Article 2, Are you in favor of the adoption of Amendment No. I as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows?

To see if the Town will vote to amend Section 1.5 of the Zoning Ordinance, Planning Board Site Plan Review, by adding the following: All site plans on which substantial construction has not begun shall expire two years from the date of their approval.

YES: 765 NO: 212

Article 3, Are you in favor of the adoption of Amendment No. II as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows? To see if the Town will vote to amend Section 1.6 of the Zoning ordinance, Definitions, by adding the following:

1.6.24, Non-Conforming Use: A building, structure, or use of land, existing and lawfully occupied at the time of enactment of this ordinance or any subsequent amendment thereto, or any building, structure, or use of land granted a variance or special exception, which does not conform to one or more provisions of this ordinance for the district in which it is located.

YES: 669 NO: 305

Article 4, Are you in favor of the adoption of Amendment No. III as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

To see if the Town will vote to amend Section 1.6 of the Zoning Ordinance, Definitions, by adding the following:

1.6.25, Expansion of Non-Conforming Use: Any increase in size, intensity of use, or degree of non-conformity shall constitute an expansion of a non-conforming use.

YES: 676 NO: 330

Article 5, Are you in favor of the adoption of Amendment No. IV as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows?

To see if the Town will vote to amend Section 1.6 of the Zoning Ordinance, Definitions, by adding the following:

1.6.26, Building Height: The vertical distance from grade to the top of the building, "grade being that height above which 50% or more of the surrounding ground meets the foundation, "top" being the highest point of the building excluding only chimneys and residential antennae.

YES: 729 NO: 244

Article 6, Are you in favor of the adoption of Amendment No. V as proposed by the Planning Board for the town of Hampton Zoning Ordinance as follows:

To see if the Town will vote to amend Article VIII of the Zoning Ordinance, Multi-Family, by deleting Section 8.3 and adding said paragraph to Article III. Use Regulations as Section 3.27 to read as follows:

3.27 Proposed conversion condominiums and the use thereof which do not conform to the zoning land use and site plan regulations of the Town shall secure a special exception therefore from the Zoning Board under the terms of Article I, Section 1.4.3. Each specific provision of the exception must be identified. Each item that does not conform to the Zoning Ordinance must be identified by the petitioner in the application and by the Zoning Board of Adjustment in their approval.

Such conversion shall also require Hampton Planning Board approval as provided for in the site plan and subdivision regulations.

Article 11, Are you in favor of the adoption of Amendment No. X as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

To see if the Town will vote to amend Article XI, Section 11.2.6 of the Zoning Ordinance, to update the Life Safety Code to the 1985 edition.

YES: 825 NO: 159

Article 12, Are you in favor of the adoption of Amendment No. XI as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows?

To see if the Town will vote to amend Article XVI, of the Zoning Ordinance, Violations, to read as follows, in accordance with RSA 676:17: Any person violating any of the provisions of this ordinance shall be subject to a fine as provided in RSA 676:17, as amended. The Board of Selectmen, or the Building Inspector, are hereby designated as the proper local authorities of the Town to institute appropriate action under the provisions of RSA 676:17.

YES: 712 NO: 249

Article 13, Are you in favor of the adoption of Amendment No. I as proposed by petition of the voters of the Town of Hampton?

"To see if the Town will vote to amend the Zoning Ordinance of the Town of Hampton, New Hampshire, by adding to Article IV, the following footnote:

"No subdivision or development of land shall be approved that contains any lots, including, but not limited to, (reserve strips) whether or not such lots are intended for building purposes, that contain less than the minimum lot as prescribed for building lots in the zone wherein the subdivision of development is proposed to be located."

(Not recommended by the Hampton Planning Board)

YES: 359 NO: 638

Article 14, Are you in favor of the adoption of Amendment No. II as proposed by petition of the voters for the Town of Hampton?

To see if the Town will vote to amend the Zoning Ordinance by amending Article 3, Use Regulations, by amending Article 3.2 as follows:

3.2 The remodeling of single-family dwellings in existence, or under construction on September 29, 1952, not to be more than two-family dwellings.

RAA RA  
S S

Meaning and intended to allow single family dwellings in existence or under construction on September 29, 1952, to be remodeled into two family dwellings only if a special exception is granted by the Zoning Board of Adjustment in the Residence AA and Residence A districts.

(Not recommended by the Hampton Planning Board)

YES: 328 NO: 706

TOWN MEETING 3-11-86

Article 15, Are you in favor of the adoption of Amendment No. III as proposed by petition of the voters for the Town of Hampton?

"To see if the Town would vote to amend Article III, Use Regulations, by addition of 3.40 which would read as follows:

3.4 The keeping of chickens, turkeys, ducks, pigs, sheep, cows and any other livestock shall be prohibited and shall be allowed only with special permission to be granted by the Zoning Board.

This would apply to zones RAA, RA and RB.

(Not recommended by the Hampton Planning Board)

YES: 336

NO: 710

Article 17, Are you in favor of the adoption of Amendment No. V as proposed by petition of the voters for the Town of Hampton?

To see if the Town will vote to amend the zoning map and zoning ordinance of the Town by rezoning to Resident C-Seasonal (RCS) use, that portion of the area presently zoned for Residence A (RA) use bounded and described as follows:

Beginning at a point on the southerly sideline of the Exeter-Hampton Expressway (Rt. 51), said point being where the easterly bound of the area zoned for General (G) use intersects said Expressway, thence running southeasterly along the southerly sideline of said Expressway, crossing Landing Road, and continuing southeasterly along the southerly sideline of said Expressway to a point where the northwesterly bound of the area presently zoned for Residence C-Seasonal (RCS) use intersects said Expressway; thence running westerly and southwesterly along the area presently zoned for Residence C-Seasonal (RCS) use to the easterly bound of the area zoned for General (G) use; thence running northwesterly and northerly along the easterly bound of the area zoned for General (G) use to the point of beginning.

(Not recommended by the Hampton Planning Board)

YES: 149

NO: 830

H. Alfred Casassa, Moderator re-convened the Annual Town Meeting at 10:00 a.m. in the High School Cafeteria. The invocation was delivered by Father James Watson, Pastor of Our Lady of the Miraculous Medal Church.

Director of Public Works, George Hardardt, led the citizens in the Pledge of Allegiance to the Flag.

Mr. Casassa outlined the rules of procedure he intended to follow and explained that the polls would be open for two hours for voting on Article 18, the bond issue, to allow anyone who wished to vote to do so.

Article 18: TO SEE IF THE TOWN WILL VOTE to raise and appropriate a sum of \$7,800,000.00 for the purpose of preparing plans and specifications and for the construction of sewerage and sewage treatment facilities recommended in the Town's 201 Facilities Planning Study which are requirements contained in the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.) and will qualify the Town for Federal or State funds, such sum to be raised by the issuance of Serial Bonds or Notes not to exceed \$7,800,000.00 under and in compliance with provisions of the Municipal Finance Act (N.H.R.S.A 33.1 et seq., as amended) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton, and to allow the Selectmen to expend such monies as become available from the Federal and State Governments under the Financial Assistance Program of the Construction Grants section of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.) and any income derived from temporary investment of the bond proceeds and pass any vote relating thereto.

(Recommended by the Budget Committee)

MOVED: John Walker  
SECONDED: Glynn Eastman

Selectman Walker delineated the ten projects proposed and presented the expected effect on the tax rate.

MOVED THE QUESTION: Paul Nersesian  
SECONDED: Margaret Lawrence  
The Motion passed, closing debate on Article 18. The polls opened at 10:40 a.m.; closed at 1:00 p.m.  
The results to be announced at 1:00 p.m.

YES: 270 NO: 55

217 votes being required in the affirmative for passage by a required two thirds.

ARTICLE 18 PASSED

Article 19 TO SEE IF THE TOWN WILL VOTE to accept the Budget as submitted by the Municipal Budget Committee and to raise and appropriate the sum of \$8,617,182.00.

ARTICLE 26 PASSED

Five-minute recess to study Article 27-28-29

Article 27: TO SEE IF THE TOWN WILL VOTE to have all sales agreements, executed after March 15, 1986 Town Meeting, with respect to leased land, between the Town of Hampton and current leaseholders and current Hampton Beach Improvement Company sub-leaseholders shall have an expiration date of 90 days after signing and payment of the \$100 deposit fee. A new fair market value for the land shall be established each time a new sales agreement is executed. The intent of this article is to put in place a continuing procedure for implementing the lease land sales program.

This article shall be in effect until the beginning of the floor session of the Annual Town Meeting of March, 1987.

MOVED: Glynn Eastman  
SECONDED: John Walker

Glynn Eastman offered a Selectman's amendment, seconded by Ashton Norton, to add after the last sentence. "All other terms and conditions of previous town votes regarding the sale of town-owned lands shall remain in full force and effect."

Amendment passed.

ARTICLE 27 AS AMENDED PASSED

Article 28: We, the undersigned, being legal voters in the Town of Hampton, hereby petition the Hampton Board of Selectmen to place the following article on the Hampton Town Warrant for the Annual Town Meeting to be held in March, 1986.

The option to purchase leased land at 30% of fair market value as authorized by prior town meetings shall continue for leaseholders and Hampton Beach Improvement Company sub-leaseholders of record as of March 15, 1986. After March 15, 1986, all subsequent leaseholders and all subsequent Hampton Beach Improvement Company sub-leaseholders shall have the option to purchase leased land at 50% of fair market value. In either case, however, new sales agreements shall be executed and a \$100.00 deposit fee paid to the Town as well as a determination of fair market at the time of sale. The intent is to enable all current leaseholders, who for whatever reason were unable to purchase leased land prior to March 15, 1986, to continue to have the opportunity to do so, but all new or subsequent leaseholders or Hampton Beach Improvement Company sub-leaseholders shall have only the option to purchase leased land at 50% of fair market value as determined at the time of sale.

SECONDED: Lewis Brown

The Motion passed.

ARTICLE 30 WAS INDEFINITELY POSTPONED

Article 31: TO SEE IF THE TOWN WILL VOTE to adopt the following agreement between the Town of Hampton and the Meeting House Green Memorial and Historical Society, Inc.:

#### AGREEMENT

The following agreement between the Town of Hampton (Town) and the Meeting House Green Memorial and Historical Society, Inc. (Society) is in fact a continuation of a verbal agreement that has been in effect for a number of years. That agreement being that the Town would provide summer maintenance for the grounds owned by the Society in exchange for storage space to be used by the Town.

The Society now finds that it has a need for the storage space presently being used by the Town.

In lieu of this storage space, the Society agrees to provide a separate building for the Town's use.

By the Town's acceptance of this Agreement, the Town agrees to accept from the Society the building located at Tuck Field for which it will assume responsibility for its care and maintenance. The Town also agrees to remove its equipment from its present location in the Museum Garage within thirty (30) days of this agreement.

In exchange, the Town agrees to maintain the grounds owned by the Society.

ADJOURNED

*Paul Nersesian  
Town Clerk*

## BOARD OF SELECTMEN'S ANNUAL REPORT

The Board of Selectmen take pleasure in presenting Hampton's Annual Report for the year ending December 31, 1986. Among the major accomplishments during this year were the following:

At the 1986 Town Meeting a Seven Million Eight Hundred Thousand (\$7,800,000.00) sewer bond issue was voted. As a result of that we have started design work on the overall project and actual construction of the Lafayette Road interceptor.

Due to increased funding at the 1986 Town Meeting, we have been able to provide greater police protection in the community by the addition of four (4) full-time patrolmen.

As a partial solution to the serious parking problems at Hampton Beach we have been successful in entering into a lease with the Roman Catholic Bishop of Manchester for use of the St. Patrick's Church parking lot located on Church Street.

1986 was a year of substantial growth in Hampton with many new homes, condominiums and businesses (both industrial and retail) being constructed.

Hampton's tax rate was stabilized because of an increased taxable property base and interest income from the leased land sales trust fund, thereby increasing community services without unduly impacting the tax rate.

One of the major problems presently facing all towns is that of waste disposal. We are attempting to solve this problem by becoming a part of a joint venture with Exeter for the future construction of a refuse to energy plant.

1986 brought the retirement of a long-time Director of Public Works, George Hardardt. George Hardardt has done an outstanding job for the Town in this Department. He will be greatly missed by this Board of Selectmen for his unselfish contributions. We feel very fortunate in obtaining an able replacement (John Hangen) who comes to Hampton with many years of experience in both the public and private sector. We look forward to working with John Hangen in his capacity as Director of Public Works.

A matter of historical interest in 1986 was the donation by Harold Mace of the last remaining fish house at North Beach located adjacent to Founder's Park.

We feel that 1986 has been a productive and growth year marked by the continued cooperation and assistance of the Town Manager and Department Heads. The operation of the Town government is truly a team effort comprising both employees and volunteer members of Boards. The

Board of Selectmen have worked together in their capacity for continued orderly growth combined with fiscal concern.

This report only covers some of the highlights of our 1986 activities. The Board of Selectmen, with your help, will continue to develop and maintain an even better Hampton in the years ahead.

Respectfully submitted,  
Board of Selectmen  
Glyn P. Eastmen, Chairman  
Dona R. Janetos  
Ashton J. Norton  
Ansell W. Palmer  
John R. Walker

## TOWN MANAGER'S ANNUAL REPORT

We present herein the reports of departments, committees, commissions and individuals describing activities and accomplishments of the past year. Hampton is experiencing substantial growth and these reports paint a picture of impact on municipal services as never before experienced. Our municipal departments are continually being reviewed and restructured to accommodate increasing needs of our citizens. From the new fourth Police patrol zone, to the new ambulance defibrillation units, to the addition of a new refuse packer; we seek to improve and expand those services so beneficial to the residents of our community.

The completion of the 201 Study and the resulting sewer bond issue is a major step forward in eliminating a portion of the sewer system under moratorium. Hampton has a reputation for solving most of its sewer problems long before Federal and State aid became available. We were one of the first to provide primary sewage treatment along the coastline to protect our beaches and shoreline, and converted to secondary treatment in the early seventies before most communities had turned their first shovel full of earth for such a purpose. We must, unfortunately, now turn our attention to the serious problem of replacing old and undersized intercepting sewer lines to eliminate ground water infiltration and back flow into basements. Our program is now rolling, with one interceptor under construction and the design and planning of the remainder well under way.

The other problem of storm water drainage is also being addressed. The major study of storm water drainage should be completed in the near future and provide us with a much better picture of our serious problem areas and a preliminary priority list for improving our drainage system in an orderly manner.

Solid waste disposal ranks very high as one of the more common problems facing municipalities today. The days of the continuously open burning dump are long since over, and it seems now that even landfills are prohibitive for most communities to operate, given the strict standards promulgated and enforced by the State. It was indeed very beneficial for Hampton and Exeter to join together to form a Solid Waste Planning District and subsequently become a part of an even larger district to attack the problem of solid waste disposal. Those who worked so hard to make these districts work are to be commended for their efforts on our behalf.

The Rockingham Regional Planning Commission sponsored a series of hazardous waste collection days last year and one of those days was devoted to Hampton. Citizens were urged to collect their hazardous waste

material and bring it to the collection site behind the Town office/Fire station. Professional handlers were brought in to handle the material and the day was a success with many Hampton residents taking advantage of this opportunity to dispose of hazardous and harmful materials. The Rockingham Regional Planning Commission intends to sponsor another similar event in Hampton this Spring; probably during May, and citizens should watch the news for the announcements if they desire to use the service.

Our new Public Works Director, John Hagen, is very busy becoming acquainted with the Public Works Department and its many activities. Say "Hello" and make his acquaintance when you have the opportunity. Our very best to George Hardardt in his retirement.

My personal thanks are extended to the Board of Selectmen, Town employees, Boards and Commissions and residents of the Town of Hampton for their cooperation during the year.

Respectfully submitted,

Philip G. Richards  
Town Manager

## COLLECTOR OF TAXES

The following report outlines the status of all 1986 accounts handled by this office.

### TOWN OF HAMPTON SUMMARY OF WARRANTS Fiscal Year Ended December 31, 1986

-DR.- Uncollected Taxes -January 1, 1986:	1986	Levies Of:	Prior Years
Property Taxes		1985	\$ 00.00
Resident Taxes			7,330.00
Land Use Change Taxes			
Yield Taxes		1985	
			\$1,193,206.88
			21,280.00

#### Taxes Committed To Collector:

Property Taxes	\$11,369,238.00
Resident Taxes	95,690.00
National Bank Stock Taxes	99.75
Land Use Change Taxes	30,000.00

It has been a pleasure to be of service to the Taxpayers of Hampton over the past sixteen years and your courteous cooperation was appreciated.

Respectfully submitted,  
 Lewis W. Brown  
 Tax Collector

## 1986 ASSESSOR'S ANNUAL REPORT

The Assessor's Office consists of an Assessor, a full-time secretary and a part-time clerk.

### TAX RATE STRUCTURE

	1985	1986	Growth Factor
Municipal	9.99	10.33	1.03%
County	1.24	1.22	.99%
Schools	11.62	14.25	1.22%
Town	22.85	25.80	1.13% Rate
Precinct	1.27	1.55	1.22%
Pre. Exempt	.26	.39	1.50%

The towns total taxable valuation for year 1986 = \$434,117,100.

The total amount committed to tax collection = \$11,369,238.

### LEASE LAND REPORT

The town sold over ninety (90%) of the lots which enjoyed a direct lease with the town. Approximately thirty-six (36) lots remain to be purchased. While approximately sixty-three (63%) of the lots which have a H.B.I.C. lease have been sold. By virtue of the vote of the past March Town Meeting, H.B.I.C. involved properties must now wait until the expiration of their H.B.I.C. lease before the town will once again be authorized to sell.

As of December 1, 1986 the following breakdown applies:

Trust Fund Money	\$7,744,180
Interest to Town	427,130
Mortgage Principal (yet to collect)	1,919,970
Total Amount	<hr/> \$10,091,280

The Town of Hampton has enjoyed ample growth in recent years and continues to be the envy of most communities. I agree with the sentiments of some of the taxpayers who have told me that it is indeed a privilege to be a citizen of Hampton.

Respectfully submitted,  
Andrew L. Blais, Assessor  
Andrea S. Byrum, Secretary  
J. Elizabeth Walker, Clerk

## ANNUAL REPORT BUILDING INSPECTION DEPARTMENT

The Building Inspection Department consists of three people, an inspector, an assistant inspector and a secretary. Early in 1986 Mr. Charles Parkhurst, the assistant inspector, was forced to retire due to continuing health problems, and was replaced by Mr. Neal Gadwah, another man of considerable ability and experience. I wish to publicly thank Mr. Parkhurst for his able assistance and wish him a permanent recovery and long, healthy retirement, and to welcome Mr. Gadwah to this challenging position.

The construction value of permits dropped almost 11 million dollars from the record set in 1985. 947 permits were issued with a construction value of \$23,433,215, producing \$79,892 in fees. Single-family, two-family and multi-family dwelling construction decreased 29%, 60% and 79%, respectively, while 130 new dwelling units were added, a 60% decrease from 1985. The 9% increase in number of permits issued was mainly due to residential additions and alterations.

During the year, 2529 building and zoning related inspections were made, 85 building and 37 zoning violations were discovered, and 45 complaints were investigated. 15 inspections were made for the conversion from seasonal to year-round occupancy, and 6 certificates, for 10 dwelling units, were issued.

A breakdown of activity follows:

### CONSTRUCTION VALUE BY MONTHS

January	\$5,074,732	July	\$1,446,202
February	1,750,385	August	2,530,029
March	1,589,116	September	1,150,249
April	1,462,048	October	2,659,732
May	1,282,447	November	1,050,044
June	863,486	December	2,573,745

### CONSTRUCTION ACTIVITY BY CLASSIFICATION

#### Housekeeping Residential Buildings

New Single-family Dwellings	55
New Two-family Dwellings	4

New Multi-family Dwellings	8
New Mobile Homes	6
Moved or Relocated Dwellings	1

All Other Buildings or Structures

Residential Garages or Carports	35
Hotels or Motels	6

 Ray P. Hutchinson, Bldg. Insp.  
 Neal D. Gadwah, Asst. Bldg. Insp.  
 Rita F. Richard, Sec.

## CEMETERY TRUSTEES ANNUAL REPORT

As your Town Cemetery Trustees, we would like to report the following. With only part time labor working less than nine full months, we were able to keep our cemeteries in fair shape.

Number of graves sold:	62
Proceeds to town & trust funds:	\$8,362.00
Graves loaned & seeded:	85
Spots loaned & seeded:	66
Stones repaired:	28
Stones set flush:	68
Water lines repaired:	06

Estimated cost of labor and material for cemeteries other than the High Street Cemetery was \$2,000.00. While mowing, trimming, and raking is our main problem, we must also work on water lines, walls, fences and underbrush plus trees in most cemeteries.

Your Trustees and Superintendent serve without pay.

Respectfully submitted,  
Roland W. Paige  
Superintendent 1986

1986 Trustees:

Frank Fitzgerald  
Ronald A. Remick  
Roland W. Paige

Eleanor H. Whitney, Bookkeeper

**ANNUAL REPORT  
DEPARTMENT OF PUBLIC WORKS**

Personnel: Full-time 36  
Part-time 24  
Total 60

After twenty-two years of continued and successful service George F. Hardardt retired as Public Works Director. These years of service have been underscored with ethical distinction, energetic leadership and fiscal responsibility. George has always given 110% of himself, and has given no less in the smooth transition of this position and I wish to publicly thank him for this effort. We at Public Works wish to extend to George, his wife and family, our best wishes for many years of happiness in the future.

Two other employees that retired with distinction were Charles Burlington, Superintendent of Highways (26 years) and Earl Tuttle, Highway Dept. (38 years).

In 1986, we processed in excess of 709 million gallons of wastewater from which we developed 630 dry tons of sludge. Our average daily flow was 1.9 million gallons. Included in the overall flow was 8,321,950 gallons of septic system wastewater.

Overall, your Wastewater Treatment Plant is functioning in accordance with our National Pollutant Discharge Elimination System permit, issued by the United States Environmental Protection Agency.

Drainage projects included the completion of Phase II and the start of Phase III of the Ashworth Drain. Installed in the above project were catch basins, 330' of 12" pipe, 52' of 18" pipe, and 141' of 24" pipe. We cleaned a total of 95,692 sewer and drain lines with the sewer jet and hand cleaned 140 catch basins.

The major sewer projects for 1986 were the reconstruction of the mains and services on Thomsen Road, Ann's Terrace, Swain Court, Francis Street and Lyons Street. Installed in these projects were 9 manholes, 428' of 4" pipe, 25' of 6" pipe, 1,835' of 8" pipe, and 46' of 12" pipe. We installed 10 new sewer laterals, relaid 42 existing laterals and repaired 11 laterals. We reconstructed or repaired 18 sewer manholes.

There were 66 new entrances into our sanitary sewer system requiring 97 inspections; 41 permits were issued. There were 301 locations made for contractors, water company, gas company, etc. In addition, 35 calls for plug-ups were handled, of which 13 were the responsibility of the Town.

Rubbish collection and operation of the landfill continues to be one of our most demanding and costly responsibilities. We are now part of

a larger regional waste district which will be planning for the construction of a "waste to energy" facility in which we will be a major contributor. Our goal will be to phase out the landfill at the time that the new facility is finished. We are being pressured, however, by the State to close our present landfill.

In 1986, we collected at least 40,000 compact cubic yards of rubbish. That does not include rubbish taken to our landfill by contractors, citizens, state and private collectors.

Our road resurfacing program is a continuing one. During 1986 we resurfaced 12,127 linear feet of road. Along with the resurfacing, shoulders were brought up to grade with crushed gravel where required.

During the year, parking spaces, crosswalks, slow school and stop lines throughout the Town were painted.

In 1986 we had 14 snow storms. We received a total of 36" of snow requiring plowing, snow removal, salting and sanding of our roads. The cost of these storms, excluding normal winter maintenance, was \$33,266.88 or \$924.08 per inch.

Street signs and traffic control signs have been a large problem to maintain. During 1986 we installed 197 signs mostly due to vandalism.

As part of the \$7.8 million dollar bond issue sewer work, the railroad interceptor project was awarded and construction has started, with completion expected to be on or about May 15, 1987. Public Works is inspecting the work of this contractor.

The pump station project which was \$1 million dollars over the engineer's estimate was not awarded. The engineer is redesigning the northeast interceptor project and the Church Street project to reduce costs. Bids are expected this spring on these projects and if they are within estimates, construction will start this summer expecting to take two years to complete.

In 1986, the Board of Selectmen agreed to increase the septic fees for non-residents. This will help to defray costs for our proposed septage receiving facility which will be built within the next two years.

We at Public Works will continue to service the Town as best we can.

I wish to extend my sincere thanks to the townspeople, the Selectmen, and the employees of the Public Works Department who have so warmly welcomed me to Town. This has greatly contributed to making my job, notwithstanding its challenges, so exciting.

Respectfully submitted,

John R. Hangen  
Public Works Director

## HAMPTON MOSQUITO CONTROL COMMISSION

At 1986 Town Meeting citizens appropriated \$20,149 and \$18,036.16 was expended. The Commission met eight times. They hired part-time Supervisor Peter E. Stackhouse and Certified Applicators: Brodie Cusack and Theron Peck. Each was certified by the N.H. Pesticide Control Board. They worked out of the Town Hall and Public Works Garage. The Supervisor attended Commission meetings.

Fresh water breeding site surveillance began in March. Some sites were treated for Spring *Aedes* species. For the first time Vectobac granules with a biological agent, B.t.i., were used for mosquito larvae. Mortality rates were 95-100% in all areas treated.

Surveillance of salt water sites began in early April and treatment in the second week. Abate-2 Granules were applied using DM-9 backpack sprayers. Light trapping to monitor adult mosquito populations began in early May, and continued through August. Eight locations were monitored weekly compared with 4 in 1984. The captured adults were killed, identified, and reported to the State. An unseasonable amount of rain throughout the Spring and Summer increased the catch of *Mansonia perturbans* and *Culiseta melanaura*. This year's catch for them was the largest on record in Hampton.

Adulticiding began in early June. Public Works loaned a truck to mount the old LECO ULV Sprayer. The Mosquito Control Truck was outfitted with the BEECO ULV Sprayer. A series of mechanical problems and unsuitable weather (wind, rain, and under 65°F. temperatures at night) hampered treating with Cythion on the three adulticiding routes. However, the whole town was covered nearly every week. The 10 year old LECO needed some replacement parts, which the crew installed. The newer BEECO with its complex, electronic design developed problems, which necessitated disassembly and shipment of parts for repair. Both sprayers when operating correctly gave comparable results, but the BEECO is harder to service and has design defects as Hampton and Essex Co. learned. Twenty Greenhead Fly Traps were installed on the salt marshes and functioned. In 1987 it is planned to make use of Resmethrin-based insecticide, Scourge ULV, to counteract any possible resistance to Cythion ULV.

Respectfully submitted,

Ann W. Kaiser  
Joan F. Tilton (resigned)  
Steven E. Bauer  
Ruth G. Stimson

## HAMPTON MOSQUITO CONTROL REPORT OF THE SUPERVISOR 1986

The Hampton Mosquito Control District began its second season under Supervisor Peter Stackhouse with two Part-time Assistants Brodie Cusack and Theron Peck. Brodie was with the program in 1985 and returned bringing a valuable year of experience back with him. Theron was new to the District, but brought experience from UNH as a research assistant with the Plant Science Department.

Larval mosquito surveying of snow-melt pools began in March utilizing the District's truck for transportation to and from the various sites. Surveys for the early Spring *Aedes sp.* group produced sites which warranted treatment right away, while others were able to be passed over until subsequent surveys.

For the first time we began using **Vectobac** granules, a formulation of the biological agent *Bacillus thuringiensis israelensis* (B.t.i.). B.t.i is beneficial because it is a bacteria that is specific in its toxic action. It will only affect Black Fly and mosquito larvae which makes it valuable as an environmentally safe material. Post-treatment mortality checks proved that this material was indeed very successful as mortality rates were as high as 95-100% in all treatment areas.

A limitation of the **Vectobac** was the large size of its carrier granules. They gave us some difficulty in application as they sometimes clogged the flow regulation mechanisms of the DM-9 backpack sprayers. This problem appears to have been solved late this season, though, as the manufacturer announced the production of a smaller mesh carrier granule. This new material will not only provide an effective control device, but also a more desirable alternative to the "hard" insecticides which can contribute to the upsetting of both salt and fresh water wetlands ecosystems.

Surveillance of the salt marsh species *Aedes cantator* (Spring) and *Aedes sollicitans* (Summer) began in early April with the first treatment being applied in the second week of April. Flood tides caused by the New and Full Moons called for the constant monitoring of the marshland breeding areas. Periodic hatchings of the salt marsh species were controlled with Abate 2G, a granule organophosphate insecticide applied using the DM-9 backsprayers.

Light trapping (to monitor adult mosquito populations) began in early May and was continued through the last week of August. During that time eight trapping locations throughout Hampton were monitored weekly and the captured adults killed and identified to species. This year's catch was the largest on record in Hampton and was largely made up by huge in-

creases in the numbers of **Mansonia perturbans** and **Culiseta melanura**. The increase is due primarily to the unseasonable amount of rain throughout the Spring and Summer.

When adult populations reached noticeable levels the adulticiding aspect of the program was implemented. Aimed at the winged adult, spraying the town roads provides a less efficient, but necessary aspect of Hampton's control program. Ideally, control of the immature forms allows us to control a larger number of mosquitoes in a smaller area, but when all sites cannot be found or successfully treated there exists a last line of defense. In early June the populations called for adulticiding to begin.

As was the case in the 1985 season, we were able to outfit the old LECO ULV sprayer on a borrowed Public Works truck to add another weapon to our arsenal. This proved a vital aspect of the adulticiding program as a series of mechanical problems and unsuitable weather severely affected the ability to treat the three routes as much as we would have liked.

The mosquito control truck was outfitted with the BEECO Whispermist ULV sprayer and was utilized whenever possible. With the weather rather uncooperative, the ability to put two sprayers on the road in one night would cut the total treatment time in half and allow us to cover the town more frequently if necessary. We were able to complete the coverage of the whole town virtually every week, but were held back by a series of mechanical difficulties with the sprayers.

A source of concern throughout the control season, both sprayers offered the crew a series of mechanical challenges. The older LECO sprayer began to show its age as the 10 year-old machine needed some replacement parts. The availability of the gas engine parts and the simplistic design allowed the necessary repairs to be accomplished by the crew with little or no delay to the spray schedule.

The newer BEECO Whispermist sprayer presented a more crippling situation as its electronic design and complex parts called for the disassembly and shipment of suspected items back to the factory for repair and reconditioning. This cost the program both time and money as we operated with both sprayers for only brief periods throughout the summer. When operating correctly, the BEECO sprays with comparable results with those of the LECO, however defects in both parts and design that have surfaced since its widespread use by Hampton and Essex County Mosquito Control Project in Massachusetts make its reliability suspect. It is with these problems in mind and an anticipation of more of the same, that I am recommending that the Hampton Mosquito Commission budget funds for the purchase of a new LECO sprayer for the 1987 season.

As in the past we used Cythion ULV as our lone adulticiding insecticide. An organophosphate consisting of 97% pure Malathion, Cythion

is a ready to use material that has been the most popular adulticiding agent because of its effectiveness and moderately low toxicity rating. It does however, possess a strict set of criteria that must be met for legal application. The most limiting factors are the weather conditions that must be observed; temperatures above 65° F. , no precipitation, and a prevailing wind of intensity that would not cause drift onto areas that are prohibited from treatment, like open waters and marshlands. This season presented us with a series of sub-65° F. temperatures, strong sea breezes, and rainy evenings. These either cut short or postponed a number of planned spray routes. Complicated by our mechanical problems with the sprayers, adulticiding was a sporadic, yet successful process. I am currently recommending that the Mosquito Commission consider my proposal for a partial switch to a Resmethrin based insecticide Scourge ULV that has shown itself to be not only an effective control material, but also an insecticide with fewer application limitations. It would also serve to counteract possible resistance that has built up due to perennial use of Malathion.

1986 also brought about an insurance company mandate that the areas that require any type of mosquito control activity must be entered only with the written permission of the owner(s). Work is now and has been underway to request permission of all land owners whose property is treated. It is being done through cooperation of the Assessor's office and continues to be a slow process.

A goal of the Supervisor for the 1986 control season was the increased public exposure to the workings of the program. Steps were made toward reaching this goal when the Hampton Union agreed to let me write a monthly column of mosquito control happenings. In it I tried to focus on what the general public could do to reduce unnecessary breeding sites and thus contribute actively to the control effort. Also involved was a basic review of the adult populations and special activities accomplished during that particular month.

The late summer arrival of the Greenhead Fly was also met with some opposition from the mosquito control program as black box traps were placed in strategic locations on the Hampton Marshes. Although the populations of this pest didn't seem as high this year compared to previous years, the traps still caught their fair share of adults. Every adult fly captured on the marsh is one less fly that will terrorize the local people.

Finally, it is with disbelief that my second year as Hampton Mosquito Control Supervisor draws close to an end. Still left to be accomplished for the upcoming season is the request for a new Special Permit from the State Pesticide Control Board. With another year's worth of experience comes an increased awareness of and responsibility to present the most advanced, yet effective methods of mosquito control. These must also

include consideration of the safest of options for providing a delicate approach to environmental, legal, and safety aspects of mosquito control. It is with these responsibilities in mind that I present this report, a capsule look at a successful Mosquito Control season.

Respectfully submitted  
Peter Stackhouse

## ANNUAL REPORT LEASED LAND REAL ESTATE COMMISSION

The Leased Land Real Estate Commission early on in 1986 met on the second Thursday of every month to hold hearings and conduct business sessions. From July on, as prospective transactions fell dramatically, the Commission met when and as needed.

During 1986 the Commission approved eighty-five (85) cash sales, forty (40) mortgage sales and nineteen (19) escrow sales of leased land eligible to be sold by the Town of Hampton. Six hundred and two (602) leased lots have been approved for sale since the program's inception. Money collected by the Town is turned over to the Trustees of Trust Funds for investment purposes, with revenues returned to the Town's general fund.

Under the Commission's oversight responsibility, it is satisfied that procedures mandated by the warrant and statute are being properly followed.

Service on the Commission is difficult, and its membership has performed its duties with courage and resolve in line with both the spirit and letter of the law which established the Commission. The Commission will continue to strive to fulfill its obligation with respect to the intent of the law and the interest of all Hampton's residents.

The Commission has received exemplary support and cooperation from all appropriate Town officials, and from Mrs. Irene McCain, its permanent secretary, and extends its thanks to them.

Respectfully submitted for the commission,  
Peter Janetos, Chairman  
Dr. Raymond E. Alie  
Hollis Blake  
Seth M. Junkins  
John S. Vogt

## LIBRARY REPORT

Our first full calendar year of operations in our new building has been a successful one. Our circulation reached an all-time high of 115,596, an increase of more than 20,000 over 1985. A new service was added and old ones expanded. It has been a year of generosity by many in town, with the library receiving over \$5500 in gifts and hundreds of hours of volunteer work being performed by a large number of dedicated people. So many, in fact, that they are too numerous to mention here. But without them we would not be able to offer the level of services we do today. For that, they have our heartfelt thanks.

Everyone knows that a library offers books, magazines and newspapers and is a good place to go to find out information on virtually any subject, but most libraries have a lot more than that to offer and we are no exception. The following list will give you an idea of the variety of services we offer:

Cameras, framed art, puzzles, records, and cassettes are some of the things we offer in addition to the printed word. All can be checked out like books.

Children's story hours. If your 3-6 year old is not registered in one of our popular story hours now is the time to do so. The kids hear stories, watch movies, make crafts and on the holidays have a party with refreshments and all. We offer these story hours several times a week so there should be a time that is convenient for you and your child. Helping your child to enjoy reading is one of the biggest favors you can do for them. Check the calendar in our children's room for other activities we have planned for all ages.

Computers. We have an IBM-PC, Apple II, and Apple Macintosh, all with printers, that you may use at the rate of one dollar per hour. Bring your own software or use some of ours. We are in the process of building a collection of public domain software for each machine. Advance registration and sign-up is necessary. Brief individualized training sessions are available for those with no prior computer experience.

Museum tickets to the Children's Museum in Portsmouth and the Museum of Fine Arts in Boston are available to be borrowed.

An on-line reference was made available for the first time in 1986. With a computer and a modem we can tap into an incredible amount of information. Thanks to a gift from the Rotary Club of Hampton we will subsidize the first \$10 of any searching we do for you. Most quick searches can be done for much less. Check our catalog of the databases that can be searched and familiarize yourself with what is available.

Videocassettes. The boom medium of the 80's is making inroads in libraries very quickly, and our collection numbered over 200 by the end

of 1986. We charge one dollar per day for rental, which goes to pay for new videos. And if you don't own a VCR yet, we have one in the Dearborn Room that you may use here.

And there are even more services we offer that I don't have the space to mention here. I know there are still many people in Hampton who don't use the library and I'm sure it is because libraries have a public image that is associated primarily with reading and learning. It's true, we do like to be associated with those things, but as you may know, we are a lot more than that. You owe it to yourself to acquire a library card if you haven't already. You may find it to be the most valuable card in your wallet.

Respectfully submitted,

William H. Teschek, Librarian,  
and the staff of the Lane  
Memorial Library.

## HAMPTON HIGHWAY SAFETY COMMITTEE ANNUAL REPORT

The Hampton Highway Safety Committee is only an advisory and suggestion committee for the Town Government. Some of the problems and projects that we have been able to solve and help to accomplish with the help of the Town and State officials are as follows:

1. Surveyed permits for proposed new roads and housing developments which included new stop signs and street lights that the builder was to pay for.

2. Reviewed the areas where fatal automobile accidents had occurred.

3. Reviewed the Hampton Beach traffic problems—there were still some empty parking spaces at some of the Town's lots.

4. Request a flashing light at Mill Road and Ann's Lane intersection. The Selectmen decided on 4-way stop signs and so far they have been working out satisfactorily.

5. Had numerous signs replaced by the Hampton Public Works Department and the N.H. Highway Department in our Town.

6. William Stickney was appointed Vice-Chairman.

7. Tried to take care of numerous traffic safety complaints throughout the year.

### HIGHWAY SAFETY COMMITTEE MEMBERS:

Roger A. Syphers, Chairman

William Stickney, Vice-Chairman

John Vogt

Mary Loughlin

John J. Kelley

Respectfully submitted,

Chairman

## 1986 SHADE TREE COMMITTEE REPORT

Budget granted for 1986 was Five Thousand Dollars.

Over 32 trips to various parts of our town were made to view trees.

Again this year our town is indebted to the Exeter & Hampton Electric Company for trimming & removing some trees without cost. We also express our thanks to the Ralston Tree Service for prompt service on emergency calls.

The diseases of the elm and maple trees are still with us and we can expect to remove some each year.

Expenditures were as follow:

Removal	\$2,000.00
Pruning & Spraying	2,425.00
Planting	None

Respectfully submitted,  
Roland W. Paige  
for the Shade Tree Committee

Shade Tree Committee 1986

Mrs. Virginia Blake  
Mrs. Susan Tremblay  
Roland W. Paige

## CONSERVATION COMMISSION ANNUAL REPORT

In April, the Commission sponsored a Groundwater Forum at which State, Federal, and private sector representatives addressed regional and local concerns about groundwater supplies and possible contamination. There was general support for the idea of an aquifer protection ordinance; the contamination of the Foss wells shows the urgent need for strict protection of our water.

The new wetlands maps were finished in the spring. With matching funds from a Coastal Zone Management grant, these maps will be reproduced as mylars compatible with the new tax maps.

In June, a regional symposium for Rockingham County Conservation Commissions was held in Kingston. The Chairman made important contacts with members of the Cooperative Extension Service, Rockingham Planning Commission, and other Conservation Commissions. During October and November, Bill Barkley attended the Natural Resource Lecture Series, a workshop on soil mapping, and a presentation on the Trust for New Hampshire Lands, and reported the highlights of these meetings to the Commission.

A positive trend seems evident regarding dredge and fill applications and the Town's Wetlands Ordinance. Some development proposals are actually planned so they do not conflict with wetlands, or do so minimally. For those who chose to plead ignorance and tried to infringe on sensitive wetlands, the Commission was successful in getting site plans revised with technical advice from the Soil Conservation Service and the Coastal Inspectors from the Wetlands Board.

At the 1986 Town Meeting, the Conservation Land Bank Committee was formed to make recommendations on future land protection in Hampton. The Conservation Commission will follow through on those recommendations, working with landowners, seeking technical assistance from land protection experts like the Trust for New Hampshire Lands, as well as applying for outside financial assistance.

It will cost the town some money to pursue this endeavor, but look what conservation-recreation land gives you: clean water, recreational opportunities, wildlife habitat, and scenic beauty. It needs little maintenance and it doesn't wear out; you don't have to replace it every few years. With a depreciation schedule like that, it is a bargain. Some town expenses are debated and deferred to "next year," but you can't do that in this case. Attractive land growing trees this year could sport street lights and stop signs next year.

The Conservation Commission is charged with management and pro-

tection of a town's open spaces, but in the long run, it is the people who determine the look of a town. If we have broad popular and financial support, we are here and eager to do the work for you. Without that support, we can only slow the inevitable decline in the quality of life here. We sincerely hope enough of you do care about such things; if not, then we'll all be poorer for it.

For the Commission,  
Peter E. Tilton, Jr.—Chairman

## ANNUAL REPORT ZONING BOARD OF ADJUSTMENT

The Zoning Board is a quasi-judicial board empowered by state legislation to hear and decide appeals from petitioners seeking relief from the Hampton Zoning Ordinances. Our Board is composed of five members who are appointed to three year staggered terms by the Board of Selectmen. The members are Kevin Lonergan, Curtis McCrady, Richard True, Wendell Ring, Clerk and Dr. Henry J. Stonie, Chairman. Also the Board consists of three alternate members: Jeff Lentz, Bradley Cook and Martha Williams. Jeff Lentz has recently resigned, and we wish to thank him for his fine service. All members including our secretary, Judy Doyle, and Building Inspector, Ray Hutchinson, are to be commended for their hard work, perseverance, and dedication to the Town of Hampton.

As in recent years 1986 was a "blockbuster" workload for the Board. In addition to our regularly scheduled meeting on the Third Thursday of each month in the Selectmen's Meeting Room, we found it necessary to add a second meeting. To alleviate the midnight hour endings of these meetings, the Board changed the starting time to 7:00 p.m. In total, our Board conducted 23 meetings to hear 153 petitions and 15 requests for rehearings.

The budget for the Zoning Board in 1986 was projected and appropriated at \$3,400. With the increasing number of petitions and the subsequent number of meetings, the expenditure of the Board rose to \$4,871.02, \$1,471.02 above budget. This rise reflects the increased costs of materials, postage, legal notice advertising, transcribing of minutes and secretarial services. These costs are distributed evenly within our budget.

To serve on the Zoning Board means to be objective as possible toward each petition; and to decide on its own merits whether it is lawful and reasonable to grant relief from our Zoning Ordinances. To do so takes much perseverance and dedication by our members. Our satisfaction is from serving and doing the best job possible. We will continue to do so in 1987.

Thank you for your interest and support in 1986.

Wendell C. Ring, Clerk

## RECREATION AND PARKS DEPARTMENT ANNUAL REPORT

Throughout 1986 the Recreation and Parks Department has continually promoted leisure time programs as well as promoting the personal value of involvement in physical activity and leisure time interests. Though the Department has a staff of only one full-time person, the Recreation and Parks Department has aimed to offer a diversified array of programs and classes for all, while expanding those ever popular programs. As the population of Hampton continues to grow and as the demand for recreational services in this community continues, this Department, working to its greatest capacity, can no longer handle all requests for gym time, new programs, special events, and other classes.

The Recreation and Parks Department thanks all residents of our community for their support of recreation programs in town and encourages all residents to continue their vocal and strong commitment to recreational programs and facilities for the youth, adults, families, and senior citizens of Hampton.

The Recreation and Parks Department is committed to the value of "Recreation" in a community and as the numbers of participants in our programs swell, it is evident that many residents are also committed to the value of "Recreation" in their life and in the lives of their family members, and are stressing the need for "Recreation" to become an even greater priority in the growing Town of Hampton.

A very special "Thank You!" once again to all in the community who support Recreation and volunteer time and energy. It could not have been done without YOU!-the Hampton Youth Association, Hampton Recreation Advisory Council, Hampton Senior Citizens' Club and Tour Committee, and all of the individuals always willing to lend a hand.

Thank you!

Respectfully Submitted,  
Susan Clay De-Marco, Director  
Hampton Recreation and Parks Department

## HAMPTON PLANNING BOARD ANNUAL REPORT

The Hampton Planning Board consists of seven members. Six members are elected by the voters and the seventh is a representative from the Board of Selectmen who serves as an ex-officio member of the Board. It is the responsibility of the Planning Board to review and approve all subdivision and site plan applications within the Town of Hampton. The Board is assisted during the review process by the Town Building Inspector, Ray Hutchinson, the various department heads, and also by Stephen Bird from Rockingham Planning Commission, who has been contracted by the Town to lend technical assistance to the public as well as the Planning Board. Mr. Bird attends all Board meetings and is available to assist the public every Tuesday afternoon at the Town Office.

With economic conditions continuing to favor development during 1986, the Planning Board was again very busy despite a moratorium on new construction in some parts of Hampton. Growth through development has shifted to the areas of Town west of Route 1 where existing sewers are not overloaded and large tracts of land are still available. Because these areas, as well as land in the northern sector of Hampton, contain a large portion of the Town's inland wetlands, the Planning Board developed and adopted new regulations for the subdivision of land. These new regulations may have required developers to submit, with their applications, comprehensive soil surveys as well as plans for controlling soil erosion and sedimentation. The Board also developed new regulations for Site Plans which should be adopted during February 1987.

One challenge faced by the Planning Board during 1986 was the development of an Ordinance which would allow Hampton to maintain its eligibility to participate in the National Flood Insurance Program. The new District has been designated "The Special Flood Hazard Area" and appears as Amendment No.1 on the 1987 Town Warrant. The Planning Board spent many hours preparing this new ordinance and worked closely with the Federal Emergency Management Agency and the State Office of Civil Defense.

Also during 1986, members of the Board attended seminars on Municipal Law, Zoning, Planning and Natural Resource Preservation in an effort to keep abreast of the ever changing laws and principles governing land use. Although the fees for these different seminars are paid for by the Town, the time spent by members is voluntary, as is the position of Planning Board member itself. I am proud to serve as a member of this Board and I commend my fellow members for their dedication.

Respectfully submitted,

Daniel E. Coughlin  
Chairman

## HAMPTON INDUSTRIAL DEVELOPMENT COMMITTEE

The goal of the Hampton Industrial Development Committee is to increase the industrial base of the Town of Hampton by an orderly development process, while maintaining the distinctive quality of life of this region. The members of this Committee believe that increasing the industrial base will maximize the tax return by minimizing the Town expenditure for such developments. With this in mind, we provide service to the New Hampshire Office of Industrial Development and Realtors as to the opportunities available in Hampton.

The lack of any Town-owned industrial land or park makes the task of increasing our industrial base a difficult one. However, the excellent highway system of 93, 95, and 101 has made Hampton, Exeter and Keene the prime areas for industries desiring to locate in New Hampshire.

Proper control of industrial developments, such as buffer zones, does permit light industries to be located in areas zoned General as well as Industrial zoned areas. The control and approval of any new industrial developments is the responsibility of the Planning Board and would be handled according to their established rules and regulations.

### Industrial Development Committee

George E. Wall  
Bruce A. Barnaby  
Stephen G. Ellis  
Sheila T. Francoeur  
Robert L. Morgan

## VIETNAM MEMORIAL COMMITTEE

The Hampton Vietnam Veteran's Memorial was dedicated Armistice Day, November 11, 1986.

Article 29 of the 1982 Town Warrant was passed at the Annual Town Meeting to have a Vietnam Honor Roll Committee. Those appointed to serve on this committee were: Bruce Aquizap, Walter Davis, Diana LaMontagne, Paul Nersesian, and Roland Paige.

One hundred eighty-five names were placed on the plaque.

Bruce Aquizap acted as Master of Ceremony, with Paul Nersesian unveiling the plaque.

The Hampton Garden Club planted bulbs all around the monument, which should be in bloom this Spring.

It is the committee's understanding that names on the Korean and Vietnam plaques of men and women killed in action would be used on new roads in Hampton.

Over a thousand dollars was returned to the Town after all of the work was completed.

The committee has recommended that money be set aside each year to clean and repair all Veteran's plaques within the Town.

The Exeter Monument Works of Exeter, N.H., are to be congratulated for their outstanding work and help given to the committee.

Diana D. LaMontagne  
Chairman

## AMERICAN LEGION REPORT

Following is a list of expenditures as the result of American Legion activities on behalf of the town of Hampton. Budget granted for Patriotic Purposes in 1986 was \$1,000.00.

### Memorial Day:

60 Red Geraniums at 1.75	\$105.00
5 gr. American Flags at 59.90	
Shipping Charge 6.00	305.50
4 Wreaths at 15.00	
1 Wreath at 25.00	85.00
Winnacunnet High Band	34.00
Junior High Band	50.00
3 Buses for Winnacunnet High Band	60.00
12 Markers at 6.40	76.80
Essay Contest	26.74
	<u>\$743.04</u>

### July 4th:

Ice Cream	35.82
Prizes 5.00 & 70.02	75.02
	<u>\$110.84</u>

### November 11th:

2 Wreaths at 12.00	24.00
2 gr. flags 8 x 12 at 59.90	119.80
	<u>\$143.80</u>
	<u>\$997.68</u>

Our deep appreciation to your board and to all units who participated in our town's Memorial Day event. Best wishes to all. Check of \$2.32 enclosed.

Respectfully submitted,

Roland W. Paige, Adjutant

## MUNICIPAL RECORDS COMMITTEE

Early in the year, at the request of Town Clerk Jane Kelley, the Board of Selectmen impaneled a committee to study the use, storage and preservation of town records. The Town Clerk had a number of concerns relative to the public's use of the ancient, fragile records, as well as concerns regarding the crowded and imperfect storage conditions of the town vault.

Each of the citizens appointed had backgrounds as one or more of the following: church, town, state historian, genealogist, librarian, teacher, town clerk, member of the N.H. Municipal Records Board. The Town Clerk called the first meeting for October 29. It was determined that the first priority was to clean out and inventory the contents of the vault, and do some emergency cleaning of the cellar of the Town Office Building. The latter was soon accomplished by the Town Clerk and DPW; that preliminary cleaning and rearranging took place the week of November 3. New rack-shelving in the cellar has become the repository of current records of some of the individual offices since the computers were installed in the building.

The town vault work session was carried out in the afternoon and well into the evening on November 17. Once inventoried, the records, books, documents and memorabilia were rearranged on the vault's shelves and floor alongside the 1891 four-ton tax collector's safe.

The next step is to recommend a policy for the public's use of the records—some of which are nearly 350 years old. Many of the papers and record books up to 1918 were previously microfilmed by the Mormon Church. Duplicates of those six spools have been available for use at the Lane Memorial Library since 1978 when the Selectmen permitted the Mormons to reproduce their microfilms so that the Hampton Historians, Inc., could purchase them and donate them to the library. However, not all researchers are satisfied unless they can examine the original document, and a policy will have to be formulated for consideration by town officials. A continuation of the microfilming is contemplated via a \$500 request in the town clerk's 1987 budget. One way to make more space available in the vault—which is neither temperature-nor humidity-controlled—is to file with the State Archives, or local historical society or library, after microfilming, some of the larger workbooks of town officers. That procedure is in keeping with the statutes on disposition of municipal records and the administrative rules adopted by the N.H. Municipal Records Board pursuant to those statutes.

The town committee is also expected to look into professional records and paper preservation techniques so that the historic documents hand-

ed down to us will not be in a totally disintegrated state by the time of the town's half-millennium in 2136 A.D.

Regarding the town's 350th anniversary of settlement in 1988, Committee Member Helen Hobbs, who was our inventory recorder on November 17, intends to "decipl er" and index one of the handwritten volumes in the vault as her personal contribution to the 1988 commemoration. The book details interesting and unusual incidents, occurences and town meeting activities starting from the earliest days of our town.

Arthur Moody, Chairman

Jane Kelley, Clerk

Helen Hayden

Laura MacLean

Helen Hobbs

Harold Fernald

William Teschek

## 350th ANNIVERSARY COMMITTEE

The year 1987 means we are heading down the home stretch in our preparations for the Town's 350th Anniversary. The Committee has been very busy in recent months finalizing the plans and suggestions that have been brought to us. This does not mean we have closed the doors to further discussion on 1988 but rather we are holding it open for anyone to come forward with a program they believe would be fitting.

We, the Committee, wish to extend an early "Thank You" to the Kiwanis Club of Hampton, its Officers and Members for stepping forward and volunteering to purchase and erect a Flag Pole and Plaque in Bicentennial Park at the end of High Street. Although the project is only partially completed and the actual dedication still to come it behooves us to make mention of it.

We, also, wish to thank those of you who have volunteered to oversee other programs and events which will help to make 1988 a great year for us all.

We expect to have a Program and Souvenir Booklet in print later this year. If anyone wishes to have anything included in the Book, please, come and see us.

In closing may we again call for people to come forward and assist us in this endeavor. Thank you .

On a personal note may I apologize for failing to include a report in the 1986 Town Report.

William C. Wilson,  
Chairman

## 1986 ANNUAL REPORT OF THE HAMPTON FIRE DEPARTMENT

### Summary of 1986 Fire Related Calls:

Box Alarms.....	178
Still Alarms.....	761
Service Calls.....	664
Ambulance Calls.....	867
Walk-In Medical Aid.....	272

On-site inspections and property information update.....	395
Public assist; office visits, calls and complaints.....	472

Target areas for inspection in 1987: hotels, motels and apartment buildings.

Respectfully submitted,  
Stephen H. Bancewicz  
Fire Prevention Officer

### **Training Division**

The Hampton Fire Department has logged approximately 1574 hours of inservice training for both permanent and call force personnel.

Eight (8) fire officers attended a two-day seminar entitled Commanding the Initial Response. This course was part of a National Fire Academy Outreach program and was designed to help train the first-line supervisors on how to command an initial response incident. The course also provided necessary information to improve skills in establishing command, performing size-up, developing and implementing an action plan, transferring Command and organizing an incident using an effective Command system. This was part two of the Fire Command series of programs

### **Report of the Fire Chief**

34 fulltime Fire Fighters

21 Call Fire Fighters

1 fulltime Fire Prevention Officer

1 fulltime Secretary

1986 proved to be another challenging, busy year, running total calls once again to 2742. A breakdown of calls is given on the previous pages.

This Department has started a program that should be on line and in place early in 1987, which is quite challenging and rewarding. Each ambulance as well as being equipped with MAST anti-shock trousers and the latest in E.O.A., will be equipped with defibrillators. The men, who are highly-trained EMT's, will be undertaking defibrillation training. These men do a great job now, but they endeavor to serve and protect the community more efficiently each year. I am proud of them as I know you are.

I wish to take this opportunity to thank the Hampton Police Department and the Department of Public Works for their continued support and assistance throughout the year. To my staff and Department members, "Thank you."

On behalf of all of us in the Hampton Fire Department, we will continue to provide the highest degree of professional fire and ambulance protection affordable.

Respectfully submitted  
Anthony H. Kuncho  
Chief of Department

## HAMPTON POLICE DEPARTMENT ANNUAL REPORT

Full-time Law Enforcement Officers 31  
Part-time Law Enforcement Officers 60  
Full-time Civilian Personnel 7  
Part-time Civilian Personnel 11

### **Administration**

A number of improvements were made this past year in areas concerning safety to the Police Station, computerization, new personnel, records and reporting management, and the districting of cruisers.

Ptlmn. Franklin Knowles was promoted to the rank of Sergeant, and Margaret St. Ours was hired as a full-time secretary for the Bureau of Criminal Investigation. Dispatchers Diane Whitney and Mary-Jo Ganley tendered their resignations, and Miss Stephanie Ross was hired to fill one of those position vacancies. Six new full-time Officers were hired in April 1986, to begin the program of districting areas for responding cruisers. The new Officers are Daniel Florent, Laura Stoessel, Andrew Annicelli, Timothy Galvin, Aaron Pickering, and John Fincher.

Renovations to some of the interior of the Police Station were completed during the first part of the year, including a new dispatch area with safety glass, electric security doors, and central air installed throughout half of the building. Three new radar units were purchased through the cooperation and partial funding by the Federal Government and the New Hampshire Highway Safety Agency, enhancing our patrol operations.

### **Operations Division**

This Division is in the second year under the new organizational structure and is commanded by Dpty. Chief Dennis Pelletier. Eighty-seven uniformed Police Officers (both full-time and part-time) are supervised by Sergeants Victor De Marco, Robert Towler, Don Barnard, John Galvin and Franklin Knowles. Members of the uniformed division are the first to respond to any complaint for problems within our community. It is apparent from the number of calls (13,500), which have increased by 12½% over 1985, and the number of arrests and summonses, along with the services performed by this department, that we have had a very busy year.

The Mounted Patrol Unit, under the command of Sgt. John Galvin, continues to perform very well, and, once again, were involved in many situations this past summer that could have escalated into very serious pro-

1987  
TOWN WARRANT  
AND  
TOWN BUDGET**

**TOWN OF HAMPTON  
STATE OF NEW HAMPSHIRE  
1987  
TOWN WARRANT**

To the inhabitants of the Town of Hampton in the County of Rockingham, said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Uptown Fire Station on Winnacunnet Road on Tuesday, the tenth day of March 1987, at eight o'clock in the forenoon to act upon the following subjects: Article 1 through Article 15.

Pursuant to the action in Article 16 in the 1973 Town Warrant, the Board of Selectmen has set Saturday, March 14, 1987 at ten o'clock in the forenoon at the Winnacunnet High School Auditorium for the second session of the Annual Town Meeting to act upon the following subjects: Article 16 through Article 43.

**ARTICLE 1**

To choose by non-partican ballot: Two (2) Selectmen for three (3) years; One (1) Trustees of the Trust Funds for three (3) years; One (1) Treasurer for one (1) year; Two (2) Library Trustee for three (3) years; One (1) Cemetery Trustee for three (3) years; Two (2) Planning Board for three (3) years; Four (4) Municipal Budget Committee for three (3) years.

**ARTICLE 2**

Shall we adopt the provisions of RSA 72:1-c which authorize any town or city to elect not to assess, levy and collect a resident tax?

**ARTICLE 3**

Shall a charter commission be established for the purpose of revising the municipal charter or establishing a new municipal charter?

**ARTICLE 4**

Charter Commission Members—Vote for not more than six (6).

#### **ARTICLE 5**

Are you in favor of the Adoption of Amendment No. 1 as proposed by the Hampton Planning Board for the Town of Hampton Zoning Ordinance as follows:

**TO SEE IF THE TOWN WILL VOTE TO AMEND** the Zoning Ordinance by adopting the following changes as required to maintain eligibility to participate in the National Flood Insurance Program.

1. To amend Article II. DISTRICTS by adding a new part 2.4 to read as follows:

**SPECIAL FLOOD HAZARD AREA** as delineated on the Flood Insurance Rate Maps of the Town of Hampton dated July 3, 1986, as prepared by the Federal Emergency Management Agency-Federal Insurance Administration.

2. To amend Article II by adding a new part 2.4.1 to read as follows:

The placement of manufactured homes is prohibited within the Special Flood Hazard Area except in existing manufactured home parks.

3. To amend Article II by adding a new part 2.4.2 to read as follows:

Within the Special Flood Hazard Area, any development or encroachment (including fill) which would result in any increase in flood levels during the base flood discharge is prohibited.

4. To amend Article II by adding a new part 2.4.3 DEFINITIONS to read as follows: (Note: These definitions apply only to this article.)

2.4.3-A. "Development" is defined to mean any man-made change to improved or unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

2.4.3-B. "Structure" means a walled and roofed building or manufactured home that is principally above ground.

2.4.3-C. "Basement" means any area of the building having its floor subgrade (below ground level) on all sides.

2.4.3-D. "Substantial Improvement" means any repair, reconstruction, or improvement of a structure the cost of which equals or exceeds 50 percent of the market value of the structure either:

- (1) before the improvement or repair is started , or
- (2) if the structure has been damaged and is being restored, before the damage occurred. For the purpose of this definition "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor, or other structural part of the building commences, whether or not that alteration effects the external dimensions of the structure.

The term does not, however, include either:

- (1) any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specification which are solely necessary to assure safe living conditions, or
- (2) any alteration of a structure listed on the National Register of Historic Places or a State Inventory of Historic Places.

2.4.3-E. "Start of Construction" includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement, or other improvement was

within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds nor occupied as dwelling units or not part of the main structure.

2.4.3-F. “Lowest Floor” means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, able solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building’s lowest floor; provided, that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirements of §60.3. of the National Flood Insurance regulations.

2.4.3-G. “Functional dependent use” means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

2.4.3-H. “Manufactured home” means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For flood plain management purposes the term “manufactured home” also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days. For in-

insurance purposes the term "manufactured home" does not include park trailers, travel trailers, and other similar vehicles.

2.4.3-I. "Base flood" means the flood having a one percent chance of being equalled or exceeded in any given year.

2.4.3-J. "One hundred year flood" refer to Base Flood definition.

2.4.3-K. "Flood Insurance Rate Map" (FIRM) means the official map on which the Federal Insurance Administration has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

2.4.3-L. "Regulatory Floodway" means the channel of a river or other water-course and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

2.4.3-M. "Area of shallow flooding" means a designated AO or VO zone on the Flood Insurance Rate Map (FIRM). Possible characteristics are: the baseflood depths range from one to three feet; a clearly defined channel does not exist; the path of flooding is unpredictable and indeterminate; and velocity flow may be evident.

2.4.3-N. "Area of special flood hazard" means the land in the flood plain within a community subject to a one percent or greater chance of flooding in any given year.

2.4.3-O. "Coastal high hazard area" means the area subject to high velocity waters, including but not limited to, hurricane wave wash or tsunamis. The area is designated on a FIRM as Zone V1-30.

2.4.3-P. For appeals and requests for variances from this article, see Article 2.4.4.

5. To amend Article II by adding a new part 2.4.4, APPEALS AND REQUESTS FOR VARIANCES.

2.4.4-A. The Zoning Board of Adjustment as established by the Town of Hampton shall hear and decide appeals and requests for variances from the requirements of this Article.

2.4.4-B. In passing upon such application, the Zoning Board of Adjustment shall consider all technical evaluations, all relevant factors, standards specified in other sections of this article, and:

- (1) the danger that materials may be swept onto other lands to the injury of others;
- (2) the danger to life and property due to flooding or erosion damage;
- (3) the susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
- (4) the importance of the services provided by the proposed facility to the community;
- (5) where applicable, the necessity of a waterfront location to the facility;
- (6) the availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
- (7) the compatibility of the proposed use with existing and anticipated development;
- (8) the relationship of the proposed use to the Master Plan and flood plain management program of that area;
- (9) for safety of access to the property in times of flood for ordinary and emergency vehicles;
- (10) the expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters, and the effects of wave action, if applicable, expected at the site; and,
- (11) the costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges.

2.4.4-C. Building Inspector shall maintain the records of all appeal actions and report any variances to the Federal Insurance Administration upon request.

2.4.4-D. Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this section.

2.4.4-E. Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that;

- 1) the criteria of this section are met, and
- 2) the structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.

2.4.4-F. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

2.4.4-G. Variances shall be issued only upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.

2.4.4-H. Variances shall be issued only upon:

- 1) a showing of good and sufficient cause;
- 2) a determination that failure to grant the variance would result in exceptional hardship to the applicant; and
- 3) a determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expenses, create nuisances, cause fraud on or victimization of the public as identified in 2.4.4-B., or conflict with existing local laws or ordinances.

2.4.4-1. The Board of Appeals shall notify the applicant in writing over the signature of the chairman of the Board of Appeals that:

- 1) The issuance of a variance to construct a structure below the base flood level will result in greatly increased premium rates for flood insurance; and
- 2) Such construction below the base flood level increases risks to life and property.

6. To amend Article XI by adding a new section 11.6, FLOODPLAIN DEVELOPMENT REGULATIONS.

The following regulations shall apply to all lands designated as flood hazard areas by the Federal Emergency Management Agency in its "Flood Insurance Study for the Town of Hampton, N.H." together with the associated Flood Insurance Rate Maps of the Town of Hampton, N.H., dated July 3, 1986, which are declared to be part of this ordinance.

11.6.1. All proposed development in any special flood hazard area shall require a permit. See definitions Article 2.4.3-A.

11.6.2. The building inspector shall review all building permit applications for new construction or substantial improvements and require:

- a) Anchoring (including manufactured homes) to prevent flotation and lateral movement.
- b) Use of flood resistant materials and utility equipment.
- c) Construction methods which minimize flood damage.
- d) Electrical, heating, ventilation, plumbing, and air-conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

11.6.3. Where new and replacement water and sewer systems (including on-site systems) are proposed in flood-prone areas, the applicant shall provide the Building Inspector with assurance that new and replacement sanitary sewage systems will be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters, and on-site waste disposal systems be located to avoid impairment to them or contamination from them during flooding.

11.6.4. The Building Inspector shall maintain for public inspection and furnish upon request any certification of flood-proofing, and information on the elevation (in relation to the National Geodetic Vertical Datum (NGVD)) of the level of the lowest floor (including basement) of all new or substantially improved structures, and include whether or not such structures contain a basement, and if the structure has been floodproofed, the elevation (in relation to NGVD) to which the structure was floodproofed. This information must be furnished by the applicant.

11.6.5. The Building Inspector shall review proposed developments to assure that all necessary permits have been applied for and/or received from those governmental agencies from which approval is required by Federal and State law, including Section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334. It shall be the responsibility of the applicant to certify these assurances to the Building Inspector.

11.6.6. In riverine situations, prior to the alteration or relocation of a watercourse, the applicant for such authorization shall notify the Civil Defense Agency and the Wetlands Board and submit copies of such notification to the Building Inspector and the Federal Emergency Management Agency. Further, the applicant shall be required to submit copies of said notification to those adjacent communities as determined by the Building Inspector. Within the altered or relocated portion of any watercourse, the applicant shall submit to the Building Inspector, certification provided by a registered professional engineer assuring that the flood carrying capacity of the watercourse has been maintained.

The following requirements shall apply in specific zones designated on the Flood Insurance Rate Map.

11.6.7. In unnumbered "A" Zones, as defined on the Flood Insurance Rate Map, the Building Inspector shall obtain, review, and reasonably utilize any 100 year flood elevation and floodway data available from a Federal, State, or other source, until such other data has been provided by the Administrator, as criteria for requiring that:

- a) All new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level.
- b) All new construction and substantial improvements of non-residential structures have the lowest floor (including basement) elevated to or floodproofed to or above the 100 year flood level.
- c) Encroachments, including fill, new construction or substantial improvements, and any other development shall be prohibited in any floodway unless a technical evaluation demonstrates that the encroachments will not result in any increase in flood levels during the occurrence of the base flood discharge.

11.6.8. In "AO" Zone the Building Inspector shall require;

- a) That all new construction and substantial improvements of residential structures have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the FIRM (at least two feet if no depth number is specified);
- b) That all new construction and substantial improvements of non-residential structures
  - (i) have the lowest floor (including basement) elevated above the highest adjacent grade at least as high as the depth number specified in feet on the community's FIRM (at least two feet if no depth number is specified), or
  - (ii) together with attendant utility and sanitary facilities be completely floodproofed to that

level to meet the floodproofing standard specified in §60.3 of the National Flood Insurance Program and Related Regulations.

11.6.9. In Zones “A1 through A30”, as defined on the Flood Insurance Rate Map, for new construction and substantial improvements, the Building Inspector shall require that:

- a) Residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level.
- b) Non-residential structures have the lowest floor (including basement) elevated to or above the 100 year flood level; or together with the attendant utility and sanitary facilities, to be designed so that below the 100 year flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.
- c) For all new construction and substantial improvements, fully enclosed areas below the lowest floor that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or must meet or exceed the following minimum criteria:  
A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided. The bottom of all openings shall be no higher than one foot above grade. Openings may be equipped with screens, louvers, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.

11.6.10. In Zones “A1 through A30”, where floodproofing is used in lieu of elevation, a registered professional engineer or architect shall certify to the Building Inspector that the floodproofing methods used are adequate to with-

tand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 100 year flood.

11.6.11. In Zones "A1 through A30", for new, substantially improved, or expanded manufactured home parks, the Building Inspector shall require that:

- a) Stands or lots are elevated on permanent foundation or on pilings so that the lowest floor of the home will be at or above the 100 year flood level.
- b) Adequate surface drainage and access for a hauler are provided; and,
- c) In the instance of elevation on pilings:
  1. lots are large enough to permit steps;
  2. piling foundations are placed in stable soil and are no more than ten feet apart; and,
  3. reinforcement is provided for pilings that extend more than six feet above the ground level.

11.6.12. In numbered "A zones and in zones A1 through A30", manufactured homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties to the ground anchors. Specific requirements shall be that

- (i) over-the-top ties be provided at each of the four corners with two additional ties per side at intermediate locations and manufactured homes less than 50 feet long shall require one additional tie per side;
- (ii) frame ties be provided at each corner with five additional ties per side at intermediate points and manufactured homes less than 50 feet long shall require four additional ties per side;
- (iii) all components of the anchoring system shall be capable of carrying a force of 4,800 pounds; and
- (iv) any additions to the manufactured home shall be similarly anchored.

11.6.13. In Coastal High Hazard Areas, designated as zones V1-30 on the community's Flood Insurance Rate Map, all development shall meet the following standards:

1. All new construction shall be located to the landward of the reach of mean high tide.
2. All new construction and substantial improvements shall be elevated on adequately anchored pilings or columns and securely anchored to such pilings or columns so that,
  - (i) the lowest portion of the structural members of the lowest floor (excluding the pilings or columns) is elevated to or above base flood level. A registered professional engineer or architect shall certify that the structure is securely anchored to adequately anchored pilings or columns in order to withstand velocity waters and hurricane wave wash and,
  - (ii) the pile or column foundation and structure attached thereto is anchored to resist flotation, collapse and lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Wind and water loading values shall each have a one percent chance of being equalled or exceeded in any given year (100-year mean recurrence interval). A registered professional engineer or architect shall develop or review the structural design, specifications and plans for the construction, and shall certify that the design and methods of construction to be used are in accordance with acceptance standards of practice for meeting the provisions of this paragraph.
3. Within zones V1-V30, VE, and V on the community's FIRM, a registered professional engineer shall provide the Building Inspector with the elevation (in relation to mean sea level) of the bottom of the lowest structural member of the lowest floor (excluding pilings and columns) of all new and substantially improved structures, whether or not such structures contain a basement.
4. Provide that all new construction and substantial improvements, within Zones V1-30, VE, and V on the community's FIRM, have the space below the lowest floor either free of obstruction or constructed with non-

supporting breakaway walls, open wood lattice-work, or insect screening intended to collapse under wind and water loads without causing collapse, displacement, or other structural damage to the elevated portion of the building or supporting foundation system. For the purposes of this section, a breakaway wall shall have a design safe loading resistance of not less than 10 and no more than 20 pounds per square foot. Use of breakaway walls which exceed a design safe loading resistance of 20 pounds per square foot (either by design or when so required by local or State codes) may be permitted only if a registered professional engineer or architect certifies that the designs proposed meet the following conditions:

- (i) breakaway wall collapse shall result from a water load less than that which would occur during the base flood; and,
- (ii) the elevated portion of the building and supporting foundation system shall not be subject to collapse, displacement, or other structural damage due to the effects of wind and water loads acting simultaneously on all building components (structural and non-structural). Maximum wind and water loading values to be used in this determination shall each have a one per-cent chance of being equalled or exceeded in any given year (100-year mean recurrence interval).

Such enclosed space shall be usable solely for parking of vehicles, building access or storage.

5. The use of fill for the structural support of buildings is prohibited.
6. The placement of manufactured homes is prohibited.
7. Man-made alterations of sand dunes which would increase potential flood damage is prohibited.

## **ARTICLE 6**

Are you in favor of the adoption of Amendment No. II as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend the Zoning Ordinance by amending the definition of ACCESSORY BUILDINGS AND USES contained in Article 1.6.1 to read as follows:

ACCESSORY USE: A use which is occasioned by the principal use but subordinate to it, and customarily associated with the principal use.

## **ARTICLE 7**

Are you in favor of the adoption of Amendment No. III as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend the Zoning Ordinance by amending the definition of DWELLING UNIT contained in Article 1.6.2 to read as follows:

DWELLING UNIT: Any building or portion thereof, containing no less than 330 square feet of floor space, occupied, or designed or intended to be occupied, in whole or in part, by one or more individuals residing together, either permanently or transiently, containing or having access to living, cooking, sanitary and sleeping facilities.

## **ARTICLE 8**

Are you in favor of the adoption of Amendment No. IV as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend the Zoning Ordinance by deleting the definition of MOBILE HOME contained in Article 1.6.6 and add a new definition, MANUFACTURED HOME as follows:

MANUFACTURED HOME: A structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For Flood Plain Management purposes the term MANUFACTURED HOME also includes park trailers, travel trailers, and other similar vehicles placed on a site for greater than 180 consecutive days.

Note: The adoption of this amendment would serve to change all references to MOBILE HOME within the Zoning Ordinance to MANUFACTURED HOME.

### **ARTICLE 9**

Are you in favor of the adoption of Amendment No. V as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend the Zoning Ordinance by amending the definition of FRONTAGE contained in Article 1.6.18 to read as follows:

**FRONTAGE:** The length of the lot bordering on and providing access to a public right of way. Footage requirements specified in Article IV of this Ordinance shall be contiguous.

### **ARTICLE 10**

Are you in favor of the adoption of Amendment No. VI as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend Article III, USE REGULATIONS, by removing the following permitted uses from the GENERAL (G) zone:

1. Garages, parking lots and filling stations, provided that no new filling station be located within a radius of 1,000 feet of an existing station. A filling station is defined as an area of land with structures thereon that is used for the sale of gasoline, diesel oil for motor vehicles, fuel, oil, and other lubricating materials. (Section 3.26)
2. The manufacturing, storage, processing of, sale of and use of materials classified or deemed hazardous. (Section 3.38)

### **ARTICLE 11**

Are you in favor of the adoption of Amendment No. VII as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend Article IV of the Zoning Ordinance, DIMENSIONAL REQUIREMENTS, by amending Article 4.1 to read as follows:

MINIMUM LOT AREA: 87,120 square feet in RESIDENCE AA ZONE. (Currently 43,560 square feet)

### ARTICLE 12

Are you in favor of the adoption of Amendment No. VIII as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend Article IV of the Zoning Ordinance, DIMENSIONAL REQUIREMENTS, by amending the requirements for the GENERAL (G) zone as follows:

1. Change MINIMUM LOT AREA requirement from zero to 15,000 sq. ft. (Sec-4.1)
2. Change MINIMUM LOT AREA PER DWELLING UNIT requirement from 3,000 square feet to 15,000 square feet. (Sec. 4.1.1)
3. Change MINIMUM LOT WIDTH requirement from zero to 125 feet. (Sec. 4.3)
4. Change MAXIMUM STORIES/FT. requirement from 0/50' to 3/35'. (Sec. 4.4)
5. Change MINIMUM FRONT SETBACK requirement from zero to 10'. (Sec. 4.5.1)
6. Change MINIMUM SIDE SETBACK requirement from 4' to 7'. (Sec. 4.5.2)
7. Change MINIMUM REAR SETBACK requirement from 4' to 7'. (Sec. 4.5.3)
8. Change MINIMUM SQUARE FOOTAGE PER DWELLING UNIT requirement from 400 square feet to 500 square feet. (Sec. 4.6)

### ARTICLE 13

Are you in favor of the adoption of Amendment No. IX as proposed by the Planning Board for the Town of Hampton Zoning Ordinance as follows:

TO SEE IF THE TOWN WILL VOTE TO amend Article 6.3, PARKING REQUIREMENTS, section 6.3.3, to read as follows:

Professional, general office or service use: At least one space per 200 square feet. At site plan review or use change request, Planning Board may require more spaces, up to one per 50 square feet.

## ARTICLE 14

Are you in favor of the adoption of Amendment No. X as proposed by petition of the voters for the Town of Hampton as follows:

We, the undersigned, being legal voters in the Town of Hampton, hereby petition the Hampton Board of Selectmen to place the following Article on the Hampton Town Warrant for the Annual Town Meeting to be held in March, 1987.

TO SEE IF THE TOWN WILL VOTE TO AMEND the zoning map and zoning ordinance of the Town of Hampton by rezoning to General (G) use, that portion of the area presently zoned for Industrial (I) use bounded and described as follows:

Located 500' southerly of the southerly sideline of Towle Farm Road and further described as follows:

Beginning at a point on the common boundary line of land now or formerly Samuel A. Towle and Towle Farm Realty Trust, said point being S 12<sup>o</sup> 04' 57'' W, 188.95' from the southwesterly corner of land now or formerly of Charles S. and Julia Miller; thence proceeding from said point across land of said Towle Farm Realty Trust N 87<sup>o</sup> 30' 00'' E, 130.08' to a point; thence turning and proceeding N 15<sup>o</sup> 37' 23'' E, 32.80' to a point; thence turning and proceeding along a curve to the right of radius 1481.19' an arc distance of 122.16' to a point; thence proceeding from said point S 55<sup>o</sup> 02' 56'' E, 230.00' to a point in Drakes River, the previous four courses all being across land now or formerly of Towle Farm Realty Trust and 500' distant from the southerly sideline of Towle Farm Road; thence turning and proceeding from said point in Drakes River southerly along said Drakes River 1560 ± to a point at the end of a barbed wire fence in said river; thence turning and proceeding along said barbed wire fence and along land now or formerly of Eleanor J. Woodman N 81<sup>o</sup> 43' 07'' W, 85.45' to a fence post in said fence; thence turning and proceeding still along land of said Woodman N 34<sup>o</sup> 57' 08'' W, 237.70' to a 10'' oak tree; thence proceeding still along land of said Woodman along a barbed wire fence from said tree N 49<sup>o</sup> 47' 33'' W, 17.75' to a 7'' oak tree; thence proceeding still along land of said Woodman from said tree N 26<sup>o</sup> 45' 40'' W, 62.18' to an 8'' oak tree; thence turning and proceeding still along land of said Woodman along said fence from said tree N 12<sup>o</sup> 15' 50'' E, 401.91' to a tack in a telephone pole at land now or formerly of Samuel A. Towle; thence proceeding along said fence still along land of said Towle N 12<sup>o</sup> 20' 09'' E, 757.58' to the point of beginning. Being a portion of Lot 27 Town Tax Map 400.

(Recommended by the Planning Board)

## ARTICLE 15

Are you in favor of the Adoption of Amendment No. XI as proposed by petition of the voters for the Town of Hampton as follows:

WE, the undersigned, being legal voters in the Town of Hampton, hereby petition the Hampton Board of Selectmen to place the following Article on the Hampton Town Warrant for the Annual Town Meeting to be held in March, 1987.

TO SEE IF THE TOWN WILL VOTE TO AMEND the zoning map and zoning ordinance of the Town of Hampton by rezoning to Industrial (I) use, that portion of the area presently zoned for Residence A (RA) use bounded and described as follows:

Located on the southerly side of Towle Farm Road and further described as follows:

Beginning at an iron rod on the southerly sideline of Towle Farm Road at land now or formerly of Drakes River Nominee Trust known as Merrill Industrial Park; thence proceeding from said iron rod S 04° 45' 40" W, 178.21' to a granite bound; thence turning and proceeding from said granite bound S 56° 35' 48" W, 152.68' to a point in the Drakes River; thence turning and proceeding from said point in Drakes River northerly in said River 367' ± to a point in the southerly sideline of Towle Farm Road; thence turning a proceeding S 55° 02' 56" E, 52' ± to a point still in the southerly sideline of Towle Farm Road; thence continuing along Towle Farm Road along a curve to the right of radius 195.57', an arc distance of 46.62' to the point of beginning. Being a portion of Lot 27 Map 400 Town Tax Map.

## ARTICLE 16

The undersigned legal voters of the Town of Hampton respectfully request that the following item be placed in the Town Warrant for consideration at the Annual Town Meeting to be held on the second Tuesday of March, 1987:

(a) To see if the Town will raise and appropriate the sum of \$2,950,000.00 dollars for the purpose of building and equipping a Community Center in accordance with the report and recommendations submitted by the Recreational Facilities Study Committee to the Board of Selectmen for their November 10, 1986 meeting, said sum to be raised

by the issuance of Serial Bonds or Notes not to exceed \$2,950,000.00 under and in compliance with the provisions of the Municipal Finance Act (N.H.R.S.A. 33:1-18 et. seq. as amended) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereof, and to take such other actions as may be necessary to effect the issuance, negotiation, sale, and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton.

(b) To allow the Selectmen to apply for and accept any such monies which may become available through state or federal grants and/or private sources.

(NOT recommended by the Budget Committee)

### ARTICLE 17

To see if the Town will vote to raise and appropriate a sum of \$705,000. for the purchase of the following equipment, starting the closure of the Town's existing landfill, and providing a maintenance garage for the Town's vehicles. These facilities and equipment will be used by our Department of Public Works to more efficiently perform their ever increasing work load required by our growing Town and future solid waste needs. The expenditure of the \$705,000. will be for:

1) D6 Bulldozer (landfill)	\$120,000.
2) 10-wheel Dump Truck (Sewer)	80,000.
3) Crawler Backhoe (equal to Cat 215) w/ 20-Ton Trailer	99,000.
4) Truck w/Mounted Catch Basin Cleaning Unit	65,000.
5) 14-yard Dump Truck (Closure Plan)	80,000.
6) Acquisition of land including survey and engineering expenses	125,000.
7) Maintenance Garage	135,700.

Such sum to be raised by the issuance of Serial Bonds or Notes not to exceed \$705,000. under and in compliance with provisions of the Municipal Finance Act (N.H.R.S.A. 33.1 et seq., as amended) and to authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other actions as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of

Hampton, and to allow the Selectmen to expend such monies as become available from any income derived from temporary investment of the bond proceeds and pass any vote relating thereto for the above purposes.

(Recommended by the Budget Committee)

#### **ARTICLE 18**

To see if the Town will vote to:

- (A) Appropriate the sum of One Hundred Sixty-five Thousand (\$165,000.00) dollars to purchase a new Tanker/Pumper to replace the existing 1979 Maxim Pumper, Engine No. 2, which is no longer a reliable piece of fire apparatus.
- (B) Authorize the Selectmen to issue and sell such bonds or notes and determine the rate of interest to be paid thereon as may be necessary to effect issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interest of the Town of Hampton, New Hampshire.
- (C) Authorize the Selectmen to enter into agreements and contracts to take other action necessary to purchase said fire truck and to apply for and to accept State or Federal grants in aid of such project.
- (D) Any other action in connection with the foregoing matters or any one of them.

With passage of this Article, the new pumper will be ordered this year with expected delivery in 1988.

(Recommended by the Budget Committee)

#### **ARTICLE 19**

To see if the Town will vote to accept the Budget as submitted by the Municipal Budget Committee and to raise and appropriate the sum of \$9,284,812.00.

#### **ARTICLE 20**

The undersigned legal voters of the Town of Hampton respectfully request that the following item be placed in the Town Warrant for consideration at the Annual Town Meeting to be held on the second Tuesday of March, 1987:

(a) To see if the Town will raise and appropriate the sum of \$100,000 Dollars for the purpose of preparing final drawings and contract documents for a Community Center in accordance with the report and recommendations submitted by the Recreational Facilities Study Committee to the Board of Selectmen for their November 10, 1986 meeting.

(b) To allow the Selectmen to apply for and accept any such monies which may become available through state or federal grants and/or private sources.

(NOT recommended by the Budget Committee)

#### **ARTICLE 21**

To see if the Town will vote to give the Selectmen and Town Treasurer power to borrow in anticipation of taxes.

#### **ARTICLE 22**

On petition of John J. Nickerson and ten or more registered voters of the Town of Hampton:

To see if the Town will vote to raise and appropriate the sum of One Thousand Dollars (\$1,000.00) to be used to mark the Hampton Fire Department's Chief's car, with roof lights and the necessary markings on the doors.

(Recommended by the Budget Committee)

#### **ARTICLE 23**

On petition of Jane Kelley and 33 other registered voters of the Town of Hampton:

To see if the Town will raise and appropriate \$26,738.00 for the salary of the Town Clerk of the Town of Hampton and \$26,738.00 for the salary of the Collector of Taxes of the Town of Hampton.

(NOT recommended by the Budget Committee)

#### **ARTICLE 24**

On petition of Ashton J. Norton and ten or more registered voters of the Town of Hampton, to see if the Town will vote to raise and appropriate the sum of Eighty Seven Thousand Five Hundred (\$87,500.) to increase

the salaries of contractual and non-contractual permanent employees pay plan three and one half percent (3½%). This does not include the managerial pay plan or elected officials or contract negotiations presently in progress.

(NOT recommended by the Budget Committee)

#### **ARTICLE 25**

We, the undersigned, request that the Board of Selectmen vote to place an article before the town meeting on March 14, 1987 to appropriate funds for the continuation and repair of the sidewalk parallel to Exeter Road from Route 1 to Stowcroft Drive. We estimate the cost to be approximately \$15,000.00

(NOT recommended by the Budget Committee)

#### **ARTICLE 26**

On petition of ten or more legal voters of the Town of Hampton, to see if the Town will vote to appropriate the sum of \$8,050. to be deposited in the Burial Ground Trust Fund (established by the 1986 Annual Town Meeting), the income from which shall be withdrawn annually and used for the maintenance of cemeteries, and to allow any part of the Fund itself to be appropriated for cemetery capital projects and/or capital purchases upon a two-thirds vote of any future Town Meeting. The 1986 sum was obtained as revenue from the sale of cemetery graves during that year and will offset the appropriation, therefore having no effect on the 1987 tax rate.

(Recommended by the Budget Committee)

#### **ARTICLE 27**

To see if the Town will vote to appropriate the sum of Eight Thousand, Fifty (\$8,050.00) to be deposited in the Cemetery Burial Trust Fund, the interest from which shall be withdrawn annually and used for maintenance of cemeteries. This sum was obtained as revenue from the sale of cemetery lots during 1986 and will offset the appropriation, therefore having no effect on the 1987 tax rate.

(NOT recommended by the Budget Committee)

## **ARTICLE 28**

To see if the Town will vote to raise and appropriate Five Thousand (\$5,000.00) dollars to dispose of the Arnold building and to do so in the following manner:

- First**            Advertise and sell the building as is to be moved from the existing site by the buyer, or disassembled by the buyer for the lumber and other building materials with the stipulation that the buyer remove his purchase except for the foundation from the existing site, the above to be sold to the highest bidder within sixty (60) days of the first "for sale" notice. (If the building is sold under this condition, the Five Thousand (\$5,000.00) dollars appropriated by the Article or any part thereof not used for sales expenses shall be deposited as revenue for the purpose of offsetting taxes at the end of the year.)
- Second**          If not sold within sixty (60) days, the Town shall have the building taken down and the materials sold and/or removed from the site. Any revenue obtained by sale of material will be deposited as revenue.

(Recommended by the Budget Committee)

## **ARTICLE 29**

To see if the Town will vote to appropriate a sum of Ten Thousand (\$10,000.00) dollars for the acquisition of real property from David S. Garland and Barbara Garland Woods, individually and as co-executors of the Estate of O. Raymond Garland, a portion of which land is presently occupied by the Town's landfill and to authorize the Board of Selectmen to take all other necessary and proper actions to complete the purchase. The said land being shown on Town of Hampton tax map no. 206 as lot no. 44 and being the rear portion of said lot distant from Winnacunnet Road.

## **ARTICLE 30**

On petition of Gerald Dignam and 10 or more registered voters of the Town of Hampton:

To see if the town will vote to raise and appropriate the sum of Two Thousand (\$2,000.00) dollars to help defray the expenses of the 1987 Christmas Parade. Said funds to be paid to the Hampton Beach Chamber

of Commerce.

(NOT recommended by the Budget Committee)

### ARTICLE 31

To see if the Town will vote to appropriate and authorize the withdrawal from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972 for the use as set-off against budget appropriations for the following specific purposes and in amounts indicated herewith or take any other action herein:

<u>Appropriation</u>	<u>Amount</u>
Police	\$2,000.
Fire	2,000.
Public Works	<u>2,000.</u>
	\$6,000.

(Recommended by the Budget Committee)

### ARTICLE 32

On petition of Peter E. Tilton, Jr., and ten or more legal voters, to see if the Town will vote to raise and appropriate the sum of Thirty Thousand (\$30,000.00) dollars for the Conservation Commission Accumulation Fund, said sum to be applied to the protection of undeveloped lands in Hampton and the management of said lands for the public good, per the recommendations of the Conservation Land Bank Committee. (\$75,000.00 recommended by the Budget Committee)

### ARTICLE 33

On petition of Peter E. Tilton, Jr., and nine or more other legal voters, to see if the Town will vote to authorize the Conservation Commission to manage the town forests in accordance with the provisions of RSA 31-11: Section 2 and direct all proceeds accruing from the management of the town forests to be placed in a Town Forest Fund to be managed by said Commission and utilized for the management of the town forests.

### ARTICLE 34

On petition of Peter E. Tilton, Jr., and nine or more other legal voters:  
Resolution

Whereas, the Timber Swamp Area, including Wolf Hill and parts of the Taylor River Watershed, is one of the largest undeveloped blocks of open space in Hampton, and

Whereas, the Timber Swamp Area contains vital water, forest and wildlife resources, and

Whereas the Timber Swamp Area is unique with regard to the diversity of wildlife species and habitats found nowhere else in Hampton, and

Whereas, these values and resources are central to the present and future scenic character of the town:

Now, therefore be it resolved that the Timber Swamp Area be designated as an area of vital natural resource value to the Town of Hampton, and further that the Town will endeavor to work with the landowners of this area to conserve and protect their natural resources.

### **ARTICLE 35**

On petition of Peter E. Tilton, Jr., and nine or more other legal voters:

Whereas, the 500 acre Twelve Shares Area is one of the largest undeveloped blocks of open space in Hampton, and

Whereas, the Twelve Shares Area contains vital water, forest and wildlife resources, and

Whereas, the Twelve Shares Area is of historical significance, and

Whereas, these values and resources are central to the present and future scenic character of the town:

Now, therefore, be it resolved that the Twelve Shares Area be designated as an area of vital natural resource value to the Town of Hampton, and further that the Town will endeavor to work with the landowners of this area to conserve and protect their natural resources.

### **ARTICLE 36**

To see if the Town will vote to instruct the moderator to appoint three (3) citizens to serve on a special unpaid committee to be known as the Regional Refuse Disposal Planning Committee for the purpose of studying the advisability of establishing a regional refuse disposal district and drawing up a proposed agreement therefore as authorized by RSA 53:b.

### **ARTICLE 37**

Shall the Selectmen of the Town of Hampton be given the authority to negotiate with the Town of Rye on a sewer hook-up if the State and/or

Federal Government allows up to 75% of the cost of construction of the Northeast Interceptor?

#### **ARTICLE 38**

Shall the Town of Hampton establish a Historic District Commission for the purpose of doing research and establishing criteria for forming a Historic District or Districts in Hampton, such board to consist of five (5) members one (1) of whom shall be a selectman, one (1) a member of the Planning Board, and three (3) to be appointed by the Board of Selectmen for the initial terms of one (1), two (2), and three (3) years to expire March 31 each year. Following the initial term, such appointment shall be for three (3) years. Such Commission shall furnish a report to the 1988 Town Meeting with their recommendations.

#### **ARTICLE 39**

NOW COME, George C. Manix and Elaine A. Manix of 26 Birch Road, Hampton, New Hampshire and the undersigned registered voters of the Town of Hampton and petition the Town Meeting as follows:

To see if the Town will vote to abandon and discontinue that roadway located between Lots 19, 20, 21 and 22 as shown on a certain plan entitled "Plan of Lots for John B. Hines and John J. Walsh, Hampton, N.H., March 1953" by John W. Durgin, Rockingham Registry of Deeds Plan #02045. Also new tax map #181 lots 19, 20, 21, 22.

#### **ARTICLE 40**

To see if the Town will vote to protect the health and safety of all residents by directing town public safety officials to insure that town emergency plans take into consideration the operation of Seabrook Station, providing that the cost of these plans will be borne by the Seabrook owners through existing agreements with the State of New Hampshire. These plans shall be developed regardless of any decision to reduce the official Emergency Planning Zone around Seabrook Station.

#### **ARTICLE 41**

The undersigned, registered voters of the Town of Hampton, petition and request that the following Article be included on the Warrant to be considered and voted upon at the forthcoming 1987 Town Meeting, pursuant to RSA 39:3.

To see if the Town will vote to instruct the town's representatives to the General Court to take all necessary measures to insure that no low

level radioactive waste from the Seabrook nuclear plant shall be stored or disposed of within this Town of Hampton unless and until the proposed site of the proposed storage or disposal has been approved by the voters of the town at the annual Town Meeting by written ballot.

#### **ARTICLE 42**

To see if the Town will vote to authorize the Board of Selectmen to accept grants and/or gifts for the Town of Hampton.

#### **ARTICLE 43**

To transact any other business that may legally come before this meeting.

A true copy attest:

Glyn P. Eastman, Chairman  
Dona R. Janetos

blems, if it were not for the combined equestrian and law enforcement skills displayed in quelling these situations. Four members of this unit attended the Third Annual Mounted Police Colloquim at the Eastern Kentucky University, Richmond, Kentucky, in October.

We appear to be fatality free for the year in regard to pedestrian and motor vehicle accidents and feel that the strict enforcement of alcohol laws, especially the Open Container Ordinance, has helped to prevent any further fatalities.

### **Administrative Services Division**

The Administrative Services Division is commanded by Dpty. Chief William Wrenn and consists of twenty-six officers and civilians, to include the Criminal Bureau (Detectives, Youth Services, and Photo Lab), and Administrative Services (Court Section, Records and Communications, Training, Internal Affairs, Parking Enforcement, Vehicle Maintenance, Facilities Maintenance, and Animal Control).

Along with the purchase and installation of a computer terminal in December 1985, the department became computerized by joining the State Police On-Line Telecommunications Systems (SPOTS). We have also purchased an IBM System 36 to facilitate our day to day operations, including the Daily Log, Uniform Crime Reports, Officer Activities, and many other on-going activities.

The Criminal Bureau, under the direction of Det. Sgt. George Bateman, has continued to successfully investigate those serious crimes being committed in our community.

#### *Cases entered into the Rockingham County Grand Jury, resulting in True bills:*

<i>Falsifying Physical Evidence.....</i>	<i>1</i>
<i>Fraudulent Use of Credit Card.....</i>	<i>1</i>
<i>Issuing Bad Checks.....</i>	<i>5</i>
<i>Habitual Offender.....</i>	<i>1</i>
<i>Forgery.....</i>	<i>18</i>

Alcohol Related.....	72
Theft (shoplifting).....	24
Child Abuse/Neglect.....	49
Criminal Mischief.....	12

One can see from the above statistics that B.C.I. had a busy year, and the members of that division continue to do a fine job, including Det. Arthur Wardle, the Youth Service Officer, who has successfully maintained a very heavy caseload in dealing with juveniles and family problems.

The workload for the court and records section has increased this past year, with a total of approximately 4800 cases processed through that

office. Officer Thomas Lyons continues to perform well in his position as Prosecutor, with the assistance of Secty. Gail Thomas and, during the summer, Special Officer John Donaldson.

The department continues to up-date the training of all Officers, both full-time and part-time, including Dispatchers, by mandatory and voluntary attendance at various training sessions and seminars. Many man-hours are expended in regard to firearms training and yearly certifications, as still required by the New Hampshire Police Standards and Training Council, and at least 100 hours of instruction by certified instructors are required for each new Special Police Officer in the In-service Training classes. As all of the schools and seminars, along with each Officer's name, are too numerous to mention, a few of those completed were Supervisors School, Officers Survival School, D.W.I. School, Interviews and Interrogation, Sex Crimes Investigation, Firearms Instructor Refresher Course, Juvenile Officer Institute, Verbal Defense and Diffusion, Intoximeter School, Accident Investigation School, and Shotgun Instructors School. Due to the support of the Town of Hampton, and the day-to-day emphasis on adequate training, members of the Hampton Police Department remain among the best trained in the State of New Hampshire.

### SUMMARIES

### **Conclusion**

My staff and I would like to extend our sincere appreciation to all the members of the Hampton Police Department for their continued professional performance of duties. Dpty. Chief Pelletier, Dpty. Chief Wrenn, and I would also like to thank the respective departments in the Town of Hampton for their invaluable cooperation through the years and wish the departed Public Works Director, George Hardardt, the very best in all future endeavors.

And last, but not least, our sincere appreciation to the residents of the Town for their concern and support, as we strive to better our department; to better our law enforcement skills, and to meet the needs of our community.

Respectfully submitted,  
 Robert E. Mark  
 Chief of Police

HAMPTON BEACH VILLAGE DISTRICT

FINANCIAL STATEMENT

DECEMBER 31, 1986

WILLIAM C. YOUNGCLAUS

INCORPORATED IN THE STATE OF NEW HAMPSHIRE

SEABROOK PROFESSIONAL BUILDING  
101 AVENUE TO WOODS APPROX NEW HAMPSHIRE 03842

The Board of Commissioners  
Hampton Beach Village District  
Hampton Beach, New Hampshire 03842

We have examined the combined financial statements of the Hampton Beach Village District as of and for the year ended December 31, 1986. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described more fully in Note 1, the combined financial statements referred to above, do not include property, plant, or equipment asset balances and corresponding depreciation accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that the omission of the accounts described above result in an incomplete presentation, as explained in the preceding paragraph, the combined financial statements referred to above present fairly the financial position of the Hampton Beach Village District at December 31, 1986, and the results of its operations and changes in financial position of its proprietary fund types for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The combining, individual fund, and schedules are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Hampton Beach Village District. This information has been subjected to the auditing procedures applied in the examination of the combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

WILLIAM C. YOUNGCLAUS, CERTIFIED PUBLIC ACCOUNTANT

HAMPTON BEACH VILLAGE DISTRICT  
Notes to Financial Statements  
Year Ended December 31, 1986

Note 1.) Summary of Significant Accounting Policies

The accounting policies of the Hampton Beach Village District conform to generally accepted accounting principles for local governmental units except as indicated hereinafter. The following is a summary of significant accounting policies.

Basis of Accounting

The accrual basis is used for all fiduciary funds. Governmental funds utilize the modified basis whereby revenues are recorded when measurable and available. Expenditures are recorded when the liability is incurred (accrual basis) except:

- A. Disbursements for inventory items (materials and supplies) are considered expenditures at the time of purchase.
- B. Prepaid expenses are not normally recorded.

Property, Plant, and Equipment

Property, plant, and equipment acquired or constructed for general government services are recorded as expenditures in the fund making the expenditure. Funds used to acquire general fixed assets and/or debt service payments on borrowing in connection therewith are accounted for as expenditures in the year payments are made. This is contrary to generally accepted accounting principles which require that general fixed assets be capitalized and accounted for in a separate fixed asset group of accounts.

Types and Purposes of Funds

- A. General funds are intended to provide recurring general services. They are controlled by a budget approved by the voters.
- B. Capital Project Funds - Used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Designated Fund Balances

The reserved fund balance designated for subsequent years expenditures represents the following:

Ross Fund	<u>\$ 544.06</u>
	<u>\$ 544.06</u>

HAMPTON BEACH VILLAGE DISTRICT  
Notes to Financial Statements (Continued)  
Year Ended December 31, 1986

Note 2.) Capital Project Funds

Capital project funds consisted of monies voted for capital improvements in 1981 as the result of the sale of the salt water protective system.

The original voted amount was \$75,000. Interest earned on this money as of December 31, 1986, amounted to \$7,943.05.

Note 3.) Rental Income

As of March 1984, the precinct entered into a lease contract for properties owned by the precinct. The terms of the lease agreement are for three years with a lessee option for an additional two years with rental payments of:

1987	\$ 20,000
1988	\$ 20,000

AUDITOR'S REPORT ON FINANCIAL PRESENTATION

---

To the Members of  
the Board of Selectmen  
Town of Hampton  
Hampton, New Hampshire

We have examined the general purpose financial statements of the Town of Hampton, New Hampshire and the combining fund financial statements of the Town as of and for the year ended December 31, 1986, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly the financial position of the Town of Hampton, New Hampshire, at December 31, 1986, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining fund financial statements referred to above present fairly the financial position of each of the funds of the Town of Hampton, New Hampshire, at December 31, 1986, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining fund financial statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Town of Hampton, New Hampshire. Such information has been subjected to the auditing procedures applied in the examination of the general purpose and combining fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements of each of the respective funds taken as a whole.

AUDITOR'S REPORT ON INTERNAL CONTROLS (ACCOUNTING AND  
ADMINISTRATIVE) - BASED ON A STUDY AND EVALUATION MADE AS A PART OF  
AN EXAMINATION OF THE GENERAL PURPOSE FINANCIAL STATEMENTS AND  
THE ADDITIONAL TESTS REQUIRED BY THE SINGLE AUDIT ACT

---

To the Members of  
the Board of Selectmen  
Town of Hampton  
Hampton, New Hampshire

We have examined the general purpose financial statements of the Town of Hampton, New Hampshire for the year ended December 31, 1986, and have issued our report thereon dated January 27, 1987. As part of our examination, we made a study and evaluation of the internal control systems, including applicable internal administrative controls, used in administering federal financial assistance programs to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards, the standards for financial and compliance audits contained in the Standards for Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the U.S. General Accounting Office, the Single Audit Act of 1984, and the provisions of OMB Circular A-128, Audits of State and Local Governments. For the purpose of this report, we have classified the significant internal accounting and administrative controls used in administering federal financial assistance programs in the following categories:

Accounting Controls

Budgeting Cycle  
Assessing, Levying and Collecting Taxes  
Payroll Cycle  
Expenditure (other than payroll) Cycle  
Data Processing Cycle  
Revenue Cycle  
Financial Reporting Cycle

Controls Used in Administering Federal Programs

Political Activity  
Civil Rights  
Cash Management  
Federal Financial Reports

The management of the Town of Hampton, New Hampshire is responsible for establishing and maintaining internal control systems used in administering federal financial assistance programs. In fulfilling that responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal

Town of Hampton, New Hampshire

Auditor's Report on Internal Controls

control systems used in administering federal financial assistance programs are to provide management with reasonable, but not absolute, assurance that, with respect to federal financial assistance programs, resource use is consistent with laws, regulations, and policies; resources are safeguarded against waste, loss, and misuse; and reliable data are obtained, maintained, and fairly disclosed in reports.

Because of inherent limitations in any system of internal accounting and administrative controls used in administering federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed in the first paragraph. During the year ended December 31, 1986, the Town of Hampton, New Hampshire had no major federal financial assistance programs and expended 100% of its total federal financial assistance under the following nonmajor federal financial assistance programs:

Department of the Treasury  
State and local government fiscal  
assistance - General Revenue Sharing EP 17

With respect to internal control systems used in administering these nonmajor federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are being followed satisfactorily, and evaluating any weaknesses.

With respect to the internal control systems used solely in administering the nonmajor federal financial assistance programs of the Town of Hampton, New Hampshire, our study and evaluation was limited to a preliminary review of the systems to obtain an understanding of the control environment and the flow of transactions through the accounting system. Our study and evaluation of the internal control systems used solely in administering the nonmajor federal financial assistance programs of the Town of Hampton, New Hampshire, did not extend beyond this preliminary review phase.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems used in administering the federal financial assistance programs of the Town of Hampton, New Hampshire. Accordingly, we do not express an opinion on the internal control systems used in administering the federal financial assistance programs of the Town of Hampton, New Hampshire.

However, our study and evaluation and our examination disclosed no condition that we believe to be a material weakness in relation to a federal financial assistance program.

Town of Hampton, New Hampshire

Auditor's Report on Internal Controls

This report is intended solely for the use of management and the applicable state and federal agencies and should not be used for any other purpose. This restriction is not intended to limit the distribution of this report, which, upon acceptance by the Town of Hampton, New Hampshire, is a matter of public record.

AUDITOR'S REPORT ON COMPLIANCE WITH LAWS AND REGULATIONS RELATED  
TO NONMAJOR FEDERAL FINANCIAL ASSISTANCE PROGRAMS IN CIRCUMSTANCES  
IN WHICH THE RECIPIENT RECEIVED NO MAJOR PROGRAM FUNDING

---

To the Members of  
the Board of Selectmen  
Town of Hampton  
Hampton, New Hampshire

We have examined the general purpose financial statements of the Town of Hampton, New Hampshire for the year ended December 31, 1986, and have issued our report thereon dated January 27, 1987. Our examination was made in accordance with generally accepted auditing standards; the standards for financial and compliance audits contained in the Standards for Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the U.S. General Accounting Office; the Single Audit Act of 1984; and the provisions of OMB Circular A-128, Audits of State and Local Governments, and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The management of the Town of Hampton, New Hampshire is responsible for the Town's compliance with laws and regulations. In connection with the examination referred to above, we selected and tested transactions and records from nonmajor federal financial assistance programs to determine the Town's compliance with laws and regulations, noncompliance with which we believe could have a material effect on the allowability of program expenditures.

The results of our tests indicate that for the transactions and records tested the Town of Hampton, New Hampshire complied with the laws and regulations referred to above. Our testing was more limited than would be necessary to express an opinion on whether the Town of Hampton, New Hampshire administered those programs in compliance in all material respects with laws and regulations, noncompliance with which we believe could have a material effect on the allowability of program expenditures; however, with respect to the transactions that were not tested by us, nothing came to our attention to indicate that the Town Hampton, New Hampshire had violated laws and regulations other than those laws and regulations for which we noted violations in our testing referred to above.

AUDITOR'S REPORT ON SUPPLEMENTARY INFORMATION  
SCHEDULE OF FEDERAL FINANCIAL ASSISTANCE

---

To the Members of  
the Board of Selectmen  
Town of Hampton  
Hampton, New Hampshire

We have examined the general purpose financial statements of the Town of Hampton, New Hampshire for the year ended December 31, 1986, and have issued our report thereon dated January 27, 1987. Our examination of such general purpose financial statements was made in accordance with generally accepted auditing standards and the standards for financial and compliance audits contained in the Standards for Audit of Governmental Organizations, Programs, Activities, and Functions, issued by the U.S. General Accounting Office and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying Schedule of Federal Financial Assistance is presented for purposes of additional analysis and is not a required part of the general purpose financial statements. The information in that schedule has been subjected to the auditing procedures applied in the examination of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

TOWN OF HAMPTON

---

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

A. Fund Accounting

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town.

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Included in this fund type are Federal Revenue Sharing, Library, Parking Lots, Conservation Commission, Mosquito Control Commission, and Cemetery Trustees Funds.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of long-term notes or bonds and from Federal and State grants.

FIDUCIARY FUNDS

Trust Funds - Trust Funds are used to account for the assets held in trust or as an agent by the Town for others.

TOWN OF HAMPTON

---

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

B. Account Groups (Fixed Assets and Long-Term Liabilities)

All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by other municipal entities in the State, the Town does not maintain a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. This account group is not a fund. It is concerned only with the measurement of financial position and not results of operations. Since they do not affect net current assets, such long-term liabilities are not recognized as governmental fund type liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

C. Basis of Accounting

The accounts of the General, Special Revenue, Capital Projects and Expendable Trust Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or in the case of judgments and claims against the Town, when there is a probability that such judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust and Agency Funds are accounted for using the accrual basis of accounting.

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

D. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. The Town budget represents departmental appropriations as authorized by annual or special Town Meetings. The Selectmen may transfer funds between operating categories as they deem necessary. State Statutes require balanced budgets but provide for the use of beginning fund balance to achieve that end. In 1986, the beginning fund balance was applied as follows:

Unreserved Fund Balance	
Used To Reduce Tax Rate	\$ 688,000
Beginning Fund Balance -	
Reserved For Encumbrances	<u>380,727</u>
Total Use of Beginning Fund Balance	<u>\$1,068,727</u>

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures; and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. The reserve for encumbrances at December 31 consists of the following:

<u>General Fund</u>		
Tax Mapping	\$ 3,400	
Town Maintenance	39,350	
350th Anniversary	14,566	
Sewer Construction	356,501

Shoreline Improvements	<u>7,335</u>	
		\$ 608,512

TOWN OF HAMPTON

---

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

<u>Capital Projects Funds</u>	
201 Facilities Planning Study	\$ 2,700
Sewer System Improvement	<u>540,865</u>
	<u>543,565</u>
<u>Total</u>	<u>\$1,152,077</u>

Cash and Investments

At year end, the carrying amount and bank balance of the Town's deposits was \$13,267,832. Of this balance, \$3,359,556 was covered by federal depository insurance and \$9,908,276 was uninsured.

State Statutes authorize the Town to invest excess funds in the custody of the Treasurer in obligations of the United States Government in savings bank deposits of banks incorporated under the laws of the State of New Hampshire, or in certificates of deposits of banks incorporated under the laws of the State of New Hampshire, or in national banks located within this state or the State of Massachusetts. These financial statements report investments in certificates of deposit and savings bank deposits under the caption cash and equivalents.

The Town is further authorized to invest Trust Funds in obligations of political subdivisions and stocks and bonds, as they are legal for investment by New Hampshire savings banks. Capital Reserve Funds must be kept separate and not intermingled with Trust Funds. Capital Reserve Funds may be invested only by deposit in savings bank deposits of New Hampshire banks, or in United States or State of New Hampshire bonds or notes.

Investments in all instances are stated at cost, or in the case of donated investments, at market value at the time of bequest or receipt. Investments at year end are as follows:

	<u>Carrying Amount</u>
US Treasury Bills	\$1,171,913
FHLB Discount Notes	3,935,443
FNMA Discount Notes	468,467
Hampton National Bank Debentures	<u>10,000</u>
<u>Total Investments</u>	<u>\$5,585,823</u>

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

G. Inventories

Inventory in the General and Special Revenue Funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

H. Accumulated Unpaid Vacation and Sick Pay

Accumulated unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Employees may accumulate sick leave at various rates depending on the employing department. Also upon retirement or voluntary termination, the Town will pay a percent of accumulated unused sick leave, generally approximately twenty percent. Vacation is granted in varying amounts based on length of service. Vacation pay accumulation does not exceed a normal year's allowance. Accumulated sick leave is approximately \$358,746. Accumulated vacation leave is approximately \$49,121.

I. Taxes Collected For Others

The property taxes collected by the Town include taxes levied for the Hampton and Winnacunnet Cooperative School Districts, Rockingham County and Hampton Beach Village Precinct which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town.

An analysis of the 1986 property tax levy is presented below.

<u>Purpose</u>	<u>Amount Levied</u>	<u>%</u>
Town of Hampton	\$ 4,305,641	38
School Districts	6,312,368	56
Rockingham County	538,919	4
Hampton Beach Village Precinct	<u>217,844</u>	<u>2</u>
<u>Total</u>	<u>\$11,374,772</u>	<u>100</u>

J. Property Taxes

The National Council on Governmental Accounting, Interpretation 3, referring to property tax revenue recognition, requires disclosure property taxes receivable, which are to be collected beyond a period of 60 days subsequent to December 31, 1986, are recognized on the balance sheet and not reserved. In accordance with the practice followed by other municipal entities in the State of New Hampshire, the Town of Hampton annually recognizes, without reserve, all tax

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

receivables at the end of the fiscal year. The Town feels this practice of accrual is justified as it more appropriately matches the liability to the school district entity at December 31, with collections which are intended to finance these payments through June 30 of the following year.

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident tax revenues known as overlay. All abatements and refunds are charged to this account. The amount raised in 1986 was \$41,588 and expenditures amounted to \$64,373.

As prescribed by law, the Tax Collector sells at tax sale all uncollected property taxes in the following year after taxes are due. The purchaser at tax sale has a priority tax lien on these properties and accrues interest at 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two year redemption period, the property is tax-deeded to the lien holder.

K. Interfund Transactions

During the course of normal operations, the Town has numerous transactions between funds, including expenditures and transfers of resources to provide services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers.

L. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at December 31, 1986 were as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$736,001	\$ 65,890
Trust Funds	<u>65,890</u>	<u>736,001</u>
<u>Totals</u>	<u>\$801,891</u>	<u>\$801,891</u>

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

NOTE 2 - CHANGES IN LONG-TERM DEBT

The following is a summary of long-term debt transactions of the Town for the fiscal year ended December 31, 1986.

	<u>General Obligation Debt</u>
Long-Term Debt	
Payable January 1, 1986	\$2,333,000
<u>New Debt Issued</u>	
Sewer Construction Bonds	7,800,000
Debt Retired	( 260,000)
Long-Term Debt	
Payable December 31, 1986	\$9,873,000

Long-term debt payable at December 31, 1986 is comprised of the following individual issues:

General Obligation Debt

\$1,280,000 1975 Sewer Construction Bonds due in annual installments of \$50,000 through 1997 and \$25,000 through 2004; interest at 6.75%	\$ 725,000
\$790,000 Library Building Bonds due in annual installments of \$80,000 through 1991 and \$75,000 through 1993; interest is variable from 5.70 to 9.10%	550,000
\$800,000 1985 Sewer Bonds - Brown Avenue Interceptor due in annual installments of \$40,000 through 2005; interest is variable from 8.9 to 9.1%	760,000
\$7,800,000 Sewer Construction Bonds due in annual installments of \$390,000 through 2006; interest is variable from 8.0 to 8.125%	7,800,000

TOWN OF HAMPTON

1990	560,000	636,119	1,196,119
1991	560,000	591,225	1,151,225
1992-2006	<u>7,035,000</u>	<u>4,081,866</u>	<u>11,116,866</u>
<u>Totals</u>	<u>\$9,873,000</u>	<u>\$7,571,543</u>	<u>\$17,444,543</u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

NOTE 3 - CAPITAL PROJECTS FUNDS

A. Bonds or Notes Authorized - Unissued

Bonds or notes authorized - unissued at December 31, 1986 are as follows:

<u>Town Meeting</u>	<u>Article No.</u>	<u>Amount Authorized</u>	<u>Purpose</u>
1972	4	\$ 38,000	Secondary Sewage Treatment Facility

TOWN OF HAMPTON

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

NOTE 4 - PENSION PLAN

The Town participates in the State of New Hampshire Retirement System. The Town's contribution for normal cost of the plan is based upon an actuarial valuation of the entire State plan. Since the actuarial valuation is performed on the entire State plan the amount, if any, of the excess of vested benefits over pension fund assets is not available. The Town does not have an accrued liability for past service costs. Pension costs amounted to \$176,490 in 1986.

NOTE 5 - TRUST FUNDS

A. Nonexpendable and Expendable Balances

The principal amount of all Nonexpendable Trust Funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The Town's Nonexpendable and Expendable Trust Funds at December 31, 1986 are detailed as follows:

<u>Purpose</u>	<u>Nonexpendable</u>	<u>Expendable</u>
Hampton Real		
Estate Trust Fund	\$9,688,091	\$
Cemetery - Perpetual Care	26,050	3,796
Town Needy	3,781	1
Library	<u>9,636</u>	<u>1</u>
<u>Totals</u>	<u>\$9,727,558</u>	<u>\$3,798</u>

B. Mortgages Receivable \$1,719,857

Mortgages receivable totaling \$1,719,857 represent loans being administered by the Indian Head Bank and Trust Company at December 31, 1986, in accordance with legislation enacted effective March 15, 1983, covering the sale of former leased lands within the Town of Hampton.

Additions to the "Hampton Real Estate Trust" in 1986, including and new mortgages receivable disclosed above, totaled \$3,435,411. Interest earned on investments amounted to \$751,002, less bank management fees of \$15,001 for a net transfer to the General Fund of \$736,001 in 1986.

TOWN OF HAMPTON

---

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1986

NOTE 6 - PAYMENTS IN LIEU OF TAXES

The Town received \$72,970 in lieu of taxes in 1986 under provision of State Statutes R.S.A. 162-I:15, on property leased from the Industrial Development Authority of the State of New Hampshire. .

NOTE 7 - COMMITMENTS

Commitments under lease purchase agreements for computer facilities and telephone equipment provide for annual payments as follows:

<u>Fiscal</u> <u>Year Ending</u> <u>December 31</u>	<u>Computer</u> <u>Facilities</u>	<u>Telephone</u> <u>Equipment</u>	<u>Total</u>
1987	\$ 5,363	\$2,375	\$ 7,738
1988	2,546	2,175	4,721
1989	<u>2,334</u>	<u>          </u>	<u>2,334</u>
<u>Totals</u>	<u>\$10,243</u>	<u>\$4,550</u>	<u>\$14,793</u>

The agreement stipulates that if funds are not appropriated, there is no obligation to pay the remainder of the total time sale price beyond the end of the then-current fiscal period. The facilities and equipment must be returned to the seller.

January 27, 1987

To the Members of the Board  
of Selectmen  
Town of Hampton  
Hampton, New Hampshire

Gentlemen:

We have completed our examination of the financial statements of the Town of Hampton for the fiscal year ended December 31, 1986 and have issued our report thereon dated January 27, 1987. In connection with our examination, we reviewed and tested the Town's systems of internal accounting control and operating procedures to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards. The purpose of our review of these systems was not to express an opinion on internal accounting control, and it would not necessarily disclose all weaknesses in the system.

We are pleased that management and the accounting staff have worked aggressively to rectify many of the conditions that were commented on in previous management letters. While a number of projects are continuing, or may be still under consideration by management, notable improvements have been made in the accounting system which have resulted in more accurate financial reporting and have increased the effectiveness of the system for problem identification and resolution.

In the following paragraphs, we present our comments and recommendations for improving specific aspects of the Town's systems and procedures. We also refer you to the appendix to this letter which explains the purpose of our review, its limitations, and the professional standards involved.

Computer Facilities

As commented in previous years, the Town's computer facilities are becoming outmoded while portions of the Town's accounts have yet to be automated. Newer technology and increased demands on the accounting system warrant consideration for replacement of the hardware and software. In addition, portions of the present software are incomplete and programming services have been interrupted making it difficult to efficiently utilize certain capabilities. We recommend that management continue to analyze its computer needs and seek to upgrade the Town's computer facilities.

Records of General Fixed Assets

In the past, we have recommended that the Town establish and maintain a record of its general fixed assets for purposes of internal control over the efficiency of use and safeguarding of the assets and to comply with generally

TOWN OF HAMPTON

COMMENTS AND RECOMMENDATIONS

DECEMBER 31, 1986

accepted accounting principles. We are pleased that an inventory of Town assets is maintained for insurance purposes and budgetary controls are in place to monitor operational expenses for individual items of equipment and vehicles.

We continue to believe that a formal record of fixed assets is warranted and recommend that Town management explore the possibility of upgrading present inventory records to a full accounting for these assets which would include an estimate of cost, age, condition, estimated useful life, and location. While we can see little benefit for maintaining a record of depreciation, we recommend that some provisions be considered for future replacements.

Town Clerk's Accounts

We experienced difficulties in the audit of the Town Clerk's accounts because of errors which went undetected until the time of our annual audit. Generally, we found that previous audit recommendations had not been implemented entirely.

We continue to recommend that the Town Clerk reconcile the records on a monthly basis during the year so that errors can be detected and corrected on a more timely basis.

In closing, we would like to thank the officials and staff for the courtesy and assistance extended to us during the course of our examination. If, after you have had an opportunity to review our comments and recommendations you have any questions, we would be happy to meet with you at your convenience to discuss them.

Very truly yours,

CARRI PLODZIK SANDERSON  
Professional Association

TOWN OF HAMPTON, NEW HAMPSHIRE

---

PURPOSE AND LIMITATIONS OF REVIEW

The purpose of our study and evaluation was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the Town's financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

The management of the Town of Hampton is responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements, in accordance with generally accepted accounting principles.

Because of inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions, or that the degree of compliance with the procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Town of Hampton taken as whole. However, our study and evaluation disclosed conditions that we believe result in more than a relatively low risk that errors or irregularities in amounts that would be material in relation to the financial statements of the Town of Hampton may occur and not be detected within a timely period.

These conditions are described in the preceding report and were considered in determining the nature, timing and extent of the audit tests to be applied in our examination of the 1986 financial statements. This report does not affect our report on these financial statements dated January 27, 1987.

The preceding report is intended solely for the use of management and should not be used for any other purpose.
