## CITY OF PORTSMOUTH

# City Manager's Message

Calvin A. Canny  
City Manager

Deborah L. Mullins  
Secretary

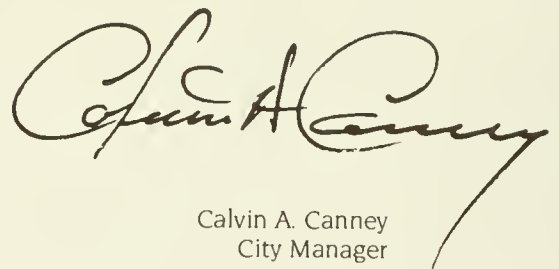

To the Honorable City Council and the Residents of Portsmouth:

It is my pleasure to present you with this record of growth in the City of Portsmouth. We have continued to develop as a small metropolitan area with services and opportunities which are unique to few communities our size.

Portsmouth has established a reputation as a desirable place to live, work and play and we will continue to refine these characteristics as time and money allow. I think the public policy as established by the City Councils of the last few years has resulted in a strong community with full citizen participation. It is something that we can all be proud of.

I wish to extend my thanks and appreciation to those many individuals who have worked officially and unofficially to make it a success.

Sincerely,

Calvin A. Canny  
City Manager

# Fire

## Paul G. Long, Chief

The vital statistics which we have compiled for the past year indicate the continuing trend of expanded service which is required from our department by the residents and businessmen of our community.

Federal and State enacted legislation during the past year has imposed additional mandatory Emergency Medical Service training for all ambulance personnel, reflecting a higher cost for this service.

The fire alarm system, under the direction of Superintendent Frank Ott, continues to expand with the installation of additional Master Fire Alarm boxes to protect commercial property supervised by the fire department. Public Service Company of New Hampshire and New England Telephone have been expanding their physical plant facilities, which require relocation of fire alarm wires attached to their poles throughout the city. The added expense of this program was not anticipated and continues to cause problems in scheduling, and projecting the cost of material and labor which is borne by the fire department.

The maintenance and repair of nine major pieces of fire equipment and several smaller vehicles continues to cost more money each year. Outside labor charges of \$22.00 an hour are standard practice for heavy equipment, and the incidence of repairs has increased due to the age of the apparatus.

Several reports are being filed by our Training and Fire Prevention Control Officers so that the public is more informed of the importance of these functions within our department. It will be the continuing policy of this department to offer

the highest level of service to our community that we can provide within the constraints dictated by the budget.

I would like to take this opportunity to recognize the dedication and the effort of the members of the Call Department during the past year. They are the silent majority that make the difference between success or failure during fire emergencies.

### Fire Alarms

Total number of alarms (all causes)	1,240
Total number of fire responses	784
Structural	356
Non-Structural	212
Transportation	202
Mutual Aid	14

Ambulance calls (Emergency)	1,093
Non Emergency Ambulance Calls (transfers)	495
Medical Aid Response Calls	169
False Alarms (Malicious)	179
Faulty Alarms (due to weather, malfunction or accidental)	108

The assessed value of buildings and contents endangered by fire amounted to \$863,333.00, and insurance on same was \$1,379,500.00. Damage by fire was \$199,252.00, and insurance paid was \$197,953.00.

### Personnel Data

# Training

## Leonard P. Goyette, Deputy Chief, Training Division

This fiscal year our training activities were directed toward maintaining proficiency in performance of E.M.S. and fire suppression duties.

Classes, Drills, and Courses conducted in-service were given by the following Fire Department personnel: Deputy Chief Leonard Goyette, Deputy Chief George Pierce, all Line/Shift Officers, Firefighter Theodore Boisvert, Firefighter Michael Varney, and Firefighter Steve Griswold. Instruc-

tors from outside the department were: Bruce Baxter, Paramedic, Newton Rescue; Dale Berkhart, City Electrical Inspector; Doug Lord, Safety Specialist - PSNH; Danna Mitchel, Police Officer - Dover, N.H.; Marge Casey, EMT Instructor, and Albert Pace, Police Officer, Portsmouth.

The following is a list of Courses, Classes, and Drills given in-service during fiscal year 1981/82.

Ground Ladders	Electrical Hazards
Master Streams	Emergency Vehicle
Rescue Boat Operations	Operations
Aerial & Pump Qualifications	Inductive
Hazardous Material	Thawing
Company Officer	Management of
Leadership	the Difficult Airway
Patient Evaluation &	Oxygen Therapy
Monitoring Vital Signs	Self Defense
Tank Shuttle & Pump	CPR Refresher
Relays	Pump & Hose Line
Portable Fire	Salvage Operations
Extinguishers	Rule of Thumb
Hose Practices	Hydraulics
N.H. Certified	Protective
Firefighter	Breathing Apparatus

This year Fire Suppression shifts conducted 60 Pre-Fire Surveys. They included all hospitals and nursing homes, city-owned buildings, schools, large apartment complexes, and some industrial/commercial properties. Survey information is formally reviewed by all shifts in the classroom. Four indexed files are maintained for quick reference. Surveys of Target Hazard Properties will continue to be a major activity because of its value in planning strategies and training needs.

Every two months Shift Operators conduct group Safety Meetings on a specified subject. This year subjects included Safety Precautions to take for Water Tower Operations; Individual Safety Awareness While Fighting Woods, Grass, and Brush Fires, and Back Injuries & Lifting Stress.

In order to maintain reasonable levels of proficiency in the Fire Service, a balanced program of subjects must be presented. The programs are also balanced to obtain two objective levels - knowledge and skill. I feel that has been accomplished this year.

The FY 1981/82 has been the fourth year of operation as the Bureau of Fire Prevention & Control of the Portsmouth Fire Department. As shown by this report, it has been a year of continued development and refinement of the Bureau's goals, responsibilities, and budget.

The Bureau conducted some 500 inspections in places of assembly, schools, health care facilities, industrial buildings, and dwellings. Fire Prevention lectures and demonstrations were given to over 500 people with over 1,000 pamphlets given out concerning babysitter information, portable extinguishers, home detectors, emergency phone numbers, wood stoves, fire inspection checklists, and home escape planning. An operating budget of \$440.00 was developed for the upcoming fiscal year.

A special public fire education program was aired daily over radio station WBBX during Fire Prevention Week.

The Bureau acquired a new movie titled "Fire Safety for the Elderly" for use during public education talks.

# Fire Alarm Report

## Frank Ott, Superintendent of Fire Alarm

Nine Master Boxes were added to the municipal system. Nine transfers of fire alarm wires were accomplished at the request of owners of master boxes. Four repairs were made to master boxes at the request of owners.

Transfer of fire alarm wires in accordance with Public Service Company of N H. and New England Telephone Company agreements were much more numerous and time-consuming in fiscal '81. The transfers requested by Public Service Company resulted from a decision by the Public Utilities Commission requiring Public Service Company to close the Daniel Street Power Plant. Virtually all of the primary distribution wires in the city had to be upgraded and this meant many fire alarm circuits had to be transferred and upgraded also. At the same time New England Telephone Company installed (1) underground conduits from Daniel Street to Islington Street and (2) new aerial cable on upper Islington Street and Market Street Extension.

Nine emergency repairs were made to the municipal system, seven caused by weather and two by accidents. The voice alert, alarm circuit and two box circuits were completed to the sub-station on Lafayette Road. 10,000 feet of C wire were installed during the year. The air compressor for the horn circuit at the Public Works building was rebuilt. Both the traffic signals and the street siren at the Lafayette Road fire station were repaired. Circuit 6 was extended to most of the downtown area which, in turn, upgraded Circuit 3. Two turtle gongs and two registers at Central Station were rebuilt.

The Superintendent attended a 40-hour Fire Alarm School presented by the International Municipal Signal Association and 3 1-day schools presented by the New England Region of the I.M.S.A.

# Apparatus Maintenance

## Captain Edward Tully, Maintenance Officer

The following is prepared by the Portsmouth Fire Department Maintenance Officer, Captain Tully, for the reporting period July 1, 1981 to June 30, 1982.

The inventory of equipment maintained during the period consists of five pumpers, two aerials, two ambulances, one fire alarm service truck (aerial) and three utility vehicles. Additionally included is miscellaneous equipment such as gasoline powered generators, rescue saws, out-board motor, and small tools. Two new vehicles were placed in service during the period, a 1982 Ford Utility Van and a 1981 Ford Wheelcoach Ambulance. The new ambulance has thus far presented few maintenance problems with a resulting saving in down time and repair costs. The 1976 Chevrolet Excellence ambulance is now operating in reserve status.

Batteries and tires were replaced as per schedule with the exception of the 1970 American LaFrance Aero Chief and the Chief of Department's vehicle. The wear on these tires was slower than had been projected and tire condition was considered good enough so as not to warrant replacement.

Noteworthy of mention are the following expenditures for outside repairs:

1980 Maxim pumper (radiator shutler installation)	536.83
accident damage (insurance)	5,654.36
1967 Maxim Pumper (Accident damage - insurance)	1,535.50
1965 Howe Pumper - brake job & engine repair	1,603.89
1974 Am. LaFrance pumper - rust repair tailgate	425.00
1974 Ford pickup - rust repair/paint work	350.00

An assortment of hardware consisting of bolts, washers, sheet metal screws, etc. was purchased at the end of the period with surplus money from the maintenance account. These materials are used by the Department Mechanic while making repairs and by personnel for such purposes as mounting new equipment and building repairs.

# Annual Safety Report

---

## Captain Donald Gindlesperger, Safety Officer

The goal of the Portsmouth Fire Department Safety Committee has been to reduce both personnel and property accidents in the Fire Department.

The following is a report of actions taken by the committee during fiscal 1981-82:

The Safety Officer attended twelve city safety meetings, and investigated fourteen personal injuries and seven property damage incidents within the department, which resulted in recommendations for improved safety standards.

The Safety Committee recommended the purchase of the Cairns Metro #600 fire helmet which has been approved by N.I.O.S.H. and O.S.H.A. The first five helmets have been received and will be established as a standard for the department.

The department is continuing a program of replacement of protective clothing (Bunker Coats) with Nomex fire resistant material in lieu of old style canvas coats which were purchased in the past. All firefighter personnel will receive these coats within the next three years.

Regular in-service training classes on safety are conducted on a monthly basis by the Training Officer.

New life safety ropes and harnesses have been purchased and classes have been conducted by Lieutenant Paul Martel of the Manchester Fire Department regarding the proper use of these devices.

Designated smoking areas have been posted in the Central and Substation in accordance with Chapter 464 of the State Statutes.

Electrically operated overhead doors have been installed in the rear apparatus bays of the Substation which has eliminated danger of backing into the station from heavily traveled Lafayette Road.

The Safety Committee will continue to monitor all accidents which occur in the department and forward our recommendations to the administration in the best interests of providing a reasonably safe environment in which to work.

# Self Contained Breathing Apparatus

---

## Captain Ralph DiBernardo

(SCBA) being of vital importance to the health and safety of the fire fighter by allowing entrance into hazardous atmosphere for rescue and fire suppression, the following equipment was carried by the PFD at the end of the fiscal year 1981-82.

- 26 self contained breathing apparatus (pressure-demand)
- 2 air line respirators (demand)
- 26 spare air cylinders
- 5 cylinder cascade system for air supply
- 1 cylinder for air line respirators
- 3 spare air masks

During fiscal year 1981-82 there was no purchase made of SCBA units, as a capital outlay expenditure of \$3,092.00 was made in order to convert all existing units from demand type to pressure-demand. This brought all equipment (except the two air line respirators) to the minimum safety standard set by NIOSH.

Three cylinders were added to the inventory to replace aged ones. Four mask holders were purchased for proper storage on the fire apparatus.

Anti-fogging nose cups for masks were purchased completing our updating of masks to present minimum safety standards for (SCBA).

Scheduled cylinder and regulator maintenance consisting of testing and repairs was carried out under our program with R.L. Services Inc. Preventive maintenance was carried out within the department. The cost of all maintenance was \$962.00. Scheduled maintenance included the hydro testing of cylinders required by federal law and the internal inspection of cylinders to determine their condition.

Cylinder valves must be overhauled on a periodic basis. Regulator breathing tests must be performed to determine their adequacy to supply air to the user and overhauled as required to insure their proper function.

It is my pleasure to report that since this program has been in effect there have been no incidents of smoke inhalation injuries in fiscal 1981-82.

# Ambulance Report

---

Donald Gindlesperger, Cpt., Emergency Med. Officer

During fiscal 1981-82 the City of Portsmouth purchased a new Type I Ambulance manufactured by Wheeled Coach Company. The vehicle was placed in service in March of 1982 and replaced the modular van which had been in service for the previous five years.

At the present time the Portsmouth Fire Department has twenty-six licensed ambulance attendants who are registered Emergency Medical Technicians. Personnel receive continuous train-

ing in all phases of fire suppression in addition to care and transportation of the sick and injured, cardiac arrests, pulmonary distress, airway obstruction, etc.

The department is required to respond to all emergency and transfer requests within our community and has recorded a total of 1,588 responses during this reporting period

## Legal

---

Robert P. Sullivan, Esquire

The Legal Department of the City of Portsmouth is comprised of one attorney and one secretary

Legal service is provided to the City Council, to all City Boards and Commissions, and to all City Departments.

At various times during FY 1981/82 there were 61 lawsuits pending; 27 brought by the City; 34 against the City. Of the 61 actions, 21 were settled.

David R. Connell, Esquire, City Attorney since April 1980, resigned in April of 1982 to enter private practice.

# Health Department

Odysias Athanasiou  
Health Officer

## Odysias Athanasiou, Health Officer

The Environmental Health Officer commenced an active inspection program of all restaurant and food service establishments dispensing food to the public with an objective of providing guidance and enforcing the New Hampshire Sanitary Food Code. In addition, he was involved with the investigation and follow-up of health related complaints, inspection of nursery schools, foster homes, day care homes, and group day care facilities, validation of immunization certificates for foreign travel and direct involvement in U.S. Food and Drug Administration recalls of canned salmon.

A summary of activities follows:

Complaints: Investigations and follow-up	71	Mobile Food Vendor Equipment Inspection - Issued Food Permits	5
Consultation on Sanitary Food Code requirements for new restaurants	25	Nursery School Inspections	3
Consultation on Sanitary Food Code requirements for mobile food vendors	15	Provided information on Immunization re- quirements for Foreign Travels	3
Consultation on Sanitary Food Code requirements for Market Square Day (temporary food vendors)	77	Restaurant/Food Service Inspections	63
Consultation on Sanitary Food Code requirements for restaurants pending change of ownerships	8	Restaurant/Food Service Follow-up Inspections	19
Consultation on Sanitary Food Code requirements for catering services	5	Validation of International Certificate of Vaccination for Foreign Travel	2
Day Care Home Inspections	5	Visits to Food Establishments as a result of U.S. Food and Drug Administra- tion Recalls of Canned Salmon. Identified 43 cans and Removed from Shelves for return to Distributor	44
Food Permits issued for Market Square Day	57	Visits to Restaurants to Investigate Food and Equipment Contamination from Fire (per call from Fire Department)	2
Foster Home Inspections	2	Visited and advised local travel agencies of new Recommendations for Poliomyelitis Immunization for Foreign Travel	6
Group Day Care Facility Inspections	2	Attended Twin Mountain Environmental Health Association Spring Educational Conference held in Lebanon, New Hampshire	
Group Day Care Facility Follow-up Inspections	2	Attended New Hampshire Health Officers Conference held in Concord, New Hampshire

The Portsmouth School District was comprised of nine schools in the City of Portsmouth, New Hampshire. As of September 11, 1981, school enrollment was as follows:

High School	1,737
Junior High	684

## Elementary

Brackett	571
Dondero	406
Jones	326
Little Harbour	450
New Franklin	224
Sherburne	119
Wentworth	258

Total 4,775

The High School is completely comprehensive and offers vocational education and four foreign language courses which are open to all students.

SAT (Scholastic Achievement Test) scores for the 1981-82 school year:

	Verbal	Math
Portsmouth	430	465
New England	428	464
United States	426	467
New Hampshire	443	482

A follow-up of the Class of 1982 by the Guidance Department of the High School revealed the following:

Students going into four year education	32.36%
Students to other schools	14.32%
Students to the armed services	5.30%
Students into work, travel, marriage	37.40%
No definite plans	10.61%

## Sherman Pridham, Director

During the 1981-1982 fiscal year the Portsmouth Public Library celebrated its 100th anniversary of becoming a tax supported library. In May of 1881 the Portsmouth City Council ordained "that to promote intelligence among all classes of the community a public library for the use of all our citizens subject to such rules and resolutions as may be deemed necessary and proper for its maintenance and government be and hereby is established." The library held a celebration during the week of December 13 - 18.

The displays and hands on exhibits were planned to show both the library over the past 100 years and where the library is going during the next century. In addition to displays of old artifacts, books and pictures; there were hands on exhibits of the equipment which will start the library into the next 100 years: microcomputers, audio-visual and video equipment.

There were two special events during the week. On Sunday there was an open house for local author, Esther Buffler, co-sponsored with a local bookstore and local publisher. Thursday was the focal day of the celebration. Online database searching, automated circulation, an online public access catalog, and forms driven program-

ming were demonstrated. From 4:00 - 7:00 p.m. an open house was held for the community. The Mayor presented a plaque to the Trustees and letters of congratulations were read from the Governor and our two U.S. Senators.

Portsmouth Public Library continued to sponsor special programs during the year. The Brown Bag Special, co-sponsored with Strawberry Banke, was very well received this year, with over 400 attending the six programs. Film programs were once again a big attraction. The library showed 5 films at the Prescott Park Arts Festival, and had two Bullfinch Film Society film series, September through November and January through March. Other programs included author open houses for such local authors as Lawrence Millman, author of "Hero Jesse", and Yvonne Smith for "John Haley Bellamy: carver of eagles", and for Jane Vallier, who wrote "Poet on Demand: the life, letters and works of Celia Thaxter." Old Salts Day brought Stan Hugill, a premier shanty singer to Portsmouth for workshops and concerts.

During the past year the library advanced into the computer age, first with the loan of a microcomputer by a local computer store, then in April with the purchase by the Trustees of two microcom-

puters. One of the micros is used by the public and the other is used for library operations. In addition, Portsmouth Public Library provides database searching through the State Library. This service is increasingly being used.

The Information and Reference staff answered over 19,000 questions this year. They work closely with other area libraries to get the patron the information they want. The staff also gives tours of the library. Three bibliographies were produced: an update of the business bibliography, a cancer and a computer bibliography.

The video equipment received increasing use during 1981-82. A lecture series at Strawberry Banke was taped for later viewing at the library, as was the Portsmouth City Council and School Board debates, and a play by a local author performed at Prescott Park. Old films owned by Portsmouth Public Library were transferred to videotape. In conjunction with Portsmouth Advocates a videotape was produced and neighborhood meetings were taped. Many local groups used the video equipment as did the Children's Room of the library.

The Friends of Portsmouth Public Library were very active this year. They again sponsored the Valentine's Day dance. During National Library Week they sponsored a program and reception, with David Watters speaking about "The art and religion of Portsmouth gravestones". The Friends

also sponsored, in conjunction with the library, Kids Korner at Market Square Day. Although it rained all day, the activities were moved inside the library and the children were entertained with games, food, and entertainment. The entertainment was organized by the Children's Department of the library. The library received the Organization of the Year Award during opening ceremonies at Market Square Day.

The Children's Room continued successful programs of preschool storyhours (including multiarts), storyhours for 2-2½ year olds, films, and special events.

The summer reading theme was "Bookmagic", centered around fantasy, with about 200 children participating in the organized program. There were also multiarts and videotaping activities, based on children's literature.

The library received an award in October, 1981 from the Community Day Care Center, in recognition of services provided. The Children's Room did a regular storyhour for young handicapped children in the PEEPS program at the Jr. High School, as well as a special program for teenage mothers for Portsmouth Community Health Service. A very complete and helpful bibliography on books about divorce for children and parents was printed and distributed widely to many appropriate agencies.

Older children wrote and printed their own KIDS ROOM, GAZETTE, at the library, with information about books, the Children's Room activities, and other news for children. Children met weekly to put out this monthly newsletter.

To encourage reading, the Children's Room compiled and printed extensive booklists for each grade, plus a high interest, low vocabulary booklist for older children. This was distributed throughout the school system by the Reading Department.

## Library Statistics

### Library Resources

Adult books	64,408
Children's books	14,478

# Planning Department

---

Norman B. Axler, Director

The Planning Department provides staff assistance to the Planning Board, the Board of Adjustment, the Historic District Commission and the Citizen's Council on Community Development. The Department makes recommendations to the City Council and City Manager on issues relevant to the development of the community. The Plann-

ing Director serves as Chairman of the Site Review Committee, which reviews the site plans for industrial, commercial, major residential, and parking lot developments to insure that public interests are protected. The Planning Department also files applications for state, federal and private grants.

Associate Planner

Nancy F. Hobbs  
Administrative Assistant

## Planning Board 1981-1982

---

E. Warren Clark, Chairman

During 1981-1982, the Planning Board held thirteen regular and special meetings. The Board acted on eleven requests for subdivision approval, fourteen requests for lot line changes, one request for rezoning, conducted several public hearings on the proposed zoning ordinance as well as other varied requests. The Planning Board presented to the City Council for their approval a new zoning ordinance and zoning map, approved revisions to the Subdivision Regulations, adopted a Capital Budget and Improvement Program for 1983-1988, and worked with the Planning Department on several Coastal Zone Management program grants.

The purpose of the zoning ordinance and zoning map is to promote the health, safety, morals, and general welfare of the City's residents. The work on the new zoning ordinance is based on the adoption of a new Master Plan in 1980. The Zoning Ordinance and the Subdivision Regulations are the major controls to ensure the orderly growth and development of the City. The Zoning Ordinance regulates and coordinates the use of land throughout the City by establishing standards for such things as lot area, open space, land

uses and setbacks. The Subdivision Ordinance regulates the division of land areas to ensure the proper distribution of population which is compatible with adjacent land uses, to ensure the proper location and width of streets, and to ensure the use of established engineering standards.

Following three public hearings and several informational meetings and work sessions by the Planning Board, the Zoning Ordinance and Zoning Map were adopted by the City Council on May 20, 1982. The Subdivision Rules and Regulations were revised and were adopted by the Planning Board on January 21, 1982.

Under the New Hampshire Coastal Program, the City has been awarded project grants under two project categories - the Coastal Energy Impact Program and Coastal Program Local Assistance Grants. Funded projects under these categories include an alternative use study for the Daniel Street Power Generating Station, the development of a docking facility plan for Prescott Park, an evaluation of the South Meeting House, an evaluation of the Pierce Island Pool and boat ramp, and a survey of the condition of railroad tracks and beds.

## Board of Adjustment

---

Richard Gamester, Chairman

The Board of Adjustment provides a "relief valve" for situations where a literal enforcement of the Zoning Ordinance will result in unnecessary hardship to a property owner. The Board of Adjustment hears petitions for variances and also hears requests for Special Exceptions, as allowed in the Zoning Ordinance, and Administrative Appeals. The Board also hears any appeal from a decision made by the Historic District Commission.

In 1981-1982, the Board held seventy-seven public hearings. There were ninety-four appeals for variances, of these sixty-eight were granted (many with conditions attached), twenty were denied and six were tabled or withdrawn for an approval rate of 72.3%. There were thirty requests for Special Exceptions, of these twenty-one were granted, six were denied and three were tabled or withdrawn, for an approval rate of 70%. There were also five requests for a rehearing of a petition, of these one was granted.

# Community Development

---

Samuel A. Cioffi  
Director

Veronica Tinker  
Secretary

Stephen Matatics  
Housing Rehabilitation Specialist

## Samuel Cioffi, Director

During the fiscal years 81-82, the City of Portsmouth Community Development Department participated in the following programs and projects.

### A Safe Place

Provided partial funding for the center's program of aid and support to children of battered spouses.

### Community Day Care Center

Provided partial funding of the center's child care program to low/moderate income families.

### Economic Development Loan Program

Provided funds to initiate a new industrial/commercial loan program. The loan program is designed to provide favorable financing to local businesses wishing to expand or relocate in the City.

### Prescott Park Lavatories

Provided funds to facilitate the preparation of design drawings and contract specifications for the future construction of lavatory facilities.

### Community Center Gym Floor

Provided funding for the replacement of the gym floor.

### Tree Planting

Provided funds for the planting of trees and other plants in Community Development eligible areas within the City.

### State Street Water Line Design

Provided funds for the preparation of design and contract documents related to the replacement of the State Street water line.

### Christian Shores Street Improvement Study

The use of in-house staff to study the Christian Shores area streets and sidewalks to determine the nature and extent of need for improvements.

### Sidewalk Improvements Study

The use of in-house staff to conduct a feasibility study of proposed sidewalk improvements, particularly in Panaway Manor and Maplewood Avenue.

### USO Building

Provided funds for the design and construction of the necessary renovations to the (former) USO Building on Market Street which houses public and quasi-public agencies which service the City's low/moderate income population.

# Public Works

---

Daniel W. Ayer, P.E.  
Public Works Director

Russell Pratt  
General Foreman

Keith Noyes  
Engineering Technician

Dorothea Burr  
Secretary

## Daniel W. Ayer, P.E., Director

The Public Works Department under the direction of Daniel W. Ayer, P.E., is directly responsible for the administration and direction of the highway, water/sewer, and engineering divisions. The mentioned divisions with the support of supervision and staff personnel are responsible for the budgeting, allocating, and performance of services in the following divisions.

Highway  
Water/Sewer  
Engineering

# Highway Division

Russell Pratt, General Foreman

General Foreman, Russell Pratt coordinates and is responsible for operations of the following subdivisions:

- I. Rubbish Collection and Disposal  
Parks & Cemeteries  
Street Cleaning  
Tree Program

- II. Street Maintenance  
Building Maintenance  
Sidewalk Maintenance  
Bridge Maintenance  
Mosquito Control

- III. Equipment Maintenance

The rubbish collection and disposal subdivision collects and disposes of 90% of the city residential refuse. The remaining percentage is handled by private contractors. Also this subdivision is responsible for general maintenance of 7 parks, 5 cemeteries and the street cleaning operation of city owned streets.

The street maintenance subdivision maintains approximately 113 miles of city owned roads together with 100 plus miles of sidewalks. Repairs and maintains 9 city owned bridges which include design, design review and actual construction. Also this subdivision is responsible for all city yard maintenance and major repairs to city owned buildings with the exception of school property. This subdivision also handles the city wide mosquito abatement program.

The equipment maintenance subdivision maintains and occasionally rebuilds 130 pieces of city owned equipment.

## Street and Sidewalk Maintenance

Resurfaced  
Lincoln Avenue  
Plains Avenue  
Islington Street

Curbing  
Installed 104 feet of granite curbing  
Reset 1723 feet of curbing

## Street and Sidewalk Maintenance (City Forces)

Used the following materials for street (and sidewalk maintenance):

Bituminous products	1011 tons
Gravel	313 tons
Sand	1471 cubic yards
Cold Patch	90 tons
Stone	9 tons
Loam	16 cubic yards
Concrete	19 cubic yards
Salt	2707 tons
Mortar Sand	7 yards
Emulsion	313 gallons

## Signs and Safety (Contractual)

# Water Division

Rance Collins, Superintendent

The Water Division, of the Public Works Department is under the supervision of Rance Collins. The Water Division utilizes 128 miles of water mains, containing 1660 valves and 660 hydrants, supplies potable water to, in excess of 6100 residents, commercial and industrial service connections within the communities of Portsmouth, Madbury, Durham, Rye, Greenland, New Castle, and Newington. Potable water is sold at the wholesale rate to both the Towns of New Castle

and Rye, who retail the water through their own distribution systems.

The Water Division is a self-funding enterprise operating solely on the revenues received from the sale of water.

A recently completed system study points out the need for additional storage, and mains which should be replaced with larger pipe. It is optimis-

tically anticipated that the rate of inflation will, in the foreseeable future, return to the point where funds can be set aside for needed improvements. Recent rate increases have only allowed the Water Division to keep pace with inflation while attempting to minimize the impact on the water users.

The Water Division consists of three operational subdivisions:

#### Production

The water production group operating from the Madbury Treatment Plant is responsible for collecting, treating, and pumping of potable water. A modern laboratory staffed by a Water Chemist and Lab Technician who perform sampling, testing, and the necessary reporting to State and Federal authorities.

#### Distribution

The distribution system group, operating from Sherburne Station is charged with the responsibility of maintaining the water mains, valves, and hydrants located in the distribution system. At Sherburne Station there exists a well equipped meter maintenance facility where water meters are periodically brought from residences and businesses to be tested, rebuilt, and placed back in service.

#### Management

The management and accounting group, located at City Hall and the Public Works building, provide superintendence, accounting, billing, and meter reading.

Major objectives of the Water Division are to supply a sufficient volume of quality water to all users, and to satisfy both demands for domestic consumption and fire protection.

### Statistical Information

	1979-80	1980-81	1981-82
Average daily demand for the year	3,725,156 gal	3,639,908 gal	3,470,632 gal
Peak day for the year	5,397,400 gal	4,895,200 gal	4,700,000 gal
Total gallons pumped during the year	1,359,681,800 gal	1,328,566,700 gal	1,366,780,900 gal

#### Summary of Construction & Maintenance

	1979-80	1980-81	1981-82
New Services	87	34	14
Service Renewals	60	29	56
New Hydrants	5	9	2
Hydrants Replaced	23	30	31
Hydrants Relocated	1	3	2
New Mains	3550 ft	4476 ft	117 ft
Replaced Meters	38	20	71
New Meter Installations	169	33	14

## Sewer Division

### Rance Collins, Superintendent

The Sewer Division, of the Public Works Department, under the supervision of Rance Collins, is responsible for approximately 100 miles of mains, 1628 manholes, and eight lift stations collect and transport the effluent from residential, commercial, and industrial structures to the Pierce Island Treatment Plant.

The Sewer Division is a self-funding enterprise operating solely on the revenues collected, based upon the volume of water consumed at each structure located along the sewer collection system.

The Sewer Division consists of two subdivisions:

## Collection

The sewer collection maintenance group, operating from the Public Works building, is responsible for cleaning and repairing the collection system

## Treatment

The waste water treatment group, operating from the Pierce Island Treatment Plant, is responsible for the maintenance of the eight lift stations and two treatment plants

# Engineering Division

## Steven Parkinson, P.E. City Engineer

City Engineer, Steven Parkinson, P.E., is responsible for preparation, review and maintenance of all plans and specifications within the divisions jurisdiction. He also is in charge of the engineering, construction and building inspection subdivisions. Acts as advisor to various city departments concerning engineering problems. Performs and or administers as directed, major repairs to city owned buildings and gives recommendations for site review projects

Design, Administration and Inspection of the Junkins Avenue South Mill Pond Causeway

Design and Administration of the South Mill Pond Dredging Project

Inspection of the Bartlett Street Neighborhood Project Improvements

Review and Inspection of New England Telephone Construction Projects

Review and Inspection of the Refuse to Energy Facility

Review, Administration and Inspection of the Aldrich Road Storm Drain

Review, Administration and Inspection of the Lafayette Road Pumping Station Renovations

Sewer Survey of the city's sewage systems.

Administration and Review of ongoing sewer separation program.

Design, Administration and Inspection of the Rehabilitation Project for Pierce Island Bridges.

Review and Inspection of temporary improvements to Woodbury Avenue.

Review of Maplewood Avenue and Edmond Avenue Intersection Project

Superintendence, accounting, billing, and laboratory functions are shared with the Water Division for purposes of economy while avoiding unnecessary duplication.

Design of Rehabilitation of Boston & Maine RR Yard Sewer Line.

Review of Market Street Extension Project

Review of Marcy Street Bridge Replacement Project

Review and Administration of the Design for Improvements to the Sewer System downstream of the Lafayette Road Pump Station.

Annual Municipal Building Inspection Program

Biennial Bridge Inspection Program

Preliminary Study for Improvements to Court Street

Review of Sherburne Station Warehouse Project.

Administration of Licensed Drainlayers Program.

Miscellaneous	785,550	9
	<hr/>	
	\$4,780,607	369

# Conservation Commission

Cloitilde M. Straus, Chairman

During the fiscal year 1981-1982 the Commission held five meetings and issues considered were related to maintaining a high quality of life and preserving the natural elements of the City's environment.

The City beautification projects consisted of the following:

**Shade tree planting:** In the Fall of 1981 forty-nine trees were planted, forty five on sidewalks and four on the front portion of privately owned lawns. Species selected were. Norway Maple (20), Schwedler Maple (10), Crimson King Maple (2), Pin Oak (10), Crabapple (2), Bradford Pear (4), Honeylocust (1). Cost of planting was \$6,052 of which \$5,000 was covered by the City's shade tree budget and \$1,052 was expended from the Conservation Commission's budget.

**Flower Planting:** Annual flowering plants were purchased by the Commission at a cost of \$180 and placed in the traditional flower beds and planters (Market Square flagpole, Congress Street, Memorial Bridge circle, Vaughn Mall parking area, Middle Road intersection, Marcy Street flagpole, City Hall window boxes) and one new flower bed in the new City park at the corner of Bow and Daniel streets.

Planting, maintenance (watering, weeding and fertilizing) were accomplished by personnel from the Department of Public Works with the Commission's designs and supervision

## Open Space and Wetland Protection:

The Commission presented recommendations to the City Council regarding the preservation of the North Mill Pond as a natural, unimpounded tidal area

The Commission actively sought the preservation of wetlands included in a subdivision project on Banfield Road and obtained from the owner, Mr Theodore Burt, the dedication of 7.25 acres to the City for Conservation

Present members of the Commission are:

Pamela Hall  
 Etoile Holzapfel  
 Peter Kinner  
 Coltilde M. Straus, Chairman  
 Charles Vaughn, ex-officio member from the Planning Board

# Animal Control

## Robert Reynolds, Animal Control Officer

Robert Reynolds  
 Animal Control Officer

Report for period from July 1, 1981 thru June 1982.

Calls rec'd	3286
Dog bites reported to Animal Control	43
Animal bites (other than dogs) reported to Animal Control	14
Dogs picked up and impounded	297
Dogs in protective custody (returned home)	109
Total number dogs handled	406
Lost dogs reported to Animal Control	91
Lost dogs found by Animal Control	80
Animals (other than dogs) handled	132
Dead animals removed from public property and disposal made	176

### Other activities July 1981 thru June 1982

Enrolled and certified in CPR course conducted by the Portsmouth Police Dept.  
 Attended (6) meetings of the New England Federation of Humane Societies.  
 Guest on Channel 11 (UNH TV) in reference to cruelty to animals.  
 Attended National Animal Control Officer meeting in Boston, Mass.  
 Attended American Humane Association meeting in Boston, Mass.  
 Guest speaker at Portsmouth Kiwanis Club.  
 Guest speaker at Laconia N.H. Rotary Club in Laconia, N.H.  
 Attended public hearings (7) in Concord, N.H. in reference to State laws and animals.  
 Conducted 18 tours of the Animal Medical Center in Portsmouth for brownies, cub scouts, school groups and others.  
 Set up, and held rabies clinics in Rye, Newington, Greenland and Portsmouth.

# Tax Collection

## Margaret S. Sullivan, Tax Collector

### Taxes Collected

Amount of 1981 Real Estate Warrant	\$12,656,997.75
Added taxes to Real Estate Warrant	887.49
Amount of Real Estate Collected by 6-30-82	11,802,194.17
1980 Real Estate Collected in 1981	683,296.90
Amount of 1981 Resident Tax Warrant	133,400.00
Added Resident Tax Warrant 1981	15,520.00
Resident Taxes Collected for 1981	115,650.00
Resident Taxes Collected for 1980	2,130.00
Resident Taxes Collected for 1982	2,440.00
Tax Sales Redeemed	267,376.03
Interest on 1981 Property Taxes	24,322.90
Interest on all other taxes	39,507.32

Titles on Cars	4,660.00
Total Cash Collected from 7-1-81 to 6-30-82	\$13,692,120.63

### Auto Registrations

Year End	Number	Income
6-30-82	18,276	\$745,820.00

### Parking Meter Fines

Income \$53,883.00

The income from the parking meter fines is not reflected in the total cash collected. The Parking Meter Fines are collected in the Tax Office, but the income is reported directly to the Treasurer and not entered into the Tax Office Ledger.

# Economic Commission

## Christopher Sheridan, Economic Development Director

Christopher F. Sheridan  
Director, Economic Development

Carol Murphy  
Secretary, Switchboard Operator

The fiscal year 1981-1982 saw many changes in Portsmouth's Economic profile, as well as the initiation of several major on-going projects. The principal changes that took place over the past year are summarized below:

Preliminary subdivision and site plans for Technology Park were completed by the Druker Company and presented to the City for consideration. Technology Park, a 50-acre parcel to be located between I-95 and the Route 1 By-pass, would, upon completion, contain up to 300,000+ square feet of office/research facilities. The Druker Company will be marketing the site through the firm of Leggat, McCall & Werner, Inc., also of Boston.

A 25,000 square foot "spec" building was completed in Portsmouth Industrial Park (S) on post Road. The first tenant for the new building was Watts Fluid Power who established a small foundry operation in the structure.

The Economic Commission endorsed the concept of establishing a Foreign Trade Zone (FTZ) at the N.H. Port Authority Pier facilities, and assisted in the preparation of an application to the Department of Commerce and the Foreign Trade Zone Board for this purpose. The Commission testified in favor of the FTZ at the Trade Zone Board hearing of the application.

The Stokel property (185 acres) formerly owned by the City, was acquired by Madbury Materials, Inc. This acquisition gives the developer control of 300+ acres at this location. The developer initiated preparation of a Master Plan for the area which suggested industrial and warehouse utilization of the land.

At the recommendation of the Economic Commission, the City entered into a contract with the National Development Council (NDC) to assist the City in establishing a SBA 503 program. The SBA 503 program operates through a local non-profit corporation and assists businesses to obtain long-term, fixed rate financing for fixed asset acquisitions. The commission will be preparing an application for submission to the Small Business Administration (SBA) during the next fiscal year.

The Economic Commission commenced discussions with a potential developer for Disposition Parcels 1 and 2 in the Downtown Urban Renewal Area. The Commission will be working with the developer, Shelter Group, Inc. of Lewiston, Maine, in formulating an option for the parcels. The option will specify performance standards for development of the land, and these standards will include as a requirement the construction of a quality hotel.

The Economic Commission developed an operations manual for a local industrial loan program to be funded by Community Development funds. This program, entitled the Portsmouth Economic Development Loan Program (PEDLP), would make available low-interest long-rate financing for capital projects for firms either expanding in or relocating to Portsmouth. The PEDLP program, at the Commission's recommendation, received an initial capitalization of \$200,000 from the City Council. The Commission will be involved in marketing and implementing this program during the next fiscal year.

Commission members over this period included: Russell VanBilliard, Chairman  
Vice Chairman Robert A. Allard

Peter Lukas  
Marshall A. Tebbetts  
Edward T. Burnham  
Simeon P. Jarvis  
Richard Salvas  
John I. Mikolajczyk  
Dallas Herold  
Charles Eldredge  
Peter G. Weeks, Mayor  
Calvin A. Canney, City Manager  
Christopher F. Sheridan, Economic Director

The Economic Commission will continue to strive in the next fiscal year for the attainment of their primary goal of economic betterment for the city.

# Purchasing

## Robert Sombric, Purchasing Agent

Robert Sombric  
Purchasing Agent  
Claire D. Brulotte  
Account Clerk

The Purchasing Department issued 55 formal bid invitations for items or services valued at \$1,000 or more during fiscal year 1981/1982. Items valued over \$200 were purchased through written or telephone quotations (a minimum of three quotes per item is a standard procedure).

Competitive purchasing practices described in the aforesaid paragraph have proven to be most effective methods of procuring quality materials, supplies and services at the lowest reasonable cost to the city.

### 1980/1981 Energy Product Data

Description	Average		Total
	Quantity	Cost/Gal.	
#2 Fuel Blended Diesel	103,818.5	\$1.0081	\$104,666.25
