# VALEDICTORY ADDRESS

OF

HON. FRED C. SMALLEY.

---

(Delivered January 7, 1920.)

---

GENTLEMEN OF THE CITY COUNCILS:

As I am about to retire from the position of Mayor, it seems proper and fitting that I should submit a statement showing the financial condition of the city at the present time, and also refer briefly to some of the more important matters pertaining to the city during the past year.

## FINANCIAL SUMMARY.

### INDEBTEDNESS.

Missing bonds, interest ceased . . . . .	\$10,000.00
Bridge bonds, 4% . . . . .	45,000.00
High school bonds, 3½% . . . . .	47,000.00
City hall bonds, 3½% . . . . .	75,000.00
Highway note, 4½% . . . . .	30,000.00
	<hr/>
	\$207,000.00
Water works notes, 3½% . . . . .	\$130,000.00
Cash in treasury, January 1, 1919 . . . . .	\$77,665.25
Cash in treasury, January 1, 1920 . . . . .	50,348.24
	<hr/>
A reduction of . . . . .	\$27,317.01
Outstanding taxes at the close of the year	\$4,896.61

The smallest sum outstanding at the close of the fiscal year since the incorporation of the city, which speaks well for the officials in this department.

Municipal borrowing capacity ..... \$235,637.96

During the year we have provided the sum of \$76,500.00 for permanent highway construction. Of this sum \$14,500.00 was raised by direct taxation, \$30,000.00 was secured on a serial loan, and \$32,000.00 was appropriated from the treasury. Additional appropriations from the treasury were also made during the year for the following purposes: Gratuity to Dover Post, No. 8, American Legion, \$500.00; official reception to Dover's sons and daughters who served in the late war, \$2,000.00; (of this sum \$555.79 was subsequently returned); \$4,000.00 to meet overdrafts in the school department, and \$2,500.00 for the purpose of partly meeting the expense incident to the invasion of termites at the Wentworth hospital.

According to information obtained from the office of Street Commissioner December 31, 1919, the extra \$32,000.00 above referred to given to this department, is accounted for as follows:

The amount paid for State highway construction in excess of the amount called for by the State and appropriated for that purpose, was approximately \$15,000.00. (Over this appropriation the State has entire control). Over-draft for the Central avenue contract on account of some extensions making a larger area covered than was originally planned for, \$5,000.00. The remaining \$12,000.00 can only be accounted for as an overdraft on the appropriation for the regular street department.

It will be seen that these extra appropriations made during the year, amounting approximately to \$40,000.00, exceeds the reduction in the cash reserve by nearly \$13,000.00.

Referring to the overdraft in the street department I do not wish to offer unjust criticism, as the increasing cost of supplies, etc., during the past year, has made it difficult to keep within the specified appropriations, and I do not charge that this amount has not been honestly expended, but from my observation I cannot commend the manner in which the accounts are kept in this department. In the future not only should a system be employed that would keep entirely separate the accounts of the city appropriations and those for the State highway, but it should be carried out with sufficient promptitude to enable the department to know at all times its own financial condition, and govern itself accordingly.

Referring briefly to the water department: A new pump has been installed during the year at an expense of \$781.00. Under its operation the expense for electric power has been reduced about one-half, or approximately \$40.00 per month. An apparatus for cleansing the sand at the filter bed has also been constructed at a material saving for the department. One thousand pine trees have been set out on land near Willand's pond, and I hope this work will be continued each year until all the waste land owned by the city in that section will be covered with growing pines. With no increase in water rates this department has paid \$13,000.00 on its debt during 1919, which is a creditable showing considering the present cost of labor and material.

It is a matter of regret that the committee, of which I was chairman, who had charge of the construction of the swimming pool at Bellamy river, could not have completed the work during the year, as planned, but the exceedingly wet weather throughout the late summer and autumn, and the scarcity of help, caused the committee to abandon the work for this year. How-

ever, a good start has been made and the work can be quickly completed during the coming spring.

Early in the year our esteemed fellow-citizen, Mr. E. W. Rollins, presented to the City of Dover, Liberty bonds and other securities which, with their accumulated dividends, at the present time amount to approximately \$35,000.00. This gift was for the purpose of erecting a Nurses' home adjacent to the Wentworth hospital as a memorial to the late Gladys A. Rollins.

A few days ago Mr. Rollins appeared before the board of hospital trustees and signified his intention of increasing this gift in the near future to \$55,000.00.

Mr. Rollins' generosity in making this gift is highly appreciated by the officials of the Wentworth hospital, and they, as well as all Dover people, will be deeply grateful that through his kind regard for his home city, this long felt want at the Wentworth hospital is to be realized. The construction of the "Home" will be started in the early spring.

I do not consider it necessary to refer in further detail to the different departments, as what has been accomplished during my term of office is a matter of record.

In conclusion, I wish to express my sincere appreciation of the loyal spirit of co-operation that has been manifested by public officials generally with whom I have been associated. Especially have the members of the Councils appeared to vie with each other during the past year in extending to me every courtesy and their most loyal support. The public press have also been uniformly fair and courteous in their discussion of my administration of public affairs.

That I have been privileged to receive such loyal support from my fellow-officials and citizens during my two terms of office as mayor, two years replete with unusual conditions and perplexing problems, is to me

the most pleasant feature of my administration, and I hope that our co-operative efforts have redounded to some extent at least, to the benefit of our beloved city.

I take pleasure in closing in extending to the incoming Mayor and Councils my best wishes for a successful and prosperous administration.

INAUGURAL ADDRESS  
OF  
HON. ALVAH T. RAMSDELL.

(Delivered January 7, 1920.)

---

GENTLEMEN OF THE CITY COUNCILS:

We have met today to inaugurate a new City Government and assume charge of public affairs for the coming year. We have been entrusted by our fellow citizens with the administration of prudential interests and the safeguarding of public revenues.

We have been sworn to discharge the duties incumbent upon us to the best of our respective abilities, and in entering upon the performance of those duties let us do so with a determination to bring to bear upon our work our best judgment, our conscientious and constant care, holding ourselves ready at all times to devote our time and energy to their proper execution,—for only in so doing may we reasonably expect the approval of our people.

That our official actions shall pass without criticism is a condition hardly to be expected.

We may differ in our opinions, but I trust we shall find common ground for united action.

It therefore becomes our duty to consider all matters unfettered by bias, by personal interest or prejudice, to investigate candidly and decide impartially, having in view, at all times, the prosperity and progress of the city whose interests we are sworn to serve.

His Honor, Mayor Smalley, whom I have the honor to succeed in office, has given you a detailed account of the financial affairs of the city and the condition of the several city departments. It seems unnecessary for me to take up your time in a general discussion of these subjects, hence I will confine myself to a brief reference to a few of the more important sub-divisions.

#### FINANCES.

A sound and economical financial policy is demanded of us, sound, in that appropriations shall be made for those objects only which the welfare of the people demand; economical, in that all appropriations shall be kept down to the lowest point consistent with the proper attainment of those objects. This should be our constant aim, and I need not remind you that the world war has made the fulfillment of these conditions unusually difficult of accomplishment.

#### SCHOOLS.

Well may we point with pride to the superior facilities afforded for education in our city. The liberal policy pursued in the past has been fruitful of good results and no backward step should be taken. The report of the school committee will be laid before you, showing, in detail, the condition of this most important department. The action necessary to be taken will suggest itself to you when the financial interests of this department are before you for determination.

#### FIRE DEPARTMENT.

Our city has been fortunate during the past year in having no great destruction of property by fire. This speaks well for the efficiency of the department. With our splendid fire service and a proper keeping up of the present companies, we may confidently expect as good a record for the coming year.

We must depend, in large measure, upon our hydrant service for effective fire control, but there are certain sections within our corporate limits where this service is not available. It is therefore necessary to keep sufficient apparatus for the protection of these sections ready for use at all times.

#### PLUMBING ORDINANCE.

In the performance of my professional duties my attention has frequently been called to the menace confronting us as a community, by reason of the absence of proper sanitary laws. We have no local laws regulating the plumbing of our homes, school buildings, offices and public meeting places. It is a matter of the first importance for the protection of the community against contagious diseases. Many of the cities in our state have such a law; it is almost a universal provision in the cities throughout the country.

That my position on this important matter may be clearly understood, I wish to state that I do not favor a law that will compel property owners to change construction already installed. It would be a great improvement, however, if all new, and such old construction as may require rebuilding, should conform to the provisions of proper plumbing regulations. A law of this character would add nothing to the expense of construction, but it would prove a safeguard for our homes and loved ones.

#### CONCLUSION.

In closing, Gentlemen, let us remember that we are the servants of the people, for a brief time charged with the management of the affairs of the public and the expenditure of its money. As such servants we should be ready at all times, without fear of unjust criticism, to invite to our every act the closest scrutiny.

Prompt and constant attendance upon our meetings is of great importance. You, Gentlemen, who have had previous experience in the City Government, realize this fact; those of you who have just entered public service will, I believe, readily understand and appreciate its significance.

In discharging the duties of my office I rely, Gentlemen, upon your cordial aid and co-operation, and in return I pledge myself to support you in every effort having for its aim the rational development of civic interests.

It has been said that some men are fruitful in promises, but barren in fulfillment. It is not necessary that we should, at the beginning of the year, indicate what we purpose to accomplish; it is better that we be judged by what we do, trusting that when the year shall have drawn to a close we may have the satisfaction of knowing that our efforts have been attested with the seal of public commendation.

With the best interests of our city always at heart, seeking in all our deliberations the aid of Him from whom cometh every good and perfect gift, let us each perform his duty fearlessly and conscientiously.

# ANNUAL REPORT

OF THE

## Joint Standing Committee on Finance.

---

DOVER, N. H., December 31, 1919.

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The undersigned, Joint Standing Committee on Finance of the City of Dover, have examined the books and accounts of the City Treasurer, Charles H. Foss, and compared the footings of the receipts and disbursements with the accounts kept by the City Clerk, and find the same in agreement.

We have carefully examined and verified all bonds, securities, and trust fund accounts belonging to the city, and are satisfied that all funds and other property for which the City Treasurer is officially responsible are accounted for, leaving a balance in cash and in banks to the credit of the city, of \$56,271.95.

A complete list of the bonds and securities above referred to is hereto appended.

Respectfully submitted,

*An Act to establish a Board of Park Commissioners for the City of Dover.*

---

Section 1. A board of park commissioners for the city of Dover is hereby established as follows: Upon the passage of this act the board of mayor and aldermen of said city shall elect three citizens of said city to be members of said board, the first of whom shall serve six years, the second, four years and the third, two years from March 1, 1919; and thereafter in the month of February, biennially, beginning in February, 1921, said board of mayor and aldermen of said city, shall elect one citizen of said city to be a member of said board of park commissioners, to hold the office during the term of six years from the first day of March following, and until his successor is elected and qualified, unless sooner removed. If a vacancy occurs, the board of mayor and aldermen may fill the vacancy for the unexpired term, and may remove any member of said board of park commissioners so elected, at any time, for cause, or when the public good may require; provided, however, that no member of said board shall be removed except on the affirmative vote of two-thirds of all the members of said board of mayor and aldermen, voting by yea and nay. The members of said board of park commissioners shall be elected only from nominees duly submitted by the mayor of said city of Dover. At no time shall more than two of said board of park commissioners so elected by the board of mayor and aldermen be members of the same political party. The mayor and the president of the common council shall be, ex-officio, members of said board of park commissioners, with all the rights and privileges of their associates on said board.

Sect. 2. In the month of March, annually, said board shall organize by the choice of one of its members as chairman, and shall also choose a clerk, who may be one of said commissioners. Said board of park commissioners shall have full charge, management and control of the public parks, and commons, in said city of Dover, and shall have the expenditure of all appropriations which the city councils of said city shall from year to year vote for such purposes; and all bills for expenditures from the appropriations voted from year to year by the city councils for such purposes, shall be approved by said board before the same are paid by the city treasurer.

Sect. 3. Said board of park commissioners shall upon entering upon the duties of their office appoint such officers and agents to carry out the provisions of this act as they shall deem expedient; and fix their compensation; they may remove any of said officers and agents at pleasure, and make such rules and regulations for their own government, and for the conduct of all officers and agents as they shall deem expedient.

Sect. 4. Said board of park commissioners shall, annually, in the month of January, send to the joint standing committee on finance of the city councils, an estimate of the appropriations required for the maintenance of public parks and commons for the ensuing year, and in no case shall the expenditures for any given year exceed the available resources of the department represented by the appropriations specifically provided by the city councils and the available income. And they shall make a detailed report to the city councils of the doings of said board for the year ending December thirty-first of each year.

All acts and parts of acts inconsistent with this act are hereby repealed.

Approved March 28, 1919.

Owing to the steady increase in the cost of all the necessities of life, and the extraordinary calls upon this department for assistance as a result of the epidemic of influenza a year ago, it has been necessary to exceed

the appropriation made early in the year. With conditions much the same now as a year ago, it will be difficult to form an estimate as to the amount of money necessary to conduct this department for the ensuing year.

Many thanks are due the Red Cross, and other charitable societies for their valuable assistance, without which many unfortunate indigents would have suffered. I would at this time, on behalf of the city as well as personally, thank the efficient agents of these organizations for their kindly words of advice and counsel, and for the material help rendered so willingly.

Respectfully submitted,

SIDNEY E. TAYLOR,

Overseer of the Poor.

# ANNUAL REPORT

OF

## The Board of Police Commissioners.

---

HIS HONOR THE MAYOR, AND GENTLEMEN OF THE CITY COUNCILS:

We have the honor to submit the following report of the business of the Dover Police Department for the year 1919.

Governor Bartlett and his Council appointed Ex-Mayor Fred N. Beckwith for the last three year term, beginning September 7th, 1919. The organization of the commission is as follows: Fred N. Beckwith, chairman, Albert W. Winn, clerk, Walter Delany.

The department has been very active during the year in ferreting out illegal liquor sales and maintaining order; for detailed information would respectfully refer you to the city marshal's report which is hereto appended.

We deeply regret the death of Commissioner D'Orville L. Pinkham, which occurred in July last, and feel that the city lost an efficient and conscientious official and a most worthy citizen.

During the year we have been confronted with the demands of the officers for an increase in salary to offset the continually increasing cost of living. Realizing that their request was just, and that they might be enabled to meet these conditions, at our meeting September 10th we granted their request, and the following schedule became effective October 1st, 1919: Marshal, \$1,750.00; assistant marshal, \$1,550.00; captain,

\$1,500.00; patrolmen, \$4.00 per day, ten days vacation with pay, and one day off duty each month from October 1st, to May 31st.

We have been able, by practicing the strictest economy, to pay this added expense out of our appropriation and the earnings of the department.

The department lost a valuable officer in Captain Daniel Murray, who tendered his resignation to become effective October 1st. Charles C. Crowley, who was granted leave of absence when he "Joined the Colors," returned to duty in October and assumed the duties of assistant marshal.

The personnel of the department is as follows: Marshal, Thomas W. Wilkinson; Assistant Marshal, Charles C. Crowley; Captain, William D. Lothrop; and nine patrolmen.

During the past year, through the efforts of this department, the city has been saved \$217.25 in rebates on lights reported out.

#### FINANCES.

Appropriation .....	\$ 16,200 00
Income .....	1,932 12
	<hr/>
Total .....	\$ 18,132 12
Expended .....	18,097 03
	<hr/>
Balance .....	\$ 35 09

Our relations with Justice William F. Nason and Clerk Patrick W. Murphy of the Municipal Court, and with City Solicitor Everett J. Galloway, have been of the very pleasantest nature, and there has been co-operation in every instance.

His Honor, Mayor Smalley, the members of the City Council, and City Clerk Quimby have at all times been willing to lend their support, as have all other heads of departments of the city, and our thanks are due them all.

Respectfully submitted,

FRED N. BECKWITH,  
ALBERT H. WINN,  
WALTER DELANY.

## PRECAUTIONS.

Allow no accumulation of rubbish under counter or in closets.

Keep all goods, boxes, bags, paper, etc., away from heat and smoke pipes, electric wires and gas jets.

Have all electrical wiring done by competent persons and have wiring looked over occasionally.

Use no flimsy decorations around gas or electric lights.

Be particularly careful with oily waste, rags, mops, etc. Always burn them at once or keep in a tightly covered metal receptacle.

Keep no rubbish, excelsior, paper or other inflammable litter in the basement or under stairs.

Keep merchandise neatly piled up.

Allow reasonable passageway for the firemen.

See that smoke pipes and heat pipes, chimneys and furnaces are in good condition.

Keep no inflammable fluids except in fire proof rooms.

Have no gas meter under or near a stairway.

Wire lath and cement plaster the ceilings of the basement.

Place hand extinguishers at convenient points.

Remove all wooden closets and bins that may become receptacles for waste or rubbish.

Allow no smoking in cellar, basement or storeroom.

Your attention is called to the fact a large percentage of fires start in basements and cellars.

These fires are largely caused and made more dangerous by disorderly conditions, that is the accumulation of paper, excelsior, packing boxes, barrels and general rubbish.

**ANNUAL REPORT**  
 OF THE  
**STREET COMMISSIONER.**

---

TO THE CITY COUNCILS OF THE CITY OF DOVER:

GENTLEMEN:—To supplement the quarterly reports made during the year 1919, I have the honor to submit the following summary:

Balance from 1918 .....	\$ 4,254 26
Appropriation .....	39,700 00
Appropriation .....	12,500 00
Appropriation .....	14,500 00
Appropriation .....	5,000 00
Central avenue loan.....	30,000 00
Reimbursements.....	21,104 76
	\$ 127,059 02
Expended during the year 1919.....	126,864 83
	\$ 194 19
Balance December 31, 1919.....	\$ 194 19

As an itemized list of receipts and expenditures were contained in the quarterly reports, a condensed list of receipts and expenditures is annexed and made a part of this report.

There has been expended \$1,976.77 repairing bridges during the year 1919 as follows:

Lower Washington street bridge, (iron)...	\$ 143 63
Fourth street bridge, (wood) .....	400 26
Watson bridge at Waldron's falls, (iron) ..	751 13
Blackwater bridge, (wood) .....	659 99
Fresh Creek bridge, (wood) .....	21 76

Whitcher's falls bridge, (iron) . . . . .  
 Central avenue bridge, (iron) . . . . .  
 Washington street bridge, (iron) . . . . .

---

\$ 1,976 77

During the coming year the iron bridges must be given a coat of paint, and the lower Washington street bridge replanked. The bridge at Fresh creek requires a new concrete abutment, and quite an extensive fill to widen the approach on the westerly side of the bridge; this in addition reinforcing with new flooring timbers, and new rails. A close estimate of the expense for the above work at Fresh creek bridge is two thousand dollars.

There has been purchased and set in different parts of the city, 1552 feet of 6 inch by 18 inch new granite curbstone at a cost of \$1,242.40. There has been reset a great number of feet of old curbstone, the most important being on the westerly side of Central avenue from Hale street to the Saint Mary's school; at the corner of Chestnut street on Fourth street there were set 184 feet of old 4 inch curbstone, filling in with four loads of cinders. On the westerly side of Sixth street a new gravel sidewalk both sides of the "Berry" brook was built and the same sidewalk at the top of Horne's hill was lowered. The total amount spent on sidewalks during the year 1919 was \$3,216.94.

Work of a permanent character has been done on Locust street and Central avenue; that on Locust street was from Summer street to Burnham and Demeritt's court, a water bound macadam street having been built at a cost of \$4,425.84. On Central avenue and a little on Washington street, a new taric pavement was laid by The Independent Coal Tar Company of Boston, Mass. There were in all 18,186 square yards at \$1.65 per square yard, making the cost \$30,006.90; the same

company did patching with the same material, amounting to \$31.88, a total bill of \$30,038.78.

# DOVER WATER WORKS.

---

## ANNUAL REPORT

OF THE

## BOARD OF WATER COMMISSIONERS.

---

TO THE CITY COUNCILS OF THE CITY OF DOVER, N. H. :—

Gentlemen:—The Board of Water Commissioners herewith submits its thirty-second annual report, together with the report of the superintendent, for the year 1919.

### ORGANIZATION.

The members of the board for the year were Mayor Fred C. Smalley, President of the Common Council, Harold C. Getchell, Alvah T. Ramsdell, Gerald A. Scarr, Andrew Killoren. Mayor Smalley was elected president, Gerald A. Scarr vice president, and Harold C. Getchell clerk.

During the year we installed at the low pressure station a 800,000-gallons-in-24-hours DeLaval centrifugal pump, directly connected to a 5 H. P. motor. This new outfit is giving entire satisfaction, and will reduce pumping expenses 60%. There was also installed a fish trap in the suction line to obviate the annoyances to which we were heretofore frequently subjected.

The sand washing machines that were made by the department and used for the first time this year, have proven a good investment. The sand washed and returned to the beds is not only in better condition than

when brought from the bank, but the saving in cost is especially noticeable.

The height of the water at Willand pond as registered December 31, 1919, was twenty-eight inches above the zero point, being seven inches higher than one year ago. The State Board of Health reports our water in its usual good condition.

A detailed statement of the work done this year, the changes and improvements made, the receipts, expenditures, and the amount of uncollected rates, may be found in the superintendent's report, which is annexed to and made a part of this report.

## DOVER WATER WORKS.

### REPORT OF SUPERINTENDENT.

---

TO THE BOARD OF WATER COMMISSIONERS:—

Gentlemen: Pursuant to custom and in accord with the rules of the board, I herewith submit the annual report of the superintendent for the year 1919, containing a summary of the more important changes and improvements made, the condition of the department at the close of the year, a statement of the receipts and expenditures, and comments on the tabulations which necessarily form a part of the report.

The city is to be congratulated on the excellent condition of the department at the close of the year. There has been no advance in water rates, nor does there appear any immediate necessity for an increase, as has been found necessary in many municipally owned water works throughout the country. There has been a net gain in receipts over expenditures for the year, and the department has paid from earnings \$13,000 towards the reduction of the water debt, and has on hand December 31st, 1919, \$5,109.86 to meet general operating expenses in the interval before metered water rates are payable.

Both pumping stations are supplied with two up-to-date equipments. At the high pressure station a 2,500,000-gallons-in-twenty-four-hours two-stage De-Laval centrifugal pump, directly connected to 100 H. P. General Electric form K motor, a George F. Blake 2,000,000-gallons-in-24-hours cross compound duplex steam pumping engine, with the necessary boiler.

Both outfits are in excellent condition. At the low pressure station there has been installed a DeLaval centrifugal pump, directly connected to a General Electric motor. In addition, a centrifugal emergency pump, operated by a kerosene engine, is practically ready for immediate use. The 6-inch centrifugal pump, 25 H. P. Lawrence vertical engine, and 25 H. P. boiler formerly in use have been removed and are for sale. This apparatus is in excellent condition and would make a complete outfit for someone needing a low pressure unit. The prospect is good for a reduction of at least fifty per cent. in the pumping expenses at this station. Our water supply compares favorably with last year. Wil-land pond is seven inches higher than one year ago.

With an average daily consumption maintained at 38.9 gallons per inhabitant (as it was last year), the supply seems sufficient for our present need. Filter No. 1 has been refilled. In this refilling the new sand-washing machines were used with great success. These machines permit the use of the sand over again, thereby eliminating the cost of hauling new from the bank, a saving of approximately the cost of the machines the first year. The walls of the beds that were damaged by frost have been rebuilt and a driveway constructed in front of the plant. One thousand pine trees have been set out in the Hussey field. I would recommend that this policy be continued the coming year. The reforestation of this large area of waste land would, in a few years, net the department a handsome return upon the investment.

Owing to the continued advance in prices of material and the scarcity of labor, we have done but little construction work. There are at present several applications on file for extensions of the distributing system, on streets where houses are already erected and where there is great need of water. But light repairs were

made to the cast iron mains. A hydrant barrel broken in April on the corner of Broadway and Ham street was repaired, and an auxiliary gate set in the hydrant branch. A 6-inch hydrant branch was also broken in December on First street. Two additional gates have been set in hydrant branches on Central avenue.

Services: Several cement lined service pipes from the main to cellar have been renewed. This part of the work is constantly increasing, as many of these pipes have been in use for more than thirty years.

Meters: Notwithstanding 81% of our services are metered, quite a large per cent. of the consumption is unmetered. Our daily consumption is but 38.9 gallons per inhabitant, and is among the very lowest in the country. I would recommend that all two-tenement houses be metered, together with all one-tenement houses that are now, or that hereafter may be fitted with water closets. This would cause no increase in rates, but would be an incentive to stop waste.

The wooden fences around both the receiving basin and reservoir are in bad condition and should be replaced with those of steel.

The following is a summary of a part of the work accomplished during the year:

## ANNUAL REPORT

OF THE

## BOARD OF TRUSTEES.

---

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The Board of Trustees of the Dover Public Library presents for your consideration the customary annual report, covering the work of the Library for the year 1919.

At the beginning of the present year the annual appropriation from the city was reduced because the Trustees hoped to get along on the smaller amount. But the increase of expense in every direction has made this impossible. Books have increased in price, many periodicals have advanced at least a dollar a year, the necessary repairs exceeded by \$135 the estimate made, and in all ways larger expenses have been met. The Trustees will therefore be obliged to ask for a larger appropriation for the coming year.

The Trustees record with deep regret the loss of their treasurer, Mr. John T. Welch, who died in September. Mr. Welch was one of the original board of trustees, having been appointed by the city on the establishment of the library in 1883, and served the board as its first secretary. He was especially interested in the historical room, presenting to it from time to time historical pamphlets and maps, and always maintained a warm interest in the welfare and development of the library.

The conduct of the library, during the past year has been similar to that of previous years, and the details of its administration and expenditures are given in the reports of the librarian and treasurer, appended to and made a part of this report.

For the Trustees,

CLARENCE I. HURD,  
Secretary.

FINANCE COMMITTEE'S REPORT.

TO THE TRUSTEES OF THE DOVER PUBLIC LIBRARY:

This is to certify that we have examined the financial accounts of John T. Welch, treasurer, from January 1 to October 1, 1919, and of Chas. H. Foss from October 1 to December 31, 1919, and find them to be correctly cast, properly vouched and the balance on hand to be as represented.

We have also examined the several investments and find them to be as represented in the report.

### REPORT OF THE LIBRARIAN.

---

TO THE BOARD OF TRUSTEES OF THE DOVER PUBLIC LIBRARY:

Gentlemen: The report of the librarian showing the work of the library for the year 1919 is herewith presented.

#### THE YEAR'S GROWTH.

Whole number of volumes Jan. 1, 1919,....	47,659
Volumes purchased, .....	743
Volumes received by gift, .....	51
Bound periodicals, .....	124
	<hr/>
Total number of accessions, .....	918
Received from U. S. Government, but not accessioned, 380 vols. and 2,200 pamphlets.	
Worn out vols. withdrawn, .....	170
	<hr/>
Total increase for the year, .....	748
	<hr/>
Total number of accessioned vols. Dec. 31, 1919, .....	48,407

The number of books purchased is less than that of previous years, not because the sum expended has been less, but because the prices of books generally have been higher and because the library has had to buy books on subjects which are not inexpensive; books on business, salesmanship, accounting, bookkeeping, advertising, and kindred subjects.

## THE YEAR'S WORK.

The drop in circulation reported last year, which was due to shortened hours caused by influenza and coal shortage, continued through the early weeks of this year, and the library was again closed 8 days in January; but with the return to normal conditions, the circulation began to increase, and the end of the year finds the loss made up, and a substantial gain in numbers. From the main room have been issued 54,001 volumes, and from the children's room 14,341, making a total of 68,342, an increase of 3,821 over last year. Six books have been lost in circulation from the main library by borrowers going away from town and leaving no addresses. The children's room has kept up the excellent record of last year, having now for 2 years not lost a single book.

To the reading room have come 10,035 visitors. The Sunday attendance was 610. To the children's room there have been 11,004 visitors. But these bare statistics do not wholly measure the library's work. No question of importance arises in daily world history, which is not reflected in an increased demand at the library for information on these subjects. If the library is not already equipped with material to answer these questions, books or pamphlets or periodicals are promptly purchased. And not only does the library endeavor to meet whatever demands are made upon it by persons who come to it, but it reaches out and stimulates reading and research and encourages in old and young an increase in the reading habit. For this purpose publicity work is kept up by the publication of the quarterly bulletin, the weekly book notices in the papers, various exhibits, and within a few weeks, by the placing of a bulletin board down by the street whereon shall be posted book notices, attractive posters, and information regarding new books.

Last year's report concerned itself for the most part with the war work done by the library. With the cessation of the need for war work, other forms of activity which had been somewhat left to themselves were resumed. Co-operation with the schools was given a fresh impulse and picture work was taken up again. The value of pictures in educational work can hardly be overestimated. When first the library began to mount and circulate pictures, it was supposed their use would be mostly among study clubs on subjects of art. But the later additions have been almost wholly along educational lines; large cards have been prepared, suitable for school room use, on subjects like Eskimo life, the Pilgrims at Plymouth, forms of water, animal life, Dutch views and the like. These have been welcomed by teachers and used by both public and parochial schools. For one teacher, at her request, was prepared a set of cards on community civics, and from them was taught to a school made up almost entirely of foreign children, the work of the various departments of the city—the school department, the fire department, the health department, and what the city does for its people and what the people should do for the city.

Various exhibits of pictures have been held through the year, but the one which attracted most attention was held on the anniversary of the signing of the armistice. It consisted of about 200 war posters, collected and owned by the library, and a loan collection of war souvenirs brought home by soldiers, consisting of helmets, guns, bayonets, medals, knapsacks, gas masks and other trophies, and articles made by wounded soldiers and prisoners of war. The collection was on exhibition two weeks and the tables were surrounded most of the time by groups of deeply interested men and boys.

The war work done in the last few years by the libraries of the country which received grateful acknowledgment from the official heads of the army and navy departments, would not have been possible had it not been for the concerted and systematic superintendence of the American Library Association. Now that the necessity of war work is over, the American Library Association is calling on the libraries of the country to do other equally important service for the welfare of the nation in aiding by books and personal contact the people of foreign birth, both old and young, to an intelligent knowledge of our principles, and an awakening of the true American spirit. It is the duty of this library to respond to the call and do all possible for the foreign born within our borders. We are reaching them with books in their own language, with books in easy English for beginners in language lessons, and with books designed to explain our institutions and the privileges and responsibilities of citizenship, and, especially, we have tried to give them friendly welcome to the library and help them not only with books but with personal acquaintanceship. There have been one or two interesting results. In the summer of last year, the professor of modern Greek in Wellesley College offered to give her services through July, the first month of her vacation, to teach young Greeks the English language. She accepted an invitation to come to Dover, and held her classes in the evenings at the library. The classes were small, for when men have worked in the mill through hot July days, it requires considerable resolution to study evenings, but a few persevered, and one man came regularly every evening through the month, with the result that in September he found himself equipped with enough English to go away to school. Another case in which we have been much interested was that of a

young Greek who, some half dozen years ago, came to the library almost every evening after his work in the mill. He was pathetically eager to learn our language and become an educated man. Through the efforts of some of the library assistants, he was brought to the notice of people who could help him, and he was sent to Kimball Union Academy as a student. He has there taken the highest possible rank in his studies, and is now nearly fitted for college. We thought it a distinct tribute to the library when he said, not long ago, "The first kind words said to me in America were said in this library."

Work of this kind is concrete application of community civics. It should be done in every way possible, for the young foreigners of today are the citizens of tomorrow and there is no more important subject before the whole country at the present time than that of Americanization.

As another year draws to a close, adding one more to the unusually long term of uninterrupted service, the librarian again desires to make known how greatly she esteems the service of each one of the assistants, and how much she values the kindly relations of the trustees, and to express her hope that as the years go on the library will widen its range and enlarge its activities until it becomes of service to every member of the community.

Respectfully submitted,

CAROLINE H. GARLAND,

Librarian.

## REPORT OF CHAIRMAN.

---

TO THE MEMBERS OF THE SCHOOL COMMITTEE:

Following the custom of many years I present a few brief remarks as the report of your chairman for the year 1919:

I think I shall not be challenged if I say that our schools have never done better work than is being done by them at the present time. Since the war period came to an end, there have been fewer interruptions of school work by unusual activities and by epidemics of disease than during the war period.

Our Superintendent, Mr. J. E. Wignot, does not consider the schools a proper place for experiments or for trying out new fads, but a place for laying the foundations of sound education by methods whose efficiency has been proven. The work of the superintendent, tho quiet and unassuming, is, I believe, thorough and efficient. This is, perhaps, the place to say that the time of the superintendent ought not to be taken up by work that is simply clerical. Under the new educational law much has been added to the office work. Without doubt it would be real economy to employ an assistant who would give his or her whole time to the work of the office, thus leaving the superintendent free to use his time to better advantage.

We have a teaching force to be justly proud of, because it is composed of teachers of high average ability, many of whom have had long experience and have personal qualities that give them a value which is not measured in terms of money, but is, we trust, recompensed in part by the affection and honor of the pupils who have come under their care. This does not, however,

free us from the duty of giving our teachers adequate compensation. Twenty-seven years ago the maximum salary for grade teachers was \$444. At the present time it is \$750. Owing to the higher cost of living and the added requirements since the earlier time, it is only fair that the salaries of the grade teachers be at least double the earlier figure, or, in other words, the graded salary list should be increased \$150 per year and other teachers and employes should receive an increase.

Our high school, as you all know, aims to prepare students who so desire to enter normal schools and colleges, and also to give other students a preparation for the work of life as sound and broad as the time available in a four years' course and the necessary limitations of a public school will permit. With the latter end in view three courses have been established, each of which teaches some practical line of work together with such subjects as will give the student the broadest possible outlook on life. Of these three, the Commercial Course is well patronized and the Mechanic Arts Course seems to have an increasing patronage, while the Domestic Arts Course does not get the patronage it deserves. In my opinion, either of these courses gives the student, not planning to enter higher institutions of learning, a better and broader preparation for life than the classical or scientific courses. I have been informed that some of our grade teachers have advised students not to take the practical courses, giving reasons that are not worthy. I hope this will not occur again.

With the end in view of putting sound, well trained minds in sound bodies, a school nurse has been employed; and I have no doubt that the results will justify the expenditure. With the same end in view we ought to look forward to the time when a well equipped gymnasium will be a part of our school plant and available to all the youth of our city under suitable restrictions.

An additional school building is now recognized by nearly all as an imperative need, but the construction of such a building may well be delayed until it could include such a gymnasium as has been mentioned or other provision has been made for it.

Respectfully submitted,

GEORGE D. MCDUFFEE, *Chairman.*

ANNUAL REPORT  
OF THE  
SUPERINTENDENT OF SCHOOLS.

---

TO THE SCHOOL COMMITTEE:

Education in the city of Dover this year offers a serious subject for thoughtful consideration by committee, teachers, parents, taxpayers, and other interested citizens. Certainly no other year has ever seen schooling the subject of such debate in the national and state legislatures and in local town and city councils. It is worth our while to review briefly the New Plan of State Administration of Public Schools and its effect upon education in our city.

The New Plan looks upon education in this State as a business of making citizens. *It looks to see the business successfully carried on not only in Dover, but in all parts of the State.* The Legislature of 1919 conferred wide powers upon a body of five men, our State Board of Education, who, with the Commissioner and Deputies, are administering the New Educational Law to bring about (1) Equalization of school privileges in all the schools of the State and (2) Americanization. This is the most progressive program in education ever adopted by any State in the Union. It is a worthy plan for the betterment of our schools, both city and rural, and is bound to improve our citizenship throughout the State and bring in its train security, happiness and prosperity to all. The Act itself and the Regulations adopted from time to time by the State Board of Education are important documents. They are printed in the Appendix of this report and should be read by all

who are interested in schools. Improvements have already been secured to the schools of the state, mostly in rural districts to be sure, but their beneficial influence is not limited to them by any means. Those of especial concern to us because they exert a powerful influence upon the educational interests of our city are:

### I. *Regulation on Health and Physical Welfare.*

These make compulsory the employment of a school physician, or a school nurse (or nurses) as the school board may direct, who shall make not less than one annual examination of pupils, note and record their physical condition, together with diseases and defects, including dental defects, notify teachers and parents, and with the aid of teachers and superintendents labor to secure remedial treatment, etc., etc. We have our school nurse in Dover and we would have had our school nurse without these regulations of the State Board, but many small and poor towns would have been left without one. It is almost universally recognized that few other departments of school work are so necessary and so essential to the public welfare as this. Our school nurse has done excellent work and has accomplished much in the short time she has been with us. Physical exercise and remedial drill have their proper place in the program of all elementary schools. This is a requirement of the Regulations on Health.

### II. *Evening Schools.*

Every person between sixteen and twenty-one years of age who cannot read and speak the English language understandingly must attend evening school. Such is the gist of the law. We expected to enroll a large number of students in our evening schools because of this requirement, but, as a matter of fact, only fourteen persons in Dover were affected. Our total enrolment,

however, in the evening schools, is a matter of satisfaction. We have a total membership of 98. Last year it was about half this number. The attendance for the three fall months has been especially good. The class in stenography under Mr. Foye is proving popular and has met an urgent need.

Americanization is one of the strongest features of the New Educational Law and, considering the dangers threatening the safety of our country arising in large measure from a lack of the knowledge of our common language, it was a timely piece of legislation.

### III.

In this connection I am pleased to mention the splendid work teachers are doing in organizing their schools for effective training in citizenship, which the State Board of Education designates as the "central aim in school instruction." We are adding to our school libraries a good line of supplementary readers in Community Civics, such as Turkington's "My Country", Patriotic Readers like Sheridan's "The Liberty Reader" and Hubbard's "Little American History Plays for Little Americans." Thrift and Thrift Stamps are a part of our school activities as are gardens and gardening. The garden work last summer was carried through successfully by a large number of pupils and this was due directly to the encouragement and assistance of the inspectors, Miss Flynn and Mr. White. The inspection work should be continued for without it results are haphazard and ineffective.

### IV. *Regulations for Approval of Schoolhouses.* (See *Appendix*)

It is next to impossible to have good schools without good school buildings. The regulations here call for proper lighting, heating, oiling of floors, walls painted

a light color, sanitary toilets with fly-proof vaults, proper containers for drinking water, proper facilities for washing hands, the flag, and proper means of displaying it. A good job was done during the summer vacation on the Back River schoolhouse under the direction of the chairman of committee on schoolhouse repairs, Mr. William Penn Tuttle, and the Lower Neck school should be similarly remodelled this year. It is hardly possible to exaggerate the good effects of these regulations throughout the rural communities of the state.

#### V. *Regulations Governing Approval of Superintendents and Teachers.*

This is essentially a plan to protect children from incompetent and immoral teachers, and to give respect and standing to the teaching profession. Up to this time practically anyone could and did teach in the State of New Hampshire. The requirements for entering the profession even now are low enough, but they mark an advance over no requirements at all.

To my thinking, the fact that notoriously low salaries have always been paid to school teachers has been a direct result of the fact that those entering the profession had little or no training to fit them for practicing the profession. We shall see higher salaries when the normal schools give four years of training before graduating teachers.

#### VI.

The approval of private schools now rests entirely in the hands of the State Board of Education. There has been appointed a Diocesan State Superintendent of Parochial Schools, Mr. Wilfred J. Lessard of Manchester, whose efforts to improve the parochial schools will show the good results desired by parochial school officials.

Under the law the superintendent of schools must keep on file in his office a complete registration of pupils in private schools and the attendance officer must be held responsible for the attendance in these schools. These requirements have been complied with in our city.

VII. *Regulations on Required Subjects and Minimum Standards for Lower Grades.*

These state definitely the subjects to be taught in the first three grades and the minimum standards to be reached within each year. Our schools, of course, will reach and exceed the standards set, but, in the case of these particular regulations and in the case of others previously mentioned, all the towns in the state should be kept in mind.

DOVER TEACHERS' ASSOCIATION.

One of the chief events of the year was the establishment of an association of our teachers, the object of which was as follows: "To promote the educational interests of the community, to bring about closer relationship between the school board and teachers; to safeguard the health and physical welfare of children and teachers; to improve the school buildings and their surroundings; to make a thorough study of the State Program of Studies for Elementary and Secondary Schools, and the Regulations of the State Board of Education and New Educational Law; to cooperate with every other group of citizens for the promotion of education." By-laws were drawn up and adopted, officers elected, and the association properly launched. The high school section meets the last Thursday in every month, the grammar school section the first Thursday in each month, and the primary school section meets the second Monday in each month in the high school building. All sections meet together twice each term.

These meetings have been very successful so far and it can be confidently expected that they will increase in helpfulness to the teachers and in benefit to the cause of education in our city. I know that these meetings are a great improvement on the type of Teachers' Meeting presided over by the Superintendent. The teachers now feel that they are sharing in the work of the development of school policies and the solving of school-room problems.

The Mechanic Arts department of the high school was transferred from the Sherman school to the old library rooms in the basement of the City Building. At the same time it was necessary to move the City Hall 8th grade school to the Sherman building. These changes have worked to the advantage of all schools concerned.

The changes in our teaching force during the summer were few compared with other years.

#### CHANGES IN THE HIGH SCHOOL.

Mr. Clifton H. Dustin replaced Mr. Arthur W. Trubey.

Mr. Robert E. Hodgdon replaced Mr. Cyril Trubey.

Mr. Harold B. Foye replaced Miss Pauline Stimpson.

Miss Doris M. Shapleigh replaced Mrs. Fossie Nichols.

#### CHANGES IN THE ELEMENTARY SCHOOLS.

Miss Katherine A. Murphy was transferred from the Sherman 6th grade to the vacancy in the Sawyer 7th grade caused by the death of Miss Carrie S. Hanson. Miss Martha M. Sherry was transferred from the Sherman 5th grade to the Sherman 6th grade, and one new teacher, Miss Elizabeth M. Brennan, was elected to the position in the Sherman 5th grade.

Miss Florence Wheeler replaced Miss Grace E. Lawlor in the Hale 4th grade.

Miss Hallie M. Stimpson replaced Miss Alice M. Seavey in the Back River school.

#### CHANGES IN SPECIAL TEACHERS.

Miss Doris L. Potter replaced Miss Bernice L. Peavey as drawing teacher.

Miss Alice K. Paton replaced, in December, Miss Clara B. Hopkins as music teacher.

We have had a remarkably good school year—nothing done which is spectacular, but much done which is inspiring and commendable. I think all citizens will agree upon this point: that our high school, under Headmaster Wallace's administration, has reached a high point of excellence in all essentials which go to make up a thoroughly good school. The Mechanic Arts department has been improved. The work of the manual training boys is a constant delight to all who see it, and the work in cooking and sewing is equally praiseworthy. The teachers have one and all put new life into their work, notably in history and civics. Thrift has gone on steadily throughout the year and the summer garden work never was so good. The evening schools are showing fine results.

The meetings of the school committee have been gatherings where good men and good fellows have met together in a friendly spirit of co-operation to jointly debate and decide matters of great importance to the school children's welfare. We have a fine teachers' association where teachers and superintendent meet for the same purpose and for self improvement. Other groups of citizens have shown a friendly and helpful interest at all times. It should be, and I believe it to be, the steadfast purpose of all groups of our people, school committee, teachers, parents, and other citizens, to see

that school affairs go onward and upward. There should be no curtailment of school privileges for the school children of the city of Dover.

Respectfully submitted,

J. E. WIGNOT,

Superintendent.

## IN MEMORIAM.

---

In May, 1919, Miss Carrie S. Hanson laid down her work as teacher in the Dover schools and entered into the rest eternal promised to the "good and faithful servants" among whom she surely had a place. After many years of devoted and unselfish labor in teaching the children of the city, this noble woman had a warm place in the hearts of Dover citizens. She will long be remembered with loving appreciation by parents, children, and the school committee, with whom she worked so loyally for the cause of education.

Her high courage and sweet personality will remain an inspiration to all those who knew her.

ANNUAL REPORT  
OF THE  
HEADMASTER  
OF THE HIGH SCHOOL.

---

TO THE SUPERINTENDENT OF SCHOOLS:

I herewith submit my second report of the Dover High School:

ENROLLMENT.

September attendance, .....	286
September per cent. of attendance, .....	97.5
September tardiness .....	35
First term attendance, .....	290
First term percentage of attendance, .....	98.3
First term tardiness, .....	92
Percentage of undergraduates who completed their work in June, but did not return in September, .....	6.5

From available data it can be shown that the total enrollment in the three upper classes of the school has increased seven per cent. over that of last year.

The condition of the times is largely responsible for the increased attendance. The World War has taught those who are accountable for the education of the future citizens that efficiency is desirable in all avenues of activity. Therefore, parents are willing to make greater sacrifices than formerly that their children may obtain an education which will improve their condition in life.

## ADMISSION FROM CITY GRAMMAR SCHOOLS.

The table below will give the per cent. of pupils who entered the High School in September :

City Hall, .....	68 per cent.

## DOMESTIC ARTS.

Since the removal of the lunch counter to the basement, the work in this department, which is under the supervision of Miss Edith W. Jenness, has been car-

ried on to better advantage. Excursions have been planned and made by the teacher and pupils as follows :

1. Morrill's Furniture Company—Heaters.
2. Twin State Gas Company—Gas and Electrical Appliances.
3. Public Library—Library Fireplace.
4. Chinese Restaurant—Kitchen Arrangement.
5. M. and M. Bread Bakery.
6. Filter Beds.
7. Pumping Station.
8. Davis's Greenhouse—Heating System.
9. D. H. S. Heating System.
10. Margeson Bros. Furniture Store, Portsmouth.
11. Gas Plant.
12. Electric Power House.
13. Sterling Milk Farm.
14. Middlebrook Dairy Farm.
15. Incinerator.
16. Mrs. Galucia's Home—Modern House.
17. Strafford County Farm.
18. Brown's Home Bakery.

#### THE PUPILS IN THIS COURSE ARE :

Seniors, .....	6 or 13%	of the Class
Juniors, .....	7 or 13.5%	of the Class
Sophomores, .....	3 or 4.5%	of the Class
Freshmen, .....	7 or 5.5%	of the Class

It is regrettable that in a school of nearly three hundred students only twenty-one chose this program of work.

#### MECHANIC ARTS.

Since our last annual report, the Mechanic Arts work has been transferred from the Sherman building to the basement in City Hall. In the past, the pupils have con-

sumed considerable time, which properly belonged to the classroom, in getting to and from the shop. In most respects the change has been beneficial. The arrival and departure of the pupils have been made to coincide with the change of periods in the High School building.

The program of work has been ably managed by Mr. Dustin and Mr. Hodgdon. Under their supervision all of the machinery was moved from the Sherman school, set up, and put in operation. Through the efforts of these men, the students not only have saved money for the city, but they have gained much valuable information which will be of great service to them in their Mechanic Arts work. The program, as now managed, affords an excellent opportunity for students to become acquainted with the proper use of tools and machinery.

Some of the projects completed thus far are:

1. Installing and repairing electric lights in the Sherman building.
2. Installing and repairing electric bells.
3. Interior of one room at Sherman school painted.
4. Repairing steps and windows at Varney school.
5. One table made, and one repaired for Varney school.
6. Doors and chairs repaired at High School.
7. Electric lights repaired in City Hall.
8. Rail put on south steps of City Hall.

The table below will give the number of pupils engaged in Mechanic Arts work.

Seniors, .....	4 or 9	per cent. of the Class
Juniors, .....	6 or 11.5	per cent. of the Class
Sophomores, .....	8 or 12	per cent. of the Class
Freshmen, .....	25 or 20	per cent. of the Class

Now that a more central place has been provided for the work, it is expected that a larger number of the boys will elect this program.

## COURSES OF STUDY.

There are six courses of study in the High School, so arranged that they give a reasonable range of choice to pupils who wish to prepare themselves for greater usefulness in the world. These courses have been approved by the State Department of Public Instruction at Concord.

At present those graduates of the Classical, Scientific and General Departments, who receive 85 per cent in each subject, are entitled, on a certificate signed by the Headmaster, to enter certain Technical Schools and Colleges, and all of the Institutions connected with the New England College Entrance Certificate Board. In accordance with the Laws of the State all graduates may enter New Hampshire College.

## CHOICE OF COURSES.

Too many of the pupils choose the Commercial Course. The number of graduates in this department is out of all proportion to the positions in this vicinity, requiring commercial training. Each year, between forty and fifty per cent of the freshman class, choose this course. The young people believe that it is a short cut to an education which will prepare them to earn a living. Would not the Mechanic Arts, or the Domestic Arts program equip them for greater usefulness?

Parents and guardians should consult the program of the school that their children may pursue the course of study which will best fit them for usefulness after graduation.

Slight changes will need to be made from year to year to meet the demands of the colleges. Hitherto the classical students of the school, on completing their work and receiving their diplomas, have entered New Hampshire College, conditioned in Science. Hereafter,

this division of the Senior class will take five studies, reciting four times a week in each and will enter technical schools and colleges without conditions.

#### HOME STUDY.

Twice every month notices have been sent to parents and guardians of those students whose standing is below the passing mark. Teachers assign lessons with the expectation that each subject will require, on the average, one hour of the student's time in preparation outside of the recitation period.

Many pupils, especially those who are anxious to do faithful and conscientious work, are obliged to spend from two to three hours, at home, on their lessons. Since the school day is divided into six periods of forty-five minutes each, and since the pupils recite from four to six times daily, one will readily understand that the student body, in order to meet standard requirements, must do outside work. A two session day, consisting of eight periods, would improve the situation. Are the citizens ready to adopt such a program?

The work of the school, in the various departments, has been closely supervised. Some of the parents have felt that the studies have demanded too much of the pupils' time. That justice might be done the parent, student and teacher, an investigation was made, about the middle of the fall term, with the view of ascertaining the average time which the individual student spent in the preparation of daily lessons.

#### PROMOTION.

Pupils will not be promoted, if deficient in more than one subject, nor will they receive a certificate which will admit them to colleges on the New England Board, unless they attain a rank of eighty-five per cent in each subject.

The demands upon the pupil are greater than ever before, and it is imperative that those students who enter the high school with the idea of preparing for college, technical school, or other institutions of learning, should do their best work from day to day with as little absence as possible. Pupils who have the best record of attendance usually exhibit the best evidence of progress.

A new system of marking has been introduced, called the sliding scale. This means that a pupil must not drop below sixty in rank, and that in all subjects he must attain an average mark of seventy per cent. for promotion and graduation. Pupils who do not meet promotion requirements may take the studies for which they have been prepared, in advance of their accredited class.

#### ABSENCES.

Absence from recitation will lower a pupil's standing, unless it is due to sickness, or to some other cause which may seem reasonable to the Headmaster. If the absence was unavoidable, the recitations or examinations must be made up with the teacher. Teachers will be present at the High School building one afternoon each week to assist students in this make-up work. Pupils must meet their appointments; otherwise, no credit will be given.

The blank form below will meet excuse requirements :

#### EXCUSE BLANK.

To the Headmaster of the Dover High School :

Dear Sir :

Please excuse my son (daughter) .....for  
absence from school session on ..... as.....  
was too ill to attend. (was absolutely needed at home.)  
.....

## TO PARENTS AND GUARDIANS :

Since the absence of a pupil not only injures himself but also affects the whole class, it is hoped that pupils will not be absent for any cause but those above. If, however, it is thought best that a pupil be absent when these reasons do not apply, please explain the cause of the absence fully in the blank below.

## PRIZES.

For several years it has been customary to present a trophy in June to that class in the High School which excelled in scholarship. The trophy this year was won by the class of 1920.

The Perkins Gold Medal for excellence in oratory was awarded to Lillian Edwina Hacking, 1921; the second prize was won by James Arnold Roberts, 1919.

Mr. Roberts, by a competitive examination at New Hampshire College, also won the Valentine Smith Scholarship for "excellence in preparation."

## GRADUATES IN JUNE, 1919.

*Classical Students*:—Josephine Estelle Berry, Doris Virginia Clough, Evelyn Hayes Crosby, Irene Helen Hughes, Pauline Franklin Jenness, Ruth Ann McDaniel, Helen Elizabeth Murphy, Helen Catherine Sherry, Angela Catherine Thomas, Marion Leanora Willey, Georgie Ernestine Woodman, Viola Esther Worster.

*Scientific Students*:—James Nelson Cadoret, Leola Morrison Fogg, Ellen Crawford Hoitt, James Arnold Roberts, Viola Andrews Scarr.

*Commercial Students*:—Effie May Forrest, Ellen Mae Greenaway, Ella Augusta Hill, Bernice Clover Otis, Gertrude Edna Otis, Lillian Beatrice Wright.

*Domestic Arts Students*:—Leah Agnes Boutin, Marion Estes Call, Althea Mae Chase, Elizabeth Cecelia Finni-

gan, Sarah Anne Gallegher, Violet Florence Grant, Grace Ella Hoitt, Bertha Lillian Palmer.

*Mechanic Arts Students*:—James McFarlane, Jr., Stanley Mildram Tasker.

*General Student*:—Mary Catherine Reilly.

#### CERTIFICATES.

*Recipients of Bookkeeping Certificates*:—Bernice Margaret McKay, Doris Brackett McMahon, Ruth Mae Young.

*Recipients of Stenography Certificates*:—Effie Mae Forrest, Ella Augusta Hill, Ellen Mae Greenaway, Lillian Beatrice Wright.

The members of the class who entered College and Normal school are: New Hampshire College: Josephine Estelle Berry, Leola Morrison Fogg, James McFarlane, Jr., Helen Elizabeth Murphy, Bertha Lillian Palmer, Mary Catherine Reilly, James Arnold Roberts, Helen Catherine Sherry, Angela Catherine Thomas, Marion Leonora Willey, Viola Esther Worster; Normal School: Doris Virginia Clough, Grace Helen Hoitt.

#### TEACHERS.

During the past year, only those teachers who have had a special training for their work have been employed. The success of a school, to a great extent, depends upon the personnel of its teaching force. If this be true, a salary should be paid which will secure and retain in service teachers who show special aptitude, and are interested in their work. A school cannot accomplish the best results unless there is co-operation on the part of the pupil, teacher and parents.

#### DEFICIENCIES.

The teaching staff will be at the school building on Saturday, before the opening of school in September,

to give examinations to those students who wish to make up deficiencies. At this time the Headmaster will be in his office to meet pupils and parents who desire to consult him about courses of study, etc.

In conclusion, I desire to express my obligation to the Superintendent of Schools, the members of the School Committee, the citizens, and lastly to the loyal and efficient teachers who have aided me in my efforts to raise the standard of the school.

Respectfully submitted,

CHARLES L. WALLACE,  
Headmaster of the High School.

## REPORT OF SCHOOL NURSE.

---

MR. JACOB E. WIGNOT, SUPERINTENDENT OF SCHOOLS,  
DOVER, N. H. :

The following outline of work done by the School Nurse, from Sept. 2nd, 1919, to Jan. 30th, 1920, inclusive, is respectfully submitted :

Visits to schools, .....	118
Visits to schools for physical examinations, .....	67
Talks on Health and Hygiene, .....	89
Visits to schools for follow-up work, .....	34
Treatments, .....	42
Home visits, .....	45
Miscellaneous visits, .....	104
Total number of visits .....	457

### FINDINGS OF PHYSICAL EXAMINATIONS.

Eyes ) R.

Defect of breathing,	35 cases, treatment secured,	6
Defective teeth,	856 cases, treatment secured,	313
Mentally deficient, .....		27
Backward children, .....		93

The grouping of children in special classes, according to their mental ages is followed by more rapid

progress of backward pupils. These classes should have special courses in study, and special work in handicraft.

Communicable diseases reported from September 2, 1919, to January 30, 1920, inclusive: Chicken-pox, 4; Diphtheria, 1; Mumps, 14; Pneumonia, 4; Scarlet fever, 1; Whooping-cough, 34; Pediculosis, 2.

It is a mistaken idea that certain of the communicable diseases are a necessary evil to be endured by all sooner or later, and that they are practically harmless in childhood. Children should not be exposed to any contagion. There have been many coughs and colds among the children owing to the severe weather.

We need a Dental Clinic, so that children may have work done either free, or for the cost of the material used, when necessary. The temporary teeth are just as important as the permanent ones, and should be cared for. A neglected mouth and decaying teeth is often the cause of adenoids, enlarged tonsils, enlarged cervical glands, malnutrition.

We hope soon to have an Orthopedic Clinic. The examinations will be free, treatments and apparatus free, if parents or guardians can not afford to pay.

When the Tuberculosis Clinic is opened there are one or two to be looked over, as a preventative measure.

FRANCES HYDE,  
School Nurse.

The Commerce curriculum fits for their work clerks, cashiers, bookkeepers, and stenographers. It is the curriculum for those who wish to engage in any form of mercantile or clerical work.

The Mechanic arts curriculum trains artisans. It is for those boys who are to do skilled mechanical work. Under this head come plumbing, steam fitting, drafting, and mechanical and electrical work.

The Domestic arts curriculum trains for the work of the home and for normal schools. It is for the election of girls who wish to become nurses, dressmakers, milliners, and teachers, and for those who desire a thorough knowledge of the activities of the home.

The Modern language curriculum offers a larger choice of subjects than do the other curricula and is open to pupils whose aim is a high school education, rather than a training for any particular object.

Pupils admitted to the high school, with the approval

of their parents, must elect one of the above curricula and take for graduation all the subjects therein. Changes from one curriculum to another may be made only by making up all branches included in the chosen curriculum. The work of any curriculum may be completed in four or more years and extra studies may be taken only with the principal's consent, approved by the superintendent.

## REGULATIONS ON REQUIRED SUBJECTS AND MINIMUM STANDARDS FOR ELEMENTARY GRADES.

---

For the present, regulations are set only for grades one to three. These regulations are to be met at the end of the year 1919-1920. Regulations for other grades will be established later.

The subjects of the elementary school are grouped under the title, "A, B, and C Subjects." "A Subjects" are those which require each day systematic instruction and drill. Minimum standards of accomplishments are established. "B Subjects" are for daily or occasional school attention as needed. All are to be part of the school organization and with definite instruction. None may be neglected and the time-table must make provision. No fixed standards of accomplishment are set. "C Subjects" are those which provide pupils with reading for information. Both silent and class reading are required.

Each day not less than one-fifth of the time of teacher and class should be devoted to "B and C Subjects."

Any school board at its option may add to the subjects given provided that in each grade the minimum standards set by the State Board of Education are reached.

*It is to be noted that these are minimum standards. They must be reached by all schools but good schools will do more than is here outlined.*

## GRADE I.

Required subjects:

- (A) Arithmetic, reading, writing.
- (B) Drawing, history stories, hygiene, literature, nature and gardens, organized plays, games and physical exercise, singing, thrift.
- (C) None.

## READING.

(a) Ability to read from the board in both script and print, sentences composed of common words, in the normal vocabulary of children. (b) Ability as a result of word drills to recognize instantly simple words and combinations of words. (c) The realization on the part of children that books contain interesting stories and are worth reading. (d) The reading in class of six to eight primers, first readers and children's classics. (e) Ability to read at sight and understandingly from any easy first reader.

## WRITING.

(a) The use of pencil in writing. (b) The expression of complete, single ideas in simple sentences of from three to six words. (c) Ability to write memorized lines at the rate of fifteen to twenty letters per minute. (d) Recognition of the letters by name.

## ARITHMETIC.

(a) All addition, subtraction and multiplication combinations through twelve. (b) Recognition of fractions and the simple combinations, (objectively) halves, thirds, fourths, fifths and eighths. (c) Simple ratio with these fractional parts. (d) Ability to read and write numbers to 100. (e) Recognition and use of quart, pint, foot, inch.

## GRADE II.

Required subjects:

(A) Arithmetic, reading, writing.

(B) Drawing, history stories, hygiene, literature, nature and gardens, organized plays, games and physical exercise, singing, thrift.

(C) Geography, history, humane treatment of animals, hygiene, nature.

## READING.

(a) The continuation of a, b, c of Grade I. (b) The reading in class of six to eight first and second readers and children's classics. (c) The reading out of class of eight to ten books of grade of first and second readers. (d) The reading at sight readily and with understanding of any ordinary second reader.

## WRITING.

(a) The expression of three of four sentences of from three to six words about a central idea. (b) Ability to write memorized lines at the rate of twenty to thirty letters per minute.

## ARITHMETIC.

(a) All addition (no column over 9), subtraction (digits of minuend larger than the corresponding digits of subtrahend) and multiplication (multiplier one digit) combinations to 25 as per table 1 in state program. (b) Recognition and simple combinations and ratios of fractions of Grade I, also sixths and tenths (objectively). (c) Recognition and use of measures of Grade I, also gallon, yard, peck, bushel. (d) Ability to read and write numbers to 1000. Parts of 100, 1-2, 1-4, 1-10, 1-5, 2-5, 3-5, 4-5 and 3-4. Recognition and use of United States money to one

dollar. Recognition of Roman numerals to XII. Ability to tell time.

#### REGULATIONS ON POWERS AND DUTIES OF SCHOOL BOARDS.

1. The School Boards shall determine the salary and term of employment of all teachers and shall elect them upon nomination by the superintendent. If they reject any nomination they shall require the superintendent to make further nominations.

\*Two districts.

\*\*Three districts.

2. They shall employ janitors and other employees required for the proper operation of the schools, determine their salaries and terms of employment and prescribe their duties.

3. They shall authorize all purchases.

4. They shall make suitable provision for the accommodation of pupils in approved schoolhouses and for proper transportation and shall provide that all schoolhouses and outbuildings are kept in a clean and proper condition.

5. They shall seasonably prepare a budget of school expenditures and before September of each year make suitable assignment of the school money to the various needs of the schools. In state aided districts accounts shall be kept as the State Board shall require and shall be open at all times to the inspection of the superintendent or any other officer of the State Board.

6. They shall hold meetings for the transaction of business at least once in two months and shall require the attendance of the superintendent. The secretary shall keep a written record of each meeting.

7. They shall exercise all powers and perform all duties vested in and imposed upon the school board by law or regulations of the State Board which are not committed to the superintendent or by them expressly delegated to him.

#### REGULATIONS ON SCHOOL STUDIES AND INSTRUCTION.

The 1916 revision of the Program of Studies for the Elementary Schools of New Hampshire and the 1919 revision of the Program of Studies for the Secondary Schools of New Hampshire, as prepared and published by the Department of Public Instruction under resolutions of the General Court, are accepted and approved for the use of public schools.

A standard school shall be equipped with books,

school supplies and apparatus sufficient for the proper performance of the work outlined in these programs.

The foregoing regulations were adopted June 20, 1919.

## REGULATIONS GOVERNING APPROVAL OF SUPERINTENDENTS AND TEACHERS IN THE PUBLIC SCHOOLS.

### SUPERINTENDENTS.

The joint committees of supervisory unions may nominate only superintendents and assistant superintendents holding a New Hampshire supervisory certificate. Until July 1, 1919, supervisory unions may nominate candidates whose applications for examination have been approved.

#### *Requirements for Supervisory Certificates.*

1. Candidates must present satisfactory evidence that they are graduates in full from a registered college granting the bachelor's degree.

2. Candidates must present satisfactory evidence of at least five years' successful experience in teaching. (Candidates may offer not exceeding two years of resident post-graduate study in education as the equivalent of the same number of years of successful teaching.)

3. An investigation and inspection of the candidate's record will be made and for this purpose application must be filed and references given at least four weeks before the time set for examination. Satisfactory record is a prerequisite to examination.

4. Candidates will present themselves for examination in:

(a) History of Education, including modern educational systems;

(b) School Organization and Management, covering both elementary and secondary periods;

- (c) School Law of New Hampshire;
- (d) Psychology;
- (e) Pedagogy, both general and special method;
- (f) Elements of General Sociology;
- (g) The New Hampshire Programs of Study.

5. All certificates hereafter granted will be probationary for three years and on record may be renewed and made permanent.

#### *Supervisory Certificates Granted for Service.*

Service supervisory certificates will be granted only in accord with Session Laws of 1911, Chapter 161, to persons who, in addition to requirements given under 1, 2 and 3 above, have prior to September 1, 1919, served as superintendents in the public schools of New Hampshire for at least three school years.

#### *Revocation of Certificates.*

All supervisory certificates are revocable by the Commissioner, with the approval of the State Board of Education, and all lapse after three years of non-use. They may be restored on inspection of record with re-examination, if needed, in pedagogy, school programs and school law.

### HIGH SCHOOL TEACHERS

Superintendents and supervisory officials may, after October 1, 1919, nominate only teachers holding a New Hampshire certificate, license or permit and all teachers employed must qualify in one of the forms given below. All teachers, except substitutes, must be employed under a written contract.

#### *Requirements for Secondary Teachers' Certificates.*

1. Candidates for Grade A secondary certificates must present evidence of graduation from a college.

Candidates for a Grade B secondary certificate (good only for a junior high school) may present evidence of graduation from a college or a normal school.

2. Candidates must present satisfactory evidence of at least one year's successful experience as a teacher in New Hampshire.

3. Candidates shall present themselves for examination in:

- (a) Psychology and pedagogy;
- (b) School management, with special reference to the adolescent period;
- (c) School law so far as it concerns the relation between teacher and pupils, parents and school board;
- (d) History of education;
- (e) The New Hampshire secondary program.

NOTE: Examinations in academic subjects are not given and approved teachers may teach only the secondary subjects for which they are prepared.

#### *Secondary Certificates Granted for Service.*

Service certificates may be granted in accordance with Sessions Laws of 1911, Chapter 161, to teachers who

- (a) present evidence of ten years successful teaching service in approved secondary schools, at least three of which were in New Hampshire, and
- (b) present evidence of continued professional reading and study.

#### *Rules for Granting Licenses.*

The present requirements for approved secondary teachers must be met.

- 1. The license will be granted for one year only.
- 2. At the end of the year this license may be denied renewal, or renewed for one or three years on the

recommendation of the superintendent and report of the inspector. Thereafter the license may be renewed or a service certificate granted in accordance with the regulations above.

*Rules for Granting Permits.*

To meet special needs for teachers not able to secure certificates or licenses, the Commissioner may grant on proper recommendation permits good for not to exceed one year.

*Employment of Substitutes.*

In emergencies superintendents may use unapproved substitutes for periods not exceeding six weeks.

*Revocation of Certificates.*

All certificates, licenses and permits are revocable by the Commissioner of Education, and for reasons satisfactory to the Commissioner may be denied by him.

ELEMENTARY SCHOOL TEACHERS.

1919-1920 ONLY.

Superintendents may, after October 1, 1919, nominate only teachers holding a New Hampshire certificate, license or permit and all teachers for 1919-20 must qualify in one of the following classes. All teachers, except substitutes, must be employed under a written contract.

*Requirements for Elementary Teachers' Certificates.*

1. Teachers' certificates of elementary grade will be granted to candidates who are graduates of a New Hampshire normal school and present evidence of one year of successful teaching in New Hampshire.
2. Teachers' certificates of elementary grade will be

granted to candidates who are graduates of an approved normal school of another state and who

(a) present satisfactory evidence of two years' successful teaching in New Hampshire, and

(b) pass satisfactory examinations in the New Hampshire elementary program of studies and New Hampshire school law.

3. Teachers' certificates of elementary grade will be granted to graduates of high schools who

(a) present satisfactory evidence of four years' successful teaching in New Hampshire, and

(b) pass satisfactory examinations in pedagogy and psychology, school management, New Hampshire elementary program and New Hampshire school law. Graduates of approved New Hampshire training schools may be granted elementary certificates upon presenting satisfactory evidence of two years' successful teaching in New Hampshire and passing the above examinations.

#### *Elementary Certificates Granted for Service.*

Service certificates may be granted in accordance with Session Laws of 1911, Chapter 161, to teachers who

(a) present evidence of ten years' successful teaching service in the public schools, at least three of which were in New Hampshire, and

(b) present evidence of continued professional reading and study.

#### *Rules for Granting Licenses.*

A license will be granted to every teacher employed in September, 1919, with a year's contract who

(a) has taught at least twenty weeks in New Hampshire public schools or

(b) has taught two years in the public schools of another state, or

(c) is a graduate of a non-approved normal school, or

(d) is a graduate of a training school or an approved high school training class, or

(e) is a graduate of a New Hampshire high school during the last five years and has taken a summer course at a New Hampshire normal school.

1. The license will be granted for one year only.

2. At the end of the year this license may be denied renewal, or renewed for one or three years on the recommendation of the superintendent. Thereafter the license may be renewed or a service certificate granted in accordance with the regulations above.

#### *Rules for Granting Permits.*

To meet special needs for teachers not able to secure certificates or licenses, the Commissioner may grant on proper recommendation permits good for not to exceed one year.

#### *Employment of Substitutes.*

In emergencies superintendents may use unapproved substitutes for periods not exceeding six weeks.

#### *Revocation of Certificates.*

All certificates, licenses and permits are revocable by the Commissioner of Education, and for reasons satisfactory to the Commissioner may be denied by him.

### REGULATIONS FOR TEMPORARY APPROVAL OF SCHOOL- HOUSES.

FOR SCHOOL YEAR 1919-20 ONLY.

1. Lighting shall be principally from the pupils' left and rear and no windows shall be permitted in the front

of any schoolroom. The ratio of window area to floor area shall be not less than one to five. Ceilings shall be white or light cream color, and curtains of a light tint shall be provided wherever needed.

2. Equipment for heating must be adequate to furnish a minimum temperature of 68 degrees and some provision must be made for ventilation without direct draft on the pupils.

3. Floors must be in good condition and oiled or swept with some dust-laying compound. Walls must be in good repair and painted some light color. Papered walls have only temporary approval.

4. Toilets must be decent and in sanitary condition. They must be located in buildings free from obscene markings and furnishing proper privacy. The vaults must be fly-proof and properly ventilated. The seats should be provided with covers and in the boys' toilets a double seat or urinal should be provided. Single toilets for both sexes will not be approved except for small schools and then only if their entrance is from the schoolroom only.

5. Water for drinking must be provided in properly covered receptacle with faucet or bubbler. Facilities for washing hands must also be provided. Common towels or drinking cups are prohibited by regulations of the State Board of Health.

6. Every schoolhouse must be provided, as required by law, with a flag and the proper means for displaying it.

7. This list of minimum requirements for temporary approval is intended to cover only such changes as are required to make schoolhouses decent and safe for children and in many cases will be less than has been already done. Full regulations for the permanent approval of schoolhouses will be prepared and placed in the hands of schools boards before the budgets for the

next school year are made up. These regulations will require the adoption of a progressive plan of school-house betterment.

8. It is the duty of the school board to see that all schoolhouses are properly cleaned and that they are kept in clean and sanitary condition by suitable janitor service. Vaults should be cleaned at least twice each year and some effective deodorant provided for constant use. Proper care of school buildings is as essential to their approval as their construction.

#### REGULATIONS ON POWERS AND DUTIES OF SUPERINTENDENTS.

1. The superintendent of schools of each union shall be nominated by the joint board of the union and employed by the State Board of Education. He shall give his entire time to the performance of the duties prescribed by law and by the regulations of the State Board. Assistant superintendents shall be employed in the same manner and shall devote their entire time to the performance of the duties delegated to them.

2. He shall enforce or cause to be enforced the rules of the school board, the regulations of the State Board and all the laws relating to the school attendance and employment of children and illiterates. He shall report to the proper officers violations of the laws of the state or of the regulations of the State Board relating to the administration of the public or private schools or affecting the welfare of children.

3. He shall direct and supervise the work of all teachers and janitors and shall have all powers necessary to make such direction effective.

4. He shall nominate all teachers in accordance with the law and the regulations of the State Board, subject to such rules governing salary, term of employment, etc., as the school board shall determine.

5. He shall select and purchase text-books and all other scholastic apparatus and supplies in accordance with the regulations of the school board and the State Board and see that the same are suitably distributed to the schools, accurately accounted for and economically used.

6. He shall keep such records and make such reports of his doings, the condition of the schools and the financial standing of the districts as shall be required by the school board or the regulations of the State Board.

7. He shall remove any teacher or other employee of the district found by him to be immoral or incompetent, or who shall not conform to the regulations prescribed by the State Board of Education under section 5, Chapter 106, Laws of 1919, or by the school board in accordance with P. S. 92, section 4, as amended by chapter 59, Laws of 1905, subject to the provisions of section 12, chapter 106, Laws of 1919.

8. He shall provide for temporary vacancies in the teaching force and shall have authority to secure fuel or other supplies immediately needed for the operation of the schools, if the school board shall fail to provide them.

#### REGULATIONS ON EVENING SCHOOLS.

Evening schools required by Laws of 1919, chapter 106, section 14, shall be opened in the several districts as soon as may be after October 1st and shall continue for at least sixty sessions.

The foregoing regulation was adopted June 20, 1919.

#### REGULATIONS ON HEALTH AND PHYSICAL WELFARE FOR THE YEAR 1919-20 ONLY.

All districts which have adopted medical inspection in accordance with the Laws of 1913, Chapter 83, shall comply with the provisions of the law.

In all other districts, there shall be employed, as the school board may direct, a school physician, or a school nurse or school nurses, who shall make not less than one annual examination of pupils, note and record their physical condition, together with diseases and defects, including dental defects, notify teachers and parents, and with the aid of teachers and superintendents labor to secure remedial treatment when necessary, provided, however, in districts where the school physician and nurses are under the control of the local board of health, such control shall be exercised by said board. All tests shall be made as the law provides and all reports made upon prescribed forms.

It shall be the duty of all superintendents to see that physical exercise and remedial drill have a proper place in the program of all elementary schools.

It shall be the duty of the superintendents to examine school buildings and surroundings and to recommend such changes as are needed to meet the minimum requirements for approval of school buildings. If unable to make effective their recommendations, they shall report to the Commissioner of Education and to the State Board of Health.

The State Board of Education requests the Educational Council of New Hampshire to prepare and submit to the Board an outline of drill, exercises and instructions for the physical improvement of school children.

There shall be employed by the State Board of Education a supervisor of health who, from September 1, 1919, to June 30, 1920, shall aid the deputy commissioner who has charge of the Division of Elementary Schools to carry out the provisions of these regulations. She shall be a registered nurse and her special duties, under the direction of the Commissioner, shall be field

work in the schools with the teachers and superintendents as health inspector and supervisor.

The foregoing regulations were adopted June 20, 1919, for the school year 1919-20 only. It is expected that these regulations will be revised and enlarged before the beginning of the following school year.

## ANNUAL REPORT

OF

## BOARD OF TRUSTEES.

GENTLEMEN OF THE CITY COUNCILS :

We have the honor to submit herewith the fourteenth annual report of the Board of Trustees of the Wentworth Hospital, for the year ending December 31, 1919.

The problems confronting the administrative officers of the hospital during the past year, other than those of an essentially technical or professional character, have covered an unusually wide range.

The difficulty incident to maintaining an adequate corps of assistants to meet the requirements of the institution under existing industrial conditions, is reflected in the monthly pay rolls, which show an aggregate increase of twenty-six per cent. for the past year over the general average for the thirteen years immediately preceding. The cost of groceries and provisions, another important factor in hospital economics, shows an even greater increase, or fifty-four per cent. for the same period.

The relation which the various sub-divisions of expenditures bear to the total cost of maintenance can be gleaned from the following tabulation: Salaries and wages, 36.4%; groceries and provisions, 25.3%; medical and surgical supplies, 7.1%; furnishings and repairs, 17.6%; all other expenses, 13.6%. Total cost of maintenance, \$35,571.43.

The revenues of the hospital have been derived from the following sources: Appropriation from the City of Dover, \$13,500.00; from the superintendent, for hos-

pital service fees, \$16,168.54; from the superintendent, for ambulance fees, operating room fees, etc., \$1,750.15; income free bed fund, \$1,035.00; sale of barn and rent of pasture, \$165.00; interest on invested funds, \$2,952.74.

The number of days of free and partially free service rendered, and the number of days' service for which established rates were received, during the fourteen years the hospital has been in operation, are presented in the following table:

YEAR	No. of Patients Admitted	No. of Days Free Service.	No. of Days Partially Free.	No. of Days at Regular Rates.	Total Days.
1906.....	75	101	48	1,129	1,278
1907.....	307	991	199	5,172	6,362

1909.....	325	2,078	415	5,466	7,959
1910.....	400	2,370	469	5,194	8,033
1911.....	421	2,148	595	6,005	8,748
1912.....	415	2,416	980	5,249	8,645
1913.....	466	2,101	1,452	6,591	10,144
1914.....	441	2,687	872	5,707	9,266
1915.....	552	2,623	1,490	6,746	10,859
1916.....	480	1,860	1,458	5,257	8,575
1917.....	513	2,075	1,360	5,836	9,271
1918.....	759	2,627	1,529	8,182	12,338
1919.....	710	1,800	1,989	7,320	11,109

The average daily cost of treatment during the past year, reached \$3.17, while the average daily income from contributing patients was only \$1.46. On this basis more than \$5,000.00 of the revenues of the hospital were devoted to the care and treatment of impecunious patients, independent of the excess between

the actual cost and the chargeable fees in which all other patients participated.

The revision of hospital charges to meet, in part at least, this growing deficiency, is at present occupying the attention of the board of trustees. That Dover is not an isolated instance in this particular is conspicuously apparent from a perusal of hospital reports from all sections of the country.

Twenty-five per cent. of the patients treated during the past year were accident and emergency cases. To meet the exigency which these cases create,—a situation which the hospital must be prepared to meet if it properly performs its functions,—requires the maintenance of an adequate permanent force of competent attendants. The fluctuation in the number of patients daily enrolled is also a factor in determining the number of regular employees required. This fluctuation, reducing the lowest and the highest daily enrollment for each year to a general average, shows a variation of 300 per cent., the largest number attaining a daily average of forty-two, the smallest number falling to fourteen. During the past year the smallest number enrolled in any one day was twenty-two; the largest number, fifty-three

The average daily force on duty during the year 1919, was thirty. The average daily cost of maintaining this force on the basis of salary and wages, was \$1.17 each; if we add to this sum the pro rata cost of groceries and provisions, the per diem cost would be increased to \$2.08. That we have been enabled to keep the operating expenses (exclusive of the sum required to repair the damages caused by termites), to a level with the general average for the past five years is particularly gratifying.

#### TERMITES.

The depredations of these destructive insects,—

fortunately discovered during the progress of minor repairs in the basement of the administrative building,—proved, upon investigation, to be of a most serious character. The foundation timbers, studding and connecting woodwork, below the street floor were, in many instances, reduced to such a fibrous state as to imperil the safety of the entire structure.

The colonization of these termites in the basement area was simply preliminary to an invasion of the floors above. That their early discovery and ultimate extermination prevented subsequent disaster and greatly enhanced cost, was the one cheering reflection in the whole cataclysm of disturbing problems which crowded those busy weeks of experimentation and reconstruction. To Prof. W. C. O’Kane of Durham College, State Entomologist, the trustees desire to express their grateful acknowledgments for professional advice and supervisory assistance so generously rendered during those troublous days.

The expense incident to this invasion was \$4,782.45. Although various improvements in structural conditions were effected during the work of reconstruction, and certain minor changes authorized with a view to increasing general administrative efficiency, but a small part of this expenditure would have been required under normal conditions.

Writing upon the subject of termites or white ants, Henry Drummond, an essayist and scientist of world wide fame, says: “There is no limit, in fact, to the depredation by these insects; and they will eat books, or leather, or cloth, or anything; and in many parts of Africa I believe if a man lay down to sleep with a wooden leg, it would be a heap of sawdust in the morning. So much feared is this insect now, that no one in certain parts of India and Africa ever attempts to travel with such a thing as a wooden trunk. On the Tanganyika plateau I have camped on ground which was as hard as

adamant, and as innocent of white ants apparently as the pavements of St. Paul's; and awakened the next morning to find a stout wooden box almost gnawed to pieces. Leather portmanteaus share the same fate, and the only substance which seems to defy the marauders are iron and tin."

#### CHANGES.

There have been but few changes during the past year in the official and professional force of the hospital. The vacancy in the official force caused by the death of Hon. John T. Welch, department treasurer, which occurred September 22nd, was filled by the choice of Hon. Charles H. Foss; by the transference of three of the members of the medical staff to the staff of consulting physicians and surgeons, three vacancies have been created in that group of the professional force which will be filled as occasion requires.

#### THE ROLLINS' MEMORIAL.

Early in the year Hon. Edward W. Rollins appeared before the board of trustees, and after a discursive review of local institutional needs offered to donate to the hospital the sum of \$25,000.00 for the purpose of erecting a nurses' home, as a memorial to the late Mrs. Gladys A. Rollins.

On February 6th, Mr. Rollins filed an autograph communication with the city councils, confirming the offer previously made before the board of trustees. The appreciation of the councils was expressed in the following resolution:

Resolved by the City Councils of the City of Dover:

That the generous proposal of Hon. Edward W. Rollins to donate to the city of Dover the sum of twenty-five thousand dollars, either in cash or convertible securities, for the purpose of erecting a Nurses' Home in connection with the Wentworth Hospital, is hereby most gratefully accepted, and the city of Dover not only

pledges itself to apply said donation toward the accomplishment of the purpose expressed in the communication this evening received, but desires to convey to the distinguished donor its deep sense of obligation for his munificent and timely gift.

Immediately subsequent to the formal acceptance of the donation, Mr. Rollins deposited with the treasurer of the city of Dover a block of  $4\frac{1}{4}\%$  Fourth Liberty Loan bonds of the par value of \$26,150.00, and twenty-one shares of Cities Service Company common stock carrying a market value, at time of delivery of \$6,636.00.

At the close of the fiscal year this fund, through judicious sales and interest earning capacity, aggregated \$36,017.45.

At a special meeting of the board of trustees held January 3, 1920, called at the suggestion of Mr. Rollins, the interest of that public spirited citizen in the work of the Wentworth Hospital was again manifested in an additional donation as evidenced by the following confirmatory letter mailed just before his departure for California.

Dover, N. H., January 4th, 1920.

Board of Trustees,  
Wentworth Hospital,  
Dover, N. H.

Gentlemen:

I stated at your meeting yesterday, January 3d, that I would see that the Rollins fund for the building of a Nurses' Home for the Wentworth Hospital would be increased to the sum of \$55,000.00 during the present year, and this letter is to confirm the same.

In case of my death my sons will see that this is carried out.

Yours very truly,  
E. W. Rollins.

This generous augmentation of the original gift not only makes possible the early erection of a modern, commodious and beautiful building, but points the way for a material enlargement of various phases of hospital

work heretofore rendered impracticable because of inadequate accommodations.

CONCLUSION.

The board of trustees is deeply appreciative of the intelligent and effective support and co-operation of the entire hospital personnel, in the administration of departmental affairs. To the superintendent, whose duties and responsibilities have been rendered unusually arduous by reason of the inconveniences and annoyances incident to the reconstruction of the basement area,—which was conducted without impairment of the daily regime,—our acknowledgments are especially due.

Respectfully submitted,

FRED C. SMALLEY,  
DANIEL HALL,  
FRANK B. WILLIAMS,  
JOHN KIVEL,  
HAROLD C. GETCHELL,  
THOMAS E. VARNEY,  
JAMES CAVANAUGH,

The year 1919 was one of steadily increasing responsibilities and expenditures. The work of the hospital continues to increase. We have a demand for ward private rooms which many times we are unable to fill. The work of the maternity department overflows more than ever into the private room department. At one time we had twenty-eight mothers and babies in a department whose number of beds was originally four. This necessitated converting private rooms into two and three bed wards.

The increased cost of living sends more and more patients to the hospital. This is especially true of maternity patients. A great effort has been made to care for all patients of this class this last year. The expectant mothers cannot be left without care with a hospital in the community. Fortunately a solution of this special trouble is looked for in the near future.

Our generous townsman and good friend Mr. E. W. Rollins, of Three Rivers Farm, when he decided to give us a nurses' home as a memorial to his beloved daughter, Mrs. Ashton Rollins, solved many of our problems. Upon the erection of this home available space will be had in the hospital for both a larger maternity department and a children's ward.

The number of pupil nurses is below our average. The nursing service has to be supplemented by grad-

uates. The small training school offers no inducement to the young women of the present day who have a choice of work. The large wage and short course of work being a factor in their decision not to enter a training school for nurses.

The domestic worker has demanded an increase of from seventy-five to one hundred per cent. of the wages once paid, and there is an increasing desire for fewer hours work. We cannot get on without domestics. This high level of wages will persist, I believe, permanently.

I would heartily recommend to the board of trustees an increase in the hospital rates. In common with other hospitals we have this to do. The cost of every article in every department has advanced from one to three hundred per cent. The coming year would seem to offer no relief from this condition of high cost.

The problems of hospital administration of this year of 1919 are too familiar to you all to need any detailed account from me. But for your helpful co-operation the work of the superintendent could not have been done.

The gift of Mr. Rollins is a wonderful feature of our hospital year. Given with the generosity and simplicity which is an out-standing characteristic, there is a determination on the part of Mr. Rollins to see this memorial home built on a plan to hold good for all future use. A fitting memorial to the beautiful and gracious woman, Gladys A. Rollins.

Respectfully submitted,

GRACE P. HASKELL, R. N.,  
Superintendent.

## REPORT OF THE SUPERINTENDENT.

### TO THE BOARD OF TRUSTEES:

The activities of the department during the past year have largely been confined to meeting general administrative conditions and the performance of such permanent work as immediately prospective needs seemed to render imperative. Briefly summarized these activities embraced:

General maintenance;

Care of lots placed under perpetual control;

The grading and seeding of a twenty-seven-lot section in the new addition;

The extension of Walnut avenue;

The construction of 113 foundations for monuments, headstones and markers.

The resetting of quite a number of headstones, rendered possible through the generosity of the late J. B. Guppy, who created a trust fund for such purpose;

The further development of the grounds surrounding the chapel;

Improvement of the Waldron burying ground.

Following is a chronological list of the interments for the year:
