SANDOWN NEW HAMPSHIRE ANNUAL REPORTS

University of New Hampshire
University of New Hampshire
Library

FOR THE FISCAL YEAR ENDING DECEMBER 31, **1986**

IN LOVING MEMORY

EDNA FRENCH HAD A LONG LIFE SPAN IN SANDOWN. BORN ON THE KELLY FARM, ATTENDING AND LATER TEACHING SCHOOL IN HER NATIVE TOWN. SHE MARRIED BERT FRENCH AND CAME TO LIVE IN THE CENTER OF TOWN, WHERE FRIENDS STOPPED IN DAILY TO SEE HER. THE ROOTS OF HER LIFE WERE DEEP IN THE COMMUNITY--IN THE CHURCH AS A MEMBER FOR 75 YEARS (AS AN ORGANIST FOR MUCH OF THAT TIME), OFFICER AND MEMBER OF THE GRANGE, PRESIDENT OF THE OLD MEETINGHOUSE ASSOCIATION, CHAIRMAN OF THE 200TH ANNIVERSARY COMMITTEE, TOWN LIBRAHIAN, MEMBER OF THE HISTORICAL SOCIETY, AND A KEY PERSON IN THE FOUNDING OF THE SIXTY PLUS CLUB. COMMITTEE MEETINGS FOR MANY A GOOD CAUSE WERE HELD IN HER HOME.

TEACHER, PAR EXCELLENCE, FOR OVER 50 YEARS, SHE ALSO TAUGHT IN PLAISTOW, RRENTWOOD, AND FREMONT. IN NEARBY TOWNS YOU WERE OFTEN ASKED, "DO YOU KNOW EDNA FRENCH"? WHEREVER SHE WENT HER FORMER PUPILS GAVE HER A JOYOUS WELCOME.

FRIENDLY, POSSESSING A DELIGHTFUL SENSE OF HUMOR, SHE WAS A RESPONSIBLE CITIZEN, A TREASURED NEIGHBOR, A GRACIOUS PERSON TO MEET, A TRUE LADY, ONE WHO WAS COURAGEOUS MIDST THE RECENT BURDENS OF ILL HEALTH, AND ONE WHO WALKED IN OUR MIDST WITH ABIDING TRUST IN GOD.

AUDITOR'S REPORT

We have examined the financial statements of the funds and accounts of the Town of Sandown, New Hampshire at December 31, 1985 and for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Town prepares its financial statements using accounting principles which are in conformity with the Uniform Municipal Accounting System promulgated by the New Hampshire Department of Revenue. These accounting principles differ in certain respects from generally accepted accounting principles, the effects of which on the accompanying financial statements have not been quantified. For instance, liabilities include school costs of spring sessions in the amount of \$663,219 which occur in a period after year end.

In our opinion, except for the effects on the financial statements of the differences in accounting practices referred to in the preceding paragraph, the financial statements mentioned above present fairly the financial position of the funds and accounts of the Town of Sandown, New Hampshire at December 31, 1985 and the results of operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination has been made primarily for the purpose of expressing an opinion on the financial statements, taken as a whole. The supplementary information is presented for analysis purposes and is not necessary for a fair presentation of the financial information referred to in the preceding paragraph.

Respectfully submitted,

Steven Troian

Eleanor L. Bassett

I.C.1. Description. This district shall extend 500 feet from the centerline of (as limited by Article I, Part A.5), and on both sides of, and parallel to South Main Street from Phillipswood Road on the westerly side and Tax Map 7, Lot 13 (or its subdivisions) on the easterly side north to northern side of Tax Map 10, Lot 28 (or its subdivisions) on the easterly side and of Tax Map 10, Lot 26 (or its subdivisions) on the westerly side of North Main Street.

I.C.2. Uses. Uses permitted, subject to site plan approval (except residential uses) as provided in the Sandown Site Plan Regulations are listed below. The Building Inspector will issue a building permit for said uses only after the Planning Board has approved a site plan for same. The Planning Board will not approve a site plan without holding a Public Hearing. For the uses listed, a special exception as delineated in Article V, Section 2 is not required, however, the setback, height, etc requirements of that article remain in effect.

I.C.2.a. Retail store or service establishment, not in excess of 5000 square feet, the principle activity of which shall be the offering of goods or services at retail within the building, for the supply of the normal shopping needs of and for consumptions by the residents of the area. Roadside store sign lights must be off after 9:30 p.m. and store must close at 12:00 a.m. (midnight), and remain closed until 5:00 a.m.

I.C.2.b. Business or professional offices and banks.

I.C.2.c. Restaurants or other places for serving food within the structure. No food or drink shall be served after 11:00 p.m.

I.C.2.d. Parking areas or garages for use by employees, customers, or visitors.

I.C.2.e. Accessory building and uses.

I.C.2.f. Signs as provided in Sandown Sign Ordinance.

I.C.2.g. Assembly halls, banquet halls, kindergartens, nursery schools, and governmental buildings.

I.C.2.h. Residential uses as specified elsewhere in the Sandown Zoning Ordinance.

I.C.2.i. Architectural appearance of all buildings shall be subject to Planning Board approval. (Ballot Question)

ARTICLE 52. Are you in favor of the adoption of Amendment No.3 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

3. Amend Article II, Part A, Section 7.b to include the words "manufactured housing", and delete Article II, Part A, Section 7.e in its entirety. The amended article will read as follows:

II.A.7.b. New dwellings (including duplexes, manufactured housing, and multi-family dwellings): \$0.04 per square foot of aboveground floor space. (Ballot Question)

ARTICLE 53. Are you in favor of the adoption of Amendment No.4 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

4. Add a new Article II, Part A, Section 7.f to read as follows:

II.A.7.f. All test pits and percolation tests for a septic system design shall be inspected and approved by a Sandown Board of Health official or its agent. The cost of said inspections shall be borne by the applicant. (Ballot Question)

ARTICLE 54. Are you in favor of the adoption of Amendment No.5 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

5. Amend Article II, Part A, Section 13 by replacing the words "structure, or conversion from seasonal to year-round occupancy" with "addition of habitable rooms". The amended section will

read as follows:

II.A.13. Nothing in the Town of Sandown Zoning Ordinance shall be construed to prevent the continuance of any existing use of land or buildings unless said use does not conform to the conditions of the Town of Sandown Zoning Ordinance in effect at the time the non-conforming use was initiated. The following changes must conform to all Land and Building Regulations set forth in the Town Sandown Zoning Ordinance applicable to a new building:
1) replacement of a deliberately destroyed or demolished structure, except for in kind replacement, 2) any change in use, or 3) addition of habitable rooms. (Ballot Question)

ARTICLE 55. Are you in favor of the adoption of Amendment No.6 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

6. Amend Article II, Part A, Section 15.c to read as follows:

II.A.15.c. Sanitary Protection. All septic disposal system construction permit applications must be reviewed by a Sandown Board of Health official or its agent prior to submittal to the New Hampshire Water Supply and Pollution Control Commission. (Ballot Question)

ARTICLE 56. Are you in favor of the adoption of Amendment No.7 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

7. Amend Article II, Part A, Section 15, Paragraph c.v to add "except as an emergency replacement for an existing system in failure when no other means of disposal is practical and for a period not to exceed six months. Said tanks shall be constructed of either concrete or fiberglass reinforced plastic resin." The amended subparagraph will read as follows:

II.A.15.c.v Holding tank sanitary disposal systems will not be permitted for property and dwellings which are, or are intended to be, suitable for habitation on a year-round basis, except as an emergency replacement for an existing system in failure, when no other means of disposal is practical, and for a period not to exceed six months. Said tanks shall be constructed of either concrete or fiberglass reinforced plastic resin. (Ballot Question)

ARTICLE 57. Are you in favor of the adoption of Amendment No.8 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

8. Amend Article II, Part A, Section 15.e to add the description of a safe fence and that no pool shall be filled without said fence. The amended article will read as follows:

II.A.15.e. All below-ground swimming pools shall be enclosed by a safe and strong continuous fence not less than 4 feet nor more than 6 feet in height. This means a wire fence no lower than 4 feet high with holes in link no longer than 2 inches by 2 inches or a fence made out of wood no lower than 4 feet high with the framework (crossmembers) on the poolside, and boards cannot have any gaps larger than 2 inches wide. A gate must be attached so that it can and will be secured when the pool is unattended. For above ground pools, as long as the pool is at least 4 feet high, and the ladder can and will be removed, no fence is needed for pools requiring a ladder. For pools not requiring a ladder, the requirements are the same as for an inground pool. No pool shall be filled with water unless a fence meeting the above description is in place. (Ballot Question)

ARTICLE 58. Are you in favor of the adoption of Amendment No.9 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

9. Amend Article II, Part B, Section 3.B.3 to delete the words "and complies with Section 14 of Article III - Building Regulations - Zone A" and delete Article III, Section 14 in its entirety. The amended subsection will read as follows:

II.B.3.B.3. A proposed road which has been approved pursuant to the Town's land subdivision control regulations.(Ballot Question)

ARTICLE 59. Are you in favor of the adoption of Amendment No.10 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

10. Amend Article II, Part A, Section 15, Paragraph f to delete the words "and all applicable conditions set forth in the Town of Sandown Zoning Ordinance". The amended paragraph will read as follows:

II.A.15.f. The conversion of any summer, seasonal, recreational, or other non-permanent dwelling into a dwelling which is or is intended to be, suitable for habitation on a year-round basis shall require as a pre-requisite to the issuance of a building permit for such conversion that the appurtenant sanitary disposal system be made to comply with the standards set and enforced by the New Hampshire Water Supply and Pollution Control Commission. (Ballot Question)

ARTICLE 60. Are you in favor of the adoption of Amendment No.11 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

11. Amend Article II, Part B, Section 3.C to delete the word residential. The amended subsection will read as follows:

II.B.3.C. Non-sewered Lots. Every lot not served by Town sewer shall be subject to the following: (Ballot Question)

ARTICLE 61. Are you in favor of the adoption of Amendment No.12 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

12. Amend Article II, Part B, Section 3.C.1.a by replacing the words "impermeable stratum (soils in which the percolation rate is greater than 60 minutes per inch)" with "restrictive layer" and "2 feet" with "3 feet". The amended subsection will read as follows:

II.B.3.C.1.a. The depth to ledge or restrictive layer shall be 3 feet or greater.

(Ballot Question)

ARTICLE 62. Are you in favor of the adoption of Amendment No.13 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

13. Amend Article II, Part B, Section 3.C.2.b by replacing the words "wet more than 6 months of the year" with "poorly drained or very poorly drained". The amended subsection will read as follows:

II.B.3.C.2.b. Land which is poorly drained or very poorly drained, and existing or proposed wells, shall be a minimum of 75 feet distant from said 4,000 contiguous square foot area.

(Ballot Question)

ARTICLE 63. Are you in favor of the adoption of Amendment No.14 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

14. Amend Article II, Part B, Section 3.C.2 by adding the words "within the 4,000 contiguous square foot area" in the last sentence. The amended last sentence of this subsection will read as follows:

II.B.3.C.2. (in part) Two test pits within the 4,000 contiguous square foot area are required on each lot containing 5 acres or less, and to be separated by at least 50 feet from each other in order to determine that the requirements of Section 3.C.2 are met.

(Ballot Question)

ARTICLE 64. Are you in favor of the adoption of Amendment No.15 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

15. Amend Article II, Part B, Section 3, paragraph C.3 by delet-

ing it in its entirety and replacing it with a new paragraph to read as follows:

II.B.3.C.3. Minimum Lot Sizes and Frontages. Minimum lot sizes within all subdivisions shall meet the lot size requirements specified in Table 1A, Minimum Lot Size by Soil Type". This requirement is subject to the following qualifications:

II.B.3.C.3.a. Where more than one soil type is found on a lot, a weighted average of those soils occurring on the lot shall be used to determine the minimum lot size. In the case of Cluster Subdivision, the overall density of the lots for development within the parcel shall be determined by using Table 1A and computing a weighted average of all soils (excluding wetlands) found in the parcel proposed for subdivision. Each lot will not exceed four (4) bedrooms.

II.B.3.C.3.b. Wetlands may be used as a part of the computed lot size according to the following:

II.B.3.C.3.b.1. Areas designated as poorly drained soils may be utilized to fulfill 25% of the minimum lot size required, provided that the non-wetland area is sufficient in size and configuration to adequately accommodate all required utilities such as sewage disposal and water supply, including primary and auxiliary leach field locations.

II.B.3.C.3.b.2. Areas designated as very poorly drained, fresh or saltwater marsh or alluvial soils may not be utilized to fulfill minimum lot size.

II.B.3.C.3.c. Minimum lot sizes for residential developments with greater than four (4) bedrooms per unit and for commercial and industrial developments shall be determined as follows:

II.B.3.C.3.c.1. For residential use with 5 or more bedrooms per structure, the minimum lot size shall be proportionately larger than the lot size indicated in Table 1A as determined by the formula:

$$\text{Lot Size (Sq.Ft.)} = \frac{\text{No. of Bedrooms} \times (\text{Lot size from Table 1A})}{4}$$

Duplexes shall follow the requirements of Article V, Section 3, Part A, Paragraph A.

II.B.3.C.3.c.2. For commercial and industrial uses, lot sizes will be determined by the formula:

$$\text{Lot Size (Sq.Ft.)} = \frac{\text{Gal. of Wastewater/Day} \times \text{Lot Size} + \text{Land for Well Rad}}{1837 \text{ (gpd/40,000 ft}^2 \text{ (Table 1A))}}$$

Gallons of wastewater discharged per day shall be determined from

Table 5-1, "Unit Design Flow Figures" of New Hampshire Water Supply and Pollution Control Commission publication, Guide for the Design, Operation and Maintenance of Small Sewage Disposal Systems, January, 1978, as amended.

II.B.3.C.3.c.3. Final site plan approval for industrial development which is of such nature or character as to require state or federal permits for pre-treatment and discharge or subsurface disposal shall not be granted until all such permits are secured. The conditions upon which such permits are issued shall comply with state and local regulations and be made part of the record before the Planning Board.

II.B.3.C.3.d. Road frontage requirements shall meet the following criteria:

The soil types listed below have one or more limiting characteristics that make the soil type "NA" or require on-site investigation, no matter what other characteristics of the soil may be present.

SOIL TYPE	MINIMUM LOT SIZE
5***H	NA, poorly drained soil
6***H	NA, very poorly drained soil
*75*H	NA, floodplain soil
*66*H	NA, fill does not meet the Standards for Fill Material (see Key to Soil Types)
76**H	On-site evaluation needed

The Soil Type symbols are explained in the Key to Soil Types.

NA means not allowed; "*" means any slope or any number.

Minimum lot size interpretation is based on Table 1, page 226 of the Draft Water Quality Management Plan, Southern Rockingham Planning Commission 208 Project, and further evaluations.

ARTICLE 65. Are you in favor of the adoption of Amendment No.16 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

16. Amend Article II, Part B, Section 3, Paragraph D by deleting

it in its entirety, and replacing it with the USDA, National Cooperative Soil Survey Program, Soil Conservation Service "Key to Soil Types" .

II.B.3.D. Key to Soil Types

This key is used in determining soil types that are utilized in high intensity soil surveys for administration of lot size by soil type and wetland regulations. The soil types are defined as having the same soil characteristics of drainage class, parent material, restrictive feature, and slope; and are designated by a five part symbol - parts A,B,C,D,and E.

SYMBOL A DRAINAGE CLASS

- 1 excessively drained
- 2 well drained
- 3 moderately well drained
- 4 somewhat poorly drained
- 5 poorly drained
- 6 very poorly drained
- 7 not determined (to be used only with Symbol B-6)

SYMBOL B PARENT MATERIAL

- 1 glaciofluvial deposits (outwash/terraces)
- 2 glacial till material
- 3 marine or glaciolacustrine deposits,very fine sand and silt deposits
- 4 marine or glaciolacustrine deposits, loamy/sandy over silt/clay deposits
- 5 marine or glaciolacustrine deposits,silt & clay deposits
- 6 excavated, regraded or filled
- 7 alluvial deposits
- 8 organic materials - fresh water
- 9 organic materials - tidal marsh

SYMBOL C RESTRICTIVE FEATURE (if more than one applies, list the most restrictive)

- 1 none
- 2 bouldery, with more than 15% of the surface covered with boulders
- 3 mineral restrictive layer(s) are present in the soil profile less than 40 inches below the soil surface - such as hard pan, platy structure, clayey texture. For the soil characteristics that qualify for restrictive feature, see Soil Manual for Site Evaluations in New Hampshire, page 2-22, figure 2-8.
- 4 bedrock present in the soil profile 0 to 40 inches below the soil surface (bedrock is either a lithic or paralithic contact - see Soil Taxonomy p.48-49).
- 5 subject to flooding (must be used with Symbol B-7).
- 6 does not meet fill standards (see addendum - Standards for Fill Material) (only to be used with Symbol B-6).
- X Areas where depth to bedrock is so variable that a single soil type cannot be applied will be mapped as a

complex of soil types and will have a Symbol C of X.

SYMBOL D SLOPE CLASS

B 0 to 8%
C 8 to 15%
D 15 to 25%
E 25%+

SYMBOL E high intensity soil map identifier - H

ARTICLE 66. Are you in favor of the adoption of Amendment No.17 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

17. Amend Article II, Part D, Paragraph 1.E.2 to replace the word "distance" with "in depth". The amended subparagraph will read as follows:

II.D.1.E.2. At least 300 feet in depth from the existing Town road or State highway. (See subsection 5 below for a definition of an existing Town road.)
(Ballot Question)

ARTICLE 67. Are you in favor of the adoption of Amendment No.18 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

18. Amend Article II, Part D, Paragraph 1.H.3 to add the words "unless approved by the Planning Board" to the restrictive sentence regarding roads in setbacks. The amended restrictive sentence will read as follows:

II.D.1.H.3. (Town roads, or collector road may not pass through any side or rear setback, unless approved by the Planning Board, and may only pass through a front setback for purpose of access to an existing town or state road in existence at the time of submission of application,) (Ballot Question)

ARTICLE 68. Are you in favor of the adoption of Amendment No.19 as proposed by the Planning Board for the Town of Sandown Zoning Ordinance as follows:

19. Add a new Article III, Part B for a Sign Ordinance. The sign ordinance will read as follows:

III.B. Signs

III.B.1. Purpose: The purpose of this article is to permit signs that will not, by reason of size, location, construction or manner of display, endanger public health and safety.

III.B.2. Definitions:

III.B.2.a. Area: The area of one side of a not-more-than two sided sign, or one-half of the total area of a sign of more than two sides.

III.B.2.b. Home Produce and Products Sign: A sign advertising the sale of agricultural produce grown or produced on-site by residents of the property.

III.B.2.c. Sign: Any surface, fabric, device or display which bears lettered, pictorial, or sculptured matter designed to convey information visually and which is exposed to public view.

III.B.2.d. Temporary Sign: A sign intended to be displayed for no longer than six (6) months.

III.B.3. General Provisions:

III.B.3.a. No sign in any district shall be internally illuminated, flashing, or animated, nor shall any be illuminated by other than incandescent or flourescent light; nor shall any illuminated sign or advertising outline any part of a building such as a gable, roof, sidewalk or corner.

III.B.3.b. The maximum height of all signs shall not exceed fifteen (15) feet above grade, as determined by the average ground lever around the sign.

III.B.3.c. There shall be permitted in the following zones no permanent signs larger than:

III.B.3.c.1. Twelve (12) square feet in any residential district.

III.B.3.c.2. Forty-eight (48) square feet in any commercial district.

III.B.3.c.3. Seventy-five (75) square feet in any industrial district.

III.B.3.d. Every sign shall be constructed of durable material and shall be maintained in good condition and repair at all times.

III.B.3.e. Signs advertising businesses located in the Town of Sandown may be located off the site of the business, providing the other provisions of this ordinance are met.

III.B.3.f. Signs advertising businesses not located in the Town of Sandown are prohibited.

III.B.3.g. Commercial franchise businesses which, by franchise agreement, are required to provide signs incompatible with this ordinance must provide copies of franchise sign contracts or agreements which require the sign as condition of franchise operation. Such signs are subject to approval of the Planning Board.

III.B.3.h. Illuminated roadside signs shall not remain lit after 9:30 p.m.

III.B.3.i. No sign shall be located within the right-of-way of any town road, nor shall it obstruct driving sight distance.

III.B.4. Number of Signs:

III.B.4.a. No more than one (1) sign advertising or promoting a single business activity shall be permitted on any lot in zone A.

III.B.4.b. Each business or industry in the business district may have three signs, the combined total area of which, including any free-standing sign, does not exceed the area permitted in III.B.3.c

III.B.4.c. A single free-standing sign is permitted for each business in the business district except:

III.B.4.c.1. Where two or more businesses or industries share a lot or tract, a single common free-standing sign listing all tenants and/or occupants shall serve the lot or parcel;

III.B.4.c.2. In the event of a lot or tract with frontage on more than one right-of-way, the provisions of III.B.4.c.1 shall apply to each right-of-way.

III.B.5. Exceptions:

III.B.5.a. In any zone, the Planning Board may allow two additional non-illuminated home produce and products signs not to exceed twenty four (24) square feet in area, for a period not to exceed eight (8) month per year.

III.B.5.b. One temporary sign used by real estate agents advertising property for sale or those used by contractors, architects, painters, or other artisans advertising work in progress is permitted on any lot or parcel, provided it is unlit, is located ten (10) feet away from the right-of-way, does not exceed twelve (12) square feet in area, and is removed within a six (6) month period.

III.B.5.c. All signs less than three (3) square feet shall be

exempt from the permitting requirements.

III.B.6. Enforcement:

III.B.6.a. The Building Inspector shall be the administrative officer of this ordinance.

III.B.6.b. No sign shall be erected, moved or altered until a permit therefore is issued under the terms of this ordinance. The fee for a permit shall be \$10.00, except for temporary and home products and produce signs.

III.B.6.c. All unused sign permits shall expire one (1) year from the date of issuance.

III.B.6.d. All applications for sign permits shall be accompanied by an acceptable sketch of the proposed sign, and an indication of the location and dimensions of all existing signs located on the lot or tract.

III.B.7. Existing Signs: All signs which do not conform to the provisions of this ordinance at the time of its adoption shall be brought into compliance within one (1) year after its passage.

ARTICLE 75. Are you in favor of the adoption of Amendment No.26 as petitioned for the Town of Sandown Zoning Ordinance as follows:

Amend Article II, Part A, Section 2 by deleting it in its entirety, and replacing it with the following new section:

A building permit is required to construct, add to, alter, remove or demolish a building or structure. A building permit is also required to install plumbing, sanitary disposal system, or electrical equipment, or to modify the same for the operation of a building or structure. It is unlawful to commence any of the above without first filing an application in writing with the building official and obtaining a formal permit.

This amendment is NOT RECOMMENDED by the Planning Board.
(Ballot Question)

ARTICLE 76. Are you in favor of the adoption of Amendment No.27 as petitioned for the Town of Sandown Zoning Ordinance as follows:

Amend Article II, Part A, Section 13 by deleting it in its entirety and replacing with the following:

Nothing in the Town of Sandown Zoning Ordinance shall be construed to prevent the continuance of any existing use of the land or buildings. Lots of record, which met the requirements of the Ordinance and Regulations in effect when said lots were created, but do not meet the requirements of the current Ordinances and Regulations shall be allowed to continue. If additions or alterations are proposed, the new building shall be required to satisfy the following conditions:

a. Changes in the building structure shall comply with Town of Sandown Zoning Ordinance requirements for the distance from the structure to the front, side, and rear boundaries and for height, roof materials and chimney design. In addition, changes or additions shall be in accordance with the National Building Code, electrical installations will conform to the National Electrical Code, and plumbing shall comply with New Hampshire State Laws and Regulations.

b. Changes in driveways shall meet applicable portions of Town of Sandown Zoning Ordinance.

c. Septic tanks may be replaced with the same size or a larger tank. Leaching portions of existing systems that are seventy five (75) feet or more from surface water or water supply wells may be repaired or replaced in kind. Plans for leaching portions of existing systems that are closer than seventy five

(75) feet from surface waters or water supply wells must be approved by the New Hampshire Division of Water Supply and Pollution Control before repair or replacement: Such approval, if obtained, shall suffice. Change to septic systems shall conform with Chapter 149:E NH Revised Statutes Annotated, New Hampshire Department of Health Standards, and New Hampshire Division of Water Supply and Pollution Control Standards. However, an existing septic system upgrade shall be permitted if, in the opinion of the New Hampshire Water Supply and Pollution Control, such upgrading will enhance safe septic waste disposal.

d. Repair of a well shall be permitted. The construction of a new well shall be in accordance with Public Health Service Drinking Water Standards, Chapter 149:E of the New Hampshire Revised Statutes Annotated, New Hampshire Department of Health Standards, and the New Hampshire Division of Water Supply and Pollution Control Standards.

This amendment is NOT RECOMMENDED by the Planning Board.

ZONING BOARD OF ADJUSTMENT

The charter of the Zoning Board of adjustment is to hear appeals of administrative decision, appeals for special exception, and appeals for variance, where those appeals pertain to the application and or enforcement of the Town of Sandown Zoning Ordinance.

Sandown's Zoning Board of Adjustment heard 48 cases in the first eleven months of calendar year 1986. There were 19 appeals for special exception of which 13 were approved and 6 denied. There were 24 appeals for variance of which 19 were approved and 5 denied. There were 5 appeals of administrative decision and all 5 were upheld. The above figures do not reflect continued cases which make up approximately 30 percent of the Board's workload.

The Board of Adjustment anticipates an average of 7 cases to be heard per Board meeting during calendar year 1987. The increased case load is attributed to the continued rapid growth experienced by the Town.

The current membership of the Board is as follows: Tom Robinson, Chairman; Mark Hamblett, Secretary; Pam Elkin, Member; Pat Wilcox, Member; Dan Elkin, Alternate Member; Sharon Russell, Alternate Member.

Respectfully submitted,

T.D. Robinson
Chairman
Sandown Zoning Board of Adjustment

CONSERVATION COMMISSION REPORT

This year, several members of this Commission attended various lectures and workshops offered around the state. Some of the topics included were: the determination, use, and protection of aquifers; groundwater protection; and a Wetlands Protection Conference.

Our Commission has reviewed several Dredge and Fill applications and made recommendations to the State Wetlands Board.

We have also utilized the services of the County Forestry Division of the Cooperative Extension Services in Brentwood. Phil Auger, County Forester, has been instrumental in educating us to the value of our town forests and how they can be best utilized.

The Seeley property has had a deed research done and its boundaries surveyed. Due to the unique location and age of this property, it has taken much longer than anticipated to complete the surveying.

A future project for 1987 includes a Sanitary Survey of Angle Pond in cooperation with the Planning Division of the State Water Resources Board. We are also to initiate a Lay Lake monitoring system of Angle Pond which is sponsored by the Biology Department at U.N.H. We believe both programs together can protect and enhance the health of Angle Pond.

Lastly, the Conservation Fund account is approximately \$960.

DERRY VISITING NURSE ASSOCIATION REPORT

Derry VNA strongly believes that the overall health of any community springs from the health of each individual, family, and group within that community. As your community home health care agency, Derry VNA is committed to working with you to address the continuum of human health concerns in Sandown from early childhood health promotion, to helping people recuperate at home after an acute episode of illness, to caring for the elderly and handicapped in their homes. Our services are designed to build upon individual, family and community strengths.

We are always looking for new ways to integrate our traditional community values with continuing changes in human need and services. No other home care agency has these ties with your community. We would be delighted to talk with you about your ideas or your needs. We currently provide the following services.

ACUTE CARE SERVICES including nursing, physical therapy, occupational therapy, speech therapy, home health aide services, and other specialized services such as intravenous therapy.

DAILY SUPPORT SERVICES including maintenance nursing, home health aide, homemaker, respite care, chore services, in home day care, and other specialized services.

HEALTH PROMOTION SERVICES including well child clinics, immunizations, expectant parent classes, new born visits, senior health clinics, public screening services, worker health, health promotion education, home visits, and other community services.

The total value of all services delivered by Derry VNA in Sandown last year was \$24,334.66. For every dollar allocated by your town to DVNA, town residents received \$3.34 worth of service. Town allocations are used in the following ways.

Most funding sources (including Medicare, Medicaid, Title XX, block grants, state funding, insurance, etc) are restricted to specific categories of illness, age, income, home bound status, time periods, or other restrictions. Increasingly, people who need home care services simply do not fit those specific eligibility categories throughout the entire period of need. Town funds are used to extend services beyond the restrictions of those payment sources.

Some funding sources (especially Medicare, Medicaid, Title XX, and state funding sources) pay only a portion of the total cost of the service. Town funding, special grants, and United Way funding are used to subsidize these payment sources.

And, there are services for which the only payment source is town funding or a combination of town funding with special grant funds. Sometimes, town funding is used as seed money to get a new service started.

Only with town funding can an agency provide such a range of services to citizens of Sandown.

STATISTICAL REPORT FOR FISCAL YEAR, JULY 85 - JUNE 86

SANDOWN

It is impossible to translate the above statistics into human values. Our many clients testify what a significant difference in-home care makes in their lives. Derry VNA has a strong commitment to helping the elderly, the sick, and the handicapped to maintain their independence and dignity at home. And, the agency has a strong commitment to health education and preventive health practices to help people delay or prevent illness.

FIRE DEPARTMENT REPORT

FOREST FIRE WARDEN'S REPORT

The year of 1986 was a busy and interesting one for the department. The number of calls only increased slightly. However the way the town is growing it requires a lot of time on inspections of chimneys, stoves, and heating systems.

The house numbers for all houses have been assigned and I hope everyone will place numbers on homes or mail boxes soon. This will be a big help to all departments.

Chimney fires are still leading the call list. More care and cleaning is needed to prevent this problem. Brush fire calls are down and I hope that this trend continues.

The truck committee has put a lot of work and time into finding the fire truck best suited for the long range needs of Sandown. A proposal for a new fire truck will be on the 1987 town meeting warrant articles. We hope the townspeople will respond favorably on this matter.

As always the excellent, dedicated group of men on the department make my job as chief and fire warden much easier. A big thank-you to all who make this a fine working department.

REPORT OF TOWN FOREST FIRE WARDEN
AND
STATE FOREST RANGER

Between July 1985 and June 1986, we experienced fewer fires than normal. The two leading causes of forest fires were again children and fires kindled without written permission of a Forest Fire Warden. Both causes are preventable, but only with your help.

Please help our town and state forest fire officials with forest fire prevention. Contact your Forest Fire Warden for more information.

Enforcement of a state timber harvest regulation is the responsibility of State Forestry officials. Our state has excellent timber harvest regulations; however, your assistance is needed.

If you know of a logging operation and suspect a state timber harvest law may be violated, call your Forest Fire Warden.

If you own forest land, you became responsible for the timber tax payment starting April 1, 1986. This is a change in the Timber Tax Law that will impact all forest landowners. Contact your Board of Selectmen for timber tax forms.

SCHOOL BUDGET COMMITTEE TOWN MEMBERS REPORT

Most people noticed an increase in their tax bill this past November, as the overall rate went up almost 15%. As is the case in most New Hampshire towns, where the principle of local control prevails, the school tax rate accounts for most of both the total tax rate and the tax increase. The New Hampshire average school tax rate is 86% of the total tax rate, so Sandown's 86.7% is not abnormal.

What is interesting about the school tax rate is that even though it went up almost 15% from 1985 to 1986, the increase in the tax rate would have been even higher, had it not been for the large increase (13%) in the Town's assessed valuation. Sandown's assessment from the Timberlane School District actually went up about 20% from 1985 to 1986. This was due to the 13% budget increase, plus our share of the 1985-86 school year supplement (\$150,000, of which Sandown paid about \$25,000), and a 1.5% increase in Sandown's share of the total District budget. One percent of the District's budget (\$10M) is over \$100,000. From the 1985 tax period to the 1986 tax period, Sandown's school children accounted for an additional 1.5% of the District's total enrollment (17.7% vs 16.2%). This increasing percentage of the average daily membership (ADM) has been occurring for the past five years. In 1981, Sandown represented about 10% of the District ADM, but because Sandown's elementary age children represent about 20% of the District's elementary population, the overall average percentage has been growing. This has not been caused by growth in any particular year, but a general trend over five to ten years. In fact, in 1981, Sandown elementary children represented 19% of the District elementary enrollment, and in 1987 that has increased to only 22%. The other three towns in the District are growing as well.

Fortunately for Sandown taxpayers, the Town's assessed valuation grew 13.5% from 1985 to 1986 (\$45.3M to \$51.4), and has increased 53% since 1981. Although our assessed valuation has not grown as fast as the increase in the School District's assessment, the growth has taken the sting out of the school increases which have been necessary for adequate teacher's salaries, increased costs of supplies and services, and improved programs for both special needs and gifted and talented students. Growth does add more children to the school system, but it also has justified the facility changes in our schools in which we can be proud. The high achievement level of our students cannot be overemphasized either.

LIBRARY REPORT 1986

1986 has been a good year for the library. Although we said good-bye to Susan Oleson, we welcomed Donna Fugere and Dawn Higgins to the staff.

The circulation statistics remained fairly static but the visitor and new card figures show that new library users have become very active.

Due to pending state legislation regarding invasion of privacy, the library began re-registration of cardholders in September bringing patron records up-to-date. The number of volumes remained about the same after some healthy weeding done this year.

The annual jelly bean contest was a hit again. Spring and fall story hours were well-attended and well-organized by volunteers. The summer reading program, Region of Readers, was well-participated by all age groups. And Mrs. Santa had over 100 people turn out for her annual story hour the week before Christmas.

The Friends of the Library group, although small, is always there to help, whatever the library's needs. They donated a sturdy table for the new typewriter. They sponsored the annual Teacher's Tea in November, the bake sale for March's town meeting and the raffle during Mrs. Santa's visit. They also paid the delivery charges for the new card catalog.

The Sandown Brownie troops decorated the library for Thanksgiving and Christmas. The Sandown Cadets started a new program - answering letters to Santa.

The Sandown Public Library Building Committee was formed this year to look into library expansion under the direction of Paul Densen. Townspeople were very helpful filling out library surveys. Results show that increased library services, hours and space are very much a priority in the town of Sandown.

Trustees Hazel Marlow, Amelia Leiss and Nancy Robinson join Barbara Lachance, Donna Fugere, Dawn Higgins and myself in extending an open invitation to visit the library.

Respectfully submitted,

REPORT OF LAMPREY HEALTH CARE

The Senior Citizen Transportation Service has enabled seniors to remain independent, self-sufficient and active through the provision of transportation to needed services, including medical, shopping and recreational trips. It is the goal of this service to eliminate barriers which frequently obstruct elderly and handicapped individuals from maintaining self-sufficiency. Another of our goals has been to "hold the line" on the operating costs for this program, but we have been dealing with some expenses which are beyond our control, such as insurance. We are facing federal cuts also but will do everything possible to maintain current levels of service within our budget.

In 1986, over 752 rides were provided to Sandown senior citizens. The Newmarket Regional Health Center now has five vans of which three are equipped with hydraulic lifts to accommodate individuals confined to wheelchairs. This service is available to Sandown residents.

The Newmarket Regional Health Center also operates a medical program providing primary health and social services. The medical staff consists of five physicians - three family practitioners, a pediatrician, and an obstetrician/gynecologist -, a physician's assistant, three nurse practitioners, nurses and support staff. Cynthia Rasmussen, M.D., obstetrician/gynecologist, directs the Health Center's Prenatal Program, providing prenatal, delivery and postpartum care. The Health Center also offers nutritional counseling, social services, and health education for expectant mothers. These services are available to Sandown residents at the Lamprey River Clinic in Raymond, N.H., and in 1986, over 146 medical visits were made by Sandown residents.

Each dollar appropriated by Sandown has enabled the Newmarket Regional Health Center to provide these services to your town. We would appreciate your continued support and would be more than happy to provide any additional information which you may need.

PLANNING BOARD REPORT

As land development pressure continued upward, so did the workload of your Planning Board. 1986 was even busier than 1985, with 30 meetings resulting in 100 meeting hours. Besides, the regular monthly meeting (which wasn't enough in two months), the Board held 10 Master Plan workshop meetings, four public hearings on the 1986 Zoning Ordinance amendments, and two road bond meetings. Additionally, the Board met almost monthly to inspect subdivision, site plan and excavation sites. 28 agenda items were reviewed, which resulted in approval on 11 subdivision plans, two lot line changes, one site plan for commercial/residential, and one excavation/restoration plan. This translates into 41 single family, four duplex and 36 multi-family dwelling units at year's end. Three subdivision plans representing 15 single family units are pending.

The main accomplishment of the 1986 Planning Board was the development of Sandown's Master Plan in conjunction with Rockingham Planning Commission pursuant to Warrant Article 35. A public hearing on the final draft will be scheduled in February. Although the Master Plan workshops were very poorly attended by Sandown residents, despite public notices and newspaper notices, the citizens survey conducted, and the development of the various sections revealed some basic fundamentals as follows: 1) residents want Sandown to retain a rural atmosphere, 2) residents are concerned about road maintenance, 3) Sandown spends less on road maintenance than any other surrounding town, and 4) Sandown must develop a capital spending improvement plan to direct future improvements and to manage revenue requirements.

The Planning Board will be recommending a warrant article for funding the preparation of a capital improvement program (CIP). This plan will not only show the Town's spending projection over the next six years, but is reported to be a requirement of towns in order for them to assess developers impact fees for their developments. Your Planning Board started assessing large developments for off site access road improvements in 1985, but in late 1986, this was expanded to include all developments, since the cost of road refurbishment is \$150,000/mile. Given the condition of our roads, I feel that most residents will agree that this is long overdue. Approval of a CIP warrant article will insure that this continues, if the Legislature passes the reported bill under consideration.

Excavation was an area receiving considerable attention in 1986. One excavation plan was properly reviewed and approved, with the restoration bonded. However, court action was initiated against three excavators who have failed to file either an excavation plan or a restoration plan. A court decision, expected to be in favor of the Town, will be known in January. The remaining two should be heard and decided in early 1987.

In other court action, the Board did reach settlement on two suits against it and the Town, regarding multi-family developments. Instead of the originally proposed 179 dwelling units, both parties agreed to 96 units. 36 of these units are reported approved above; the remaining 60 have to submit an acceptable site plan.

There has been much publicity about the seasonal/residential issue recently, and presently there are eight petitioned Zoning Ordinance amendments, signed by some 20% of the registered voters, which seek to reverse the original 1956 Zoning Ordinance, and subsequent amendments to it regarding lot size, by proposing to allow "lots of record", no matter how small. However, all voters should be aware that after extensive review of both the seasonal and substandard lot size subjects by the legal staff of the New Hampshire Municipal Association, that numerous court cases have shown that wording is not required, if the Town has a Zoning Board of Adjustment, as required by RSA 673:1.IV. "Towns can opt to use the flexibility of the variance procedure..." and further "There is no automatic right to build on substandard lots, i.e. a grandfather clause is not a constitutionally required part of a zoning ordinance."

Recently, I received a newsletter which stated that the Town of Sandown would be held liable for "cash settlement" for not allowing expansion of seasonal properties. This threat couldn't be further from the truth. In *Robillard v Hudson*, the Court ruled that "...the owner must show that he is being deprived of ANY viable economic use of his land." Similar rulings were made in *Freedom v Gillespie*, *Sanderson v Greenland*, and cases in other states such as Conn, NH, NJ, Mass, Oregon and South Dakota. The NHMA legal counsel concludes that "It would be difficult for an owner to argue that seasonal home use is not a viable economic use of the land ..." Further, in *Lachapette v Goffstown*, the Court ruled that "It is the general policy of New Hampshire law to strictly and carefully limit the enlargement of any nonconforming use."

The petitioned amendments seek to eliminate the building permit requirement for conversion of seasonal properties to year-round residences, which is similar, if not identical ordinance that other towns have. The NHMA legal recommendation is to "make sure your ordinance specifically requires a permit." The main reason that this ordinance exists is to protect and insure the quality of our lakes, ponds, and well water. Relying on the State entirely is unrealistic, as their staff is literally swamped with applications. The NHWSPCC director reported to us that his department reviews 25,000 septic permit applications per year, or about 100 per day by a staff of ten! When the total NHWSPCC staff is only 32 including field inspectors, is there any question why a recent study revealed that 12% of the septic systems fail in the first 12 months of use!? Fortunately, Sandown joined 30 other towns in passing some septic ordinances that are more inclusive than the State's, and requires an inspection at each phase of septic construction, rather than just before backfilling as the State does.

Even if the petitioned amendments pass, RSA 674:39 would prevent any utilization of substandard "lots of record", since this statute provides a four year exemption for any zoning ordinance, "...except those regulations and ordinances which expressly protect public health standards such as water quality and sewage treatment requirements..." Thus, the subsoil zoning amendment passed in 1978, which is based on a soil's capability of handling septic wastes, would take precedent. In fact, the Board will be recommending a new lot size table based on the current state-of-the-art soils information, as determined and recommended by the USDA Soil Conservation Service. The petitioned amendments eliminate some wording on certain ordinances such as "or to commence", "or maintained", and "or in violation of" which could prove to be unwise.

In contrast to the above, the Board will be recommending several wording changes to the Zoning Ordinance, which will eliminate inconsistencies, conflicts, and misinterpretations. These include making the mobile home fee the same as field build house (State law), and making the Wetland ordinance consistent with the entire ordinance, as well as making the seasonal conversion special exception more acceptable. Most importantly, the Board will be recommending the creation of both a neighborhood business district, and two small business-commercial districts, before the central areas of the Town are fully developed.

Although I do not have the final totals as of this writing, the Planning Board's expenditures were within 5% of budget, and should have been entirely supported by fees collected. If the receipts surpass the expenditures, it will be the first time in at least six years that private development in Town has paid for itself. This was due to a dedicated effort to backcharge developers for the cost of engineering reviews and inspections on their plans and road constructions. In the past, the cost of the Town Engineer has exceeded the budget (as it did this year), and this excess accounted almost entirely for the overexpenditure. We now have a system to keep this from reoccurring.

Finally, much credit must be given to the members of your Planning Board who volunteer their time for this important part of Town government. We regret the resignations of Sue Beauvais and Gerry DeGrace, who contributed so much to the Master Plan development. Other members include George Romaine (ex-officio), Fred Russell, Ed Mencis, Pam Elkin, Mark Murphy, Valorie O'Toole, and our secretary, who makes the Board's actions possible Marilyn Cormier. Every resident should make time to let these members know their thoughts on the Town's development.

SANDOWN POLICE DEPARTMENT

PO BOX 309
SANDOWN, NEW HAMPSHIRE 03873
TEL. 887-3222

TO THE HONORABLE BOARD OF SELECTMEN
AND THE PEOPLE OF SANDOWN;

1986 has been an exceptional year for your Police Department. Through increased funding and support of you, the Townspeople, we have been able to provide police related services at a level beyond anything we were able to accomplish in the past.

We have seen our department grow with additional manpower which enabled us to provide expanded patrol coverage. Although we are still shorthanded, we hope to have additional manpower added to our department so that we may actively provide 24 hour coverage, with an officer in the patrol unit 7 days a week.

Currently we have 24 hour coverage but we are still lacking the manpower to provide an officer to take some of the mid-shifts on a regular basis. Until we can train additional officers to help in this time slot, the officers on night shift are scheduled for twelve hour shifts to cover this time. During the times we have the officers available to cover the mid-shift, we provide the Town of Sandown with 24 hour active patrol, which is something no other town in the county does.

With the purchase of the 1986 LTD cruiser, the Town now has two identical police units. The 1980 Fairmont was retired in March of 1986 and upon the arrival of the 1986 unit in August, the Town was equipped with two cruisers. If proper maintenance and care are taken, they should serve the Town until 1988, when the 1984 unit should be nearing retirement. Until then the Town can take pride in the fact it has two up to date and fully equipped cruisers.

Our officers also were able to be admitted to more Police training schools than ever before in the Department's history. Officers were trained in use of the PR24 baton, Major Crime Investigation, DWI School, Warrants and Complaints, Hostage and Barricaded Subjects, Officer Survival, and Police Firearms School. These schools not only provided the officer with additional education in the police field, but also will prove beneficial to the Town in that Sandown will have some of the best trained and well educated police officers for any Town our size.

1986 also saw a dramatic increase in criminal activities over last year. Sandown, however was still not hit as hard by crime as many of our neighboring towns. Our burglary rate increased by 13 over last year. This was mainly due to the work of a professional ring working in the Southern Rockingham County/North Eastern Mass. area throughout the late summer and fall months of this year. Thefts were also up, primarily in the summer residential

areas and construction sites around Town. Our court case load showed an increase of 75% over 1985. Our DWI arrest rate was increased as was speed violations issue. This helped reduce our accident rate over 1985 by 27% and has made the roads in Sandown a little safer in the process.

It is common knowledge that Sandown's population is showing a dramatic increase. Sandown is now one of the fastest growing towns in the State. Our Department has managed to provide increased services to the Town because of the support the Townspeople have given us over the years at Town Meeting. We must, however, continue to look ahead into the 1990's and realize that Sandown is growing and that in order to maintain the level of services the people of Sandown have come to expect and deserve from their Police Department, we must continue to build a professional Department with adequate staffing and budgeting to provide these necessary services.

In closing, I would like to thank the Selectmen for their cooperation through the year; the Fire Department and the Rescue Squad for maintaining our good working relationships and I would like to thank the officers of your Police Department for their professionalism, dedication to duty and hard work they gave in service to the Town of Sandown.

Yours truly.

RECREATION COMMISSION REPORT

1986 has been a very busy year, with all the things we've been doing and all the personal changes that have taken place. Recreation is now operating with a full Board, and now we can be much more effective for 1987.

In 1986 we took on the challenge of cleaning up Seeley Park. Not everyone approved of the way went about doing this, but the results are great. We've managed to turn this teenage drinking spot into a beautiful park and a clean usable beach.

There is still more to be done. In 1987 we plan to have a beginners swim program with the Red Cross heading it up. We also have finishing ideas for the bathhouse, such as: benches, lighting, and hooks to hang your things on while you change. We plan to have a life guard on duty from June 21 to September 6, from 12 noon to 7 P.M. We would also like to finish loaming and grassing the top area known as the Park. We are hoping to put a park bench out so that the elderly can also enjoy the sights and sounds of the Park.

Last year we held a Mothers' Day dance to raise money for the new Babe Ruth League. We were very successful. They received about \$500. We would like to go on sponsoring at least one dance a year for this cause. We also have planned a dinner dance for the over 60 crowd, and a few more dances for the under 60 crowd.

In 1986 we started a Teen Center and the response has been great. We have on an average about 70 teens each time, which is twice a month. We have board games, air hockey, ping pong, bumper pool and a jukebox. We have now switched over to a membership center for liability reasons. The only complaint so far is that the teens would like it open 4 times a month instead of 2. With this program, the hanging out at Seeley Park at night has been reduced. We think that we are creating the right recreation for the Town. We are prepared to open the Center more often and have more functions if our volunteers keep improving.

Recreation can stay booming, but only with your physical and financial support.

RESCUE SQUAD REPORT

The rescue squad is a service, which provides emergency care until the ambulance arrives.

We're happy to report the addition of three new members this year.

There are E.M.T. and first responder courses held periodically in the area. These courses are a prerequisite for going on the rescue squad. If anyone is interested in these classes, please contact us for more information. We are in particular need of members in the southern part of town. Also C.P.R. courses will be available to the public, if there is enough interest.

We meet the second tuesday of each month. This year we have responded to over 110 rescue, and fire calls.

Thank you for your continued support of the squad.

Respectfully submitted,

Frederick E. Teague Jr.
Sandown Rescue Squad

SELECTMEN'S REPORT

The year has been one of a few successes, many trials, and a few failures.

The computer system was successfully used to generate the Town tax bills, but not without a few errors (which were corrected). Smooth operation has not yet been achieved, but progress is being made.

A portion of North Road was reconstructed. A new firm was contracted as Town Engineer and are providing excellent service both on reviewing proposed development and assisting in formulation of a road reconstruction program.

The major dollar problem was the increased cost of insurance. Rather than reduce or drop coverage, the Selectmen chose to ensure adequate protection for the Town. This action resulted in request for a supplementary addition to the Town tax. Both Budget Committee and State approval were obtained. The insurance pool formed by the New Hampshire Municipal Assn. was investigated as a means of achieving lower cost coverage and a decision was made to join this pool.

A continuing funding problem is that of the Animal Control Budget. This category is one where requirements grow as people determine that control action is available. Significant numbers of people seek assistance in resolving problems stemming from dogs allowed by their owners to run at large (ie: without supervision). There are also a significant number of strays which must be picked up and boarded for 7 days and if unclaimed, must then be destroyed.

With the increased building and consequent increase in population, the activity in the Town Offices is greater. The amount of new recording filing, and old record upkeep is beginning to pose a space problem.

We wish to thank Roger Sanborn of Hampstead for stepping in to complete the term of the incumbent Road Agent, who resigned in October.

Respectfully submitted,

George E. Romaine, Chairman

ROAD AGENT'S REPORT

My term of appointment from October to March represented problems with beaver dams resulting in partial flooding of Hampstead and Odell Roads; road drainage corrections and extensive brush being cut back. The need for improvement/replacement of equipment in the Highway Department is very apparent.

Everyone is aware of the problems associated with the numerous heavy snow and ice storms. The Highway Department had to handle approximately six feet of snow from November to January.

I thank the Selectmen and the townspeople for the opportunity to serve as Road Agent the last five months of the Road Agent term.

Respectfully submitted,

Roger Sanborn

REPORT TO THE MEMBER TOWNS

from

The Southeastern Rockingham County Sanitary/Solid Waste Management District

The past year has been a very busy year for the district. It started off with the hiring of both engineering and planning consultants in May which allowed us to start the process of developing the plan. Simultaneously we negotiated with the state for a compliance schedule which was agreed upon in July. The initial Schedule called for submission to Town Meetings in March of '87 and submission to the Solid Waste Board by June. We also had to purchase the non-compliance to two towns with the Board. One of these two situations has been resolved the other has been turned over to the Attorney General's Office to obtain COMPLIANCE.

Over the summer and into the fall the district held meetings where the different facets of developing the plan were presented by our consultants and discussed by district members. Throughout this process, data was gathered and assimilated; options were discussed and narrowed down and the framework of a plan was created. Guest speakers on special topics also presented varying viewpoints to the members.

Members of the Executive Board began meetings in July with two other Districts on areas of common interest. Out of these meetings and with input from our district meetings the framework for the new consolidated district was created. An initial meeting with the state was held in November to discuss consolidation and votes were taken by the three districts to merge. This was presented to the Solid Waste Board in December and the new district was formed and finalized in January '87.

A new district is simultaneously being formed to further explore and implement long range solutions. This group will negotiate, select, and sign contracts with potential vendors and other parties. The formation of this district will require two town meeting votes (the first being 3/87). Not all towns in the 149-M district will be part of the N-B district.
