HIGHWAY OBSTRUCTION

As our Town continues to grow particularly during the winter, with the influx of vacationing skiers, it becomes increasingly apparent that we need to be more rigid in our enforcement of the statutes that provide for the removal of the vehicles that are obstructing our highways. This is particularly critical in times of heavy snow fall when cars in the highway hinder the plowing operations of our Town. Your Selectmen and Mr. Kelley are always reluctant to order the towing of cars, however it is critical that the highways be kept clear to allow for the flow of traffic and emergencies. We therefore solicit your cooperation in making whatever arrangements are necessary to see that your vehicles are not left on the roadways of the Town. Below we are republishing the statutes enacted by the legislature spelling out the authority for removal of vehicles. It is our hope to eliminate the need of our making use of this authority.

249:29 Removal of Obstructions

The State Department of public works and highways may remove all obstructions in class 1., class 2 or 3 highways, and the highway agent of any city or town may remove all obstructions on any other highways and on town maintained portions of class 2 highways.

570:10 Obstructing access to highways

No person shall obstruct the highways by parking an automobile, other vehicle or object in or in front of a driveway to any dwelling, store, shop or other place of business, factory, field or forest so as to obstruct the passage of vehicles from the highway into such driveway or from such driveway into the highway.

570:11 Removal of Obstruction Lien

Any inspector of the motor vehicle department, police officer, sheriff, deputy sheriff or selectman is hereby authorized, if in his opinion the same is necessary, to employ a wrecker or other apparatus to remove such obstruction at the expense of the owner or operator of said obstructing vehicle or object and the owner or operator of the wrecker apparatus used in said removal shall have a lien upon the vehicle or object so removed for his fee or charge for said removal.

DOG NUISANCE

This past year the Selectmen have received a substantial increase in the number of complaints regarding dogs that are running loose through our Town. There is in effect a statute that requires that dogs be leashed and that the Selectmen or dog officer or constable has the right to destroy the animal if after warning the owner does not comply with the statute and restrain the dog. Here again we prefer not to use this authority as we appreciate the strong feeling each of us have for our pets. In order to avoid such action we urge all those who own dogs to make every effort to keep them restrained so that they do not become a nuisance to others. If this cannot be accomplished we will have no other choice but to enforce the statutes. Your cooperation in this matter will avoid necessity of such action.

REPORT OF THE PLANNING BOARD

To the voters of Jackson:

Under an article in the Warrant of 1971, the Jackson Town Meeting voted to establish a seven member Planning Board. The Following persons were appointed by the Selectmen as provided in Sections 1-15, Chapter 36 of the N. H. Revised Statutes Annotated 1955: Richard Badger and Murray Dearborn each serving three years; Robert D. Davis and Christine Frost for 2 years; Nancy Freeman and Vincent Pellegrino for one year; John Keeney for the Selectmen.

To date we have had regular monthly and several special meetings - a total of 15 - and have discussed many problems involved in the orderly growth and development of a small town such as ours. All of these problems must be tackled in the near future by some group or another - lot size, subdivision regulations, adequate control of signs and billboards, fire ruins, town dump and incinerator, parking, sewerage, trailers and mobile homes, school and general town planning. The question of which takes priority is a difficult one.

Rather than attempting to draw up an overall comprehensive zoning ordinance, this board decided to approach town planning one step at a time for the present. Therefore, we first focused on the sole issue of minimum lot size. After many hours of discussion and the most able advice of Attorney Peter Hastings the ordinance on which the town voted on November 16, 1971 evolved. It was gratifying that so many voters turned out for the two public hearings and special town meeting. About 140 voted and the sentiment was over three to one in favor of the ordinance. Step one.

From this vote and the thoughts expressed at those two hearings, the board feels that the citizens are very concerned about the future growth of Jackson, hope it will come about without damaging the character and atmosphere of our small village, and want more control over that growth. Enough people voiced concern over mobile homes at the public hearings to prompt the Planning Board to make that the second step. Questionnaires were sent to everyone on the check list and the response has been exceptional. In less than three weeks over 50% of the voters have returned them and many have added personal comments. This seems to be an excellent way to survey the town opinion on any issue prior to statutory requirement of hearings. We need your views on any subjects. This is what your Planning Board wants -- to know you are interested and care about the town, its land and landscape, its people and its problems.

Article II of the Special Town Meeting which was passed by the same ratio as Article I instructed "the Planning Board to bring a recommendation at the annual Town Meeting in 1972 for financing the preparation of "a complete master plan of the Town of Jackson. In order to do this we do not see the need at present for any large sum of money but realize that there will be certain expenses in the initial phase of the preparation of this plan for professional services, survey maps etc. when needed. Funds must be available for these.

A Master Plan is a study of what the town is. "It requires stock taking of the town's physical, financial and manpower resources and a frank appraisal of its deficiencies". It should include an up to date survey with maps, figures and data covering all existing conditions such as (to name a few) land use, housing, population, utilities, water, sewerage, schools, recreation facilities etc. It should also contain recommendations as to how the community's best features can be preserved, how improvements can be made, and how future needs can be anticipated.

Respectfully submitted,

Nancy P. Freeman, Chairman

REPORT OF THE FOREST FIRE WARDEN & DISTRICT CHIEF

LEST WE FORGET - IT CAN HAPPEN HERE

Disastrous forest and brush fires that destroy hundreds of homes are more prevalent on the west coast with their dry seasons and strong dry hot winds but 25 years ago this fall is the anniversary of a disaster that devastated large areas of northern New England leaving villages in ashes with rows of cellarholes and chimneys in a number of summer vacation home locations. Many lives were lost on that destructive day of October 23, 1947. Nothing could stop the wind driven flames.

It is true that such conditions are unusual for New Hampshire but they happened once, they can happen again. The fuel for fires is all around us. All it takes is a firebrand. Only by cultivating a habit of carefulness with fire at all times can we meet the challenge of protection when dry conditions prevail. Please let these reminders be your guide:

1. Never, either when walking, riding or driving, discard a firebrand - a lighted match or a glowing cigarette.
2. Always obtain a permit for any outside burning. The burning of household rubbish is not permitted if your town has rubbish collection. Burning of grass or garden litter can be dangerous. See your warden first.
3. If you camp or picnic, be sure open fires are allowed and if they are, put them dead out when leaving.
4. Most Important - Instruct your children in the danger of the lighted match. A lighted match and dry grass or forest litter is a dangerous combination which leads to destructive loss and can lead to tragedy.

The past year - 1971 was a favorable year for the control of fires. There were too many fire starts in some towns. We thank those who remembered and ask others to heed Smokey's message.

REGIONAL AIRPORT REPORT

TO THE SELECTMEN OF AREA TOWNS:

During 1971, we have seen an increase in local citizen activity at Eastern Slope Regional Airport. A group of interested local people have proceeded to form an incorporated flying club, and a large number of the members have been actively pursuing flight instruction at the airport during the year. General aviation activity has continued at a high level, and this local interest bodes well for increased activity and use.

During 1971, the radio homing beacon was completed, approved by the Federal Aviation Agency and put into service; thus providing an additional navigational aid for users of the airport, creating more wide spread publicity for the airport among the aviation public, and making it possible to utilize instrument flight plans when flying to the airport. As an additional benefit of this radio beacon, pilots may now telephone the FAA from the airport on toll-free lines, in order to file flight plans and obtain the latest weather advisories. The authority has been able to obtain regular servicing of the new radio beacon through the kind offices of Martin Engstrom.

During 1971, the airport snow plowing contract was let, after sealed bids on a three year basis, to the former contractor, Esmond "Kelly" Dunham, Jr.

As noted in prior years, we have only been able to operate with the help of grants of \$2,000.00 from the Mulford Trust. In addition, the authority makes a small operating profit on its T-Hangar, which helps with operating charges.

Respectfully submitted,

EASTERN SLOPE AIRPORT AUTHORITY
