During 1965 the Library has been busy, as is customary. Circulation was down slightly from the preceding year (191 less). However, figures released by the State Library show that we still led the state in per capita circulation.

Two improvements were made to the Library building in 1965. The roofing, which was in very bad shape and leaking was replaced with new white composition shingles. This work cost nearly twice the sum budgeted for it; as a greater area than originally planned had to be re-covered, and other repairs made as well. Then, an anonymous gift of \$500 made it possible for us to install a toilet. This project is not quite completed—lacking paint on the new woodwork. It is hoped we can finish it in 1966.

As always, the Librarian and Trustees thank the Town, the Teachers and their many friends for their generosity and interest; and to Mr. John Wright and the Bookmobile we are also most grateful.

Respectfully submitted,

WILLIAM R. DEAL,
Librarian

FIRE DEPARTMENT'S AUXILIARY—1965

The Auxiliary of the Piermont Fire Department consists of six paid up members. They have made sandwiches, served them with coffee and doughnuts at (5) fires, two being very serious ones, and refreshments were furnished day and night.

Those who couldn't go to the scenes baby sat.

They have put on card parties and bought walkie-talkies for the fire department and helped on Oyster Stew suppers, made donations to a Christmas box.

They wish to thank those who helped with refreshments at the Morrill fire.

REPORT OF THE FOREST FIRE WARDEN
AND DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark of flame is a potential fire.

WE MUST ALL BE CAREFUL:

1. To teach our children the danger in lighting matches.
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush;
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 p. m.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

As your superintendent approaches the mid-point in his first year of tenure, he has observed many problems facing education in this area but the one single greatest dilemma is: "How are we going to continue supporting public schools with costs rising at such a rapid rate?" No one has the answer but one fact we all recognize—we have children and they must be educated to live in an atomic age that was inconceivable twenty years ago.

Our educational responsibilities are only beginning when we consider the rate at which man acquires knowledge. It is estimated that knowledge doubled for the first time at about 1700; again around 1900; the third doubling occurred about 1950; and the fourth in 1960. If it is true that we are now gathering new knowledge at such an astounding pace that we are doubling the world's gross supply of information every ten years, then the educational process may soon find itself under overwhelming stress. New ways of learning must be rapidly developed and installed in the schools if we are to maintain an intellectual balance between the acquisition and absorption of new knowledge.

Another factor which is often overlooked by many of us is the influence that technology has had on our everyday life and especially education. The technology of the 1960's has created a society which is far from stable. Spectacular breakthroughs in science and computer technology have generated an atmosphere of rapid and accelerating change. Evidence of a changing society may be seen at every turn. Even the relatively new concept of automation is giving way to a newer process called cybernation.

In order for all of us to become aware of the why's and wherefor's of financing education, we must become aware of the magnitude of the extravagant changes which are taking place in society. Our children must compete intellectually and

as citizens in a society that changes day to day. To keep pace, our educational system must continue to improve in the future. All of this will require more thinking and planning on the part of the educational profession and more money from the citizenry. There are two ways to get to the top of an oak tree. One is to climb it, the other is to sit on an acorn.

May I take this opportunity to thank the school board, teaching staff, and citizenry of Piermont for their fine support during this first year.

The report of Mrs. Muriel LaMott, R. N., follows.

Respectfully submitted,

Norman H. Mullen
Superintendent of Schools

REPORT OF SCHOOL NURSE

Number of pupils examined	71
Number of School Visits	25
Home Visits	25
Number successfully vaccinated	9
Symptoms of Defects:	Corrections:
Vision	20
Tonsils	1
Teeth	30

Communicable diseases reported:

Chicken Pox	2

Routine vision and hearing tests were completed and referrals made when necessary.

Heaf tbc skin tests were done in grades 1, 4, and 8.

One pupil was treated at Dr. Allen's office in Hanover.

There was an Immunization Clinic held at school May 27, 1965. The following immunizations were given:

Tetanus and Diptheria Boosters	45 pupils
Tetanus Boosters	2 pupils
Tetanus Boosters	4 adults
Tetanus, first inoculation	1 adult
Smallpox re-vaccinations	30 pupils
Small pox re-vaccinations	4 adults

Vaccine for the above immunization was furnished by the Department of Public Health. The Woodsville Nurses' Association donated the needles and syringes. Dr. Murdock gave the shots at school. I want to thank Dr. Murdock, Mrs. Lois Reed, Public Health Nurse, and Mrs. Jean Putnam, R. N., for their assistance at this clinic.

In the fall of 1964, a representative from the Crest Company met with Mr. Bennett, Dr. Edwin Jamback and myself

to discuss the Educational Program that Crest was offering to the elementary schools. After the meeting, it was decided to take advantage of this program. The Crest Company furnished educational materials for Grades 1-8. Grade III pupils were given the Dental Instruction Kit designed as a tool for teaching dental Hygiene in the Classroom. The Kit included toothbrush, disclosing tablets, Crest toothpaste. In February, Dr. Jamback visited the school and talked with grades 1-4. Tooth brushing demonstrations using the kits were done. I want to thank Dr. Jamback for taking the time to go to the school and assist with this special educational program.

I also want to thank the parents for the excellent dental care they have given their children this year. Sixty-three pupils reported that they had visited their family dentist.

Four professional meetings were attended during the year.

An extension course was taken during the Fall semester. This course was sponsored by the University of Vermont and consisted of 15 evening classes taught at McIndoes, Vermont.

I want to thank Mr. Bennett, Mr. White, and his staff for their continued interest in the School Health Program. I also want to wish Mr. Bennett many years of happy retirement.

Respectfully submitted,

Muriel LaMott, R. N.
