MADBURY FIRE DEPARTMENT

To the Citizens of Madbury:

1971 was a quiet year in numbers of fires.

Our activities consisted of monthly meetings, maintenance of equipment and drills.

The improvements to the department consisted of protection gear for the man in the form of hats, coats, boots, and gloves.

Our alarm system was improved with private phone communication between the fire station and Kenneth Wolcott's home.

In the same cable wires for actuating the air whistle were included making it possible to sound the whistle several minutes before men can arrive at the station.

The need to replace our equipment is still urgent.

The defeat of the article in the 1971 warrant rules out equipment that would allow for underwriters approval.

Our judgment of the necessary capabilities of apparatus was vindicated by the purchase of several units in New Hampshire with almost identical capabilities.

These same desirable characteristics can be built into a unit with much less cost if underwriters approval is not desired.

After a study of specifications is completed the fire department expects to make a new proposal.
