LIBRARY REPORT

The library has seen a few new changes in the past year. The library has been completely filled to capacity with new bookcases and a majority of the books are on the shelves. Over one third of the cataloguing has been completed by our Librarian, Donna Allen and we foresee completing it up this coming year.

Our goals for 1993 are increasing the library hours, the purchasing of some new books and a childrens table. We are also considering a story hour this summer to interest the children in our new facility. We are in hopes to create a leisure library that helps fill the needs of our town, young and old. We invite all of you to come in and see the library and of course take out a book!

TRANSMITTAL AND COMMENTARY LETTER

Board of Selectmen
Town of Stewartstown
West Stewartstown, New Hampshire 03597

In planning and performing our audit of the financial statements of the Town of Stewartstown, New Hampshire for the year ended December 31, 1991 we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance of the internal control structure.

However, during our audit we became aware of the following conditions that should be corrected in order to strengthen internal controls and operating efficiency. This letter does not affect our report dated September 15, 1992 on the financial statements of the Town of Stewartstown, New Hampshire.

Our following remarks are being made in the hope that they will improve existing procedures and are in no way a criticism of Town personnel.

1. Formalized Policy Regarding Additional Compensation for Selectmen and Other Town Employees

During our audit, we noted the following inconsistencies in the manner in which Town Employees were compensated for additional services rendered:

1. Some Selectmen are billing the Town for additional time worked beyond their usual weekly meeting.
2. Some other Town positions are paid an annual salary and hourly compensation above and beyond that salary, when their duties necessitate working more than their posted hours.

Recommendation

The Town should consider adopting a formal policy specifying the rate of compensation and job description for all positions.

2. Tax Lien Procedures

Subsequent to full payment of the tax lien, the Tax Collector has thirty days to release the lien. We noted some liens that were not released within thirty days.

Recommendation

The Tax Collector should follow this tax lien procedure and become familiar with the RSA's pertaining to Tax Collector procedures.

3. Control Over Property Valuation Records

During the course of our audit, the following errors were noted in relation to property valuation records.

1. Some valuation changes were made on the valuation card but not on the blotter book.
2. Some changes were made without any substantiation of authorization.
3. Some valuation cards could not be located.

Recommendation

The Town should enhance the control over property valuation records to prevent unauthorized and irregular changes.

4. Payroll Procedure

Presently the Town does not file any payroll tax returns, W-2 Forms or 1099 Forms with the Internal Revenue Service.

Recommendation

The Town should follow government regulations regarding payroll transactions and file payroll tax returns and W-2 Forms for Town employees and 1099 Forms for independent contractors. Failure to comply, could subject the Town to substantial I.R.S. penalties.

5. Reconciliation of Collector, Treasurer and Selectmen Records on a Regular Basis

There were some discrepancies between the Treasurer and the Tax Collector reports.

Recommendation

The Tax Collector's records should be compared and reconciled to the Treasurer's and Selectmen's books on a regular basis so that discrepancies, if any, can be resolved in a timely fashion.

6. The Property Tax Commitment

There were large differences between the State approved tax levy and actual property taxes committed. The Selectmen did not issue warrants for additional taxes or abatements.

Recommendation

The following procedures should be implemented to improve the internal control over the property tax commitment.

1. Blotter book should be updated and compared to the assessment cards on a timely basis.
2. Accurate warrant should be prepared and given to the Tax Collector for the tax committed, additional taxes and abatements.

7. Property not Tax-Deeded to the Town

The unredeemed properties have not been tax-deeded to the Town after the two year redemption period.

Recommendation

According to the State law, if property is not redeemed within the two year redemption period, the property should be tax-deeded to the Town. The Selectmen should consider following the State procedure.

8. Formal Policy on Competitive Bidding

The Town presently seeks competitive bids on certain contracts but has no formal written bid policy.

Recommendation

The Selectmen should consider adopting a formal written bid policy that stipulates cut-off amounts for oral bid requests, written bid requests, and advertised bids.

We extend our thanks to the officials and employees of the Town for their assistance during the course of our audit.

Very truly yours,

Kyeong W. Kim, C.P.A.

SUPERINTENDENT'S REPORT - STEWARTSTOWN

The 1991-92 school year contained some significant changes in personnel, programs, and building improvements.

As Perley Davis entered retirement, Lewis Mello became the Business Administrator for S A U #7. Liz von Dohrmann joined the staff at Coos County Hospital, and Connie Pierce became the school nurse. Through a grant, Donna Desjardins became the Student Assistance Program Coordinator. Her task was to coordinate activities of all local agencies in the battle against drug/alcohol abuse and find ways to help at-risk youth and families.

In building improvements, a new heating system was installed at West Side - also new light fixtures and exterior doors. At the Hollow School, Ethan Allen generously donated lumber for new bookcases. A new front entrance door was installed and a new stove purchased for the kitchen.

Stewartstown schools became the first and only in S A U #7 to offer a breakfast program, with excellent results and participation. In another program improvement, Chapter I services were expanded, due to increased Federal funding, to include a teacher at both schools as well as to continue instruction to Stewartstown students at St. Albert School.

Through the thoughtfulness and generosity of school officials in neighboring schools, Stewartstown students were able to participate in some Canaan athletic programs and travel to Pittsburg to witness assembly programs which were both entertaining and educational.

After several years of devoted and dedicated service, Lanny Placey chose not to run for school board again - Shirley McAllaster was elected to that position.

As the year came to a close, Norma Chenevert, West Side Head Teacher, after several successful years in that role, was considering a move to Pittsburg, as principal.

Respectfully submitted,

Paul F. Allen
Superintendent of Schools

COORDINATOR OF SPECIAL SERVICES

The Special Education Services Annual Report for 1991-92 is accompanied with charts on the students served in the different programs, the number of students in each eligibility category, the elementary and high school child counts and the number of preschoolers. An analysis of the data shows that there has been a 1% increase in the school-age special needs population and the preschoolers served more than doubled compared to last year.

The 1991-92 school year was a year of challenges. The schools had to prepare for the triennial State Department of Education Program Approval Process. After completing a 100 page application and revising a 50 page Local Education Plan, the State Monitoring Team completed their "On-Site" review of the special education records in April. The results were very positive, but there is a need for some changes.

The challenge of finding two new Special Educators, a Speech Pathologist and Occupational Therapist to complete the slate of service providers was also met. In addition, the services of a Recreational Therapist were enlisted under the auspices of the Special Education Grant.

The North Country Multi-Disciplinary Team (NCMDT) has been rejuvenated after a brief respite. The NCMDT consists of representatives from the local social and educational service groups to include DCYS, local police, school nurses, counselors, and administrators. The NCMDT meetings provide a forum for all service providers to discuss common concerns and take proactive steps towards developing a healthier community.

There are many future challenges to be met in the form of program changes and in-service training. The needs of the underserved 16-21 age group as well as the preschoolers are the greatest challenges facing the schools. There continues to be a focus on mainstreaming mildly learning disabled students and creating an inclusionary model of services for the more disabled special needs students.

Respectfully submitted,

Gerald L. Prutsman
Coordinator of Special Services

SCHOOL HEALTH REPORT

The past school year was a very busy and challenging year for me. Along with the busy schedule of routine customary procedures of: Heights & Weights, Vision & Hearing screening, Blood Pressures, Scoliosis screenings (curvature of the spine), which is required by the State in grades 5 through 8, I attended several workshops to update myself with State and school regulations and programs. I'd like to also say there are some assistance programs available for families who may need them should their children fail some of the screenings.

As spring came along, the usual immunizations were given to those students who needed them. Prior notification was sent home with the child for parental permission.

In March, Dr. Soucy was our guest speaker for an assembly for grades 7-12 on "AIDS". Stewartstown students were invited to join us. As a followup program, the S A U #7 Multi-Disciplinary Team presented "LIFESPAN", a non-profit AIDS group who visited the local schools. They also presented a program for adults of the area in Colebrook one evening which was well attended. We look forward to further AIDS programs for students to help with the awareness and realism of this disastrous disease.

The "DIAL" screening for preschoolers in the 3-6 age group was done on several area children in April. In May, the Annual State Preschool Vision & Hearing Clinic for children ages 4-6 was done with excellent attendance.

As usual, I would like to remind parents that all students entering school for the first time, and or transferrals, must have a copy of their immunization record and proof of a physical within a year upon entry.

Once again I look forward to another healthy and productive school year. I'd like to thank all for their cooperation. Anyone who has questions about our health program, please feel free to contact me at the school.

Respectfully submitted,

Connie Pierce, RN
Pittsburg/Stewartstown School Nurse

CHAPTER I

The Chapter I program enjoyed a productive school year during 1991-1992, with a continuation of the existing five days per week program which was initiated in the previous year.

With the addition of Tracey Cruickshank to the staff, more students were included in the program, and a higher success rate was achieved by Chapter I students.

Student participation was determined by both test scores and classroom observation. Chapter I students are closely monitored to evaluate their progress in reading and ensure future success in the classroom. Classes are designed to give each student every opportunity to achieve positive attitudes, which foster enjoyment of reading and lead to academic success. Specific language arts skills include phonics, comprehension, and vocabulary development. Proficiency in these skills is facilitated by both traditional and creative learning methods, which include story time, games, plays, creative writing, various reading programs and paired reading.

Parents of Chapter I students should be commended for their support. Without active parent involvement, the program cannot be successful. Parents are encouraged to attend parent meetings and become actively involved in the education process of their children. In addition, Sr. Lorraine and the staff at St. Albert School; Norma Chenevert and the staff at West Side School; and Dee Young and Nancy Rose at the Hollow School all deserve mention for their invaluable cooperation and support.

Respectfully submitted,

Nancy L. Renaudette
Chapter I Director/Teacher

TRANSMITTAL AND COMMENTARY LETTER

The School Board
Stewartstown School District
3 Academy Street
Colebrook, New Hampshire 03576

Members of the Board:

In planning and performing our audit of the financial statements of the Stewartstown School District for the year ended June 30, 1992 we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

Such study and evaluation disclosed the following conditions that should be corrected in order to improve the District's internal control system in relation to the Student Activity Funds. Our following remarks are being made in the hope that they will improve existing procedures and are in no way a criticism of District personnel. This letter does not affect our report dated October 7, 1992 on the financial statements of the Stewartstown School District.

Student Activity Fund

Hollow and Elementary School

1. Presently, the individual who is responsible for the recording/bookkeeping function also has the responsibility for signing checks.

Recommendation

The bookkeeping function should be segregated from the custodial function. An authorized person other than the bookkeeper should sign the checks after examination of supporting vouchers.

Elementary School

2. Some disbursements did not have supporting vouchers.

Recommendation

All disbursements should be made after examination of supporting documents which should be cancelled (marked paid) at the time of payment.

We extend our thanks to the officials and employees of the Stewartstown School District for their assistance during the course of our audit.

It is our opinion that the Superintendent, Business Administrator and staff are doing an excellent job administering the Stewartstown School District.

Very truly yours,

Francis J. Dineen, C.P.A.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the School Board
and Voters of the Stewartstown
School District:

We have audited the accompanying general purpose financial statements of the Stewartstown School District as of and for the year ended June 30, 1992. These general purpose financial statements are the responsibility of the management of the Stewartstown School District. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, Government Auditing Standards, issued by the Comptroller General of the United States and the provisions of Office of Management and Budget Circular A-128, Audits of State and Local Governments. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the general purpose financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation as explained in the above paragraph, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Stewartstown School District at June 30, 1992 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Stewartstown School District. The information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is stated fairly in all material respects in relation to the general purpose financial statements taken as a whole.

Very truly yours,

Francis J. Dineen, C.P.A.

INDEPENDENT AUDITORS' REPORT ON FINANCIAL PRESENTATION

To the Board of School Directors
and Voters of School Administrative
Unit #7:

We have audited the combined financial statements of School Administrative Unit #7 as of and for the year ended June 30, 1992, as listed in the accompanying table of contents. These financial statements are the responsibility of the management of the School Administrative Unit #7. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards, Government Auditing Standards, issued by the Comptroller General of the United States and the provisions of Office of Management and Budget Circular A-128, Audits of State and Local Governments. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation as explained in the above paragraph, the combined financial statements referred to above present fairly, in all material respects the financial position of School Administrative Unit #7 at June 30, 1992 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the combined financial statements taken as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of School Administrative Unit #7. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and, in our opinion, is stated fairly in all material respects in relation to the combined financial statements taken as a whole.
