

Feb 18, 1962

Dear Inrey,

The children and I are telephoned
bound this evening. Marilyn is at
Kennebec for the week. She was going
to take a bag full of clothes that would
have been enough for a month's stay.
I had to have her cut down some
of the things and use a smaller bag
this she did with a great deal of
protest. Louise Guter and I are the
only ones left to cook for and this is
the only pen available. This horrible.
Your coat is in the cleaners.

Stalled to Ruth today she called to
warn me that they have the mumps
Roger and the boy have had a
really bad case. The document of
your friend the real estate man gave
them was quite a document. He asked
for a down payment this would make
the price he asked for stand. He covered
himself for the insurance. and frankly
it was the most outrageous thing heard
of. They are quite peeved that he should
think that they were so stupid. As a matter
of fact they might be even a little peeved
that you had any connection with them

Dear Ivorey,

The children and I are television bound this evening. Marilyn is at Winnies for the week. She was going to take a bag full of clothes that could have been enough for a month's stay. I had to have her cut down some of the things and use a smaller bag this she did with a great deal of protest. Louise Gretel and I are the only ones left to cook for and this is the only pen available. It is horrible. Your coat is in the cleaner.

I talked to Ruth today she called to warn me that they have the mumps Roger and the boy have had a really bad case. The document your friend the real estate man gave them was quite a document. He asked for a down payment this would make the price he asked for stand. He covered himself for the insurance. And frankly it was the most outlandish thing heard of. they are quite peeved that he should think that they were so stupid. As a matter of fact they might be even a little peeved that you had any connection with ~~them~~

such a salesman.

They still like the place but doubt very much that they will have any thing more to do with it. As a matter of fact she told me if we were interested in the plan to go ahead and buy it. I told her frankly that there was just too much work in that place for me and that we couldn't work up any interest ~~in~~ ⁱⁿ it.

Do you really believe I would drive to Pgh this week? Frankly I would rather buy a couple of knitted suits for myself with the money I would spend. I need to buy a few ^{that fact is quite obvious.} Well enjoy your cruise and don't work too hard. We have enough snow to last us a couple of years.

As far as the roof is Ok. I am hoping that the water will just roll off as it is supposed to do.

Doe has cleared the snow from the driveway 3 times. It was worth it. I just couldn't have pushed the snow that piled up.

Love and kisses from all of us. Ely.
