Public Library Report

It is with considerable pride and pleasure that I report the circulation of books continued to rise higher than the previous year. The increase of three thousand eight hundred and twenty-eight, (3,828) in the juvenile department seemed phenomenal when one realizes that television does effect our children's reading. The adult department showed an increase of two thousand four hundred and ninety four, (2,494) which is most gratifying.

We received two substantial amounts of books from the Alice Davis Estate and Mrs. Burt Folsom's Estate. From the former were mysteries and several excellent non-fiction works, and from the latter valuable books for the genealogical room. There have been other gifts from numerous people which were much appreciated.

The display case in the reference room which is taken care of by the Exeter Historical Society has had four exhibits this year. Under the able planning of Mr. William Dudley the following were shown: collection of old views and maps of Exeter; old fire apparatus, supplied by the Exeter Fire Department; early lighting gadgets, lights and old matches, antiques, needle cases, pin cases, cushions and old boxes.

We have reserved a small space in the rotunda for books about Great Britain and by British authors. This has been done at the request of the English Speaking Union. So far it has been well received by the patrons of the library.

The principal of the Academy, Mr. William Saltonstall and the Exeter Library Committee will be hosts for the New Hampshire Library Association Annual Meeting to be held on May 8th and 9th of 1952. Your librarian retired from the office of secretary of the association in May and the Davis librarian, Mr. Rodney Armstrong, was appointed auditor for two years.

The juvenile department has been very active during 1951. Pupils from the Exeter Day School and Court Street School have paid us a visit. The Seminary and High Schools have received their instructions on how to use the facilities of the library. The Court Street

School invited Mrs. Summerfield to two of their special programs. The Girl Scouts were taught how to mend books and the proper way to open a new book. As a result several came in to assist with our mending.

There have been the usual story hours on Saturday afternoon. Two Girl Scouts told stories at one meeting and six children reviewed books at another. We wish to thank the people who gave of their time to read to the children.

I wish to thank the library committee and staff for their continued support and fine cooperation.

Respectfully submitted,

HARRIETTE M. PIRNIE,

Librarian.

Report of Water Commissioners

The Board of Water Commissioners is pleased to present herewith a report of the activities of the Water Department during the year, 1951. Since last year's report practically all of the proposed major improvements to the system have been completed and put into operation. In addition to those mentioned in the Superintendent's Report, an unplanned but very worthwhile project was the thorough cleaning and painting of the old standpipe on Prospect Hill.

The Commissioners feel that the Underwriters' report of flow tests made on November 15th reflect better than anything else the improved service available to the citizens of Exeter. A comparison of these figures with tests from the same hydrants in 1949 is given below.

	<i>1949 Test</i>	<i>1951 Test</i>
Portsmouth Ave.	1,350*	1,140
Water and Front Streets	755	1,400
Front and Court Streets	535	1,350
Pine Street	335	1,650
Front and Elliot Streets	400	1,460
Main and Cass Streets	275	1,740
Railroad Ave. and Winter St.	255	3,410
Salem and Oak Streets	210	1,020
Epping Rd. and Columbus Ave.	170	4,780
High St. and Wheelwright Ave.	84 @ 10 lbs.	152
Jady Hill Avenue	110	237

* Pump in old station running at time of test.

All quantities @ 20 lbs. residual unless otherwise noted.

This chart clearly shows that, with the exception of the last two hydrants named, there is adequate flow for excellent fire protection. The Commissioners plan to enlarge the High Street and Jady Hill mains as soon as funds are available.

The financial structure of the Department has been weakened by the unprecedented demand for new extensions and service renewals. The lack of time necessary to build up a depreciation reserve has worked a hardship whenever old equipment has had to be re-

placed. The greatly increased cost of material has made the use of a fixed budget practically unworkable.

In closing, the Commissioners wish to remind the citizens of Exeter that they should take pride in the foresight which prompted them to purchase the Exeter Water Works when they did. Under present shortages and prices a complete renovation of the system would be impossible today.

HERMAN S. SMITH,
THEODORE A. NOWAK,
F. LEROY JUNKINS,

Commissioners.

To the Board of Water Commissioners:

I herewith submit my report as Superintendent for the year ending Dec. 31, 1951.

The year 1951 was one of much activity in the Water Department. It saw the completion of the new 1,000,000 gallon standpipe on Epping Road, the completion and putting into operation of the new Layne gravel packed well in Gilman Park, the installation of a new 750-gallon per minute gasoline driven standby pump at the Portsmouth Avenue station and the installation of several main extensions. These installations have made a great improvement in the water system in which the people of Exeter should feel proud.

The water from the new well is of excellent quality as shown by the several analysis made by the state board of health. We have had several complaints of color and taste especially from customers living on or near the ends of the system. The cause is the rust that has come off from the walls of the old pipes. This has been driven into those sections by the new water which is somewhat different than the old and by the change in direction of flow. We believe that this condition will soon be corrected.

Every one is pleased with the increase in pressure and rates of flow which will be reflected in lower insurance rates.

The following are from the records:

Total number of gallons pumped during the year 1951	145,106,900
Total number of gallons pumped by electric power	144,751,940
