THIRTY-FIRST ANNUAL REPORT
of the
HANOVER FINANCE COMMITTEE
FEBRUARY 15, 1963

Total Budgets and Taxes

Proposed 1963 Town, Precinct and School budgets, including special articles, total \$1,363,160, as against a 1962 figure of \$1,307,054—an increase of \$56,106.

If the 1963 budgets, including special articles, are approved as proposed, the required tax dollars will be \$969,268 as against \$922,180 in 1962—an increase of \$47,088.

The Finance Committee recommends total 1963 budgets of \$1,359,060—\$4,100 less than proposed by the sponsoring groups, which would require total tax dollars of \$965,168—\$4,100 less than would be required to support the budgets of the sponsoring groups.

The 1962 net assessed valuation (at 100%) was \$31,377,000, which at the 1962 tax rate produced \$922,180 tax dollars available for Town, Precinct and School expenses (out of total tax revenue of \$958,327). It is estimated that the 1963 assessed valuation will total \$32,004,500—a 2% increase over 1962, which at the 1962 tax rate will make \$940,624 available for Town, Precinct and School expenses. In other words, the same tax rate as in 1962 will produce \$18,444 additional tax dollars in 1963 available to apply to Town, Precinct and School expenses.

Taking the above into consideration, if the 1963 budgets and special articles as proposed are adopted, the net amount required from an increase in tax rates over 1962 will be \$28,644. If the recommendations of the Finance Committee are accepted, the figure will be \$24,544.

For details see attached "Finance Committee—Summary All Budgets."

Regular Town Budget

The 1963 proposed Town budget amounts to \$253,140, as against \$260,529 in 1962—a net reduction of \$7,389. When the \$10,000 special article for relocation of Hovey Lane, contained in the 1962 budget, is eliminated from consideration the 1963 budget shows a net increase of approximately \$2,600 over 1962.

The following budget items warrant mention:

1. Salary increases for Town employees total approximately \$3,500 and are in line with the increases proposed by the Precinct Commissioners for Precinct employees. Individually the increases range from \$2.50 to better than \$7.50 per week. It should be noted that the Town has decided, as has the Precinct, to postpone giving Town employees Blue Cross-Blue Shield coverage in 1963. The Town cannot grant Blue Cross-Blue Shield coverage until the State Legislature gives formal approval. Since it will be two to four months before the Legislature acts, the Selectmen decided to wait until January 1, 1964 before giving this benefit to their employees.

2. The Service Allowance as paid by the Town to the Precinct is included in the Town Expense budget at \$76,000. This represents a \$6,000 increase over the 1962 budget and is based upon the formula approved by the voters at the annual 1962 meeting. According to this formula, the Town payment to the Precinct is to be 44% of the Precinct's total cost of operating the Highway, Police and Fire Departments, and the dump.

In connection with the above calculations, it should be recalled that only one-fifth of the Town's payment to the Precinct is borne by non-Precinct property owners, since the other four-fifths is borne by property within the Precinct which is also subject to the Town tax.

3. The voters will recall that at the 1962 annual Town meeting \$8,000 was approved for construction of an addition to the Etna Fire Station. Due to a series of complications, only \$1,400 was expended in 1962 and the Selectmen, therefore, are requesting that the unexpended balance of approximately \$6,600 be included in the 1963 budget.

4. Although the New Construction & Property item of \$8,500 indicates no change in the budget from 1962, the items that make up this total differ in 1963. In 1962 \$7,500 was budgeted for new equipment and \$1,000 for the Pine Knolls Cemetery Reserve. In 1963 \$6,500 is budgeted for new equipment and \$2,000 will be reserved for cemetery expansion. Pine Knolls Cemetery will have to be expanded within the next five years at an estimated cost of \$10,000, and to have this money available when required necessitates accelerating the transfer to the reserve.

The Finance Committee has worked closely with the Selectmen in developing the 1963 budget and will support it as presented.

For details see attached "Hanover Finance Committee—Summary of 1963 Town Budget."

Regular Precinct Budget

The proposed Precinct budget for 1963 totals \$286,720 versus \$296,625 in 1962—a net reduction of \$9,905. Eliminating the 1962 special articles for traffic lights and sidewalks, totalling \$20,000, the 1963 budget shows an increase over 1962 of \$10,095.

Principal items involved in the net increase are the following:

1. General Government—A building inspector is proposed for the coming year and fees will be charged for building permits. There will also be increased legal costs because of the impending merger.

2. Police Department—The major increase in expense in this department is to go for Regular Service or salary increases. The patrolmen in the department are now working 48-52 hours per week, as are some of the other municipal workers. Some consideration was given to shortening the work week which would result in the necessity for additional personnel. Therefore, rather than to follow this procedure, salary increases amounting to approximately 5% were provided. A new cruiser is to be purchased, and a \$1,500 capital reserve item is included for this purpose.

3. Fire Department—This department requests salary increases amounting to approximately 8%. A deputy chief position will be created. A qualified person is now on the staff. It appears that there is a need for such a position to help handle the increased work load of this department. The capital reserve in this department will amount to \$4,000, bringing the total in this account up to \$10,000. This is in line with current practice so that when new heavy equipment is needed the money will be available. The emergency wagon was purchased six years ago and will probably be replaced this year. Equipment is also being purchased to enable the department personnel to maintain the alarm system. This should be a non-recurring item.

4. Highway Department—Pay raises of approximately 10c per hour are included. This is deemed necessary by the Commissioners to enable them to maintain a competent work force in the face of other competing opportunities in our area. This will bring the average man's salary to \$1.75 per hour. A capital reserve item of \$5,000 is again included in the budget. Additional funds in the amount of \$3,000 are also requested to increase the oiling and hot mix surfacing program.

5. Sewers—The Precinct will spend approximately \$7,000 more for sewer maintenance and construction as it has now taken over the entire system. This will in part be offset by higher income.

6. Indebtedness—This item is up as the Precinct will be paying off loans which enabled it to purchase the sewer lines and to increase its ownership in the Water Company.

The Finance Committee has consulted with the Precinct Commissioners in the preparation of this budget, and will support the budget as proposed.

For details see attached "Finance Committee—Summary Village Precinct Budget."

School Budget—Including Special Articles

The proposed School budget for 1963 totals \$816,700 as against \$749,900 in 1962—an increase of \$66,800.

The single most significant factor in the proposed \$66,800

increase is the item of teachers and principals' salaries budgeted to increase \$48,200 or 12%, divided about equally between cost of proposed additions to the teaching staff, and salary increases under the teachers' salary schedule.

Important increases in other expenses worth noting are:

Asst. Supt. of Schools (salary, travel and part-time secretary)	9 200
Retirement, social security and insurance	2 600
Instructional supplies	9 200
Operation of plant	1 300
Maintenance (est. @ 2½% of budget)	1 000
Capital expense (est. @ 2% of budget)	1 300

One special article is included, viz:

\$1,000 to be placed in capital reserve for purchase of bus at future date.

The School budget was developed as a result of negotiations between the School Board and the Finance Committee and the Committee will support the budget as proposed.

Of the \$66,800 net increase over 1962, better than 80% is accounted for by direct salary costs consisting of, (1) increases in accordance with the present salary scheduled, (2) new teachers—four full time and two 3/5 time, (3) an additional Russian section, and, (4) an assistant superintendent.

The basic reason for new teachers is the anticipated 1963 enrollment increase of 9.45% in grades 1 through 12.

The School Board proposed the position of assistant superintendent at this time in anticipation of the retirement of the present superintendent and in light of the added temporary work load which will result from the prospective Hanover-Norwich merger. The individual employed as Assistant Superintendent will presumably become the Superintendent in 1964, at which time the School Board plans to employ an individual with business training and experience to function as the administrative or business officer of the school system. The Finance Committee believes it to be of major importance that such an

individual—business oriented rather than education oriented—be added to the staff.

For details see attached “Finance Committee—Summary Budget Hanover School.”

Special Articles

The proposed Town and Precinct special articles are as follows:

	Town	Precinct	Total
Civil Defense	1 000	500	1 500
Town Planning Board — Central			
Business Area Study	500	500	1 000
Chamber of Commerce Information			
Booth	300	300	600
Upper Valley Development			
Council	1 050	2 450	3 500
	2 850	3 750	6 600

Civil Defense—In 1962 a total of \$4,000 was voted—\$2,000 each in Town and Precinct budgets—for a Civil Defense communications center. The work was not done in 1962 and therefore the money was not spent. Subsequently a cooperative arrangement with Dartmouth College was developed to install such a communications center in the Hopkins Center. The \$1,500 represents the Town-Precinct share of this joint venture. The Finance Committee supports this special article.

Central Business Area Study—This is a study recommended by the Town Planning Board as a logical extension of earlier studies to develop a master plan for the Town of Hanover. As the title indicates, it will concentrate on the central area of the Town and will develop recommendations relating to zoning, building code, land use and so forth. The total cost of the study will be \$15,000, of which \$10,000 will be Federal money and \$4,000 local private capital. Inasmuch as (1) the \$1,000 of tax money will not be paid over unless the \$14,000 balance becomes available, (2) such \$1,000 tax item will not become a continuing budget item, and, (3) because

the study is directly related to the Town, the Finance Committee believes it appropriate for the citizens of Hanover to participate generally, through taxation, to the extent of \$1,000, and will therefore support this item.

Chamber of Commerce Information Booth—We do not support the \$600 request for a tax contribution to the Chamber of Commerce Information Booth. This is one of those fringe items which falls close to the line as to whether it should receive some tax support or should be entirely supported by private subscription. If the principle of tax support is once accepted, then, presumably, it becomes a recurring item in future years. Likewise, a precedent would be established for tax support of similar borderline activities. The Finance Committee believes that in view of Hanover's already heavy tax burden, tax support should not be given to this type of activity.

Upper Valley Development Council—We do not support the \$3,500 request for a tax contribution to the Upper Valley Development Council. Much of what we have said regarding the Chamber of Commerce Information Booth request applies equally here. It is a borderline item. Once approved it would become a continuing tax expense. While a case can be made that the efforts of such a council, if successful, would be of secondary benefit to all taxpayers of Hanover, the more immediate benefits would accrue to the service businesses of the Town in the form of increased trade.

There has been comment, and some editorializing, to the effect that, this being a regional project, Hanover should take the lead. We do not attempt to argue this point. We merely raise the questions: First, is this a taxpayer responsibility; Second, do the taxpayers wish to add this type of continuing expense to their other more urgent and more direct obligations.

For details see attached summaries heretofore referred to.

Conclusion

In considering the positions of the Finance Committee and those of the proposing organizations, some general observations are in order.

The Finance Committee is the servant of the taxpayers

and voters, created to act in an advisory capacity. The Committee's job is to consider the overall requests for funds, to work with the Town, Precinct and School officials in an attempt to insure that costs are held to the minimum required for the proper carrying out of their responsibilities, and to use its best judgement in arriving at its recommendations. We then have the duty to present these recommendations to you, and you, in turn, must make the final decisions at the annual meetings. We are not special pleaders, except in the sense that we represent you, the taxpayers and voters. When we indicate that we will not support a particular proposal, it doesn't necessarily follow that we think the proposal is not desirable. It means simply that we question, or raise the question, whether it should be added to the tax load—having in mind, first, that the tax source is limited to property taxes, and, second, that there is some limit beyond which you will not go in taxing yourselves for the support of the various governmental functions.

Neither should any inference be drawn that we give less than full faith to the motivations of those proposing the expenditures which we do not support. There are two sides to every question and we are all volunteers doing the best job that we can.

If you vote the 1963 budget proposals as presented, your tax will increase about 3% over 1962 for a total of approximately \$29,000. If you accept the recommendations of the Finance Committee your tax bill will increase 2.6% over 1962 for a total of about \$25,000.

Note: As this report is being prepared we have received an indication that the County tax in 1963 may be \$6,000 less than in 1962. If this reduction materializes then the above \$29,000 and \$25,000 figures become \$23,000 and \$19,000, respectively, with percentage increases of 2.4% and 2%, respectively.

In considering your action this year, it will be helpful to have the following in mind:

1. The anticipated 2% 1963 valuation increase in taxable property is, we believe, the largest residential increase ever

experienced. As of the present, we have no information to suggest a similar increase next year.

2. The School salary schedule will result in a built in increase of substantial proportions next year.

3. While the 1963 Town and Precinct budget increases have been held to modest proportions, there is no guarantee that this can be accomplished next year. There are prospective major expenses in each of these areas.

4. It is estimated that the tax portion of the cost of the recently approved sewerage treatment plant will be a minimum of \$34,000 a year beginning in 1964.

All the above suggests the desirability of holding 1963 costs to the essentials, and of taking a good hard look at what may be considered to be essentials.

Finally, whatever convictions you develop will be of zero value unless you are present to vote them at the annual Town, Precinct and School meetings.

Surveyors of Wood and Lumber

MORRIS HAYES JOHN H. MINNICH

WARRANT

THE STATE OF NEW HAMPSHIRE

Grafton, SS. Town of Hanover

To the inhabitants of the Town of Hanover in the County of Grafton, in the State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet in the Auditorium of the High School in said Hanover on Tuesday, the twelfth of March next, at 7:30 o'clock in the evening to act upon the following subjects. (Polls will open at 7:30 P.M. and close not earlier than 10:30 P.M., unless otherwise voted.)

First: To choose by Non-Partisan Ballot the following Town officers:

one Selectman for three years

one Town Clerk

one Treasurer

one Library Trustee

one Trustee of Trust Funds

Second: To hear the reports of the Selectmen, Treasurer, Auditor and other Town Officers and to pass any vote relating thereto.

Third: To raise such sums of money as may be necessary to defray town charges for the ensuing year and to make appropriation of the same.

Fourth: To elect by majority vote the following Town Officers:

- one Auditor
- one Member of the Advisory Assessors Board for three years
- three Fence Viewers
- two Surveyors of Wood and Lumber
- other necessary Town Officers

Fifth: To see if the Town will vote to raise and appropriate the sum of \$1,000 for the purpose of Civil Defense.

Sixth: To see if the Town will vote to raise and appropriate the sum of \$500 for a central area study as proposed by the Town Planning Board, provided:

- (a) a total of \$4,000 is raised from other local sources, and
- (b) provided the study is approved by both the Federal and State Governments.

Seventh: To see if the Town will vote to remove the gates and bars from and restore to active use that portion of the highway laid out June 27, 1817, which lies westerly of a point opposite the stone dam near Moose Mountain Lodge, so-called, and to raise and appropriate a sum not to exceed \$2,000 for renovation of above portion of said highway. (By petition)

Eighth: To see if the Town will vote to authorize the Selectmen to borrow such sums of money as may be necessary to meet the Town's obligations until the taxes are collected and paid into the Treasury.

Ninth: To see if the Town will raise and appropriate the sum of \$300 for the Town's share in the operational cost of the Hanover Information Booth for the summer of 1963.

Tenth: To see if the Town will vote to raise and appropriate the sum of \$1,050 to be used by the Upper Valley Development Council, or its successor organization, for the promotion of this community and other communities within the area, provided, however, that this appropriation shall not be paid over by the Selectmen to such organization unless at least 80% of the total proposed budget for such organization shall be raised and appropriated by action of other towns within the organization, and provided further that any necessary state and federal legislation be first enacted to establish this organization and to authorize an expenditure by the Town for the support of this organization.

Eleventh: To transact any other business that legally may be brought before said meeting.

Given under our hands and seals this Twenty-fifth day of February in the year of our Lord Ninteen Hundred Sixty-three.

FLETCHER LOW

Selectment of Hanover

OFFICE OF THE TOWN CLERK

HANOVER, N. H.

March 13, 1962

A legal meeting of the inhabitants of the Town of Hanover, N. H. was called to order by Carl D. England, Assistant Moderator, on March 13, 1962 at 7:30 P.M. in the Auditorium of the High School Building.

The opening prayer was said by Father Pitts.

The warrant on which the meeting was called was read by the Town Clerk, Marion E. Guyer.

Article I. The following Town Officers were elected by non-partisan ballot:

Selectman, 3 years—Fletcher Low

Town Clerk, 1 year—Marion E. Guyer

Treasurer, 1 year—Ethel C. Bond

Library Trustee, 3 years—Phoebe S. Stebbins

Library Trustee, 2 years—Elyse Tuxbury

Trustee of Trust Funds—Max Norton

Article II. On motion of Fletcher Low, duly seconded, it was voted:

(1) the following motion, passed unanimously at the Town meeting of March 14, 1961 and inadvertently omitted from the records of that meeting, be made a part of the records of the annual meeting of March 14, 1961.

“Moved that the action taken in the town meetings of March 1915 and March 1931 relative to the taxation of Dartmouth College property be rescinded and declared null and void.”

(2) Moved that the reports of the Selectmen, Treasurer, Auditor, Town Clerk as corrected, and other town officers as printed in the town report be accepted.

Article III. On motion of Fletcher Low, duly seconded, it was not voted that the town raise and appropriate the sum of seventy-five thousand nine hundred and sixty-seven dollars (\$75,967) to defray town charges for the ensuing year as printed in the town budget for 1962. (Budget recommended by Selectmen.)

On motion of Paul Young, duly seconded, it was voted to amend Mr. Low's motion by increasing the amount to be appropriated by \$14,675. From \$75,967 to \$90,642 (Budget as recommended by the Finance Committee). This was by standing vote: Yes 207 No 70.

Article IV. On motion of Fletcher Low, duly seconded, the following officers were nominated and elected:

Auditor for 1 year—Joseph L. McDonald

Advisory Assessors Board for 3 years—

Nathaniel G. Burleigh

Fence Viewers for a term of 1 year—

G. Wesley LaBombard

Edward C. Lathem

Clifford R. Elder

Surveyors of Wood & Lumber—Morris Hayes

John H. Minnich

Article V. On motion of Fletcher Low, duly seconded, it was voted that the town raise and appropriate a sum, not to exceed \$10,000 and to be paid to the Precinct of Hanover, for the relocation of Hovey Lane.

Article VI. On motion of Niles Lacoss, duly seconded, it was voted that the town raise and appropriate a sum not to exceed \$8,000 for building and heating an additional space at the Etna fire station.

Article VII. On motion of George Wrightson, duly seconded, it was voted that Article 7 be delayed for consideration

until next year and now be passed over. (Statement) The Directors of the Chamber of Commerce have voted to postpone till next year their proposed request for an appropriation, in view of the fact that their petition did not receive the approval of the Finance Committee because it was submitted after the January 1st deadline.

This delay in submitting the proposal to the Finance Committee was beyond the control of the Directors of the Chamber of Commerce. Nevertheless, the Directors have decided to withdraw this request in order to conform with the procedure established by the Finance Committee.

Article VIII. On motion of Fletcher Low, duly seconded, it was voted that the town establish a Capital Reserve Fund for the extension of the Pine Knolls Cemetery on land now owned by the town, and that the town raise and appropriate the sum of \$1,000 as the initial deposit in the Pine Knolls Capital Reserve fund.

Article IX. On motion of Mr. Robert Norman, duly seconded, it was voted that the Zoning Ordinance of 1961 be amended to establish a new zoning category to be called Natural Preserve, as set forth in the text of the amended zoning ordinances hereto attached, and to classify those areas of the town not in the precinct as described in attached sheets as zoned under the Natural Preserve Category.

Furthermore, as part of this amendment to establish a Natural Preserve and to correct certain inequities that might result from forming tiny residual pockets of property zoned Rural Residence, we ask that the zoning in two areas be made continuous by establishing that

- (1) The portion of the Duclos Estate zoned RR in ZO be rezoned SR-3.
- (2) The portion of the land SW of NP 10 which is property of Charles R. McLane, zoned RR in ZO be rezoned SR-2.

DESCRIPTION OF LAND IN THE TOWN AND PRECINCT OF HANOVER TO BE CLASSIFIED NATURAL PRESERVE as established by amendment to the Zoning Ordinance of 1961 (hereinafter referred to as ZO). In this description, all references to contour lines indicate the altitude above sea level as determined from benchmarks established for the Geological Survey's topographic map of Hanover quadrangle dated 1959.

NP 1. All land south of West Wheelock St., and west of West Lebanon Road zoned *Rural Residence* in ZO, together with any land in this region within 100 feet of the center of the road along the north bank of Mink Brook zoned *SR-2* in ZO, together with any land currently owned by H. C. Edgerton zoned *SR-3* in ZO lying within 100 feet of the east boundary of that property roughly parallelling River Ridge Road; excepting the Duclos Estate and that part of the entire area described so far that is simultaneously north of Mink Brook, within the Edgerton property, and more than 100 feet from the north and east boundaries of the Edgerton property.

NP 2. The land bordering West Lebanon Road, lying along Mink Brook to the east of that road, zoned *Forestry* in ZO.

NP 3. The land along Mink Brook south and west of Lebanon Road, east of that land in NP 2 above, zoned *Forestry* in ZO.

NP 4. Land along Mink Brook between those parts described in NP 2 and NP 3 above, containing land both north and south of Mink Brook; the land to the south being bordered on the southwest by an extension of the southwest borders of NP 2 and NP 3; the land to the north being bordered on the northeast by a line running along the south edge of the Brook Road right of way to its end, and thence along the southern border of 50 foot right of way adjacent to the properties owned by Barrett and Granger and finally intersecting the boundary of NP 3.

NP 5. A strip of land 300 feet wide centered on the precinct line as of January 1, 1962, starting from where the line meets the northeast boundary of NP 3, and continuing to the north-

east until it first meets the 825 foot contour of Velvet Rocks, except that between Lebanon Road and a line 200 feet on the north northeast side of Lebanon Road, NP 5 shall be limited to a right of way for a footpath connecting Lebanon Road and the upper part of NP 5.

NP 6. Velvet Rocks area, bordered as follows. Starting from where the precinct line meets the 825 foot contour, proceeding generally west and then north along this contour until it meets a line 750 feet from the East Wheelock Street right of way on the south side of this street, east following this line to where it meets a line 400 feet from the center of the Hanover-Reservoir Road (to Etna) on the south side of this road, then following this line to the point where it first crossed the 950 foot contour line east of the Appalachian Trail (also known as the Velvet Rocks side trail), including a strip 30 feet wide centered on this trail from a point 400 feet generally south of the center of the Hanover-Reservoir Road to this road, then following the 950 foot contour line generally east, then south, then west to the point due east of where the 900 foot contour crosses the brook shown on the 1959 topographic map on the south face of the highest Velvet Rocks Peak, then via a straight line to the point easternmost of NP 5, and then via a straight line to the point of beginning.

NP 7. A strip 300 feet wide centered on the Ledyard Trail leading east from Chase Field to NP 6.

NP 8. A strip 300 feet wide centered on the trail leading north from the west summit of Velvet Rocks, crossing East Wheelock Street at about the 680 foot contour line, continuing with a strip approximately 300 feet wide generally along this trail to the precinct line on Balch Hill, the exact width and route to be determined in the spring of 1962 and continuing with a footpath from the precinct line generally northward to Reservoir Road, the exact route to be determined in the spring of 1962 with the consent of the present property owner.

NP 10. The area on the south face of Oak Hill and along Camp Brook bounded as follows: On the south by a line running 170 feet south of the center of Reservoir Road to a point

where the border of the land zoned *Rural Residence* in ZO turns northwest. Continuing along this line beyond where it crosses Reservoir Road to the first point where it is 300 feet from Camp Brook, following a route 300 feet from this brook to the border of the Hanover Improvement Society property, including all their Storrs Pond Property, zoned *Forestry* in ZO, bounded on the north by a line from the most westerly peak of the four peaks that comprise the crown of Oak Hill north 70° west to the Hanover Improvement Society property at Storrs Pond and then following the border of this *Forestry* zone generally west and then south to the point of beginning.

NP 11. That land zoned *Rural Residence* in ZO lying east of Lyme Road and northwest of NP 10, lying to the southwest of the line joining the northernmost corner of the Storrs Pond property of the Hanover Improvement Society to a point on the edge of the right of way of Lyme Road on the east side of that road 50 feet from where the edge of that right of way crosses Camp Brook.

NP 12. All land on the west side of Lyme Road south of Camp Brook and north of Pine Park zoned *Rural Residence* in ZO, except for the property of Mrs. Pauline C. Chinlund and that portion of the Cummings property within 120 feet of the Connecticut River. Notwithstanding the provisions of the ZO relating to permitted uses within an NP district, sand, gravel, or other material may be taken at any time from property owned by the Trustees of Dartmouth College and located within this NP district number 12.

NP 13. All of Pine Park, including any portion of it that may be zoned *GR-3* in ZO.

NP 14. The area along the River Bank directly south of Pine Park zoned *Forestry* in ZO.

NP 15. The land described as follows: Starting from the southwest corner of NP 14, proceeding generally east to the corner of Webster Avenue and Webster Terrace, following Webster Avenue to a point 200 feet toward the east of the area zoned *SR-2* in ZO, then following a route generally south remaining 200 feet from the area zoned *SR-2*, to a line

100 feet from the center of Tuck Drive on the north side, then following this line generally east for 600 feet, then turning 90 degrees to the south to meet a line 100 feet from the center of Tuck Drive on its south side, then following this line down the side of Tuck Drive to a point where it intersects the 425 foot contour line; following the 425 foot contour line to West Wheelock Street then west along West Wheelock Street to the 416 foot contour line, thence along the 416 foot contour line generally north to a line perpendicular to the edge of the Connecticut River 700 feet north of the Ledyard Monument, following this line to the river, and then generally north along the river to the point of beginning, except that land in this region zoned *SR-2* in *ZO* shall remain zoned *SR-2*.

The above ammendment creates corrections in the Printed Zoning ordinance:

- Sec. 1-1(b) p. 2
- Sec. 1-2(a) p. 4
- Sec. 1-2(b) p. 5
- Sec. 1-6(d) (4+5) p. 11
- Sec. 2-2 (1-10 pp.) 14-19
- Sec. 2-5(a) (4) p. 21
- Sec. 2-5(d) p. 22
- Sec. 2-6(b) p. 24
- Sec. 2-7 (a,b,+c) p. 26
- Sec. 3-2(b) p. 29
- Maps pp. 38-9

A detailed copy is filed in Volume 9, page 106, Town Clerk's records.

Article X. On motion of John Neale, duly seconded, it was voted that the Town Zoning Ordinance adopted on March 14, 1961 be amended by making the following changes in the text of the ordinance:

1. Page 14, Section 2-2, item 1: add to the title (Main use of land not involving structures) the words "Except accessory buildings."

2. Page 14, Section 2-2, item 1(b): after "business," add "including the raising of livestock and poultry and all usual farming operations."
3. Page 22, Section 2-5 (b): add "except for barns and other accessory buildings in RR districts and for buildings in NP, F and RR districts accessory to a main use of land not involving structures."

Article XI. On motion of John Neale, duly seconded, it was voted that the town authorize the selectmen to borrow such sums of money as may be necessary to meet the town's obligations until the taxes are collected and paid into the Treasury.

Article XII. On motion of Mr. Low, duly seconded, it was voted that the present commission of Selectmen and Precinct Commissioners concerning the Town-Precinct merger be continued.

Mr. Low asked whether or not the majority present preferred a night meeting. The response was unanimous that they did.

On motion of Fletcher Low, duly seconded, it was voted that the Bicentennial committee for Hanover, appointed September 19, 1957, be and hereby is discharged.

Mrs. Phoebe Stebbins read the following resolution:

Adna L. Camp has been a trustee of the Hanover Town Library from 1925 until this year when he has resigned because of poor health. His guidance and interest in the Library over this long period of years have been most valuable. And not only has he served as trustee but he has tended the building's physical needs as its janitor for the past twelve years. Mr. Camp's kindly assistance will surely be missed. At this time we would offer the thanks of the town for his services and ask that this be included in the record.

Mr. Stebbins commended the Bicentennial committee on the fine celebration.

The meeting adjourned at 10:00 P.M., the polls remaining open until 10:30 P.M.

Respectfully submitted,
 MARION E. GUYER
Town Clerk

SPECIAL TOWN MEETING

June 6, 1962

A legal meeting of the inhabitants of the Town of Hanover was called to order by the Moderator, John B. Stearns, June 6, 1962 at 7:00 A.M. to act on the following subject.

To see if the town will vote to authorize the Town-Precinct Merger Commission to introduce in the 1963 Legislature an act providing for a merger of the Town and Precinct of Hanover.

The polls were open from 7:00 A.M.-6:00 P.M.

The vote was taken by secret ballot. A 60% yes vote of those present and voting was needed to authorize the commission to take such action.

There were 1266 ballots cast.

Yes	799
No	463
Spoiled ballots	4

The Moderator declared the vote carried.

Respectfully submitted,
 MARION E. GUYER,
Town Clerk

HANOVER TOWN AND PRECINCT
PLANNING BOARDS
EIGHTH ANNUAL REPORT

As in the past, the Hanover Town Planning Board and the Planning Board of the Village Precinct of Hanover have worked together as a unit on their common problems. The Planning Board is happy that Mr. J. Ross Gamble, chairman of the Finance Committee, accepted its invitation to join the Board as a consultant. Mr. Gamble attends all meetings of the Board and is most helpful in its deliberations.

As required by law, all new subdivisions must be submitted to the Planning Board for approval. Each subdivision is scrutinized carefully by the Planning Board in relation to all future developments, and changes recommended by the Board frequently save many tax payers' dollars.

Early in the year, the College submitted plans for a new subdivision West of Lyme Road. The Planning Board requested that the plan as submitted be changed to provide for a possible access road to future developments North of this area. The changes were made and after a public hearing the subdivision was approved.

A subdivision adjacent to Lyme and Reservoir Roads was presented in March to the Planning Board by Hanover Development Corporation. The Board requested that changes be made in street widths, gravel base of the roads, drainage and grades. After the requested changes were made and a public hearing held the subdivision was approved.

In June, Mr. Ralph E. Harris, associated with W. Brooke Fleck, architect, presented to the Planning Board plans for a subdivision consisting of ten duplex units to be located in the Camp Brook area. While the Planning Board thoroughly approved of the design of the units, the projected location was in an area zoned for Single Residence. It would be impossible for the Planning Board to approve this subdivision in the designated area without a very comprehensive amendment to the Zoning Ordinance, which, even if desirable, is a long and complicated process. The Planning Board felt it wise to consult Mr. John T.

Howard of the firm of Adams, Howard and Greeley, the professional planners who guided the Planning Board in making up the Zoning Ordinance. On his advice, and after long and serious discussion, the Planning Board advised Mr. Harris that it would be very reluctant to change a Single Residence area to General Residence until greater need had been demonstrated. The Board called to Mr. Harris' attention one area in particular, already properly zoned, and equally attractive, which might be available for this development. This whole development is still in abeyance.

While performing the routine duties assigned to it by law, the Planning Board gave serious thought to "where it should go from here." Adams, Howard and Greeley prefaced its final report to the Planning Board with the statement—"A community must look ahead, to decide where it wants to go and chart a practical course for getting there. . . . It is essential that a planning program become a continuous municipal function, and that it be carefully reviewed each year by the appropriate authorities, planning boards, finance committee and municipal officials." Feeling that the tools for planning—zoning ordinances, subdivision regulations, HANOVER PLANS AHEAD, HANOVER CAPITAL IMPROVEMENT PROGRAM—have been manufactured, sharpened, and in daily use, it is now time to plan ahead, the Board invited the Precinct Commissioners, Selectmen, Finance Committee, Boards of Adjustment, Chamber of Commerce, College officials and other interested citizens to meet with them in June to get their suggestions on where planning should now be focused. At this meeting the first question raised was the perennial one of off-street parking, which members of the Chamber of Commerce felt was the most urgent planning problem. Members of the Chamber offered to appoint a committee, on which Mr. Campion and Mr. Cavaney would represent the Planning Board, to bring up to date the parking studies made by the Planning Board five years ago.

Main Street traffic, and particularly rerouting Route 10, came up for discussion and emphatic opinions were expressed

that ways must be found for taking some of the heavy traffic off Main Street. Various suggestions which had been made by Adams, Howard and Greeley were reviewed in this connection.

The Planning Board, which has been long advocating that the area back of the Precinct Building be devoted to shoppers' parking, is happy that this has now been done. The Board regrets that this is not more widely used, for, in its opinion, this is the best buy for a nickel in town. However, as most shoppers are women it may take them some time to be willing to cope with the trucks on Allen Street.

In all its deliberations during the past year, the Planning Board kept returning to the question of Hanover's Central Business District. In our 1961 report we referred to the meeting with Mr. John T. Howard, when he reminded the Board again that he felt strongly it should be devoting its attention to our Central Business District. He reiterated his conviction that, because of the very nature of our town, Hanover should have a compact, attractive, and efficient business district. He reminded us again that we should get on with these studies for, with advent of the new throughways, with interchanges nearby, we might find a flight of businesses to shopping centers and our Central Business District withering on the vine.

The whole central business area should be the concern of every tax payer, as this is the source of so large a percentage of our taxes. In recent years, assessments have had to be lowered on some business properties and the tax payer has, in essence, been subsidizing neglect. With the great strides in building made by the College and Hospital, a resultant "new look" has been given to the whole town with the exception of Main Street.

After long discussion, the Planning Board agreed to concentrate its attention on the central business area. A sub-committee consisting of Mrs. Morrison, Mr. Campion and Mr. Cavaney was appointed to look into the question of securing professional assistance and to explore the whole problem with Miss Mary Louise Hancock, Planning Director of the State Department of Resources and Economic Development. While many of the studies made in our original planning projects by

Adams, Howard and Greeley had covered some of the facets of the central business area problems, they had never delved deeply into Central Business District problems.

In its early deliberations, the Board had contemplated a modest study, which of necessity would have to be financed by local funds. Miss Hancock, however, convinced the Board that a thorough, professional study should be made by a professional planner and that if the Board submitted a plan which could be approved and supervised by her department, federal funds could be secured from the Housing and Home Finance Agency. With Miss Hancock's approval the Board then asked Mr. Hans Klunder, a professional planner well known in the state, and now a resident and property owner in Hanover, to draw up a Proposed Central Area Study for Hanover. This plan was submitted to the State Department of Resources and Economic Development and went through four drafts before it was finally accepted.

After the Planning Board had studied the Klunder proposal, they invited the Precinct Commissioners, Selectmen, Finance Committee, Chamber of Commerce, representatives of the College and of our two newspapers to attend a public meeting to discuss the project. Members of the Planning Board explained the background thinking which had led to their recommendation that the study be undertaken, and Miss Hancock explained why her department felt strongly that this should be done while federal funds were available.

Mr. Klunder then outlined briefly his Proposed Area Study, which would take about six months. The general outline of the study would include—

- A. Aerial photographs of the Central Area.
- B. Base maps of the central area, urban area and regional area.
- C. Interviews and surveys—opinion data gathering from business men, land owners, renters, shoppers, visitors, college and town officials.
- D. Land use and ownership patterns.
- E. Building conditions.

- F. Land value and changes.
- G. Traffic and parking—a revaluation of all existing studies, with preparation of new maps and new reports of existing conditions.
- H. A comprehensive report on the social, economic, civic and governmental functions of the Central Business Area and how well these functions are now being performed.
- I. Preparation of a central area plan for land use, traffic, parking, aesthetic design, supplemented by maps, designs and models.

In his study Mr. Klunder would immediately ask for the appointment of a "Main Street Task Force" to assist and advise him all the way along. The cost of the project would be about \$15,000 of which Hanover's share would be \$5,000, the remainder coming from state and federal funds. In a special article in the warrants the Planning Board is asking the Town and Precinct each to appropriate \$500 toward this project. The balance, hopefully, will be raised locally. The Chamber of Commerce has already voted \$500 toward the study, and has declared its willingness to assist in raising further funds.

By the State Statute from which the Planning Board derives its authority, the Planning Board "has the authority to make investigations and recommendations relating to the planning and development of the municipality and to recommend to the appropriate public officials programs for implementing them." The Board feels that it can recommend this project wholeheartedly. Our dependence on the business area as a tax base; the comfort, convenience and safety of our citizens; pride in our community—make this an all-out community effort. The Planning Board will not be laying *down* the law to those most deeply involved in the Central Business District. It will merely be laying *up* hopes, dreams and a positive pattern for the future. Changes are bound to be made in the Central Business District—perhaps in the immediate future, perhaps in the distant future—but when they come we will have guide lines and a pattern which, if followed, would give Hanover a Central Business

District attractive, functional, economically productive, and a source of pride to all Hanover citizens.

HANOVER TOWN LIBRARY REPORT

for the

Year Ending December 31, 1962

There has been little change at the Hanover Town Library this year. Faith Stanley replaced Marilyn Thompson as librarian in July and August. During the summer months the library was opened for two hours on Wednesday evenings as well as two hours Saturday afternoons. There was enough interest that the practice has continued.

We are most grateful to Myron Trumbull for work done in the fall replacing slate on the roof.

Wondering whether there might be some way of making the library and the building more effective, a letter was sent in October to residents of Etna and Hanover Center. They were asked whether they are satisfied with the library as it is, whether the annual appropriation from the town might better be spent to strengthen the school and Howe libraries, whether the expense of improving the library with trained librarian and good reference books could be justified, and whether there were other ways in which the building could be used.

To the 140 letters twenty-nine answers were received. Nine of these indicated a strong desire for the library to continue as it is or that money be spent for improvement. "With Baker Library there is not much use of Howe . . . money should be spent out here so we don't lose everything." "The only town library, keep it up to date." "Even though we use Howe library facilities, we would miss having a library in our own community to use." "Etna and Hanover Center children cannot get to Howe." "Older people probably would not go elsewhere." Nineteen of the replies expressed the feeling that the present books and future appropriations would best be used to supplement the school libraries and Howe Library with the building used for other community purposes, such as 4-H, scouts or Historical Society headquarters. Suggestions were made that a weekly or twice weekly bus service to Howe might be arranged. Or that a group such as the senior Girl Scouts

might bring books from Howe to the more elderly borrowers. Unwritten opinions expressed were in about the same ratio to the written answers.

There is no water in the building which would perhaps limit its use for community groups, Trumbull Hall seems better suited. The Historical Society is discussing the use they might make of it if it were ever to be available.

Another alternative which seems very attractive to the trustees is that it might become a branch of the Howe Library, sharing books and the help of an experienced librarian. We realize that it might be too much of an added burden at the present time.

Respectfully submitted,

PHOEBE S. STEBBINS

THE ETNA FIRE DEPARTMENT

HOWARD J. RANDALL,

Chief

DON I. NICHOLS,

Assistant Chief

CLIFFORD R. ELDER,

Captain

HOWARD C. REED,

Assistant Chief

ALLAN C. GARDNER,

Assistant Chief

KENNETH PELTON,

1st Lieutenant

FRANK HAYES,

2nd Lieutenant

The year 1962 brought more than its share of fire and emergency calls, with heavy financial loss. Major fires in the town were those at Cold Regions Research and Experimental Laboratory building, and at Golfside Recreation Center. Other calls resulted in relatively small losses or no loss, although the loss at the George Coates residence was kept small by prompt response of the Precinct Fire Department through our mutual response program. Total reported loss in 1962 was \$401,-716.14.

Fighting the fire at CRREL was a difficult and lengthy operation due to the materials involved and the structure itself. In addition to excellent cooperation with the Precinct Fire Department, valuable assistance was received from the Fire Departments of Lebanon, White River Jct., Norwich and Pease Air Force Base. 1962 again brought a number of electrical problems, with fallen wires and power failures, when men of the department stood by until repairs were made, thus affording protection to passersby and maintaining radio contact with the Hanover station in the event of other emergency.

The Lebanon Fire Department called us with our Pump #1 as a source of water to a fire where it appeared that adequate water was not available. This run was made under our mutual aid agreement with Lebanon, and we, in turn, can feel free to request similar assistance from them if the need arises. A joint drill was conducted at Etna, with departments from Lebanon, West Lebanon, Hanover and Etna participating, with the basic exercise being that of supplying water through tank truck shuttle service.

ACTIVITIES

Regularly scheduled drills and meetings were held each month. Various phases of fire fighting were covered in the drills, including some first aid, use of apparatus and equipment, pumps, ladders, nozzles, generator and lighting equipment, portable pumps, actual oil fires and timed combination of sequences.

Members of the department attended two training sessions sponsored by the Twin State Fire District Association. One covered aircraft crash and rescue problems on military aircraft and was instructed by Fire Chief William K. Brown, Pease Air Force Base. The second, an all day session, was held in the fall at White River Jct. and covered Breathing Apparatus, Pumps, Ladders, Portable Pumps, and Hose layouts. Our department supplied two men as instructors.

Three men attended a training school at Laconia, sponsored by the Lakes Region Mutual Aid Association and nine men attended the training school held at Meadowood Drill Ground, sponsored by the New Hampshire Fire Chiefs Club. Subjects covered were Fire Department administration, forest fire fighting, rescue work, oil and building fires, use of ladders, smoke masks and ventilation, basic first aid in artificial resuscitation and closed chest cardiac massage.

The men's interest in training runs high with the men anxious to improve their abilities and thus be able to do a better job in serving the community.

Through our suggestions, and the cooperation of Mr. Rod Poland, executive assistant, an orientation evening was conducted at CRREL, with personnel of the Etna and Hanover departments, Hanover Police Department, Chiefs of area fire departments, Campus Police and State Police officers participating. Through this orientation, better protection can be afforded CRREL through a better understanding of their problems and facilities.

MEETINGS

A number of the men and officers attended meetings of the various Fire Department organizations in the area. These in-

cluded meetings of the New Hampshire Fire Chiefs Club, Twin State Fire District Association, Lakes Region Mutual Aid Association and the Grafton-Sullivan Forest Fire Wardens Association. Chief Randall served as president of the Grafton-Sullivan Forest Fire Wardens Association in 1962.

A team representing the Etna Fire Department entered the Hose Laying contest at the Forest Fire Wardens Field Day and won first prize—a plaque which will remain in the possession of the Department. In addition, a second plaque will be held for one year, rotating to the next first place winner at the next Field Day. A third plaque, the “Good Sportsman Plaque,” was also awarded to the Etna Department for the next year, when it too will be subject to rotation.

PUBLIC RELATIONS

In spite of the rain which has plagued us for several years, the annual Halloween party was held for children of the Etna-Hanover Center area. In spite of the weather, attendance was good and over one hundred children had their rides on the trucks, with refreshments of doughnuts, apples and cider. Costumes were judged and prizes awarded in several categories.

The Boy Scout troop and Cub Scout pack continue under the sponsorship of the department. Under the leadership of scoutmaster, advisors and committeemen, most of whom are members of the Fire Department, an active and successful year was had by both units.

By invitation of Mrs. Lawler, Home Economics teacher in the seventh grade, Chief Randall spoke to both sections of the class relative to fire safety in the home, particularly as it applies to baby sitting—a part time occupation many of the girls in the grade would soon be undertaking. The interest expressed and questions asked indicated the depth of the feeling of responsibility our junior citizens possess.

By invitation of the Hanover Volunteer Hose Co., Etna firemen and their wives were guests at the Hose Company annual picnic. A very enjoyable time was had by all in at-

tendance and we again thank the Hanover Volunteer Hose Company for their invitation.

The annual dance for the benefit of the Etna Fire Department was again conducted by Polly Randall of the "Polly Randall School of Dance."

Mrs. Lois Gardner of the "Home Mix Bakery" conducted a "Firemen Donut Month," with the proceeds from the sale of doughnuts during the month being donated to the department.

The proceeds of these two functions were used to purchase equipment needed by the department as a memorial to Ted Hart, who gave much time and energy to our department and the community.

A "manual" resuscitator was donated to the department by Assistant Chief Don Nichols. It is carried on our "Rescue 2" truck in the event of emergency need.

FIRE PREVENTION AND INSPECTION

During 1962 we continued our efforts on behalf of fire safety by intensifying our inspections of various types required by State laws. One of our primary problems is in the inspection of oil burners. Installation of oil burners and equipment must be made in accordance with standards established under Rules and Regulations of the State Board of Fire Control. These regulations apply to whomever does the actual installation, whether homeowner or contractor. The Regulations state in part:

"Whoever desires to install any fuel oil burner shall first make application to the Chief of the Fire Department and obtain a permit; therefore upon receipt of an application for the installation of an oil burner, the Chief of the Fire Department shall grant a temporary permit authorizing such installation. Upon completion of the installation, the temporary permit shall be cancelled, and provided that all the rules contained in the regulation have been complied with, the Chief of the Fire Department shall issue a permit for the storage of oil and the operation of the equipment."

Permits should be obtained from the Fire Chief who may be contacted either at his home, or at the American Optical Co., Hanover, N. H. Failure to observe the regulations are subject to the following:

“Whoever shall violate any rule or regulation of the board issued pursuant to Section 5 of Paragraph 1, Section 12, shall upon conviction thereof, be fined not more than one hundred dollars for each offense. All penalties, fees or forfeitures collected under the provisions of this chapter shall be paid into the treasury of the state.”

Unfortunately, although many inspections of oil burner installations are made, the number of “permits to operate” issued is far less, due to failure of installers to conform to the regulations, requiring in some cases 5 or 6 reinspections before corrections are made, and the installation meets legal standards. Our recommendations are:

1. The person having the job done should insist that the heating contractor secure the proper permits, and as soon as the installation is complete, notify the Fire Chief accordingly.
2. In the agreement or contract with the heating contractor have a definite understanding that final acceptance of, and payment for, the installation be contingent on inspection and approval of the installation by the Chief of the Fire Department.

FUEL OIL AND FLAMMABLE LIQUIDS

The storage and use of flammable liquids in these days of power mowers, snow removing equipment, garden tractors, camping equipment and the many other gasoline powered tools increases steadily. Maintaining such storage in the home and adjacent buildings can be a serious fire hazard. In recognition of the seriousness of this hazard, the State Board of Fire Control has adopted as law more stringent regulations on the dispensing, labeling and storage of flammable liquids. Portable containers for Class 1 and Class 2 flammable liquids of 5 gallons or less must be clearly labeled with the name of the

product contained therein, must be of sound metal construction, having a tight closure with screwed or spring cover and fitted with a spout, or be so designed that the contents may be poured without spilling. Dispensing flammable liquids into glass or other containers than as described above is illegal. Storage of flammable liquids other than fuel oil in dwellings and apartment houses containing not more than three dwelling units and accompanying attached and detached garages is prohibited, except that which is required for maintenance or equipment operation which shall not exceed ten gallons. Such flammable liquid shall be stored in metal closed containers or safety cans.

EQUIPMENT

Our equipment consists of 2 Maxim-International 600 GPM 4-wheel drive pumps, a Willys Jeep pumper, a 1942 Chevrolet panel truck and a 1929 Model A Ford tank truck. It is our hope that either through Civil Defense surplus program or a government surplus property program of the State Forestry Department we will be able to obtain a tank vehicle of approximately 1000 gallon capacity to take the place of the 1929 Ford.

With negligible water supplies available in so many areas, it becomes increasingly necessary to be able to carry an adequate supply of water to the fire.

In 1962, with permission of the Telephone Company, men of the Fire Department strung wires on the telephone poles in both directions from the Etna Fire Station, and from there to the homes of firemen living within the range of the main line. By tapping into the receiver side of the Fire Station radio set, and installing speakers in the firemen's homes, we have extended our fire alarm system at a minimum of cost. It is our hope that this radio system can be extended this year to reach more homes in Etna, and in time, a similar system installed to cover some of our men in the Hanover Center Area.

With regard to the addition to the Etna Station voted at 1962 Town Meeting, a great deal of planning was accomplished and

bids solicited. Due to the great amount of construction work in the area, we found a number of contractors too busy to be interested in bidding. Several bids received were beyond our appropriation. Late in the fall, we did receive bids which were in line with estimates and the contract was awarded to Porter Contractors, West Lebanon, N. H. Work was started and will be completed early in the spring of 1963. A substantial amount of work will be done by members of the Department so as to obtain maximum benefit of the money appropriated.

ORGANIZATION

Our basic organization is a department operating under the Board of Selectmen. The department is directed by a Board of Engineers comprised of a Chief Engineer and three assistant engineers, appointed by the Board of Selectmen for an indefinite term, tenure of office depending on good conduct and efficiency, and may be removed only for just cause, as suggested or recommended by the NFPA and NHBFU. A captain and three lieutenants complete the line officers and are elected by the department members at the annual meeting, to serve for a term of one year.

In the event of an emergency, the highest ranking officer present assumes charge until the emergency is completed, or a higher ranking officer reports. Total membership of the department is 40 men, who are guided by a set of By-Laws, Rules and Regulations drawn from models drawn up by the NFPA, and accepted by the Board of Selectmen.

RECOMMENDATIONS

Our recommendations include some which have been made in previous years. Some progress has been made and will continue. Our basic needs are 1—auxiliary generator for fire station and town shed; 2—tank truck with approximately 1000 gallon capacity; 3—adequate water in station, including drinking water; 4—hose dryer for better care of hose; 5—adequate

supply of both 1½" and 2½" hose in reserve; 6—additional radio receivers to serve as fire alarm extension.

With the cooperation of Mr. Asa Cummings of the Hanover Water Works Co. a test was conducted of the water flow from the Hanover Center reservoir to various points along the brook through Etna Village. These tests show that use of the reservoir as a water source is useless, if the brook bed is used as the carrier. Other possibilities are being considered and recommendations will be forthcoming.

IN MEMORIAM

ALVIN POLAND

FRED E. COBURN

It was with regret that we learned of the passing of Alvin and Fred, good neighbors and brother firemen. Both men were active in the department in its formative period, years ago. Fred, though not active in recent years, at one time was secretary and treasurer for a period of several years. Alvin, active through the years, was always ready to help. Fred and Alvin will both be missed.

REPORTING FIRES

We again advise all residents of the town that the proper method of reporting fires, if beyond the extent of the Precinct Fire Alarm Box system is to telephone the Hanover Fire Station—643-3610, and advise the dispatcher of your name and location of the fire, with any other information which would be helpful. The dispatcher may then transmit the alarm via radio even while still obtaining the particulars from you.

The best fire fighting is fire prevention with fire safe habits and good housekeeping a must. If you have any questions, or would like any assistance in the fire prevention field, or if you would like a home fire inspection, with the inspector making recommendations on how to make your home safer from fire, please contact one of the Board of Engineers. There is no ob-

ligation and any recommendations would be confidential, having no effect on insurance.

Respectfully submitted,

HOWARD J. RANDALL, *Chief*
HOWARD REED, *Assistant Chief*
DON I. NICHOLS, *Assistant Chief*
ALLAN C. GARDNER, *Assistant Chief*

AUDITOR'S REPORT

I have examined the foregoing accounts of the Selectmen, Town Treasurer, Collector of Taxes, Judge of the Municipal Court, and Trustees of Trust Funds, for the year ending December, 1962, and find them correct with disbursements supported by appropriate vouchers.

JOSEPH L. McDONALD
Auditor

FOREST FIRE WARDEN'S REPORT

January 1, 1963

Forest fires are expensive. Unfortunately, over 90% of all forest fires are man-caused, basically through carelessness. As mentioned in previous reports, costs of forest fires are chargeable to the party responsible if responsibility can be determined. In 1962, costs of suppressing carelessly set outdoor fires in New Hampshire, charged to the parties responsible, were \$5,545. Unfortunately, the cities and towns of New Hampshire paid out, in the same year, for fires for which responsibility could not be placed, the sum of \$24,634.

Carelessly set man-caused fires can be prevented if every citizen remembers his responsibility in regard to setting fires in the open. Our fire loss can be reduced, both statewide and locally, if the following rules are followed:

1. Dispose of burnable waste at the community dump, insofar as possible.
2. Obtain the burning permit required by law. Seasonal permits may be issued for approved incinerators properly located.
3. Keep your fires under control; avoid dry windy days.
4. Have adequate tools on hand to keep the fire under control—garden hose, pails of water, sprinkling can, broom or shovel.
5. Completely extinguish your fires before leaving them—be sure they are dead out.
6. If the fire gets out of control, or if you see a fire out of control, report it promptly to your forest fire warden, or fire department. Do what you can to control the fire until help arrives.

1962 Fire Record

Total number of fires	7	Number of acres burned	1.3
"Collectible" fires	1	Permits issued	367

Two of the fires were at the dump and occurred in the dry spring season. In addition to the fire calls at the dump, numerous calls were received during the year for investigation, due largely

to the development of a new dumping level from which the glow of burning debris could be seen in several directions.

One fire was caused by lightning—the only fire due to natural causes. With repeated lightning activity in the fire area, several men fighting the fire felt the shock of the lightning, with two men knocked to the ground by the bolt.

Under the forest laws of New Hampshire, a fire kindled in the open at any time, except when the ground is covered with snow, must be covered by a permit issued by the Forest Fire Warden of the Town in which the burning is to be done. Anyone kindling a fire without a permit is liable to prosecution for such violation.

The Warden and Deputies participated in training sessions conducted by N. H. Forestry Dept., the firemen's training school held at Meadowood Drill Ground, Fitzwilliam and the Lakes Region Mutual Aid Association. They attended meetings of the Grafton-Sullivan Forest Fire Wardens Association and the annual Field Day of the Association, where a team representing the Etna Fire Department won first prize in the hose laying contest. A plaque was awarded the Department as winner. Warden Randall served as president of the Grafton-Sullivan Association during 1962, with Deputy Warden C. H. Nott serving on the Board of Directors.

In the annual Forest Fire Poster contest, sponsored by the Grafton-Sullivan Forest Fire Wardens Association in the schools of the area, Hanover had two prize winners among the almost 700 posters entered. Debbie Costello and Betsy Storrs were winners in their grade groupings and attended the Christmas party of the Association as honored guests with the winners from the other communities. During the program all winners were awarded their prizes and the winning posters were on display. Our congratulations to Debbie and Betsy.

It is our hope that 1963 will see an improved forest fire record over 1962. With your help and cooperation, that hope can be a reality.

Respectfully submitted,
HOWARD J. RANDALL
Forest Fire Warden

January 23, 1963
47 Main Street
Plymouth, N. H.

Office of Selectmen
Hanover, N. H.

Dear Sirs:

The following is a report of activities conducted for the town of Hanover, by the N. H. Division of Public Health, Bureau of Public Health Nursing, for the year 1962. Please have printed in your town report.

The town of Hanover, having their own Local Public Health Nurse does not require much of the time of the N. H. Division of Public Health, Public Health Nurse. This leaves more time to devote to the towns less fortunate, who do not have town nurses. However, cooperation is given the Local Public Health Nurse in any special programs requested.

On April 25, 1962 a preschool Child Health Conference and Immunization program was held at the Library Building in Etna. At this time 6 preschool children received physical examinations, 13 Salk Vaccine shots were given, 4 immunizations and booster shots for Diphtheria, Tetanus and Whooping Cough, and 3 smallpox vaccinations. This clinic was serviced by Dr. W. Rydell of Hitchcock Hospital and arranged by Local Public Health Nurse.

In the fall the State Mobile X-ray Unit visited Hanover and a total of 117 Chest X-rays were taken. This was under the supervision of Mr. Jenson, X-ray Survey Supervisor with the N. H. Division of Public Health. Follow-up visits were made as necessary by the nurse.

Other residents of Hanover attend the Chest X-ray Clinics held in Lebanon twice yearly. These are conducted by the N. H. Tuberculosis and Health Association cooperating with the N. H. Division of Public Health. Notices of clinic dates are sent out in advance and a written report follows the clinic.

A few special visits have been made in the town on follow-up to requests from the State Office.

My sincerest thanks to the Local Public Health Nurse for

her cooperation, the Library Trustees for the use of the Etna Library for the clinic, the committee assisting at the clinic, and any others that have contributed in any way to the success of the program. Sincere thanks also to Medical Social Service of the Mary Hitchcock Memorial Hospital for assistance given us throughout the year in our program.

Respectfully submitted,

LOIS B. REED, R.N.

*Public Health Nurse,
Bureau Public Health Nursing,
N. H. Division of Public Health*

REPORT OF TOWN NURSE

December 31, 1962

A total of 1,511 nursing care visits were made last year. 5,949 miles were covered during the year.

Post Natal	85
Infant	84
Pre School	36
School Children	27
Adults	1,203
Calls made and patient not at home	71
Health Supervision	146
Sanitary Problems	2
Transportation of patients to Nursing Homes or County Farm	7
Full Fee	886
Part Fee	187
Free	69

I attended several meetings last year in connection with my work, and those that proved most worthwhile were the New England Conference on Child Welfare, the N. H. Heart Association in Pembroke, N. H. and the Governor's Council on the Aged. An immunization Clinic was held in Etna last spring. The response was not too great and I felt I did not have enough publicity. It will not be held again until next year. I hope to have a fluoride treatment dental clinic in Etna in the near future. As in the past, I have taught the Girl Scouts their home nursing course, assisted with the blood bank programs and organized a flu immunization clinic for the Fire Department.

This year marks the end of 10 years service for this Visiting Nurse program. I feel that this is a very successful program and is due in part to the cooperation of the Hospital, Doctors, local organizations and a community that is health minded. I do feel that some program for adult dental problems is much needed, but otherwise, the few housing and sanitary problems will take care of themselves in time.

Respectfully submitted,

MARY E. PATTEN, R.N.

Visiting Nurse

REPORT OF THE OVERSEER OF WELFARE

	Budget 1962	Expenses 1962	Proposed Budget 1963
Old Age Assistance	6 000	4 366 55	5 000
Town Welfare	4 000	5 067 57	5 000
Hospitalization	2 500	2 945 61	2 500
Medical Expense	500	204 95	500
	<hr/>	<hr/>	<hr/>
	13 000	12 584 68	13 000

The following is a brief summary of the various types of assistance in 1962: (Anyone who is interested in a more complete explanation of the nature of the welfare program should consult the 1960 Town Report.)

Old Age Assistance

This item in the budget covers payments by the town for two types of assistance:

1. *Old Age Assistance.* The number of Hanover cases (individuals or families) ranged from a high of fifteen in the first quarter of the year to a low of thirteen in the last quarter.

2. *Aid to Permanently and Totally Disabled.* Only two cases were supported this year, one-half of last year's total.

Town Welfare

This item rose sharply this year and it is likely that Hanover will be faced with sudden, but usually upward fluctuations in the months to come. Not only was the budget for this item exceeded but we were "lucky" that two of the areas of this budget (1) Foster Children and (2) County Farm cases were less than normal.

Direct Relief accounted for our major expenditures. One of the cases, a child, requires expensive rehabilitation treatment and this case alone accounts for almost one-third of the total costs of this item. In all, thirteen individuals or families received assistance.

Hospitalization

Seventeen (17) residents of Hanover received assistance on their hospital expenses from the joint resources of the town appropriation and \$1,250 from the Hanover Free Bed Trust Funds. The appropriation for this item will soon need to be increased.

Medical Expense

Although not fully utilized this year, this item is primarily designed to provide psychiatric assistance for children and adults. Six residents received some help from this appropriation, largely in the form of the cost of prescriptions.

Town Nursing Service

Again your attention is called to the excellent work of Mrs. Mary Patten and her report which appears on another page. I hope Hanover residents will do their best to persuade Mary to stay on as Town Nurse.

Conclusion

This report concludes my three years of service as Overseer of Public Welfare. It is impossible to express here my appreciation to all those who have helped me. All I can say is *Thanks!*

I regret that I have been unable to find any consistent method to overcome the greatest obstacle to meeting genuine welfare need of the community; that noble virtue, but often physically and psychologically damaging thing we call "pride." I hope it will not be too long before all our older citizens will be covered by some form of complete medical insurance.

Respectfully submitted,

JOHN V. NEALE

Overseer of Public Welfare

MARY HITCHCOCK MEMORIAL HOSPITAL

During the year January 1, 1962 through December 31, 1962 the Hanover Free Bed Fund in the Mary Hitchcock Memorial Hospital, Hanover, New Hampshire has rendered 263 days' service to 25 residents of the Town of Hanover.

The portion of Free Bed Funds allotted by the Trustees this year was \$1,250.00. In addition, the Town of Hanover made cash payments in the amount of \$2,986.11 which made a net allotment of \$4,236.11.

The charges at the minimum hospital rates for service rendered to these patients during the period amounted to \$4,236.11, showing no balance as of the end of the year.

Respectfully submitted,

W. L. WILSON
Administrator

WARRANT

THE STATE OF NEW HAMPSHIRE

Grafton, SS.

Town of Hanover

To the inhabitants of the Village Precinct of Hanover in the Town of Hanover, in the County of Grafton, in the State of New Hampshire, qualified to vote in Precinct affairs:

You are hereby notified to meet in the Auditorium of the High School Building, in said Village, on Thursday, March 14, 1963 at 7:30 P.M. in the evening, to act upon the following subjects:

First: To choose by nonpartisan ballot the following Precinct Officers:

- One Moderator
- One Clerk
- One Treasurer
- One Auditor
- One Precinct Commissioner

Second: To hear the reports of the Precinct Commissioners, Treasurer, Auditor, and other Precinct Officers, and pass any vote relating thereto.

Third: To raise such sum of money as may be necessary to defray Precinct expenses for the ensuing year according to the proposed budget for 1963 and make appropriation of the same.

Fourth: To see if the Precinct will vote to raise and appropriate the sum of \$500 for the purpose of Civil Defense.

Fifth: To see if the Precinct will vote to raise and appropriate the sum of \$500 for a central area study as proposed by the Precinct Planning Board, provided:

- a) a total of \$4,000 is raised from other local sources, and
- b) the study is approved by both the Federal and State Governments.

Sixth: To see if the Precinct will vote to raise the sum of \$300 for the Precinct's share in the operational costs of the Hanover Information Booth during the summer of 1963.

Seventh: To see if the Precinct will vote to raise and appropriate the sum of \$2,450 to be used by the Upper Valley Development Council, or its successor organization, for the promotion of this community and other communities within the area, provided, however, that this appropriation shall not be paid over by the Precinct to such organization unless at least 80% of the total proposed budget for such organization, shall be raised and appropriated by action of other towns within the organization, and provided further that any necessary state and federal legislation be first enacted to establish this organization and to authorize an expenditure by the Precinct for the support of this organization.

Eighth: To see if the Precinct will recommend that the Board of Commissioners take whatever steps are necessary to restrain all dogs during the period from April 1st to November 1st, of each year.

Ninth: To transact any other business that legally may be brought before said meeting.

Given under our hands and seals this 27th day of February 1963.

LEWIS J. BRESSETT
KENNETH A. LECLAIR
ROBERT D. McLAUGHRY
Commissioners

A true copy of Warrant, Attest:

LEWIS J. BRESSETT
KENNETH A. LECLAIR
ROBERT D. McLAUGHRY
Commissioners

Hanover, New Hampshire
March 15, 1962

The annual meeting of the voters of the Village Precinct of Hanover, New Hampshire was called to order at 7:35 P.M. in the Auditorium of the High School Building by Moderator Carl D. England.

The opening prayer was given by the Reverend James M. Buell.

The Warrant was read by the Clerk.

ARTICLE 1. The polls were declared open by the Moderator. The results of the non-partisan vote were as follows:

Carl D. England was elected Moderator for a term of one year—	142 votes
I. Nicholas Bielanowski was elected Clerk for a term of one year—	143 votes
Ethel C. Bond was elected Treasurer for a term of one year—	132 votes
Seaver Peters was elected Auditor for a term of one year	34 votes
Kenneth A. LeClair was elected Precinct Commissioner for a term of three years—	136 votes
A total of 145 votes was cast.	

ARTICLE 2. After a report by Commissioner Bressett on the general Precinct government it was VOTED to accept the reports of the Precinct Commissioners, Treasurer, Auditor and other Precinct officers as printed in the Precinct Report.

ARTICLE 3. It was VOTED that the Precinct Commissioners be authorized to raise such sum of money as may be necessary to defray Precinct expenses for the ensuing year ac-

ording to the proposed budget for 1962 and to make appropriation of the same.

ARTICLE 4. After explanatory remarks by Commissioner Bressett and comments from several voters present, it was VOTED that the Precinct Commissioners be authorized to install traffic lights at the intersections of Main and East Wheelock, Main and Lebanon and East Wheelock and Park Streets and to raise and appropriate the sum of \$10,000 to finance said installations.

ARTICLE 5. At the request of Earl Ward representing the Directors of the Hanover Chamber of Commerce, this Article was PASSED OVER until next year's meeting because the appropriation sought under the article had not been approved by the Finance Committee, having been submitted for their consideration after the January 1st deadline.

ARTICLE 6. It was VOTED by the voters present that the Precinct Commissioners adopt the proposed amendment to the Zoning Ordinance—said amendment generally described as follows:

1) To establish a new district to be designated the Natural Preserve District and to make such changes in the map of the Precinct which is part of the existing ordinance as will clearly show the boundaries of the new district with a written description of the zoned boundaries attached thereto.

2) To make such changes in the text of the ordinance as are necessary to provide for the new district, to regulate uses within the district, to establish dimensional requirements and to establish criteria for the granting of special exceptions by the Board of Adjustment.

ARTICLE 7. It was VOTED that the Precinct Commissioners be authorized to expend a sum of up to \$10,000 to be used for construction of new sidewalks.

ARTICLE 8. (a) After Commissioner McLaughry gave a summary of the proposed Town-Precinct Merger, it was VOTED that the present commission of Selectmen and Precinct Commissioners concerning the Town-Precinct Merger be continued.

(b) There being no further business, it was VOTED to close the polls and to adjourn the meeting at 9:20 P.M.

Respectfully submitted,

I. N. BIELANOWSKI
Clerk

AUDITOR'S CERTIFICATE

Hanover, New Hampshire

February 3, 1963

I have examined the accounts of Lewis J. Bressett, Robert D. McLaughry and Kenneth A. LeClair, Precinct Commissioners, for the period of one year, January 1 through December 31, 1962 and I find them to be correctly kept and supported by proper vouchers.

I have examined the accounts of Ethel C. Bond, Precinct Treasurer and LeRoy G. Porter, Acting Precinct Treasurer, and I find them correctly kept and supported by proper vouchers.

SEAVER PETERS

Auditor

ANNUAL REPORT OF THE
POLICE DEPARTMENT FOR THE YEAR ENDING
DECEMBER 31, 1962

January 1, 1963

To the Board of Precinct Commissioners of the Village
Precinct of Hanover, New Hampshire:

Roster of the Department

Andrew J. Ferguson, Chief
Appointed March 31, 1941
Dennis J. Cooney, Patrolman
Appointed July 4, 1945
Roland M. Lee, Patrolman
Appointed November 16, 1949
Ralph J. Povencher, Patrolman
Appointed April 1, 1951
Benjamin Thompson, Jr., Patrolman
Appointed February 1, 1955
Alberta J. Leavitt, Meter Patrol
Appointed May 1, 1961
Sten Olson, School Patrol
Appointed September 1, 1951
Mary E. Ives, School Patrol
Appointed September 30, 1961

In addition to regular services rendered by the force it was necessary to hire one hundred and twenty-six (126) uniformed Special Officers to assist with special police services. These Officers assisted with Weddings, Funerals, Winter Carnival, Green Key, Commencement, Football-Basketball-Hockey Games, Dances, Road and Building Construction and many other services that the regular force was unable to cover. I am grateful to the New Hampshire State Police and the New Hampshire Motor Vehicle Department for their cooperation and for the services which were rendered by their Departments at no expense to the community. The Dartmouth College Campus Police have been most helpful in many instances and I am grateful for their services and cooperation.

Motor Vehicle Activities

During the past year the Department investigated sixty-eight (68) reportable accidents that occurred within its jurisdiction.

<i>Analysis of Accidents</i>	Precinct	Town	Total
Fatalities	1	2	3
Pedestrians Injured	3	—	3
Personal Injury and Property Damage	6	4	10

Try and Locate Requests	13
Unattended Deaths	2

In addition to the above statistical report of the Department's major activities in law enforcement over the past year, we have performed many other services. Again, as in the past, I want to emphasize that it is the policy of this Department to assist and accommodate the public whenever possible. We are here to serve.

In 1962 there were 7.4% fewer traffic accidents than in 1961. Nevertheless, there were three highway fatalities, two in the Town and one in the Precinct. Never in my 22 years in office have we had as many traffic deaths in one year.

At 8:40 p.m., on May 29, 1962, a collision of two cars, several hundred feet south of the intersection of Lyme Road and River Road, killed two women passengers and seriously injured the operators of each car. A thorough investigation was made by this Department and our evidence was presented to the Grafton County Grand Jury in the September term of Superior Court. The Jury failed to return an indictment charging criminal negligence against either driver.

Another fatal accident occurred on Lebanon Street near Roger's Garage on July 27, 1962 at 1:30 a.m. A Dartmouth student operating a motor cycle ran head-on into a large tree and died on August 13 as a result of his injuries.

The installation of traffic lights on South Main Street has been beneficial in regulating traffic to a more even flow. Also, before the lights went into operation the heavy traffic made it difficult for pedestrians to cross the street and for parked cars to back away from the curb in order to enter the stream of traffic. Since the lights at Park and Wheelock Streets were installed, the intersection has been less hazardous. So far, there have been no accidents here whereas previously there had been many.

Again this year the Department's Officers have been active in police circles throughout the State; some hold office in County and State Associations. In addition, we have attended various kinds of instructional meetings—for example, FBI schools and lectures and a number of conferences with other law enforcement groups. As I have pointed out before, this

kind of activity keeps our Officers informed of new developments in law enforcement techniques and enables us to give more efficient and effective protection to persons and property in the Town.

In conclusion, I would like again to thank the public for its cooperation during the year.

Respectfully submitted,

ANDREW J. FERGUSON
Chief of Police

REPORT OF THE FIRE DEPARTMENT FOR THE YEAR 1962

Fire Losses

The fire loss within the community for the year 1962 was \$4,231.96. Car fires again contributed a major part of our fire loss. Two car fires, occurring on the same day, at the same time, constituted about 48 percent of the 1962 fire loss total.

We have been very fortunate in recent years and I am of the opinion that our inspection program, modern methods of fire fighting, modern equipment, well trained personnel, a rehabilitated fire alarm system and most essential, a cooperating and interested public, have been responsible for keeping our fire loss at a minimum.

SUMMARY OF CALLS RESPONDED TO

	1960	1961	1962
Total Calls	103	118	149
Bell Alarms	3	1	8
Still Alarms	69	75	97
Accidental Alarms	2	8	2
False Alarms	2	4	2
Special Service	11	22	14
Rescue	8	7	3
Stray Blows	7	—	1
Out of Town	4	3	2
Out of Precinct	18	3	20

To explain the various categories of calls, I have listed each with a brief description.

Bell Alarms: These alarms originate from a street fire alarm box and are sent in by someone "pulling the hook."

Still Alarms: A telephone call, a person coming into the station, a radio call from a department vehicle or a fire brought to the station. Still alarms are usually followed by a Bell Alarm in order to notify the firemen.

Accidental Alarms: While working on the Fire Alarm System a mere slip will sometimes activate a box and send it in.

False Alarms: "Pulling the Hook" or calling the Fire Department just to see and hear them go into action is a malicious way of wasting taxpayers money and jeopardizing the lives of firefighters and pedestrians.

Special Services: Civic functions such as Christmas tree decorating, hanging of street flags, standing by at bonfires and fireworks displays. Manpower is paid by the organization requesting the service.

Rescue: Drownings, lost persons and people in serious trouble other than from fire.

Stray Blows: Unexplained soundings on the Fire Alarm taper and whistle. These can be caused by wind, snow, loose connections, etc. in the system.

Organization

Your fire department operates under a part-paid system and is made up as follows:

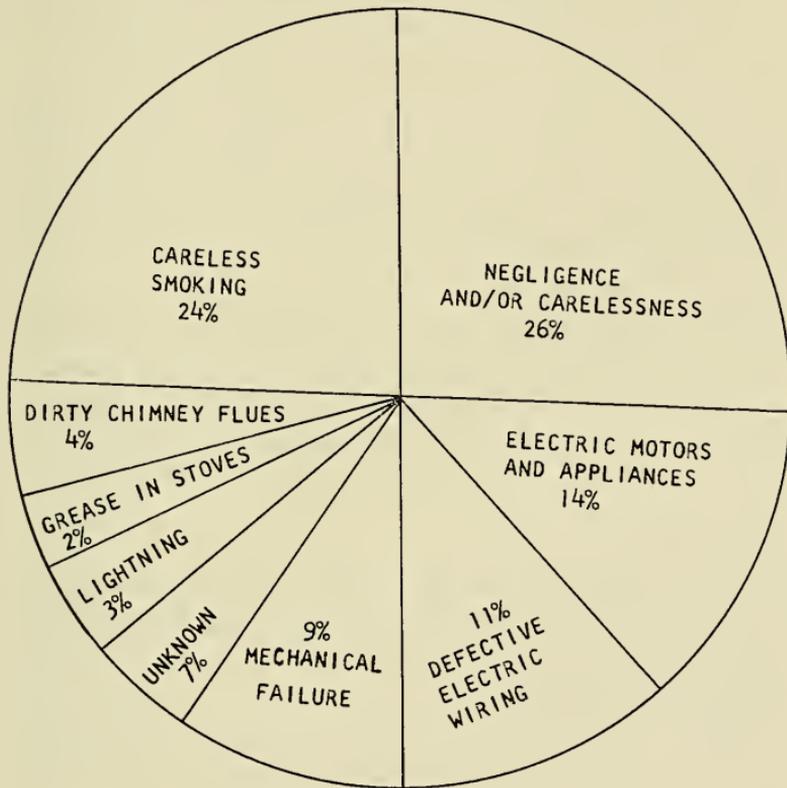

A Board of Engineers appointed by the Precinct Commissioners to serve for a term not exceeding one year or at the pleasure of the Commissioners. The Board of Engineers consists of a paid, full time chief and three volunteer assistant chiefs, who are paid for responding to calls.

Five paid, full time station men who man the station 24 hours a day.

A Volunteer Hose Company which has 41 active members at the present time who are paid for responding to calls and come under the direction of the Board of Engineers subject to orders and supervision of the Commissioners. The Hose Company elects its own officers which consist of a Captain, three Lieutenants, a Secretary and a Treasurer.

TYPES OF FIRES

Building Fires or Fires within a Building	22
Automobiles	17
Chimney	2
Heating Plants (Boilers or Furnaces)	4
Brush	6
Rubbish	3

Training and Drills

During the year 1962, the firemen of the Village Precinct participated in local and regional fire training.

Seventeen men attended the Twin State Fire School, held at White River Junction. Training consisted of Breathing Equipment, pumps and ladders.

Five men participated in the annual fire school held at the drill yard at Fitzwilliam, New Hampshire.

A drill master school, conducted by the State Department of Education of Maine, was attended by Mr. Julian Aja, a Lieutenant in the Volunteer Hose Company. Mr. Aja has completed the drill schedule for this department for the year 1963.

A one week course conducted by the United States Atomic Energy Commission, "Radiation Hazards in the Fire Service," was attended by Myron Cummings and a training program will be conducted for all officers in the Fire Department.

Various meetings and conferences attended by officers, members and myself were: the monthly meetings of the Fire Chiefs' Club of New Hampshire, the New England Association of Fire Chiefs, the Grafton-Sullivan Forest Fire Warden's Association, and the Twin State Fire District Association.

Training sessions held during the year at the fire station consisted of training in the following fields: Pump operations; Hose leads, lays and hookups; Ladder carries and raises, followed by Breathing Equipment. The necessary related information was covered in order to complete the training in all fields.

Fire Prevention

It is a known fact that no single program conducted by a fire department, has more effect on lowering the fire loss and reducing the hazards in a community, than the fire inspection and prevention programs.

During 1962, our Fire Prevention Bureau inspected forty-seven new oil burner installations and issued permits. Thirty-nine incinerators were inspected and 297 permits to kindle fires were issued.

Local press and radio releases, along with live broadcasts, did much to inform the public and make them conscious of fire hazards. A tribute to the awareness of the public is the cooperation that this department enjoys from the people in the community.

Equipment

The Precinct Fire Department is equipped with the following:

- Engine 1, 1947 Maxim, 750 g.p.m. pumper.
- Engine 2, 1952 Maxim, 750 g.p.m. pumper.
- Engine 3, 1949 Chevrolet (obsolete pump).
- Ladder 1, 1952 Maxim, 75 foot aerial ladder.
- Rescue 1, 1956 Chevrolet Station Wagon.
- One Aluminum Boat, 5½ H.P. motor and trailer.
- Tanker, 1930 Model "A" Ford, 400 gallon tanker.

Engine 2 and Ladder 1 are in good repair and with reasonable maintenance they should give good service. Rescue 1 and Engine 1 should both be considered for replacement as soon as possible. Rescue 1 immediately and Engine 1 within five (5) years. They have gone beyond their point of dependability and maintenance and repair costs on both are mounting. Engine 3's pump has been out of service for several years and it cannot be used as a pumper. At the present time, it is considered as transportation for miscellaneous equipment, as emergency lights, portable pump and brush fire equipment. The boat, trailer and motor are in excellent condition. The 1930 Model "A" Ford 400 gallon tanker is kept at the Precinct Garage and is used by the Highway Department at the Town Dump during the summer as a safety measure against a possible fire developing.

A factory service check by a mechanic from the Maxim Motor Company was conducted in September of 1962. All Maxim equipment was tested and all defects were corrected. This will be a yearly inspection procedure and a highlight to our own maintenance program.

New Equipment Purchased

- 1 Model 565 Eico Volt-Ohm meter.
- 4 "Plectron" Radio Receivers, Chief Models.
- 13 "Plectron" Radio Receivers.
- 2 Mobile Antenna Rods.
- 7 Extension speakers for "Plectron."

- 4 Canvas Coats.
- 4 Helmets.
- 1 Tone Generator.

Old Equipment Replaced with New

- 1 Battery for Engine 3.
- 2 Batteries for Engine 1.
- 2 Snow Tires for Rescue 1.
- 1 4" x 4" I.P. to M.S. Adaptor.
- 100 feet 2½ inch hose.
- Converted Air Compressor from flat belt to V-belt drive.

Yearly Hose Test

A 250 lb. pressure test for a four minute time period was applied to all hose in the Village Precinct Fire Department during the year.

The results of this test were as follows:

100 feet of 1½ inch hose removed from service.

150 feet of 2½ inch hose removed from service. (50 feet of this will be returned to service when recoupled and tested.)

We have on hand as of December 1962:

4,400 feet of 2½ inch hose.

3,350 feet of 1½ inch hose.

100 feet of 3 inch hose.

General

The men in this department have strived to provide a modern up-to-date, progressive fire organization. The Volunteer Hose Company comprises a group of family men, dedicated to serve you in the event of an emergency. We are ready to respond at any hour of the day. The emergency number to call is 643-3610.

RAYMOND L. WOOD

Chief of Department

HANOVER VILLAGE PRECINCT
FIRE DEPARTMENT
RECOMMENDATIONS

January 1963

Expansion of the town, the accompanying potential hazards and the need for modern fire technology, show only one recourse to follow—to build a modern fire organization. Your fire department has been subjected to an increase in emergency calls and services, yet we operate on the same basis as years past. It takes an increase in funds to modernize and we fully realize it is not always possible for a community to afford the many items needed.

It is interesting to note that in Report #19, Board of Fire Underwriters Inspection of the Village Precinct Fire Department, February, 1951, the following recommendations were made, in part:

- (A) Manpower requirements are such that a minimum of *five* permanent men be on duty *at all times*. This is a design objective to be attained as soon as circumstances, finances, and other factors will permit.

When this recommendation was made, almost twelve years ago, Hanover had a full time chief and three station men. Today we have a full time chief and five station men—far short of the Underwriters recommendation.

The survey of 1951 also pointed up the need for more space for fire department operations.

At the time of an alarm or emergency call, the dispatch room, directly behind the ladder truck, is subjected to noise beyond belief. Why is this a matter of concern to your fire department? It means that any voice communication by radio or phone cannot be transmitted until the trucks leave the station. The noise of the units starting up and the firemen arriving, causes undue confusion that hampers our communication system. These could be costly seconds to our principal objective of saving life and property.

We urge you to consider an expansion to both sides of the existing fire station proper. A copy of this proposal is in the hands of the Precinct Commissioners. This expansion would make your Fire Department operational off the first floor of the Precinct Building and would provide more area for minor equipment repair and equipment upkeep. It would further provide an up-to-date dispatch room in the front of the station, divorced from the apparatus floor. As stated above, at the time of an emergency call, the present location of the dispatcher leaves much to be desired. The movement of his equipment, traffic conditions, arrival of the men, etc., are not under his surveillance and they should be for proper operation.

The location of your fire station and the need for new fire headquarters has been a subject for discussion for several years. It is wise to consider other factors, factors we feel justify keeping your fire department at its present location. We are located in the heart of our high value district. Where could we move to place us in a more favorable location?

With the proposed addition to the present fire station, we can be as efficient as in a new location. More important to our citizens, this efficiency can be obtained at a cost of less than a quarter of that necessary to build a new station at another location.

Another area for serious consideration is the hiring of a janitor to perform the duties of cleaning the entire Precinct Building. The nerve center of the fire department is the radio dispatch room. Seconds count when a fire call comes in. If a fireman is on the second floor cleaning when a call comes in, it takes time for him to run down stairs to answer this call. His immediate answer to the call could be the difference between saving a life or losing a building. There is always the possibility that in running down or upstairs, the man could fall, seriously injuring himself and never getting to perform his duties.

These are a few of the needs of your fire department that we recommend for your immediate consideration.

It is in the interest of the fire department, its efficiency and

progress that we submit this report. We sincerely hope that it will receive your attention so that we may better serve you.

Respectfully submitted,

RAYMOND L. WOOD, *Chief*
GERALD WHEELER, *Assistant Chief*
CLARENCE CHURCH, *Assistant Chief*
DONALD CUTTER, *Assistant Chief*

REPORT OF THE HEALTH DEPARTMENT FOR THE YEAR 1962

The following communicable diseases have been reported for the year 1962 to the Health Department through the office of P. O. Nice, M.D.:

	<i>Number of Cases</i>
Chicken Pox	8
Influenza-like Disease	9
Measles	9
Mumps	6
Meningococci Meningitis, Meningococemia	1
Streptococcal Sore Throat	15
Salmonellosis	1
Shigellosis	2
Tuberculosis, Active, Moderately Advanced	1
Bat Bite	1
Chipmunk Bite	1
Dog Bites	10
Rat Bite	1

Activities of the Health Department have included the following:

- Examination of private waste disposal systems.
- Inspection of food handling activities in the Town.
- Investigation of complaints relative to mosquito and drainage problems.
- Investigation of prospective foster homes.
- Bacteriological examination of swimming areas.
- Investigation of the presence of jequirity beads in local gift shops.

Respectfully submitted,

EDWARD S. BROWN
Health Officer

PHILIP O. NICE, M.D.
Deputy Health Officer

SCHOOL DISTRICT WARRANT

STATE OF NEW HAMPSHIRE

Grafton, S.S.

SCHOOL DISTRICT OF HANOVER

To the inhabitants of the School District of Hanover qualified to vote in District affairs:

You are hereby notified to meet at the Auditorium of the High School in Hanover, New Hampshire on Wednesday, March 13, 1963 at 7:30 in the evening to act on the following subjects:

Article 1. To choose by ballot a Moderator, a Clerk and a Treasurer each to serve one year, and two members of the School Board each to serve three years.

Article 2. To choose an Auditor to serve one year.

Article 3. To hear the reports of Agents, Auditors, Committees or other officers heretofore chosen and to pass any vote relating thereto.

Article 4. To see what sum of money the District will raise and appropriate for the support of the schools, for the salaries of School District officials and agents, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxation by the Town.

Article 5. To see if the District will vote to raise and appropriate the sum of \$1,000.00 for the establishment of a capital reserve fund for the purchase of a school bus, said sum to be placed in the custody of the trustees of trust funds for the purchase of said bus in accordance with R.S.A., Chapter 35.

Article 6. To see what agreements the District will approve and ratify between the District and the Norwich Town School District pursuant to New Hampshire Laws of 1961 Chapter 116, Section 7.

Article 7. To see if the District will vote to authorize the School Board to make application for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or other states and/or United States.

Article 8. To transact any other business that may legally come before the meeting.

The polls will open at 7:30 P.M. and will not close before 8:30 P.M.

Given under our hands and seals at Hanover, N. H. this 18th day of February, 1963.

STUART W. RUSSELL	CLINTON B. FULLER
CAROL E. McLANE	ALMON B. IVES
WILLIAM L. WILSON	JOHN G. KEMENY

School Board, School District of Hanover

A true copy of Warrant—Attest:

STUART W. RUSSELL	CLINTON B. FULLER
CAROL E. McLANE	ALMON B. IVES
WILLIAM L. WILSON	JOHN G. KEMENY

School Board, School District of Hanover

ANNUAL SCHOOL DISTRICT MEETING

Hanover, N. H.

A legal meeting of the inhabitants of the Hanover School District was called to order by the Moderator, Herbert W. Hill at 7:30 P.M., March 14, 1962. The Warrant on which the meeting was called was read by the Clerk, Marion E. Guyer.

Article 1. The following officers were elected:

Moderator, 1 year—Herbert W. Hill	283 votes
Clerk, 1 year—Marion E. Guyer	282 votes
Treasurer, 1 year—Marjorie T. Scott	279 votes
School Board, 3 years—Almon B. Ives	249 votes
Carol McLane	148 votes

Article 2. Mr. Edgar Costello was elected Auditor for 1 year.

Article 3. On motion of Dr. Russell, duly seconded, it was voted that the reports of the agents, Auditors, Committees and other officers heretofore chosen be accepted as set forth in the printed report.

Article 4. On motion of William L. Wilson, duly seconded, it was voted that the District raise and appropriate the sum of \$725,147.00 for the support of the schools, for the salaries of School District Officials and agents and for the payment of Statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income: the School Board to certify to the Selectmen the balance between the estimated revenue and the Appropriation, which balance is to be raised by taxation by the Town.

Article 5. On motion of John Kemeny, duly seconded, it was voted to raise and appropriate the sum of \$6,300 in order for the District to avail itself during 1962-63 of Federal Funds

to be distributed under the provisions of the National Defense Education Act, Public Law 85-864, and to authorize the School Board to make application for, to accept on behalf of the District and to apply against this appropriation any or all grants or other funds which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire under the provisions of the National Defense Education Act.

Article 6. On motion of Dr. Russell, duly seconded, it was voted to raise and appropriate the sum of \$15,500 for the support of high school athletics and other extra-curricular activities.

Dr. Bowler, a member of the Finance Committee, moved to amend the motion by reducing the amount to be appropriated for High School athletics from \$15,500 to \$13,000. The amendment was defeated.

Article 7. On motion of Clinton Fuller, duly seconded, it was voted to raise and appropriate the sum of \$7,000.00 for major re-piping work in the high school, said sum to be raised as follows: \$2,500.00 plus interest on notes of \$135.00 from the 1962-63 appropriation and the balance of \$4,500.00 by a two year note to be paid in equal installments in 1963-64 and 1964-65.

Article 8. On motion of William Wilson, duly seconded, it was voted to raise and appropriate the sum of \$3,000.00 to add to the capital reserve fund established in 1961 for the purchase of a school bus, said sum to be placed in the custody of the trustees of Trust Funds for the purchase of said bus in accordance with RSA, Chapter 35.

Article 9. On motion of Dr. Russell, it was voted to move over Article 9 and take up after the business of Article 10.

Article 10. On motion of Dr. Russell, duly seconded, it was voted to authorize the School Board to convey to the Village Precinct of Hanover for highway purposes a strip of land

approximately 50 feet wide on the west and south boundaries of the Old Schem Village property running from the present Hovey Lane thence curving westerly to connect with Lebanon Street below St. Denis Church, said strip of land to be as shown on the Plan "Alternate Route for Hovey Lane," K. S. LeClair, C.E., as revised in November, 1961.

Clinton Fuller read the following resolution:

This evening Andrew H. McNair completes three years of significant services to the Hanover School District. During this period his contributions have been varied and effective. He has participated in the planning of the recent Grade School addition and the development of extra playground area in the ravine. He has been a member of the Property Sub-Committee, the Hanover-Norwich School Union Committee and the Ad Hoc Hovey Lane Committee.

As chairman of the Curriculum Committee he has rendered an outstanding service to the community. His committee initiated a continuing appraisal of our school curriculum and implementation of revisions. As part of this program, he has obtained ever-closer support from Dartmouth College professors and their consultations with our teachers have been most beneficial.

He has had a major interest in the sciences and made an important contribution to the establishment and development of the course on Earth Science as part of our curriculum. For these services we wish to express our appreciation.

Mr. Moderator, I move the adoption of this resolution and that it be written into the record of this meeting, with a copy sent to Mr. McNair.

Dr. John Milne read the following resolution:

With only one member on the 1961-62 School Board, the distaff side was ably represented by Shirley Clough.

As Secretary, meetings were clearly and carefully recorded and her ability in this position was appreciated and admired by all members of the Board.

Mrs. Clough served on the Building, Curriculum, and Hanover-Norwich Committees, contributing to each her candid, constructive opinions.

As an occasional substitute teacher, the mother of three school children, and a member of the Board she was able to see and evaluate Hanover's school problems from all sides. Her short term was characterized by unbiased judgments, clear thinking, and a sincere desire for the continued improvement of our schools.

Mr. Moderator, I move that the Hanover School District express its appreciation to Mrs. Clough, that a copy of this resolution be included in the record of this meeting, and a copy sent to Mrs. Clough.

Article 9. On motion of Dr. Russell, duly seconded, it was voted that we adjourn, when we do adjourn, to 7:30 P.M., May 16, 1962 at Webster Hall.

The polls were closed at 9:30 P.M. and the meeting was adjourned at 9:30 P.M.

Respectfully submitted,

MARION E. GUYER
School District Clerk

ADJOURNED MEETING OF THE
HANOVER SCHOOL DISTRICT

May 16, 1962

The Annual Meeting of the Hanover School District adjourned from March 14, 1962 pursuant to a vote passed at that time was called to order at 7:30 P.M., May 16, 1962 by the Moderator, Herbert W. Hill.

Article 9 of the Warrant was read by the Moderator.

On motion of Dr. Stuart Russell, duly seconded, it was voted that the Hanover School District adopt the provisions of "An Act Authorizing the Establishment of an Interstate School District by Hanover, New Hampshire and Norwich, Vermont."

The vote was taken by ballot using the official check list.

The polls were declared open by the Moderator at 7:55 P.M., not to close as long as there were voters present to vote. At 9:05 P.M., since everyone present had voted, the Moderator declared the polls closed. Due to a misinformed newspaper report that the polls would remain open until 10:00 P.M., several voters arrived after the polls had been closed.

On motion of John Masland, duly seconded, it was voted to reopen the polls at 9:15 P.M. At 10:00 P.M. the polls were closed and the votes were counted with the following results:

Yes	275	No	23
-----	-----	----	----

Since the motion was approved by more than 2/3 of those present and voting, the motion was declared carried.

The annual meeting was adjourned at 10:15 P.M.

Respectfully submitted,

MARION E. GUYER

School District Clerk

*We anticipate receiving \$9,500.00 prior to July 1, 1963 because of school assistance in Federally affected areas and that we will get \$10,000 in 1963-64 for the same reason.

REPORT OF THE HANOVER SCHOOL BOARD

The reports of the Superintendent and Principals record the general activities of the Hanover Schools in the last year. The School Board commends them to you for a review of these activities as well as an expression of some of the needs for the future. The School Board Report will deal with problems which fall outside the usual yearly review which we feel will have to be squarely met now, and in the next two years.

In any planning for the immediate or long range future, there are always two unknown variables over which we have no control, and which affect school taxes. These are increased enrollment and continuing increased costs of supplies and equipment. These two variable factors, one of which is produced by the parents, make it truly impossible to forecast with accuracy what needs there will be in any given year. All school enrollment projections taken in the past decade have been too conservative. These things must be carefully kept in mind by the School Board in planning budgets, and the Board is frequently presented with unlooked-for surprises which are reflected in the budget.

Building needs are, of course, reflected by enrollment. The High School, built to accommodate 600 students, will have 629 pupils attending next year. There is no question but what an addition to the High School will be needed, ready to function by the fall of 1964. The Grade School will also need some rooms added at the same time, in all probability.

The formation of the Hanover-Norwich Interstate Union is now in the final phases of planning. The two School Boards have met in concert many, many times since June, 1962. As required by the new statutes setting up the Union, we are preparing the "Articles of Agreement" which will have to be voted upon by the two school districts before they finally become effective. An adjourned school district meeting is planned for this vote under Article 6 in the Warrant. The Board is pleased with the overwhelming support given by the voters in May when the first step in the formation of the Union was passed. It is important to the Hanover School District to have

Norwich join in the Union. The valuation of the school plant involved in the Union has been placed at \$1,215,000.00. Norwich, on a pupil membership basis, will purchase between 25-30% of this plant and, therefore, contribute in the neighborhood of \$350,000.00 to \$365,000.00 to the Hanover School District. This amount of money will probably come fairly close to providing Hanover's share of funds needed for additions to the High School.

In event that the Union cannot be formed, for one reason or another, Norwich will be faced with the problem of gradual withdrawal of its pupils. The Hanover School District can no longer afford to carry Norwich pupils on a tuition basis. It should be pointed out that tuition costs are based on current costs of the previous year. Norwich has never had the legal power to participate in building costs or in yearly capital outlay of any reasonable percentage. Although we have planned our school around Norwich pupils for many years and desire their pupils, Hanover can no longer afford this arrangement if new building is needed to accommodate Norwich without their financial participation. In the event Norwich is not in the Union, the building and space needs of the High School can serve our own children until about 1968-1970. Let it be made perfectly clear, however, that the withdrawal of Norwich from our system would, in the Board's opinion, be detrimental to the quality and variety of education offered our children today. Cutbacks of offerings and staff would be necessary and the school would be too small to be as excellent as it is now.

In planning for the Union for the next year, the School Board has budgeted money for an Assistant Superintendent. This man would work closely with Mr. Arthur Pierce, who will be in his last year with us, helping to organize the new Union, becoming acquainted with our system, and hopefully, succeed as Superintendent the following year. If the present plan goes through, the Assistant Superintendent will also act as Superintendent of the Norwich School. For this reason Norwich is also making a contribution toward his salary.

Unless one has served on the School Board, or worked intimately with the School Administration, there can be no

concept of the tremendous mass of detailed work, bookkeeping, figuring, reports, and typing, that are essential in running this kind of an operation. Remember, we are running a business operation of three quarters of a million dollars in Hanover alone. This does not include the other members of the Supervisory Union whose administration is done in the same office. The space, equipment and numbers of personnel used at the present time to run this administration is archaic. We are asking that a phenomenal job be done under extremely poor and trying conditions. It is service of the highest order that this work is being accomplished. But, the School District must face up to the fact that we must have new quarters for our administration. Whether this takes the form of new building in our future addition, purchase and remodeling of property, or rental away from school property cannot yet be decided. But, within the next year this must be decided and planned, by bond issue if necessary. It would seem, at present, that the wisest thing to do would be the purchase of land with building which could be renovated for administration offices.

Several times in the last five to six years many people in the community have asked, directed, or wished that the Town Finance Committee would find new ways of raising revenue for our three units of government. It should be fairly obvious by now, that there are no new ways within our town, and we are almost utterly dependent on the property tax. In the Superintendent's report last year, Mr. Pierce gave one of the best analyses of the School situation that has been made. It was directed to the Hanover School District. However, the School District, Town or Precinct has little choice in many of these matters because of our tax limitations. Past General Courts and Governors have shown little interest in broadening the tax base, by whatever means, for the relief of the property owner. The present General Court and Governor are already disagreed on the problem of a tax study. It seems about time for the electorate to do something of a substantial nature about the property tax. What is to prevent Hanover from acting as a massive lobby force throughout the state for better tax laws? Why can't this lobby be directed to the people, at the grass

roots level, if pleas fall upon deaf ears in the General Court? A well organized and thoughtful campaign could emanate from our town, which might have far reaching and forceful effects upon our legislature. Surely, no other method of local government financing except the property tax is in sight unless firm and meaningful action is taken by the people themselves.

The Chairman would like to add a personal note to this report. After six years of working and often battling hard with our Superintendent, I would like to emphasize once again how fortunate we are to have Mr. Pierce with us. His tireless attention to detail, his professional knowledge of State School Law, the loyalty he gives and receives from his staff have done more for the Hanover School District than can possibly be appreciated by parents and taxpayers. This next school year will be Mr. Pierce's last with us. May we all wish him continued good health and a fine year in rounding out an eminently successful career.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Hanover:

I present herein the report for 1962, my ninth annual report as the superintendent of schools in Hanover.

I want to express again my appreciation and commendation for the significant and vital part that the members of the school staff, members of the Dartmouth faculty, citizens of the community and the members of the School Board have had in making the year successful and forward-looking.

HANOVER-NORWICH

The most significant and far-reaching event of the year was the overwhelming vote in each Hanover and Norwich in favor of the principle of establishing an inter-state school district. The action was of particular significance to Hanover and Norwich. If consummated, the consolidation will set an example and give impetus to desirable consolidation between other border communities in this and other states.

Further information regarding the consolidation is included in the report of the School Board. I hope that the consolidation will become a reality, for I am confident that it will be of benefit to both communities. The consolidation will necessitate an addition to the high school building ready for use by September, 1964, in order to accommodate grades seven through twelve from both Hanover and Norwich. The report of Mr. Paul Petrich, Principal of the High School, which follows this report, gives more details on this subject.

GRADE SCHOOL OVERCROWDING

We should build another addition to the Grade School as soon as possible. The Grade School enrollment as of December 1, 1961 was 666. For December 1, 1962, it was 705, an increase of 39 pupils. The first grade became so large that it was necessary to have an additional room and teacher for that grade. We estimate that we will have a Grade School enroll-

ment of at least 737 for September, 1963. This is an increase of 30 pupils over the enrollment on October 1, 1962. (It is interesting to note that up to December 1, 1962, 76 new pupils had entered the school this year and, since September, only 11 had left.)

In order to have classes of desirable size for 1963-64, we should have three additional rooms and teachers. Only two rooms are available, however, and one of them is the all-purpose room. It is unfortunate that this room has to be used as a regular classroom for it is now so valuable for music and the other activities for which it was designed. Actually, therefore, we should have two new and additional regular classrooms for 1963-64. This is, of course, impossible.

By September 1965, we should have three additional rooms, including the two mentioned above, and four by September 1966. It would seem, from our estimates, that four additional rooms would be sufficient for several years. Long experience has shown me, however, that enrollment estimates are usually too conservative.

In addition to the regular classrooms, we should certainly have a library room. The following is quoted from the report of Miss Bernice Ray, Principal of the Grade School:

Grade School Library

We have long felt a need for a library in our school. This does not mean that we do not use the Howe Library. Their service to us is really tremendous. A spot check any week would reveal that the Howe Library is supplying us with about 600 books for classroom libraries. This service is very much appreciated and widely used by the teachers. However, this does not meet the needs for a school of 705 pupils.

“‘A library should be the heart of the school’ is not an idle quotation. We constantly feel the lack of a good, well-stocked, well-staffed library, especially, as we need reference material for projects and reports or when we need guidance for the children in hunting reference material.

“We have been purchasing books over a period of years to build up classroom libraries. This stop-gap arrangement

supplemented by books from the Howe Library meets some of our needs on a very limited basis. It is however, far from being adequate and does not meet the recommended standards set up by the American Association of School Libraries for schools the size of ours or even for schools much smaller than ours.

“Our long range plans made in 1959 for the use of the All-Purpose Room, included using this room for a small library as well as for group work in music, art and other areas. At present, this room is used for group music lessons given by Miss Goodwin and Mr. Marcuse. Miss Emery uses it for some art classes. Other teachers use it on a scheduled basis. Due to our increased enrollment and shortage of classrooms, it is quite possible this room will be used as a classroom for the year 1963-1964.

“Early last March, a committee of Grade School teachers made a careful appraisal of books and library materials on hand and began studying ways to set up a central library.

“This committee drew up three plans for organizing a central library. These plans were presented to the Friends of the Hanover Schools for consideration.

“Since these plans included the purchase of basic equipment as well as books, the cost was out of reach for the Friends of the Hanover Schools at that time. However, they did appropriate the sum of \$500.00 for the purchase of books.

“In trying to make the best use of this money, the Committee realized that this sum, divided among the 26 classrooms, would amount to less than \$20.00 per room. Therefore, in order to avoid duplication and to give each room full benefit of this gift, they are attempting to get together a mobile library which can be taken from room to room.

“This is only a temporary and inadequate solution until such time as the School District can make provision for a central library in the elementary school.”

I hope that we can also have an art room. It need not be large. There is an ever-growing enthusiasm for the excellent elementary art program. Much of the work requires a work surface that is larger than the classroom desk. One of the spare class-

rooms that will not be available after this year is now being used for much of that work. The music program requires most of the available time for the all-purpose room, and furthermore, does not leave adequate space for tables for the art work. The regular classroom teachers also make use of the all-purpose room for large-group activities. The auditorium can be used very little for music for it has to be used primarily for physical education.

I sincerely hope that we can plan for and construct the additions to the grade school and to the high school in time for use by September 1964.

SPECIAL CLASS

In my 1960 report I told of the great benefit that has come from the special class for children who find it difficult to compete with regular classroom work and who need special instruction. I quote two paragraphs from that report:

“The parents of children in the special class seem to be very much pleased. Unquestionably, the children are benefiting. Furthermore, since the teachers of the other classes need not deal with special cases often beyond their training and experience, they can devote more time to encouraging the learning of all of their pupils.

“It is essential that in the near future we have a second such class at the Junior High School level in order that the children may have the special instructions they need until time for them to leave school.”

I want to re-emphasize the second paragraph. Each year, because of their age and social development, we are having to send some pupils from the special class on to the Junior High School. In spite of the efforts of the teachers to individualize the work, those pupils cannot compete. They need special and small-group instruction if they are to be at all successful and happy, and if they are not to impede the work with the other pupils. In planning the addition to the high school I hope that a room for a special class will be provided.

HIGH SCHOOL LIBRARY

In my 1960 report I spoke briefly about the ever-increasing value of the High School Library. The following is quoted from

the 1962 report of Mr. Elmer B. Fulton, the Librarian:

"The Hanover High School Library during a busy year continued to grow and to become increasingly a vital part of the intellectual life of the school.

"Close to a thousand new volumes were added to the inventory. With the exception of but a very few of these, all were properly catalogued and placed upon the shelves for student use.

"When I took over as librarian there were close to eight hundred volumes from the old library which, because of lack of time and help, had never been properly catalogued and had been placed aside for renumbering and analytical cataloging. Some of these will be further attacked this year, but with the steady flow of new books coming in the problem will remain unresolved. For this and other reasons it is recommended that the library clerk be employed to work through the summer as she did last year.

"A work begun under the preceding librarian and his staff was completed this year. This was the systematic arrangement of back issues of periodicals so that library attendants can produce issues called for by students who have located their references in the various indexes. At present the library has about a three-year accumulation for the more important periodicals. Until all major periodicals have a five-year backlog, however, standards for a school of this size will not have been met. Complete fulfillment in this direction means that space and furniture now available will become insufficient.

"In summary of this aspect of the Library's function too much emphasis cannot be placed upon the value of teaching students how to use the indexes and to locate research materials in current periodicals.

"Instruction classes have been given by the librarian to pupils in the sixth grade who will be using this library next year; to junior high pupils, some of whom are new to Hanover; and in at least one instance to an advanced class of seniors who will be studying in large college libraries next year. In this last instance the instruction was on a high

bibliographic level keyed to reference materials used by all types of serious scholars.

"The librarian and his assistant has been assisted by a student group of aides, both boys and girls of good intellectual endowment, who constantly receive instruction in library techniques. In addition, some effort has been expended in conjunction with the recruitment division of the ALA to expose these aides to career possibilities in the field of library work following graduation from college.

"The library has been used in the main by pupils from classes in English, social studies, music and art. Some classes have accomplished particular units of their classroom work entirely in the library. Others have utilized the library even more than this; and one class this year has been entirely library centered.

"The library in conjunction with the social studies department has this year built a collection of over one hundred books dealing with the newly emergent nations of Africa with the result that ours is a highly significant library in this respect.

"To my knowledge circulation figures have not been kept in the past, and there is some question as to how much merit there is in expending effort in this direction. Such figures are, however, being kept at present and may later prove worthwhile for comparison. Daily discharge of books, including overnight reserve books, has run from a low of 20 to a high of 50 with a daily average of about 25; daily attendance in the library for full-period research effort has run from a low of 20 to a high of 146 with a daily attendance of about fifty.

"The range of service extended to these pupils has been from cursory assistance to full-fledged assistance in solving research problems and in acquainting pupils with various tools available in the library.

"Use of the library by the teaching staff has been commendable. The system of routing periodicals to the staff has been continued and extended. Some 60 periodicals at present are routed from one to five members of the staff.

“The outlook for the future involves a number of considerations. As has been pointed out, a growing inventory of books will mean that more stack space will be required. The corollary to this is that there will be less study and reading space for patrons of the library. The growing backlog of periodicals, as mentioned, will also call for additional shelf space and will further diminish study area for students. Pointedly, study space already is at a minimum.”

NEED FOR ADDED TEACHERS

The 1963-64 School Board budget will make provision for added teachers as follows: Grade School—two; High School: English—one; Mathematics—one; French—one part-time; Russian—increase from one to two sections per day; Music teacher—part-time.

The increased enrollment expected for 1963-64 makes it very important that we have the added teachers. If we do not have them, we will have classes that are too large for effective teaching. Such classes can, of course, be handled, but only at a sacrifice in quality of instruction and in meeting individual needs.

The music situation is acute. The interest in music in the Hanover schools has grown tremendously and the increased enrollment in the schools has added to the load. Both Miss Goodwin and Mr. Marcuse are carrying very heavy schedules. Some work has already had to be curtailed, and much more will have to be unless we have an added music teacher on, at least, a part-time basis.

One of the great needs is for an added guidance person in the Junior-Senior High School. I would hope that we could find a well qualified woman for the position. Everyone recognizes the excellent work that Mr. Stimson does in guidance. It is impossible, however, for one person to do the work adequately for the ever-increasing enrollment. Mr. Stimson needs an assistant.

The State Department of Education minimum standards for a comprehensive High School (Grades 9-12) require that the

counselling load for one person shall not exceed 400. We will very soon reach that limit. Furthermore, Mr. Stimson does as much work as possible with Grades 7 and 8. It was decided not to make provision in the already increased 1963-64 budget for another counselor. It is essential that such provision be made in the 1964-65 budget.

The following is quoted from Mr. Stimson's report to me:

"COUNSELLING SERVICE is available for all the students in terms of routine counselling of minor personal problems and for all academic planning on placement that the student requires. More than half my time is devoted to conferences with individual students to assist them with their plans for after high school either college or work. It is impossible to adequately counsel with each student in this school with nearly 600 pupils. Increased enrollments make it essential that additional personnel be added to the guidance department in the near future. At the present time I must devote my time to those students with the greatest need, with the knowledge that some of the students may not be getting their rightful share of time."

MENTAL HEALTH COUNCIL

During the school year 1960-61 mental health conferences were initiated in the schools under the good leadership of the Department of Psychiatry of the Hitchcock Clinic. These conferences have continued on a monthly basis with the teachers of each the Grade School and the High School. They are of great value. The following is also quoted from Mr. Stimson's report:

"During the previous year there was initiated a monthly staff meeting with Dr. Margaret Anthonisen and, at times, other members of the Department of Psychiatry of the Hitchcock Clinic. At these meetings the staff has the opportunity to present problems they may have with individual students, a simplified case study is presented for discussion and review by the psychiatrist. After full discussion, recommendations are made regarding the pupil's problem of learn-

ing or behavior to the staff. In some cases recommendations have been made for follow-up treatment with the psychiatrist, but in many instances it is possible to assist the child and family without involving either of them in long weeks of psychiatric care, or individual expense. These meetings have proven very helpful to the faculty and the guidance department and should be continued.

"Miss Simeneau, the School Nurse, has worked very closely with the guidance department in many of the problem cases. In some instances, a home visit by the nurse has been helpful; in other cases it has been possible to refer the child for a physical check-up and when further help has been needed, the doctors have made a referral for psychological treatment."

SCHOOL FINANCES

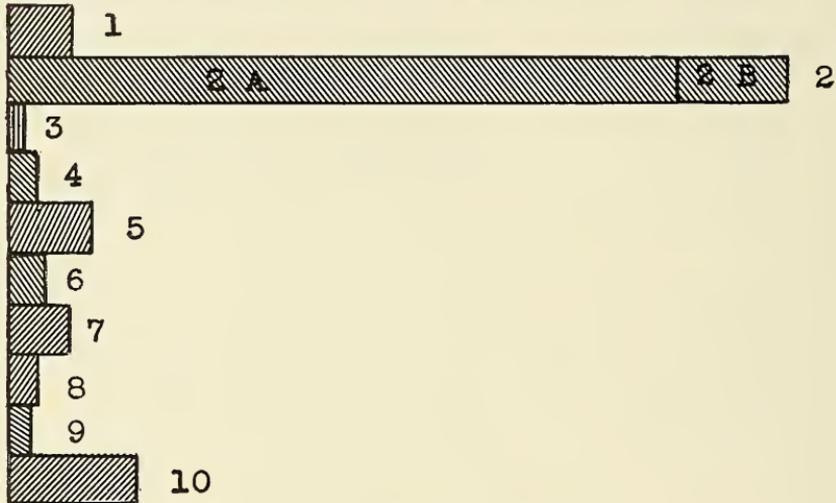

I devoted my entire 1961 report to the financing of education in New Hampshire. We cannot tell what the current session of the legislature will do about more state aid. I am not at all optimistic about Hanover getting any more, but I sincerely hope that I am wrong. I am glad to report, however, that it now looks as though we will get about ten thousand dollars each this year and next of Federal funds under Public Law 874, School Assistance in Federally Affected Areas.

Whether or not there will be more general state aid to education depends in large measure upon how voluminously and how strongly the people of New Hampshire bring pressure upon their legislators and at legislative hearings. If more state aid is really wanted, the job of getting it cannot be left entirely to the several lay and professional organizations that are working for the betterment of New Hampshire education. They are doing splendid work. Local school boards, local finance and budget committees and the local taxpayers, must, however, become much more aroused and much more vocal in letting their feelings be known.

The school budget for 1963-64 shows an increase. The principal factors in the increase are the added teachers made necessary by increased enrollment and the regular salary in-

creases called for by the salary schedule. If we are to continue the general excellence of our program, it is inevitable that the budget will continue to rise.

The following shows graphically the proportionate part that each category of the School Board Budget is of the total of \$823,900.00. (Note—the special appropriation of \$1,000.00 for capital reserve for a school bus and of \$3,000.00 for the

LEGEND

	<i>Amount</i>	<i>% of Budget</i>
1. School District & Supervisory Union Administration (Codes 100 and 1400)	38 300 00	4.64%
2. Instruction	523 300 00	63.52%
2A. Principals' & Teachers' Salaries	(452 500 00)	(54.92%)
2B. Other Expenses of Instruction	(70 800 00)	(8.6 %)
3. Attendance and Health	7 000 00	.85%
4. Transportation	17 700 00	2.15%
5. Operation of School Plant	60 800 00	7.38%
6. Maintenance of School Plant	20 600 00	2.5 %
7. Fixed Charges	41 400 00	5.03%
8. School Lunch and Student Body Activities	18 700 00	2.27%
9. Capital Outlay	16 500 00	2. %
10. Debt Service	79 600 00	9.66%

High School Auditorium are not included.) Figures are for the nearest \$100.00, so will not correspond exactly with the detailed budget.

Approximately ten percent of the budget is for debt service. This can be cut only as principal and interest payments diminish on the bonded indebtedness. About five percent of the budget is in fixed charges, primarily insurance and the social security and retirement for all personnel. We would be most unwise to cut the insurance. The social security and retirement is related to the salaries paid.

The operation of the school plant takes about seven percent of the budget. This is almost a fixed cost, for it includes the custodians' salaries, light, heat, water, telephones and other minor items. We economize as much as possible, and feel that this allowance cannot be safely cut.

Costs directly related to instruction—principals' and teachers' salaries, textbooks, pupil supplies, audio-visual aids, and so forth—constitute about sixty-four percent of the budget. Principals' and teachers' salaries account for about fifty-five percent. These costs are the bulk and the heart of the budget. Obviously, the budget cannot be substantially cut without cutting the allowance for salaries. The only ways that I know of to bring this about are:

1. Cutting salaries. This, to me, is unthinkable. Even with the revised salary schedule we are not in a particularly favorable position to attract and retain teachers of high caliber. Of the seventeen new teachers employed for this year, six were inexperienced and five will be with us for only one or two years. Furthermore, the teachers are on a schedule that was approved by the School Board, the Finance Committee and the School District Meeting and Hanover will, I am sure, keep faith with those teachers. I cannot believe that the School District would give serious consideration to cutting salaries.

2. Eliminating some teachers or failing to add needed teachers. This would mean either or both of two things:

- a. Certain courses in the school program, especially in the high school, would be eliminated or curtailed.

b. Classes in both schools would be made considerably larger. As stated earlier, larger classes can be handled, but it is almost inevitable that there will be a loss in effectiveness, in meeting individual needs and in realistic ability grouping.

Hanover has given excellent support to its schools. It has demanded good schools and they are generally recognized to be good. The tax burden on real estate has been getting increasingly heavy and will become worse unless other tax sources are found or realistic state aid becomes available. Some feel that school taxes in Hanover cannot go higher. The School District must decide whether it will continue to pay for excellence. We cannot stand still; we either go forward or we go backward. I hope, for the sake of the young people of Hanover, that we will continue to go forward.

Respectfully submitted,

ARTHUR E. PIERCE

Superintendent of Schools

REPORT OF THE HIGH SCHOOL PRINCIPAL, MR. PAUL PETRICH

The administration of the high school has been demanding, fruitful and rewarding during the present school year. By every method of measurement, the instructional level of the school has materially increased. The staff has altered traditional approaches, learning facilities of each and every student in the school. Two real attainments must be noted as the direct results of the instructional improvements: 83% of the 1962 class is involved in some type of post-secondary instruction and our dropout rate for the past school year is a laudable and almost unbelievable 1.9%, the lowest in the State of New Hampshire. This statistical evidence indicates that the Hanover High School is responsive and responsible to the students of this community: unquestionably the improvement in the instructional methods has opened new vistas for all students in the school, regardless of their academic talents.

The secondary school curriculum has been in an almost constant state of change, particularly during the past fifteen year period. While the curriculum has been changing both in meaning and operation, it has also been subjected to almost continuous criticism. Dissatisfaction with the school's curriculum is perennial. While I view the results of the past few years with some satisfaction, I do not desire to give the impression that the school can afford to be complacent. We have made many excellent and timely improvements in the instructional program, but, much remains to be done. Teaching and learning involves individuals and groups; it is a human endeavor and is subjected to the faults and ills of any group effort. The one prevailing thought is that we must constantly seek to improve what we do in the instructional areas and the only real and true measurement of this improvement is what happens to each individual student.

What are the major changes of the secondary curriculum? What has brought these changes?

First, I note a tendency toward increasing flexibility in the methods of scheduling and organization of subjects. The ungraded secondary school has been discussed at great length by

leaders in education; this method of organization has an almost flawless theory but lacks a practical method of application. In a few isolated schools, the ungraded secondary school has been established. The results to date have been noted as follows: a new terminology has been established to replace terms used to describe the organization of schools. For example, "phase" is used in place of grade. Teaching methods that have been in vogue for many years in colleges and universities have replaced some of the more traditional methods of the high school; large lecture groups, small discussion groups, independent study, classes meeting not daily have tended to characterize the ungraded school.

The ungraded secondary school needs special trained teachers, building facilities and an educated community. This administrative organization, as with all secondary administrative efforts, needs a deeper understanding of the average and less than average academic student. It is my contention that with traditional trained teachers, a standard and traditional building, and a community that appears to be educated to have a school for all levels of ability, that the Hanover High School is best served by ability grouping and highly individualized schedules that are built with the greatest possible flexibility.

The curriculum of the secondary school reflects the pressures, insights, aspirations and needs of the local community and the broad needs of society in general. The major changes are not born in the past few years but evolved from the thinking of teachers of the past several hundred years. Many ideas, unique to this past fifty years, are derived from the development of the new sciences of psychology, psychiatry, cultural anthropology, and sociology.

Several changes can be noted: the first significant change is from emphasis on memorization and mental discipline to emphasis on purpose, meaning and goal seeking in the learning process. It should be noted that facts and figures must be memorized and in addition purpose, meanings, and goals of individuals, groups and communities must be sought. The questions of who, why, how and the result—must be applied in all subjects.

The second change I note is less reliance on tradition and subjective judgment to use of scientific methods and procedures as a basis for educational organization and teaching. Here I would call attention to a host of scientific research projects that have culminated in materials for secondary subjects. We are the recipients and use such materials in mathematics, science, foreign language, and, to some extent, the social sciences. Still under study is English and history. For example, English is under five year research studies at six major universities of this nation; five composition centers have been established and will shortly have published their initial reports. The areas of Business Education, Home Economics and Industrial Arts and Vocational Education are largely not the basis of scientific research, while Art and Music retain a very traditional approach. Physical Education has had many and detailed research projects—the cost of the operation and the time involved restricts a more comprehensive program in the secondary school.

A third major change involves the idea that how we learn is as important as what we learn. This change is from stress on subject matter alone to a realization of the importance of motivation and of teaching methods. To be sure, we must stress basic facts in all subject areas but, for example, we have long neglected the methods of how the historian works, his special approaches to the truth, his ways of disseminating information, and his ways and means of evaluating his fellow historians. This must be made the part of each course and each subject and will replace some of the word for word reading of a traditional textbook.

The Hanover High School has several pressing problems to surmount in striving to develop and maintain an excellent secondary program. The number one problem is of course financing; tied in with this immediate and always present question is the development of a staff and suitable buildings. And the teachers need additional time to prepare, they need supplies, textbooks, references and a much better library.

The staff must be improved through in-service training, summer schools, year-long leaves of absence and through a carefully planned program of teacher recruitment. I am of the

opinion, unless the other qualifications of the prospective teacher are clearly outstanding, that the Hanover High School should always attempt to employ only teachers with a Masters' degree in their subject area and a minimum of three years teaching experience.

The teachers salary schedule should be, as soon as possible, advanced to a minimum of \$6,000 and top teachers must be in the range of \$11,000-\$12,000. These sums should be paid sums and not merely a proposal to be paid in the future. I realize the impractical part of this proposal at the present time, nevertheless, I believe all effort must be extended to make this a real part of the future of the school system.

Our present building was planned for 600 students. We now need to plan for a minimum of 900. Preliminary study of the need would indicate remodeling of the present library to prepare two additional science rooms, a new structure to house a library of over 25,000 volumes, some remodeling of the present auditorium, and ten new classrooms with some special facility for housing the language program. We will need a language laboratory and a library for the laboratory. If possible, this new space should include a large lecture area and a teachers' materials center. In view of the proposed merger with the Norwich secondary school, this building program should be completed ready for use in the fall of 1964.

Added to the above building problem is the remodeling of the present cafeteria to allow for greater capacity; also the problem of the existing facility for physical education which simply cannot handle the combined need of the elementary and secondary Hanover schools of the late 1960s.

Still another problem, ever increasing in importance, is the matter of the proper play space for the elementary and athletic fields for the secondary school.

In closing, I would be remiss if I did not call the attention of the Superintendent and the School Board to the continued excellent performance of the high school staff. To be fair, I should list almost all of the staff but particularly outstanding has been the work in Physical Education of Mr. Jones and Miss Merriman; in History and the Social Sciences I would cite

the entire staff in their almost complete revision: Mr. Goodwin, Mr. Murphy, Mr. Branch, Mr. Thoms; the Science teaching efforts of Mr. Leonard, Mr. Garrity, Mr. Rowe and Mr. Loughlin are certainly noteworthy; the English teaching staff of Miss Hayes, Mr. Davis, Mr. Jaeger and Mr. Lary has been well above average; and finally, the efforts of Mrs. Churchill and Mrs. Gamble in the teaching of French has helped this school develop an outstanding program in foreign language.

The teaching of mathematics has been a perplexing problem. However, since the in-service training of two years ago, the SMSG offering has been particularly successful with Mr. Cook, Mr. Prevost, Mr. Merchant and Mr. Osgood all making excellent contributions. Without the real professional efforts of Mr. Pierce and Mr. Stimson I feel that very little could have been accomplished this past year. I am indebted to their leadership and assistance.

It is my pleasure to be principal of this school. The community, the fine teaching staff, the cooperation between administration and the school board, and the moral and financial support I have received in the past few years has made the position particularly rewarding.

APPENDIX

Hanover High School Students Only	62-63	63-64	64-65	65-66	66-67	67-68	68-69	69-70

Norwich Students in Grade 9-12 Only	78	90	113	113	157	164	157	162
Norwich Students in Grades 7 & 8	39-32	39-45	41-45	39-41	32-39	42-32	47-42	45-47
Total	71	84	86	80	71	74	89	92
Total Norwich Students in Grades 7-12	149	174	199	218	228	238	246	250

Note: The above does not count 16 tuition students enrolled in the high school from Thetford-Cornish-Lyme. Nor does it include the 11 students enrolled in the special class in the grade school. All numbers are real and are actual counts of students now enrolled in the Hanover and the Norwich schools (Sept. 18, 1962).

If the Hanover-Norwich area continues to grow in terms of school-age children as it has during the past three-year period, then the numbers contrasted below would indicate minimum and maximum numbers of students in the Hanover Junior-Senior High School during 1963-1970.

Actual Counted Students (Minimum Numbers)	63-64	64-65	65-66	66-67	67-68	68-69	69-70
Prediction of 3% Growth (Maximum Numbers)	645	777	815	832	815	839	862
	660	819	875	906	919	967	1021

The "Actual Counted Students" reflect the planned organization of the high school in 1963-64; The Hanover students, grades 7-12, and the Norwich students, grades 9-12. Plus the 16 tuition students in the upper grades (9-12) that are enrolled from Thetford-Cornish-Lyme. The 1964-65 number (777) totals both Norwich and Hanover students in grades 7-12 and the 16 we would expect from other communities. For the "Minimum Numbers" I have added and projected only students who are now enrolled.

The "Prediction of 3% Growth" follows the pattern set by the two school districts over the past three year period. This is, at best, a guess, but does show what will happen if the present established growth pattern continues.

HANOVER SCHOOL CALENDAR

1963-64

	Days Per Period	Cumulative Total
