INDEX TO THE GRANITE MONTHLY.

VOLUMES 1-34.

COMPILED BY OTIS G. HAMMOND.

This index includes authors, titles of articles, portraits, and pictures of buildings erected for the use of the public. Pictures of private property, such as residences, hotels, mills, and business blocks and locations, are not indexed unless they are of some particular historical interest. Landscapes are not indexed, but the few views of towns and cities appearing in the volumes are included.

In indexing authors the names have been given in the fullest form in which they appear, and are printed in italics. The titles of articles following each author's name are exact. For economy of space the names of authors as used in the subject index are abbreviated, and are enclosed in parentheses.

No title of an article is to be regarded as bibliographically correct except in the list following the author's name. In all other cases the exact form of a title is subject to necessary change in order that the important feature of the article may be clearly and intelligibly indexed.
