Accomplishments

The Mayor worked closely with the Board of Water Commissioners for a New Water Filtration Plant to provide more and better quality water for the City of Berlin.

Worked with all our Congressmen and Senators in concentrated efforts to obtain federal funds.

Mayor and City Council completed plans and authorized construction of Basic Recreational Facilities at Dead River Watershed, Site No. 1.

Mayor and City Council worked as a whole to develop plans for construction of new Twelfth Street Bridge. Authorized funding for City cost-share.

Worked closely with the Zoning Board to make zoning changes to better Berlin's position for growth.

Met and worked closely with the Planning Board to attract, and expand locations, for Residential, Commercial and Industrial growth.

Worked closely and supported Mental Health Clinic, Holiday Center, Teen-Age Center, and the North Country Community Services.

Followed closely the progress of the construction of the New Berlin High School.

Followed closely the problems of the Board of Education as to increased enrollment.

Supported and financed the Dual Enrollment Program.

Operated and maintained the Municipal Airport Complex — Administration Building, etc. for both winter and summer use.

Devoted many hours in study and travel in preparation for our study on pollution, including both air and water.

Voted to join Regional Planning — Region No. 2.

Mayor and City Council completed a plan to pursue studies and to provide a staff which will lead to Certification of the City of Berlin as qualified to receive Federal Grants-In-Aid for future projects through planning of a regional nature.

BERLIN

NEW HAMPSHIRE 03570
The City That Trees Built

March 6, 1972

To the Citizens of Berlin:

I believe it is fitting and proper at this time that we all rise for a moment and pay tribute to the Berlin men and women of the Armed Services who have given their all to represent us all over the world, but also, I find myself at the same time thinking of all our good Citizens who have done so much for us here in our City.

I look at the wonderful cooperation between the City Council, Department Heads, and City employees which made the past year's progress and accomplishments come to pass.

As we progress under our new form of government - Council-Manager Concept, we find that some changes and problems will have to be faced, if we are to reap the benefits which could be available. Let us put the best interests of the City of Berlin before all else, the many challenges which face us can be overcome, I'm sure. We must put ourselves in a position of leadership as we are the only City in the northern portion of our State of New Hampshire. Foresight and good planning will determine our future for a greater Berlin.

Personally, I feel honored to have had the privilege of serving Berlin as Mayor. In conclusion, I again wish to thank all personnel involved in the function of our City Government.

Very truly yours,

Norman J. Tremaine
Norman J. Tremaine
Mayor

A GLANCE AT

WHAT'S DONE

- Adoption of an Administrative Code.
- Adoption of a Position Classification and Pay Plan for salaried employees.
- Adoption of a Purchasing Procedure Manual as a City Ordinance.
- Authorization for participation in a Regional Planning Commission, Region 2.
- Establishment of a City Employee Safety Committee.
- Dead River Recreation Facilities construction plan approval and execution of Working Agreements therefor.
- Revision of several City Ordinances.

WHAT'S PLANNED

- Completion of Construction of the new Berlin High School — (September)
- Completion of the Anderson-Nichols Company Pollution Abatement Study and Report — (June)
- Commencement of Construction of the Dead River Basic Recreation Facilities — (May)
- Design and Construction of Improvements to the Junior-Senior High School complex.
- Establishment of a City-wide Disaster Plan and the institution of a Training Seminar.
- Revision and modification of many existing City Ordinances.

WHAT'S IN THE FUTURE

- Design and Construction of Drainage Facilities.
- Design and Construction of Sewerage Treatment Facilities to eliminate water pollution.
- Design and Construction of the so-called Twelfth Street Bridge.
- Development of an Industrial Park Complex at one or more locations.
- Execution of Agreements for the Construction of In-City Channel Improvements on the Dead River.
- Opening in 1973 of Dead River Basic Recreation Facilities.

NEW HAMPSHIRE, 05570
The City That Lives Bold

BERLIN

to the Honorable Mayor, Members of the City Council, and the Citizens of the City of Berlin:

Enclosed is the second annual report in calendar form done for the community. We have retained the same general format in presenting a concise record of the happenings of the past year since many favorable comments were received from citizens who found this form of report both informative and useful.

This report is designed to touch only the highlights of our activities, present general statistics, and to generate interest in further exploration of the past year since many favorable comments were received from citizens who found this form of report both informative and useful.

During the past year all accounts were balanced, but with much difficulty due to extenuating circumstances and unforeseen changes that greatly affected certain departments. Regardless, we do have the satisfaction of having resolved some significant problems, of having made inroads upon others of major scope, but with continuing knowledge that must be undertaken in the future remain as a complicated project to the City's economic status. This becomes more of both the problem to the lack of cost-sharing by the various agencies of both the Federal and State Governments relative to schools, public improvements and the ever-present problem of pollution.

Our primary goal remains that of high-quality service to the total community provided with the least expenditure of your tax dollar. We appreciate the support of those who find a lot to be desired. I would, and, hopefully, have our citizens realize available in local government and, like to have our capable people effort toward making the ideas and function smoothly. Also, it is our hope to implement the ideas and desires of the citizens of Berlin.

With the cooperation and direction of your capable Mayor and City Council, the dedicated efforts of our employees, appointed officials, and your interest and participation in the many challenges which I look forward to working with all of you in the many challenges which our community will face in the future. In order to satisfy all -- our community work together for the general welfare of the community. everyone must work together for the general welfare of the community.

Respectfully submitted,
Joseph F. Burke
Joseph F. Burke

FINANCE DEPARTMENT

The following is the Finance Department's report for the year ended January 31, 1972.

Maintained complete accounting records of the City of Berlin General Fund, Other Funds, and the Berlin Airport Authority.

Assisted the City Manager in the preparation of budget, preparation of bids or quotations on major purchases, and issuing of purchase orders.

Completed financial surveys for State and Federal Governments.

Prepared financial reports for Mayor & City Council and City Treasurer.

Kept records and processed insurance claims for Workmen's Compensation, Group Insurance, Liability Insurance, and Medical Insurance.

Processed applications for Medical Insurance and Group Insurance and prepared monthly statement of same.

Kept records and processed centralized purchasing such as gas, oil, postage and supplies for various departments.

Additionally, the staff maintained records and published reports for the Industrial Development Committee, the Planning Board, the Electric Utility Commission, Water Pollution and Regional Planning.

Respectfully submitted,

(MRS.) ALINE BOUCHER
City Comptroller

REPORT OF CITY CLERK

This year the office of the City Clerk filed and indexed 513 Financing Statements, 140 Termination Statements, Sales and Mortgages.

Recorded 253 Births, 150 Marriages and 176 Deaths.

Issued 513 Dog Licenses.

Registered 9,342 vehicles including cars, trucks, trailers and motorcycles.

Copies of all vital statistics were forwarded to the Department of Vital Statistics, Concord, N. H. Copies of all birth certificates were prepared and mailed to the parents.

Cemetery lots were sold and deeds issued and recorded.

Orders were issued for the digging of all graves.

All Junk Yard and Taxicab licenses were issued from this office.

Monthly reports of Vital Statistics and monthly reports of labor were forwarded to Concord, New Hampshire.

The City Clerk acts as clerk of the City Council, recording minutes of each meeting, public hearings, filing and indexing all petitions, communications, agreements and reports.

The City Clerk is also agent for the New Hampshire Fish and Game Department and forwards monthly reports of all sales to the Fish and Game Department.

The following shows the listing of Marriages, Births, and Deaths as recorded during the past five years.

WELFARE DEPARTMENT

I herewith submit my report as Overseer of Public Welfare for the year ending January 31, 1972:

Based on the State of New Hampshire settlement laws, an eligible case is temporarily assisted, re-habilitated, supervised and directed to the proper agency for permanent assistance.

All citizens who appeal to this Department are counseled and referred to the Federal Program that might be of aid to them.

In doing so this Department aided the following:

- Direct Relief — 38 Families with 156 Individuals 13 Singles
- Soldier's Aid — 18 Families with 84 Individuals 6 Singles
- Transferred to County — 2 Families with 14 Ind. 5 Singles
- Board & Care Adults 1 Single
- Board & Care Children 2 Singles
- Old Age Assistance 143 Singles
- Alien O.A.A. 17 Singles
- A.P.T.D. 47 Singles

PERSONS TO OFFICE: 1991

MAURICE A. BELANGER
Overseer of Public Welfare

REPORT OF THE BERLIN DISTRICT COURT

Jean L. Blais — Justice
George H. Keough — Special Justice
Lucien A. Fortier — Clerk

The Berlin District Court consist of the City of Berlin and the Towns of Milan, Dummer, and the unincorporated places of Cambridge and Success.

Regular sessions are held at 9:00 A.M., five days a week in the District Court Room over the Police Station on Green Street.

BERLIN CIVIL DEFENSE

The Berlin Civil Defense Unit, a participant in the Federal Government's Personal & Administrative Program, has forwarded regular quarterly reports of its expenditures to the State Agency in Concord. This report for 50% reimbursement contains only the expenses for administering the program.

During the year, there have been requests and purchases made for various municipal departments through the Federal Surplus Property Program. This program is made available to all units under the Civil Defense unit. It has been possible to obtain heavy-duty equipment under this arrangement. The Surplus Property Program has provided substantial savings throughout the years for various units under Civil Defense.

The Berlin Auxiliary Police Unit, a volunteer unit under Civil Defense, held meetings and training sessions once a month. This unit is under the leadership of a regular city policeman and their office is at police headquarters on Green Street.

A Shelter Survey was made during the year by the Federal Government. There are tentative plans to hold a training-conference session relative to Emergency Operations Center procedures in the near future. This will involve all the municipal departments which are under the Civil Defense program.

As Berlin Civil Defense is a unit established to assist the citizens in a time of disaster and emergency, anyone interested can obtain information on courses of varied nature relating to the program at the office. The office hours are Mondays and Fridays from 8:30 a.m. to 12:00 noon.

ROMA E. BRISSON
Director

Statistics on work of the District Court for 1971.

Total all cases	1085
Total Criminal cases	871
Felonies	30
Misdemeanors	841

PARKS & PLAYGROUNDS DEPARTMENT

The Parks and Playgrounds Commission of the City of Berlin, New Hampshire submits this annual report of the activities of the Recreation Department.

The Parks and Playgrounds Commission meets the second Tuesday of each month.

Our nine (9) week summer playground program reached new heights in attendance and added new programs, such as, three (3) puppet shows from the University of New Hampshire and an Arts & Crafts program. The Moose Brook trips were popular as ever, with only one (1) postponed outing due to inclement weather. Our fourth annual Arts & Crafts display was again a highlight, as many people saw the wonderful and creative work done by the children on the playgrounds.

The baseball program - Little League and Babe Ruth was very interesting, with attendance just about the same.

The over all summer program did not forget the adults, as Bocce and Softball went extremely well, due to the fine cooperation of volunteer leaders.

The winter indoor activities were limited to: Basketball, Tops Club, Calisthenics, Arts & Crafts and Baton, due to lack of space. The public and parochial schools used our gym for morning and early afternoon physical fitness classes. The attendance reached an all time high in participation and spectators, as over 80,000 visits were made to the Center this past year.

The five (5) tennis courts proved very successful and the tourneys held were conducted on a high level of competition to all participants.

The ski lessons at the Family Ski Area are gaining in popularity. Night skiing on (Mondays & Wednesdays) has proven successful and both children and adults are making good use of the fine facilities.

We have one great problem of supervision on our outdoor rinks (7) as too much hockey is being played and small children are getting hurt with sticks and flying pucks. If we are ever going to control these rinks, an attendant must be at each rink to supervise.

We still get our share of vandalism on our playgrounds and athletic fields, which is uncontrollable. We have the support and help of the Police Department, as we try to keep property damage down.

In closing, the Commission wishes to express its gratitude to all the departments, organizations and volunteers leaders for their support during the past year.

GERMAINE THOMPSON

BOARD OF ELECTRIC UTILITY COMMISSIONERS

The commissioners have during the past year conducted negotiations, inspections, and a general evaluation of the Public Service Company of New Hampshire facilities located within the City of Berlin which would be suitable to a Berlin Municipal Power Authority. The commissioners have been assisted in this task by Mr. Richard Upton of Upton, Sanders and Upton, legal counsel; Mr. Frank Sahlman, Engineering Consultant; and the Tepco organization.

To date the property inspections have been completed. The negotiations and the evaluation are moving toward completion at a moderate rate. However, because of the confidential nature of our work we are unable to provide details on these matters.

We hope the Citizens of Berlin are understanding of our situation and will await further developments.

The Commission meets on every third Tuesday of the month at 7:00 P. M. in the Executive chambers of the City Council, and the public is cordially invited to attend.

Members: John Jacobs, Chairman
 BOARD OF ELECTRIC Oliva A. Morneau, Secretary
 UTILITY COMMISSIONERS Oliver R. Bell

BERLIN HOUSING AUTHORITY

The year 1971 saw the promise of quality housing for Berlin's low-income elderly become a reality when, in April, the Hillside Apartments were opened for occupancy. 1971 also witnessed completion by the Berlin Savings Bank & Trust Company of the first new building in the urban renewal area. 1971 was the year in which the Berlin Housing Authority completed the acquisition and relocation phases of the Cole Street urban renewal project, disposed of several redevelopment sites, began construction of its second public housing project, received a proposal to build 34 townhouses on two redevelopment sites along the Dead River (Parcels P-2 & P-3), and continued construction of site improvements in the urban renewal area.

It was also the year when New England Telephone & Telegraph and Public Service of New Hampshire began undergrounding their phone and power lines in the urban renewal area.

COLE STREET URBAN RENEWAL PROJECT

Land Acquisition

As of September 15, 1971, the Authority held title to all 66 parcels to be acquired in the Cole Street urban renewal area. Title to 49 of these parcels was obtained by purchase, while title to the remaining 17 was acquired through eminent domain proceedings. All told, better than four-fifths of the 57 offers made by the Authority during the 36-month period ended June 15, 1971 were accepted. Of the 57 offers made to owners, 54 covered the 66 takings involving land and buildings while three offers were for buildings only. These three offers were for structures located in that part of the urban renewal area (the upper York Street neighborhood) not designated for total clearance.

Relocation

There were five residential moves from the urban renewal area during 1971. No residential moves remain to be made. Residential moves made from the Cole Street area during the three and three-quarter year period ended December 31, 1971 totalled 147. Of these, 93 were families and 54 were individuals.

Other moves during 1971 included the Royal Crown & Orange Crush Bottling Company, Inc. (to a new plant on Jericho Road), Barney's Chevron Station (to 79 Pleasant Street), Vallee's Shoe Repair (to 150 Pleasant Street), Dumont's Inc. (to 76 Pleasant Street), B & J Lincoln-Mercury, Inc. (to 809 Third Avenue) and Leblanc's Paint & Wallpaper (to 138 Main Street). The only business discontinuing during the year was the Lessard Barber Shop.

All told, 16 of the 23 businesses and two of the three clubs in occupancy in the urban renewal area at project start in April, 1968 continued operations at new locations. All those continuing chose to do so in Berlin.

Demolition and Site Clearance Work

By year's end, nearly all buildings marked for demolition had been razed. The only redevelopment site on which demolition work remains to be finished is Parcel C-2, the 1.9-acre site along Pleasant Street. It is expected that the buildings remaining on this land will be razed in the spring of 1972.

Site Improvements

The Authority on September 14th awarded a site improvement contract to Lessard Sand & Gravel Company, Inc. of Gorham, New Hampshire. Work items completed prior to the onset of winter included the installation of water lines, storm drains, sanitary sewers and related structures. Work items to be completed in the spring include the reconstruction and widening of Mason, York and Cole Streets (Mason and York Streets are being widened to 50 feet — new Cole Street will cover a distance of some 1050 feet between Mason and Green Streets); the installation of new sidewalk and granite curbing along Green and Pleasant Streets; and the installation of 36 aluminum light poles along Pleasant, Mason, York, Cole and Green Streets and in the two parking areas (Parcels P-1 and P-3) conveyed to the City in November, 1971.

The wood utility poles now in place along these streets will be removed by the phone and power companies in 1972.

Redevelopment

On December 13th, the Berlin Savings Bank & Trust Company opened the doors of its half-million dollar banking house located at the corner of York and Pleasant Streets (Parcel C-3).

Construction of a Dairy Queen fast food unit and restaurant was begun in October on Parcel C-1 (corner of Green and Pleasant Streets). Completion of the 2800 square-foot masonry structure is scheduled for the spring of 1972.

Richards & Son, Inc. of Berlin, in March began construction of a \$663,000 apartment building complex on the two and one-half acre site northeast of Green Street (Parcel R-1) owned by the Berlin Housing Authority.

Parcels P-1 and P-3 (public parking areas) were conveyed to the City in November and will be paved, lighted and landscaped in 1972.

PUBLIC HOUSING

NH-11-1

The Hillside Apartment complex at 209-211 Church Street and 216-226 High Street started in April of 1970 was completed and opened for tenancy in April, 1971. Designed specifically for elderly occupancy, the development contains 12 efficiency and 12 three-room apartments.

NH-11-2

Construction of the 31-unit public housing development in the Cole Street urban renewal area known as the Parkside Apartments was started in March. Located northeast of Green Street, the five-building complex is expected to be ready for occupancy in April of 1972.

REPORT OF SCHOOL DEPARTMENT

PERSONNEL

The growth in the public schools and the initiation of the Dual Enrollment program plus the desire to move towards certification and accreditation have resulted in increases to personnel to work within the school systems.

For the 1971-1972 school year the positions are as follows:

Superintendent of Schools, Principal, Jr.-Sr. High School, Asst. Principal, Jr.-Sr. High, Administrative Assistant, Elementary Consultant, Guidance Director, Vocational Director, 1 School Nurse, 1 Part-time Nurse, 2 Guidance Counselors, 1 Part-time Guidance Counselor, 1 Librarian, 112 Teachers, 6 Secretaries, 2 Part-time Secretaries, 1 Attendance Officer, 1 Custodian Foreman, 1 Assistant Foreman, 8 Custodians, 1 Bus Supervisor, 2 Full-time Bus Drivers, 3 Part-time Bus Drivers, 1 Cafeteria Manager, 6 Cooks, 6 Helpers, 2 Part-time helpers, 4 Teachers, 1 Teacher Aide and 1 Secretary in the Title Program, 25 Teachers and 1 Part-time Secretary in the Dual Enrollment Program, making a total of 197 people, 187 Full-time and 10 Part-time.

SCHOOL BOARD

The regular meeting date of the Board of Education is the first Tuesday of each month.

Robert Morin, Chairman - 49 Whittemore Avenue
 Wallace Anctil, Secretary - RFD No. 1, Jericho Road
 John Vezina - 433 Forbush Avenue

ENROLLMENT

The present school population is as follows:

Kdgn	1	2	3	4	5	6	7
192	129	142	137	127	148	148	206

	1090	1085	1081	980	941
	1978	1979	1980	1981	
Grade 10	289	303	273	269	
Grade 11	303	273	269	292	
Grade 12	273	269	292	263	
	865	845	834	824	

SCHOOL BUDGETS

The budget represents in dollars and cents what the education plan of the Board of Education is. Priority in dollars must always be given to the instruction section of the budget. This involves teaching personnel, and the books, equipment, and supplies necessary to carry on the instructional program. A look at two budget breakdowns will illustrate where the emphasis is:

	1971-1972	1972-1973 (Present)
(86% Used for Salaries, Soc. Sec. and Retirement)	(86.2% Used for Salaries, Soc. Sec. and Retirement)	
Administration	2.2%	2.6%
Instruction	76.4	77.1
Attendance & Health	.7	1.2
Pupil Transportation	1.9	1.7
Operation of Plant	7.3	7.9
Maintenance of Plant	1.2	1.9
Fixed Charges	3.7	4.0
Auxiliary Activities	6.6	3.0
Capital Account		.6
	100.0%	100.0%

TRANSPORTATION

The transportation demands this year have been greater than ever. Extra mileage is used because of the double session schedule at the Junior-Senior High School and the rezoned parochial school attendance areas. The busses transport 1,126 students per day and travel 402 miles each day.

SCHOOL CALENDAR 1972-1973

The School calendar adopted by the Board of Education for the next school year takes into consideration the new legal holidays. Significant dates on this calendar are as follows:

	Snow Days
September 5	District Meeting Feb. 19-20
September 6	Schools open Feb. 19-23
October 13	NHEA Convention April 23-24
October 23	Veterans' Day April 23-27
November 7	Election Day May 28
November 23-24	Thanksgiving Recess June 15
Dec. 25-Jan. 2	Christmas Vacation

NO SCHOOL DAYS

The procedure for announcing no-school days remains unchanged and is here listed. When the weather is bad and school is in attendance parents are urged to use their own judgement concerning sending their children to school. The local radio stations will be used for important school notices.

REPORT OF PUBLIC WORKS DEPARTMENT

I wish to thank the Mayor, Council, City Manager, and various Department Heads for their cooperation during the past year making my problem that much easier to cope with.

Street Resurfacing

Several streets or parts of streets in the city were oil sealed, covered with stone chips, and rolled on contract with Bell & Flynn of Exeter N. H. They are as follows:

Success Road	18,133 sq. yds.	Shepard Street	2,533 sq. yds.
Maine Ave.	3,200 "	Russian Street	1,000 "
Bermico Street	1,667 "	Sixth Ave.	5,256 "
Wood Street	1,351 "	First Ave.	2,833 "
Bemis Street	1,707 "	Jolbert Street	1,472 "
Rheims Street	3,389 "	Fourth Ave.	3,111 "
Verdun Street	4,306 "	Second Ave.	2,320 "
Argonne Street	1,707 "	Hillside Ave.	1,267 "
Franklin Street	1,173 "	High Street	1,858 "
Lancaster Street	4,324 "	Cedar Street	1,947 "
Beaudoin Street	1,133 "	Arthur Street	889 "
Kent Street	1,467 "	First Ave.	1,113 "
Coolidge Street	933 "	Third Street	1,100 "

Total 71,189 Sq. Yds.

Other streets or parts of streets were hot asphalt graded and sealed on contract with L.M. Pike and done in conjunction with city forces. They are as follows:

Glen Ave.	Church Street	Sweden Street	Rouveau Street
Milan Rd. (To Cates Hill)	Maynesboro Street	Success Road	Howland Street
Twitchell Lane	First Avenue	Mink Street	Stratford Street
Trudel Street	Denmark Street	Maple Street	Smyth Street
Kent Street	Providence Ave.	Sherry Street	Summer Street
Goebel Street	Burgess Street	Mt. Forist Street	Marble Street
Devens Street	Noyes Street	Holt Street	Walsh Street
Elm Street	School Street	Third Ave.	Twelve B. Street
Pine Island Ave.	Dustin Street	Coolidge Street	Lancaster Street
Noury Street	Norway Street	Washington Street	Highland Park Ave.

Sidewalk Capping and Curbing

Several of our deteriorated sidewalks were repaired and some recurbed and recapped during the past year. Parts or sections of streets are listed below:

Jasper Street	Marble Street	Howland Street	High Street
Sullivan Street	Western Avenue	Mt. Forist Street	Clark Street
Burgess Street	Glen Avenue	East Mason	Hillside Avenue
Hillsboro Street	Champlain Street	Kent Street	Washington Street
Shepard Street	Wight Street	Wescott Street	Success Street
Second Street	School Street	Bridge Street	Main Street
Madison Avenue	Stratford Street	Second Avenue	Green Street

Sewer Construction

New sewers installed on Wescott St., Walsh St., and repairs to smaller sections throughout the city were made.

Cemeteries

The usual cemetery maintenance work was carried out this summer with at least one man assigned to the cemetery at all times.

Traffic Signs

Traffic signs and traffic lines were maintained, painted, and new signs installed as needed.

Airport

The airport was maintained all year with summer maintenance by Public Works Department and winter plowing being left to C. A. Onofrio of Milan.

Equipment

Equipment was purchased this year such as a bulldozer Int. D-20, Austin Western grader pacer 300, two new dump trucks and salt body, one new plow & wing, one pickup truck and one street line painting machine.

City Garage

Crew was kept very busy this year maintaining city equipment of all kinds including equipment from many of the other city departments. New roof installed on paint shop and carpenter shop.

Clean Up Weeks

We carried out Spring & Fall clean up week this year and over 470 loads of trash was carried to the dumping areas and disposed of by city forces.

Urban Renewal Area

The Moxie Alley or Dead River drainage area through urban renewal and under Main & Pleasant is being proposed for coverage and channel improvement this coming year, if released from property owners' can be obtained by early months of this coming year.

Street Walls

Retaining walls were built this year one on Western Ave. and one on Hillsboro St. and new curb & wall installed on Main St. from R. R. crossing to Cambridge St.

Bridges

East Mason St. parapets & railing were sand blasted and painted.

Jericho Lake

Debris was removed from front edge of dam and spillway and repairs made to lower side of dam where spring rains had damaged same.

Garbage Removal

Garbage removal was carried out on regular schedule and a new sanitary landfill site obtained from Brown Company. This landfill will be put in operation as soon as present site is filled.

Public Buildings

Several repairs & improvements were made this year to King School, City Hall, and Public Library with Public Works personnel.

REPORT OF INDUSTRIAL DEVELOPMENT

Outside of continued progress on the TEPCO developments, this year has been one of the most discouraging in the history of the Industrial Development Committee because so few prospects have indicated interest in this area.

In this time of recession, Brown Company, Converse Rubber Company, EMCA and others have remained stable but tremendous pressures are mounting from conservation and ecology interests to generate crash pollution clean-up programs which must not be permitted to affect the economic stability of Brown Company.

The State of New Hampshire has two Industrial Agents working full-time, contacting and trying to develop prospects for this specific reason. Mr. Val Doucette, our local representative, made many contacts but because of the current recession, tightening of the economy and corporate reluctance to expand new business, no prospects developed interest to the point of visiting the City of Berlin.

On the economic side, we had some disappointing set-backs and delays and finally, non-acceptance of the East-West Highway.

We did work with a number of developers who are interested in building homes under FHA government loans. No developments have taken place on this yet but there is active interest in housing for the middle-income group.

The TEPCO project for the Berlin area plans to get under way by late spring of this year. TEPCO New Hampshire has become International Generation and Transmission Co., Inc. (IG & T) which will be the corporation under which the West Milan 1,000 MW generating station will be financed and operated. TEPCO Maine and MONENCO, the holding company of Montreal Engineering Company, Limited, together with the principal stockholders, will be participants in International Generation and Transmission Co., Inc. The IG & T project reports on the "West Milan Thermal-Generation Project" is due later in March and power contract negotiations and project financing is proceeding on schedule.

IG & T engineers are prepared to obtain all required permits. They have met to date with the N. H. Air Pollution Control Agency and the Federal Environmental Protection Agency on Water Pollution. They are ready to present technical material required for permits to all State Agencies as soon as commitments for meetings are obtained from Concord.

The \$220 million West Milan project will provide needed jobs and a payroll of over one million dollars a month for more than three years. It is the forerunner of industrial development planned for the Berlin area.

With the Milan project under way, TEPCO is committed to the nuclear power and aluminum development which will assure industrial stability and future progress for our area.

In a cooperative effort to bolster the rapidly declining economy of the North Country, we expect the continued support of the City of Berlin and the Town of Milan, as well as the cooperation of the adjoining towns in our area and special assistance as needed from Concord.

The Committee and Sub-Committees during the year made two significant recommendations to the Council which are under advisement. Our recommendation is to purchase the Brown Farm outright for future industrial planning; the second is for the City to finance industrial buildings which could be built quickly for any suitable prospects.

The Rocket Snowmobiles Inc. commenced operations without assistance of this Committee but with our wishes of success. This firm is listed as a potential employer of ten employees.

The Industrial Development Committee's twelfth year of organization ending January 21, 1972, was funded with the amount of \$3,400 for industrial development work. Expenses for the year have been \$839.70. The balance not used of \$2,560.30 is being returned to the City.

It should be noted here that during the course of the year, the Chairman has been able to make use of the TEPCO office, secretary and telephone to assist in doing all phases of his work on this project.

With the assistance and cooperation of all City officials and agencies involved, we can look forward to the initial results of our past hard work and planning this year and to future industrial progress.

ROBERT R. THERIAULT, Chairman
Berlin Industrial Development Committee

REPORT OF BERLIN WATER WORKS

COMMISSIONER'S REPORT

December 31, 1971

To His Honor the Mayor and City Council
City of Berlin, New Hampshire
Gentlemen:

The Berlin Water Commission, for the past several years, has been making a study of the increasing demands for water. Per capita requirements are now 171 gallons and increasing steadily every year. Peak demands reach four million gallons per day and average is three million gallons per day.

The Water Commission is aware of the tremendous emphasis placed on pollution control and along with its industries, cannot escape the impending pressure that will be forthcoming to initiate additional supply before long.

The present water system comprises a total watershed area of twenty-eight square miles in the townships of Success and the Ammonoosuc River area and an auxiliary ground water supply near the Androscoggin River opposite the White Mountain Mill area. All of these combined water supplies have not proven adequate for peak demands. In fact, we have had to abandon the pumping of water from the well due to the iron content and in order to make this usable a purification and filtration plant would be required.

The engineering firm of Dufresne-Henry were hired as water consultants to make a study of the water system and render a report. Recommendations are that the topography of the mountains and valleys surrounding the present watershed areas of the Berlin water supply are such that the development of an adequate surface supply to meet the long-range requirements of the City would not be a satisfactory solution to the problem.

Following receipt of this report the chairman of the Board and Superintendent Tankard met with the executives of the New Hampshire Water Supply and Pollution Commission in Concord. They were somewhat familiar with our problem here in Berlin and suggested strongly that we construct a filtration and purification plant upriver from our present well site and pump water from the Androscoggin River. This type of plant would assure the most pure type of domestic water supply in the state of New Hampshire.

The proposed plant in its initial construction would have a capacity of two million gallons per day and its design will incorporate provisions for expansion as the city demand increases.

The New Hampshire Water Supply and Pollution Commission further recommended that we phase out all surface water from the so-called Success watershed as they deem it unsafe and it cannot meet the standards required by this department.

The board has had many meetings relative to the problems involved in such an undertaking and felt duty bound to explore all avenues of state and Federal assistance if such were available.

The Housing Urban Development (HUD) denied our request for consideration stating that we did not qualify under their regulations. Our next move was to contact the office of the Economic Development Administration (EDA) and after a number of meetings with representatives of the organization over a period of several months, our findings are very encouraging. Our most recent meeting revealed that we may qualify for possibly fifty percent (50%) of the cost of the overall installation including pipe lines, the sum total of which we believe to be in excess of one million dollars.

Respectfully submitted,

Norman J. Tremaine,
Mayor - Member Ex-Officio
Robert Gagliuso, Commissioner
Edward Murphy, Commissioner

SUPERINTENDENT'S REPORT

Board of Water Commissioners

December 31, 1971

Water commission this year decreased from 189 gallons per capita last year to 171 this year. We attribute this to a methodical inspection of house and hydrant services with the help of a leak locator. This is an effective device which operates on the basis of noise

BERLIN WATER WORKS REPORT (Cont.)

made by water escaping through a leak. Total water consumption for the year was 1,108,861,000 gallons or 3,036,650 gallons per day, a reduction of 170 million gallons less than in 1970. For purification of water 14,129 pounds of chlorine and 6,912 pounds of fluoride was used. Rainfall this year in the Ammonoosuc area was 42.54 inches, 5 inches more than in 1970 which is normal.

FINANCIAL

Gross income increased this year \$2,230,72, making a total water revenue of \$198,629.82; \$310.00 of this amount was received from twenty new houses and the balance from a house to house survey to check additional water fixtures. Twenty new services were installed and twenty three old water services were replaced with new pipes. Nine hundred sixty (960) feet of 8 and 6-inch water mains were laid. Two new fire hydrants were installed and four were changed.

Expenditures this year exceeded the income by \$10,306.07. The proposed budget amounted to \$168,200.00. Actual budget expenditures were \$165,649.63. Payments of \$25,000.00 on construction bonds and \$6,100.00 in interest were made which exceeded the budget on water sales by \$1,058.43 leaving no funds for any improvements. Improvements in water mains and service extensions were taken from surplus and amounted to \$12,306.07.

Inflation is continually driving us further into overdrafts. Increases in wages and salaries for the year amounted to \$6,000.00 in addition to 5 percent of increased cost of materials. The piping consisted of 12 and 8 inch cast iron water pipes and three fire hydrants for fire protection. It is most gratifying that all materials and labor were furnished at no expense to the department.

In the installations both the so called Cole Street Development and the former O. B. Brown Property on High Street, the water pipes and sewer lines were installed in separate trenches because of a new state regulation which applies to all new future installations.

AMMONOOSUC WATER SUPPLY

The main source of water at the present time is acquired from 12,000 acres of watershed on U. S. Government lands. From this area two thirds of the City supply is derived. Approximately two million gallons of water per day are taken, run through pressure filters which are composed of various sizes of coarse and fine anthracite coal called anthrafil, then treated with chlorine and fluoride under direct specifications of the Water Supply and Pollution Control Commission and is then turned into the City water mains for public consumption.

We are certainly fortunate in being able to obtain the bulk of our water supply from these lands. In addition to obtaining water free we have added protection. Over two million acres of land in this Northeast are under control of the U. S. Forest Service, much of which is in the wooded areas where recreation pressures are heavy. Seven hundred and fifty Water Departments in the Northeast obtain water from these government lands. Our source is several miles from any inhabitation and all under direct control and management of the U. S. Forestry Agency.

The watershed and surrounding government owned lands is one of the best hunting and fishing areas in the Northeast and is therefore in great demand for recreational purposes. Also, the lands are patrolled daily under strict government supervision and no fires or overnight camping is permitted, therefore limiting contamination to a minimum.

For many years, logging operations have been carried on upon the watershed using the "selective type" of cutting which consists of cutting trees only within certain areas where the trees are twelve inches or larger at the stump, and no sales or contracts are made without consulting our department to determine that there will be no contamination to our water supply. The U. S. Forestry Service has been most cooperative with our department since we consummated an agreement in 1947.

Modern forest watershed management research has produced information on water yield which indicates that removal of all trees on well-stocked forested watersheds in the East will not only produce a faster growing crop of new timber, but will increase annual water yield by four to sixteen inches.

For the past several years timber cutting on our watershed has been carried on in this fashion. Increased water yield is in evidence by stream flow measurements recorded at our Godfrey Reservoir.

SUCCESS WATER SUPPLY

Surface water supplies with only simple chlorination are being sharply criticized at the present time by the New Hampshire Water Supply and Pollution Control Commission, and abandonment of the sources are strongly urged.

Accessibility to our five Success Area reservoirs is easily possible by the modern motor bike, four wheel drive car or skimobile. All areas are posted, but swimming, boating, camp fires and littering is fast getting beyond our control. This present water system, with additions from time to time, has been used for eighty-two years, beginning when the population was small and the public had no immediate use for the lands. In addition, cost of maintenance is becoming a big item. The overall immediate future points to heavy expenditures with no guaranty of modern purity standards adopted by the U. S. Public Health for bacteriological, physical, chemical, biological or pestiferous quality if this area is to continue to remain open to the public.

One third of the City supply is taken from this source and an immediate expenditure of some \$100,000.00 will be imperative to replace wooden pipe lines laid in 1912, 1920 and 1927 in addition to maintenance work on five reservoirs. Upon completion, we will still be faced with the same unsafe quality of water and expensive policing duties. In my opinion the Success Water Supply has outlived its safe usefulness to the City and I recommend that the entire system of five separate reservoirs be abandoned and all our energies be exerted towards the construction of a modern water supply monitored by a complete filtration and water treatment plant.

VANDALISM

The willful damage to our entire water system is a real problem. Public water supply signs are impossible to maintain, locks on reservoir gates are shot off and gates are damaged. Windows are broken in pump stations and main gate valves are tampered with.

In 1972 our personnel will be deputized and anyone found guilty of vandalism on the Water Works property will be duly prosecuted to the fullest extent of the law.

In conclusion, I wish to say that the entire income from sale of water this year was expended on departmental operations. Capital improvements to water mains and new services were taken from surplus.

I would like to call your attention to the fact that paper value of water donated free to the municipality and private institutions amounted to \$26,080.31. Also, actual cost to install new fire hydrants and the maintenance of existing hydrants cost the department from income of water sales an additional sum of \$9,604.55, making a total donation of \$35,680.31. Based on present water rates, this reduces the annual income by 18 percent.

A water department operation is an extremely important one and can only progress with the full cooperation of all persons involved. I wish to take this opportunity to thank all City departments together with the efficient members of my department for their fine cooperation throughout the year.

ERNEST TANKARD

BERLIN PLANNING BOARD

The Planning Board is charged with the responsibility of planning land use to promote orderly growth in the City of Berlin. It recommends ordinances regarding land use and zoning to the City Council. Public hearings are held prior to recommendations. The Board is also responsible for administering the City's Subdivision Regulations. During the past year the Board held one public hearing on zoning changes and one public hearing on the establishment of a subdivision.

ACCOUNTANTS' OPINION

The Honorable Norman Tremaine, Mayor
 Members of the City Council
 City of Berlin, New Hampshire

We have examined the balance sheets of the various funds of the City of Berlin, New Hampshire as at January 31, 1972 and the related statements of operations and changes in fund balances for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the various funds of the City of Berlin, New Hampshire at January 31, 1972 and the results of their operations and changes in fund balances for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.
