Licenses available from Lyn Bandy, your Town Clerk

**Report from The Town Clerk's Office  
2000-2001**

This year I issued 62 individual dog licenses and 2 kennel licenses.

The new storage closet in my office is excellent. I am slowly organizing old records and using protective folders on all small, fragile records.

The converted and renewed bathroom is lovely and convenient. Thank you Judy, Diana, John and Marge.

Thank you Stephanie for your summer planters, dried flower arrangements and the holiday wreath. Also, your work in capturing the town's history through stories and pictures is a forever project. We are all grateful.

The "Beautify Benton Committee" has put new life in our town. Revenues from two huge yard and bake sales, a raffle and contributions made possible the purchase of 8 new tables and folding chairs for the hall. The committee has cleaned up the kitchen and acquired a refrigerator and a better stove. They had a "Christmas Memory Tree" and a pot luck supper to honor the townspeople who have served in office for ten years or more. Thank you Veronica, Debra, Betty, Judy, Diana, Debbie and anyone on the committee I may have missed.

I love to see the town hall being used. It is so nice to see the 4H projects. Above all, I enjoy the energy and laughter that is the core of Benton.

This has been a good year, and I look forward to the next!

Lyn Bandy

**Animal Control Report**

At this time, we want to thank all of you for your support and assistance during the past year. It was a busy, but good year. We had no rabies cases, due, I believe, to everyone being sensible and careful. Dog bite incidents are also down. Please accept our thanks for your good care of your animals. We hope this trend continue. If you need us, call 989-5870. We do apologize for any delay in returning calls. We are part-time and handle many calls. Here is a quick summary of calls handled in the year 2000:

Loose and stray dogs.....	6
Missing Dogs.....	1
Dogs needing homes.....	1
Animal welfare investigations.....	2

Jeffrey Elliott

**Road Report**

The year started off with a lack of snow to cover ditches and culverts which caused some problems with ice most of the winter and with spring run-off. The rest of the year was fairly common with just the usual graveling, grading, repair of culverts and general maintenance.

Respectfully submitted

Daniel Elliott

## REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

There are 2,200 Forest Fire Wardens and Deputy Forest Fire Wardens throughout the state. Each town has a Forest Fire Warden and several Deputies who assist Forest Rangers with fire suppression, prevention and law enforcement. The number of fires reported during the year 2000 fire season was below average as referred in the statistics below. Despite this, our network of fire towers and detection patrols were still quite busy with the fire towers being first to report over 135 fires. These fires were quickly and accurately reported to local fire departments for prompt and effective suppression efforts. Wildland fires occurring in areas where homes are situated in the woodlands are a serious concern for both landowners and firefighters. Homeowners can help protect their homes by maintaining adequate green space around them and making sure that houses are properly identified with street numbers. Please contact the Forest Protection Bureau to request a brochure to assist you in assessing fire safety around your home and woodlands.

To aid your Forest Fire Warden, Fire Department and State Forest Ranger, contact your local Warden or Fire Dept. to find out if a permit is required before doing ALL outside burning. Fire permits are required for any open burning unless the ground is completely covered with snow where burning will be done. Violations of RSA 227-L:17, the fire permit law and the burning laws of the State of New Hampshire are misdemeanors punishable by fines of up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

There are eleven Forest Rangers who work for the New Hampshire Div. of Forest and Lands, Forest Protection Bureau. Rangers have investigated numerous complaints regarding violations of the timber harvest and forest fire laws and taken enforcement action to ensure compliance. If you have any questions regarding forest fire or timber harvest laws, please call our office at 271-2217 or for general information visit our website at [www.dred.state.nh.us](http://www.dred.state.nh.us).

The State of New Hampshire operates 15 fire towers, 2 mobile patrols, and 3 contract aircraft patrols. This early detection system and reports from citizens aid in the quick response from local fire departments. These factors are critical in controlling the size of wildland fires, keeping the loss of property and suppression costs as low as possible. Due to permitting and fire safety concerns, please contact your local fire department BEFORE using portable fire places and vessels, including those constructed of clay, concrete or wire mesh.

Please contact your local fire department before doing ANY outside burning.

Absent: Veronica Saffo

At this point, telephone poles are not available for terracing a seating area between the old and the new cemetery. Ken will continue the search.

Marty reported that the cost of a wooden fence for the front of the proposed new cemetery and parking area (post & rail) would be approximately \$400. There would be a post and chain division separating the parking area from the new cemetery. This estimated cost would be about \$150. The front fence would involve 15 posts and thirty 10 foot rails, while the back would be 15 posts and either plastic chain or rope to the length of about 170 feet.

Due to the wetness of the land, Danny proposed using a roll of road fabric in the parking area. Cost would be \$400 which would be included in the cost of road figures. The cost of a 55' X 140' parking area with a new culvert (30' to 40') and two spur roads in the new cemetery would be approximately \$3,000.

The prep of the 80 new cemetery plots is between \$4,000 and \$5,000.

We will contact the electric company about having a street light put on the pole near the cemetery to provide lighting to the parking area.

With the \$5,200 left over from the Y2K moneys available, we will be asking for \$2,800 from the town to augment the cost of the project, giving the committee \$8,000 to start and complete this undertaking. Much of the success of the task will depend on how much volunteer labor we can scrape up.

We will submit a warrant article for \$2,800 at the Town Meeting, along with a schematic of the proposed cemetery/parking area.

Our next meeting will be Tuesday, April 12 at 7:00 P.M.

## **BENTON COMMUNITY POTLUCK DINNER**

**October 14, 2000**

The committee to "Beautify Benton". recently formed by Veronica Saffo and Diane Roden, held it's first Annual Potluck Dinner in the Town Hall Building. The committee's first goal was to raise money to purchase enough new tables and chairs to accommodate any large community events. This was accomplished this spring, by having a yard and bake sale at the Town Hall with items and foods donated by residents. We received a lot of items and the sale lasted two days. A raffle was also held, with prizes donated by "The Car Laundry" in Woodsville, "The Coventry Garage" in Benton, "The Oliverian Campground" in Pike and Stephanie Saffo of Benton.

Enough money was raised from both the sale and the raffle to purchase 8, eight foot commercial grade folding tables and 60 folding chairs. A "Thankyou Potluck Dinner" was planned to thank everyone for their help with this and also to take time to thank some of the "Decaders" people who have served the town in its elected offices for 10 years or more.

The "Beautify Benton" committee is comprised of Veronica Saffo, Diane Roden, Debra McLean, Lyn Bandy, Stephanie Saffo, Debbie Boutin, Judy Richwagen and Lara Saffo. Also helping out that evening was Monica Douglas, Margie Christopher, Betty Nickles, Chelsea McKean, Samantha Waterhouse, Jessica and Olivia Elliott and Cheryl Cummings.

Soup, turkey, ham, pie and beverages were donated by individuals on the committee and rolls were purchased from the "P & H Truck Stop". John Elliott Jr. carved the turkeys and residents brought their favorite potluck dish. A count of 108 folks was taken at one point, but we know that more than that attended. We could not fit another dish on the buffet tables and had to set up the old tables outside to seat everyone. We wanted everyone to be together and especially wanted everyone to stay for our presentations. Daniel Elliott gave a beautiful blessing of the meal and the guest outside were called to the buffet first. After everyone had eaten, we removed the inside tables and brought in more chairs for the "Awards Ceremony".

Veronica announced the winners of the 50/50, the raffle and the door prizes, gave a brief history of the new committee and then asked for the memories/stories which had been requested in the invitations. Response was not forthcoming, so she put Scott Roden on the spot, asking him to tell the funny story of Benton's Trustess trip to the Lisbon Bank when their car was hit by manure from an overturned dump truck. Other stories were told by Jim Elliott, Sr., Betty Elliott Sawyer, Carol Miles, Steven Saffo, Stepahie Saffo and Veronica Saffo.

## **BENTON COMMUNITY POTLUCK DINNER**

(Cont'd)

Veronica then spoke about each honoree and of their service to the town. Each person was presented with a Certificate of Appreciation and a small gift. The men were given hats and the ladies received coffee mugs, both with the message, "I Did My Time In Benton". There was applause and laughter. Some of the honorees were not at the dinner and sadly some have passed on. A plaque listing contributing "Decaders" is planned to be displayed in the Town Hall with space for additional names to be added in the future. Honored were:

Seraphine Harris, William Harris, Marjorie Robitzer, John Elliott, Jr., Catherine Elliott, Scott Roden, Kate Goodwin, Maxine Tyler, Helena Harris Smith, Stefan Cimikowski, Kenneth Kealey, Priscilla Boutin, Joseph Boutin, Jr., Laurie Elliott, Daniel Elliott

The Committee to Beautify Benton has a goal to bring back the community events to the Town Hall with social events for both young and old and to improve the appearance of the inside as well as the outside of the building with, perhaps, a flower garden in front. We would also like to bring back the type of Memorial Day celebration that used to be held here and to try a dance and a "Box Social". The committee has also started a "Memories, Stories and Photos Book" to document times in Benton. The book will be kept in the Town Hall for all to enjoy.

**TO THE CITIZENS OF BENTON AND THE  
BENTON SCHOOL BOARD**

**SUPERINTENDENT'S REPORT**

It is with sincere pleasure that I submit my first annual school district report. I would like to discuss the following activities with you. I will discuss your school board's work over the last few months, the work of our professional and support staff, and some of the initiatives we wish to promote over the next few months. My six months in the district has provided me the occasion to listen and learn about the work our employees are doing. I have had many occasions to visit schools, classrooms, attend various school functions and to become a member of the community

Each month I have submitted an article to the local newspaper titled "THE SUPERINTENDENT'S CORNER". I use the article to inform the communities about the activities that are taking place in the schools and to update you on some of the upcoming events that are taking place in your school district. I hope that by submitting the article on a regular and consistent basis it will assist all of us with communicating the work we are doing. I hope you find the article informative and if you wish me to pay more attention to a particular subject or topic, I would be happy to attempt to accommodate your requests.

One of the first activities that needed to be addressed when I arrived was to have each school board develop board goals. We developed board goals during the month of September and adopted the goals in October of this school year. Board goals assist us in focusing on where we are going. It will sometimes drive the decisions we make. Board goals become the anchoring document when we are questioned as to why we have proposed a particular program and the related cost. Board goals also assist us with approaching issues in a systemic fashion, thereby not having us react to a problem, but work collaboratively in resolving the conflict or issue.

## **BENTON BOARD GOALS**

### **GOAL:**

The Benton School Board wishes to have a better understanding of the New Hampshire statewide assessment results for the Benton students.

### **OBJECTIVE:**

- The administrators who have the test results for grades 3,6,10 for the Benton students will send them to parents with the intention of inviting parents to a presentation to further explain the test results.  
(December 2000)

### **GOAL:**

The Benton School Board wishes to improve the collaboration between the schools, thereby assisting in the transition between the elementary, middle and high school.

### **OBJECTIVE:**

- The administrators for the Haverhill School District will continue to formalize their communication among each other by meeting at least once per month. The administrators will be intentional in discussing how they will assist the faculty, parents and students as they transition to each facility within the Haverhill Cooperative School District. (School Year 2000-2001)

Each school board will be examining and assessing their goals through the leadership of the superintendent, principal and the New Hampshire School Board Association this spring.

We have aggressively pursued analyzing the NHEIAP test results completed in May of 2000, which were received this past October. Each school principal and/or guidance counselor organized a presentation with the school board, faculty and parents of students in grades 3, 6, and 10. While the attendance was light by the parents and citizens, we presented the results with the critical eye toward any necessary revisions to the curriculum objectives. The plan here is to make sure that we are teaching the necessary learning objective and in the correct grade. If you have not had the opportunity to receive the information that was presented to your community, I would urge you

to speak with your school principal so he/she may gather the information for you.

It is my intention to have members of the SAU faculty work on continuing to review our test results. It is important not only to revise our curriculum based on the New Hampshire Assessment, but also to analyze the standardized tests we implement during the academic year. Unfortunately, we do not receive the results of the tests before school dismisses in the spring. Therefore, for effective change to occur it is imperative we analyze the results and begin to incorporate appropriate changes in a more timely fashion. This is why it is my intention to have some members of the faculty working in teams this summer on the districts curriculum. I submitted a summer curriculum plan to the SAU Board in January for their review, describing the types of activities the faculty will be participating in this summer.

I also want to recognize the work of the Curriculum Advisory Committee that has been in existence for almost ten years. This committee represented by faculty, administration and a board member present to the SAU Board their recommendations for adoption of an appropriate curriculum. This year the SAU Board will be asked to approve the World Language and Language Arts Curriculum. It is also anticipated that we will ask the board to approve the Social Studies Curriculum. While continuing the curriculum work this summer, we will have members of the faculty working on revising the Math and Science Curriculum. The guidance counselors in the district are also working on their curriculum and that document may not see the SAU Board until the fall of 2001. As you can see, we have a lot of work to cover over the next few months.

Our faculty continues to participate in professional development activities for improving classroom instruction. In collaboration with the Orange East Supervisory Union located in Bradford, Vermont, our faculty is learning how to improve their instructional practices through a class titled Understanding Teaching I. This class was developed through the research of Jon Saphier and Bob Gower who also established an organization dedicated to the professionalization of teaching, titled Research for Better Teaching. We will be hosting a class this June for the remaining faculty to participate. It is our intention that by June of 2001 all of the professional faculty will have participated in this class and any new faculty will be required to take the class this fall. I should inform you that the district administrators have also participated in the class. In 2002 there will be another session titled Understanding Teaching II, and we will once again collaborate with Orange East Supervisory Union.

We are in the process of rewriting the Professional Development Master Plan. The plan must reflect the changes promulgated by the State Board of Education for the recertification of the professional faculty. The Master Plan will incorporate building and district goals, which will be reflected in the professional development growth plan each teacher must write and have approved by their building principal. We will also have a professional development committee that will, among other assignments, begin to plan professional development activities for the faculty.

During the development of our SAU budget, I found it necessary to increase the time and effort of our Director of Special Education. Currently the position is halftime. It is my intention to have the position increase to full time, with a day being dedicated to the supervision of the pre-school program. Ms. Deb Smith, who is serving in the dual role of half time pre-school teacher and half time director, will fill the role of full time director starting in July of 2001. We will be searching for a candidate as accomplished as Ms. Smith to fill the position of pre-school teacher in the fall.

We are also commencing with the search for a third speech pathologist to serve the school districts. We currently have two speech aides assisting the two pathologists. If we are successful with locating a third pathologist, we will not utilize the model of having speech assistants providing direct service. We have contracted special services through NCEF for many years and we will continue to do so however, the school psychologist is a service we will attempt to hire as opposed to contracting. If we are successful, we will be able to better control the delivery of the services as opposed to contracting it from outside the area.

I must commend the faculty and other agencies for their aggressiveness in obtaining and being awarded a grant. We received approval of a Goals 2000 Grant that Mr. Brent Walker, WHS Assistant Principal, had crafted. The grant primarily addressed the professional needs of the district guidance counselors. NCEF received a Technology Grant, which will provide to Woodsville High School the ability to do video conferencing, among other activities. We have the technology committee working on the revision of our technology plan; the current plan expires in June of 2001. Glen Page (WHS) and other collaborators have applied for the Round 5 Technology Grant. WES Principal, David James, received a Literacy Grant from NCEF. The HCMS staff and administration was awarded a grant to support the Young Authors Literacy Program. These awards have assisted the school district and the students by improving some of the expressed needs in the district.

In closing, I wish to let you know that I have received a very warm welcome from the community and I am once again enjoying the community that I have been away from for some time. It is nice to come back to the North Country. You should know that we have dedicated faculty, support staff, administration and school board who are committed to providing an equitable education to your children and the community.

Respectfully submitted,

Paul C. Moccia C.A.S.

**School Administrative Unit #23  
Report of the Superintendent's and  
Business Administrator's Salaries**

One-half of the School Administrative Unit expenses is prorated among the school districts of the Unit on the basis of adjusted valuation. One-half is prorated on the basis of average daily membership in the schools for the previous school year ending June 30. The Superintendent of SAU #23, during the 2000-2001 school year, will receive a salary of \$67,788. (This amount is prorated and includes \$1,500 moving expenses) The Interim Superintendent, during July and August, received a payment of \$7,500. These positions are prorated among the school districts. There is no Assistant Superintendent or Business Administrator position at SAU 23 at this time.
