BERLIN
NEW HAMPSHIRE 03570
The City That Iron Built

May 5, 1973.

To the Citizens of Berlin:

For the third time, it is my pleasure to report after assuming the direction of the City of Berlin. I wish to thank every one of the Councilmen who gave me such hearty support during the past administration and ask them to be prepared and ready to assume their responsibilities and to give to the citizens who elected them the best that is in them and I trust that our relations during the coming year will be cordial and helpful to all of us.

We have taken an oath to serve the people of Berlin and I know that we will keep faith in that oath and will serve our people to the best of our ability.

It is my hope that the coming year will see a responsive and sensible cooperative spirit among the members of the City Council, department heads and city employees in order that the best interest of the citizens and taxpayers can be served.

I want the citizens of Berlin to feel free at any time to make constructive criticism.

Again as I did in the past years, I want to thank the members of the City Council and all department heads and their employees for the cooperation and assistance given to me in the fulfillment of my duties.

Respectfully submitted,

Norman L. Tremaine
Norman L. Tremaine,
Mayor

A Look to the Future

Design and Construction of the so-called Twelfth Street Bridge. Construction and improvement of school facilities. Planning and construction of drainage facilities.

Planning and construction to eliminate existing and future water pollution problems.

Planning and construction of water supply and treatment facilities.

Planning and development of an Industrial Park complex at one or more locations.

Planning and construction of Dead River Recreational Park area. Revision of many City Ordinances and the modification of all.

Adoption of a Centralized Purchasing Procedure Manual. Completion of position classification and pay plan study for all

salaries employees under the City Council jurisdiction.

Development of and the installation of an Administrative Code A reorganization and improvement study of various city departments and the services performed by each.

Establishment and organization of a Regional Planning Commission.

Establishment and organization of a Conservation Commission.

THE TAX RATE - What can we afford????

In the past year all accounts were balanced with the satisfaction of having resolved some significant problems, of having made inroads upon others of major scope, but with the nagging knowledge that inflation and escalating costs plus major undertakings that must be done in the future remain as a continuing threat to the city's economic well being. This we have faced but with much apprehension as to how to do it with what we have to do with. We, as every community in the nation, face the burden of needing more funds to accomplish that which we must. Our taxes are an ever increasing burden-our burden is becoming too great-but the fact remains our taxes cannot be decreased without eliminating our services, or their quality, which you the public require, demand, and deserve. Therefore, you the public must assist in the decision of WHAT CAN WE AFFORD.

NEW HAMPSHIRE 03570
The City That Trees Built

To the Honorable Mayor, Members of the City Council, and the Citizens of the City of Berlin:

Presented herewith is a new idea in municipal public relations. This is an attempt to place before the people an Annual Report, and keep before the people, a record of events and accomplishments concerning their municipality. It is interesting I think that we use one of the oldest record forms of mankind, the calendar, to present the most recent records of municipal happenings plus a brief schedule of future meetings and other items of civic interest. Through this schedule we hope more of our citizens will become involved in civic affairs and the general municipal operation of the local government. Each of us should take an active part in our community and your interest is both welcomed and necessary.

This calendar report is designed to highlight the role of your local government in the day-to-day life of each citizen and to acquaint you with the many varied activities of the community departments. The departmental reports which are included are brief, but should you desire more information on any one department it is readily available and a matter of record at each.

As City Manager, it is my responsibility to carry out the obligations of the City Council as expressed in the adoption of the budget for the fiscal year. This is done by attempting to obtain the maximum amount of services for the minimum expenditure of money. It is my duty also to examine the present methods used to accomplish this, and in turn to submit recommendations to the City Council for new methods and procedures to more efficiently operate the various city departments under my control in an effort to provide improved services with no substantial increase in overall costs.

A healthy and sound community is only created by its citizens and by what they contribute toward its development and improvements. We have a fine community - we have a community in need of many things which can be to the benefit of all - but we must work to accomplish that which we desire.

With the cooperation and direction of your capable City Council, the efficient operations of the many employees of this community, plus your interest and participation in community activities, I look forward to working with all of you in the years ahead with confidence that we will successfully cope with the many challenges that our community will face in the future. The greater the effort through strength in numbers - the greater the accomplishments will be.

Very truly yours,

Joseph F. Burke
Joseph F. Burke
City Manager

City Clerk

Finance Department

NORMAN J. TREMAINE
MAYOR
CITY OF BERLIN

To the Mayor and City Council:

I herewith submit my report as City Clerk for the fiscal year ending January 31, 1971.

This year the office of the City Clerk filed and indexed 465 Financing Statements, 170 Termination Statements, Sales and Mortgages.

Recorded 236 Births, 160 Marriages and 195 Deaths.

Registered 8,477 cars, trucks, trailers and motorcycles, and issued 466 dog licenses.

Copies of all vital statistics were forwarded to the Department of Vital Statistics, Concord, New Hampshire, and copies of all birth certificates prepared for the parents.

Cemetery lots were sold and deeds issued and recorded. Orders were issued for the digging of all graves.

All junk yards and taxicab licenses were issued from this office. Monthly reports of Vital Statistics and monthly reports of labor were forwarded to Concord, New Hampshire.

The City Clerk acts as clerk of the City Council, recording minutes of each meeting, public hearings, filing and indexing all petitions, communications, reports, etc.

The City Clerk is also agent for the New Hampshire Fish and Game Department and forwards monthly reports of all sales to the department.

The following show the listings of Marriages, Births, and Deaths as recorded during the past years.

	1966	1967	1968	1969	1970
Births	266	308	277	273	236
Marriages	133	134	146	155	160
Deaths	201	192	211	186	195

Respectfully submitted,
Rosa Jutras,
City Clerk

City Treasurer

Issued over 14,585 payroll checks.
Issued over 4, 825 general checks.
Issued \$2,050,000.00 and repaid \$1,900,000.00 Tax Anticipation Notes.
Issued \$150,000.00 Public Improvement Bonds.

Industrial Development

We have been fortunate in the past year that our major industries were very little affected by the recession—Employment at Brown Co., Converse Rubber Co., EMCA and others remained very stable.

The most significant activity of the chairman and some committee members is their participation in the TEPCO power and industrial development.

This project is progressing well. Many meetings have been held with the aluminum and power interests to establish a satisfactory economic package. The planning and agreements are now in the final stages of negotiations.

Besides the power requirement, which is the major factor for the aluminum industry, other important items have been resolved. For example, a careful study showed that the people leaving the area every five years could provide the new development with double its initial requirements for personnel.

The planning for the unloading facilities at the coast and the transportation of raw materials to the area by the Canadian National Railway have been established. The analysis of rail shipments to the market areas has placed Berlin in a preferred position.

Options of two large tracts of land for the industrial project have been obtained and negotiations are underway for a third parcel of land within the City. General planning on the project is progressing on schedule. Formal exchange of agreements and announcement of project plans will be forthcoming during this year.

In the services area, an important factor is the expansion taking place at the Vocational School which will provide at least fifteen good paying jobs.

Another new development is that of the Canadian National Railway in establishing a new control center to their system in Berlin. The details of this development will soon be announced, but it can be said now that it will bring a number of people to this city and contribute to many other future possibilities, such as the industrial transportation now being considered as well as possible revitalization of passenger service in the future, as suggested for the entire country in order to solve the problem of our congested highways.

Fire Department

FIRE DEPARTMENT ANNUAL REPORT 1970

The following is a brief summary of the activities of the Fire Department for the year.

Type of fire or call.	Number of alarms.
Dwellings	65
Mills and Factories	13
Oil and gas Bulk plant	1
Auto and Truck	29
Non - residential	17
Grass and Brush	20
Dump	23
False Alarms	27
Investigations and Emergency	15
Inspections and Training	58
Call to assist	59
Total	327
Hours worked at fires	276
Miles traveled	776
Hose used	7,380 ft. of $\frac{3}{4}$ booster line
	7,020 ft. of $1\frac{1}{2}$
	2,800 ft. of $2\frac{1}{2}$
Water from booster tanks	95,805 gals.
Ladders	1,559 ft.

Lucien J. Lamontange, Fire Chief

Urban Renewal should be successful economically and contribute to the beautification of the city because of the way land has been committed to expensive new buildings.

Milan Footwear and the Onco plant have been delayed in development but Mayor Tremaine, as a Committee member, is working very hard to solve their problems and get them on a full employment basis.

Mr. Val Doucette, our North Country State Industrial Agent, has made many good contacts in the past year and has been successful in bringing a number of prospects to visit the city.

The Committee's appropriation for the eleventh year of organization ending January 31, 1971 was \$3,400.00 and the expenses have been \$726.05. The balance of \$2,673.95 is being returned to the city.

Robert Theriault, Chairman

A new roof was a major item in 1970 and repairs were made in the Adult Department. Panelling was installed in the office and in the non-fiction section as well as painting ceilings. A new book case was added to the classics section and two paintings were purchased for the Reading and Reference Room. A subscription to Life two French magazines, Match and L'Express, equivalent to Life and Time, have been added to our list of periodicals. In the Juvenile Department, a necessary catalogue file was purchased.

School Department

In Perspective

This has been a year of achievement as well as problems for the School Department. Progress has been made in curriculum changes, in additions to the elementary and secondary program, especially in special education and in industrial and vocational education.

The next year or two will be difficult for both public and parochial schools and thus difficult for the City. Expanded facilities are needed for the present number in the public schools and will be desperately needed for any increase in numbers. This will mean more extra problems in finance. We can hope that at long last the state and federal governments might play their appropriate roles and reduce some of the tax burden now falling on personal property.

School Calendar, 1971-72

Significant dates of the school calendar are as follows:

Opening Day	September 8
Closing Day	June 16
School Vacations:	
Thanksgiving Recess	Nov. 25-26
Christmas Vacation	Dec. 24 - Jan. 2
Winter Vacation	Feb. 19-27
April Vacation	April 22-31
Non-school Days:	
Teachers' Convention	Oct. 22
Veterans' Day	Oct. 25
Fast Day	April 21
Memorial Day	May 29

No-School Days

Board policy sets forth these arrangements:

Although it is contemplated that the no-school signal will seldom be used—only in case of very severe storm or serious emergency—provision is hereby made for a no-school signal for the Berlin Public Schools, to be sent out on the Berlin Fire Alarm System as follows:

Alarm	Time	Meaning
22 - 22	7:15 a.m.	No school ALL DAY
22 - 22	11:15 a.m.	Continuation of morning session until 12:15 with no afternoon session
22 - 22	12:15 p. m.	No afternoon session

Notices will be broadcast over stations **WMOU** and **WBRL**.

Public Works

This department is responsible to construct and maintain all streets and sidewalks, sewers, culverts, surface water drains, retaining walls, cemeteries, sanitary land fills, city parking areas and airport; to paint and maintain all bridges, guard rails, traffic signs and control signs; to carry on the leaf and snow and ice control program including all streets and highways within the city limits; to carry on street cleaning program throughout the city and to seal and patch all streets in need of same, to carry on a Clean-up and Pick-up program every spring and fall. To operate a public works garage that maintains city equipment; and to design most of our permanent improvements except for Public Building.

Clarence J. Brungot
City Engineer

Welfare Dept.

This Department administers to the temporary care of the needy of the City until such time as each case has been re-habilitated or directed to the proper agency for permanent assistance according to their legal settlement based on the laws of the State of New Hampshire.

In addition, the Department counsels our citizens in regards to other programs that they might be aided by.

In doing this the Department assisted:

- 43 cases comprising of 188 individuals and 7 singles under Direct Relief
- 25 cases comprising of 109 individuals and 3 singles under Soldiers' Aid
- 1 Board and Care of Adult case
- 3 Board and Care of Children cases
- 44 cases of Aid to Permanently and Totally Disabled
- 20 cases of Alien Old Age Assistance
- 134 cases of Old Age Assistance

Maurice A. Belanger,
Overseer of Public Welfare

Parks and Playgrounds

We, the 1970 Parks and Playgrounds Commission of the City of Berlin, New Hampshire, present this annual report of the Centers activities and the outdoor programs of the Recreation Department.

Our activities have varied this past year and new programs have been added to meet the demands of our citizens. We have served people from pre-school age, straight through to our senior citizens, helping them whenever possible.

Our goal is to serve. This is why we are here and will make every effort possible to continue this policy for the youth and adults of Berlin.

We hope that you will read this report carefully and evaluate the responsibility that has been placed on the Parks and Playgrounds Commission in the over-all recreation programs.

If participation is the criteria for evaluating a community recreation program city, then 1970 was one of our finest years. More children and adults participated in more programs and activities than ever before. Almost 75,000 visits were made to the Center in 1969-1970.

Following the path has been our policy for many years. The center and our outdoor programs continue to add to existing activities. The demands that this community is putting on its recreation department have virtually forced us into a seven day week program schedule.

Perhaps the most beneficial activities for our youth have been baseball, hockey, farm league and daily playground programs far too numerous to go into detail in this report. For the adults we had softball, bocce and the two (2) new tennis courts on Glen Avenue.

The family ski area has grown in leaps and bounds. Over 150 children registered for free skiing lessons.

Biddy basketball league came back strong after not too good a season in 1969. Approximately 50 girls in grades 4-5-6 participated in the girls basketball league.

Our six (6) playgrounds had exciting and worthwhile programs with excellent weather. We sprinkled in some special events, which were very popular. Our third annual summer arts & crafts show brought out many fine examples of the wonderful work done by our youngsters

Berlin Housing Authority

REPORT OF THE BERLIN HOUSING AUTHORITY URBAN RENEWAL: COLE STREET PROJECT

land acquisition

As of December 31, 1970, the Authority held title to (or option on) 60 of the 66 parcels to be acquired in the Cole Street urban renewal area. Title to 46 of these parcels was obtained by purchase while title to the remaining 14 was acquired through eminent domain proceedings. It is expected that all 66 urban-renewal-area parcels marked for acquisition at project start will be owned by the Authority within the next several months.

relocation

There were 27 residential moves from the urban renewal area during the 12-month period ended December 31, 1970. A total of 139 residential moves have been made from the area since project execution activities began in April of 1968. Residential moves remaining to be made total four.

Other moves during 1970 included the State Liquor Store (to 134 Pleasant Street), the Knights of Columbus (to Jericho Road), Kenneth F. Harvey's (to Milan, New Hampshire), and Coury's Exchange (to Exchange Street). Businesses discontinued during the year included the Pleasant Street Cafe (195 Pleasant Street), Brassard's Square Deal Market (36 Green Street), and Lou's Bear Wheel Alignment (119 Cole Street).

demolition and site clearance

Demolition and site clearance work took place during much of the year with the result that by September seven major redevelopment sites had been cleared of buildings. The cleared parcels and their reuses are as follows: parcels C-1 and C-3 (commercial), parcel R-1 (apartment housing for the elderly), parcels P-1 and P-3 (public parking areas), and parcels S-1 (part of new Cole Street) and S-2 (new Granite Street).

Parcels on which demolition work remains to be finished (all have been partly cleared of structures) are: 0-1 (the public park), P-2 (public parking area), R-2 and R-3 (residential areas), S-3 (part of new Cole Street) and C-2 (commercial area).

site improvements

The Authority on September 17th awarded a site improvement contract to Lessard Sand and Gravel, Inc., Richards and Son, Inc., under which a large part of the urban renewal area was brought to the elevation called for in the project grading plan.

Other work accomplished included the installation of water lines, fire hydrants, storm drains, sanitary sewers and related structures.

Off York Street improvement work begun under this contract will be completed in the spring.

Redevelopment of parcels C-3, R-1, P-1 and P-3 will take place beginning in 1971.

A banking house estimated to cost some \$450,000 is to be built on C-3. Construction of this facility for the Berlin Savings Bank and Trust Company is expected to begin in early spring.

The installation of landscaped and lighted public parking areas on P-1 and P-3 will be undertaken by the City. When completed these areas will contain a total of 201 spaces.

Redevelopment of R-1 will be accomplished by the Authority (see "NH-11-2" below).

Also expected to be built this year on Parcel C-1 is a Dairy Queen - Brazier unit designed to seat 64 people. Total cost of the Queen Brazier redevelopment proposed by Mr. Jan Filip of Glen, New Hampshire is estimated to be \$100,000.

1971

Site improvement work planned by the Authority for 1971 includes installation of water lines, sanitary sewers and storm drains in new Cole Street and Mason Street, construction of new Cole Street, and widening of Mason and York Streets (between Cole and Pleasant Streets).

Work expected to be done by others during the year includes improvement of the Dead River channel in the urban renewal area (by the Soil Conservation Service), undergrounding of phone and power lines (by the concerned utility companies), and excavation of the New Granite Street right-of-way (by the State Department of Public Works and Highways).

Parcels expected to become available for redevelopment in 1971 include parcel R-2 (residential reuse), parcel R-3 (residential reuse), and parcel P-2 (public parking area).

PUBLIC HOUSING

The year 1970 saw the Authority's first construction start when in April, Richards and Son, Inc. began building 24 units of apartment housing on the one and one-fourth acre site bounded by High Street, Church Street and Hillside Avenue. Amount of the contract award was \$410,000. Designed specifically for the elderly these units are expected to be ready for occupancy in the early spring of 1971.

Also designed for occupancy by the elderly are the 31 apartment units which are to be built in the Cole Street urban renewal area. A total of five buildings will be built on the two and one-half acre site northeast of Green Street. The general contractor will be Richards and Son, Inc. whose bid of \$662,695 was the lowest of four received.

Four of the five structures will be two-story apartment buildings similar to those now being completed on the High-Church Streets site. The fifth will be a single-story community building which will contain an activity room for the use of the project tenants as well as administrative, maintenance, and boiler room space.

A March construction start is planned with occupancy expected to take place in the spring of 1972.

AUTHORITY BOARD

Mr. Romeo Blouin was reappointed to the Authority in December. Mr. Blouin has been a member of the Authority since January of 1966 and serves as Vice-Chairman.

Board of Electric Utility Commissioners

By the referendum of June 9, 1970, the Board of Electric Utility Commissioners was created by the City fathers on June 24, 1970 for the express purpose of

1. Research and planning for the establishment or acquisition of an electric utility plant within the City of Berlin.
2. Discussions with and assembling information from electric public utilities already engaged in business within the City.
3. Making of reports and recommendations to the City Council.

The Commissioners upon assuming their duties and, in compliance with RSA 38-6, advised Brown Company and Public Service Company of New Hampshire through the Office of the Mayor of the results of the referendum of June 9, 1970 and requested that they advise the Board of Electric Utility Commissioners of that property located within the City of Berlin which they elected to sell. A reply to this request was received from the President of Public Service Company of New Hampshire on September 3, 1970.

Since that date the Board has held several meetings with the special attorney for this matter, the consultants, the Tepco personnel and Public Service Company of New Hampshire officials. That property and plant which was offered for sale and the records thereon have been inspected and the Commissioners will shortly begin negotiations.

The investigation is proceeding satisfactorily and the City Council has been advised on several occasions of the progress to date.

Respectfully submitted,
BOARD OF ELECTRIC UTILITY
COMMISSIONERS

John Jacobs
Oliva A. Morneau
Oliver Bell

Civil Defense

CIVIL DEFENSE

The Berlin Civil Defense Unit continues as a participant in the Federal Personal and Administrative Program which provides 50% federal reimbursement of the expense of administering the program.

As Civil Defense is important to all citizens of Berlin, material is available, as well as varied courses, for the public and city officials. A correspondence course which is entitled "Civil Defense U.S.A." is available to anyone interested and the application is on hand in the Civil Defense Office. This course is offered with no cost to those interested.

During this year, a Disaster Plan for the city has been worked on and we are awaiting information from the Brown Company for the completion of the plan. This plan is being carried out in coordination with Brown Company.

Very little Surplus Property equipment or items have been made available this year. However, the program remains in effect. It has provided substantial savings to the various departments who have participated.

There are many improvements and changes in the planning stages for the public shelters and the various units connected to this program. Plans are continuously being worked on to make the Community Shelter Plan more effective.

A new and more effective charter for the Berlin Auxiliary Police Unit has been written and approved. The whole unit has been reorganized and is an important complement to the regular police force. The Auxiliary Police Unit is under the leadership of a member of the Berlin Police force and they have their meetings every month for training and direction. The equipment and supplies used by this unit is kept in a separate office which is located in the Berlin Police Station building. There is a supply officer who has charge of keeping a record of all equipment used by this unit. Through the cooperation of the City Council, it has been possible to provide an appropriation to help with the expenses of the newly organized Police unit.

At the present time, plans are being formulated to improve the Emergency Operation Center and provide the needed equipment for it. The Emergency Operation Center is located in the basement of the City Hall.

Roma E. Brisson, Director
Berlin Civil Defense

Auditor's Views

Finance Department

The following is the Finance Department's report for the year ended January 31, 1971.

Maintained complete accounting records of the City of Berlin General Fund and other funds.

Prepared financial reports.

Completed financial surveys for State and Federal Governments.

Kept records and processed centralized purchasing such as gas, oil, postage and supplies for various departments.

Kept records and processed insurance claims for Workmen's Compensation, Group Insurance, and Liability Insurance.

Processed applications for medical insurance and group insurance and prepared monthly statement for billing of same.

Assisted the City Manager in the preparation of budget, preparation of bids or quotations on major purchases, and issuing of purchase orders.

Additionally, the staff maintained records and published reports for the Industrial Development Committee, the Planning Board, the Educational Building Study Committee, Citizens' Task Force, and the Electric Utility Commission.

Respectfully submitted,

(Mrs.) Aline Boucher

ACCOUNTANTS' OPINION

The Honorable Norman Tremaine, Mayor
Members of the City Council
City of Berlin, New Hampshire

We have examined the balance sheets of the various funds of the City of Berlin, New Hampshire as at January 31, 1971 and the related statements of operations for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheets and related statements of operations present fairly the financial position of the various funds of the City of Berlin, New Hampshire at January 31, 1971 and the results of their operations for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.
