## REPORT OF DISTRICT FIRE CHIEF

### Forest Fire Prevention is Everybody's Business

New Hampshire faces a continuing challenge in its forest fire problem — 97 percent of all our forest fires being man-caused and preventable — a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires — all result in serious loss of property, disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort — The rules are simple.

1. Don't burn at home — use your town dump and avoid all fire problems.

2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fireplaces and campfires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.

3. Be sure that all lighted material — cigars, cigarettes and matches — are completely out before discarding them. Use ash trays in automobiles.

4. Make certain that your debris, camp and cook fires are completely out before leaving them.

5. Insist that others be careful and comply with burning requirements.

6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER — the fire you prevent might be the one which could burn YOUR property.

REMEMBER—FOREST FIRE PREVENTION is EVERYBODY'S BUSINESS and our MOST IMPORTANT UNDERTAKING.

## HIGHLIGHTS OF HANCOCK 1957

This year the word "sputnik" was added to our vocabulary and to every language of our entire globe. The USSR launched an earth satellite in October and then another in November carrying a dog. Some of us were able with the naked eye to see a small blob racing across the sky. We don't and didn't know what to think about this event any more than we do about rockets carrying hydrogen bombs that can travel, some say, from continent to continent. In this bewilderment Hancock citizens were no more or no less shaken than New Yorkers, Hottentots or Eskimos.

And then, to arrange a little more backdrop for our own homey doings, it also should be mentioned that an outstandingly prosperous business year — one of a considerable series — during the fall months showed signs of being in recession. Most of us were not directly affected by this either. But a downward trend of business and sputnik left us wondering.

Another thing we wondered about more happily was the increase in the number of our citizens. No one ever heard of the Hancock Chamber of Commerce because there never was one. Yet, we continue to attract pleasant people who come here to live part time or full time. George and Phyllis Sammet took over the Inn in January. They decided to keep it hospitably open right through the year as do Leah Hill and Catherine Reaveley their places. The supervisors of the Check List, after subtracting a few, expect to add about fifty new voters who settled here in 1957.

Do you suppose this popularity happens because we're a normal sort of people in an abnormally beautiful setting? If so, it could be because we're all so different that we add up to what is certainly no Peyton Place as depicted in a current best selling book nor a dream of rural virtue as other authors paint New England villages.

What we do is we all get busy and do interesting things — these are just a few at random — such as Roy Finan carving a wooden eagle for the Hancock House flag pole, Dr. Victor Carpenter holding an annual coon supper, Debby Powers putting on a moving Christmas pageant, Paul Daly conducting an unusually well organized Memorial Day program, and Sandra Howard and Carl Cowan winning prizes as outstanding students.

Way back out of the news are things going on — like a saw blade sharpened with an artist's touch whirling on a saw rig of ancient vintage operated by Eddy Richardson. This year, added to past years, he totalled up this phase of his activities and it came to 45,423 cords of wood fed to the rig by scores of satisfied citizens. His notebook should be willed to the Historical Society. It gives his best single year's total at 2,069 cords and lists a lot of well known people

hereabouts who warm their toes and, still a very few, their houses by our abundant natural fuel.

Newsworthy things happened this year and made the front page of the Peterborough Transcript such as having a speeding car miss a turn and come in I. B. Hitchings' front door. Then Nubanusit Lake was a recurrent press favorite. Long Pond, as we used to call it, may be the site of a new State Park. Sime Sheldon and a lot of others up on the largest unspoiled lake in New Hampshire were shaken. At this point no one can know if Lloyd Briggs' offer to sell land to the State will be accepted. It might take all the money appropriated by the Legislature just for roads giving access to the so-called island with none left to develop a park, or it might not. Next year we should know if a State Park is to be just around the corner from Hancock, so to speak. Incidentally John Hill and Foster Avery offered speed boat transportation on a bleak cold October day to the Commission which is looking the Monadnock area over for the best site available.

And speaking of lakes, the level of Juggernaut Pond, the town water supply, dropped several feet during August and September. Should we still have been using the old reservoir there's little doubt but that many would have been on very short water rations indeed. Others not on the water main, and that includes everybody not along the pipe line or in the village or Norway Hill, were inconvenienced by one of the driest summers on record. The water table lowered to a point where many wells ran dry. It took heavy November rains to bring things back to normal.

Town Meeting this year was noteworthy because of the twenty-nine articles in the Warrant and the expeditious manner in which they were handled. The question of Hancock being by-passed by the rerouting of Highway 202 a few miles east of the village caused little stir and was approved overwhelmingly. The actual work will not be completed for several years. A Planning Board was approved; it is expected it will report its recommendations for the orderly development of Hancock at the forthcoming Town Meeting. Ex-Selectman and current State Representative Jules Pickering had a day off from the Legislature to take his part in purely town affairs. As has been the custom in recent years the School Meeting was held on the Saturday preceding. The general comment: "One of the quietest on record."

You can never count on school meetings being this way as School Board members Otis Wilder, Betty Strombeck or Stu Bradley would tell you. Incidentally Otis has embellished his gas station and built living quarters above. Just to show how things go, Arthur and Edie Tremblay and daughters Mary Elizabeth and Judith Ann have moved out of quarters above our well-run general store and into a brand newly built place on the Greenfield Road. Perhaps we should note in connection with these moves that so far as can be

learned there is only one really old place in town where descendents of the builders still reside and that is the Robinson place near the old Elmwood railroad station where Roger and Allen Terrill and their mother can be found from time to time.

A tear should be dropped for the passing of the Arts and Crafts Shop which for 25 years offered an outlet for delicious jams, cakes and pickles for a number of our people as well as braided rugs produced by Ruth Pierce. Started by Martha Stearns and Florence Burt it had lost impetus. And this year there was trouble finding a place to locate the shop.

Crowding up — that's what we are. It challenges the Planning Board members to work faithfully and well to meet our needs for what will doubtlessly be called the sputnik decade and the one to follow possibly to be called the space ship decade.

For the Town History Committee

Mr. Petronzio has attended the Massachusetts School of Art, the Cleveland Art Institute, and the Boston University Graduate School of Education. Mrs. Bernice Cowan replaced Mrs. Marion Warner as school nurse as of December 1, 1957.

## B. PROGRAM AND METHODS

Teachers of the staff participated in a one-day workshop on reporting and home school relations conducted by Dr. Ralph Garry at the school in the spring of 1957. They also took extension courses conducted by the extension service of the University of New Hampshire and Keene Teachers College.

A school library for the children was initiated this year as well as a small professional library for the teachers.

The sixth grade participated in the school camping program at Sargent Camp this year along with other youngsters from the Supervisory Union sharing with them new things learned from nature at its source and relating them to classroom experiences.

A special program for National Education Week had Mr. Petronzio teaching a typical art lesson for the parents and Miss Therrien teaching a beginning reading lesson to them.

Grade 7 and 8 visited the Peterborough banks to learn about banking in conjunction with their arithmetic class and Mrs. LeRoy Lang spoke to the fifth and sixth grades on her trip to Mexico. This was of great interest to the children who study this in their social studies work.

The school had an innovation this year in Mrs. Bailey, a student teacher from Keene Teachers College, who assisted Miss Therrien in the primary room.
