ANNUAL REPORT

1978 - 1980

CITY OF PORTSMOUTH NEW HAMPSHIRE

CITY MANAGER'S REPORT

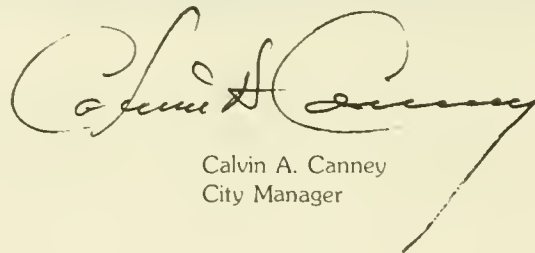

To: The Honorable City Council
and the Citizens of the City
of Portsmouth, New Hampshire

It is my pleasure to offer to you the 1978-1980 Annual Report of the City of Portsmouth. I trust that you will find it to be a concise but comprehensive review of the City's activities during this period. I hope that it will provide you with a better understanding of the workings of your local public government.

During the period covered by this report the City has seen the completion of the Market Square project and the beginning of a new courthouse. We have also witnessed the growth in the commercial and industrial activity throughout the City.

Portsmouth's future belongs to those who actively participate in the many decisions that must be made, and I would encourage you to become actively involved in the affairs of your City.

Respectfully,

A handwritten signature in cursive script, which appears to read "Calvin A. Canney". The signature is written in black ink and is positioned above the printed name and title.

Calvin A. Canney
City Manager

CITY COUNCIL ACTIONS

JULY, 1977

Held a public hearing on Ordinance regarding Section 10-301(2), Zoning, and passed third and final reading.

Voted to take \$1,000 from the \$100,000 already appropriated for engineering survey work on Kearsarge Way Bridge (Urban Systems out of Revenue Sharing).

Voted that the City Attorney and City Manager prepare disposition agreement regarding Parcel 7 land after the matter goes to the Site Review Committee and Historic District Commission and bring it back to the Council when ready.

Voted to ask the City Attorney to bring in an opinion to establish the constitutional parameters of the Residency Ordinance taking into account the New Hampshire Supreme Court cases and other Supreme Court cases, including the U.S. Supreme Court.

AUGUST, 1977

Requested the City Attorney to bring in mechanics for the Council convening itself as a Charter Commission in order to place an item on the ballot in November to have a special assessment district in Portsmouth.

Requested the City Attorney to report at the next meeting on taking Lafayette Road sidewalk easements by eminent domain.

Adopted the proposed Multi-Purpose Center.

SEPTEMBER, 1977

Voted to accept and place on file a letter from U.S. Senator Thomas McIntyre regarding refuse disposal system and also asked that Mr. Canney keep the Council informed relative to this matter.

Parcel I - Urban Renewal Area - Sliding scale for sale price was voted tabled until the new Economic Director can take a look at it.

Requested the City Manager to prepare a fee schedule for October 3 meeting for use of the dumping area for septic tank wastes.

Asked the City Manager to report back on the status of the eagle formerly on top of the Liberty Pole.

Tabled until the first meeting in November two Ordinances relative to rezoning-Section 10-214-and changing Garden Appartments to Industrial I District.

OCTOBER, 1977

Held a public hearing on a Resolution favoring renovation of Whipple School as court facility and proposal to buy or lease the Portsmouth Parade.

Voted that \$1,000 be appropriated out of the Contingency Fund for Job Opportunity Program of Community Council of Senior Citizens.

Held a public hearing on the expanded elderly exemption law proposals.

Voted to proceed with sidewalk on Woodbury Avenue to bid of \$49,500 without alternate proposal.

Voted on a roll call vote 8-0 to appropriate \$1,853.00 from the Contingency Fund to be used to construct curbing and sidewalk adjacent to the Holiday Inn.

Voted to accept the recommendation of the Planning Board and not rezone land from SR II to General Business in the Market Street Extension area.

Voted to accept and place on file a petition from 430 opposing the proposed truck stop location.

Voted to have the City Attorney and Continental Cablevision sit down and define community services in the Cablevision Contract.

Voted to accept recommendation that Raymond P. Daigle of Concord be authorized to do the appraisal of land on Little Harbor Road and the Conservation Commission be authorized to expend \$500 from the Open Space Fund towards the fee.

Voted to refer to the Planning Board for their study and report back a letter from Paul McEachern regarding rezoning of land on Bow Street and see if this rezoning would be in the best interests of the City.

NOVEMBER, 1977

Held a public hearing and passed an Ordinance amending No Parking - Daniel Street from Penhallow to Market Street.

Moved to make part of the record the petition of 621 residents and property owners opposed to any more land taking for a clear zone regarding Pease Air Force Base and to send a copy to each of our Congressional Delegation.

Voted to award the design contract for Middle/Islington Street project to Town Planning and Engineering for \$11,052.

Voted on a roll call vote 5-2 to appropriate \$250 from the Contingency Fund towards jackets for the football championship team if the School Board will appropriate the same.

DECEMBER, 1977

Voted to grant \$1,500 from Contingency Fund to Chamber of Commerce to help defray expenses for Christmas decoration program.

Voted to authorize the City Manager to sign Agreement between Durham and Portsmouth for water hydrant.

Held public hearings and passed three Ordinances rezoning Frink property off Woodbury Avenue.

Held a public hearing and passed a Resolution regarding anti-recession grant appropriating \$5,070 for the purpose of snow removal and ice control.

Voted to grant the request of Radio Station WBBX to hold a remote broadcast at Congress Street on December 21, 22, and 23.

Voted to approve expenditure of \$9,035 from Year II Community Development Contingency Fund for continuance of Community Education Program in the New Franklin and Wentworth Schools through June, 1978.

Voted to accept an Area Agreement to take Newington children into the Portsmouth Junior High School.

Voted to adopt a Resolution opposing proposed land taking in Portsmouth for a clear zone at Pease Air Force Base.

JANUARY, 1978

Voted that the windbreaker be installed on the South Mill Pond Bridge with \$700.00 for this purpose to come from the Public Works Department.

Voted that the Mayor appoint a standing committee of three City Councillors to a City Council Charter Reform Study Committee to consider creative ideas and other concerns people may have on reform of the City Council Charter.

Voted to approve the bylaws of the Historic District Commission.

Voted to have revenues from the Parking Meter Fund go into the General Fund and the costs to be budgeted in next year's budget.

Voted to have a public hearing on February 6 on the proposed Community Development Program for the next three years.

Voted to invite Monica Aring, Director of Market Square Day, to a work session in February to describe Market Square Day and budget.

FEBRUARY, 1978

Voted to adopt Resolution commending Public Works Department for a job well done during the last snow storm.

Voted to hold a public hearing on March 13 regarding Resolution concerning the 17% Public Service Company rate increase.

Voted to approve the request of the Chamber of Commerce to have the City assist them in conducting a basic parking survey in the City.

Voted to adopt a Resolution regarding Portsmouth Naval Shipyard radiation problem and send a copy to the parties listed in the Resolution.

FIRE PREVENTION BUREAU

1977/78 During the year, 1977, Fire Chief Paul Long of the Portsmouth Fire Department established The Bureau of Fire Prevention and Control within the Portsmouth Fire Department with funding for one full-time person. On November 28, 1977, George Pierce, Jr. assumed duties as Deputy Chief, Bureau of Fire Prevention/Control, Portsmouth Fire Department. The initial task of the newly created fire prevention bureau was to establish bureau organization, responsibilities and objectives. The bureau was organized into four distinct functions; plan-review and new construction, enforcement and inspections, investigation and records and reports. The Bureau of Fire Prevention and Control also established the following major operating objectives: Provide a reasonable degree of safety to life and property from fire by limiting and eventually reducing the number and severity of fires occurring in this city.

Within the first year of the fire prevention bureau's existence, a concentrated effort has been expanded to create a fire safety consciousness in the city by executing all of the previously listed functions to various degrees. These initial efforts appear to have brought about an increased awareness toward fire prevention and fire protection in general as evidenced by the fact that more and more problems are brought to our attention before they develop into hazardous situations and there is more willing and complete compliance with our recommendations, and that request for information, classes, etc., are becoming more frequent. This has been the first year of operation as a bureau of the Portsmouth Fire Department. It has been a year of development; setting up an organization, creating operating objectives and responsibilities and establishing a budget to procure certain amounts of equipment to meet the pressing responsibilities of prevention and control.

1978/79 FY 78/79 has been the second year of operation as a Bureau of the Portsmouth Fire Department. As shown by this report, it has been a year of development; setting up an organization, creating operating objectives and responsibilities and establishing a budget to procure certain amounts of equipment to meet the pressing responsibilities of fire prevention and control.

As new structures are added to the city and old structures remodeled, fire protection equipment through design will be provided for the protection of the building and life safety of the occupants.

A program of public education must also be continued at all levels to reduce public ignorance and indifference toward fire and its devastating consequences.

The Bureau conducted some 500 inspections of places of assembly, schools, health-care facilities, industrial buildings and dwellings. Fire prevention lectures and demonstrations were given to over one thousand people with over one thousand pamphlets given out concerning babysitter information, portable extinguishers, home detectors, emergency phone numbers, wood stoves, fire inspection checklists and home escape planning. A new operating budget of \$440.00 was developed for the upcoming fiscal year.

Fire Department Training

1977/78 During FY 77/78, all firefighters and officers have taken the one hundred and four (104) hour course "Fire Fighter", using the standards set by the N.H. Minimum Training Standards Commission. This course consisted of the following subjects: Fire Behavior, Fire Streams, Forcible Entry, Fire Hose, Ladders, Rope Salvage and Overhaul, Ventilation, Protective Clothing, Breathing Apparatus, and Tools & Safety.

In addition, all firefighters and officers were instructed every six months in Cardiopulmonary Resuscitation. The course was given by qualified instructors who are members of the department. Thirty firefighters and officers have taken a twenty-four hour EMT refresher course. This will requalify them for another two years as Emergency Medical Technicians. Three firefighters have taken the one hundred and one (101) hour EMT course. Seven firefighters attended a class on Emergency Burn Care at the Portsmouth Hospital. Members have also attended seminars for Emergency Medical Care.

During this FY, we had the good fortune to have many buildings donated for training. These buildings were used to train firefighters in the many evolutions of fire suppression. Our neighboring Fire Departments were also involved in order to be better co-ordinated when working at a mutual aid fire situation.

1978/79 During the absence of the Training Officer in FY 78/79 due to his retirement, routine in-service training was done by each platoon in the areas of Firefighting Tactics, Emergency Medical Services, and Area and Occupancy Familiarization. Day to day training involvement in these routine areas were necessary in order to maintain an acceptable level of proficiency.

During this period, Captain Gindlesperger set up and coordinated a six hour Oxygen Therapy Course instructed by Mrs. Magerie Casey, EMT Instructor.

Also, Captain Watson scheduled and coordinated a six hour Arson Investigation Course instructed by Mr. Charles Chamberlin of the N.H. State Fire Marshals Office. This course was attended by our Call Department personnel.

On February 10, 1980, the position of Training Officer was filled by promotion of Deputy Chief Leonard Goyette.

Planning and scheduling of training activities was given much attention. A program was planned to provide organized, and objective/goal oriented training. Training was conducted with the overall objectives directed toward rendering an improved emergency service to the public. Fire suppression Tactical skill proficiency useage of new equipment; Formal critique of all working fires; N.H. Certified Firefighter Qualification (for Probationary firefighters); Advanced first aid refresher course; Defensive driving course; Natural and Propane Gas Emergencies Course.

1979/80 The FY/80 has been the third year of operation as the Bureau of Fire Prevention and Control of the Portsmouth Fire Department. As shown by this report, it has been a year of continued development and further refinement of Bureau objectives, responsibilities and budget.

The Bureau conducted some 600 inspections in places of assembly, schools, health-care facilities, industrial buildings and dwellings. Fire prevention lectures and demonstrations were given out concerning babysitter information, portable extinguishers, home detectors, emergency phone numbers, wood stoves, fire inspection checklists and home escape planning. An operating budget of \$440.00 was developed for the upcoming fiscal year. A year-long career development program was conducted in cooperation with the Portsmouth Junior High School.

Fire Alarm:

During FY 77/78, there was an installation of 12 Master Fire Alarm boxes installed in commercial buildings supervised by the Department. All necessary repairs were made to fire alarm system to make it dependable.

During FY 78/79, the Fire Alarm Division, under the direction of Superintendent John Gailey has made remarkable accomplishments during the past two years, and the fire alarm and communication system will be completed during FY 79/80.

A total of 9 new Master Boxes were added to the system during the period FY 79/80. New cable was installed from Lafayette and Elwyn Roads to the Sub-Station. A cable trailer was designed and constructed by the fire department. Normal maintenances and emergency repairs were performed during the period of FY 79/80. Maintenance consisted of tree trimming and splicing wires which were broken due to wind and snow storms, and tracing and repairing open circuits caused by highway accidents that affected wires on public service poles, and relocating fire alarm cable to new telephone and electric pole construction.

Apparatus Maintenance:

During FY 77/78, a total expenditure of \$8,906.00 was for maintenance and repairs of the twelve apparatus'. Although a portion of this amount consisted of non-recurring expenses such as accident damage, breakdowns and new equipment purchases, a greater amount was attributed to the continued general upgrading and improved maintenance of vehicles and equipment.

During FY 78/79, a total expenditure of \$7,164.00 was for maintenance and repairs of the twelve apparatus'. Fire Department Apparatus Maintenance and Repair is in charge of Firefighter Edward Tully, who is responsible (on a volunteer basis) for repair and replacement of parts of 12 vehicles, plus all portable engines which are the property of the department. In addition, Firefighter Tully performs the bi-annual State Inspections required for re-registrations of apparatus.

During FY 79/80, a total expenditure of \$9,648.00 was for maintenance and repairs of twelve apparatus' and miscellaneous equipment. The high cost during this period was due to major sublet repairs by commercial facilities that could not be performed by the department mechanic.

Safety:

A new preventive maintenance program was established with R & L Service Air Testing. This service maintains, tests, services, and repairs all self-contained breathing apparatus, which is so vital to the firefighter profession. N.F.P.A. Approved Protective Clothing is being provided to all firefighters on a planned replacement schedule.

In-house safety continues to be given priority, and regular safety meetings scheduled by the City is attended by the fire department safety officer, Captain Gindlesperger.

All accidents which involve personnel or apparatus require written reports submitted, and follow-up reviews to determine if our procedures require changes to eliminate conditions which may have attributed to the accident.

LEGAL

The City of Portsmouth's Legal Department is comprised of one attorney and one secretary. The cost of this department to the taxpayers during fiscal year 1977/78 was \$39,672.00.

The services of this office include advising and defending the City Council, City Manager, Planning Board, Board of Adjustment, the twelve boards and commissions of the City, the School Department and the research of various legal questions which are referred to the City Attorney for his opinion.

As of June 1978 there were thirteen cases pending in Rockingham County Superior Court.

The City of Portsmouth's Legal Department is comprised of one attorney and one secretary. The cost of this department to the taxpayers during fiscal year 1978/79 was \$41,740.00.

The services of this office include advising and defending the City Council, City Manager, Planning Board, Board of Adjustment, the twelve boards and commission of the City, the School Department and the research of various legal questions which are referred to the City Attorney for his opinion.

As of June 1979 there are twenty-one cases pending in Rockingham County Superior Court.

The City of Portsmouth's Legal Department is comprised of one attorney and one secretary. The cost of this department to the taxpayers for fiscal year 1979/80 was \$44,609.00.

On December 31, 1979, Charles M. Eldredge resigned as City Attorney to enter private practice. On April 29, 1980, David R. Connell was appointed as City Attorney.

As of June 1980 there were 16 cases pending in Rockingham County Superior Court.

Attended: New Hampshire Animal Control Officers Association Meetings

New Hampshire Humane Association Meetings

New England Federation of Humane Societies Seminars

Participant in Portsmouth Christmas Parade

Participant in Market Square Day Parade

Programs given at Portsmouth Jr. High School, Dondero School, Wentworth School, New Franklin School, Lady Isle School and Little Harbor School.

Tours given at: Animal Medical Center to Boy Scouts, Cub Scouts, Brownies and 4-H Groups.

79/80

Awarded the New England Federation of Humane Societies Humanitarian Service Award

Programs to Brownies, Cub Scouts, Portsmouth Jr. High School

Assisted the New Hampshire S.P.C.A. at the Dondero School Annual Pet Show.

Attended public hearings at the State House in Concord

Active in the Dogs Organization of Granite State, The National Animal Control Association, The New Hampshire Society for the Prevention of Cruelty to Animals, The New Hampshire Animal Control Officers

PLANNING DEPARTMENT

The Planning Department provides staff assistance to the Planning Board, the Board of Adjustment, the Historic District Commission and the Citizen's Council on Community Development. The Department makes recommendations to the City Council and City Manager on issues relevant to the development of the community. The Planning Director serves as Chairman of the Site Review Committee, which reviews the site plans of industrial, commercial, major residential, and parking lot developments to insure that public interests are protected. The Planning Department also files applications for state, federal and private grants.

Planning Board 1977-1978

During 1977-78, the Planning Board held eleven regular meetings. It acted on twenty-one subdivisions of land. The most important of these cases was the proposal by the House of Three, which was originally denied for 260 lots and eventually approved for 124 lots. It also made recommendations on several major requests for rezoning. The Planning Board made recommendations to the City Council against rezonings in the cases of the Hanscom property for a proposed truck stop, the Linn property on Sagamore Avenue for proposed garden apartments and the Burtt property on Banfield Road for industrial use. The Board made a favorable recommendation for rezoning to Central Business for an area on Bow Street that will soon include the home of Theatre-by-the-Sea. The Board also heard one appeal from the Site Review Board.

The Board adopted a Capital Budget and Improvement Program for 1979-1984 and made recommendations relating to an application for federal funds to assist in the expansion of Data General to provide 500 additional jobs. The Board also held discussions on Community Development, the master plan for Pierce Island and on the Coastal Zone Management Act.

Planning Board 1978-79

During 1978-79, the Planning Board held eleven regular meetings. One meeting was cancelled due to excessive snow. The Board acted on twenty-two requests for subdivision, three requests for rezoning, five requests for lot line changes, and three requests for land purchase or sale recommendations, as well as other varied requests.

One major subdivision application was the request of David A. Linn for approval of a proposed Planned Unit Development consisting of 133 condominium units on land located off of Sagamore Avenue. This application was denied by the Board.

The Planning Board adopted a Capital Budget and Improvement Program for 1980-85 and made recommendations on the reuse of the Haven and Whipple Schools. The Planning Board also considered such varied issues as Coastal Zone Management, Community Development, Urban Waterfront Planning Grants, and Outer Continental Shelf Studies.

PLANNING BOARD 1979-80

During 1979-80, the Planning Board held thirteen regular and special meetings. It acted on twenty-four requests for subdivision, three requests for rezoning, seven requests for lot line changes as well as other varied requests.

One major application brought before the Board was the rezoning petition of Congoleum Corporation for property located at the intersection of Market Street Connector and I-95. Congoleum was requesting a rezoning to Light Industrial to allow the locating of its corporate offices on approximately 18 acres. This proposal was subsequently forwarded to the City Council with the Planning Board's recommendation that it be approved.

In other actions, the Planning Board adopted a Capital Budget and Improvement Program for 1981-86 and a new Master Plan and new Subdivision Regulations.

The Master Plan serves as the foundation for orderly growth and development in the City. It provides a cohesive development policy by which the City can protect the welfare of its people and its land and water resources. The Master Plan provides a comprehensive basis against which future matters such as subdivisions, rezoning requests, and commercial and industrial developments can be judged. The Master Plan presents to the City a balancing between the public's interest in preserving open space and critical environmental resources and the interest of private property owners in development. The Planning Board adopted the City's **Master Plan 1980** in June.

Subdivision regulations are intended, in part, to ensure the proper distribution of the population which is compatible with adjacent land uses, to ensure the proper location and width of streets, and to ensure the use of established engineering standards for the installation of improvements. The Planning Board adopted revised Subdivision Rules and Regulations in June, 1980.

BOARD OF ADJUSTMENT

The Board of Adjustment provides a "relief valve" for situations where a literal enforcement of the Zoning Ordinance will result in unnecessary hardship to a property owner. The Board of Adjustment hears petitions for variances and also hears requests for special exceptions as allowed in the Zoning Ordinance and administrative appeals.

In 1977-78, the Board held 19 meetings with 71 public hearings. Of the 51 petitions for variances, 33 were granted (many with conditions attached) and 18 denied, for an approval rate of 64.7%. Of the 18 requests for special exceptions, 16 were granted and 2 denied, for an approval rate of 88.9%. Of the 2 administrative appeals, both were denied.

In 1978-79, the Board held 134 public hearings. Of the 119 appeals for variances, 85 were granted (many with conditions attached), 26 were denied and 8 were tabled or withdrawn, for an approval rate of 76.4%. Of the 15 requests for special exceptions, 7 were granted, 4 denied and 4 were tabled or withdrawn, for an approval rate of 46.7%.

In 1979-80, the Board held 111 public hearings. Of the 90 appeals for variances, 57 were granted (many with conditions attached), 24 were denied and 9 were tabled or withdrawn, for an approval rate of 63.3%. Of the 21 requests for special exceptions, 15 were granted, 4 denied and 2 were tabled or withdrawn, for an approval rate of 71.4%.

COMMUNITY DEVELOPMENT

During the fiscal years 1978 - 1980, the City of Portsmouth Community Development Department participated in many programs and projects.

Projects undertaken during this period include:

McDonough Street Neighborhood Improvement Project

A project to physically upgrade one of the City's most blighted neighborhoods was completed. Among the improvements and activities undertaken were street resurfacing, new sidewalks, curbs, and street trees, the development of a neighborhood park, code enforcement and housing rehabilitation loans and grants.

Seacrest Village

This project provided public amenities in an area of low income residential concentration. The improvements included sidewalks, curbs, limited street resurfacing and street trees.

Lafayette Road Sidewalk

This project provided a sidewalk along a busily traveled state route between a residential area and the high school, with heavy strip commercial uses in between.

Woodbury Avenue Sidewalk

This project enabled safe pedestrian activity along a major traffic artery which lies adjacent to several residential areas.

Industrial Park

Funds were made available to the City's Economic Commission to complete site preparation for an industrial park, including construction of roads and replacement of utilities.

Recreation Improvements. Sherburne (park site), New Franklin, Wentworth, Atlantic Heights, Pine Street, Alumni Field, Maple Haven

This was an omnibus program designed to improve the quality of a number of recreation areas. In addition, this program provided for the construction of a new recreation area and to construct new tennis facilities in the northern quadrant of the City.

Social Services Port House, Day Care Center, Senior Center, Senior Bus

This project was designed to provide aid to several social service projects benefiting low income people (elderly, low income children) and consisted of improvements to the Community Day Care Center, Senior Center, Port House and service project for elderly residents.

South Street Sidewalks

This project provided a sidewalk along a heavily traveled section of South Street which was in much need of pedestrian protection.

Atlantic Heights - Clough Field

These two parks created new recreational facilities for the particular neighborhoods.

Leary Field

This facility was designed to provide a particular type of recreational facility sorely lacking in the community. The overall residents benefited as well as low income residents by the provision of this much needed recreational facility. This project was completed. 50% funding by B.O.R.

Recreation - New Franklin

This project involved the creation of a new playground at the New Franklin School.

Market Square Central Business District Improvements

This project was designed and developed to assist in improving the economic vitality of the C.B.D. through landscaping, traffic safety improvements, street furniture, creation of parking areas, as well as the creation of passive recreation sites.

City Wide Rehabilitation

This project is designed to meet the housing rehabilitation needs of low income residents especially elderly scattered throughout the City who met stiff H.U.D. income guidelines.

South Street Waterline

This project provided a waterline in a densely populated older city neighborhood sorely lacking an adequate water infrastructure.

Technology Park

This is a project intended to provide for the planning and eventual physical site improvements (if all goes as planned) needed for the slanted new research type industrial park (Technology Park). The planning phase for this activity has just begun.

Swimming Pool

This project evolved out of the defunct plan to replace the Pierce Island Pool with an entirely new seasonal facility. After much discussion and planning, the site of the facility was moved to its present Alumni Drive location and the project redesigned for an all year round structure. The project is designed to benefit especially low income and elderly residents who are the most underprivileged in the Community regarding recreation and access to recreational facilities.

Bartlett Street Neighborhood Improvement Project

Plans are being completed for housing rehabilitation, loans and grants, code enforcement and street improvements. The areas residents have been able to apply for grants and loans since Spring and Code Enforcement work should commence mid-summer of 1981.

PUBLIC WORKS

Street and Sidewalk Maintenance (Contractual)

Resurfaced:

1977-78

Rogers Street
Court Place

City Parking stalls	80%		100%*

*Realigned Parrot Avenue Parking Lot.

REFUSE COLLECTION AND DISPOSAL

- 1977-78 City collection crews collected and disposed of over 22,000 tons of refuse last year. Approximately 600 homes a day receive this curbside service.
- 1978-79 City crews collected and disposed of approximately 20,000 tons of refuse. The total amount of refuse disposed of at the sanitary landfill was 35,923 tons.
- 1979-80 City Collection crews collected and disposed of approximately 30,000 tons of refuse. The total amount of refuse disposed of at the sanitary landfill was 41,768 tons.

CONSTRUCTION AND ENGINEERING

Provided inspection services for the Lafayette Road Sidewalk project.

Provided engineering design and inspection for the North Mill Pond Sewer Replacement Project. City forces made the final connections.

City forces performed engineering and construction of the sidewalk replacement phase of the Memorial Bridge Approach repair project.

Began the design for the Leary Field Restoration project.

INSPECTION DIVISION

The Inspection Division encompasses the following areas: Building, Electrical, Plumbing, and Housing Code Inspections.

Inspection Breakdown

	1977-78	1978-79	1979-80
Building	1135	634	1230
Electrician	449	1127	748
Plumbing	214	238	358
Sites	33	52	35
Junk Vehicles	7	18	17
Complaints	73	103	118

Permits Issued

Building	537	468	405
Electrical	385	448	421
Signs	36	48	53
Plumbing	294	375	586
Public Service of N.H.	203	235	239

Housing Code

Structures Inspected	382	307	242
Dwelling Units Inspected	514	465	310
Code Violations Noted	410	342	301
Code Violations Corrected	375	317	286
Inspections made for P.H.A.	205	155	222
Demolition	3	6	6

WATER DIVISION

The Water Division of the Public Works Department, utilizing 128 miles of water mains, containing 1660 valves and 660 hydrants, supplies potable water to, in excess of, 6100 residential, commercial, and industrial service connections within the communities of Portsmouth, Madbury, Durham, Rye, Greenland, and Newington. Potable water is sold at the wholesale rate to both the Towns of Newcastle and Rye, who retail the water through their own distribution systems.

The Water Division is a self-funding enterprise operating solely on the revenues received from the sale of water.

A recently completed system study points out the need for additional storage, and mains which should be replaced with larger pipe. It is optimistically anticipated that the rate of inflation will, in the foreseeable future, return to the point where funds can be set aside for needed improvements. Recent rate increases have only allowed the Water Division to keep pace with inflation while attempting to minimize the impact on the water users.

During fiscal year 1979/80 one hundred thousand dollars in Community Development funds were made available to the Water Division to strengthen the fire protection in the South End. The completed installation of more than two thousand feet of twelve inch pipe and related hydrants, valves, etc. has increased the available fire flow in the entire South End greatly.

Major objectives of the Water Division are to supply a sufficient volume of quality water to all users, and to satisfy both demands for domestic consumption and fire protection.

Statistical information

	1977-78	1978-79	1979-80
Average daily demand for the year	3,712,783	4,182,950 gal.	3,725,156 gal.
Peak day for the year	5,947,400 gal.	5,674,200 gal..	5,397,400 gal.
Total gallons pumped during the year	1,355,149,400 gal.	1,526,776,900 gal	1,359,681,800 gal.

ENGINEERING DIVISION

FY 77-78

Administration and Inspection of the Deer-Mechanic Street Pump Station Reconstruction.

Design, Administration, Inspection of the Memorial Bridge Approach replacement.

Inspection of the Seacrest Village Community Development Project

Design, Administration and Inspection of the South Playground Tennis Courts.

Design of the North Mill Pond Sewer Crossing.

FY 78 - 79

Completion of Leary Field restoration design, inspection of actual construction.

Inspection of the third phase of McDonough Street Community Development Project.

Design, Administration and inspection of the Central Fire Satation re-wiring.

Annual Municipal buildings inspection.

Biennial bridge inspection.

Inspection of the Deer Street tide gate modification.

Design of the North Mill Pond Causeway Project.

Administration and review of ongoing sewer separation program.

FY 79-80

Administration and inspection of the Memorial Bridge Rehabilitation Phase III.

Design, administration, and inspection of the Public Works Garage Facility.

Design, administration and construction of the Bartlett-Islington intersection project.

Design and construction of the South Street water main.

Design and inspection of the South Street sidewalk.

Review and inspection of the Indoor Swimming Pool.

Review and inspection of the Parrot Ave. Courthouse.

Annual Municipal Buildings inspection.

Review and inspection of the UDAG Industrial Road.

Administration and inspection of the North Mill Pond Causeway Project.

Preliminary design of the North Mill Pond tide gate.

Administration of review on ongoing sewer separation program.

PUBLIC EDUCATION, continued

The organization of School Administrative Unit #52 is comprised of a Superintendent of Schools, and Assistant Superintendent, a Business Administrator and a Teacher Consultant for Special Education. The total staff (teachers, principals, secretaries, clerks, aides, custodians, cafeteria workers, nurses) numbers over 600. Over 100 of these are part-time employees.

LIBRARY

A number of exciting new library services were introduced during the 1977-78 year. The Children's Department began Fish Tales in the summer of 1977 and continued it in the summer of 1978. This program brings story hours and books to borrow to children at three of the City's playgrounds. A winter Classic Film Festival started in late 1977. The calendar of Summer Events, which gathered exhibits, concerts, plays and other entertainments in the Seacoast area into a day by day listing, was well received.

The use of established library services continued to grow steadily. In 1977-78, 162,434 items were loaned. This represents a 56% increase in items loaned in just two years. Better than 10 meetings a week, in excess of 500 meetings a year, took place in the Vaughan and Shoals Rooms at the Library. Film demand continued to climb. Over 500 films, which the Portsmouth library borrows from the State Library, were viewed by 14,909 people in community groups. An additional 3,950 people viewed films sponsored by the Library at Prescott Park during the summer and at the Winter Classic Film series.

Children's story hours, films, school tours, and special programs continued to meet the needs of hundreds of children. During the 1977-78 year 5,876 children participated in more than 280 programs offered at the Library. Reference personnel conducted tours of the Library for school classes and community groups, taught reference lessons to school groups, and coordinated exhibits in the reference area, in display cases throughout the building, and in the Vaughan Room.

During the 1978-79 fiscal year the Portsmouth Public Library continued to provide Portsmouth with informational, educational and recreational services. 175,113 items circulated, and increase of 12,444 over the previous year.

The library continued the Seacoast Summer Events Calendar which provided a daily listing of happenings in the seacoast. The winter film series from January through April presented such films as "Invasion of the Body Snatchers". The library also continued its film festival at Prescott Park. The Reference Department offered such programs as Fitness Without Pain, which in addition to speakers, provided a bibliography and directory. Also offered was a CPR program.

Other services provided by the library include Interlibrary loan of books from other libraries, films borrowed from the State Library for local organizations, meeting rooms for local groups, and the loan of audiovisual equipment to local organizations.

The Children's Room was very busy in 1978-79. The summer program called "Close Encounters with Books" included an outreach program of storytelling, games, and book lending. The children's librarian and assistant did storytelling at Pro Portsmouth Farmer's Market in the fall. A realia collection of circulating educational toys and games was begun focusing on items for preschoolers that enables them to learn in many ways. Also established was a good collection of records and tape cassettes. Kits for hospital bound children were assembled. There were 250 programs with 6,698 children attending.

The Portsmouth Public Library continued to provide many innovative services during the 1979-80 fiscal year. The library circulated 187,220 items, an increase of 12,107 over the previous year. The library's meeting rooms and audio-visual equipment continued to receive heavy use, as did State Library films. The meeting rooms were used 458 times by 6551 people and 42 groups used 57 pieces of AV equipment. 376 films from the State Library were viewed by 12,545 people. 81 reels of census microfilm was borrowed from the Federal Archives and Records Center.

The library cooperated with the Seacrest Village Youth Center to show films and lend books to early elementary school students. Storytelling, games and book lending were carried on at Dondero School playground. A special film program was added on Friday morning for preschools, nursery schools and day care centers. Large numbers of children attended. In cooperation with Community Day Care, the director and children's librarian worked on the Project Little Kids Committee, to produce a brochure to promote parental awareness of pre-reading skills. A total of 287 children's programs were provided to 7,257 children.

Other services at the library include art prints for a two month loan, community information consumer aid and information, a copy machine, large print books, Portsmouth area restaurant menus, pamphlet file, tourist information and zip code information.

The library is open 65 hours a week; Monday - Thursday 9-9, Friday and Saturday 9-5:30.

ECONOMIC COMMISSION

It is the goal of the Portsmouth Economic Commission to stimulate and encourage responsible industrial and commercial development throughout the City. The major accomplishments realized by the Commission in this endeavor over the last several years are summarized below:

During the fiscal year 1977-78, the Economic Commission changed directors from Raymond Richardson to Robert Benson. The newly completed Portsmouth Industrial Park attracted four new companies: D.F. Harris, Post Machinery, Erie Scientific and Watts Regulatory. Service Federal Credit Union established operations in a new building at the Borthwick Industrial Park, while Liberty Mutual started construction on a major addition to their existing facility. This addition is intended to house the national computer operations for the company. The Woodbury Avenue Shopping Center was completed and ready for occupancy with K-Mart as the major tenant.

The following fiscal years (1978-80) saw the construction of two new buildings in the Portsmouth Industrial Park which were occupied by McConnell Plastics and the Advent Corporation. The City successfully obtained a \$650,000 Urban Development Action Grant (UDAG) from the U.S. Department of Housing and Urban Development (HUD) to construct a new industrial street between Lafayette and Banfield Roads. In conjunction with this UDAG project, Data General undertook a 115,000 s.f. addition to their existing building and added 500 new jobs. A major national company - the Congoleum Corporation - started construction on their new corporate headquarters building to be located off I-95 on Market Street.

The Economic Commission looks forward with optimism to continuing success for the future in achieving their goal of economic betterment for the City.

Commission members over this period included:

Russell VanVillard, Chairman
Robert Allard
Edward Burnham
Richard Salvas
Peter Lucas
Sam Jarvis
John Mickolajczyk
Marshall Tebbets
Peter Weeks
Christopher Sheridan, Economic Development Director

The income from parking meter fines is not reflected in the total cash collected from the tax office. The Parking Meter Fines are collected in the tax office but the income is reported direct to the Treasurer and not entered into the Tax Office Ledger.

HEALTH

Annual Report:

Fiscal Year: 1977-78
1978-79
1979-80

Examination of applicants for Fire and Police departments, consisting of office examination and EKG and Chest Xray (heart and lungs).

Immunization of personel from the Public Works, when requested (Tetanus and Typhoid).

Inspecting of Foster Homes and evaluating the home environment.

Consulting to immunization program of the Senior and Junior High Schools.

Examination of vaccinations and certify International Certificates for people traveling to foreign countries.

Examination and treatment of underprivileged people.

Attended several meetings of the Planning Board.

Care of the indigent - very few of late years.

Answering questions about break-down of house services such as water-heat, etc. and directing them to the proper authorities.

Inspecting the stores (food) and restaurants following a fire and answering complaints from displaced persons following a fire and directing them to the proper authorities.

Keeping in touch with the New Hampshire Civil Defense Agency.

Inspecting Lab reports from Concord, NH State Diagnostic Laboratories of specimens secured by teachers in the School Department.

In general am also receiving telephone calls not related to Health, but have to do with social and human problems, and always extending a sympathetic ear.

Below you will find a partial listing of some of the items and services contracted for by the Purchasing Department for the city in cooperation with other departments through competitive bidding procedures each year.

- Heating Oil & Diesel Fuel
- Office Supplies & Equipment
- All Road Materials (Bituminous Concrete, Sand, Gravel, Road Salt etc.)
- Chemicals for Water & Sewerage Treatment
- Water Works Supplies
- Garbage Removal Contract
- Motor Vehicles, Heavy Equipment & Related Accessories
- Police Cruisers
- Specialized Service Contracts
- Trees

CONSERVATION COMMISSION

The programs carried out by the Conservation Commission during the fiscal years 1977 to 1980 have been, as in the past, in the areas of City beautification, preservation of open space to protect characteristic local flora and fauna and a potential for quiet recreation now and in the future, and protection of the wetlands.

In addition to several field trips related to the protection of critical areas either proposed for open space acquisition or proposed for development, the Commission held regular meetings, all but one at City Hall:

- 4 meetings in 1977-78
- 7 meetings in 1978-79
- 7 meetings in 1979-80

Expenditures from yearly budget of \$1,200 have been, each year, divided between purchase of annual flowering plants, occasional purchase of trees to supplement the usual 5,000 shade tree budget requested under Department of Public Works, due to the Association of Conservation Commissions, and cost of copying letters and other documents with the City Hall copying machine.

PROGRAMS:

I. City Beautification:

a) Shade tree planting:

1977-78: The usual City-wide planting was replaced by a concentrated planting on Market Square as part of the Square's redevelopment design.

1978-79: Seventy (70) shade trees were planted along sidewalks and on private lawns bordering on City streets upon individual request.

1979-80: A smaller budget allowed for the purchase of only seventeen (17) trees. The species of trees requested by the Commission were purchased on a competitive bidding basis, through the Purchasing Department. Planning for appropriate location and supervision of the planting by nurserymen under contract was carried out on a volunteer basis by the Commission Chairman who is presently the appointed City Arborist.

b) Flower Plantings:

In the Spring of the 3 years covered in this report, annual flowering plants were purchased with a portion of the Commission's annual budget, and planted, with assistance from the Department of Public Works personnel, at the following locations:

- six window boxes at City Hall.
- six hanging boxes at the City's entrances.
- twelve concrete urns on the Vaughn Mall parking lot.
- four flower beds at street intersections and one park.

The designing and planting of a flower bed in a tricolor arrangement around the flagpole of Market Square was a new project initiated in 1979-80.

II. Open Space:

During the fiscal year 1977-78 the important acquisition of a parcel of wooded land on Sagamore Avenue and Wentworth House Road took place. The City Council authorized the use of funds from the Open Space Trust Fund and matching funds were obtained from the Bureau of Outdoor Recreation. The acquisition had several purposes.

- 1) Preserve the scenic character of two entrances to the City - Sagamore Road and Wentworth House Road both at the Rye townline.
- 2) Encourage passive recreation uses: skating on the small pond, walking and study of interesting fauna and flora throughout the wood grove referred to with the Open Space Plan as the "Wentworth Grove."

During the same year the Commission made recommendations relating to the design of an open space preserve within the House of Three subdivision a major residential development situated in the vicinity of Berry's Brook, an area of undisturbed woodland.

During the year **1978-79** the Commission made recommendations opposing the rezoning of Banfield Road's westerly side, known as Great Bog, from residential to industrial, in order to insure the integrity of the Bog as a whole already recommended for preservation in the Open Space Plan.

During the year **1979-80** the Commission participated in a field examination and review of the Master Plan for recreational facilities in the area of the Senior High School, and recommended:

- 1) to preserve all wetlands on City-owned land in the vicinity of the school.
- 2) to preserve the woodland for running trails and for nature studies by science classes.
- 3) to develop a plan for recreational facilities at the site of the former dump when its stabilization is completed.

III. Protection of Wetlands:

During the year **1978-79** the Commission made recommendations relating to the preservation of the swamp forest partially occupying a new City-owned industrial park on the easterly side of Banfield Road. The Commission also recommended that development be omitted from the aquifer occupying the center of the Portsmouth Industrial Park previously created. The swampy forest and brooklets involved in both cases are the headwater of one branch of Pickering Brook.

During **1979-80** the Commission participated in field examination and review of areas of wetlands outlined in the City's Comprehensive Plan and recommended their exclusion from future development. During the 3 years of the report Commission members reviewed all applications presented to the Wetlands Board of New Hampshire (formerly "Special Board") for permit to fill or dredge wetlands, in accordance with the provisions of the State's Wetland legislation (RSA 483-a). Field examination was conducted for all major projects having the potential of affecting abutters property or publicly owned watercourses. Recommendations against the granting of a permit were forwarded to the Wetland Board when detrimental effects could be anticipated.

All the above programs and actions have aimed at maintaining a high quality of life both in the densely populated and rural neighborhoods of the City through the preservation of its natural assets and the addition of beneficial vegetation (trees and flowers) in appropriate locations

OFFICE OF EMERGENCY MANAGEMENT

The Office of Emergency Management (formerly the office of Civil Preparedness) has been engaged in the following activities over the last three years covered by this report.

- * New Director - Herald F. Good, Jr. (as of June, 1978)
- * Radiological Monitoring Training for Police and Fire Departments
- * Hazardous Materials Training
- * L.P.G. Emergencies
- * Nuclear Fixed Facilities Emergencies
- * Radio Communications
- * Budget Preparation
- * Basic Disaster Planning
- * Redesigning Outdoor Warning System
- * Re-writing Emergency Management Operations Plan

The Federal Emergency Management Agency (FEMA) is presently conducting a comprehensive planning study called, "Crisis Relocation Planning" (CRP) for nuclear wartime conditions. Due to the proximity of Pease Air Force Base and the Portsmouth Naval Shipyard, we are a Class I strike target. Included in this planning process, we are updating our shelter capability for wartime and natural disasters.

Your continued support and cooperation is vital to the future success of this program
