display is characterized by an emphasis on activities which meet the definition of "harmful to minors" and/or "sexual conduct" as set forth in NH RSA 571-B:1.

9) Sexual Encounter Center: A business or commercial enterprise that as one of its primary business purposes, offers for any form of consideration:

A) physical contact in the form of wrestling or tumbling between persons of the opposite sex; or

B) activities between male and female persons and/or persons of the same sex when one or more persons is in the state of nudity; and

C) when the activities in sections A or B above are characterized by an emphasis on activities which meet the definition of

Article 3: Are you in favor of the adoption of Amendment #1 as proposed by the Planning Board for the Town Zoning Ordinance as follows?

1) In Article I Section 263-3, remove the existing definitions of **single-family dwelling, two-family dwelling, multi-family dwelling, hotel, motels, and trailer**, and add the following definitions:

Apartment - A dwelling unit in a structure containing more than two dwelling units, or a dwelling unit in a commercial or industrial building.

Building - A single structure used or intended for any use or occupancy. For the purposes of this

ordinance, a multi- unit building, with or without firewalls, shall be considered one building.

Dwelling Building - A building exclusively designed or used for one or more dwelling units.

Dwelling Unit - A single unit providing complete independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation.

Single-family Dwelling - a detached building containing one dwelling unit.

Two-family Dwelling - a detached building containing two dwelling units.

Multi-family Dwelling - a building containing more than two dwelling units.

Hotel, Motel - A building designed for or used commercially in which the room or rooms are designed to provide living and sleeping accommodations for temporary lodgers. For the purposes of this ordinance, buildings used to lodge the same tenants for more than thirty days within the same calendar year are to be considered multi-family buildings.

Mixed Uses - Any use of a lot or building which accommodates both residential uses and commercial/industrial uses.

Trailer, Travel-Trailer Type - A fabricated structure with a maximum floor area of 319 square feet, mounted on wheels and designed for being hauled on highways and to be used as temporary living quarters during travel, camping, recreational or vacation trips (synonymous with "trailer coach").

2) In Article II Section 263-11, amend Table 1 by:

a) adding a new category entitled **Special Exception** - only permitted if granted by the Seabrook Board of Adjustment;

b) allowing Day Care as a Special Exception in Zone 3;

c) allowing Day Care as a Permitted Use in Zones 1, 2 & 2R;

d) allowing Mixed Uses as a Special Exception in Zones 2, 2R & 3;

e) allowing Outside Commercial Amusements & Entertainment as a Special Exception in Zones 2 & 3;

f) removing the limit on the maximum length of travel trailers and boats which may be stored in Zones 1, 2, 2R & 3;

g) and adding a new Section 263-12 as follows:

Special Exceptions shall be granted by the Board of Adjustment, if in the board's judgment, the proposed use **does not**:

- 1) have an adverse effect on surrounding properties;
- 2) cause a significant increase in motor vehicle traffic;
- 3) emit odors, noise, dust, vibration, smoke or fumes which travel beyond the boundary lines of subject property;
- 4) or threaten the safety of nearby residents.

3) In Article II Section 263-11, reduce the minimum setback requirement for tool sheds and utility sheds by adding a new line to Table 2: "Utility Sheds: 2' side and rear setback" in Zones 1,2,2R & 3. Also add a footnote to Table 2 indicating that this two foot setback is in reference to "Utility Sheds that are 100 square feet or smaller."

4) In Article II Section 263-11, add a footnote to Table 2 as follows: "On non-conforming lots of record, no more than one dwelling unit is permitted."

5) In Article III Section 263-17, change the definition of Mobile Home Park or House Trailer Park by increasing the minimum number of mobile homes which constitute a "park" from two to three.

6) In Article IV Section 262-20, replace the paragraph on "steps" with the following: "Steps with landings less than 24 square feet shall not be considered a part of the structure".

BOARD OF SELECTMEN/TOWN MANAGER'S REPORT - 1994

We are pleased to be able to provide you with the following report summarizing the events and activities of 1994:

In 1994, the town completed many projects along with the initiation of new long term programs. We have seen an increase in both residential and commercial development due to the initiation of the sewer project. The industrial area on the west side of town has added Woodworkers Supply, Brazonics, G & G Machine Technologies, Woodworkers Warehouse and Golfday. All of the businesses are scheduled to be in operation in 1995.

The new public works department has allowed for the more efficient use of town equipment and personnel. Our recycling program has added the new collection truck with the new facility to be ready by July 1995.

The second phase of the sand dunes restoration project was completed in June 1994 and we have started the study of the north beach to determine what can be done to minimize the beach erosion and potential damage to the ocean front properties.

The new E-911 state wide emergency system is scheduled for implementation by the end of 1995. This new system will necessitate the renumbering of most residences and businesses within the town based on a 50 ft. numbering plan. The renumbering should be completed by this summer based on coordination with the post office.

The board and town manager wishes to thank all of you for your patience and understanding in the many inconveniences caused by our sewer project. We're confident that the end results will justify your continued support for this sorely needed community effort.

The board would like to encourage your participation in Seabrook's government. This can be accomplished by serving as a volunteer on many committees which town government has or attending meetings and voicing your input on how you would like to see us function. The office of the selectmen and town manager is here to serve you. Please let us know how we can improve our service.

Respectfully submitted,

Elizabeth A. Thibodeau, Chairman

STREET LIGHT COMMITTEE

The Street Light Committee has toured all streets in the town sometime during the year. Several new lights have been installed at the request of residents who have filed applications for them. The conversion to the sodium vapor lights has been a slow project and the delay is due to the electric company. We have complied with all their requests, but have been disappointed that the change is taking such a long period of time. We had hoped it would be completed this year but it is evident that it is an impossibility. However, we will continue to work on it until it is completed. Cooperation with residents has been excellent and we hope it will continue.

ASSESSING DEPARTMENT - 1994

HOUSE BILL #666

HOUSE BILL #666, BACKED BY THE PUBLIC UTILITIES, WAS ANOTHER ATTEMPT TO GIVE THE CONTROL OF ASSESSMENT VALUATION TO THE DEPARTMENT OF REVENUE ADMINISTRATION. THIS IS SIMPLY ANOTHER MEANS OF REDUCING THE TAXES DUE FROM THE UTILITIES VIA THE "UNIT" METHOD OF VALUATION USED BY THE N.H. DEPARTMENT OF REVENUE ADMINISTRATION.

FORTUNATELY AND WITH GREAT EFFORT FROM ALL CONCERNED, WE WERE ABLE TO "ONCE AGAIN" DEFEAT THIS LEGISLATION WHICH IS "SO BENEFICIAL" TO THE UTILITIES.

THIS IS BY NO MEANS THE END, HOWEVER, WE EXPECT THIS TYPE OF LEGISLATION TO RETURN AGAIN AND AGAIN AND AGAIN AND AGAIN.

GENERAL TOWN VALUATION

THE ASSESSING DEPARTMENT CONSTANTLY MONITORS ALL REAL ESTATE SALES ACTIVITY LOCALLY AND SEACOAST REGIONALLY. THIS MONITORING ALLOWS US TO MAKE VALUATION ADJUSTMENTS FOR OUR ANNUAL COMPUTERIZED RE-VALUATION. BASED UPON THE FOREGOING, IT IS OUR OPINION THAT ALTHOUGH SALES ACTIVITY IS INCREASING, SALES PRICES RECEIVED ARE NOT INCREASING AT A SIMILAR RATE. THE RESULT IS THAT WE EXPECT PROPERTY VALUES TO CREEP FORWARD AT A SLOW BUT HOPEFULLY STEADY GROWTH. WE EXPECT THE MARKET PRICE TO BE DIRECTLY PROPORTIONAL TO THE WILLINGNESS OF BANKS TO RELEASE MORTGAGE FINANCE MONEY.

BUILDING INSPECTOR'S REPORT 1994

In 1994 the number of single family homes increased by nine units from 1993. I expect this trend to continue with more than fifty lots now available in new subdivisions for development. There is a lot of interest in developing commercial and industrial lots with three new projects approved on Batchelder and Ledge Road. Several more are waiting for the sewer system to become operational.

The Planning Board has proposed reducing the lot sizes for single family homes and have added provisions for family apartments. Lot dimensions for commercial and industrial property lots will remain the same.

SOLID WASTE REPORT/RECYCLING REPORT - 1994

In 1994 the town approved an expansion of our recycling program along with the construction of a new facility. This new facility will be a combination transfer station and recycling processing operation. The transfer station will include an indoor tipping floor with a ram compactor. The recycling operation will handle the crushing, baling and storage of glass, steel/aluminum cans, newspaper, cardboard and plastics. We will also have a swap shop for people to drop off items that they no longer desire. Those who wish can have these items at no charge.

The curbside collection program presently includes newspaper, cans and glass. They are being picked up on a weekly basis, the same day as your regularly scheduled rubbish collection. When the building is completed we will be adding plastic to our recycling collection program.

EMERGENCY MANAGEMENT ANNUAL REPORT FOR 1994

I would like to dedicate this years Emergency Management report to "Carold Henderson". He was a valued radio operator with this office for many years and dedicated to the communications system of which he was an expert.

The town finally recovered from the Insurance Company most of the monies expended on the Chevy Chase Road hazardous material spill.

Throughout the year the town experienced several power outages none of which were of any length or major inconvenience.

Please check your information brochure that was recently mailed to all residents. In May of 1994 there was a change made concerning the Evacuation Reception Center. In the event of a radiological problem at the Power Plant we now go to Manchester, N.H. instead of Salem, N.H.

During the year there were several cases of hazardous material spills, one of which involved radiation material. All of them were cleaned up with the expertise of the emergency responders.

Several members of the Police Department and all of the full time Firefighters received radiological training. This training is offered to protect the front line emergency responders.

The town participated in two radiological emergency response plan exercises. One was a rehearsal, the other held in December was a graded exercise. We passed with a high grade of efficiency.

The Search and Rescue Team was activated several times this past year for problems with clambers and people stranded in boats and could not get ashore.

Again I would like to thank the Board of Selectmen, Town Manager, Supervisory Staff of the town, Emergency Responders, and volunteers that assisted in making this office of our town government a success.

FIRE DEPARTMENT ANNUAL REPORT FOR 1994

The 1994 Fire Department report is dedicated to Horatio C. Lattime who retired in March after serving the town for over 40 years. Best wishes for a happy retirement, it is well deserved.

In May a long awaited position was filled. Jeffrey Brown was appointed to fill the position of Deputy Fire Chief. The Deputy is responsible for fire prevention, training, operations, & investigations.

In 1994 the Department worked with the sewer project engineers & contractors so that public safety concerns can be dealt with while this project is underway.

This Department is planning to upgrade some equipment in 1995. Warrant articles will be proposed to replace mobile radios in apparatus, these radios are substandard, & in constant repair. We also plan to replace the older ambulance. Our plan is to replace an ambulance every 5 years, the older ambulance is currently 10 years old. In addition we seek to replace twenty breathing apparatus units. These units enable firefighters to enter burning buildings & hazardous atmospheres. The current units have reached their recommended 15 year life span & are out of NFPA & NIOSH compliance.

Once again, I would like to thank the Town Manager, Selectmen, Town Boards, Department Heads, and the people of Seabrook for your continued support.

This Department has had a very busy year, and I praise the men of this Department for a job well done.

Respectfully Submitted,

Jerry W. Brown, Fire Chief

1994 Deputy Report

I would like to take this opportunity to thank the Fire Chief, Town Manager, Selectmen, & the men of this Department for the confidence they have placed in me & for the honor bestowed by being appointed Deputy Fire Chief. I will strive to bring to this position the same dedication and service as my forebearers did in this position.

The Fire Prevention office has been very busy with inspections & reviewing plans, not only for current businesses, but for those that have wisely chosen to locate here.

Training for all personnel is ongoing and will increase in 1995. The men of this Department are very well trained & are enthusiastic about increasing their knowledge in the Fire/Rescue field.

Once again, Thank you. Please feel free to contact me regarding Fire Service issues.

Respectfully Submitted,

Jeffrey M. Brown, CFI

HEALTH DEPARTMENT REPORT

Because of a lot of hard work by your local officials and representatives, the State has increased the level of pollution testing in the harbor. This has resulted in the long awaited reopening of the Common Island clam flats.

The Common Island and Browns River Clam Flats were opened to recreational clamming in October, with conditional harvesting from September through May, Fridays and Saturdays only. An estimated seventeen hundred clammers turned out for the opening day. With the town sewer system coming on line next year and the continuation of this testing in our harbor, more areas should be opened in the near future.

Beginning in 1995, some sewer connections are scheduled to be made to homes and businesses. The Health Department will be available to answer any questions on the change over from your present septic system.

I would also like to remind those owners of dogs and cats that rabies have been found in Seabrook and proper rabies shots for your pets are critical at this time.

SEABROOK LIBRARY

Annual Report

1994

Nineteen ninety-four proved to be a monumental year for the Seabrook Library as it was during that year that the Library moved into its new home. Moving from the previous 2,400 square foot building into the current 18,400 square feet was liberating for all involved: the collection - now has room to grow; the staff - now has room to work; and the public - now has room to properly utilize the facility. Predictably, membership has skyrocketed since the big move. Long awaited and much ballyhooed, the new building more than lives up to expectations.

During the year there occurred several events of note. On February 10 a ceremonial beam signing took place at which several classes of Seabrook children were able to put their signatures on one of the last steel girders to be placed on the frame of the building. It was a cold and snow-covered day, and everyone had a warm and most memorable time. On September 13, the Library collection and staff vacated the Brown Library building and moved to temporary quarters at 779 Lafayette Road which was the Library's home for a brief three months, so that the old building could be properly prepared for its move to its new location. And then, on September 28, the Brown Library building was carefully lifted off of its foundation at the Lafayette Road site and was then slowly and gently moved over to Centennial Street to be nestled safe and snug next to the new building where it will remain forever more. November 17 marked the date of the Trustees' acceptance of "substantial completion" of the new building. This marked the beginning of the end of the construction phase and was hailed by all involved as a most impressive occasion. Finally, on December 7 everything was moved to the new building on Centennial Street and the Seabrook Library formally opened for business on December 27, 1994.

What a year!

And, while all of the exciting building events were happening, the Library was able to keep on providing service to the community. The Children's Room held two successful if slightly shortened summer programs entitled *Go Undercover with Books* and *Books "R" Us*. The Book Discussion Group continued strong with its monthly dinner meetings, and the Friends of the Library again sold the ever-popular glow necklaces at Old Home Days, August 20. Thanks are once again due to Denise Favaloro and Janice Lambert for their efforts in this regard. Also at Old Home Days the Library held a booksale, this year ably aided by Dan Nersesian, Dave Donnelly of Donnelly's Easyriders US 1 motorcycle shop and other members of Bro's Club motorcycle club who donated books and the human-power for their collection, delivery and removal. It was a stirring sight seeing all of the Harley Davidsons pulling up to the Library's booth on the school grounds. Thanks, too, then, are due to Mr. Nersesian and all of his friends. They certainly are good Friends of the Seabrook Library.

In conclusion we repeat: "what a year!"

The Seabrook Library is open Mondays, Wednesdays and Fridays from noon until 8:00; on Tuesdays and Thursdays from 10:00 until 6:00; and Saturdays from 9:00 until 1:00. Telephone: 603-474-2044; Fax: 603-474-1835; e-mail: ocean@lilac.nhsl.lib.nh.us. Visit, call, fax - communicate; use your wonderful new public library.

1994 MOSQUITO CONTROL YEAR END REPORT

After preliminary licensing and permit paperwork had been completed (and the snow had melted from the breeding sites), field work began on April 11th with the surveillance of inland "snow-melt" mosquito breeding sites. Treatments of sites found to support the aquatic larval stages of mosquitos (LARVICIDING) commenced the following week. This work continued through May and early June due to heavy rain in the month of May (5.9" total). Salt marsh breeding site monitoring and treatments began on May 2nd and continued after each monthly lunar "flood" tide which activates these areas. Additional treatments can be necessary after heavy rains which can occur in the weeks between the flooding tides. (Example: 4.15" rain between August 18-22 which reactivated the salt marsh sites).

Weekly adult mosquito population monitoring (a State requirement) was accomplished using three CDC light traps baited with C0/2 set out once a week. Overall it seemed to be a record year (11 years of data) for the salt marsh mosquitos. Please note that one week in particular (and one light trap for the matter) accounted for 35% of all the specimens trapped and identified this season. The trap located on the east side of Town (near a salt marsh), on July 27th was the one that made this a record season. Looking at the entire season, 79% of the specimens identified were salt marsh breeders and 60% of those were Aedes sollicitans. A sollicitans, unlike other species, bite all day, can be found in the open sunlight, mid-day, and flies sometimes over 10 miles from the salt marsh. Other species stay in the shaded, damp areas during the heat of the day, become more active at dusk and only fly 0.5 to 1 mile from their breeding sites.

Numbers (mosquitos & citizen complaints) were high through July and the first week of August then tapered off before rising again in september due to 4.15" rain that fell August 18-22. On a weekly basis, from July 1st on, 85-100% of all man-biting species trapped and identified were salt marsh breeders.

ADULTICIDING (evening spraying for flying adult mosquitos using the spray truck) was accomplished 50 nights in the 15 week period between June 1st and September 14th. Most roads in Town were sprayed 17 times this season. It takes three nights to spray the entire Town. Using a highway department truck, 107 greenhead fly traps were staked along the perimeter of the salt marshes. These vicious-biting flies are attracted to the shade of these boxes, fly up inside where they are trapped and dehydrate and die. Thousands are trapped in each trap.

Respectfully submitted,

Lee G. Brooks
Mosquito Control Supervisor

Report of the Police Chief

The year 1994 statistics show a slight decrease in activity. We do find that although there is a decrease the amount of time spent on criminal activity remains about the same. The reason is the complexity of crimes makes it difficult to get a conviction without thorough follow-ups.

We are still offering a crime prevention program for both private residences and businesses. It has been our experience that it is better for all involved to prevent rather than investigate crimes. Crime Prevention will reduce the opportunity for criminal activity and the possibility for personal harm or property loss.

The Criminal Investigations/Services Division has completed another quite demanding year. Of the 1633 new cases(misdemeanor & felony) received in 1994, 1329 required further investigation. Of those 1329, 305 were of a major felony status of which 267 were cleared [88% clearance rate]. Of the remaining 1024 cases, 852 were cleared by arrest, indictment, exceptional means or unfounded determination for an 83.2% clearance rate. With another 36.1% clearance of "carry-over" cases from 1993, the overall clearance rate for 1994 was 85.6% [non-inclusive of juvenile and/or animal control stats -- see page 2].

The Crime Line continues to be an unfunded program; however, it has provided confidential information from concerned citizens which have resulted in several prosecutions throughout the year. The Crime Line Number is: 474-2640.

Thanks to all the residents for their continued support of the Police Department. Thanks also to the dedicated men and women of the Seabrook Police Department who daily go out of their way to make Seabrook a safer community.

I especially wish to thank the residents for the support received at this year's Town Meeting. Funding was provided which enabled us to complete 2 major projects that will aid the Police Department. The Sallyport was reconstructed which resulted in greater room and safety to the police officers when bringing in people that have been apprehended. Additionally, the second floor, which had been uncompleted, has now been renovated. The new space provides the department with storage space, a conference room and a training room.

A dedication ceremony was held dedicating the training room to the memory of all deceased members of the department. The ceremony was largely attended by residents of the community.

Again, on behalf of all the men and women of the department, we wish to thank everyone who has assisted us in the past year.

Paul J. Cronin
Chief of Police

VOTE BOTH SIDES

ARTICLES

ARTICLE 2: Are you in favor of ratifying House Bill 1588, entitled "An Act altering the southeastern boundary line between the towns of Hampton and Seabrook and providing for a referendum?" Said town line shall be as follows:

The southeastern portion of the boundary between the towns of Hampton and Seabrook shall be the low water mark on the south side of the Hampton River. All that portion of the town of Hampton lying south of the low water mark on the south side of the Hampton River is hereby disannexed from the town of Hampton and annexed to the town of Seabrook.

(On official ballot)

(2/3 vote of each town required for ratification)

YES ()

NO ()

ARTICLE 3: Are you in favor of the adoption of amendment No. 1, being comprehensive amendments to the existing Town Zoning Ordinance, as proposed by the Planning Board as follows:

These amendments constitute an extensive revision to the existing zoning ordinance both in format and in substance. The substantive change include but are not limited to, the following:

- * A reduction in the minimum lot size in the sewered portion of Zones 1 and 2R.
- * A reduction in the minimum frontage depth and width requirements in Zone 2R.
- * Changes in the requirements for the construction of dwelling building on lots in Zones 2 and 2R
- * The merger of Zones 4 and 5 into one zone entitled "conservation".
- * The allowance of family apartments in Zones 1,2, and 2R as special exceptions."
- * Eliminate legislative footnotes and consolidation of all definitions into one section.

(recommended by the Planning Board)

YES ()

NO ()

ARTICLE 4: Are you in favor of the adoption of amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows:

Amend the official Zoning Map to replace the westerly boundary of Zone 3 with a new boundary as follows: "Beginning at a point on the Massachusetts line, 3500 feet west of I-95, the new boundary runs northerly in a line parallel to and 3500 feet west of I-95 until it reaches a point 1,700 feet south of New Hampshire Route 107. The new boundary then runs westerly in a line parallel to and 1700 feet south of Route 107, until it intersects the current boundary of Zone 1."

(This proposed boundary change would transfer approximately 56 acres situated between Ledge Road and the state line from Zone 1 to Zone 3 and would transfer approximately 59 acres situated between the dog track and Ledge Road from Zone 3 to Zone 1.)

1994 ANNUAL REPORT OF THE SEABROOK RECREATION COMMISSION

The members of the Seabrook Recreation Commission are: Vernon Small, Chairman; William Moore, Jr., Vice Chairman; Charlotte Dow, Secretary; Rosemary Eaton, Parks Department; Asa Knowles, Selectmen; Elliot Eaton and Salvatore Rubera. The administrative staff of the Seabrook Recreation Department are Sandra Beaudoin, Director of Recreation and Edward Pickard, Assistant Director.

During 1994, the Recreation Commission and staff continued to provide many of the same favorite programs and leisure services for Seabrook residents of all ages. A few changes were made such as increasing the participant limits within the summer camp & pee-wee camp programs, since there has been long waiting lists in the past. In general, any changes made within existing programs were to enhance them and make them more accommodating to the needs, demands and interests.

Two facility improvement projects were completed enough to use during 1994. One project included the new storage addition, in which the department staff began using at the end of August. This new space and stairway made a big difference in the handling and storing equipment and furnishings more efficiently and safely. The other project was the installation of a new playground unit, which was completed in the spring. It became a popular unit in the play area during the summer camps and was enjoyed all summer. There are a couple items still to be done, to fully complete the new storage area, which will be carried out during 1995.

SEACOAST COCA-COLA IN 1994

Seacoast Coca-Cola Bottling Co. continues to be the leader in supporting youth & teen programs. During 1994, the company provided beverage products, Cola Water Bottles, prizes and \$1,500 in sponsorships. The programs which benefited were the Youth Christmas Party, SCC Teen Basketball Team, Youth Basketball League, Rams Football, Walking Club, Old Home Day, School Vacation Contests and the Miss Seabrook Contest.

1994 SEABROOK OLD HOME DAYS

The 1994 Seabrook Old Homes Days were again a success and filled with entertainment and fun. The 14th annual Miss Seabrook Contest opened the Old Home Days on Thursday, August 18th where over one hundred and fifty people witnessed Davina Jameson being crowned as the 1994 Miss Seabrook. On the following night Erica Thurlow was crowned Jr. Miss Seabrook. On Saturday, August 20th local non-profit groups, town departments and others provided food, crafts, contests, entertainment and more. On Sunday, the Seabrook Lions Club held a Turkey Shoot as an Old Home Days event.

In conclusion, the commission and department staff, extends a special thanks to all those who helped to maintain and carry-out the variety of programs which were offered during 1994. Local volunteers were responsible for coaching over 38 sports teams for youth & teens.

PLANNING BOARD REPORT 1994

To The Citizens of Seabrook:

In 1994 the board processed nineteen cases, but more importantly there have been many hours spent on recommended changes to our zoning ordinances to address the soon to be on line sewerage service. These events include many public hearings, and reviewing sewerage easements.

Some of the larger cases reviewed and approved were: Yankee Greyhound's proposed 28 lot subdivision, Deer Crossing, off of Blacksnake Road; Trendline's Woodworkers Warehouse, on Batchelder Road, and Brazonics on Ledge Road.

There were seven public hearings held for zoning ordinance changes and subdivision/site plan changes and approximately twenty sewer easements were signed.

I would like to express my thanks to all the people who have worked for and with the board, I feel that it has been an enjoyable and fruitful year with the one exception of the resignation of Vice Chairman Leo Deschenes, which the board accepted with deep regrets. I hope that more people in the town participate in the administration of town business such as serving on this and other boards in the future.

Respectfully Submitted,

Joseph M. Jones, Chairman
Seabrook Planning Board

Members:

Robert Brown, Vice Chairman

Emily Sanborn, Secretary

It was an exciting year for the highway, rubbish and other public works groups. The creation of a Department of Public Works now brings them all together to include highway, rubbish, recycling, cemeteries, parks and mosquito control.

The development of the DPW will streamline much of the operation of these departments. Manpower and equipment will be shared, efficiency will be increased and costs minimized.

The DPW crews were again busy helping with the sewer project. Workers put in drainage pipes and catch basins on parts of South Main Street, Lake Shore Drive and areas of the beach. They also moved approximately 10,000 yards of beach sand from the fisherman's co-op. The sand was placed in different locations of town to be used in backfilling septic systems when the sewer plant becomes operational.

Other highway projects included installing rip-rap on Cross Beach road to protect from erosion. Area beaver dams were cleared and maintained to aid sewer pipe installation. We assisted the water department in restoring the Gruhn property on Route 107, a site of water contamination.

This summer we started a sign maintenance project. This ongoing project involves identifying the sign and/or post in need of repair and then correcting it. We spent time with the police department to insure that certain signs were proper such as speed limit, parking/no parking, etc.

The crews were diligent in their efforts in keeping the beach clean this year. The storms in the earlier part of the year washed a considerable amount of debris ashore. We also increased our efforts to rake the beach more often.

The DPW purchased a computer system. Considerable time was spent setting up different databases on the computer. We currently have a complete inventory of all vehicles and equipment and are tracking maintenance performed. This will help us to keep a better handle on "problem" equipment and scheduling of periodic maintenance. We also have a current database of the Hillside cemetery located on Route 1. It includes section and plot, person(s) that bought the plot(s), the person buried, deed dates, date of death and other comments.

Crews were busy in the cemeteries this year. Beyond our weekly mowing program, numerous dead and unsightly trees were removed. We have applied for a grant to purchase a host of new trees that will be aesthetically more pleasing.

The recycling program made considerable progress this year. The recycling truck arrived in December and started using it the first week of January. Construction plans were finalized for the new recycling/transfer station building expected to open summer 1995. We purchased a CFC recovery machine. This device extracts refrigerants from air conditioners, dehumidifiers and refrigerators. The machine has already paid for itself in the volume of liquids that have been extracted.

I would like to thank all the DPW employees for a job well done. We would also like to thank the water and sewer departments for their assistance throughout the year.

Respectfully submitted,

Mark S. Eaton
DPW Manager

WELFARE OFFICE REPORT - 1994

After 10½ years as Town Welfare Agent, James C. Falconer retired on September 1, 1994, and Deirdre L. Greene was appointed to fill the vacant position on October 14, 1994.

For the fiscal year 1994, the Town's welfare budget was not impacted quite as much as last year. In 1994 the Town spent a total of \$52,245.00 of the budget. The Town has received \$3,936.24 through promissory notes, assignments, court actions and liens, and \$1,534.00 in assistance was worked off in the Work Fare Program.

Unfortunately, with the size of fuel assistance grants to the needy being cut, the Town faces the prospect of having to take on a larger burden in that area in the future.

Respectfully submitted,
Deirdre L. Greene
Welfare Administrator

Seabrook Beach Village District
Annual Report

The Seabrook Beach Village District held its annual meeting on April 26, 1994. Officers elected were:

Charles Kaslow - Commissioner (three year term)
John Lannan - Treasurer (one year term)
Edward Maguire - Moderator (one year term)
Maureen Essigmann - Clerk (one year term)

Tim Willis was recognized for his dedication and service to the community during his ten years on the Board of Commissioners. Tom Battles was elected chairman at the May meeting.

The Beach Commissioners meet on the Second Wednesday of each month at 7:00 PM at the Warren West Building. The Board of Adjustment meets on the third Wednesday of each month as requested.

The second annual fourth of July bonfire was enjoyed by a large gathering of Seabrook residents and guests. The bonfire was made possible through the efforts of community volunteers as well as members of the Fire, Police and Highway departments, all are to be commended for their work on this event.

The Building Inspector's office issued 46 permits with a total valuation of \$573,623.00. Several revisions to the zoning ordinance were passed at the annual meeting to clarify portions of the ordinance.

The commencement of the sewer and drainage lines have presented some challenges to residents as with any project of this scope. Project Manager, John Dold and his assistant, Cora Stockbridge have been of assistance in resolving issues related to the construction and their assistance is very much appreciated.

Respectfully submitted,

Thomas E. Battles, Chairman

Charles M. Kaslow, Commissioner

William Emery, Commissioner

ROAD AGENT REPORT - 1994

I have enjoyed working for the town for over 30 years. My first employment back in 1963, was basically part time or working on special projects, such as installing water mains for the water department, building cemetery walls and archways. Soon I became a permanent employee and worked for then Road Agent, Bill Felch, as his assistant. Upon Mr. Felch's retirement in 1982, I ran for the office of Road Agent and was elected.

Throughout my tenure as Road Agent, I have seen Seabrook grow from a town with little business and a small population, to a town second to none in services and a place every business wants to be.

I have seen tarred roads with gutters developed into asphalt roadways with modern drainage systems. Roads which used to be sanded and salted by hand are done now with automatic spreaders. The highway facility has grown from an inventory of one truck and a garage bay to a fourteen bay complex with a state-of-the-art fleet of vehicles and equipment.

We as a town have come far and that is because the people of Seabrook have been kind to the departments, giving us the means to update and improve, that which I am very thankful for. I am also thankful for the support the people have shown at the polls, electing me each year.

The future will always seem bright for me new visions are at work for new and better ways. It has been an honor to know I was part of the past and a part of the positive growth.

I wish to thank all who have worked with me, both employees and Selectmen, as we have accomplished many, many things which we can all be proud of.

I am looking forward to a near future retirement. Again, I would like to say thank you to the Town of Seabrook and all the wonderful people.

Respectfully submitted,
Vernon G. "Mushy" Dow

SEWER PROJECT REPORT - 1994

The Sewer Project is on schedule and within budget with the wastewater treatment plant to be operational by the 4th quarter of 1995.

A total of nine contracts have been awarded, with one more remaining sewer contract to be bid. Contracts #1 and #3 are complete. Sewer contract #2, uptown and Route 1, is 50% complete. Contract #4, the wastewater treatment plant, is 60% complete. Contract #5, major pump stations, will commence in early 1995. Contract #6, ocean outfall pipe, will commence in early 1995. Contract #7, the beach, is 70% complete. Contract #8, uptown and Route 1, will commence in early 1995. Contract #9, west side of Town, will commence in early 1995. Contract #10, various sites, to be bid in spring 1995.

The following are some facts about the Seabrook Sewer Project:

- 1) New 1,800,000 gallons per day wastewater treatment plant on Wright's Island;
- 2) 16 sewerage pump stations
2 storm drain pump stations
- 3) 43 miles of main line sewers
+24 miles of house connection sewers
67 miles total
- 4) 40 miles of newly paved roads.
- 5) Total cost - \$55 million

The Town Sewer Office continues to coordinate with the local school bus companies to provide weekly construction schedule information to the bus drivers.

Any complaints from residents can be directed to the sewer office at 474-5601. These complaints will be documented and processed through the appropriate parties.

Sewer connections to individual residences and businesses will commence in the spring of 1995. This work will start in the south end of the Town and continue north to uptown and, in 1996, to the west end. However, final connections into the the new sewer will not be made until the wastewater treatment plant is operational in the last quarter of 1995.

The Town would like to thank the residents for their patience and cooperation thus far in the project. We anticipate that 1995 will be the year with the most construction activity. Therefore we would ask that the public continue to observe directions provided by signs and/or flagmen in the construction zones. Public safety remains a priority in this ongoing project.

Respectfully, submitted

John C. Dold, Project Manager

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the
Board of Selectmen and Town Manager
Town of Seabrook
Seabrook, New Hampshire

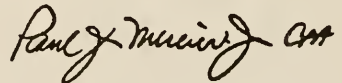

We have audited the accompanying general purpose financial statements of the Town of Seabrook as of and for the year ended December 31, 1993, as listed in the table of contents. These general purpose financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Assets Account Group, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Seabrook as of December 31, 1993, and the results of its operations and cash flows of its nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Town of Seabrook. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

The notes to financial statements are an integral part of this statement.

There were 528,973,216 gallons of water pumped in 1994. This 45,483,389 gallon increase over the previous year was due mainly to the increase in the domestic use. It was noticed because of the lack of rain in the summer season, the outside use of water increased.

Industrial-commercial use increased from 116,076,819 in 1993 to 130,873,925 in 1994. This 14,797,106 gallon increase was seen in several accounts. Accounts with the most significant increases were: Morton International, North Atlantic Energy Service Corp., K. J. Quinn and Best Western Motel with 5.4, 3.6, 2.7 and .5 million gallons respectively. Two new metered services were added, Captain K's and Woodworkers Inc.

There were 19 water services installed in 1994, one of which was a 6" commercial service to Trendline Company off Batchelder Road.

Five fire hydrants were repaired after being damaged by motor vehicles or sewer construction crews. The hydrants are located on Ocean Boulevard, Route 286, Ocean Drive, South Main Street and Washington Street.

Many water leaks resulted in a significant loss of water because of sewer, drainage and gas construction. The largest leak occurred on New Zealand Road, after the sewer contractor dynamited a four foot section out of our 12" water main. This leak resulted in the loss of about 300,000 gallons of water before it was turned off.

The crew observed the installation, flushing, testing and chlorinating of four large water main projects. A 6" sprinkler service to Trendline Company (off Batchelder Road) was installed. An 8" water main and fire hydrant was installed to the new sewer treatment plant. The Forest Court project included replacing the old 2" main with a new 8" main and fire hydrant. Also, all six water services were replaced. All of this was accomplished using our crew combined with a hired contractor, Lloyd Perkins of Seabrook. The other project included replacing a section of Atlantic Avenue between Stateline and Amesbury Streets. The existing 2" main with two fire hydrants were replaced with an 8" main with three new fire hydrants. All eighteen house services were replaced. This was done through the sewer contractor Albanese Brothers from Dracut Massachusetts.

On Folly Mill and Walton Roads about 35 water services were abandoned and new ones installed. This was accomplished with the combined effort of our crew working with Lloyd Perkins' crew.

The biggest part of our time has been spent with sewer, drainage and gas company crews, working in our town. A lot of this work is locating and marking water mains and services, while other work is turning off and on mains for scheduled and emergency work.

Sewer contractors have upgraded many water services within the towns rights-of-way. The old wrought iron service pipe and curb valves are being replaced with 200 pound class plastic and new valves.

Work was completed at the Gruhn contamination site. Contaminates are being stripped from three recovery wells at a rate of just over 1,000,000 gallons per month.

Now that the Gruhn clean up has begun, the work can continue on a new well, water mains and pump station off New Boston Road. This new well will be constructed in 1995. It is expected to produce a much needed 600 gallons of water per minute.

Again we would like to thank everyone who observed our partial water ban over the summer season. I am sorry to report that a lot of residents were caught violating this ban. I would like to remind everyone that it is the responsibility of all to adhere to the ban. A stricter or possibly a total ban could be imposed.

Remember water is a precious and useful resource and should be used wisely not wastefully. Conserving water is everyone's responsibility.

Respectfully Submitted,

Warner B. Knowles
