1952

LETTER OF TRANSMITTAL

The primary purpose of an annual report is to keep the voter informed about his or her government. With this in mind, the 1952 report has been expanded slightly as compared to previous reports. The statistical information has been supplemented by including two graphs and more written information. We hope you will find these changes are both interesting and informative. Your particular attention is called to the discussion of the town debt and the Fire Department report.

In preparing a report of this nature it is impossible due to space limitations to include everything pertaining to town affairs. By and large we have tried to include information of the most interest to the majority of the people. Should you find that some particular piece of information in which you are interested is not included you are invited and urged to visit the town office where we will be happy to discuss the situation with you and obtain for you any available desired information.

Due to the fact that Mr. Violette resigned as Town Manager in the fall of 1952 and your present Town Manager did not assume office until December 17, 1952 no Town Manager's Report is included this year.

ALFRED S. HARDING
Town Manager

1953 TOWN REPORT COVER

On the cover of this year's Town Report appears a reproduction by Whitney Studio of the late William Allen Stone's painting of Newport's Main Street (Summer, 1950). It is a tribute to the late Will Stone, soldier, businessman, author and painter, who resided in Newport for thirty years—that his poems and paintings will appear in public print for years to come.

The painting now hangs on the wall at the Town Clerk's office and painted into the Main Street scene are many of Newport's Officials and Citizens.

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Newport, qualified to vote on Town Affairs:

You are hereby notified and warned to meet at the Town Hall in said Town of Newport on the second Tuesday of March next at nine o'clock in the forenoon to act upon the following subjects:

ARTICLE 1. To elect a Selectman for a term of three years; to elect a Town Treasurer; and a Town Clerk for the ensuing year.

ARTICLE 2. To elect a member of the Trust Fund Commission for three years and all other officers, Auditors, Agents, and Committees necessary for the Town Business.

ARTICLE 3. To see if the Town will vote to authorize the Selectmen to employ State Auditors to inspect and audit the books of the Town and its departments for the ensuing year, and pass any vote in relation thereto.

ARTICLE 4. To hear the reports of the Selectmen, Town Treasurer, Auditors and Committees heretofore chosen and pass any vote in relation thereto.

ARTICLE 5. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the Town in anticipation of Taxes, and pass any vote in relation thereto.

ARTICLE 6. To see what discount the Town will vote to allow on 1953 taxes if paid within ten days of the posting of the tax invoices.

ARTICLE 7. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's deeds or in any other manner.

ARTICLE 8. To see if the town will vote to approve and adopt the recommendations of the Budget Committee, raise and appropriate the various sums listed in the Budget as part of this warrant which include the following recommended special appropriation:

To see if the Town will vote to raise and appropriate the sum of \$178.20 to install street lights on the Unity Road be-

ginning at the corner of Route 103 and Unity Road and extending to the Golf Club road.

ARTICLE 9. To see if the Town will direct the Selectmen to use the sum of \$4,700.00 from funds already raised and appropriated in the town budget under Apportionment B of Chapter 83, Laws of 1951, for the specific purpose of improving North Main Street from the Information Booth northerly to the Baptist Church and to include widening said street on the easterly side thereof, by removing eight feet of the grass land from the west side of the Newport Common, installing a granite curbing the entire length of the Common, gravel and black top the said area and make all necessary alterations in said road consistent with the general appearance of said Common and the additional parking area which will be provided by such alteration.

ARTICLE 10. To see if the Town of Newport will vote to instruct the Board of Selectmen to install parking facilities on the northerly side of Sunapee Street at a point between the easterly boundary of land of E. T. Chase and extending easterly to the Esso filling station property provided that a thirty-five foot strip of land between these two points may be obtained from the school district and further provided that sufficient funds are available for said purpose under Apportionment B already included in the Town Budget.

ARTICLE 11. To see if the Town will vote to authorize the use of part of the Newport Common as a site for the proposed memorial to Sarah Josepha Buell Hale, location and size of said site on the common to be determined by the Selectmen.

ARTICLE 12. To see if the Town will vote to purchase a new fire truck for the use of the Fire Department and for such purpose to appropriate a sum not exceeding \$16,000.00, such sum to be raised through the issuance of serial notes under and in accordance with the provisions of Chapter 72 of the Revised Laws, as amended, and to authorize the Selectmen to determine the time and place of payment and rate of interest on said notes and to take such action as may be necessary to the issuance thereof. (This article and the appropriation therefore of \$16,000.00 is submitted with recommendation of the Budget Committee.)

ARTICLE 13. To see if the Town will vote to rescind its adoption of the Non-Partisan Ballot System for the election of Town Officers as passed at the 1951 annual Town Meeting and in lieu thereof to adopt the so-called Australian ballot system

providing for partisan ballots as provided by Chapter 34, Section 89 of the Revised Laws and Amendments thereto.

ARTICLE 14. To transact any other business which may legally come before said meeting.

(Polls shall be open for the reception of ballots at 9:30 A.M. and shall not be closed earlier than 7:00 P.M.)

Given under our hands and seals at Newport, New Hampshire, this 19th day of February, 1953.

NEWPORT INDUSTRIES, INC.

The corporation known as Newport Industries Inc. was born from a desire of the Chamber of Commerce to promote the industrial growth of this community. In the past few years, industrial development throughout New England has been actively aided by industrial corporations and foundations.

Accordingly, during the spring and summer of 1951 an intensive drive was launched by the Chamber of Commerce to solicit funds for an industrial corporation. This drive was aimed at acquiring \$25,000.00 to be used for the purpose of aiding new industries to establish themselves within the Town. Shares in the proposed corporation were offered to incorporators at \$50.00 per share and the amount of stock that any single individual could hold was limited to five shares.

After a considerable amount of canvassing the sum of \$12,500.00 was raised and in the fall of 1951 a corporation was organized under the name of Newport Industries Inc.

Since the organization of Newport Industries Inc., three new industries have been established in Newport. These industries are in no way competitive of any concerns now operating within the Town. The payrolls of these new concerns are roughly \$5,000.00 weekly. Approximately one hundred persons are currently employed in new manufacturing pursuits. It is hoped by the Newport Industries Inc. that this number may be doubled and tripled in the year ahead.

The funds which have been advanced by the incorporators have been invested in second mortgages enabling concerns to locate here which might otherwise have gone elsewhere. The Directors of Newport Industries Inc. have worked long and hard on the project. The people, the selectmen, and banks have been very cooperative.

The marked industrial development in the Town of Newport has highlighted the need for additional schools, housing facilities, and sewerage projects. It is felt by the Newport Industries Inc. that additional payrolls in the Town of Newport will eventually provide these necessary improvements.

It is hoped that the drive for new industries, now a settled State policy, will be continued and that the Town of Newport will redouble its effort in this direction for the prosperity of the Town and the welfare of its citizens.

KENNETH E. SHAW
President, Newport Industries Inc.

BOSTON & MAINE RAILROAD

A petition was filed on February 7, 1950 by the Boston & Maine Railroad seeking authority to discontinue passenger train service between Concord and Claremont Junction and to substitute in lieu thereof, bus service between these points.

The Boston & Maine Railroad Co. alleged, as a basis for the action, that the passenger service between Concord and Claremont Junction constantly lost money for the railroad and that the traveling public had little use for the service. The Boston & Maine contended that public conveyance and necessity no longer required this branch line to operate its passenger trains.

The Newport Chamber of Commerce took the initiative in holding a public hearing on the matter and the Newport Town Meeting voted funds to resist the threatened loss of this public utility.

From March 2, 1950 until January 28, 1953 a series of hearings were held before the Public Utilities Commission at Concord. The Towns of Newport and Sunapee were represented by counsel.

After more than three years of constant trial, including a hearing before the State Supreme Court, the matter was finally resolved by a stipulation between the Boston & Maine Railroad and contesting parties. Passenger service is to be continued on the Concord to Claremont branch line with one train a day operating between these points. This means that the passenger service on the Boston & Maine will not be abandoned. The order of the Public Utilities Commission is that the railroad shall offer improved service.

It is now in the hands of the people of this area to utilize these services to the fullest extent because upon their patronage depends the continuance of passenger service for people of this vicinity. The general public feels that railway passenger service is a vital commodity to the shire town of Sullivan County and the Lake Sunapee Area.

This matter was successfully defended at the various hearings by the cooperation between the attorneys involved, the Chamber of Commerce, the Town of Newport, and dozens of public spirited citizens in this district.

KENNETH E. SHAW
Attorney for Town of Newport

POLICE DEPARTMENT REPORT

To the Board of Selectmen, Town Manager and Citizens of Newport:

In May 1952 the 2 door 1947 Ford formerly used by the Police Department as a cruiser was replaced by a new Plymouth Suburban. It is possible to use this vehicle as an emergency ambulance because of its station wagon type body. Hence, it has been equipped with a complete stretcher unit. In 1952 the cruiser was used eleven times as an emergency ambulance and on one occasion its immediate availability at the scene of an accident probably saved a life. The new cruiser has been equipped with two-way radio which is operated in conjunction with the Fire Department. This radio and the excellent co-operation of the firemen has helped make the Police Department more effective.

The progressive step taken by the Town when the installation of parking meters was authorized has worked out well. The meters have proved effective in regulating the parking problem and have provided a source of revenue for the Town. In 1952 \$10,254.32 was collected from the parking meters and parking meter fines. As of January 1, 1953 the Town owes \$1,133.58 on the purchase price of the meters. This money will be paid in 1953.

The following is a list of duties performed by the Police Department in 1952:

Complaints received	1295
Traffic accidents investigated	125
Doors and windows, business places found open, secured	188
Persons accepted for night lodging	119
Street lights found out—reported	159
Lost property recovered, returned to owners, value	\$254.70
Stolen property recovered, value	\$6630.23
Parking tags issued	1875
Parking meter paid violations	\$169.20
Prisoners taken to House of Correction	12
Persons taken to State Hospital	2
Emergency messages delivered	75
Bank escorts	747
Miles traveled by cruiser	13,709
Juveniles investigated	8

Suicide	1
Crimes and Violations	
Crimes Against Property:	7
(Larceny 4, Arson 1, Breaking & entering 2)	
Crimes Against Persons:	15
(Assault & Battery 13, Others 2)	
Crimes Against the Public Policy:	15
(Fugitives 3, Fish & Game 3, Others 9)	
Deserters from the Armed Forces	3
Crimes Against Chastity, Morality & Good Order:	87
(Drunks 67, Disorderly conduct 8, Others 12)	
Violation of Motor Vehicle Laws:	132

Respectfully submitted,

ALEXANDER P. LEWKO, Chief
Newport Police Department

New Police Cruiser and Emergency Ambulance

FIRE DEPARTMENT REPORT

To the Board of Selectmen, Town Manager and Citizens of Newport:

Newport enjoyed the lowest fire loss ratio in its history in 1952. During the year property insured in the amount of \$20,000.00 was involved in fires, but actual insurance losses totaled only \$1,339.50.

This remarkable record is due to the splendid support of the members of the department, combined with the cooperation of all the citizens of the community and the municipal officers. The departments planned program to properly maintain its trucks and equipment, no doubt, was very important in establishing this record.

In the 1950 Town Report we informed the public that one of our present trucks should be replaced this year. An article has been placed in the warrant for the 1953 Annual Town Meeting which provides for the purchase of a new truck.

If the article is approved it is planned to buy a piece of apparatus that will not only serve the needs of the compact section of the Town, but will also help protect the outlying districts and farms where the supply of water is limited. The truck will carry approximately 500 gallons of water and be equipped with a unique Underwriters approved pump which can serve either as a volume pump or a high pressure fog pump. The truck will be of great value, because it not only carries its own supply of water but by using the high pressure fog feature can get maximum value from the water.

A stream of high pressure fog consists of water broken up into minute particles, in fact the water is in a ratio of about 1700 particles of water to one of air. This stream of fog hits the fire with such force that it replaces the hot gases around the fire with wet fog, thus isolating the fuel for the fire from the hot gases and replacing the air around the burning material with fog. The result, a smothered fire and a fire that is put out with little water damage. In a similar manner high pressure fog is effective against oil fires. The possible addition of such a piece of equipment to our fire department deserves the serious consideration of everyone in our community.

In 1952 the department benefited from several improvements. Hydrant rings were made up so one man can make a hydrant hitch if help is not available, and a rescue boat and

a floodlighting system were added. However, the addition of two-way radio facilities was probably the greatest improvement made during the year. A base two-way radio set has been set up at the fire station and two fire trucks and the police cruiser have been equipped with two-way sets. The availability of radio makes it possible to send one truck in answer to a call and if the fire proves to be more than one truck can handle, they can promptly call for help. This means that small fires can be taken care of without calling out the whole department thus saving time, money and equipment. In 1952 the radio made it possible to extinguish three fires which without the radio would have resulted in bell alarms.

We wish to thank the public spirited citizen who presented the Fire Department with two portable two-way radios. These radios of the walkie-talkie type can be used by the Chief at the fire line to direct men on the other side of the fire to contact the trucks and the police, and to call the fire station for extra help and equipment. These particular radios were used effectively at the PAK garage fire on January 26, 1953.

The department received 114 calls in 1952 listed as follows: 98 still alarms, 3 box alarms, 7 out of town calls, 2 brush fires, and 4 false alarms.

Respectfully submitted,

HERBERT H. WRIGHT
Chief of the Fire Department

NEW EQUIPMENT

The 1952 Annual Town Meeting appropriated \$7,000.00 for the purchase of a new truck for the Highway Department and \$1,200.00 for the purchase of a new police cruiser.

The \$7,000.00 was spent for one new model HRY Truck manufactured by the Four Wheel Drive Automobile Company. The truck is powered by a 130 H.P. engine, is equipped with a four yard Heil body, 9:00x20 tires, and has a fire speed transmission and a certified gross weight of 25,000 pounds. The 1940 Mack Truck was traded in toward the purchase price of this truck.

The \$7,000.00 did not include the V snow plow and wing which has been used on this truck during the 1952-53 winter

season. This plow has been obtained on a rental purchase agreement until the 1953 Town Meeting. The plow is a Frink V plow equipped with a ten foot wing and cost \$2,548.00. This amount less the \$200.00 paid in accord with the rental agreement is included in the 1953 budget.

The 1952 Plymouth Suburban police cruiser now being used by the Police Department cost \$1,137.59 of the \$1,200.00 appropriated plus the 1947 Ford cruiser which was traded in toward the purchase of this new vehicle. The \$62.41 remaining from the \$1,200.00 appropriated was used as partial payment for a collapsible cot stretcher to equip the cruiser for emergency ambulance work. Total cost for the stretcher was \$92.37, the balance was paid for from regular Police Department funds.

TOWN DEBT

On January 1, 1953 the Town had unmatured bonds and notes outstanding in the amount of \$244,970.20,* including a \$70,000.00 terminal type bond due in 1953, and a \$32,000.00 terminal type bond due in 1956. A terminal type bond means that the entire principal is paid off when the bond matures. Therefore, if the Town is to meet its obligations in 1953 it must be able to pay this \$70,000.00 in addition to its other debt payments. Seventy thousand dollars represents almost \$12.00 on the tax rate. In order to avoid such a drastic increase in the tax rate, it is necessary to plan on refinancing this bond. State Senator Jesse R. Rowell has presented a bill to the Legislature which will authorize the Town to refinance this bond.

In 1952 the Town issued a one year note in the amount of \$8,500.00 to finance the East Mountain Sewer. This note was issued for only one year, as it was planned to include the \$8,500 with the \$70,000 when the \$70,000 bond was refinanced in 1953.

Also, it can be anticipated at this time that the Town will be obliged to refinance the \$32,000.00 terminal type bond when it comes due in 1956.

In view of the above facts, the 1953 Selectmen's Budget submitted to the Budget Committee and approved by the Committee include a long range debt retirement schedule. This schedule calls for increasing the appropriations for debt payments from a total of \$16,600.00 in 1952 to \$23,600.00 in 1953. This increase represents over a dollar increase in the tax rate. It appears that if the Town is going to reduce its debt in the foreseeable future it must plan on these increased payments. Also, it should be remembered that these increased payments only provide for paying off the debt as it existed on January 1, 1953. Any debt incurred after this date must be paid by payments in addition to those called for in the schedule submitted by the Selectmen. The debt payments called for each year by this schedule are shown graphically on the back cover of this report. The following tables show the details of the debt retirement problem.

* There is in addition a matured outstanding \$500.00 bond which matured several years ago which has never been presented for payment, therefore, the grand total debt is 245,470.20.

NOTES FROM CHART ON PAGE 23

Note 1 — This note to be refinanced in 1953 as part of the 11 year refinancing bond issue needed to refinance \$63,000.00 of the \$70,000.00 bond coming due in 1953 which will not be paid in 1953.

Note 2 — There is no plan to pay off the library note because by vote of Town Meeting this note will be kept as an outstanding obligation of the Town and the interest will be paid to the library.

Note 3 — \$7,000.00 of this \$70,000. coming due in 1953 to be paid, remainder to be refinanced as part of a \$71,500.00 eleven year serial bond. See debt retirement schedule.

Note 4 — \$2,000.00 should be paid on the principal of this bond in 1956 when it becomes due and the balance refunded by a 7 year serial bond.

1953-65	\$234,970 20	\$71,500 00	\$30,000 00	\$234,970 20

Note: There is no plan to pay off \$10,000.00 library note because by vote of Town Meeting this note will be kept as an outstanding obligation of the Town and the interest will be paid to the Library.

Note: In 1952 the total debt payment was \$16,000.00.

1952 HIGHWAY & BRIDGE WORK HIGHLIGHTS

State Aid Construction (Apportionment B)

400 feet of Main Street between the bridge and Elm Street improved—500 tons Hot Top used—cross section of street improved—water no longer stands in center of street but is drained properly.

Approach to Elm Street bridge improved.

$\frac{1}{2}$ mile of Sunapee Street resurfaced with a stone and asphalt mix $\frac{1}{2}$ inch thick.

(All of above work done under supervision of State Department of Public Works & Highways)

Town Road Aid

Work to rebuild Claremont River Road to Town Road Aid specifications completed. Entire road oiled, except for .3 mile.

1700 yards of gravel & 12,000 gals. of oil used on this road.

$\frac{1}{3}$ of a mile of the Witcher-Cutts Road rebuilt to T.R.A. specifications except for oiling. Road widened, new culverts installed, 2500 yards of gravel applied.

Oiling—Over 19,000 gals. of oil applied.

Town Maintenance

Steel stringers (cost delivered \$1,057.31) installed in Oak Street bridge and bridge replanked.

Cutts road bridge—new wooden stringers installed and bridge replanked.

Kellyville-North Newport road—steel stringers installed and bridge replanked.

3 bridges replanked (in addition to above).

2 Claremont River Road and 1 Paradise section of Town \$500.00 worth of metal culverts purchased and installed.

Over 175 tons of cold patch applied.

1946 Chevrolet truck purchased to replace 1937 Chevrolet.

1948 Chevrolet truck purchased to replace 1941 Ford truck.

WATER AND SEWER DEPARTMENT

In 1952 in accord with the vote at the annual Town Meeting the sewer line on East Mountain Road was extended at a total cost of \$6,997.74 plus road damage. This extension included 2,640 feet of six inch tile pipe and eight cement block manholes. An \$8,500.00 note financed this work. The extension now services ten houses.

In addition to the East Mountain Road Extension five new houses were connected to the sewer system in 1952.

Water services were laid to eleven additional houses in 1952. A one inch line servicing five houses beyond Dorr Mill in Guild was renewed at a cost of \$717.17. On Pine Street 312 feet of two inch cast iron pipe was laid to service a new house.

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION

Concord, New Hampshire

February 11, 1953

CERTIFICATE OF AUDIT

This is to certify that we have examined and audited the accounts and records of the Town of Newport for the fiscal year ended December 31, 1952, and found them to be in good order. In our opinion the Exhibits included herewith reflect the true financial condition of the Town of Newport on December 31, 1952, and the results of operations for the period under review.

Respectfully submitted,

HAROLD G. FOWLER
Director

Division of Municipal Accounting, State Tax Commission
Herbert E. Hunt, Auditor
Robert W. Flanders, Accountant

AUDITOR'S REPORT

In accordance with the vote of the 1952 Town Meeting the town books for the year 1952 was audited by the Tax Commission.

The information on the following pages was taken from the report of audit and examination of the Town of Newport for the fiscal year ending December 31, 1952 made by the Division of Municipal Accounting, State Tax Commission, January 28-29, 1953. A complete copy of this report is on file at the Town Office and any interested citizen is invited to examine it at his or her convenience.

Accounts Receivable—Dec. 31, 1952		\$811 02

HOW YOUR TOWN DOLLAR WAS SPENT IN 1952

Note 1: All Percentages are approximate.

2: The Police Dept. expenditures included payments towards the purchase price of the parking meters and cost of maintaining the meters.

3: Highway and Bridge item includes Town Maintenance, Oiling & Town's share of Town Road Aid and State Aid Construction.

The above graph shows by percentage how the total expenditures by the town in 1952 were distributed according to the purpose of the expenditure. By referring to the graph we can immediately see that for every dollar spent by the town 37.4 cents were spent for schools, 6.8 cents to pay the county tax, 2.2 cents to maintain the cemeteries etc. By thinking of the town expenditures in this manner it is possible for the taxpayer to obtain a tangible idea of how the town's money is spent.

SCHOOL WARRANT

The State of New Hampshire

To the Inhabitants of the School District in the Town of Newport, in the County of Sullivan, in the State of New Hampshire, qualified to vote in district affairs.

You are hereby notified to meet at the Town Hall in said District on the seventh day of March, 1953, at two o'clock in the afternoon to act on the following subjects:

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Member of the School Board for the ensuing three years.

Article 4. To choose a Treasurer for the ensuing year.

Article 5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

Article 6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

Article 7. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Article 8. To see if the District will vote to authorize the School Board to make the necessary alterations for providing and equipping a cafeteria at the Richards School, including the removal of the boys' toilet facilities from the present basement area and their relocation with new equipment elsewhere in the building; and to authorize the School Board to issue serial notes for an amount not to exceed \$10,000. in the name of and on the credit of the District for the payment of said alterations and equipment, both for said cafeteria and said toilets, and to authorize the School Board to determine the terms and conditions upon which the notes shall be issued, including their sale and the time and place of payment of principal and interest, in accordance with the provisions of the Muni-

cipal Bonds Statute, New Hampshire Revised Laws, Chapter 72, and any amendments thereto.

Article 9. To see if the District will vote to grant to the Town of Newport a portion of the Richards Junior High School Playground fronting Sunapee Street to be used for expanding parking facilities in that area, namely a section of land running from the edge of property owned by the Esso Gasoline Company to the edge of property owned by E. T. Chase and extending inwardly by not more than thirty-five feet; upon condition that the Town of Newport, at its Annual Town Meeting held on Tuesday, March 10, 1953, make available the necessary funds to create additional parking space, erect a retaining wall and provide adequate fencing to separate Sunapee Street from the school yard. (Inserted by petition.)

Article 10. To see if the District will vote to change the date of school meetings from Saturdays preceeding the Town Meeting to Wednesday evenings preceeding the Town Meeting. (Inserted by petition.)

Article 11. To see if the District will vote to establish voting hours for election of school officers at the regular school meeting to last a period of two hours or the duration of the meeting, whichever may last the longest. (Inserted by petition.)

Article 12. To transact any other business that may legally come before said meeting.

Given under our hands this 16th day of February, 1953.

DONALD E. MESSER

JOHN F. LEE

LEO F. KNEBEL

School Board

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Newport:

I herewith submit my fifth annual report as Superintendent of Schools.

Finances

This year Newport is receiving state aid for education in the amount of \$25,633.53. This is \$2407.61 less than the amount received in 1951. The reduction is caused by a general increase in school enrollment throughout the State with the total amount of aid available for the State as a whole remaining the same at \$600,000.

The budget for 1953-54 carries an estimate of state aid at \$25,000.—substantially the same as received this year. However, Governor Gregg's budget to the General Court has recommended an increase of 50% in the state aid funds available. If this amount of \$900,000. is made available and distributed on the same formula basis, ten thousand dollars (\$10,000.) should be a conservative estimate of Newport's share of the increase over the \$25,000. we are currently receiving.

School Board Actions

The North Newport School Building was leased to the Newport Rifle and Pistol Club, Inc. for use as a firing range and club room.

The tuition rates have been set as follows:

	High School	Elementary
1952-53	\$225	\$130
1953-54	\$250	\$150

Extended coverage was placed on all the existing fire insurance policies, covering the buildings and equipment of the District.

Handwriting

This year we have added the Rinehart Functional Handwriting System in Grades 3-6. Trained handwriting supervisors visit each classroom once a month. outline the work for the next month and check the work of each pupil for the previous month. A diagnostic report is given to the teacher indicating the items which are to be made the basis for remedial instruction. Indications already point to a general improvement of pupils' handwriting.

We are also using the Rinehart System of slant lettering

in Grades 1 and 2. We do not have the services of the supervisors in these grades.

Health Services

This year we have the services of a full-time school nurse after operating for several years on a part-time basis.

Plans have been made to provide physical exams for about one-third of our eleven hundred students each year. The local doctors have agreed to participate in this project in the spring. We hope to take another third of our enrollment next fall so that eventually each student would be examined once every three years. This should result in improved health standards for our students.

Transportation

The Guild bus-run was extended around Paradise Road—to better serve the students in that area.

The North Newport bus-run was extended around the hills in the village to cut down on the walking distance for those who live some distance from the route.

Payments totalling \$216 per year are now being paid for transporting four children to bus lines. They live beyond the legal distance a child is required to walk.

Our regular transportation costs continue to be among the lowest in the State. Our 5-year (1947-52) average costs per mile were:

Operational	\$.21
Total	\$.32

The District-owned fleet of four busses will complete six years of operation in June. It is recommended that one bus be exchanged next year so as to keep the equipment in good condition without high repair costs. We would not be faced with the replacement of four busses in any one year. This would put bus replacement on a pay-as-you-go basis and eliminate the interest charges of long-term financing.

Repairs

Minor repairs and the regular summer cleaning of all buildings were carried out by the janitors. Principal items at the various buildings were:

Towle:

100 desks in Rooms 6, 7 and 8 were sanded and refinished.

The Teachers' Room and the Principal's outer office were painted.

Richards:

Part of the yard and an area at the rear of the Annex were tarred.

Multiple sink units were installed in both boys' and girls' basements in the Main Building.

Windows in two Annex rooms were metal-weather-stripped.

A new ceiling was installed in one classroom in the Main Building.

Considerable work was done on the heating system, resulting in more efficient and economical operation.

Primary:

Three classrooms on the second floor and the first and second floors were painted.

Two more water closets in the boys' basement were replaced.

Draft deflectors were installed in each classroom.

Considerable work was done on the heating system in order to improve the building temperature on cold mornings.

New Equipment

The major items of new equipment are as follows:

Towle:

15 wooden desks and chair units.

Dark curtains for one-half the gym—making it possible to use this area for visual aids.

1 folding table.

1 amplifying system.

Richards:

2 drinking fountains in the basement area of the Main Building.

2 apartment-size gas stoves for the Home Economics Department.

1 vacuum cleaner.

Material for an outdoor basketball court and for 2 volleyball courts.

Primary:

1 table and 6 reading chairs.

1 metal cabinet.

New curtains for one classroom.

Maintenance Department:

The power lawn mower was replaced.

Music Department:

24 music stands.

School Building Needs

The Report of the School Study Committee, authorized by the 1952 District Meeting, is printed elsewhere in this report.

The recommendations of the Committee should be given careful consideration if we are expected to have the plant facilities necessary to provide a modern educational program for all of Newport's school population.

We are hiring one outside elementary classroom this year for one division of the third grade. In September, 1954, present indications are that we will need another additional elementary classroom, or have to resort to the questionable educational practice of running divisions of forty-five—or more—pupils per teacher in one grade.

Respectfully submitted,
GORDON B. FLINT
Superintendent of Schools

SCHOOL TREASURER'S REPORT

July 1, 1951 to June 30, 1952

Cash on hand, July 1, 1951 (Treasurer's bank balance)	\$8,340 26

AUDITOR'S CERTIFICATE

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Newport, N. H., of which the above is a true summary for the fiscal year ending June 30, 1952 and find them correct in all respects.

D. S. ROLLINS
JESSE R. ROWELL

Auditors

August 29, 1952

REPORT OF THE SCHOOL STUDY COMMITTEE

To the Citizens of Newport:

The School Study Committee, appointed by the School Board, in accordance with instructions from the 1952 District Meeting, to work with the School Board to investigate present and future school needs and make a report to the 1953 Annual District Meeting, has unanimously agreed on the following points:

The major needs of the Newport School System are:

1. Expansion of vocational program at Towle High School.
 - a. Trades and Industries Courses for Boys.
 - b. Home Economics Course for Girls.
2. Relief from over-crowding and inadequate facilities at Towle High School.
3. Additional elementary classrooms.
4. Cafeteria for a Hot Lunch Program.

The Committee recommends that the Towle High School building be expanded into a six-year unit for Grades 7-12. The elementary grades could then expand into the space at the Richards Building now occupied by Grades 7 and 8. By moving the boys' toilet upstairs, a cafeteria—to serve all schools—could be made in the present basement area at the Richards School.

If facilities were provided at Towle for Grades 7 and 8, it would leave the Primary and Richards Schools available for the elementary grades (Grades 1-6).

This would provide:

	No. of Rooms
Primary School	7*
Richards Annex	10
Richards (Main Building)	7*
	—
Total	24

*One of these is small with
a capacity of 24 pupils

A most important factor in considering the necessary number of elementary classrooms is class size. (Number of pupils per teacher.)

Recommended class size	25 pupils
Good average class size	30 pupils
Maximum class size	35 pupils

We have based our consideration on a class load of 30 pupils per teacher.

The necessary building requirements for providing a 6-year school at Towle are as follows:

Classrooms:

Grade 7	3 rooms	(35 each equals 105 students)
Grade 8	3 rooms	(35 each equals 105 students)

Special Rooms:

- Shop for Woodworking—Jr. High and Sr. High
- Shop for Machine Work (sheet metal, machine tool, electricity, auto mechanics, etc.)
- Domestic Arts Room—Sewing for both Jr. & Sr. High
- Domestic Arts Room—Cooking for both Jr. & Sr. High
- Science Laboratory (for Jr. High Science, Biology and General Science)
- Music and Visual Aids Room—to seat about 100
- Toilets on each floor
- Mechanical Drawing and Art Room
- Conference Rooms—Guidance and Remedial Work
- Men's and Women's Teachers Rooms
- Nurse's and Health Room
- Storage and Supply Areas

We have investigated the feasibility of constructing a 3-story addition on the Court Street side of the Towle building to supply the necessary room requirements as outlined above. Rough cost estimates based on the proposed cubage have been set at \$350,000 with \$25,000 recommended for equipping this addition.

As an alternative to the proposal for a 3-story addition at Towle, the Committee considered the construction of an entirely new 6-year high school building. The estimated cost, to provide the requirements that would be contained in the 3-story wing together with the facilities of the present Towle building, was placed between one million (\$1,000,000) and one million and a quarter (\$1,250,000) dollars.

The Committee feels it is not practical to consider a new school plant at such an estimated cost. It furthermore believes that with the construction of the Wheeler Gymnasium at Towle, the Town is, for all practical purposes, committed to the Towle building for any expansion of high school facilities—notwithstanding the small amount of land available at the Towle site.

The Committee recommend the favorable consideration of

the proposed 3-story addition as a means of meeting the immediate and pressing needs of the Newport School System.

JOHN J. CONDON, Chairman
 JEAN CLAGGETT, Secretary

 DONALD E. MESSER
 JOHN F. LEE
 LEO F. KNEBEL

School Board
 January 15, 1953

ANNUAL REPORT OF PRINCIPAL

Mr. Gordon B. Flint
 Superintendent of Schools
 Newport, New Hampshire
 Dear Sir:

It is my pleasure to submit this annual report concerning the accomplishments of the schools under my jurisdiction. A supplement of statistical tables is attached which includes the following:

Table I	Enrollment by Grades
Table II	Tuition Pupils
Table III	Attendance Record
Table IV	Perfect Attendance 1951-52
Table V	Honor Lists 1951-52
Table VI	Student Activities Financial Statements
Table VII	Prize Speaking Contest Results
Table VIII	Towle Graduates—Class of 1952
Table IX	Richards Graduates—Class of 1952

The significant achievements which have contributed to the welfare and progress of our schools during the past year are these:

1. Greater Utilization of Community Resources.

It is gratifying to note that more and more teachers are taking advantage of the numerous resources found in our community and its immediate surroundings. Class visits to banks, business establishments, courts, newspaper plants, state institutions, etc. are excellent educa-

tional experiences and afford opportunities for youth to observe and share in the life of the community. Such activities have high motivating value and make the work of the classroom realistic and meaningful.

In addition to class excursions, the schools have been privileged to hear guest speakers on many occasions both in the classrooms and at assembly programs.

2. Creation of an Athletic Insurance Fund.

With the sanction of the Towle High School Student Council and the Newport School Board, a school fund has been created to assist athletes injured in interscholastic contests and practices. This newly-created fund is made possible by the profits realized from the sale of refreshments at the school's athletic events. Additional funds are earned through special projects similar to the souvenir football program sold at last fall's Towle-Stevens football game.

In cases of injury to a boy or girl athlete while engaged in official school games or practices, the school contributes from the Athletic Insurance Fund an amount not to exceed one hundred dollars, but only if such injuries are not compensated for by the compulsory insurance policy subscribed to by the athlete. The cost of the compulsory accident policy is paid jointly by the athlete and the school.

3. Improvements In the Organized Guidance Program

The guidance program being carried on at Towle High School was described in complete detail in the principal's annual report of last year. The five essential guidance services cited in that report are being continued. The procurement of new charts, student reference material, and counselors' handbooks enables us now to better offer these four types of information:

- (1) Guidance for teachers
- (2) Guidance for students
- (3) General occupations
- (4) Specific occupations

Two members of the staff are now devoting a total of three periods daily to individual conference work with students, an increase of one period per day over last year. Students have received the benefits of an ever-increasing number of conferences in the school at which representatives of colleges, business schools, hospitals, indust-

ries, etc., have discussed both educational and vocational opportunities.

A survey recently completed reveals that a total of fifty-five graduates of our school are presently enrolled in institutions of higher learning. This is definite indication that the guidance work in the school is beginning to pay real dividends.

4. Curricular and Sectional Enrollment Changes

Our course in Sociology has been revised to place greater emphasis on human problems. This was undertaken because of our conviction that students can better understand and cope with the complexities of modern living only if they are fully cognizant of the psychology of human behaviour. The course now devotes one-half year's study to Psychology For Living and one-half year of work to sociological problems.

The full time services of an additional teacher, who was previously employed on a part-time basis, has led to a more equitable work load for teachers and, in some cases, to a reduction of sectional enrollments. To be specific, we are now offering Economics to two divisions, each having an enrollment of twenty-four students. Last year all students studying this course were taught as one class with an enrollment exceeding forty students. Grade 11 pupils are now distributed in three English classes, whereas a year ago a comparable number of students were assigned to two divisions. It is fair to assume that learning is most effective when enrollments are kept within reasonable limits.

I would be remiss in my duty if I did not state that our existing school facilities are being seriously taxed by an ever-growing enrollment. The estimated enrollment for 1953-54 found in the statistical supplement attached to this report will compel us to operate under extremely congested conditions. The general public should join with school authorities without delay in a thorough study of school needs.

Foremost among our needs are facilities to permit the broadening of our offerings to students pursuing the general curriculum. A majority of students in the high school pursue this curriculum and this group would be better prepared for life if it could reap the advantages of a complete program in Manual Arts and Home Economics.

To the students, parents, teachers, and citizens who have

contributed to the welfare of our educational efforts, I express my sincere gratitude.

Respectfully submitted,

JOHN E. SIDERIS

Principal
