At request of Chairman — City Hall

INDUSTRIAL DEVELOPMENT COMMITTEE:

7:30 p.m. — 4th Thursday of each month — City Hall

CITY COUNCIL:

8 p.m. — Monday — Council Chambers — City Hall

BERLIN

To the Citizens of Berlin:

It is my pleasure and privilege to present my first annual report as Mayor of the City of Berlin. The past year has been a most pleasant and busy one and I have enjoyed working with you dedicated City Council, our outstanding and devoted citizens who have served on our many board and commissions, our capable department heads and city employees.

To each I wish to extend congratulations for a job well done and a most sincere thank you for your splendid cooperation and interest toward the well being of our fine community.

I wish to also take this opportunity to compliment our City Manager who is proving his ability and efficiency in his efforts to improve our services, to cope successfully with our problems, and to bring Berlin to a more sound economic status. In my behalf, I thank him and the members of all boards and commissions. I wish to thank him for his tireless efforts and for the excellent relationship with all that has been established.

It is a known fact that this administration is one that is dedicated and has assumed its responsibilities. Many more hours and much more time has been spent in facing up to the problems that confront the city. The operation of the municipal government is far more complicated and time consuming than most imagine. However, actions is the fact accomplished to the benefit of all. Proof of our actions of well that the City was operated during less than was anticipated. This over one hundred thousand dollars less than was anticipated. This indicates full cooperation by all concerned and will result with our continued efforts in a decrease in cost to all in the year ahead.

Berlin is now speaking out and is being recognized more now than has been the case in other years. We have a closer relationship, in my opinion, than ever before with higher echelons of government. Such an example is indicated by the fact that we had the honor of having for the first time in Berlin's history an inaugural ball for our Governor held at the State Armory. Another advancement in relationships are the monthly informational meetings held which are State Senator and Representatives to the General Court which may prove to be of great value and keeps us all abreast of what may transpire in state legislation.

One of our major problems for years has been that the City has lacked an industrial park and therefore has suffered in its efforts to improve growth. I am both pleased and proud that we now have our first motel and it is my sincere hope that in the near future I will have the privilege to announce the first occupant. Additionally, it is my intent to secure a second site in the near future in an effort to further be in a better position to entice industrialists to locate in Berlin and accomplish two important things - first, to provide additional employment, and, secondly, broaden our tax base to lessen everyone's burden.

It is my firm belief that in the coming year we will make great strides forward in our endeavors. However, we must, and will, continue to work together - I solicit greater participation by our citizens and hope that more will become involved. foresight and good planning will determine our future and - the greater the effort - the greater our success will be.

I feel honored to have had the privilege of serving as your Mayor for the past year. I look forward to the year ahead with much anticipation knowing full well it will be one of greater accomplishments.

Very truly yours,
Sylvio J. Groteau
Sylvio J. Groteau
Mayor

The Mayor worked closely with the Board of Water Commissioners for a New Water Filtration Plant to provide more and better quality water for the City of Berlin.

The Mayor worked with all our Congressmen and Senators in concentrated efforts to obtain federal funds.

Mayor and City Council approved plans and authorized construction of Basic Recreational Facilities at Dead River Watershed, Site No. 1. Access Road to be constructed by the City.

Mayor and City Council worked as a whole to develop and approve plans for construction of new Twelfth Street Bridge and a relocation of the proposed right-of-way.

Worked closely with the Planning Board and Zoning Board to make zoning changes to improve Berlin's position for growth.

Worked closely and supported Mental Health Clinic, Holiday Center, Teen-Age Center, Berlin Help, and the North Country Community Services.

Met and worked regularly at monthly meetings with the State Senator and Representatives to the General Court.

Followed closely the problems of the Board of Education as to the sizeable increase in enrollment. Supported and financed the Dual Enrollment Program.

Negotiated and completed the purchase of a tract of land to be Berlin's first Industrial Park property.

Operated and maintained the Municipal Airport Complex - Administration Building, Runway, etc. for both winter and summer use.

Followed closely the completion of construction of the New Senior High School and the extensive renovations to the Junior High.

Devoted many hours in study and travel in preparation for the study on water pollution abatement.

Worked closely with the Board of Police Commissioners to establish an ambulance service in the area.

BERLIN

NEW HAMPSHIRE 03570
The City That Trees Build

To the Honorable Mayor, Members of the City Council and the Citizens of the City of Berlin:

Once again it is our pleasure to present the third annual report in calendar form for the community. It is interesting to note that we use one of the oldest record forms of mankind, the calendar, to present a record of the happenings of the past year plus a brief schedule of future meetings and other items of civic interest. Through this schedule we hope more of our citizens will become involved in civic affairs and the general municipal operation of the local government. Each of us should take an active part in our community and your interest is both welcomed and necessary.

During the past year all accounts were balanced, but with much difficulty due to extenuating circumstances and unforeseen changes that greatly affected certain departments. Regardless, we do have the satisfaction of having resolved some significant problems, of having made inroads upon others of major scope, but with the nagging knowledge that inflation and escalating costs together with important projects that soon must be undertaken remain as a continuing problem to the City's economic status. This becomes more complicated due to the lack of cost-sharing by the various agencies of both the Federal and State Governments relative to schools, public improvements and the critical problem of pollution which we must attack in the coming year.

WHAT'S DONE

Completion of Construction of the new Berlin High School - (October)
Completion of Renovations to the Berlin Junior High School - (December)
Completion of the Anderson-Nichols Company, Inc. Pollution Abatement Study and Report - (August)
Establishment of a City-wide Disaster Plan and completion of a Training Seminar.
Execution of Revised Agreements for the Construction of Dead River Recreational Facilities with the Access Road to be constructed by the City.
Revision and modification of many sections of existing City Ordinances.

WHAT'S PLANNED

Authorization and Execution of Project Agreements for the Dead River Channel Improvements Project.
Commencement of Construction of Dead River Channel Improvements Project.
Commencement of Construction of the Dead River Recreational Facilities. Bids are due in May.
Commencement of Construction of the so-called Twelfth Street Bridge.
Development of the Industrial Park Property and completion of negotiations for the purchase of a second such site.
Selection of an Engineering Firm to complete design and construction plans for Phase I of Pollution Abatement Project upon receipt of approval of Anderson-Nichols study and report.

A GLANCE AT

Water Filtration Treatment Plant and Sanitary Sewage Project applications for construction grants to be filed.

WHAT'S IN THE FUTURE

Commencement of Construction of Water Filtration Treatment Plant. Completion of Construction of so-called Twelfth Street Bridge - 1974.
Completion of Construction of Dead River Recreational Facilities, Site Number 1 - 1974.
Completion of Construction of Dead River Channel Improvements Project - 1974.
Design and Construction of Drainage Facilities.
Design and Construction of Sewerage Treatment Facilities to eliminate water pollution - Phase I.
Development to a greater degree of an Industrial Park Complex at one or more locations.

Our primary goal remains that of high-quality service to the total community provided with the least expenditure of your tax dollar. The enactment by the Federal Government of the State and Local Fiscal Assistance Act of 1972, more commonly known as General Revenue Sharing, will be of some assistance in the future but is exceptionally minor when compared to our needs. In the minds of many this law is too restrictive in areas where the need is greatest, especially to those who have pollution and highway problems of major importance and requiring sizeable expenditures of funds.

A healthy and sound community is only created by its citizens and by what they contribute toward its development and improvements. We have a fine community -- we have a community in need of many things which can be to the benefit of all -- but we must work to accomplish that which we desire. The greater the effort through strength in numbers - the greater our accomplishments will be.

With the continued cooperation of your capable Mayor and City Council, the dedicated efforts of our employees, appointed officials, and your continued interest and participation in community activities, I look forward to the years ahead with confidence that we will successfully cope with the many challenges which Berlin will face in the future. We should, and must, all continue to work together for the general welfare of the community.

Respectfully submitted,

Joseph F. Burke
Joseph F. Burke
City Manager

FINANCE DEPARTMENT

The following is the report of the Finance Department for the year ended January 31, 1973.

Maintained complete accounting records of the City of Berlin General Fund, School Building Fund, Parking Meter Fund, Public Improvement Fund, Sewer Fund, Bridge Fund, Revenue Sharing Fund, and the Berlin Airport Authority. This Office also maintained complete accounting records for various Government Projects.

Assisted the City Manager in the preparation of budget, preparation of bids or quotations on major purchases, and the issuing of purchase orders.

Completed financial surveys for State and Federal Governments.

Prepared financial reports for Mayor & City Council, City Manager, and the City Treasurer.

Kept records and processed insurance claims for Workmen's Compensation, Group Insurance, Liability Insurance, and Medical Insurance.

Processed applications for Medical Insurance and Group Insurance and prepared monthly statement of same.

Kept records and processed centralized purchasing such as gas, oil, postage and supplies for various departments.

Additionally, the staff maintained records and published reports for the Industrial Development Committee, the Planning Board, the Electric Utility Commission, Water Pollution and Regional Planning.

Respectfully submitted,

(Mrs.) ALINE BOUCHER
City Comptroller

REPORT OF CITY CLERK

I herewith submit my report as City Clerk for the year ending February 1, 1973.

The City Clerk's Department filed and indexed 561 Financing Statements, 133 Termination Statements, Sales and Mortgages.

Issued and recorded 158 Marriage Licenses, 217 Birth Certificates, 170 Deaths.

Issued, indexed and filed 683 Dog Licenses.

Registered 9,500 vehicles including cars, trucks, trailers and motorcycles.

Copies of all Vital Statistics were forwarded to the Department of Vital Statistics, Concord, N. H. Copies of all birth certificates were prepared and mailed to the parents.

Cemetery lots were sold and deeds issued and recorded.

All Junk Yard and Taxicab Licenses were issued and filed.

Monthly reports of Vital Statistics were forwarded to the Office of Vital Statistics in Concord, N. H. Monthly labor reports were also forwarded to U. S. Department of Labor in Concord, N. H.

The City Clerk is also agent for the New Hampshire Fish and Game Department.

In addition to the above functions, the City Clerk also acts as booking agent for the municipal halls which are rented for weddings, anniversaries, showers and benefit parties.

The following tabulation shows the listings of Marriages, Births, Deaths as recorded during the past five years:

	1968	1969	1970	1971	1972
Births	277	275	236	253	217
Marriages	146	153	160	150	167
Deaths	211	186	190	176	160

WELFARE DEPARTMENT

I herewith submit my report as Overseer of Public Welfare for the year ending January 31, 1972.

All eligible cases are temporarily assisted, supervised, rehabilitated, directed to the proper agencies for permanent assistance, based on the State of New Hampshire settlement laws.

Every person who comes to this department for aid is counseled and referred to the Federal Program that might be most helpful.

The following were aided by this Department during the past year:

- Direct Relief — 44 Families with 181 Individuals 13 Singles
- Soldiers' Aid — 20 Families with 72 Individuals 3 Singles
- Transferred to County — 3 Families with 9 Individuals 4 Singles
- Board and Care of adults 1 Single
- Old Age Assistance 140 Singles
- Alien Old Age Assistance 19 Singles
- Aid to Permanently and Totally Disabled 55 Singles

TOTAL CASES: 302 — TOTAL INDIVIDUAL: 497

PERSONS TO OFFICE: 2174

Respectfully submitted.

MAURICE A. BELANGER
Overseer of Public Welfare

REPORT OF THE BERLIN DISTRICT COURT

Jean L. Blais — Justice
George H. Keough — Special Justice
Lucien A. Fortier — Clerk

The Berlin District Court consist of the City of Berlin and the Towns of Milan, Dummer, and the unincorporated places of Cambridge and Success.

Regular sessions are held at 9:00 A.M., five days a week in the District Court Room over the Police Station on Green Street.

BERLIN CIVIL DEFENSE

During the year, the Civil Defense Unit has forwarded quarterly reports to the N. H. Civil Defense Agency in Concord. This report covers the expenditures of administering the local unit. A reimbursement of 50% from the Federal Government is returned to the city through this Personal & Administrative report and a copy is on hand in this office and the Finance Department.

Under the Federal Surplus Property Program, there has been some heavy-duty equipment acquired for the city departments. This program continues to bring savings on many items to the various municipal departments which are included in the Civil Defense Unit.

There is now a workable Emergency Preparedness & Operational Plan for the city. And, in May 1974, there will be more training sessions on emergency operations. All department heads and others will be involved in this training period under the direction of Mr. Kenneth Fields of the University of New Hampshire.

The Auxiliary Police have been kept busy throughout the year in training programs. There are now seventeen members in this unit and two regular policemen are in charge. This unit receives on-the-job training in all duties carried out by the regular police force. Meetings are held once a month and they are privileged to hear lectures from other law enforcement groups throughout the state. A parcel of land has been leased from the Brown Company on the East Milan Road and this will allow the training unit, including the regular force, to hold target practice sessions and other drills. Seventy-five percent of the men are now qualified for all types of police duty and their services have been used extensively.

The possibility of establishing the Emergency Operation Center and Communications Center elsewhere than the city hall basement is still under consideration. A survey will need to be made before going ahead with plans.

PARKS & PLAYGROUNDS DEPARTMENT

Certainly, "Fun in the Sun in 1972", could have been our theme for last year. More activities offered during the past twelve (12) months were out-side; than in any previous year with more people participating. From baseball, softball, bocce, tennis, swimming and playground activities; we tried as much as possible to be in the great outdoors.

Even though we utilized the out-of-doors when weather permitted, we didn't curtail our indoor programs. For the adults we added Craft-Reaction, Square Dancing and Tops.

People not familiar with our program wonder how so much can be offered — this has always been accomplished, because we have many people willing to do more than their share.

Yes, our budget has gone up over the years, but our service to the community goes far beyond our budget, because of the volunteers — fifty (50) devoted and dedicated people helping children to get a good start in life. Without them, the programs we offered would have been impossible.

The five (5) tennis courts proved successful with large attendance; far ahead of the previous year and added interest with tournaments and lessons for children.

The ski lessons proved very successful with eighty (80) children participating Saturday mornings. An added attraction at the end of the season was a carnival with both adults and children participating.

We have one great winter problem on our seven (7) outdoor rinks, as to much hockey is being played and smaller children are not getting their share of ice time; with sticks and pucks flying about. If we are every going to control these rinks, one of two things must be done — first, an attendant at each rink to supervise or cut down to one large rink in each Ward, properly lighted with a heated shelter and supervisor on duty; with a standard schedule for skating and hockey hours. Then many new programs can be added without extra cost to the taxpayer — such as, carnival on ice, costume parade and special skating events; just to name a few.

In closing, may we express our thanks to all members of the City Government, and to all Organizations and volunteers for their assistance during the past year.

BOARD OF ELECTRIC UTILITY COMMISSIONERS

The Commissioners' work has progressed slowly during the year ended, January 31, 1973. However, in July, the Commissioners attended a meeting held in the offices of Attorney Richard Upton in Concord, New Hampshire, as observers on legal questions pertaining to Tepeco, Inc.

In November, negotiations with Public Service Company of New Hampshire were resumed at a meeting held in Concord, New Hampshire.

It is hoped that the proposed construction of a fossil-fueled electric generating facility in West Milan, New Hampshire, scheduled for the spring of 1973 will accelerate negotiations with Public Service Company of New Hampshire concerning the Berlin Municipal.

The Commission meets on the third Tuesday of the month at 7:00 p.m. in City Hall and the public is cordially invited.

Respectfully submitted,

JOHN JACOBS, Chairman
OLIVER BELL
OLIVA MORNEAU

BERLIN HOUSING AUTHORITY

Low-Rent Housing

On May 15, 1972, the Berlin Housing Authority opened for tenancy its second low-rent housing project, the Parkside Apartments. Situated north of Cole Street on parcel R-1, the five-building complex contains 31 dwelling units designed for occupancy by the older person. Also located on parcel R-1 are the offices of the Authority (see exhibit a, Development Status Map, for the location of all parcels mentioned in this narrative). As can be seen from exhibit b, an aerial photograph of the Parkside Apartments, vehicular access to the project's three northernmost buildings is from Green Street at a point immediately south of the underpass. This gravel road is to be replaced by new Granite Street, the location of which is shown in exhibit a. Plans and specifications for the construction of Granite Street are being drawn up for the New Hampshire Department of Public Works and Highways.

All told, the Authority now operates 55 units of low-rent housing on two sites. All units are occupied and at this writing there are close to 40 qualified applicants waiting for an apartment. Average rent being collected by the Authority is \$42.00 per month. This is a gross rent which includes heat, hot water, and electricity.

Urban Renewal

The masonry structure on parcel C-1 was completed in July and on the 27th of that month the fast-food unit occupying the building opened its doors for business. This parcel is located at the corner of Green and Pleasant Streets.

Two of the three public parking areas planned for the urban renewal area, parcels P-1 and P-3, were constructed during 1972. The third area, parcel P-2, was rough graded and lighted and is to be paved, lined, and landscaped by the City in 1973. When completed, these three parking areas will contain a total of 245 spaces.

Also completed in 1972 were 1) the demolition phase of the urban renewal project; 2) the reconstruction and widening of Mason, York and Cole Streets (Mason and York Streets were widened to 50 feet — new Cole Street running between Mason and Green Streets was opened to traffic in June); and 3) the installation of (a) new sidewalk and granite curbing along Green and Pleasant Streets, (b) aluminum light standards along Pleasant, Mason, York, Cole and Green Streets, and in the three public parking areas, and (c) new traffic lights on Pleasant at Mason and at Green Streets and fire alarm boxes on Cole and Pleasant Streets. Photographs showing these installations are included in exhibit c.

Undergrounding of phone and power lines in the urban renewal area was completed during the year and, on November 3rd, the last of the wood utility poles in place in the urban renewal area was removed. Photographs of Green Street before and after removal of the overhead phone and power systems are included as exhibit d of this report.

Site improvement work planned for 1973 includes the installation of curbing, sidewalk, and street lights on Pleasant Street at parcel C-2, and the resurfacing of Pleasant and Green Streets.

In addition to parcels P-2 (public parking) and S-2 (new Granite Street) mentioned above, parcels remaining to be developed at year's end include R-2, O-1, R-3, and C-2.

Based on meetings with Mr. Edward Willey of the Kent Nursing Home in Lancaster, New Hampshire, and his architect, Mr. Henry J. Euler, Jr. of Dover, New Hampshire, the Authority expects to receive in early 1973 Mr. Willey's written offer to purchase parcel R-2 for the purpose of constructing thereon a 70-bed nursing home.

Development of the park area stated for parcel O-1 cannot be undertaken by the Authority until improvement of the Dead River channel is completed by the Department of Agriculture's Soil Conservation Service. Development of parcel R-3 is also dependent upon accomplishment of the planned channel work inasmuch as a large part of R-3 will be required for construction purposes.

As can be seen from the Development Status Map (exhibit a), the Soil Conservation Service also will require parts of parcels R-2 and C-2 for the channel improvement project.

At this writing, the Soil Conservation Service is waiting for certain data from the City of Berlin in order to complete the drawings and specifications for the channel work. It is expected that the needed items will be given to the Service in time for it to commit the money for the improvement from its appropriation for fiscal 1973 (year ending June 30, 1973). Federal funds committed for the channel work in fiscal 1972 were returned to Washington in June and, if lost this year for the second time, would be difficult to secure again in fiscal 1974. Included in the City budget for fiscal 1974 for accomplishment of the channel project is \$75,000.

Authority Board

Mr. Albert Drouin was reappointed to the Authority in December. A member of the Authority since 1965, Mr. Drouin serves as assistant treasurer.

January, 1973

The preparation of this report was financed in part through a federal loan and grant from the Department of Housing and Urban Development under the provisions of Title I of the Housing Act of 1949, as amended.

REPORT OF PUBLIC WORKS DEPARTMENT

The year started as usual with snow removal as the big project for the Winter from February 1st to May. Then Spring Clean Up took over with cleaning up of sand and debris accumulated over the Winter months.

Many signs were replaced and new signs were installed in many parts of the City as needed.

The Spring and Fall Clean Up Weeks were carried out again this year with approximately 300 loads of trash taken to the dump.

New equipment purchased this year included (2) sidewalk tractors, (2) one ton rollers, (1) garbage packer, (2) surplus trucks, and (1) Station Wagon.

Election booths were installed and taken down in the four voting places four times this year with City, State, and Federal Elections.

The Urban Renewal area was graded, paved, curbed and signed with aid from L.M. Pike and are now in use by the public.

The cemeteries were cared for all year and the vault at Old City Cemetery was capped with hot asphalt cement.

The City Garage on Wight Street was kept busy remodeling equipment and caring for running equipment for several of the City Departments.

Retaining walls were built on the following streets: Houle Street, High Street, East Mason Street, Western Avenue, and Burgess Street.

Several of the Public Buildings were repaired by Public Works personnel, namely King School, Library, City Hall, and the Public Works Garage.

Garbage Removal was carried out all year and the new garbage packer has been a life saver on this project.

New sewers were installed on the following streets or parts of streets:

Walsh Street	Presidential Avenue
Jericho Road	Western Avenue (culverts)
East Mason Street	Enman Hill (culverts)
Adams Street	

Several Streets were sealed with hot asphalt and stone chips with the aid of Bell & Flynn Contractors of Exeter, New Hampshire. They are as follows:

Sealcoating Streets as follows:

Myrtle St.	387 sq. yds.	Providence St.	889 sq. yds.
Eighth St.	4,518 "	Howard St.	450 "
Sherry St.	1,944 "	Labossiere St.	1,433 "
Sweden St.	2,800 "	Seventh St.	289 "
Dustin St.	2,317 "	Sixth St.	3,009 "
Noury St.	1,711 "	Second Ave.	5,467 "
Portland St.	7,050 "	Third Ave.	1,867 "
Cedar St.	3,889 "	First Ave.	6,778 "
Quinn Ct.	661 "	Williams St.	1,244 "
Carl St.	978 "	Cascade St.	3,167 "
Pine St.	2,913 "	Thomas St.	639 "
Marble St.	1,964 "	Strafford St.	3,124 "
Brown St.	1,200 "	Berwick St.	639 "
Maple St.	1,458 "	East Mason St.	1,689 "
Norway St.	780 "	Carrol St.	2,493 "
TOTAL	34,570 sq. yds.	TOTAL	33,177 sq. yds.

Several other streets were sealed with hot asphalt concrete under contract with L.M. Pike of Gorham. They are as follows:

Main St.	Countryside Ave.	Moreau St.
High St.	Sweden St.	Third Ave.
Mason St.	Fourth St.	White St.
Green Sq.	Corbin St.	Rockingham St.
Pleasant St.	Gordon Ave.	Daley St.
Hutchins St.	Third Ave.	Sully St.
Walsh St.	Parking Lots in	East Mason St.
Manne St.	Urban Renewal	Maple St.
Horne St.	Kent St.	Ash St.
		(Off Alice St.)

Sidewalk repairs and reconstruction were carried out on the following streets or parts of streets:

Kent St.	Third Ave.
Forbush Ave.	Granite St.
Rockingham St.	Unity St.
Willard St.	Upper Main St.
Madison Ave.	Eight St.
Hillside Ave.	Merrimack St.
Church St.	

Catch Basins and Manholes:

Thirty-four catch basins were repaired or installed, and eight new manholes on sewers were rebuilt during the year on our various streets. Also 23 new sewer connections were made to new homes.

Planning and Engineering for Dead River Project, Sewage Disposal and Moxie Alley and other small projects have been carried on all year.

CLARENCE J. BRUNGOT
 Director of Public Works
 & City Engineer

REPORT OF INDUSTRIAL DEVELOPMENT

The past year has been one of slow but significant progress toward the goal of industrial development for the City of Berlin. Much has been done to lay the foundation for future developments. Although no single development has been finalized, success is near at hand on very important undertakings.

Mayor Sylvio Croteau, with full support of the Council, has started the drive for full support of industrial development by the purchase of the Brown Farm by the City of Berlin for a long needed industrial park. This industrial park will contain the city's required new water filtration plant which will be an asset to the city as well as serving the needs of any industry that may locate in the new industrial park.

Mayor Croteau and the City Council also turned over to the Industrial Development Committee two moderate sized buildings which can be used to serve small industries. These buildings are expected to be committed shortly. The Mayor is also making application to the State Industrial Development Authority and Governor Meldrim Thompson and Council as to the city's building a state industrial speculative building.

In order to facilitate the location of new industries in the Berlin area, there is a need for a zoning change that would permit the use of existing buildings for general business as well as light industry without injury or offense to the neighborhood. This type of zoning could be carried out without the need for creating special industrial zones all over the city and should affect only those buildings erected before zoning went into effect. These converted buildings could serve the needs of small industries as well as those of larger industries that have indicated an interest in expanding in this area. However, one excellent industrial prospect was lost to the City of Berlin due to premature press announcements as well as lack of preparation as to zoning and other prerequisites.

A coordinated effort has been launched to get various local groups such as specific interests or service clubs, interested in cooperating in industrial development efforts. The first meeting of this sort was held with local bankers who indicated interest and an eagerness to have proposals presented to them for examination.

TEPCO has continued steady progress in all phases of the announced project. Work is being completed on the IG & T Federal EPA permits along with the required material for State agencies in the order of their jurisdiction. Contracts for major equipment and its installation have been readjusted to cover the escalation for one year's delay and to the satisfaction of the principals involved. We have been advised that the basic long-term agreements for oil supply have been established, contingent upon permits and commencement of project construction this year. The Industrial Committee Chairman has been advised that the necessary steps are being taken to meet New Hampshire permit requirements and is assured that all procedures are being taken to move the IG & T project ahead this year.

A new brochure recommending the City of Berlin as an ideal location for new industrial development is being prepared by a sub-committee of the Industrial Development Committee, headed by Richard Vaillancourt. This brochure will contain pertinent data and information about the City.

Announcement has been made recently of a middle-income rental housing complex which will be welcomed as filling a long-time need in this city. Formal announcement will be made at a later date.

The Industrial Development Committee's thirteenth year of organization ending January 21, 1973 was funded with the amount of \$2,850.00 for industrial development work. Expenses for the year have been \$443.74. The balance not used of \$2,406.26 is being returned to the City.

It should be noted here that during the course of the year, the Chairman has again been able to make use of the TEPCO office, secretary and telephone to assist in doing all phases of his work on this project.

With the continued assistance and cooperation of all City officials and agencies involved, we can look forward to the initial results of our past hard work and planning this year and to future industrial progress.

Respectfully submitted,

ROBERT R. THERIAULT, Chairman
Berlin Industrial Development Committee

REPORT OF BERLIN WATER WORKS

COMMISSIONER'S REPORT

December 31, 1972

To His Honor the Mayor and City Council
City of Berlin, New Hampshire
Gentlemen:

Your Water Department is continuing its efforts to obtain a Government grant for the purpose of constructing a Filter Plant north of the City proper to filter water from the Androscoggin River.

The Androscoggin River at Berlin has in excess of 1,300 square miles of watershed to draw from, much of which is uninhabited. If this construction goes through it will supplement our present supply and eventually allow the phasing out of the entire Success watershed area, which has been recommended by the New Hampshire Water Supply and Pollution Department. The treatment of the Success area waters from this source is only simple chlorination and no filtration. The water supply is wide open to pollution as the public has free access to the area and further, the quantities of water required for the present demands needed for the City are not sufficient. The topography of the reservoir locations is such that they cannot be enlarged to store emergency quantities necessary. Therefore, our only alternative is the Androscoggin River.

Taking water from the Androscoggin River will consist of an intake pumping station with low head pumps and a facility for pre-chlorination, filtration and purification which will allow the City to have unlimited quantity of water of the highest quality.

The design of the plant and piping layout into the City will be such that water may be furnished to the Town of Gorham and industrial areas northerly towards Milan if necessary. In addition, 84 acres of land is being acquired by the City for an industrial park in the hope of inducing industry to our community.

There will be added expense to operate a plant of this type, but the upkeep of pipe lines and repairs to dams will be eliminated together with complaints of dirty water in high water consumption periods.

The City Government's cooperation and assistance in this undertaking is most necessary and desirable to making this project a reality.

Respectfully submitted,
Board of Water Commissioners
Emmet Kelley, Chairman
Robert A. Gagliuso, Clerk
Richard Gunn, Commissioner

Sylvio Croteau,
Mayor - Member Ex-Officio
Edward Murphy
Commissioner

BERLIN WATER WORKS REPORT (Cont.)

SUPERINTENDENT'S REPORT

December 31, 1972

Board of Water Commissioners
Berlin, New Hampshire
Gentlemen:

Water consumption this year was 190 gallons per capita based on population of 16,000. Per capita consumption is figured by taking total water measured by meter and dividing it by population.

Berlin however, thrives on industry. Main industries are Brown Company paper mills employing 1500 persons and Converse Rubber Company employing 1100 workers, both large users of water. Per capita variation in water consumption occurs because of differences in family size, characteristics, the physical equipment and the value of homes. Major water-using equipment and facilities of households govern the per capita use of water.

Studies made on metered use of water in Berlin households show that per capita use varies from a minimum of 40 gallons to 60 gallons. The balance of 130 gallons is consumed in manufacturing, milk plants and other combinations of commercial users. Water measured for use in the City through our four master meters registered 1,112,612,600 gallons for the year. Breaking this into daily consumption amounts to 3.05 million gallons per day.

Rainfall this year was 45.81 inches in the Ammonoosuc area, 3.3 inches more than last year making a total of 9.8 inches above normal. This is the second year in a ten year period that more than normal rainfall has occurred. Normal yearly average rainfall for this area is 36 inches.

Complete chlorination of our water supply started in the year 1932 when the state law began enforcing the chlorination of public water supplies. Purification cost then was \$1,800.00. This year purification of water consisted of 8,110 pounds of chlorine and 6,960 pounds of fluoride. These chemicals cost \$6,414.60 and together with labor and equipment upkeep totalled \$23,930.00.

We started this year with a deficit of \$10,306.07 and a grim outlook for the future. Cost of operation would be an additional \$10,000.00 plus another wage and cost of materials increase of \$6,000.00, thereby totalling \$26,000.00. So on July first we were forced to raise the water rates 25 percent. We, therefore, finished the year with an increase of \$25,000.00 in income and managed to come out in the black for the year.

In spite of the fact that census figures indicate that the population growth in the City remains about the same, new developments are still appearing in the City and extensions of water mains was necessary. Twenty-three new services were installed and twenty old service lines renewed to the property line. Thirty-two new apartments in the Berlin Housing Authority area were also put into service. Water is supplied into the new Housing Area to three fire hydrants, 2000 feet of 8 inch and 250 feet of 6 inch cement lined cast iron pipe.

The Berlin Water system is one hundred percent gravity supply. Water is taken from reservoirs on Bean Brook, Horn Brook and the Ammonoosuc River. However, the elevation of intakes into the system from these sources are all the same. The Ammonoosuc reservoir has a storage head from the Godfrey reservoir of four-hundred ninety feet above City Hall, therefore, requiring a throttling device to bring it into operating range with the Bean and Horn Brook systems which heretofore has been done by manual control and

never has been satisfactory. This year we installed a pressure reducing valve on the Ammonoosuc pipe line to automatically accomplish this purpose. The valve automatically reduces higher inlet pressure to a steady lower downstream pressure regardless of changing flow rates. The valve is hydraulically operated, pilot controlled with a diaphragm type globe valve. The control system is very sensitive to slight pressure changes and immediately controls the main valve to maintain the desired downstream pressure. Since installation of this valve the usual customer complaints from outlying high points in the City have been nil.

RECOMMENDATIONS

We still have on hand a two-stage Worthington air compressor which was purchased in 1935. The machine is erected on a trailer and until 1970 has rendered the department good service. The equipment is now obsolete and practically impossible to operate mostly due to the impossibility to obtain repair parts. Our scope of operation within the City covers about sixty-three miles of highway operations for water pipe extensions and repairs. With our present water system pipe lines, many of which are ninety years old, we find it impossible to operate economically without this unit and recommend the immediate exchange for a new unit.

Work planned for next year includes the replacement of the existing 2" water pipe on Lincoln Avenue and Myra Street with a 6-inch cast iron line. The 2-inch line was laid fifty years ago and now due to building expansion in the area and demand for more water needed to operate modern water fixtures is unsatisfactory for customer service.

There are many other locations within the City where like situations exist. Plans to remedy these conditions will take place as soon as funds are available.

In conclusion: With the exception of one new housing development, balance of our income was expended on maintenance and repair work. The rate increase which went into effect July first was sufficient to compensate for increase in cost of wages and materials for the balance of this year. The full impact of the rate increase will be felt next year which we expect to utilize in replacements and expansions as outlined in next year budget report.

In closing, I wish to thank the employees for their fine support in performing the many phases of operations in our department. I also want to thank other City Departments, especially the Public Works and the Fire Department for their cooperation.

Respectfully submitted,
ERNEST E. TANKARD

ACCOUNTANTS' OPINION

The Honorable Sylvio Croteau, Mayor
Members of the City Council
City of Berlin, New Hampshire

We have examined the balance sheets of the various funds of the City of Berlin, New Hampshire as at January 31, 1973 and the related statements of operations and changes in fund balances for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the various funds of the City of Berlin, New Hampshire at January 31, 1973 and the results of operations and changes in fund balances for the year then ended, in conformity with generally accepted accounting principles applicable to governmental entities, applied on a basis consistent with that of the preceding fiscal year.
