# THE WMUR GRANITE STATE POLL

July 20, 2016

## CLOSE RACES, UNKNOWN CANDIDATES IN BOTH NH CONGRESSIONAL DISTRICTS

By: Andrew E. Smith, Ph.D.  
Zachary S. Azem, M.A.  
UNH Survey Center  
603/862-2226  
www.unh.edu/survey-center

DURHAM, NH –First District Congressman Frank Guinta remains very unpopular in his district and is in a close race with former Congresswoman Carol Shea-Porter. Second District Congresswoman Ann Kuster is not very popular in her district and is in dead heats with two unknown challengers.

These findings are based on the latest **WMUR Granite State Poll**,\* conducted by the University of New Hampshire Survey Center. Five hundred and thirty-two (532) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between July 9 and July 18, 2016. The margin of sampling error for the survey is +/- 4.2 percent. Included were four hundred and sixty-nine (469) likely 2016 general election voters (MSE = +/- 4.5%). Two hundred and forty-nine (249) residents (MSE = +/- 6.2%) and two hundred and fifteen (215) likely voters (MSE = +/- 6.7%) were from the First Congressional District and two hundred and eighty-three (283) residents (MSE +/- 5.8%) and two hundred and fifty-four (254) likely voters (MSE +/- 6.1%) were from the Second District.

### Favorability Ratings – Frank Guinta

In New Hampshire’s First Congressional District, incumbent Frank Guinta remains unpopular, largely due to fallout from a settlement with the Federal Election Commission (FEC) over campaign finance violations from his 2010 run for Congress. Currently, only 25% of 1<sup>st</sup> District adults have a favorable opinion of Guinta, 42% have an unfavorable opinion of him, 5% are neutral and 28% don’t know enough about him to say. His net favorability rating is -17%, up slightly from -22% in April. Guinta is somewhat popular among Republicans (net +15%), somewhat unpopular among Independents (-5%) and very unpopular among Democrats (-51%). Guinta’s net favorability amongst 2016 likely voters in -20%.

Favorability Ratings - Frank Guinta NH 1st District

\* We ask that this copyrighted information be referred to as *the Granite State Poll*, sponsored by WMUR-TV, and conducted by the University of New Hampshire Survey Center.

### Republican Challengers – 1<sup>st</sup> District

Guinta is being challenged in the September primary for the Republican nomination, but his challengers are largely unknown among 1<sup>st</sup> District likely voters. Rich Ashooh of Bedford, who challenged Guinta for the nomination in 2010, is not well-known – currently 13% of 1<sup>st</sup> district likely voters have a favorable opinion of Ashooh, 5% have an unfavorable opinion, 9% are neutral and 74% don't know enough about him to say. Ashooh's net favorability is +8%.

Currently 0% of 1<sup>st</sup> district likely voters have a favorable opinion of Jamieson Gradert (R-Hampstead), 6% have an unfavorable opinion, 7% are neutral, and 87% don't know enough about him to say. Gradert's net favorability is -6%.

### Favorability Ratings – Carol Shea-Porter

Former congresswoman Carol Shea-Porter, who held the first district seat from 2007-2011 and 2013-2015, will once again be the Democratic nominee in 2016. If Guinta wins the Republican nomination, it would mark the fourth consecutive election they would face off for the seat. Currently 40% of 1<sup>st</sup> District likely voters have a favorable opinion of Shea-Porter, 37% have an unfavorable opinion, 5% are neutral and 18% don't know enough about her to say. Her net favorability is +3%. Shea-Porter is very popular among Democrats (+60%), unpopular among Independents (-18%) and very unpopular among Republicans (-50%).

### Shea-Porter vs. Guinta – 1<sup>st</sup> District

If the 2016 election for Congress in New Hampshire’s 1<sup>st</sup> District was held today and the candidates were Shea-Porter and Guinta, 43% of likely voters say they would vote for Shea-Porter, 37% would vote for Guinta, 7% would vote for someone else and 13% are undecided. Both candidates do well within their own party (Guinta leads 72%-9% among Republicans and Shea-Porter leads among Democrats 79%-4%), while Guinta has a 42%-20% advantage among Independents. There is a significant gender gap as Shea-Porter leads 49%-26% among women and Guinta has a 47%-38% advantage among men.

**Guinta vs Shea-Porter -- 1st District Likely Voters**

### Shea-Porter vs. Ashooh – 1<sup>st</sup> District

If the candidates were Ashooh and Shea-Porter, 46% of likely 1<sup>st</sup> District voters say they would vote for Shea-Porter, 29% would vote for Ashooh, 6% would vote for someone else and 18% are undecided. While Shea-Porter leads 82%-1% among Democrats, the lesser known Ashooh only has a 58%-11% lead among Republicans. Independents are divided, with 35% supporting Ashooh, 33% supporting Shea-Porter and 23% undecided.

**Ashooh vs Shea-Porter -- 1st District Likely Voters**

### Favorability Ratings – Ann Kuster

Second District congresswoman Ann Kuster is not popular in her district -- currently, 28% of 2<sup>nd</sup> District adults have a favorable opinion of Kuster, 32% have an unfavorable opinion of her, 8% are neutral, and 32% don't know enough about her to say. Her net favorability rating is -4%, which is down from +8% in April. She is popular among Democrats (net +40%), unpopular among Independents (-10%), and very unpopular among Republicans (-52%). Kuster's net favorability among 2016 likely voters is -3%.

Favorability Ratings – Ann Kuster -- 2<sup>nd</sup> District

### Republican Challengers – 2<sup>nd</sup> District

Potential Republican challengers in the Second District are not well known among likely voters. Currently 7% have a favorable opinion of State Representative Jack Flanagan (R-Brookline), 4% have an unfavorable opinion, 7% are neutral and 82% don't know enough about him to say. Flanagan's net favorability is +3%.

Former State Representative Jim Lawrence (R-Hudson), who ran for the nomination in 2014, is also unknown -- 7% have a favorable opinion of Lawrence, 1% have an unfavorable opinion, 7% are neutral and 85% don't know enough about him to say. Lawrence's net favorability is +6%.

Casey Newell (R-Deerfield) is unknown to most 2<sup>nd</sup> District residents -- only 2% have a favorable opinion of 3% have an unfavorable opinion, 8% are neutral and 87% don't know enough about him to say. Newell's net favorability is -1%.

State Representative Eric Estevez (R-Pelham) is also unknown -- only 1% have a favorable opinion of him, 4% have an unfavorable opinion, 7% are neutral and 88% don't know enough about him to say. Estevez's net favorability is -3%.

Favorability Ratings - Presidential Candidates - July 2016 - Likely Voters

### Kuster vs. Flanagan – 2<sup>nd</sup> District

If the 2016 election was being held today and the candidates were Flanagan and Kuster, 38% of 2nd District likely voters say they would vote for Kuster, 32% would vote for Flanagan, 4% would vote for someone else and 26% are undecided. Kuster leads 71-6% among Democrats, while Flanagan only leads 60%-6% among Republicans. Flanagan also has a slight edge among independents (33%-26%). Kuster has a 40%-27% advantage among women while Flanagan has a 39%-34% edge among men.

**Flanagan vs Kuster -- 2nd District Likely Voters**

### Kuster vs. Lawrence – 2<sup>nd</sup> District

If the candidates were Lawrence and Kuster, 38% of 2<sup>nd</sup> District likely voters say they would vote for Kuster, 32% would vote for Lawrence, 4% would vote for someone else and 26% are undecided. Kuster leads 75-5% among Democrats, while Lawrence only leads 61%-6% among Republicans. Lawrence also has a slight edge among independents (28%-26%). Kuster has a 40%-25% advantage among women while Lawrence has a 40%-36% edge among men.

**Kuster vs Lawrence -- 2nd District Likely Voters**

## Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center and funded by WMUR-TV, Manchester, NH. Five hundred and thirty-two (532) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between July 9 and July 18, 2016. If a household included more than one adult, the adult who had the most recent birthday was selected to be interviewed.

The margin of sampling error is +/- 4.2 percent for the entire sample. Included were four hundred sixty-nine (469) likely 2016 general election voters (MSE +/- 4.5%). Two hundred and forty-nine (249) residents (MSE = +/- 6.2%) and two hundred and fifteen (215) likely voters (MSE = +/- 6.7%) were from the First Congressional District and two hundred and eighty-three (283) residents (MSE +/- 5.8%) and two hundred and fifty-four (254) likely voters (MSE +/- 6.1%) were from the Second District. These MSE's have not been adjusted for design effect. The design effect for the survey is 1.1%.

The random sample used in the WMUR Granite State Poll was purchased from Marketing Systems Group (MSG), Horsham, PA. MSG screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

The data have been weighted to adjust for numbers of adults and telephone lines within households. Additionally, data were weighted by respondent sex, age, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

For more information about the methodology used in the WMUR Granite State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).
