FOREST FIRE WARDEN'S REPORT

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in or near woodland. Official figures show that more than 98% of all forest fires results from human carelessness and can be prevented. Consequently we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects are far reaching. Such fires destroy the raw products of the forest, the protection forest provides for game, and the supply of ground water. They upset the local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Your local warden and his deputies are doing an excellent job in trying to prevent this shameful waste, but they must have the cooperation of the public and this means YOU. Remember there are laws that cover the making of a camp fire, also the burning of rubbish or debris, and also the burning of brush whether this is on your land or land of other people, and to disobey these laws can cost you a great deal of money. So please see your local warden and he will tell you how to burn the rubbish, also when you can burn it, and also issue you a permit to do so if conditions are right.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we will call "I don't care." He is the person that builds a fire anywhere, never gets a permit to burn brush, or has a safe place for his home incinerator. He also is very careless with matches and cigarettes. The other one is called "I

don't know any better" and the best way to describe him is he is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our valuable woodland being destroyed by fire. Even your homes can be burned by their carelessness.

It is up to you and you to report these two characters to your local forest warden whenever you see them operating. Remember it is with your cooperation that this shameful waste of timber and money can be stopped.

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Madison qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 11th day of March 1958, at 2:00 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said approp-

riation of such sum as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will vote to raise and appropriate the sum of \$123 00 to be used, in conjunction with funds to be raised and appropriated by other school districts in Supervisory Union No. 36, for the purpose of conducting a study of the feasibility of the formation and operation of a cooperative school district by not less than five of the seven districts involved, namely Brookfield, Effingham, Freedom, Madison, Ossipee, Tamworth, and Wakefield. The above sum is based on \$3 00 per pupil, grades seven to twelve inclusive, according to the average daily membership of these grades for 1956-57. The use of this appropriation is contingent upon appropriations made on a similar basis by not less than five of the seven districts named above.

10. To elect three members of the cooperative school study committee to act in conjunction with the school board members.

11. To see what sum of money the district will raise and appropriate for a telephone to be installed and used in the Madison School building.

12. To see if the district will vote to authorize the school board to make application for and accept in the name of the school district for educational purposes such funds or grants-in-aid as may be obtainable from the State or Federal Government or any department or agency thereof, or any other sources.

13. To transact any other business that may legally come before said meeting.

Given under our hands at said Madison this eleventh day of February 1958.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Madison:

During the school year 1956-57 the teachers in the Madison School were: Principal John DiSanto, grades 6-8; Mrs. Martha Kelley, grades 3-5; and Mrs. Edith Plant, grades 1 and 2. The same staff of teachers are serving the school during the current year. In these times of great scarcity of good teachers we are fortunate to have a teaching staff so competent and conscientious.

Mrs. Rebecca Sanborn, R. N. continues as School Nurse and conducts the school health program. Mrs. Sanborn is employed jointly by the School Districts of Effingham, Freedom, Madison, and Wakefield. In this program the pupils vision is tested by use of a Massachusetts Vision Testing Equipment, the hearing with the Maico Audiometer, and weights and heights are checked twice a year. All pupils participating in vigorous physical activity are inspected by a physician. Pupils are examined by the nurse if there are epidemics in the vicinity, and arrangements are made for pupils attendance at clinics as needed.

There was a total enrollment of 71 pupils in the Madison School. One elementary pupil enrolled in the Conway School system. At the beginning of the current year there was an enrollment of 61 pupils. There were 30 high school pupils from Madison enrolled at Kennett High School with an average membership of 28.6. Tuition rate for 1956-57 was \$305.00 and is \$340.00 for the current year. Announced tuition rate for next year is \$350.00. The average cost per high school pupil for 1956-57 was \$357.28. Aver-

age current cost per high school pupil for the State of New Hampshire in 1955-56 was \$372.51, with a total average cost of \$467.46.

During the summer of 1956 a small fireproof furnace room was constructed at the rear of the building and an oil fired furnace installed to provide heat for the primary room. During the late part of the year storm windows were installed on the main part of the building. These additions should make the building more comfortable in cold weather and provide for more economical heating.

Excellent meals have been served by the school lunch program sponsored by the P. T. A. During the current year Mrs. Margaret Ward succeeded Mrs. Mason as the school lunch cook. Mrs. Mason served most effectively in this capacity for several years. Mrs. Ward is carrying on the work in the same manner.

The district owned school bus was operated for the first year during 1956-57. This bus is used to transport the high school pupils and a large per cent of the elementary pupils including those living on Route 16 to the Madison School. A comparison of costs for transportation and tuition with those of the previous year may be of interest.

	Cost of Trans.	Cost of Elem. Tuition
1955-56	\$6,380.91	\$1,478.76
1956-57	4,913.67	205.00
	<hr/>	<hr/>
	\$1,467.24	\$1,273.76

This shows a total saving in current operation in these two items of \$2,741.00. The 1956-57 cost of operation does not allow for depreciation of the bus. As-

suming the annual average depreciation, over a period of six years, of \$760.00 the net average in the above costs amounts to \$1,981.00.

The school boards of this supervisory union have recently begun a study of the feasibility of a cooperative school to serve the majority of the districts of the union. This study was undertaken in view of the expected marked increase in high school enrollment and the possibility that the high schools now attended by our pupils will not be able to accommodate them in the not too distant future. Such a cooperative school may well offer important educational advantages to the children of this area, as well as financial advantage to the tax payers. Reports will be made as the study progresses.

The cooperation of the school board, teachers, and citizens is gratefully acknowledged.

Respectfully submitted,
EVERETT H. BRASIER
Superintendent of Schools

Proposed Cooperative School District Study

At a meeting of the school boards of Supervisory Union No. 36 in November, 1957 a discussion of the impending increase in the number of high school pupils in these districts, and a reported proportionate increase in the high school districts now attended by our pupils, led the board members to decide that a serious study of a cooperative school district for this area is very urgent. All the high school pupils of this area are transported to schools outside these districts. Our school boards have no control over these high schools. If it becomes necessary to provide high school facilities for our pupils it is imperative that the study begin now in order to provide the essential building, equipment, and staff by September 1961.

Because there will be expenses necessary in making the study and reporting the findings to the citizens of the districts each board has been requested to insert an article in the warrant providing an appropriation of \$3.00 per pupil based on the average daily membership of grades 7 through 12 for the year 1956-57.

What is a cooperative school district? A cooperative school district is formed from two or more existing school districts by vote of the people. It is an entirely new school district in which the former individual district boundaries no longer exist. It has all the authority and powers of a single district. Its affairs are administered by a school board made up of at least one representative from each of the pre-existing districts who are elected by the people. It brings together the resources of the member districts to provide the desired educational facilities for the pupils of the area. It makes possible the provision of educational opportunities at the high school level by a school of sufficient size (not less than 300 pupils) to offer a wide variety of instructional services efficiently and

economically. It will provide security of educational facilities that are not guaranteed to tuition pupils. Effectively organized it will provide for the educational needs of the pupils of this area.

It is the intention of the school boards to make the study in terms of a six-year high school, grades 7 through 12. The inclusion of grades seven and eight will serve two purposes. The pupils will have the facilities necessary for instruction in science, shop, home-making, physical education, guidance, music, and art that, in most of our schools, do not exist or at best in a few only inadequately. By moving the 7th and 8th grades out of our present buildings it will make unnecessary the construction of additional classrooms and other facilities in Madison, Ossipee, Tamworth, and Wakefield in the predictable future. Enrollment in grades 7 to 12 in the seven districts involved will be about 450 in 1960 and over 500 in 1962.

Under the cooperative plan school transportation for both elementary and high school pupils may be coordinated and operated more efficiently. A centrally located high school will shorten most of the bus routes materially which should decrease this part of the school budget.

Under the present state school building aid law a cooperative school district of two former districts is entitled to 40% reimbursement of building costs. The reimbursement increases 5% for each additional district to a maximum of 55%. A cooperative district of five old districts will be entitled to the maximum 55% aid.

The cooperative school district serves to attract and hold good teachers by providing better teaching conditions, better instructional facilities, better professional relationship, better professional consultant

services in the fields of guidance, music, and art, and a better professional spirit through belonging to a large instructional unit.

This proposed study must cover many aspects of the problem including:

1. A study of the school population of the area.
2. A study of the educational needs of the youth of the area and the school program that will provide for these needs.
3. A study of transportation needs and the costs.
4. A study of building needs and the costs.
5. A financial study including capital costs, current operation costs, bond issues, state aid available, apportionment of costs and affect upon the tax rates of the districts involved.

It is proposed that the results of this study will be published and distributed to the voters of these districts prior to the annual district meeting of 1959.

We feel that this study project is immediately necessary to make certain the security of educational opportunities at the high school level, to provide better instruction for the 7th and 8th grade pupils, to relieve several districts of impending building construction problems, and to improve our entire educational system. It is our earnest hope that this study will receive your support.

The districts concerned in this study are Brookfield, Effingham, Freedom, Madison, Ossipee, Tamworth, and Wakefield.
