BOARD OF SELECTMEN'S ANNUAL REPORT

To the Citizens of Hampton:

The Board of Selectmen take pleasure in presenting Hampton's 345th Annual Report for the year ending December 31, 1982.

Among the major accomplishments during this year were the following:

1. At a Special Town Meeting on May 11, 1982, the voters of the Town of Hampton made significant history in establishing a policy to sell land at Hampton Beach owned by the Town to lessees. After months of study by a special Leased Land Study Committee, a comprehensive procedure was put in place which will include the formation of a real estate commission once necessary legislation has been enacted by the New Hampshire Legislature. This procedure will not be fully implemented for some time but the first step has been taken for the transfer of leased land, a matter which has been under discussion for more than twenty years.

2. The setting of the 1982 tax rate that was below the tax rate of 1981. This is something that has not been accomplished for many years and is the result of the efforts of all Town departments working with the Board of Selectmen and Budget Committee.

3. A major attack has been launched to solve the traffic and parking problems at Hampton Beach with the first step being a soon to be signed agreement with the Roman Catholic Church for use of the Church Street parking lot at Hampton Beach.

4. In-house computer is now on line and has taken over many functions that were previously done by outside contractors, such as municipal tax bills.

5. Continued work on sewer and drainage problems, with particular reference to the Ashworth Avenue drainage study which should result in the alleviation of the drainage problem within the near future.

6. Perhaps the most significant personnel change was the hiring of Anthony Kuncho as Fire Chief. Mr. Kuncho was previously Chief of the Salem Fire Department. He is a welcome addition to our Town.

We feel that this has been a productive year, marked by the fiscal management and accountability of the Town Manager and Department heads, with the thoughtful assistance of the Budget Committee. The Board of Selectmen have worked together in an attempt to solve the never ending problems that

face the community so that orderly growth can be combined with fiscal concern.

This report covers some of the highlights of our 1982 activities. We have tried to work in the best interest of all of our citizens of the Town and with your help we will continue to develop an even better Hampton in the years ahead.

Respectfully submitted,

Board of Selectmen
Glyn P. Eastman, Chairman
John R. Walker, Vice Chairman
Ashton J. Norton
Brian G. Doherty
Robert V. Lessard

TOWN MANAGER'S ANNUAL REPORT

I am pleased to contribute to the 1982 Town Report, together with written reports of all town departments, boards, and committees, for your review of town activities during 1982.

Three new programs were installed in our IBM computer; property tax program, resident tax program and land rent program. Together with payroll and fund accounting, five major programs are now administered by town office personnel, eliminating the need of hiring outside firms for these purposes.

Chief Tony Kuncho of the Hampton Fire Department, a new member of the town staff, is fast becoming acquainted with the department, residents of the town, and the community at large.

Say Hello and make his acquaintance when you have the opportunity. Also new in the department is the long awaited Maxim Ladder Truck, with which we are very pleased.

Many "Alcohol Prohibited" signs were put up by the Public Works Department in an effort to forewarn visitors of our open container law. In spite of all efforts, Hampton District Court is kept extremely busy handling the large number of violators brought before the court.

The Police Station received two coats of fresh paint and the Municipal Building was resided during the year to help spruce up our town buildings.

For the traveling public, the Christmas Light Committee had installed new decorations and wiring in the center of town. An additional amount is requested for this coming year to complete their work. The committee is to be commended for the effort they gave to this project.

The town has surveyed all that town owned land between 1st and 12th Streets at North Beach and will continue with the "Pines" section in the Spring.

My personal thanks are extended to the Board of Selectmen, town employees, boards and commissions, and residents of the Town of Hampton for their cooperation during the past year.

Respectfully submitted,

Philip G. Richards
Town Manager

HAMPTON POLICE DEPARTMENT ANNUAL REPORT

PERSONNEL: 28 Full-Time 50 Part-Time

During 1982, changes in full-time personnel included the resignations of Patrolmen Brian Chevalier and James Ferland; Clerk/Dispatchers Michael Small and Sylvia Moulton. New members of the Hampton Police Department include Patrolmen Charles West and William Horwood, Secretary Isabel Coyne, and Clerk/Dispatcher William Donovan, III.

All sections of the department continue to function well under an ever increasing workload. Members of the Patrol Force, the youth Service Officer (Sgt. Joseph MacDonald), the Prosecutor (Ptlmn. Peter Smith, III), and the Crime Prevention Officer (Ptlmn. Arthur Wardle, Jr.) continue to do outstanding work in their respective fields. Detective William Wrenn was recently promoted to the position of Detective Sergeant, in an effort to coordinate and supervise more closely the various aspects of the Bureau of Criminal Investigation. Det. Sgt. Wrenn has continued to conduct the training of the Special Officers, who must be trained and certified according to the New Hampshire Police Standards and Training Council. He also coordinated additional training with the Training Council for the majority of full-time officers throughout the year. Firearms Training, ably conducted by Sgt. Victor DeMarco and Ptlmn. Robert McLaughlin, continues to be a mandatory qualification each year, with full-time officers required to meet the minimum standards in a basic course of fire twice a year, and with Special Officers qualifying once a year. The Mounted Patrol Unit, under the direction of Sgt. Dennis Pelletier, successfully completed its second year of service and continues to present much needed police presence in difficult areas, especially during the summer season.

Due to limitations placed on the length of our annual report, I am unable to list all the names of department personnel and their accomplishments throughout the year. I wish the best to all of those who have resigned to accept positions elsewhere, and I wish to thank everyone, including the Deputy Chief and my Staff for their efforts in striving to maintain high standards in performance of their duties. Last, but not the least, I wish to express my sincere appreciation to the residents of the Town of Hampton, to the Hampton Fire Department, and to the Department of Public Works, whose support and cooperation is essential to our function as a law enforcement agency.

Respectfully submitted,

Robert E. Mark
Chief of Police

Training Division

3,255 man hours of in-house training for Permanent and Call Firefighters. In November the Chief, Deputy, Fire Prevention Officer and seven (7) Lieutenants attended a week-end seminar held at the Ashworth and taught by the National Fire Protection Association. The Fire Officers must keep abreast of

the fast-growing society of highly dangerous chemicals and the fast-changing fire technology which surrounds them.

Let. Robert Regan just recently completed his Associate's degree program in Fire Science. He is to be commended.

The Ambulance Training this year reached an all-time high. Thirty (30) Fire-fighters and Officers are Nationally Registered EMT's. Twenty-four (24) of these men are State Licensed to use Esophageal Obturator Airways. Thirteen (13) Fire-fighters have been Certified in the use of MAST Anti-Shock Trousers. The total hours of training to accomplish this — 1197 hours.

Report of the Chief

The Hampton Fire Department presently has a very progressive on-going fire prevention program in place and through its efforts is showing good results. Example: In 1982 only one (1) working fire and to date, one of the lowest fire loss estimates in history, \$44,888.00. The Ambulance staff is beyond a doubt one of the best equipped and most knowledgeable in the New England area, and is definitely the best trained.

Last May the new ladder truck was delivered and placed into action in the Town Station.

From the staff and members of the Hampton Fire Department, we will endeavor to continue to provide the best and the utmost protection affordable.

Chief Anthony H. Kuncho

ANNUAL REPORT**

Part-Time 17
Total Personnel 53

Wastewater Treatment Plant

In 1982 we processed 763,260,000 gallons of wastewater of which 609 tons were solid waste (sludge). Our average monthly flow was 63,605,000 gallons. Included in the overall flow is 4,485,200 gallons of septic tank system wastewater and sludge.

Sewers & Drains

In 1982 drainage projects included the construction of the following projects; Hobbs Road, Marston School crossing, Mill Road, Emery Lane, High Street, Glen Road, Dow Avenue-Ashworth Avenue, and Park Avenue. Installed in the above projects were 4,153' of 12" pipe, 1,251' of 18" pipe, 226' of 21" pipe and 47 catch basins.

Major sewer construction completed in 1982 was Priority #17 Phase I Briar Road, Wild Rose Lane, and Mocassin Lane.

Sewer reconstruction in 1982 included 750' of 8" main and 2 manholes between Duston Avenue and the State Pier.

We installed 13 new sewer laterals, repaired 19 laterals, relaid 4 others. We installed 1 new manhole and repaired and/or raised 40 others.

Drainage reconstruction in 1982 included replacing the lines on Leavitt Road and Lafayette Road (between Tower Drive and 835 Lafayette Road). Installed in the above 2 projects were 630' of 18" pipe, 326' of 12" pipe, and 9 catch basins. Three drain lines and 27 catch basins were repaired.

There were 78 new entrances into our sanitary sewer system requiring 107 inspections; 55 new sewer permits were issued. There were 280 locations made for contractors, water company, gas company, etc. In addition 36 calls for plug-ups were handled of which 10 were the responsibility of the Town.

We cleaned 24,662' of sewer and drain lines with the sewer jet. 176 catch basins were cleaned.

Solid Waste Disposal

Rubbish collection is still one of the most demanding jobs of our department. Routes are increasing steadily as our population increases and we continue to produce more and more throw-away products.

Below is a 15 year comparison of compacted cubic yards of rubbish collected.

1968 33,124	1973 47,425	1978 51,040
1969 35,246	1974 49,716	1979 52,125
1970 37,180	1975 51,670	1980 53,711
1971 42,171	1976 52,418	1981 54,854
1972 45,854	1977 50,692	1982 54,903

The above does not include rubbish taken to our dump by contractors, citizens, state and private rubbish collectors.

Highway Maintenance & Construction

Routine maintenance has been the priority of the highway section in the past year. Routine maintenance includes: trimming and grooming of roadsides, removal of roadside litter, sweeping streets and intersections, repairing sidewalks and patching of streets.

Our road resurfacing program is a continuing one. During 1982 we resurfaced 17,173 lineal feet of road. Below is a list of those roads:

Timber Swamp Road	Ann's Lane	Leavitt Road
Holly Lane	Longwood Drive	Jones Ave.
Leary Lane	Evergreen Road	Pearl Street
Tucker Lane	Edgewood Drive	Philbrick Terr.
Perkins Ave.	Eastmore Lane	Burgundy Drive
Gill Street	Lamprey Terr.	Heather Lane
Page Lane		

Along with the resurfacing of the above roads, shoulders were brought up to grade with crushed gravel where required.

In a combined effort with Boston & Maine Railroad the railroad bridge on Exeter Road was repaired. The Town and B & M worked together to remove old pavement. B & M then repaired and replaced planking. Finally the Town paved with 52 ton of hot top.

During the year we used 240 cubic yards of grader mix, 316 tons of hot top and 140 tons of (Blue Chip) winter patch. This material was used for shoulder patching, drain and sewer ditch patching and pot hole patching.

Following the acceptance of the gravel roads in the Smith Colony area all roads were graded and repaired.

A flagstone sidewalk was constructed in Founders Park.

The parking spaces, crosswalks, slow school and stop lines throughout the Town were painted.

During 1982 we received 46" of snow requiring plowing, snow removal and salting and sanding of our roads. All told we had 9 storms. The cost of these storms, excluding normal maintenance, was \$33,068.76 or \$718.89 per inch of snow.

There were 35 driveway permits issued requiring 70 inspections.

As always, street signs and traffic control signs have been a large problem to maintain. During 1982 we installed and/or re-installed 439 signs of all types, mostly due to malicious vandalism.

Your Public Works Department will continue to produce commensurate with the funds made available to us. Always looking for better and more economical ways of getting things done.

George F. Hardardt
Director of Public Works

The Moderator announced that a YES/NO ballot had been requested for the major Article of the evening.

The Moderator read the Article:

ARTICLE: To see if the Town will vote to sell its leased lands under the following terms and conditions:

Section 1: Appraisal

All lots shall be evaluated at the time of a proposed sale. The manner in which this would occur would involve the proposed

purchaser hiring an appraiser who was duly qualified by the Society of Real Estate Appraisers and who would fix a fair market value on the lot in question, and the Town would hire an appraiser who would also determine the fair market value of the lot in question. Sale of parcels involving the Hampton Beach Improvement Company would necessitate the addition of a third appraiser to the equation. These figures would then be averaged, and the resulting figure would be the basis for the purchase price. In the event that the appraiser's valuations varied by greater than 10%, any aggrieved party could appeal to the Real Estate Commission for arbitration and an absolute determination of the value of the lot in question. The cost of the appraisals shall be borne equally by the parties.

Section 2: Purchase Price

The purchase price for any lot to be sold shall be 30% of the value of that lot as determined by the real estate appraisal process outlined in *Section 1*.

Section 3: Improvement Company Property

The purchase price of property subject to a Hampton Beach Improvement Company leasehold interest shall be determined in the same manner as stated in *Section 2* and paid to the Town of Hampton. The purchasing tenant would then be free to purchase the Hampton Beach Improvement Company's interest in the tenant's lot upon terms and conditions mutual agreeable to the purchaser, the Hampton Beach Improvement Company & the Town of Hampton.

Section 4: Financing

In the event a purchaser requests, the sale of leased land shall be financed by the Town of Hampton without a down payment, at an annual rate of interest of 12%, principal and interest payable monthly. With regard to security, the Town shall be adequately secured by a mortgage deed. No Town financing for the purchase of a leased lot shall be for a term in excess of 20 years. With respect to the sale of leased land in which Hampton Beach Improvement Company holds an interest, the Town shall only finance that portion of the purchase price payable to the Town.

Section 5: Control by Deed Restriction

Deed restriction shall be included to reflect the same restrictive covenants presently existing in the lease for the lot(s) in question.

Section 6: Retention of Leased Lands

In the event that a tenant chooses not to purchase a leased lot, or the Town votes not to sell its leased lands, then the direct lessees, except for the Hampton Beach Improvement Company shall continue to be able to lease, which leases shall be renewable, freely transferable and inheritable and the leases shall continue to pay taxes in lieu of rent in the same manner as presently in operation, i.e., the rental fee shall be the tax rate times assessed valuation which equals payment. The buildings shall be separately taxed. Further, in the event that leased land is retained by sub-lessees of Hampton Beach Improvement Company, the sub-lessees shall be permitted to apply for and receive from the Town a new lease for the additional period after April 1, 1997 when the Hampton Beach Improvement Company's Master Lease with the Town expires.

In this regard, a 25-year lease shall be available to any sub-lessee with the additional term of the tenancy being obtained from the Town by direct lease. The clear intent being that the Hampton Beach Improvement Company's Master Lease will not be extended beyond April 1, 1997.

Section 7: Waiver of Non-Conformity

With respect to all sales conducted pursuant to this Article, the Town expressly waives any provisions of the Town Ordinances, including the Zoning Ordinance, which would prohibit the sales from the Town to the owners of the buildings located on Town Land.

Section 8: Unsurveyed Lots

With regard to lots that have not been surveyed, no sales can be made until the lot or lots have been surveyed by a registered surveyor.

Section 9: Implementation

The Leased Land Study Committee shall continue to monitor the leased land situation until the Real Estate Commission is appointed to supervise the implementation of the Article.

Section 10: Effective Date

Sales agreements can be entered into subject to the adoption of the necessary legislation to establish the Real Estate Commission. However, no deeds shall be transferred until after the Real Estate Commission has been established and its members appointed.

Section 11: Partial Invalidity

In the event any section or portion of any section shall be declared invalid, then the remainder of the Article not declared invalid shall continue in full force and effect.
(Recommended by the Leased Land Study Committee)

The motion to limit debate was then acted upon and passed by a 2/3rds vote.

A YES/NO vote was taken on the Article as amended. It passed by the following vote:

YES: 223

NO: 187

The business of the meeting being concluded, the meeting was adjourned at 11:00 p.m.

314:1 Authorization for Real Estate Trust Fund.

The Town of Hampton may, at any regular or special meeting, provide that the proceeds of sales of land or interests therein, other than land or interests therein acquired by taking for nonpayment of taxes or land under the administration of the town's conservation commission, shall be paid over to the town's trustees of trust funds, who are authorized to obtain the services of a bank or professional management company, to be invested and reinvested by them; that the income thereof shall be paid annually or more often into the town's general fund and that the principal will remain intact; and

WHEREAS, the Town, on March 9, 1982, voted to recommend that the Legislative Delegation of the Town of Hampton be requested to introduce legislation at the next session of the Senate and House of Representatives creating a Section 2 of Chapter 314 with respect to the establishment of a "Hampton Lease Land Real Estate Commission," said Commission to be comprised of five residents of the Town of Hampton to be appointed from a list of not less than ten nominees prepared by the Selectmen in office on the effective date of the legislation creating such Commission. Such list of nominees shall be presented to any Justice then presiding in the Rockingham Superior Court, and said Justice shall appoint five individuals from such list of nominees to be the members of such Commission and to hold staggered terms of 5, 4, 3, 2, and 1 years. Said Commission will not be bound by the Rules of Evidence but may consider all materials presented orally or in writing by either party prior to making its determination. Said Commission shall also have the duty of monitoring and implementing the sale of leased lands and paying over the proceeds of said sales to the Trustees of the Trust Fund in accordance with 314:1.

HAMPTON MOSQUITO CONTROL COMMISSION

At the 1982 Town Meeting citizens voted an appropriation of \$19,874.00 and \$16,657.60 was expended for labor, chemicals, supplies, equipment maintenance, and Commission and Supervisor expenses.

The Commission met ten times and hired Part-time Supervisor, Lee. G. Brooks, and Certified Pesticide Applicators: Marsden simmons, and Kyle Traeger. They worked out of the Town Hall and Public Works Garage, and were a very cooperative crew.

After a town truck was made available, fresh water breeding site surveillance began in late March. Larviciding began on April 17, and salt water treatment on April 27. With two employees available earlier than previously, more breeding sites could be surveyed and treated sooner. Temperatures were below normal in March, April, and June, which also had record-breaking rainfalls. So adulticiding started on June 16 instead of the end of May. It was extended to Sept. 11.

Four light traps were used to monitor adult mosquitoes. The June rains caused the second week of July to be the worst week in four years. The rest of the summer was normal in its mosquito populations.

There was a higher level of the Eastern Equine Encephalitis vector, *Culiseta melanura*, this year than previously. The same was true in other Northeastern states. Fortunately this species was less than 1% of Hampton's mosquitoes trapped and identified.

The Leco ULV Sprayer is in its 7th year, and has been maintained by the employees. The Supervisor has legal responsibility for recruiting, training, monitoring, species identification, records and state licensing. Local data must be available for state inspection at anytime by the NH Pesticide Control Board, the Selectmen, and the Commissioners. The Supervisor also prepared budget proposals, identified priorities, and suggested procedures for an integrated control program. The Commission than had a scientific basis for decisions.

Public notification was done via newspapers, radio, and talks before local civic groups and High School classes. A slide program was developed. The Commissioners

appreciated the support of the Supervisor, employees, Town Officials, and the citizens. It was very encouraging.

LIBRARIAN'S ANNUAL REPORT

Under a new and more accurate method of counting statistics the library circulated over 87,000 books, records, tapes, pamphlets, magazines, films, filmstrips, and art works in 1982. 2,724 new titles were acquired, 622 more than were discarded, allowing the collection to grow slightly for the first time in several years, although this has resulted in even more severe overcrowding.

In 1982 a 5-member committee appointed by the Moderator to study the plans for library expansion met throughout the year with architect John Carter and myself and will propose to the 1983 Town Meeting a two-story addition to be added onto the back of the current building in place of the 1957 addition. This plan is similar to our original plan with the difference that it will be on two levels rather than three. Approximately \$300,000 is now in hand toward the construction of the addition, which will hopefully be increased by the figure of \$790,000 at the 1983 Town Meeting, enabling us to begin construction in the fall.

After the demise of the Statewide Borrowers Card 11 area libraries joined together to establish the Seacoast Coop Card. Borrowers in good standing in the towns of Brentwood, Greenland, Hampton, Hampton Falls, Kensington, Newmarket, North Hampton, Rye, Seabrook, South Hampton and Stratham may use this card to borrow books at any of the 11 libraries.

Another cooperative venture was initiated by the establishment of a Seacoast Fiction Depository, where area libraries can deposit little used fiction for the use of patrons in participating towns. This allows us to keep our fiction collection current while still having access to the older titles.

In closing I would like to thank the following individuals and groups for their continuing support and volunteer assistance: Olga Armen, Ruth Barkley, Arlene Farrell, Ann Hanson, Dorothy Lee, the Hampton Garden Club, the Friends of the Library, and our three Trustees - Dot Little, Barbara Ryan and Katie Anderson. The staff and I would like to thank all the townspeople who have shown a continuing interest in the library, and we invite everyone in town to avail themselves of the free and varied services offered at the Lane Memorial Library. Keep us in mind for all your information needs.

RECREATION DEPARTMENT ANNUAL REPORT

As the community's involvement in leisure time activities continues to grow, it is necessary in this report to only highlight programs and events of 1982.

With the cooperation of "mother nature" and the abundant snowfalls, 1982 proved to be the year for the enthusiastic skier. Hampton Recreation Department's Learn To Ski program filled quickly with students and adults skiing Friday evenings and Saturday mornings. With local conditions being close to ideal, the Recreation Department conducted a well attended cross-country ski clinic in addition to a six week instructional program covering waxing and basic techniques.

The active Hampton Senior Citizens Club conducted their monthly meetings and programs encompassing musical entertainment, speakers and slide shows. Many participated in the Recreation Department sponsored activities, such as the monthly crafts class, ceramics instruction, and gentle yoga classes. New attractions which proved to be quite popular with the senior citizens were the spring nature study, the basics of skin care, and the active and evergrowing line dancing classes.

By far the most popular pastime with the senior citizens has been travelling as the Recreation Department's trips are always filled. The Hampton Senior Citizens Club has formed a committee to plan long distance and overnight trips; the first of which was to Nantucket Island during the wonderful Indian summer New England enjoyed. Congratulations to this committee for a job well done! The Club continues to have published their popular monthly newsletter and the committee welcomes any news items or articles submitted.

Hampton's adults seem to be sold on the values of physical fitness as the enrollment in HRD's aerobics, women's fitness, yoga, and fitness first classes is dramatically increasing. Many local women participated in the informal weekly basketball games and entered a team in a local tournament and the men's basketball league as well as the co-rec volleyball games continued with good participation in 1982. Due to the expressed interest the women's softball league evolved into a co-ed softball league with local establishments submitting teams. This looks to be a popular and expanding summer program

A variety of programs appealing to those youth and adults interested in educational, musical or artistic outlets have been offered throughout 1982. The most popular being guitar

instruction, foreign language classes (children's also), C.P.R., Children's Drama Workshops, Sewing, Knitting, and Crocheting Instruction, and a very well attended Babysitter's Certificate Program.

...Just a few more of 1982's highlights... sailing instruction, youth gymnastics, grades K-2 Friday afternoon sports, golf lessons, tennis instruction, summer track meets co-sponsored by W.H.S. Track Club and H.R.D., school vacation programs, the Annual HRD 10K Road Race, the Hampton Open Tennis Tourney, 1st Annual Irving "Soup" Campbell Day, Hershey Track & Field Meet, Halloween Costume Contest, the versatile summer playground program at Tuck Field with field trips, National Junior Tennis League, Arts in the Park, performances, and Inter-Town Competitions, and the "Life. Be In It" float for the Christmas parade.

The Hampton Youth Association, through the efforts of its many dedicated volunteers, conducted quality ice hockey, basketball, softball, baseball, soccer, and football programs for the youth. Participation in H.Y.A.'s programs steadily grows and, as always, help from new volunteers is genuinely appreciated. The H.Y.A. strives to teach basic skills, instill healthy attitudes about competition and sportsmanship, and give each and every child an opportunity to have fun in sports.

There's never enough space to adequately thank all of those deserving... but again, I'll try. "Thank You!" to all of the instructors, volunteers, businesses, organizations, churches, schools, town departments, H.Y.A., Recreation Council members, and individuals who have contributed time, money, and efforts in support of the Hampton Recreation Department.

And to all of you residents, we're the best bargain going, so get involved and let us know how HAMPTON RECREATION DEPARTMENT can best serve YOU!

SHADE TREE COMMITTEE REPORT 1982

Budget requested was Eight Thousand Dollars (\$8,000.00), the budget granted was Five Thousand Dollars (\$5,000.00).

Over forty-seven trips to various parts of our Town were made to view trees in 1982.

Again this year we are indebted to the Exeter and Hampton Electric Company for removing six trees at no cost to the Town. Our thanks also to the Ralston Tree Service for their very prompt service on emergency calls.

As long as we have the diseases of the elms and maples with us, we can expect the continual loss of trees. This year saw twenty-five trees cut down.

Expenditures were as follows:

Removal	\$2,582.00
Repairs	\$2,174.00
Spraying and Fertilizing	\$242.25
Total	\$4,998.25

As always, our Shade Tree Committee appreciates the many calls from citizens regarding trees in their area.

CONSERVATION COMMISSION ANNUAL REPORT

One of the Conservation Commission's most important responsibilities is to co-operate with the New Hampshire Wetlands Board to protect wetlands both freshwater and saltwater, which in Hampton includes the saltmarsh. The New Hampshire Wetlands Boards administers the Dredge and Fill Regulations and makes the decisions regarding Dredge and Fill Applications. The local Conservation Commission participates in an advisory capacity. This past year the Conservation Commission reviewed several applications for

Dredge and Fill Permits in both freshwater and saltwater wetlands. We also co-operate with other agencies both State and Federal, recently with the New Hampshire Acid Rain Education Project.

The mapping of saltmarsh areas in town has been completed. This will be valuable in determining where saltmarsh begins and high ground ends. Federal funds totaling \$3,000 for this were available through Coastal Energy Impact Project Planning with our Conservation Commission contributing \$750.00. This mapping will further the work of the Commission in co-operation with the Planning Board in preparing a comprehensive wetlands ordinance article for the future Town Meeting.

There have been several donations of land to conservation in recent years. We are updating the list of donors on the Memorial Stone near Tide Mill bridge. This Commission is eager to receive easements and gifts of open land including marsh for conservation purposes.

Hampton has three seashore parks, namely Ruth Stimson Park, Bicentennial Park, and Billy Joe Brown Park. The intent of preserving these parks is to ensure that Hampton residents have natural seashore areas to enjoy both now and in the future.

The Conservation Commission holds monthly meetings at the Lane Memorial Library, the dates and times being posted at the Town Office, to which all are welcome. We make site inspections of Dredge and Fill Petitions and of any other matters brought to our attention. We also attend Wetlands Board hearings in Concord.

Our Conservation Commission members are sincerely interested in conservation and preserving the quality of life in our town. We appreciate the support of everyone in good conservation practice.

**MEETING HOUSE GREEN
MEMORIAL AND HISTORICAL ASSOCIATION, INC.
(Home of the Tuck Memorial Museum)
ANNUAL REPORT**

The annual meeting of the Hampton Historical Society was held in October 1982 with the election of officers and committee reports.

The TUCK MEMORIAL MUSEUM, founded in 1925, was open during the months of July and August from 1 to 4 p.m., with Volunteer Aides under the direction of the Custodian, Cindy Maxwell.

Many visitors from around the country and Canada visit the Museum each year; some to browse and others to research their family genealogy from the records of early settlers of Hampton.

Donations continue being received by the Curator, John M. Holman, during the year, each one being acknowledged and cataloged.

Capt. and Mrs. Neil Harvey brought back more Edward Tuck material from Paris where Captain Harvey was stationed while in the U.S. NAVY. Items included photographs of places named after the Tucks, copies of Tuck documents, letters and photos of the Tuck gravesite outside Paris.

A contact has been set up between the Curator of Malmaison (the home of Napoleon's wife, Josephine, now a museum; formerly a home of the Tuck's) and the Tuck Museum's curator, where an exchange of material can now take place pertaining to the Tuck heritage.

Membership in the Hampton Historical Society is open to all interested persons at \$2.00 per individual, \$3.00 for a family, or \$25.00 per person for a life membership.

Dues may be sent to the treasurer, 40 Park Avenue, Hampton, N.H., 03842. Your interest and support is urgently needed each year in order to continue the goals of the Hampton Historical Society and the Tuck Memorial Museum.

The museum will be opened for the 1983 season during the months of July and August from 1 to 4 p.m. and the admission is always FREE. Plan to visit it this summer as a pleasant surprise awaits you behind the door at 40 Park Avenue on Meeting House Green. There is much to see and learn about the early history of Hampton settled in 1638.

The society has been involved this year in the placement of a walkway through Founders Park. We also had our first annual summer craft fair on the green. We have capped the fireplace in the one room school house and are in the process of replacing the windows damaged.

We as always have to thank the many volunteers who make it possible for the museum to be open daily through July and August from one to four for the convenience of visitors from the local area and out of town.

We also give a big thanks to the Salty Marsh Garden Club for the up-keep of the herb gardens, which grace our grounds.

HAMPTON PLANNING BOARD REPORT

The Hampton Planning Board held sixty-two public hearings in 1982. Included were twenty subdivisions - one of which was a major residential subdivision still under consideration; along with two of a smaller nature, one of which has been completed. An industrial park subdivision, first proposed in 1981, was further reviewed this year and is awaiting final approval. Seven boundary line revisions also came before the board. Thirty-one site plan reviews took place including: three major condominium proposals - none of which are complete at this time; eight condominium conversions; two motels - one completed and one under construction; six additions to commercial property; an addition to a private Christian School; one seasonal amusement which has not commenced as yet; two commercial complexes, one of which is still under construction; a bank; and three extensive commercial renovations.

Public hearings were held on the first Wednesday of each month with work sessions held on the third Wednesday. Additional work sessions were scheduled on an occasional basis to deal with the heavy work load. Nine public hearings were on the agenda in December, and all felt this was far too much for one evening. During work sessions, the board reviewed the material presented at the public hearings, along with many proposals of less magnitude that did not require public hearings such as boundary line surveys and use changes. They also tried to set aside time to inform and listen to the general public. Most meetings lasted until 11:00 p.m. even though procedures had set 10:00 p.m. as a reasonable deadline.

During 1982, the Planning Board established written procedures regarding voting, the public's right to be heard, and submitting plans for public hearings. Although formal presentations occupied most of the allotted time, the board encouraged individuals to come forward to informally present information, seek advice, and exchange ideas. Unfortunately, this was often delayed until late in the evening due to crowded agendas.

Once again in 1982, no time or money was set aside for planning. The Wetlands Ordinance, prepared by a subcommittee of Planning Board and Conservation Commission members in 1981, was not endorsed by the majority of the present board. Most of the proposed zoning

amendments for the 1983 Town Meeting merely redefine or clarify existing amendments with no major changes. The revision of subdivision regulations which began in 1981 is still not finalized at this writing.

Condominium conversions, both commercial and residential, is rampant; and Planning Board jurisdiction is minimal due to overriding state statutes. New construction, which had slowed, should increase with the lower interest rates.

Again in 1982, the board faced unhappy citizens who voiced objections to proposals that they feared would have an unfavorable impact on their property. Most discord resulted from the conflicting permitted uses in the Seasonal Business Zone. Historically, however, public reaction only swells when individuals are directly affected. Attendance at the annual public hearings for proposed zoning amendments is indicative of the widespread apathy in Hampton. The situation will remain unchanged until the majority of citizens become aware of and attempt to impact all aspects of Town planning and zoning.

Judith A. Doyle
Chairman

ZONING BOARD ANNUAL REPORT

State statutes mandate a five member zoning board of adjustment for any town prescribing zoning ordinances. Standardized procedures and practices are also secured by the board which includes three alternates.

Hampton meetings are always held on third Thursday of every month in the Selectmen's Meeting Room after being posted and published according to law. This year, 57 appeals were heard along with nine request for re-hairing and three resulting re-hearings. One special meeting for informational purposes was held. All public hearings and business meetings were open to the public, and no executive sessions were held.

The following members served during the year: Harry Youngman (to February), Margaret Lawrence (to March) John Bellerose, Wendell Ring, Jr., Mike Daboul, and Peter Stern. Bradley Cook, William Herlihy, and Malcolm Beaton served as alternates. The building inspector, Ray Hutchinson, attended all meetings, and Jean Hamilton served as secretary.

A large change occurred in the budget item. Increased costs of advertising, longer meetings, and continuations of many petitions over a period of months resulted in an outlay of \$1,981.90 compared with a budgeted figure of \$1,350.00. Approximately \$1,500.00 was returned to the general fund as income through the \$25.00 fee charged for each petition.

This board is comprised of concerned citizens who seek to balance the needs of petitioners with the rights of abutters and equity for the general community. In such a spirit we continue our work in the year ahead.

Respectfully submitted,

Dr. Henry J. Stonie
Chairman

CEMETERY TRUSTEES ANNUAL REPORT 1982

As your Town Cemetery Trustees, we wish to report the following:

With only part-time labor, only working parts of seven months and with a reduced budget, we tried to maintain all cemeteries in good shape, but could not give all of the care needed.

Number of graves sold:	20
Proceeds from sale of graves give to town:	\$2,475.00
Graves loamed and seeded:	52
Spots loamed and seeded:	49
Stones repaired (High Street):	42
Stones repaired (Ring Swamp):	5
Stones repaired (Pine Grove):	6

Estimated cost of labor and material for cemeteries other than High Street Cemetery was \$1,500.00. While mowing, trimming and raking is our main problem, we must also repair roads, walls and water lines, as well as cutting underbrush in all cemeteries.

Again your Superintendent served without pay.

CIVIL DEFENSE ANNUAL REPORT

The year was a good one for your Civil Defense organization. The best thing to say is that there were no major emergencies requiring a mobilization of the effort. Our equipment status remained unchanged. We lost a good friend, Don Matheson, who was always ready to help with plans or equipment and who kept his firefighters among the best trained in the state in the use of monitoring equipment.

The much talked-about Evacuation Plan commissioned by the State was delayed by a court challenge which was unsuccessful and put off the revelations which would have attended its publication. The Town has advised the contractor that it is prepared to resume the planning and we await the new beginning.

The most common emergency which threatens us remains the danger which might ensue from an accident involving trucks carrying volatile gasses or liquids. The evacuation which this might cause would be difficult and dangerous. However, the ability of Police and Fire to respond quickly to this problem will lessen the danger. The importance of having radios in homes and schools which operate on battery only is emphasized.

My continued thanks to all persons who remain ready to assist in an emergency. Our collective thanks for a good year.

The Board of Commissioners

Hampton Beach, New Hampshire 03842

We have examined the combined financial statements of the Hampton Beach Village District as of and for the year ended December 31, 1982. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described more fully in Note 1, the combined financial statements referred to above, do not include property, plant, or equipment asset balances and corresponding depreciation accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that the omission of the accounts described above result in an incomplete presentation, as explained in the preceding paragraph, the combined financial statements referred to above present fairly the financial position of the Hampton Beach Village District at December 31, 1982, and the results of its operations and changes in financial position of its proprietary fund types for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The combining, individual fund, and schedules are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Hampton Beach Village District. This information has been subjected to the auditing procedures applied in the examination of the combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

HAMPTON BEACH VILLAGE DISTRICT
Notes to Financial Statements
Year Ended December 31, 1982

Note 1.) Summary of Significant Accounting Policies:

The accounting policies of the Hampton Beach Village District conform to generally accepted accounting principles for local governmental units except as indicated hereinafter. The following is a summary of significant accounting policies.

Basis of Accounting

The accrual basis is used for all fiduciary funds. Governmental funds utilize the modified basis whereby revenues are recorded when measurable and available. Expenditures are recorded when the liability is incurred (accrual basis) except:

- A. Disbursements for inventory items (materials and supplies) are considered expenditures at the time of purchase.
- B. Prepaid expenses are not normally recorded.

Property, Plant, and Equipment

Property, plant, and equipment acquired or constructed for general government services are recorded as expenditures in the fund making the expenditure. Funds used to acquire general fixed assets and/or debt service payments on borrowing in connection therewith are accounted for as expenditures in the year payments are made. This is contrary to generally accepted accounting principles which require that general fixed assets be capitalized and accounted for in a separate fixed asset group of accounts.

Types and Purpose of Funds

- A. General funds are intended to provide recurring general services. They are controlled by a budget approved by the voters.
- B. Capital Project Funds - Used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Other General Accounting Policies

Continuing Appropriations

Appropriations for certain projects and specific items not fully expended at year-end are carried forward as continuing appropriations to the next year in which they supplement the appropriations of that year. At year-end, continuing appropriations are reported as a component of fund balance. As of December 31, 1982, the following was a continuing appropriation:

ARTICLE 43

On petition of Arthur J. Moody and nine or more other legal voters, to see what amount shall be set for the annual salary and/or benefits of the Manager.

ARTICLE 44

On petition of Mary-Louise Woolsey and at least nine other legal voters to see what votes the town may take in relation to the sale of town-owned leased land.

ARTICLE 45

On petition of Arthur J. Moody and nine or more other legal voters, to see if the Town will vote to establish a committee of at least five members, to include the Fire and Police Chiefs, or their designees, and a minimum of three citizens appointed at large by the Board of Selectmen, to study a user and/or penalty fee structure of charges for the provision of special and extra services related to the use of private fire, burglar, etc., alarm systems in structures other than those owned by the Town, or School District or Village District situated wholly within the Town, and to develop ordinances or administratively imposed fees to cover same. The intent of such fees is to place more of the cost of those special demands, which are above and beyond those considered usual or traditional, imposed on the emergency services onto those requesting them rather than on all property taxpayers as a group, since these demands have resulted in hundreds of emergency runs (increasing in number each year) for false alarms caused by malfunctioning (other than by an external power problem), improperly designed, installed or maintained, or over-sensitive alarm systems, or incorrect use thereof, and which activations are reported to the departments by electronic, mechanical, radio or telephonic means other than by an observer who is, or was, at or near the scene (audible alarms on structures will have to be covered separately).

ARTICLE 46

On petition of Arthur J. Moody and nine or more other legal voters, to see if the Town will amend the Dump Ordinance adopted by the 1967 Annual Town Meeting to increase the penalty for conviction of each offense from a fine not

Also, to add the following to the penalty section: "Upon a second conviction within a 12-month period, loss of dump privileges for a period of time, as set by the Court, or subsequent to such conviction by the Board of Selectmen, after a hearing, if requested, may be imposed."

ARTICLE 47

We, the undersigned, being legal voters in the Town of Hampton, N.H., do hereby petition the Board of Selectmen of said Town, to place the following article on the warrant for the 1983 annual meeting.

RSA 107-B:1 through N.H. RSA 107-B:6 until such time as the

United States Nuclear Regulatory Commission promulgates specific and binding regulatory standards defining emergency response adequacy under 10 C.F.R. 50.47. Such standards must detail adequate, Town specific:

To the Members of
the Board of Selectmen
Town of Hampton
Hampton, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Town of Hampton, New Hampshire as of and for the year ended December 31, 1982, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The financial statements of the Hampton District Court for the fiscal year ended December 31, 1982, have not been included in the accompanying financial report. However, we have examined the financial statements of the Court and have issued a separate report thereon (See Note 7).

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the combined financial statements and the combining fund and account group financial statements referred to above present fairly the financial position of the Town of Hampton, New Hampshire at December 31, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining fund and account group financial statements. The accompanying financial information listed as supplemental schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the combined financial statements of the Town of Hampton, New Hampshire. The information has been subjected to the auditing procedures applied in the examination of the combined, combining fund and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

TOWN OF HAMPTON

OPINION ON COMPLIANCE

To the Members of
the Board of Selectmen
Town of Hampton
Hampton, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Town of Hampton for the year ended December 31, 1982, and have issued our report thereon dated January 25, 1983. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In connection with our examination we also (1) performed tests of compliance with the Revenue Sharing Act and regulations as detailed in the Commentary on the Audit Requirements of the 1980 Amendments to the State and Local Fiscal Assistance Act issued by the Office of Revenue Sharing, U.S. Department of the Treasury, and (2) compared the data on the appropriate Bureau of Census Form RS-8 with the audited records of the Town of Hampton.

In our opinion, for the items tested, the Town of Hampton complied with the aforementioned provisions of the Revenue Sharing Act and regulations. Further, based on our examination and the procedures referred to above, nothing came to our attention to indicate that the Town of Hampton had not complied with the aforementioned provisions of the Revenue Sharing Act and regulations.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

A. Fund Accounting

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town.

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Included in this fund type are Federal Revenue Sharing, Library, Parking Lots, Conservation Commission, Mosquito Control Commission, Cemetery Trustees and Municipal Coastal Planning Grant funds.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of long-term notes or bonds and from federal and state grants.

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for the assets held in trust or as an agent by the Town for others.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

B. Account Groups (Fixed Assets and Long-Term Liabilities)

All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by other municipal entities in the State, the Town does not maintain a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. This account group is not a fund. It is concerned only with the measurement of financial position and not results of operations. Since they do not affect net current assets, such long-term liabilities are not recognized as governmental fund type liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

C. Basis of Accounting

The accounts of the General, Special Revenue, Capital Projects, and Expendable Trust Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or in the case of judgments and claims against the Town, when there is a probability that such

NOTES TO THE FINANCIAL STATEMENTSDecember 31, 1982

judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust and Agency funds are accounted for using the accrual basis of accounting.

D. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. The Town budget represents departmental appropriations as authorized by annual or special town meetings. The Selectmen may transfer funds between operating categories as they deem necessary. State Statutes require balanced budgets but provide for the use of beginning fund balance to achieve that end.

In 1982, beginning fund balance was applied as follows:

Unreserved fund balance	
used to reduce tax rate	\$390,000
Beginning fund balance -	
reserved for encumbrances	<u>37,149</u>
Total Use of Beginning Fund Balance	<u>\$427,149</u>

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures; and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. The reserve for encumbrances at December 31 consists of the following:

Sewer Construction	<u>4,841</u>	\$16,769
<u>Capital Projects Fund</u>		
Sewer Interceptor - Engineering and Design Phase		<u>72,215</u>
<u>Total</u>		<u>\$88,984</u>

F. Investments

Investments in all instances are stated at cost, or in the case of donated investments, at market value at the time of request or receipt.

G. Inventories

Inventory in the General and Special Revenue funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

H. Accumulated Unpaid Vacation and Sick Pay

Accumulated unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Employees may accumulate sick leave at various rates depending on the employing department. Also upon retirement or voluntary termination, the Town will pay a percent of accumulated unused sick leave, generally approximately twenty percent. Vacation is granted in varying amounts based on length of service. Vacation pay accumulation does not exceed a normal year's allowance. Accumulated sick leave is indeterminable.

I. Taxes Collected For Others

The property taxes collected by the Town include taxes levied for the Hampton and Winnacunnet Cooperative School Districts, Rockingham County and Hampton Beach Village Precinct which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town. The payments are recorded in the agency fund.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

An analysis of the 1982 property tax levy is presented below.

	<u>Amount Levied</u>	<u>%</u>
Town of Hampton	\$3,273,257	43
School Districts	3,800,419	49
Rockingham County	473,358	6
Hampton Beach Village Precinct	<u>156,807</u>	<u>2</u>
Total	<u>\$7,703,841</u>	<u>100%</u>

J. Property Taxes

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident tax revenues known as overlay. All abatements and refunds are charged to this account. The amount raised in 1982 was \$24,212 and expenditures amounted to \$53,802.

As prescribed by law, the Tax Collector sells at tax sale all uncollected property taxes in the following year after taxes are due. The purchaser at tax sale has a priority tax lien on these properties and accrues interest at 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two year redemption period, the property is tax-deeded to the lien holder.

K. Sewer User Charge System

The sewer department budget is included in the budget of the public works department as a result of special State legislation. However, the Federal Government (EPA) has mandated the development of a sewer user charge system. Commencing in 1981, the Town established a formula which applies a credit to the non-sewer user's property tax bill. The amount of the credit in 1982 is equal to \$4,300,500 of assessed valuation to offset \$100,202 (non-user share) of the total sewer appropriation. In 1981, the formula was submitted to the State Water Pollution Commission for approval, which management felt would lead to EPA approval as a substitute for a direct sewer user charge. EPA rejected the proposal and the Town has appealed the decision. Any outcome of this appeal is indeterminable.

NOTE 3 - CAPITAL PROJECTS FUNDS

A. Bonds or Notes Authorized - Unissued

Bonds or notes authorized - unissued at December 31, 1982, are as follows:

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

<u>Town Meeting</u>	<u>Article No.</u>	<u>Amount Authorized</u>	<u>Purpose</u>
1972	4	\$38,000	Secondary Sewage Treatment Facility
1982	2	\$23,750	Part of \$95,000 appropriation for sewerage facilities plans. State and Federal funding for the balance (\$71,250) has not been approved.

NOTE 4 - CAPITAL RESERVE FUNDS

The capital reserve fund balances held by the Trustees of Trust Funds at December 31, 1982, are as follows:

<u>Purpose</u>	<u>Amount</u>
Library Construction	\$219,686

NOTE 5 - PENSION PLAN

The Town participates in the State of New Hampshire Retirement System. The Town's contribution for normal cost of the plan is based upon an actuarial valuation of the entire State plan. Since the actuarial valuation is performed on the entire State plan the amount, if any, of the excess of vested benefits over pension fund assets is not available. The Town does not have an accrued liability for past service costs. Pension costs amounted to \$204,194 in 1982.

NOTE 6 - TRUST FUNDS

The principal amount of all nonexpendable trust funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The Town's nonexpendable and expendable trust funds at December 31, 1982, are detailed as follows:

<u>Purpose</u>	<u>Nonexpendable</u>	<u>Expendable</u>
Cemetery - Perpetual Care	\$ 5,950	\$1
Town Needy	3,781	1
Library	<u>9,636</u>	<u>1</u>
<u>Total</u>	<u>\$19,367</u>	<u>\$3</u>

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 7 - FINANCIAL STATEMENTS NOT INCLUDED

Financial statements of the District Court are not included in the annual financial report of the Town because the funds are not administered by elected officials. The Town appropriates the annual salaries of the Justice and Clerk and receives, on a monthly basis, the balance of court revenues after expenses. A separate report is filed with the Administrative Committee of District and Municipal Courts in accordance with the Revised Statutes Annotated 502-A:9-a.

NOTE 8 - PAYMENTS IN LIEU OF TAXES

The Town received \$43,535 in lieu of taxes in 1982 under provision of State Statutes R.S.A. 162-I:15 on property leased from the Industrial Development Authority of the State of New Hampshire.

NOTE 9 - INSTALLMENT PAYMENT AGREEMENTS

The Town has entered into an installment payment agreement with International Business Machines Corporation (IBM) for the purchase of electronic data processing equipment. \$4,226 was paid in 1982 on the installment and subsequent payments are as follows:

<u>Year</u>	<u>Amount Due</u>
1983	\$ 7,043
1984	7,043
1985	7,043
1986	5,924
1987	<u>2,817</u>
<u>Total</u>	<u>\$29,870</u>

The agreement stipulates that if funds are not appropriated, there is no obligation to pay the remainder of the total time sale price beyond the end of the then-current fiscal period. However, IBM will take possession of the equipment and retain all sums previously paid as partial compensation for machine use and depreciation.

NOTE 10 - LITIGATION

The Town is involved in several pending lawsuits and the Town's attorney anticipates a maximum damage award of \$15,000 resulting from such litigation against the Town which would not be covered by insurance.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 11 - SALE OF LEASED LAND

At a special Town Meeting May 11, 1982, the Town voted to offer its leased lands for sale to the current tenants, subject to certain terms and conditions, including the adoption of Special Legislation to change Chapter 314 of the New Hampshire Revised Statutes Annotated. This proposed legislation would allow the Town to establish the Hampton Leased Land Real Estate Commission to oversee such sales.

In recognition of their good faith to purchase leased lands, tenants have deposited \$20,600 with the Town. In the event all the conditions of the purchase and sales agreements cannot be met, these monies will be returned. Any interest earned on these deposits will be used by the Town to offset administrative costs associated with the sales.

To the Members of the Board of Selectmen
Town of Hampton
Hampton, New Hampshire

We have examined the various funds and groups of account of the Town of Hampton, New Hampshire for the year ended December 31, 1982, and have issued our report thereon dated January 25, 1983.

As a part of our examination, we made a study and evaluation of the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards the purpose of such evaluation is to establish a basis for reliance on the system of internal accounting control in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements and to assist us in planning and performing our examination of the financial statements.

Our examination of the financial statements made in accordance with generally accepted auditing standards, including the study and evaluation of the Town's system of internal accounting control, which was made for the purposes set forth in the paragraph above, would not necessarily disclose all weaknesses in the system because it was based on selective tests of accounting records and related data. Such study and evaluation revealed the following conditions that we believe are material in nature. Such weaknesses are detailed in this letter.

TOWN OF HAMPTON
LETTER OF COMMENTS AND RECOMMENDATIONS
DECEMBER 31, 1982

LETTER OF COMMENTS AND RECOMMENDATIONS

Typically, a report of this type places greater emphasis on findings of a critical nature. Therefore, to put our comments in proper perspective, it should be noted that the weaknesses observed are not necessarily the result of poor management but are oftentimes due to factors outside the control of the Town's personnel, such as organizational restrictions and budgetary limitations.

Previous management letters have revealed weaknesses which could affect the internal accounting controls of the Town and we have offered our recommendations for improvement. The past subjects of concern covered the following major areas:

- A. Need For Adequate Staffing Level of Accounting Personnel
- B. General Ledger System to Improve Monthly Financial Reporting
- C. Implementation of Electronic Data Processing For Town Accounting Functions
- D. Formal Accounting Policies and Procedures Manual

We are pleased to report that, commencing in 1982, the Town is utilizing electronic data processing (EDP) for many of its accounting functions. The changeover from the manual system has not been without frustrations on the part of management and personnel. Unfortunately, software development in the area of governmental fund accounting has been slow and many of the computer programs have had to be changed and upgraded to meet the specific needs of the Town.

Although there is still need for improvement in the Town's accounting functions, we do want to compliment management and staff for their efforts during this year's conversion period. We have noted a willingness on the part of all parties involved to resolve the difficulties encountered in the EDP development.

LETTER OF COMMENTS AND RECOMMENDATIONS

We look for further improvements in 1983 in the use of a full double-entry general ledger system which should greatly improve the monthly financial reporting. In this regard, our past recommendations have included the suggestion the Town employ an experienced accountant on a full-time basis. As the Town has not acted on this past recommendation but is continuing to rely on one bookkeeper to maintain all of the accounting for the various Town funds, we recommend the Town purchase the services of the independent auditors to periodically review the financial statements and be available to respond to technical questions.

Use of Bank Debit Memos

There were two instances during the year where the use of a bank debit memo instead of a Town check was used for payments of tax anticipation notes. As a result, the bookkeeper failed to record the related interest expense on the Town books. Therefore, the monthly financial reports did not reflect the proper charges to the appropriation.

In order to comply with the provision of RSA 41:29 which requires Selectmen and Town Manager's approval of all expenditures made by the Treasurer, we suggested that all payments be manifested and paid through the normal bill paying process, which will also insure the proper recording of the cash transactions in the Town's books.

Electronic Data Processing System

The purpose of backing-up or copying computer files is to provide some assurance that in the event the production copy of the file cannot be read, a duplicate copy is available. We recommend that as systems are placed on a production status, backup procedures be implemented to insure that processing can continue without undue delay. In addition, a secured area in another building should be designated as the storage location for backup

files. Also, current data and program disks are currently left on an office shelf at night. We recommend they be placed into a vault for protection from misuse and vandalism.

Formal Accounting Policies and Accounting Procedures Manual

We again suggest a review of the billing and collection procedures for ambulance and sludge revenue and the bookkeeping procedures utilized by the police department in the collection of revenues, to strengthen controls and to assure the accountability of all funds due the Town, in addition to determining that Town policy is being enforced. We also recommend that the Town establish a formal manual outlining the various accounting and bookkeeping procedures for the Town and the various departments. The general policies relating to the accounting and bookkeeping functions should be delineated in this manual. As a minimum, the manual should contain; 1) a description of all departments' accounting and bookkeeping records, 2) an organizational chart and job description for each accounting and bookkeeping function by department, 3) a detailed chart of accounts and their description, 4) a policy statement with reference to document files, document filing, and records retention, and 5) a listing of the various accounting reports needed for the governmental entity.

Killion, Plodzick and Sanderson appreciates the courtesy and assistance extended by Town Management and employees of the Town of Hampton during the course of our examination. If you have any questions relating to the matters in this letter, we will be pleased to discuss them with you at your convenience.

Very truly yours,

John J. Killion, Jr. CPA
