INAUGURAL ADDRESS

BY

HON. CHARLES E. T. CASWELL

Delivered January 5, 1927

GENTLEMEN OF THE COUNCILS, CITIZENS OF DOVER :

In coming before you for the second time to take the oath of office as mayor of this city, I recognize the deep obligations under which I have been placed by the loyal co-operation of the different departments of the city during the year which has just closed. Particularly I wish to mention the good work that has been done and the hearty co-operation shown by members of the police department, the school board, the board of trustees of the Wentworth hospital, the board of trustees of the public library and the efficient work of the librarian and her assistants, the street commissioner and those associated with him, the board of water commissioners, the board of trustees of Pine Hill cemetery, the employees of the city building, and particularly the work of the fire department and the very great services of our efficient and always courteous city clerk. During the ensuing year it is but natural to expect the same fine spirit of helpful co-operation which has characterized 1926.

Whatever success may have come to the administration for the year just closed, I prefer to have estimated by others rather than myself. I really have made an honest effort to give the city a fair and ener-

getic administration. It has not been free from fault, but it has been the best I could give.

I wish to express my appreciation to those who carried out my recommendation concerning the annex to the High school building. This need was felt by us all and I am sure that the results, when the building is finished and in running order, will be most gratifying to every citizen of our municipality.

My recommendations for the ensuing year are but few. I do believe that we should have a public kindergarten in this city. I think it would have a tendency to keep the children from the streets away from danger, and prepare them much better for first-year work in our schools. Our private kindergartens have been very helpful, but we need one that is free to the public. We find that Manchester has ten or twelve; Concord, six; Nashua, six or eight; Keene, two; Berlin, one, carried on by the mills; Franklin, two; Claremont, one; Lebanon, one; and Plymouth Normal school, one. Portsmouth, with four kindergartens, has given this type of service for more than thirty years.

I further recommend a very careful investigation regarding zoning in our city. We wish to do all possible for commercial development of Dover; at the same time we cannot fail to be deeply interested in protecting the residential section of the city. It seems that some sort of system is imperative that will work no injustice to anyone, but help in the all round development of our city for the future.

Finally, I believe that there should be a continuation of the new road work begun by the street department and carried on with such success during the past season.

Whatever is done or left undone by the chief executive of this city, the important thing is to de-

velop and maintain intelligent co-operation between all branches of the city government and the citizens, and co-operation between these branches as well. Our city is large enough to be a comfortable, prosperous municipality, and yet it is small enough so that we are but one large family, interested in and affected by the same communal problems. May each of us do our best in 1927 to make this civic family a happy one, and thus give to Dover another year of progress and prosperity.

FINANCIAL SUMMARY

The cash balance in the hands of the city treasurer on January 1, 1926, was \$42,650.41, two thousand dollars of which was necessarily set aside to pay outstanding municipal bonds not presented at maturity, making the active funds available for general purposes, \$40,650.41. The cash balance in the general fund January 1, 1927, was \$40,003.11. Available assets represented by outstanding taxes, is \$2,191.65 in excess of one year ago, making a net gain in resources for the year of \$1,544.35, notwithstanding the fact that it required the withdrawal from the city treasury of over \$10,000.00 to balance department accounts over which the city councils have no direct control. For further financial details you are respectfully referred to the report of the city treasurer.

INVENTORY
OF THE
CITY OF DOVER, 1926

By paid treasurer \$ 380.09

Balance due on 1926 list \$ 102.78

The amount collected and paid treasurer for the registration of motor vehicles of 1927, \$5,005.48.

Respectfully submitted,

HENRY H. CLIFFORD,

CLIFTON R. HAYES,

JAMES F. DENNIS,

Tax List Committee.

Dover, N. H., December 31, 1926.

ANNUAL APPROPRIATIONS, 1926

Band concerts	
\$500.00 from money to be received from registration of motor vehicles. The arrangements for such concerts to be under the direction of the joint standing committee on finance.	
Brown-tail moths and other tree pests, suppression of	\$ 3,000.00
and all money received in reimburse- ment for work done on private proper- ty. To include such sum as may be considered necessary to unite with state authorities in the work of exter- minating the white pine blister rust. To be expended under the direction of the board duly appointed to repre- sent the city in the suppression of brown-tail moths and other tree pests.	
Cemeteries	3,500.00
and income of the department. The department to assume the care of the Grand Army lot. All coal to be sup- plied by the committee on municipal coal supply.	
City Debt	13,000.00
Also \$12,000.00 to be received from in- come of the water department.	
City hall committee	5,300.00
and income of the department. All coal to be provided by the committee on municipal coal supply.	

Contingent expenses	\$ 4,000.00
and all other municipal income not otherwise herein appropriated. To include Fourth of July observance, advertising the city and the payment of all claims against the city not properly chargeable to other municipal subdivisions. To be disbursed under the personal direction of the mayor unless otherwise provided.	
County tax	38,000.00
and \$392.97 from money received from municipal license fees.	
Currier fund	
Income of fund only, to be applied by the mayor, under conditions imposed in the trust.	
Dover water works	6,050.00
For maintenance of fire hydrants and for all water required for fire fighting purposes. The water department to pay the city hall committee \$200.00 for rent of rooms in the city building, to reimburse the city for interest paid on the water loan, and to contribute not less than \$12,000.00 toward the reduction of the water debt.	
Elections	3,500.00
Fire department	25,000.00
All coal to be provided by the committee on municipal coal supply.	
Guppy poor fund	
Income of fund only, to be applied by the mayor, under the conditions imposed in the trust.	

Health Department \$10,200.00
 \$550.00 from money received from taxation of interests and dividends, and income of department. To include maintenance of clinics and \$50.00 to be paid the city hall committee for rent of rooms in the city building.

Highways 65,000.00
 Together with reimbursements and other income, and \$35,000.00 to be provided by a loan to be negotiated by the joint standing committee on finance. Said sum of \$35,000.00 shall be expended solely for new construction and equipment, and only in such manner and for such purposes as may have previously been determined upon by major vote in a joint conference or conferences to be called by the mayor, between the street commissioner and the joint standing committee on finance. The street commissioner shall promptly execute all formal mandates or orders issued by vote of such joint conference.

The sum of \$65,000.00 herein provided shall be expended for general maintenance and improvements required in or by the various sub-divisions and interests under the control and supervision of the street commissioner, and also for the purpose of fulfilling all lawful orders for state highway maintenance, and the execution of such specific duties as may be duly authorized by the city councils under the

provisions of an Act "relating to a sprinkling district in the city of Dover."

Insurance	\$ 6,000.00
To be apportioned by the mayor.	
Interest	7,750.00
and income from interest on daily balances. The water department to reimburse the department for interest paid on the water debt.	
Lands and buildings	1,000.00
Memorial Day Observance	
\$425.00 from money received from miscellaneous license fees. To be divided as follows: C. W. Sawyer Post, G. A. R., \$275.00; Dover Post, A. L., \$50.00; J. W. Christie Post, V. F. W., \$50.00; L. E. Tuttle Camp, S. W. V., \$50.00.	
Municipal coal supply.	\$ 8,750.00
For coal to be furnished the city hall committee, the Wentworth hospital, fire and cemetery departments. To be purchased and distributed by the joint standing committee on finance.	
Parks and playgrounds	3,000.00
To include supervision of playgrounds and care of property under the control of the Board of Park Commissioners. The above sum, together with any and all income accruing to the department, to be disbursed by the Park Commissioners.	

Police department	\$22,700.00
and income from police court fines, fees, etc., to include the gratuity heretofore allowed Ex-City Marshal Wilkinson, for the year 1926. The department to pay the city hall committee \$500.00 for rent of room in the city building.	
Printing and stationery	1,000.00
and \$750.00 from money coming from the state.	
Public library	9,100.00
and income of the department. To include the amount required by law, and the payment of \$1,800.00 to the school committee for heating and janitor service.	
Repairs of schoolhouses	7,000.00
Salaries	13,250.00
To include the mayor, city clerk, treasurer, city messenger, collector of taxes (and register of motor vehicles), city solicitor, board of assessors and clerk of said board, city physician, clerk of common council, overseer of the poor, sealer of weights and measures, justice and clerk of municipal court, and probation officer.	
Schools	107,000.00
and income of the department. To include all legal requirements, cleaning schoolhouses, heating and janitor service for the public library and the maintenance of a physical director for the public schools.	

School tax	\$ 2,800.00
and \$284.00 from money received from registration of motor vehicles.	
State tax	
\$45,225.00 from money coming from the State.	
Street lighting	24,500.00
Special	1,600.00
For payments of claim contracted in 1925 for rewiring the city building agreeably to the recommendations of the N. H. Board of Underwriters as essential to secure a modification in the insurance rates upon the city building.	
Support of paupers	
\$12,200.00 from money received from taxation of interests and dividends.	
Wentworth hospital	12,000.00
and \$13,000.00 from money to be re- ceived from registration of motor ve- hicles, together with income of the de- partment. The above sum shall in- clude the care and treatment, without cost, of any member of the fire depart- ment of the city of Dover requiring such treatment as the direct result of injuries received while in the dis- charge of his official duties. All coal to be provided by the committee on municipal coal supply.	

FINANCIAL SUMMARY

TABLE I., 1926

Dover, N. H., December 31, 1926.

ANNUAL REPORT
OF THE
JOINT STANDING COMMITTEE ON FINANCE

DOVER, N. H., January 3, 1927.

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The undersigned, joint standing committee on finance of the city of Dover, have examined the books and accounts of the city treasurer, Ellen M. Galucia, and compared the footings of the receipts and disbursements with the accounts kept by the city clerk, and find the same in agreement.

We have carefully examined and verified all bonds, securities and trust funds accounts belonging to the city, and are satisfied that all funds and other property for which the city treasurer is officially responsible are accounted for, leaving a cash balance in banks to the credit of the city proper, of \$40,003.11.

A complete list of the bonds and securities above referred to is hereto appended.

Respectfully submitted,

C. E. T. CASWELL,

GUY P. JOY,

ELLSWORTH N. BRACKETT,

Joint Standing Committee on Finance.

ANNUAL REPORT
OF THE
BOARD OF HEALTH

Organization:

A. P. RICHMOND, M. D., Chairman.
WILLIAM E. WHITELEY, Executive Officer and Clerk.
THOMAS HATHAWAY.

Office: Room 20, City Building.
Hours: 8.30 to 9.30 A. M.; 2 to 3 P. M.

School Nurse,
MISS FRANCES HYDE.

Clinics,
Room 6, Union Block, 123 Washington Street.

Tuberculosis,
ROBERT B. KERR, M. D., Physician.
MISS EDITH L. PRICE, R. N., Nurse.

Dental,
Dental Faculty of Dover.
Wednesday mornings 9 to 12.

ANNUAL REPORT
OF THE
Executive Officer of the Board of Health

GENTLEMEN OF THE CITY COUNCILS:

In accordance with the usual custom, I submit the following review of the operations of the local department of the public health and sanitation, for the year ending December 31, 1926.

FINANCIAL SUMMARY

RESOURCES

Appropriation	\$10,200.00
From anticipated revenues	550.00
License fees	239.30

Meningitis							1						1
Tuberculosis													1
	33	12	8	19	10	36	6	3	2	7	21	55	212

I. Epidemic, Endemic and Infectious Diseases:

11 Influenza	1	32 Tuberculous meningitis ...	1
11 La grippe	2	33 Tuberculosis of peritoneum ...	1
31 Tuberculosis laryngitis ..	1	41 Septicaemia	1
31 Pulmonary tuberculosis ..	3		

II. General Diseases Not Included in Class I:

43 Cancer of tongue	1	49 Cancer of pancreas	1
43 Cancer of lower jaw	1	52 Arthritis deformans	1
44 Cancer of stomach	1	57 Diabetis mellitus	4
45 Cancer of rectum	2	57 Diabetis coma	1
45 Cancer of intestine	2	58 Pernicious anemia	2
45 Cancer of colon	1	58 Anemia	1
47 Cancer of breast	1	69 Hemorrhagic disease new born	1
49 Cancer of thyroid gland ..	1		

MORTALITY STATISTICS

In the following tables is presented a classification of the causes of deaths in the city of Dover during the year 1926, exclusive of non-residents brought to this city for treatment in hospitals or other public institutions.

III. Diseases of the Nervous System and of the Organs of Special Sense :

71 Septic meningitis	1	74 Cerebral apoplexy	1
72 Locomotor ataxia	1	78 Epilepsy	1
74 Apoplexy	6	83 Softening of brain	1
74 Cerebral hemorrhage	13	84 Paralysis agitans	1
74 Hemorrhage of membrane of brain	1	88 Endocarditis	1
74 Cerebral embolism	2	88 Acute myocarditis	2

IV. Diseases of the Circulatory System :

89 Angina pectoris	12	90 Myocarditis	6
90 Chronic endocarditis	6	90 Heart disease	1
90 Chronic myocarditis	16	91 Aneurysm of aorta	1
90 Fatty degeneration of heart ..	1	91 Arteriosclerosis	6
90 Valvular heart disease ...	4	91 General arteriosclerosis .	2

V. Diseases of the Respiratory System :

99 Bronchitis	1	101 Pneumonia	1
100 Broncho pneumonia	7	102 Pleurisy with effusion ...	1
101 Lobar pneumonia	10		

VI. Diseases of the Digestive System :

118 Intestinal obstruction	3	122 Cirrhosis of liver	1
----------------------------------	---	------------------------------	---

VII. Non-Venereal Diseases of the Genito-Urinary System and Annexa :

114 Gastroenteritis	1	129 Chronic interstitial nephri- tis	2
128 Uremia	1	129 Chronic nephritis	8
128 Acute nephritis	1	129 Chronic brights disease ...	1
129 Chronic paranchymatous nephritis	3	128 Salpingitis	1

VIII. The Puerperal State :

143 Premature birth	1	146 Puerperal septicemia	1
146 Septicemia	1	148 Toximia of pregnancy ec'ampsia	1
146 Puerperal peritonitis	1		

IX. Diseases of the Skin and of the Cellular Tissue :

152 Furunculosis	1
------------------------	---

X. Diseases of the Bone and of the Organs of Locomotion :

None

XI. Malformation.

160 Hiesprung disease	1
-----------------------------	---

XII. Early Infancy:

160 Malnutrition	1	161 Miscarriage	1
161 Premature birth	2	162 Umbilical cord hemorrhage	1
161 Prolonged labor	1		

XIII. Old Age:

167 Suicide by inhalation illuminating gas	1	164 Senility	2
--	---	--------------------	---

XIV. External Causes:

175 Ptomain poisoning	1	201 Fracture of hip	1
179 Accidental burning	1	201 Fracture of skull	1
181 Ether vapor	1	202 Injury at birth	1
182 Accidental drowning	1		

XV. Ill Defined Diseases:

205 Natural causes	4	205 Heart failure	1
205 Unknown	2		

NEGLECT OF MILK ON THE PORCH

The neglect of milk between the time it is left by the delivery man and before it is taken in the house, is a weak link in the chain of precautions taken to protect the milk supply. At all times, with unimportant exceptions, bottles are exposed to wind-borne dust, to licking by hungry cats and to abhorrent pollution by dogs.

In summer milk is exposed to heat and perhaps sunshine from the early morning delivery until breakfast time. The usual vigilance necessary to keep milk from souring is relaxed and the product is abandoned to action of the elements.

Likewise in winter, precautions against freezing cease when milk is left on the porch. In cold weather it freezes, expands, pushes up the cap and exposes a column of frozen milk to contamination.

Thawed milk is abnormal, its wholesomeness for baby feeding is questioned, and freezing represents a failure of the cap to protect the milk.

Our most perishable food, one highly sensitive to dangerous contamination, is never really delivered

to the housewife in the way that other and less perishable foods are delivered, through the door.

The circumstances outlined indicate the necessity for the protection of milk by requiring delivery men to place the bottle in a closed receptacle.

BOTTLED MILK

Sanitary Drinking Cups—The use of these cups has become popular with restaurants, cafeterias and other dispensers of milk to the public. It eliminates expensive glass washing and breakage, and is by far the most sanitary way to serve milk.

Unlike bulk milk, served in glasses, pure milk served in the original sterilized bottles has no way of becoming contaminated and is thus always safe.

MILK SUPPLY

Licenses for the sale of milk and cream have been issued during the past year to the following:

Stores

George M. Brown,	Frances Giera,
Dover Drug Co.,	Frank A. Leathers,
Cash and Carry Market,	James H. Varney,
Quality Cash Market,	Frank H. Hall,
Patrick Cassily,	A. C. Brainard,

Frank E. Davis,	James Donnelly,
Delphin Desjardins,	Frank L. Hayes,
Harry Wilson,	Francis Cassily,

MILK INSPECTIONS

Samples collected	65
Samples cream collected	9
Samples sent to state laboratory	74

The inspection of dairy farms during the year was practically negligible. The inspection is essential if the department is to keep in touch with production sources and insure the delivery of clean milk.

The department has no means of conveyance at its command to adequately carry out this phase of the work, and resources available for transportation limit its scope to only those cases where recorded data indicate variance from the rules of sanitation.

WATER SUPPLY

Adequate and safe water supply essential.—The water shed or drainage area must be freed, as much as possible, from human habitation, for the purpose of protecting the supply from pollution and possible infection.

Samples have been taken at different times from the supply and submitted to the state chemist with the following results:

SHIPMENTS

February 3—Normal character; no contamination.
March 11—Good.

April 8—Good.

June 17—A very slight colon contamination.

July 28—Very good water.

September 7—A trace of colon contamination.

October 27—A trace of colon infection noted.

December 8—Good.

SANITARY INSPECTIONS

This work has been given special attention throughout the year; it covers quite a wide range and includes the placarding of houses during periods of infection, the fumigating of rooms occupied by infected patients, the investigation of suspected sources of contamination, visits to schools, restaurants, bakeries and grocery stores.

These tours of inspection require no little time. In the inspections of tenements it has been found necessary in several instances to order ducks and hens removed from cellar. It is one of the duties of the executive officer of the board of health to see that nuisances are abated and dead animals removed.

The condition of the streets, yards and alleys throughout the city are kept comparatively clean and free from offensive matter. Special attention has been given to these collections, as they are considered of great importance to the health of the city.

INCINERATION

The incinerator is taking care of all refuse and combustible material collected by the department or delivered by private conveyance. All bedding and other matter collected from infected premises has been destroyed under careful supervision, as well as old book accounts, papers and accumulated rubbish from business establishments. A total of 10,-

554 loads of material was hauled to the incinerator during the year, including extra deliveries in the spring and fall clean-ups, and are divided as follows:

- Garbage, 2,784 loads.
- Ashes, 1,918 loads.
- Automobiles, 3,801 loads.
- Teams, 2,051 loads.

INCINERATOR

The number of dead animals collected and destroyed during the year are enumerated as follows:

Dogs	217
Cats	142
Colt	1
Fish barrels	226
Hens and chickens, barrels	28
Eggs, barrels	17
Brown-tails, bags	22
Skunk	1
Pigs	4
Parrot	1

The large number of cats and dogs destroyed were principally contributed by automobile owners, and their removal occasions considerable time and expense to the department.

CLEAN-UP CAMPAIGNS

To have a clean city, each and every householder must become interested in this most important work, as that is the only way in which a high standard of cleanliness can be obtained.

The spring clean-up opened on May 3 and continued to May 8, inclusive. The fall clean-up opened October 18 and continued to October 23, inclusive.

Many loads of rubbish were hauled and great assistance rendered by teams other than the de-

partment's. These contributors commenced the campaign days before the regular opening.

PLUMBING

The sewage from each building on every street provided with a common sewer should be connected with such sewer. During the year there have been installed:

Baths, complete	21
Toilets	36
Urinals	2
Septic tanks	2

DENTAL CLINIC

The dental clinic conducted by the Dover District Nursing Association from January 1 to December 15, 1926, rendered 509 treatments as follows: 125 prophylaxis, 137 extractions, 220 fillings, 27 miscellaneous.

Eight dentists co-operated to make this work possible. The clinic is open each Wednesday forenoon.

SCHICK TEST

Diphtheria does not develop from unsanitary conditions or unhealthy surroundings. You can only get it by contact with another person who has the disease. The importance of the Schick test cannot be too strongly emphasized. The information which it yields as to susceptibility of an individual, enables the application of a method for transforming susceptibility into immunity, thus protecting the person against possible attack of diphtheria.

It has been arranged by the city physician, Dr. A. P. Richmond, to give the test free of charge at his office to all who apply.

TUBERCULOSIS PREVENTION

The program of prevention of tuberculosis centers around the work of the tuberculosis clinic and nurse. The clinics are held monthly in Union block on Washington street. The services of the clinic physician, Dr. Robert B. Kerr, and the nurse, Miss Edith L. Price, are provided by the New Hampshire Tuberculosis Association. The clinic rooms are provided by the city of Dover through its board of health.

During the year a continued effort has been made to find tuberculosis patients in the early and curable stages, to provide adequate treatment and supervision and encouragement to assist them in the struggle back to health and to aid patients to sanatorium treatment.

In the search for early cases, an effort has been made to persuade those who have been in close contact with active cases to go to the clinics for examination. In this way a number of early and easily curable cases have been discovered. During the year several patients have been admitted to the sanatoriums.

During the coming year it is the plan of the association nurse to hold several clinics distinctively for the examination of children who are definitely undernourished and therefore possible victims of tuberculosis.

These clinics will be held in the schools. Follow up service for children found infected will be provided through the regular clinics held in Union block.

This work will result, not only in the discovery of early cases, but in the development of interest and action to correct malnutrition.

During the past year eleven clinics have been held.

Forty-two old patients and thirty-two new cases have been examined and treated in the clinics. Three patients have been admitted to the sanatoriums.

Of the new people examined, six were in the incipient stages of the disease, eight moderately advanced, one far advanced. Of twelve suspicious cases needing further observation and preventive treatment, six were negative and greatly relieved to learn that they were not infected.

The tuberculosis nurse, Miss Price, has made 347 visits to the homes of patients, instructing them as to details of treatment, teaching patients how to care for their infected sputum and arranging for journey to sanatoriums.

PUBLIC COMFORT STATION

A public comfort station is a structure planned for the convenience of the general public, in which the use of sanitary toilet facilities constitute the principal service rendered.

Failure to provide public toilet facilities is to fail in one of the most important elements of sound public health service.

Respectfully submitted,

WILLIAM E. WHITELEY,

Executive Officer.

Dover, N. H., December 31, 1926.

ANNUAL REPORT
OF THE
BOARD OF POLICE COMMISSIONERS

HIS HONOR, THE MAYOR, AND GENTLEMEN OF THE
CITY COUNCILS:

We have the honor to submit the following report of the business of the Dover police department for the year 1926.

Governor John G. Winant and his council re-appointed Owen Coogan for the three year term beginning September 7, 1926.

The organization of the commission is as follows: Charles E. Lord, chairman; Thomas W. Webb, clerk; Owen Coogan.

The department has been very active, which can be seen by the city marshal's report, which is attached to and made a part of this report.

On recommendation of the city marshal, the commissioners are asking the city councils to furnish an automobile suitable for the use of the police department, which we consider is very essential for the efficiency of the service.

During the year there was but one change in the personnel of the force: Officer Earl E. Hostler resigned, and Reserve Officer Dewey W. Allen was promoted to fill the vacancy.

The commissioners feel that due to the rapid growth of the automobile on our highways it is necessary to keep on our reserve list younger men, who are capable of directing traffic and quick of action. We are endeavoring to give the ex-service man the

preference and at the present time have six ex-service men connected with the department. We feel that we have a very capable and efficient police force, of which the citizens of Dover need not be ashamed.

PERSONNEL OF THE DEPARTMENT

FOR THE YEAR 1927

CHARLES C. CROWLEY, City Marshal.
 RAYMOND P. LOUGHLIN, Assistant Marshal.
 WILLIAM D. LOTHROP, Sergeant.

PATROLMEN

George A. Labonte,	William S. Scanlon,
Harry McCarthy,	Frank W. Jones,
Edward F. McDonough,	Perley E. Quimby,
Dewey W. Allen,	Henry E. Griffin.

RESERVE OFFICERS

John J. Daley,	George E. Fleming,
Alphonso M. Ayer.	

FINANCES

Appropriation	\$22,700.00
Transfer of funds	2,185.26
Income	6,843.67
	<hr/>
	\$31,728.93
Resources	\$31,728.93
Expended	31,728.93

Respectfully submitted,

CHARLES E. LORD,
 THOMAS W. WEBB,
 OWEN COOGAN,

Police Commissioners.

Dover, N. H., December 31, 1926.

**ANNUAL REPORT
OF THE
CITY MARSHAL
1926**

TO THE HONORABLE BOARD OF POLICE COMMISSIONERS
OF THE CITY OF DOVER:

GENTLEMEN:—I have the honor to submit herewith the annual report of the city marshal for the year ending December 31, 1926.

The number of arrests during the year has been 325, of which 315 were males and 10 females.

The arrests were for the following causes, viz:

Assault	8
Assault with intent to rape	1
Assault with intent to rob	1
Assault with intent to kill	3
Adultry	2
Abandoning child without cause	1

FINANCES

Appropriation	\$22,700.00
Transfer of funds	2,185.26
Income	6,843.67

\$31,728.93

Resources	\$31,728.93
Expended	31,728.93

There have been six automobiles seized by the officers for illegal transportation of alcohol, and all cars thus seized have been turned over to the county officials.

There have been forty-six convictions of the prohibitory laws, and there has been collected from these violators in fines and costs the sum of \$6,089.40.

Four new traffic beacons have been purchased and installed as follows: at Franklin square, at the junction of Portland avenue and Atlantic avenue, the junction of Central avenue and New York street, and the junction of Sixth and Chestnut streets.

It is recommended that there be an automobile purchased for the department to enable the officers to answer the constantly increasing calls. At pres-

ent we have no means of transportation except by public automobiles, which are not always available. The expense of such service totals several hundred dollars each year.

During the past year there have been some changes in the personnel of the department. Patrolman Earl E. Hostler resigned, and Dewey W. Allen was elected to fill the vacancy.

At this time I wish to extend to Honorable Patrick W. Murphy, Clerk Bert Wentworth, City Solicitor Albert P. Sherry, the county officers, and Ralph W. Caswell, commissioner of law enforcement, my heartiest thanks and sincere appreciation for their valuable assistance and co-operation. I desire also to commend the officers of the department for the manner in which they have performed their duties, which they have at all times discharged in a very satisfactory manner.

Respectfully submitted,

CHARLES C. CROWLEY,

City Marshal.

Dover, N. H., December 31, 1926.

ANNUAL REPORT
OF THE
CLERK OF THE MUNICIPAL COURT
1926

GENTLEMEN OF THE CITY COUNCILS:

The following cases have been entered in the criminal docket for the year ending December 31, 1926:

REPAIRING

Material used: 175 loads gravel, 53 loads cin-

*Williams St., cost of spreading only charge.

ders, 11½ loads asphalt, 170½ loads cold patch, 6 loads stone.

STREET CLEANING

Street cleanings: 667 loads; gutters, 195 loads; leaves, 493 loads; limbs from trees, 30 loads. In cleaning catch basins, 123 loads were taken out and hauled away.

CULVERTS, DRAINS AND DRIVEWAYS

Arch street—One 14 ft. wood, 10 feet of 12 in. cement pipe.

Ash street—Two 7 ft. wood.

Broadway—One 10 ft wood, two 12 ft. x 10 in. metal.

Rutland street—One 14 ft. x 10 in. metal.

Mt. Vernon street—One 8 ft. wood.

Washington street—Two 14 ft. wood.

Rogers street—One 12 ft. x 8 in. metal.

Oak street—One 18 ft. x 10 in. metal, one 16 ft. wood.

Payne street—One 24 ft. x 12 inch metal.

Dover street—One 8 ft. wood.

Prospect street—Two 14 ft. wood.

Driveways were put in on Hough, Forest and Court streets, 5 batches of asphalt used.

CATCH BASINS

New—Ham street, one; rebuilt—Folsom street, one; Orchard street, one; Preble street, one; Payne street, one; George street, one; repaired—Third street, three; Court street, one; Central avenue, one; Belknap street, one.

ROAD MACHINE AND DRAGS

Used on the following streets: Towle avenue, Arch, Fourth, Washington, Oak, Ash, Maple, Horne

and Grove streets, Glenwood avenue, Mineral, Abbott and Payne streets, Roosevelt avenue, Union, Court, and Watson streets, Watson lane, Hanson avenue, Essex, Forest, Hancock and Rogers streets, Portland avenue, Cocheco, Fisher, Belknap, Rutland, Prospect, Highland and Niles streets.

MAINTENANCE OILING

In doing this work it required 967 loads of sand, 48,149 gallons of tarvia "B" and binder "A." Cost of material and labor, \$9,149.99.

REYNER BROOK BRIDGE

Owing to the condition of this bridge, it was thought advisable to replace the same with a cement culvert, a cement culvert six feet by six feet (6 ft. x 6 ft.) has been built, the road widened, guard rails put up, which makes a great improvement over past conditions. Material and labor, \$1,541.81.

LOWER WASHINGTON STREET BRIDGE

This bridge has been partially replanked. Material and labor, \$124.68.

The interior of the city barn has been changed over, by so doing we now have the trucks and tractors in the same apartment.

During the year there has been added to the equipment of the highway department one Mead-Morrison tractor "55" with snow plow attached, two International trucks and one Keystone Driller Co. excavator shovel.

I wish to extend to the members of the city councils my thanks for the new equipment furnished the highway department, which has enabled me to increase the amount of work accomplished by the

various departments, also to those who in any way assisted me in my duties, also to the employes of the highway department who through their co-operation have enabled me to accomplish the amount of work done.

Respectfully submitted,

MAURICE N. LAYN,

Street Commissioner.

THE WENTWORTH HOSPITAL

REPORT OF BOARD OF TRUSTEES

GENTLEMEN OF THE CITY COUNCILS:

We have the honor to submit herewith the twenty-first annual report of the board of trustees of the Wentworth hospital for the fiscal year ending December 31, 1926.

STATISTICAL

YEAR	Patients Admitted	Accident Cases	Emergency Cases	Ambulance Cases	Per Cent Accident and Emergency Cases
1906 . . .	75	3	6	15	12.0
1907 . . .	307	40	25	49	21.2
1908 . . .	338	32	22	43	16.0
1909 . . .	325	51	48	42	30.5
1910 . . .	400	50	63	67	28.2
1911 . . .	421	41	35	66	18.0
1912 . . .	415	35	31	70	15.9
1913 . . .	466	75	56	52	28.0
1914 . . .	441	57	73	72	29.5
1915 . . .	552	61	69	58	23.5
1916 . . .	480	61	56	75	24.4
1917 . . .	513	49	47	71	18.7
1918 . . .	759	50	49	128	13.0
1919 . . .	710	84	83	106	23.5
1920 . . .	950	84	52	77	14.3
1921 . . .	1008	50	61	57	11.0
1922 . . .	960	68	58	71	14.2
1923 . . .	1106	113	83	78	17.7
1924 . . .	973	62	116	31	18.4
1925 . . .	933	103	110	39	22.8
1926 . . .	779	83	86	44	21.7

The number of days of free and partially free service rendered and the number of days' service for which regular rates have been charged, during the twenty-one years the hospital has been in operation are presented in the following table:

YEAR	Days Free Service	Days Partially Free	Days at Regular Rates	Total No. of Days
1906	101	48	1,129	1,278
1907	991	199	5,172	6,362
1908	1,637	480	5,367	7,484
1909	2,078	415	5,466	7,959
1910	2,370	469	5,194	8,033
1911	2,148	595	6,005	8,748
1912	2,416	980	5,249	8,645
1913	2,101	1,452	6,591	10,144
1914	2,687	872	5,707	9,266
1915	2,623	1,490	6,746	10,859
1916	1,860	1,458	5,257	8,575
1917	2,075	1,360	5,836	9,271
1918	2,627	1,529	8,182	12,338
1919	1,800	1,986	7,320	11,106
1920	1,640	1,801	8,727	12,168
1921	2,256	1,740	9,398	13,394
1922	2,603	2,234	8,190	13,027
1923	2,931	1,707	9,818	14,456
1924	2,346	1,406	7,820	11,572
1925	2,929	1,691	7,823	12,443
1926	2,127	1,358	6,790	10,275
Totals	44,346	25,270	137,787	207,403
Average per year	2,111	1,263	6,561	9,785

Supplementing the foregoing information it might be illuminating to present the ratio which the num-

ber of partially paying and absolutely free patients bear to the total number of patients admitted.

YEAR	Patients Admitted	Paying in Full	Paying in Part	Absolutely Free	Ratio Free to No. Admitted
1906	75	65	7	3	4.00
1907	307	285	2	20	6.61
1908	338	270	12	56	16.57
1909	325	282	16	27	8.30
1910	400	303	70	27	6.75
1911	421	328	18	75	17.81
1912	415	378	1	36	8.67
1913	466	405	10	51	10.90
1914	441	330	14	97	22.00
1915	552	432	16	104	18.84
1916	480	387	22	71	14.79
1917	513	434	24	55	10.20
1918	759	601	25	133	17.52
1919	710	607	24	79	11.12
1920	950	836	13	101	10.63
1921	1,008	897	17	94	9.32
1922	960	802	11	147	15.31
1923	1,106	953	25	128	11.57
1924	973	850	11	112	11.51
1925	933	783	14	136	14.57
1926	779	638	34	107	13.74
	12,911	10,866	386	1,659	12.42

A study of these tables reveals some very interesting facts. That statistical tabulations are rarely given more than a merely cursory inspection, is quite strikingly evidenced in the generally admitted ignorance of the average citizen regarding the ministerial or technical activities of the Wentworth hospital. The annual reports of the board of trustees, presenting minute information upon all phases of hospital work, have been regularly filed and pub-

lished, and a conscientious endeavor has been made to convey to the citizens of Dover a comprehensive outline of the many problems confronting the board of trustees and the administrative officers of the institution.

It has not been the policy of the hospital to emphasize its charitable dispensations, yet the number of free and partially free patients given treatment have been presented in each succeeding annual report.

Of the 12,911 patients admitted to the hospital since its establishment in 1906, 1,659 patients have been given absolutely free service, and 386 have only paid a small part of the regulation charges. Thus it will be seen that nearly sixteen per cent. of the patients admitted have been given free or partially free service. This conclusion is drawn simply upon the number of admissions. If each patient were to be given exactly the same number of days' service, it would be fair to assume that the cost of this free service would be in proportion to the number admitted. Yet the facts do not warrant this conclusion, as the records show that the average length of time paying patients remain in the hospital is thirteen days, while those receiving absolutely free service,—not including those who pay only in part,—show an average stay of twenty-seven days, or more than twice the length of time of the paying patients.

It seems unnecessary to carry this computation further, as it must be obvious to even the most indifferent student of the foregoing tables, that the free service of the Wentworth hospital has made a very appreciable demand upon the financial resources of the institution. Yet the value of these beneficent ministrations to the community is immeasurable, and cannot be computed in dollars and cents. It might be stated that only residents of Do-

ver are entitled to or receive the charitable offices of the institution.

Basing the average daily per capita cost per patient upon the relation which the total number of days' service bears to the actual operating cost of the institution for the past year, exclusive of fuel, we find that it would have required a revenue of \$6.12 per day for each patient treated to balance the account. The highest price charged for hospital service is \$7.14 per day, while the minimum charge (exclusive of the charge for infants), is \$2.00 per day for children under 12 years of age. On this basis, the free service rendered during the past year would represent a total cost of \$13,016.24. Adding to this total the loss sustained on all service rendered for a sum less than \$6.12 per day, we find it would have required the sum of \$33,651.55 to meet the total deficit.

It must be apparent to all that a seventy-five bed hospital cannot be conducted with a staff which might be perfectly adequate to the needs of a thirty bed institution. In order to be prepared to meet whatever demands may be made upon it, the hospital must at all times be prepared to efficiently function at its maximum capacity.

The Wentworth hospital has been registered in the highest class under the requirements of the American Hospital Association and meets the demands of the American College of Surgeons. Its equipment is modern and of the highest standard, and its technique is of the best. In response to a very evident public demand and to perfect the standardization of the hospital, the board of trustees, in 1925, added an X-Ray equipment and established a pathological laboratory. These departments are not only necessary to secure the highest standard of efficiency in therapeutical and surgical practice, but insure ac-

curacy in the diagnosis of the attending physician or surgeon.

Each of these departments, when they reach normality in functional activity, will be practically self-supporting. The receipts from these sources for the year 1926 were \$1,474.50, although the laboratory only entered upon a regularly established schedule last June. The number of examinations conducted by the pathologist during the past year was 2,072.

The hospital has added a motorized ambulance of the last type to its auxiliary equipment, supplanting the horse-drawn vehicle formerly in use.

Those having occasion to visit the hospital, either by vehicle or on foot, find the new asphalt pavement leading to the administration building a welcome addition to the hospital improvements for the year.

The board of trustees desire to gratefully acknowledge the receipt of the sum of \$5,000.00 under the will of the late Miss Abbie F. Lane, donated for a free bed in memory of her father, the late Edmund J. Lane, also the provisional bequest under the will of the late Mrs. Lydia H. Rollins, and the especially generous remembrance contained in the will of the late James M. Hanscom.

We would respectfully urge the careful reading of the appended reports of department officials.

Respectfully submitted,

C. E. T. CASWELL,

Board of Trustees.

Dover, N. H., January 1, 1927.

THE WENTWORTH HOSPITAL

REPORT OF THE LABORATORY DEPARTMENT

TO THE BOARD OF TRUSTEES:

The pathological laboratory started its function in June, 1925, and has gradually increased its scope of usefulness. Routine urine examinations are made of all patients upon entrance and once a week during their stay in the hospital. Gross and microscopic examinations are made of tissues removed at operation. Other examinations are made following the request of the attending physician.

Complete reports of all examinations are attached to the history of the patient and duplicate copies of these reports are also kept in the laboratory. We are now working on the Kahn Reaction which is being favorably reported by many laboratories as a substitute for the more tedious and complicated Wasserman test.

The following is a list of examinations made during the last year:

Urine examinations:

Routine	1,530
Functional	5
Quantitative	90

Blood examinations:

Red blood count	28
White blood count	32
Differential count	26
Hemoglobin	28

Coagulation time	6
Typing	2
Kahn reaction	3
Widals	3
Cultures	4
Blood chemistry:	
Blood sugar	28
Blood urea	6
Non-protein nitrogen	6
Creatinin	7
Tissues:	
Gross	122
Microscopic	122
Spinal fluid	1
Smears	19
Exudates	3
Throat cultures	1
Total	<hr/> 2,072

R. J. BENNETT,

Pathologist.

THE WENTWORTH HOSPITAL

REPORT OF THE ROENTGENOLOGIST

TO THE BOARD OF TRUSTEES:

Since September, 1925, the X-Ray department has been equipped with the most modern apparatus obtainable to do all kinds of diagnostic X-Ray work, which has included fluoroscopy, stereoscopy, pyelography, cholestyography and regional diagnostic work done during surgical operations, in the removal of renal calculi and nuclei.

Reports of all examinations are attached to the history of the case record in each individual instance and become an integral part of the case record.

H. O. CHESLEY, M. D.

Dover, N. H., December 31, 1926.

THE WENTWORTH HOSPITAL

REPORT OF THE SUPERINTENDENT

TO THE BOARD OF TRUSTEES:

GENTLEMEN:—Your superintendent submits the following report for the year 1926.

Number of patients in the hospital	32
Paying	26

DONATIONS RECEIVED

Auto-strop razor, blades and strop: Theophilus Dondero.

Books for patients: Dr. Jenkins, Jackson, N. H.

Candy for nurses' training school: Dr. and Mrs. Lawlor, Dr. Sweeney.

Compress: Mrs. Waldron, Miss Mullen, Somersworth, N. H.

Flowers: Mr. Harold Brown; Mrs. Roy Wiggin; Mr. and Mrs. Henderson, Rochester, N. H.; Mr. William Reynolds; Theta Chi House, Durham, N. H.; W. C. G. U. Mission; Mr. M. Desautels; Mr. Forest Smith, Durham, N. H.; Hospital club; Meader's Flower Shop.

Flowers for nurses: William Lanouette.

Flower vases: Miss Raitt, Miss Caswell.

Fruit: James Dowaliby.

Fruit for nurses: Mr. Robert Crosby.

Gifts for children's department: Dr. Robert Blais.

Lettuce: Mrs. Harry Tasker.

Magazines: Mrs. James Lawless; Mrs. E. A. Billings, North Berwick, Me.; Miss Bessie Parker, Mrs. Herrick Nichols.

Morris chair for maids' department: Edwin Abbott.

Plants: Mr. Meader.

Rolls for training school, one dozen: Mr. Cox.

Rug for maids' department: Mrs. Mank.

Scrap books for children's department: School girls of Durham, Evelyn Davis, teacher.

Supplies for children's department: Hospital club.

Scrap books: Junior Girls' club of Durham, N. H.

We have eighteen nurses in training, which is less than our usual number. Patients requiring special nurses have a registered graduate nurse. The hospital pays this nurse and collects from the patient.

The year has been pretty well divided, as my leave of absence with the extension on account of my sister's illness and death kept me away five months. I do not need to tell the board that I paid my substitute for my absence. On my return we were minus a dietitian, and I did the work of the dietitian for two months and a half, together with the usual work of running the hospital.

We have had fewer patients than the year before, but one must take into consideration the fact that there are two hospitals in Rochester and one more in Dover, and naturally these hospitals receive a certain percentage of the sick. About thirty-five per cent. of the patients admitted here have come from out of town.

Since we have become an accredited class A hospital, the records have increased a great deal. The report of the technician shows what a large amount of work in that department has been done.

It has never been suggested by his honor, the mayor, or by the board of trustees, that we are competing with any hospital, and it certainly has not occurred to the superintendent of the hospital that such was the case. Patients as a rule go where they prefer going, but even with an average of fifty-one patients for the three hospitals in our immediate vicinity, it seems to me that the work done at the Wentworth hospital has far exceeded what we could expect.

We have had no contagious diseases this year, the only case of isolation being one of erysipelas,—in this we were most fortunate.

An accredited hospital and an accredited training school, which is a city hospital, necessarily costs a good deal of money. The only way to increase our revenue that I can see is to raise the rates; this makes the living conditions for the working man harder than ever. We do not charge as much for our private rooms as do most hospitals, but it seems to be as much as the average person can afford to pay. The matter of rates is a very perplexing one to the majority of hospitals, and we are no exception.

The Hospital club has, as usual, come up for the making of dressings and have practically resupplied the children's department with linen at the cost of over \$100.00. We are very grateful for the kindness and interest shown.

I wish at this time to thank the board and the clerk for their kindness and courtesy.

Respectfully submitted,

GRACE P. HASKELL, R. N.,

Superintendent.

THE WENTWORTH HOSPITAL

REPORT OF TREASURER

TO THE BOARD OF TRUSTEES:

I submit herewith the report of the treasurer of the board of trustees of the Wentworth hospital for the year ending December 31, 1926.

PINE HILL CEMETERY

REPORT OF THE SUPERINTENDENT

TO THE BOARD OF TRUSTEES:

The work of the department for the past year has been largely of a routine character. The length of time required to properly perform the work necessary to keep lots placed under perpetual care in a condition conformable with the requirements of the trust is steadily increasing, yet the expense of such additional labor involves no additional cost to the department, as the income of the trust is adequate to meet the increased expenditure.

The receipts from sale of lots during the past year have been practically negligible, and have very materially affected the revenues of the department. The expenditures were also increased substantially \$800.00 by the purchase of a motor truck and the expense involved in moving filling from the high school lot to the cemetery grounds. The last mentioned expenditure was in reality an economic measure, as a sufficient quantity of filling was secured to raise a depression in the new addition to grade, the filling in certain parts of such depression reaching a depth of over six feet. The expense of this work was limited to the cost of transportation, and made available for convenient development a large section of the cemetery grounds.

The grading of the grounds in the vicinity of the Grand Army lot is nearing completion, and has greatly improved the appearance of the cemetery at

that point. In certain parts of this area the grade has been raised approximately ten feet.

The shade trees and shrubbery have been kept clear of brown-tail moths and other tree pests, and all broken limbs and other material have been promptly removed.

The walkways and avenues have been maintained free from weeds and rolling stones and present a very creditable appearance. New metal signs have been purchased to replace the rather unsightly markers heretofore in use, and when placed in position will very materially enhance the appearance of the premises.

The usual number of headstones and markers have been placed in position during the year, and every effort has been made with the means at command to beautify those portions of the grounds for the care of which no provision has been made.

We are still in hopes that some one or more of our public spirited citizens will make it possible, by their personal contributions, to improve the southeasterly corner of the old cemetery area and make it an ornament to the premises and a convenient resting place for those who have occasion to visit the hill.

The number of interments during the past year has been 151, or about the general average of the past ten years. The number of interments for 1917 was 156; 1918, 180; 1919, 145; 1920, 151; 1921, 144; 1922, 148; 1923, 147; 1924, 120; 1925, 161; and the past year, as stated above, 151.

We give below a list of the interments for 1926:

ETHEL W. DEVIN, in charge of Reference Work.

Janitor,
JOHN B. CALCUTT.

ANNUAL REPORT
OF THE
BOARD OF TRUSTEES

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The board of trustees of the Dover public library submits herewith its annual report covering the work for 1926.

The library is in excellent condition and doing work creditable to the city. Because of its steady growth, it has needed extra shelving, and as the building had had fewer repairs than for some years, it has been possible to put in shelves in one of the storerooms up stairs, and thus relieve the crowded condition in several departments. This shelving has been made from material brought over from the old rooms, when the present building was erected. Having this material on hand made it possible to put up these new shelves at comparatively little expense.

For details of administration and expenditures, reference should be made to the reports of the librarian and treasurer, appended to and made a part of this report.

For the trustees,
CLARENCE I. HURD,
Secretary.

FINANCE COMMITTEE'S REPORT

TO THE TRUSTEES OF THE DOVER PUBLIC LIBRARY:

This is to certify that we have examined the financial accounts of Ellen M. Galucia, treasurer, from January 1 to December 31, 1926, and find them to be correctly cast, properly vouched and the balance on hand to be as represented. We have also examined the several investments and find them to be as represented in the report.

JOHN H. NEALLEY,
WILLIAM H. ROBERTS,
ARCHIBALD B. PATON,

Finance Committee.

Dover, N. H., December 31, 1926.

REPORT OF LIBRARIAN

TO THE BOARD OF TRUSTEES OF THE DOVER PUBLIC LIBRARY:

GENTLEMEN:—The report of the librarian, showing the work of the library for the year 1926, is herewith presented.

THE YEAR'S GROWTH

Whole number of volumes January 1, 1926 .	51,981
Volumes purchased	566
Volumes received by gift	56
Bound periodicals	272
<hr/>	
Total number of accessions	894
Received from the U. S. Government, but not accessioned, 3,300 volumes and pamphlets.	
Worn out volumes withdrawn	143
<hr/>	
Total increase for the year	751
<hr/>	
Total number of accessioned volumes De- cember 31, 1926	52,732

THE YEAR'S WORK

There have been issued 65,229 books, an increase of 1,397 over last year. This may not seem a large increase, but it must be remembered that our city does not grow in population and that a number of non-bookish forms of recreation are widely popular. But whatever the figures of circulation may show, no one who watches the daily working of a public library from year to year can fail to be impressed by the steady increase in intelligent demand upon it,

and its growing recognition as a resort for those who desire not only recreational reading, but help on business and technical subjects. Many questions are asked and answered by telephone, and by mail from distant points. These mail questions are usually in regard to early local history and genealogy. If the library is not able to answer them by a reasonable amount of time in searching our own books, recourse is had to those individuals in town who have made special study along these lines and who generously put their knowledge at the disposal of the library. It has thus been possible to answer, with some degree of fullness these requests for aid. At the time of writing this report, there are letters awaiting reply from Portland, Maine, Malden, Massachusetts, and Moberly, Missouri.

CHILDREN'S ROOM

From this room were sent out 13,616 books, an increase of 1,188 over last year. More than just storage of books takes place in this room. For little ones who cannot yet read are provided picture puzzles and stereoscopic views, that they many early learn to love the room and know it for their own. Help is given to parents and teachers in book selection. Anniversaries of public interest are fittingly noticed, and every year the record of bird arrivals is kept by an exhibition of bird pictures, with dates as reported by different observers. These date records have been kept for sixteen years.

For several years during the winter, reading clubs have been formed here, whose members should read a specified number of books from lists prepared for them. This year the club, including boys and girls, numbered thirty-two; twenty-four finished the course, and were presented with diplomas signed by

the mayor, the secretary of the board, the librarian and the children's librarian. These diplomas were presented at a special meeting of the club held in the lecture room, with appropriate exercises, and both children and parents were much interested in the outcome.

PERIODICALS

The library subscribes annually for one hundred and twenty periodicals and receives forty by gift. At the end of the year one daily newspaper is bound for preservation and the other newspapers and magazines of ephemeral value are sold or given away. The others are bound and go into circulation or reference use. These bound magazines formed last year 6 per cent. of the total circulation, the largest per cent. of any one class outside of fiction. But their more important use is in the reference department. In no other way could be answered the innumerable and varied questions that come from high school pupils and college students, and debaters and study clubs. A magazine that costs fifteen cents a single number, or even thirty-five cents, and stays on the reading tables for the current month, is then circulated perhaps six or eight times, and when the volume is made up is bound at an expense of perhaps one dollar and twenty-five cents and goes into general circulation or reference use, certainly justifies its expense, and the library would be sadly crippled without the store of information that these magazines, made available by indexes, furnish. The filing of the periodicals is done by Miss Morrill. It is work demanding care and accuracy.

The United States Government sends several useful periodicals free; the Pan American Bulletin, the Labor Review, Public health reports, Public roads, Radio service, the Congressional Record, and other

magazines. Government also sends many useful scientific and practical publications, educational pamphlets, children's health circulars, farmers' bulletins and agricultural research work. These are all made accessible to the public and are increasingly used.

The shelves for storage of the material that the library is constantly acquiring have been for several years unduly crowded. Relief has now been provided by the construction of shelving in the larger store-room up stairs, making it possible to keep here in orderly and accessible form some of the sets of volumes not often used, but urgently needed when needed at all.

EXHIBITIONS

In these days when advertising, or publicity work as it is now called, is resorted to not only by business concerns but by churches, educational institutions, and many libraries, this library has done little except through exhibitions interesting to the public. Four of these exhibitions have been held this year. The first was in the spring, on the occasion of Better Homes Week. Books were then displayed on architecture and building, house plans, decoration and furnishing, sanitation and hygiene. In connection with this was shown a collection of several hundred attractive health posters, made by school children, under the direction of the school health nurse. It proved a most popular exhibit, and brought many visits from parents and friends of the young artists.

During the fall there have been three exhibits. The first, under the direction of Miss Parker, was made up of especially desirable books for children and followed the custom of most libraries, being known throughout the country as Children's Book

Week. It was visited by many children and parents and set the standard of excellent books for young people, not only for library reading, but for Christmas gifts which should remain in the home.

The second exhibition was on the week of the anniversary of Armistice Day and consisted of a display of more than two hundred war posters, American and foreign. This collection was made by Miss Devin, during the World war. It was a collection of much interest, both from the historic and artistic points of view. It is now packed away to remain until the passing of years shall again bring it into notice and recall the stirring events of that war time now happily past.

The third exhibit, only recently brought to a close, was that of amateur photography and was under the direction of Miss Jenkins. Shown in connection with it was the collection of pictures of historic houses of Dover, inaugurated by the local chapter of the Daughters of the American Revolution in connection with the Boston Society for the Preservation of New England antiques, which offered prizes for the best collections exhibited. The secretary of the society came from Boston to see the exhibit, and the films of the photographs exhibited were afterward sent to the Society to remain as their property in Boston, but the photographs themselves were presented to the library here to form part of our Dover material in the historical room. It is a most valuable gift, comprising about one hundred and fifty photographs of old houses, exteriors, doorways, stairways, paneling and old time furnishing. These pictures are to be mounted in a scrap book, one house on a page, with historical notes regarding the date of building, the families occupying the place, and the present ownership. It will form a collection of unique his-

toric value, probably not to be duplicated elsewhere in the state. The library already owns many pictures of local interest, the early garrison houses, present day and former public buildings, residences and street scenes, numbering about three hundred and fifty, also a postcard collection, numbering about two hundred and fifty, and of especial interest, a collection of portraits of Dover men, from the days of Hanserd Knollys and Jeremy Belknap, down through the years to the present time. This collection numbers more than a thousand and includes men in all walks of life. Whenever an exhibit of these portraits is made, people come and sit for hours over albums and scrapbooks, recognizing old friends and reviving memories of a long ago past. Mention has been made in these annual reports of the financial value of the collections in the historical room, but it may not be amiss to specify here that the room contains the first Dover papers.

The Phenix—1792 and 1793.

The Sun—1796 to 1818, not complete.

Local Record—1869 to 1872, incomplete.

The Enquirer—1828 to 1900, complete.

The Gazette—1825 to 1873, complete.

Foster's Daily Democrat—1872 to date, nearly complete.

Dover Daily Republican—1880 to 1900, incomplete.

Evening News—1911 to 1913, incomplete.

These are all Dover papers. There are also many pamphlets relating to early Dover, old clubs and societies, old fire companies, the first schools here and church records.

In addition to the Dover material, the room contains an almost complete set of New Hampshire town

histories, many family genealogies and complete files of:

New England Historical and Genealogical Register, 80 volumes.

New Hampshire Genealogical Record, 7 volumes.

Mayflower descendant, 26 volumes.

Granite Monthly, 57 volumes.

Granite State Magazine, 6 volumes.

Maine Historical and Genealogical Recorder, 9 volumes.

Collections of the Essex Institute, 61 volumes.

New Hampshire Law reports, 80 volumes.

York deeds, 18 volumes.

Soldiers and sailors of Massachusetts, 17 volumes.

Provincial and State papers of New Hampshire, 33 volumes; including the Revolutionary Rolls, 4 volumes.

These are valuable books to own and constitute riches in themselves. But the real wealth of a library consists not only in the abundance of its possessions, but even more in the desires and purposes of those who have the material in charge, and who by patience and tact and scholarship make it available to the public. In this regard this library is unusually fortunate, for the assistants here make unwearied efforts that every person using the library shall find the information he seeks, no matter how obscure, or the pleasure he desires, however varied his tastes. The librarian takes pleasure in making public recognition of this willing and efficient service. And to the trustees, as for many years past, she returns grateful acknowledgments for their long continued friendship and kindness and active support.

Respectfully submitted,

CAROLINE H. GARLAND,

Librarian.

Dover, N. H., December 31, 1926.

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE

In accordance with the laws of the State of New Hampshire, the school committee of the city of Dover presents its report for the year 1926, it being the fifty-fifth in the series of reports of the city district.

THE SCHOOL COMMITTEE, 1926

CHOSEN BY THE PEOPLE

Members		Term Expires
Melvin B. Pray	Ward 1,	Jan., 1928
Luke H. McEwan	Ward 1,	Jan., 1927
Ernest C. Lord	Ward 2,	Jan., 1928
Charles A. Cloutman	Ward 2,	Jan., 1927
Frank R. Bliss	Ward 3,	Jan., 1928
Frances S. Hall	Ward 3,	Jan., 1927
James F. Whitehead	Ward 4,	Jan., 1928
Elizabeth C. Sawyer	Ward 4,	Jan., 1927
George E. Brennan	Ward 5,	Jan., 1928
Michael Duffy	Ward 5,	Jan., 1927
Hon. Charles E. T. Caswell, Mayor, ex-officio.		

CHOSEN BY THE CITY COUNCILS

Members		Term Expires
George D. McDuffee	Ward 1,	Jan., 1927
Helen Pollard	Ward 2,	Jan., 1928
Elwill S. Shortridge	Ward 3,	Jan., 1927
Norman E. Seavey	Ward 4,	Jan., 1928
Ruth E. Holt	Ward 5,	Jan., 1927

Annual meeting—The second Thursday in January, at 7.30 o'clock, P. M.

Stated meetings—The second Thursday in each month, at half-past seven o'clock, P. M.

ORGANIZATION FOR 1926

Chairman,
GEORGE D. MCDUFFEE;
Sixth Street Extension.

Secretary,
NORMAN E. SEAVEY;
118 Locust Street.

SUB-COMMITTEES

Finance and Claims:—Whitehead, Caswell, Seavey, Bliss, Shortridge, Sawyer, McDuffee (ex-officio).

Text-Books:—Bliss, Hall, Holt, McEwan, Pollard.

Music and Drawing:—Duffy, Whitehead, Pray, Sawyer, McEwan.

Health:—Bliss, Pray, Shortridge, Holt, Pollard.

High School:—McDuffee (ex-officio), Bliss, Pray, Hall, Duffy, Lord.

Grammar School:—Hall, Seavey, Brennan, Pollard, Cloutman.

Primary Schools:—Pray, Whitehead, Shortridge, McEwan, Holt.

Suburban Schools:—McEwan, Sawyer, Holt, Lord, Cloutman.

Industrial Training:—Seavey, Pray, Shortridge, Cloutman, Lord.

Evening Schools:—Sawyer, McEwan, Duffy, Whitehead.

Truancy:—Brennan, Holt, Lord, Pollard, Cloutman.

Mother's Relief:—Hall, Brennan, Cloutman, Lord, Seavey.

Superintendent of Schools,

J. E. WIGNOT;
Office, City Building.

Office hours:—On school days, 8 to 8.30 A. M.; Mondays and Fridays, 7.30 to 8.30 P. M.; Tuesdays, Wednesdays and Thursdays, 4 to 5 P. M.; Saturdays, 8 to 10 A. M.

Treasurer,

ELLEN M. GALUCIA;
Office, City Building.

Office hours:—9 A. M. to 12 M.; 2 to 4 P. M.

Truant Officer,

SIDNEY E. TAYLOR;
Office, City Building.

Office hours:—8 to 9 A. M., and 1.30 to 2 P. M. school days.

SCHOOL CALENDAR

ANNUAL REPORT
OF THE
SUPERINTENDENT OF SCHOOLS

TO THE SCHOOL COMMITTEE:

I have the honor to submit herewith my ninth annual report, which includes the special reports and the usual tables and statistics.

THE NEW ADDITION TO THE HIGH SCHOOL

The outstanding event in the school department this year was the "New Addition to the High School." This is the first "new building" program which has been accomplished by a Dover school committee within a period of 23 years. It is rather an ambitious program and involves a considerable outlay of money. That additional school space was needed is made evident by the manner in which its conception by the chairman of the board was approved by the school committee and put through by the mayor and city government. A bare sketch of the action of the school committee and the city government is shown by the following records:

Dover, N. H., Jan. 7, 1926.

TO THE SCHOOL COMMITTEE:

The committee on high school herewith sets forth certain conditions obtaining in our school system, and makes a recommendation to relieve and to remedy them:

CONDITIONS IN THE HIGH SCHOOL

(1) This building is crowded for the use of high school pupils, as two of the rooms are occupied by the 7th and 8th grades, making it necessary to use a small teachers' room and the assembly hall as class rooms.

(2) Furthermore, there is no suitable place in this building where students can eat their lunch in clean and sanitary surroundings. The present arrangements for lunch are unsatisfactory in the extreme.

(3) We have a director of physical training who is doing good work, but the development and growth of this training is hampered by the lack of a gymnasium. One should be built into our school system in order that our boys and girls may receive the full benefit of our system of physical training—such a gymnasium could also provide a suitable assembly room for all the high school students, which is impossible in our present small hall.

CONDITIONS IN THE MECHANIC ARTS DEPARTMENT

This department has grown in numbers and equipment until the present quarters in the basement of the city building are crowded beyond what is necessary for its best work, and no room is left for expansion. Even this year, part of this department has overflowed into the ward room, crowding and inconveniencing the manual training department.

Our present quarters in the basement of the city building were a makeshift at best, and as this department has grown, are at present wholly inadequate, especially in the matter of heat and toilets, for the best work. A new building should provide for this.

CONDITIONS AT THE SHERMAN SCHOOL

This building has long years ago been declared

unfit for modern school purposes. It is the oldest school building in our city. A new building should provide for the three grades housed there. In view of the conditions outlined, the committee on high school recommends to the school committee that a request be transmitted to the mayor and city councils asking that early action be taken, with a view to building an addition to the high school, to provide:

(1) Suitable accommodations for the mechanic arts department of the high school and the manual training department of the grade schools.

(2) A gymnasium.

(3) At least six class rooms.

G. D. McDUFFEE,
FRANCES S. HALL,
MELVIN B. PRAY,
HAZELLE WHITEHOUSE,
FRANK R. BLISS,

Committee on High School.

The city government replied to this communication as follows:

Dover, N. H., Feb. 5, 1926.

NORMAN E. SEAVEY, SECRETARY OF SCHOOL COMMITTEE:

DEAR SIR:—I am enclosing herewith copy of the resolution adopted by the city councils last evening, appointing a committee to serve jointly with a committee of like number from the school committee, to take under advisement the communication and accompanying recommendations submitted by your board under recent date.

Very truly yours,

FRED E. QUIMBY,
City Clerk.

RESOLVED BY THE CITY COUNCILS OF THE CITY OF
DOVER:

That a special committee consisting of his honor, the Mayor, Aldermen Wentworth and Dame, Councilmen Brackett, Varney and McKenney, be, and hereby is appointed to serve jointly with a like number of members to be appointed by the school committee, to consider the subject of additional accommodations for the pupils in our public schools, said joint special committee at its convenience to submit to these councils such report and recommendations as in its opinion the exigencies of the case may seem to warrant or that will best serve the public welfare. Any expense incident to such investigation, upon the approval of the Mayor, to be paid from the appropriation to be provided for contingent expenses.

The following six members of the school committee were appointed to serve jointly with the six members from the city councils: Chairman George D. McDuffee, James F. Whitehead, Norman E. Seavey, Frances S. Hall, Frank R. Bliss and Melvin B. Pray.

This joint special committee reported in part as follows:

“We find, after investigation, that the statement of school conditions is a true statement and that the recommendation for an addition to the high school to remedy these conditions is fully warranted. We have carefully examined the plans submitted by three architects for a building to meet the needs of the schools and unanimously recommend the plans of Architect J. Edward Richardson of Dover. The main features embodied in these plans are as follows:

(1) The floor space furnishes the mechanic arts department over 12,000 square feet, or about twice

the size of the present floor space in the basement of the city building. This relieves the crowded condition there and will allow this important department of our school system additional facilities for better work.

(2) A gymnasium, 60x90 feet. This will provide facilities for improved athletic work now a part of the regular curriculum of our public schools. In addition to this, there will be seven class rooms. It provides space for the two grades now located in the high school building and the three grades now located in the Sherman school. The plans provide further for a new chimney and new boilers to serve the present high school and the library and also the new proposed addition. This change is recommended in order to do away with the present faulty ventilation of the present high school building.

We find that the approximate cost of such a building will be \$204,800.00, of which \$7,000.00 would be a proportional part of the cost for the new boilers to serve the present high school and the library, and \$10,000 for equipment, making an approximate total cost of \$214,800.00. We recommend that a committee be appointed to take immediate steps to secure bids on the construction of such a building and the incidental costs.

J. E. WIGNOT, SECRETARY HIGH SCHOOL BUILDING COMMITTEE, DOVER, N. H.:

The city government replied as follows:

Dover, N. H., May 7, 1926.

DEAR SIR:—I am enclosing a copy of a resolution adopted by the city councils last evening, which I trust you will bring to the attention of your committee at the earliest opportunity.

Very truly yours,

FRED E. QUIMBY,

City Clerk.

Whereas, these councils view with favor the report and recommendations of the joint special committee appointed by the city councils and the school committee to procure plans and estimate of cost of an annex to the high school building, and accept said report as a report of progress. In the interest of public policy, however, it would seem desirable that definite information be obtained as to the ultimate cost of carrying out the plans as approved by the school committee before committing the city of Dover to an enterprise where the aggregate cost may vary materially from the estimate as submitted in said report. Therefore be it

RESOLVED BY THE CITY COUNCILS OF THE CITY OF
DOVER:

That said joint special committee be and hereby is instructed to continue with the work committed to it, and secure bids from competent contractors for the construction of the proposed annex agreeably to the plans submitted by J. Edward Richardson, architect, and approved by the school committee, and report in detail to these councils for final action before the contract for the construction of said annex is awarded.

The joint special committee "continued the work committed to it" and secured bids from eleven contractors ranging from the highest, \$229,820, to the lowest, \$184,980, on the general contract; and, on the heating contract, bids from seven contractors ranging from the highest, \$42,490, to the lowest, \$27,500. A detailed report was made to the city government, whose action is stated substantially in the following communication:

Dover, N. H., August 7, 1926.

MR. NORMAN E. SEAVEY, SECRETARY OF THE SCHOOL
COMMITTEE, DOVER, N. H.:

DEAR SIR:—I am enclosing herewith copies of three documents which were severally passed by the city councils at a special meeting held for that purpose on Friday evening, August 6, 1926.

(1) A resolution accepting the report of the joint special committee appointed to secure plans and estimates of cost of constructing and equipping the proposed annex to the high school building.

(2) A resolution concurring with the school committee in approving the plans submitted by J. Edward Richardson, architect, for such annex, and the appointment of six members of the city government to serve with an equal number of members from the school committee as a building committee.

(3) A resolution authorizing the hiring of \$233,-568 to meet the estimated cost of building and equipping said annex.

Very truly yours,

FRED E. QUIMBY,

City Clerk.

The building committee of twelve members was finally authorized to get down to the business of having the proposed new addition built. A detailed report of their many meetings would be too voluminous to incorporate in this report. Suffice it to say that the committee worked hard, and long, and harmoniously. No bickerings of any sort marred the deliberations of this body of eleven men and one woman. The examination of architects' plans had been conducted without a trace of partiality and with uncommon labor and patience. Specifications were gotten out as soon as it was humanly possible

by Architect J. Edward Richardson, and actual construction was begun early in the fall. It should be completed, equipped and ready for use when schools open in September, 1927.

However, the new building does not complete the plans to remove the crowded condition of the high school. To accomplish this, there still remains the work of remodelling the assembly room of the old building into classrooms. This remodelling was one of the essential features of the building program and, if this were left undone, the high school would still be left crowded and crippled for room. When this remodelling is done, the building program as planned will be complete, and the greatest improvement in our school system within a generation will have been accomplished.

The "Better Schools League" of Chicago says:

"Few people realize how important a factor are our public schools in the prosperity and growth of a community—purely a commercial viewpoint. We measure the products of our schools in terms of cultural and educational value, their spiritual influence, their part in developing better citizenship, their work in equipping our youth to meet the problems of life. These primary products are of first importance and it is a wholesome condition that they are so stressed. However, we often overlook the fact that a community without an effective school system may be not only lacking in these essential elements, but likely to be equally as far behind in material prosperity.

"When the time comes for a family to change its residence, a location accessible to an efficient school is of first concern. This is true in intra as well as inter-city movements. Realty values are affected by proximity to the class room. A good school will sur-

round itself with a solid population of industrious families; families whose wants must be supplied, who build up church memberships, patronize shops and stores, give their patronage to the professions, and thus fill the arteries of trade with the blood of business.

“The Better Schools League calls attention to this phase of school influence, an influence that aids in building up the business welfare of a district as well as leading in the mental and ethical development of its youth. A substantial, sightly and well-equipped school plant, manned by a teaching force of personality and power, with adequate facilities for study and play, is a source of prestige, a worthy asset to city district or country town. Such a school atmosphere makes for stability and solidity in the property surroundings, increasing land values through its influence on the character of the neighborhood and on the volume of trade.

“We have the testimony of a former cabinet member who has said that ambitious citizens will go where education may be had for their children. The same point is emphasized in the story of another prominent American who tells of his father’s leaving the back-woods of the Ozark Mountains because there were available but three months of school. ‘My father packed our belongings in a covered wagon,’ he relates, ‘and went to a new state—and we moved out of a three months’ school into a nine months’ one, with a free high school.’

“This leads us to wonder how desirable are new residents to a community who are not sufficiently interested in their children to inquire regarding school advantages before establishing a new home. It has been said, ‘We can judge of a civilization as well as an individual by the way childhood is treated.’

“This is a view of a by-product of our schools, a form of public service to the community that should impress residents who have no occasion to utilize the schools as well as non-resident property owners, both of whom sometimes feel that they have taxation without proportionate benefits.

“The importance of the products and by-products of our schools may be summarized in the words of Herbert Hoover, ‘If we were to suppress our educational system for a single generation, the equipment would decay, the most of our people would die of starvation, and intellectually and spiritually we should slip back four thousand years in human progress. We could recover the loss of any other big business in a few years—but not this one.’ ”

ADDITIONS TO THE TEACHING FORCE

While the outstanding event of the year has been the “New Addition to the High School,” an event of great importance occurred in the primary schools early in September. It developed that an uncommonly large number of children presented themselves for admission in the four first grades, all of which enrolled over 50 pupils, and one over 60. This was surely a crowded condition beyond the point where good work could be expected. An additional first grade teacher became a necessity. The vacant room in the Sherman school was speedily put into condition by the committee on school house repairs, and the school committee elected Miss Dorothy Latham as teacher of the new Sherman first grade. Without a doubt, we shall need an additional second grade room and teacher in September, 1927.

It was found, also, that the increase in the number of students in the mechanic arts department of the high school was so great that an additional teacher became a necessity. Mr. Walter D. Hayes, a grad-

uate of Bowdoin College, was elected. This addition to the faculty relieves both the high school proper and the mechanic arts department.

CHANGES AND TRANSFERS IN THE TEACHING FORCE

The following high school teachers resigned or declined to renew their contracts for another year: Hazel W. Hollenbeck, Gertrude L. McDaniel, Mary Jenness, Maurice P. Smith, Alice Fernald.

The following teachers were elected to fill these vacancies: Marjorie D. Groah, Myrtle L. Grover, Mabel Hayes, Ernest F. Forbes, Esther H. Young.

The following elementary teachers resigned or declined to renew their contracts for another year: Esther M. Thierault, fifth grade, Sherman school; Mabel S. Fanning, eighth grade, Central school; Marjorie S. Smith, Upper Neck school; Zennie B. Collins, first grade, Pierce school; Albert B. Hoag, manual training.

Ella M. Folsom was transferred from the Sherman eighth grade to the Central eighth grade and Edna I. Ordway was transferred from the Hale, first grade, to the Pierce, first grade.

The following teachers were elected to fill these vacancies: Gladys M. Warren, fifth grade, Sherman school; Julia Bishop, eighth grade, Sherman school; Ruth K. Raynes, Upper Neck School; Frances M. Cartland, first grade, Hale school; Cecil A. Graves, manual training.

TUITION RATES

The rate charged outside towns for tuition in the high school has been raised from \$70 to \$90. When one considers that the average cost per pupil in the high schools of the state last year was \$155.22, a tuition charge of \$90 seems a very moderate one.

The rate for elementary pupils is also very low in comparison with the average cost per pupil in

the state. The tuition charge in Dover is \$30 per pupil per year for the grammar grades, and \$25 in the primary grades. The average for the state in the elementary schools is \$79.13.

I commend to your earnest consideration the reports of the headmaster and special teachers. They are worthy of careful thought because they show in some detail the work of our schools. It should be a source of satisfaction to you that our schools are generally spoken of in the community as good schools, our teachers always referred to as excellent teachers; and, that you, yourselves, are looked upon as a thoughtful, intelligent body of men and women who have shown a deep appreciation of the responsibilities of your office and a broad civic spirit in the performance of its duties.

Respectfully submitted,

J. E. WIGNOT,

Superintendent of Schools.

ANNUAL REPORT
OF THE
HEADMASTER
of the Dover High School

To THE SCHOOL COMMITTEE:

I herewith present my ninth report of the Dover high school.

ATTENDANCE

	1918	1919	1920	1921	1922	1923	1924	1925	1926	1927
	1919	1920	1921	1922	1923	1924	1925	1926	1927	
September enrollment	268	286	314	382	405	383	382	397	420	
September percentage of attendance .	94.5	97.5	97.7	98.3	98.7	98.2	98.4	95.7	96.2	
September tardiness	41	35	22	4	4	2	4	6	3	
Fall term attendance . . .	272	290	319	389	410	389	383	402	422	
Fall term percentage of attendance .	97	98.3	98.5	98.3	98.13	98.43	97.88	98	97.85	
Fall term tardiness	42	92	85	55	50	31	31	47	34	
Tuition pupils	47	38	45	44	61	59	60	61	56	
Fall term percentage left school	11			7	9	6	5	7.4	6.8	

The statistics above will show that the enrollment is the largest in the history of the high school.

Since most institutions of collegiate grade, including normal schools, receive our graduates on a certificate signed by the headmaster, it would seem that parents should make greater effort to give their children a secondary education.

Too many of the grammar graduates in this city

leave school at the completion of their work in the eighth grade. So far as my knowledge goes, this is not true in the ungraded schools of the surrounding towns.

Nearly all of these boys and girls, who finish the work of the eight grades, are anxious to graduate from some academy or high school.

On account of our educational facilities, the major part of these young people enter our school.

That pupils might be distributed in class divisions of reasonable size, under competent instructors in their departments, the school committee has been ready to employ additional teachers as needed.

In a school of the size of Dover high, parents should not expect individual instruction, but they do expect that the management shall so classify students that they may have an opportunity for good classroom teaching.

Two-thirds of the annual failures come from the freshman class. In many cases this is due to a failure on the part of the students to adjust themselves to the requirements of the secondary school program.

It is very difficult to convince such pupils that they should remain in school, even though it may take five years to obtain a diploma.

After completing their program in the high school, many five-year students have made commendable records in post-graduate work. This fact should encourage the young people to remain in school.

ENROLLMENT OF CLASSES

Term 1.

Candidates for diplomas in June, 1927:

	1st year	2nd year	3rd year	4th year	Totals
Boys	86	64	36	33	219
Girls	79	52	36	36	203
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
	165	116	72	69	422

Graduates of the city grammar schools:

The tabulation below will give the per cent. of these pupils who entered the high school in September, 1926:

Sawyer school	80.
Sherman school	75.7
Central school	89.7

The per cent. of admissions for the past nine years:

	1918	1919	1920	1921	1922	1923	1924	1925	1926	Average
Sawyer	84	90	80	85.3	91	87.8	86.5	78.7	80	84.8
Sherman ...	60	68	48	84.8	87.5	50	66.6	92	75.7	70.2
Central	80	80	97.5	92.5	92.5	92.5	90.6	100	89.7	90.6

This table will show that registrations from the grammar schools were nearly ten per cent lower than last year. However, the average entrances for the past nine years remain about the same.

The character of the work accomplished during the fall term was much higher than in former years.

Number leaving school during the summer vacations of 1925 and 1926.

	1925			1926		
	Boys	Girls	Total	Boys	Girls	Total
Juniors	2	2	4	4	1	5
Sophomores	.0	1	1	4	2	6
Freshmen ...	5	2	7	5	2	7
	—	—	—	—	—	—
	7	5	12	13	5	18

The figures in the table above give a loss of six pupils over that of the preceding year at the beginning of the fall term, 1926.

Percentage of enrollment by classes:

	Boys	Girls
Seniors	47.7	52.2
Juniors	50.	50.
Sophomores	55.2	44.8
Freshmen	52.1	47.9
Total average	51	49

The enrollment for the past term was two hundred nineteen boys and two hundred three girls.

Enrollment by courses:

	Class		Sci.		Com'l		M. A.		D. A.		Gen.		Total
	B	G	B	G	B	G	B	G	B	G	B	G	
Seniors	2	17	13	0	0	12	8	0	0	5	10	2	69
Juniors	2	14	12	0	4	15	9	0	0	4	9	3	72
Sophomores	12	21	24	1	2	19	24	0	0	10	2	1	116
Freshmen	11	20	29	0	2	50	43	0	0	9	1	0	165
	27	72	78	1	8	96	84	0	0	28	22	6	422

Enrollment by subjects:

English literature and rhetoric	427
American history	76
Modern history	26
Zoology and botany	94
Mathematics (not including commercial arithmetic)	346
Physics	68
Industrial history and commercial geography	30
Bookkeeping	45
Business law and political economy	21
Stenography and typewriting	30
Latin	104
French	200
Chemistry	41
Greek and Roman history	28
Freehand drawing	0
Domestic arts (four classes)	26

Commercial arithmetic and penmanship . . .	57
Mechanic arts (four classes)	82

MECHANIC ARTS PUPILS BY CLASSES

Seniors 8 or approximately 11.6% of the class.

Juniors 9 or approximately 12.5% of the class.

Sophomores 24 or approximately 20.7% of the class.

Freshmen 43 or approximately 26% of the class.

Entrance enrollment for the past nine years:

	1918	1919	1920	1921	1922	1923	1924	1925	1926	Total
Entrance	39	43	55	88	71	60	62	69	84	571
Loss during each year	19	18	11	5	5	5	2	9	6	80

The work of this department is under the direction of a competent director and four assistants.

The entering class, with one exception, is the largest in the history of this department.

It is expected that, on entering our new school building in the fall of 1927, the number will be even larger.

During the three days of the Merchants' and Manufacturers' Exposition, this department had a display. It exhibited various woodworking articles, drawings, patterns, and several finished machines. This exhibition offered the people of Dover an excellent opportunity to view the work of the boys.

During Education week, November 7 to 12, a visitation night was held, that parents and other citizens might see the boys at work.

The projects listed below will give the character of the shop work:

LIST OF PROJECTS

WOODWORK

Telephone tables and stools, flower boxes, fern boxes, window boxes, medicine cabinets, drawing

boards, bookends, book racks, magazine racks, tables, library tables, porch chairs, foot stools, taborets,, cedar chests, desks, hall seat, chairs,

WOODTURNING

Circular tables, stands, taborets, floor lamps, reading lamps, candle sticks, rolling pins, collar and jewel boxes, screw driver handles, bench vise handles, legs for stools, tables and stands.

PATTERNMAKING

Patterns for an edge sander completed, complete set of patterns and core boxes for a bench lathe, ten-inch bench drill press, patterns for repair parts when necessary for repairs and upkeep of equipment, patterns for gears, guards, brackets, pulleys and back-rest.

MACHINE SHOP PRACTICE

Two bench drill presses completely finished, three others partly completed, a bench lathe nearly finished, two bench vises completed, gears, worms, spiral gears, pocket screw drivers, V-blocks and two milling machine vises.

DOMESTIC ARTS PROGRAM

Pupils:

Seniors 5 or approximately 7.2% of the class.

Juniors 4 or approximately 5.5% of the class.

Sophomores 10 or approximately 8.6% of the class.

Freshmen 9 or approximately 5.4% of the class.

All young women interested in domestic projects should enter this department. It is an excellent opportunity to obtain a training which will be of inestimable value in the home.

On parent night, November 12, much of the work

completed during the past term was displayed for inspection.

After suitable rooms have been provided and equipped for this work, it is expected that the enrollment will increase.

INSTRUCTION TRIPS

The following is a list of the trips taken in connection with the domestic arts work :

1. Pacific Mills.
2. American Woolen Company.
3. Bro-Be-Co.
4. M. & M. Bakery.
5. Royal Restaurant.
6. Twin State Gas and Electric Company.
7. Keenan's Electric Store.
8. Mrs. Jenness' home.
9. Mrs. Pinkham's home.
10. Dover Water Works.
11. P. F. Casey.
12. Littlefield, Frary & Company.
13. E. Morrill Furniture Company.
14. F. W. Hanson Company.
15. Domestic Science Department.
16. Lothrop's Music Rooms.
17. Horton's Studio.
18. Prime Furniture Company.
19. Flowers' Furniture Store.
20. Anton.

PROJECTS

SEWING CLASS

Underwear: Bloomers, slips, step-ins, envelopes, pajamas.

Outside garments: Woolen dresses, cotton dresses, silk dresses, blouses, skirts.

Table linen: Luncheon cloths, scarfs.

THE ORCHESTRA	

AWARD OF PRIZES

A newspaper commented as follows:

"The prize speaking contest, in which students at the local high school took part last evening at the assembly hall in the school building, proved to be one of the keenest competitions which has been put on here for the coveted Perkins' gold medal. The eleven contestants showed marked ability throughout and gave the judges a difficult task in making their selection of the winners. The work of the contestants was generally conceded, by those making up the large and appreciative audience, as the finest which has characterized an event of this kind in Dover. That there are a great many capable speakers in the local high school was impressively demonstrated by their clever work last night. The music for the occasion was furnished by the high school orchestra; and its work, as in the past, was commented on highly. The young artists responsible for the musical selections deserve much credit for the faultless manner in which each was rendered."

PRIZES

The class of 1927 won the trophy for excellence in scholarship. The gold medal for excellence in oratory was awarded to Elizabeth Wingate Smith. The second prize, a five dollar gold piece, was presented to Annie Vickery Meader.

COURSES OF STUDY

The six courses of study in Dover high school are sufficiently varied in character to meet the needs of the pupils.

The students who entered higher institutions in September, 1925, made commendable records. In September, 1926, about forty-five matriculated in normal school, college or university.

The registrar of the University of New Hampshire

told me that Dover, without its graduates in surrounding towns, sent to the University two and one-half times as many students according to population as any other town in the state. This proves conclusively that Dover boys and girls are anxious for a liberal education.

FUNDAMENTALS

It was suggested by the state department that high school pupils keep active the skills acquired in the elementary schools. Consequently, during the second semester, a considerable time was devoted to the fundamental processes in arithmetic, spelling, geography and writing. This consumed the first fifteen minutes after the morning exercises for four days each week. The pupils and teachers were interested in this new departure, and apparently excellent results were attained.

Examinations in two of the above-mentioned subjects were sent out by the state department near the close of the school year in June to the various high schools in the state, with a view to ascertaining whether or not the secondary schools give reasonable time and attention to the fundamentals of the elementary grades. Such tests were given, corrected and returned to the state officials at Concord.

DRAMATICS

On March 19, the senior class presented in the opera house, "The Charm School," a comedy in three acts, by Alice Duer Miller and Robert Milton. As in former years, the actors did remarkably well for amateurs. The play was a dramatic and financial success.

A newspaper commented on the play as follows:

"The Dover high school seniors staged a strictly modern play last night before a capacity audience

at the city opera house, a play with a message, entitled, "The Charm School," a comedy in three acts, based on Alice Duer Miller's story. It was the first time in several years that the school has departed from the classic forms of drama. The piece proved a big hit with the audience. The cast, composed of ten girls and six boys, was exceptionally well prepared for the performance as the result of ten weeks devoted to rehearsals under a dramatic coach of much experience."

The cast of characters was as follows:

Austin Bevans	Allen L. Paterson
David MacKensie	George C. Cornell
George Boyd	Daniel N. Perkins
Jim Simpkins	Melville L. Clark
Tim Simpkins	John W. Hill
Homer Johns	Harry R. Smith
Elsie Benedotti	Louise M. Hughes
Miss Hays	Louise S. Young
Miss Curtis	Edmee A. Boulanger
Sally Boyd	Marie J. McGrail
Muriel Doughty	Dorothy A. Sewell
Ethel Spelvin	Anna K. Buckley
Alex Mercier	Hope A. Amsden
Lillian Stafford	Maude E. Morse
Madge Kent	Beatrice E. Clark
Dotsie	Amelia G. King

The musical feature of the evening was the playing of the high school orchestra, under the direction of the music teacher.

The proceeds of the play were used to purchase much-needed bookcases for the second corridor and office, and also reference books. It is intended each year that additions will be made until the school has a supply of reference books in connection with all subjects on the daily program.

ASSEMBLY PERIODS

Committees consisting of teachers and scholars, were appointed early in the fall to arrange programs for assembly periods on Thursday of each week. The pupils were always ready to co-operate in this departure from the daily routine. The weekly assembly period was one of the most interesting features of the student activity. On such occasions, the music instructor had charge of both instrumental and vocal selections. This teacher presented some very interesting programs at these gatherings. She was full of enthusiasm and inspired the student body in this work. The character and quality of her instruction were of a high order, and her weekly efforts were universally enjoyed.

Many written themes, on leading topics of the day, were prepared by pupils under the guidance of the teachers in the various departments, and presented on these occasions. The programs were sufficiently varied in character to lend interest to all concerned. Frequently, men and women, specialists in their own work, were invited to address the assembly. Such contributions were welcomed by the pupils, and tended to break up the monotony of their daily routine.

The character of the weekly assembly programs may be noted from the following:

ASSEMBLY ON TUESDAY OF EDUCATION WEEK

ATHLETICS

The athletic council had charge of all athletic activities. Approximately one hundred and seventy-seven students out of a total enrollment of four hundred and twenty-two contributed ten cents weekly for the support of the same. In addition, tickets were sold to interested citizens at \$1.00 for each series of games. During the year an excellent showing was made in football, baseball and basketball. No scholastic standard was set to entitle a pupil to participate in these sports, except, that every candidate must be a regular student in the school, pursuing the required work in one of the six curricula. Before a pupil could engage in a contest, a letter was required of his or her parent, giving consent of the latter to the participation of his son or daughter in athletics, and his willingness to assume all responsibility for possible injury. Through money received from the athletic contests, and the student body, the school was able to support good, healthful exercise along this line.

Class schedules were arranged for both boys and girls, in order to give as many as possible an opportunity to share in athletics. The management aimed to keep the same free from outside interference. It must be remembered that the better citizen will be the one who played the game fair, and lost, rather than the one who cheated to win. Under no condition will the opportunity to take part in athletics be abused. Parents should insist that their sons and daughters be required to pass a physical examina-

tion before they are permitted to participate in such activity. Possibly the physicians of the city would give their services to aid such a worthy object as the health of the young people in our schools.

“THE TATTLER”

This publication has increased in popularity and subscriptions during the past year. The editorials showed the sincere efforts of the young writers, who endeavored to instill into the hearts of their school-mates the great lessons of truth, service and responsibility.

DEBATING

Debating proved to be the most interesting subject for the senior work. Local, national, and international topics were discussed. The “champion” debaters in each section met in an interclass contest at the end of the year. This departure from the regular method of class-room instruction was successful. The social instinct was given an opportunity for development, use and self expression. Debates have a tendency to increase open-mindedness, besides finding unexpected leaders and improving class-room spirit and general attitude of the students. The leaders in these ultra activities developed considerable initiative and responsibility in looking after their squad members.

Words by MARY FRANCES BARTON
Music by LEONA MARYBELLE LAPRISE

Now our High School life is ending,
We must bid a sad Good Bye
To the many sunny hours
We have spent at Dover High.

That their work was not in vain;
 To our duties we will scatter,
 Some may journey to afar,
 But we'll ne'er forget our High School
 No matter where we are.

And when life seems dark and dreary,
 A fond Light will shine above;
 We'll be ever cheered by mem'ries
 Of the teachers that we loved.

We will prove that we are grateful,
 That their work was not in vain;
 If we carry on their efforts
 We shall reach the Hall of Fame.

THE ORCHESTRA

GRADUATES, 1926

CLASSICAL:—Gladys Pearl Marguerite Allen, Hope Adelaide Amsden, Edmee Adeline Boulanger, Anna Kathryn Buckley, Aleen Beatrice Hall, Elizabeth Benton Hatch, Louise May Hughes, Grace Florence Lockwood, Dorothy Ellsworth Nason, Allen Lemont Paterson, Daniel Nahum Perkins, Agnes Marie Redden, Heloise Elsie Richard, Dorothy Augusta Sewell, Edith Louise Stone.

SCIENTIFIC:—James Leon Brown, Melville Laforest Clark, Roslyn Caverly Durgin, George Wentworth Emerson, Jr., Alfred Charles Flayhan, Albion Reed Hodgdon, James Matthew Jackson, James Philip McCann, James Daniel McShane, John Herbert Meader, Lawrence Rudolph Nealley, Harry Russell Smith, Jr., George Edward Tuttle, George Wilder Watson, Cecil Agnew Wentworth, William Milner Whiteley, Louise Shackford Young.

COMMERCIAL:—Mary Frances Barton, Bernice Helen Bumford, Rose Frances Carville, Ruth Mildred Davis, Yvonne Claudia Dube, Aletha Viola Hersey,

Arline Evelyn King, Doris Evelyn Landry, Leona Marybelle Laprise, Susanna Monks, Maude Eastman Morse, Mary Theresa O'Brien, Eleanor Mauritia Redden, Elsie Maud Stimpson, Ruth Evelyth Wallace.

DOMESTIC ARTS:—Alma Ernestine Brandeis, Beatrice Ethel Clark, Amelia Grace King, Ruth Hazel Langley, Eloise Lord, Hazel Irene Smith, Helen May Sterling.

MECHANIC ARTS:—Elmer Vincent Andrews, Byron Andrew Berry, George Cate Cornell, Sylvester George Fitzgerald, Harold Alton Howell, Joseph Arthur St. Peter.

GENERAL:—Thomas Clifford Couser, Evangeline Durgin, Edith Gertrude Kelley, Margaret Lang, Marie Jeannette McGrail.

The following graduates entered post-graduate institutions in September:

University of New Hampshire:—Hope Adelaide Amsden, Mary Frances Barton, Edmee Adeline Boulanger, Anna Kathryn Buckley, Rose Frances Carville, Beatrice Ethel Clark, Melville Laforest Clark, Thomas Clifford Couser, Evangeline Durgin, Roslyn Caverly Durgin, Alfred Charles Flayhan, Malcolm Daley Goodwin, '25, Albion Reed Hodgdon, Harold Alton Howell, James Matthew Jackson, Grace Florence Lockwood, James Philip McCann, Marie Jeannette McGrail, Elizabeth McRae, '24, James Daniel McShane, Dorothy Ellsworth Nason, Daniel Nahum Perkins, Heloise Elsie Richard, Dorothy Augusta Sewell, Harry Russell Smith, Jr., Edith Louise Stone, Ruth Evelyth Wallace, George Wilder Watson, Cecil Agnew Wentworth, Louise Shackford Young.

Dartmouth College:—Thomas Cushing Dunnington, '25.

College of New Rochelle:—Louise May Hughes.

Beaver College:—Doris Ann Lockwood, '25.

Wheelock Kindergarten:—Elizabeth Benton Hatch.

Keene Normal:—Ronald Everett Nutter, '25, Cecil Newton Heath, '24, Eleanor Mauritia Redden.

Plymouth Normal:—A`een Beatrice Hall, Ruth Evelyn Horlor, '25, Edith Gertrude Kelley.

Elliott Hospital, Manchester:—Hazel Irene Smith.

TEACHERS

The teaching force in the high school consists of men and women who are, for the most part, specialists in the subjects that they are called upon to teach. Such action, under competent management, usually brings good results.

The success of our students in the colleges and normal schools proves that the pupils are well grounded in the secondary subjects. The pupils in the University of New Hampshire have made an excellent record in their post-graduate work.

Much of this success is due to the co-operation of the citizens of Dover. Good schools are the result of loyal citizens and faithful teachers. Parents, as a rule, stand ready to second the efforts of the instructors. Under such conditions, Dover should send out young people amply prepared to meet the responsibilities of life.

PARENT NIGHT AND EDUCATION WEEK

As a part of the observance of Education Week, the headmaster and faculty of Dover high school were "at home" to the public on Friday evening, November 12.

From seven-thirty to eight-thirty the teachers received in their respective class-rooms all the parents

of the students and other citizens of Dover who were privileged to visit the school.

During the hour, the mechanic arts department was in operation for the inspection of the public.

At eight-thirty the teachers and their guests were gathered in the assembly hall to enjoy an hour of entertainment. The program included vocal and instrumental music. The feature of the evening was an address delivered by Dr. E. L. Silver, director of the State Normal School of Plymouth, N. H.

Parents and citizens were present in goodly numbers to demonstrate their interest in the education of the youth of our city.

DEFICIENCIES

If the students failed to pass in their daily work, deficiencies, in accordance with the rules of the school committee, were sent to parents, stating that their children were below passing grade.

As I have stated on the deficiency blank, most of the failures in the high school are directly due to the fact that the pupil does not devote enough time to study out of school. The whole matter of home study is so vital to scholastic success that its importance can hardly be over-emphasized.

On one afternoon each week, teachers return to the school to assist pupils in need of help. The teaching body wishes to do all in its power to make the high school course of the individual pupil a complete success. Teachers consider no time better spent than that used in consultation with parents, and would suggest visits at any convenient time to confer about the work of the school.

In addition to the notifications above, personal letters are mailed, so that parents might know the exact numerical standing of their children in school.

If the pupils were in the senior class, such letters were sent three times during the year, so that there might be no misunderstanding about graduation in June.

OPENING OF SCHOOL IN SEPTEMBER

Greater care should be taken in choosing a course of study. Apparently, too many pupils are allowed, without the consent of the parent, to select the program of work to be pursued in the high school.

Frequently, after a month or six weeks, the pupils, realizing their mistakes, desire to change their course. Such freedom should not be tolerated; it is detrimental to the pupil, class and teacher. Parents, if in doubt, should consult the headmaster before the opening of school in September. Please give this matter due consideration.

CONCLUSION

In conclusion, I wish to express my obligations to the school committee, the superintendent of schools, and to the teachers who have so loyally assisted me in the administration of the high school.

Respectfully submitted,

CHARLES L. WALLACE,

Headmaster.

February 14, 1918.

Program of the Dover High School amended by replacing mechanical arts curriculum by vocational mechanics arts curriculum. These changes are allowed.

(Signed) E. W. BUTTERFIELD,
State Superintendent.

In curriculum I, at least two years of a modern language must be taken if it is begun before the Senior Year.

*6 Content—Intermediate and Advanced Algebra, 16 weeks, Solid Geometry completed 12 weeks, Trigonometry completed 10 weeks. Plane.

*5 Content—Review Algebra including graphs and equations containing radicals, binomials theorem 19 weeks. Review Plane Geometry with 100 additional originals 19 weeks.

See page 227 of Revised Secondary Program of Studies (1919).

NOTE—Each pupil to select at least three years of two of the following: Latin, French, German, Mathematics, Science.

Each pupil required also to take four studies each year, one of which must be English, and American Constitutional History must be taken in the fourth year.

RECORD OF ADOPTION AND APPROVAL

The school board at a meeting held June 10, 1926, adopted the foregoing as the program of studies for Dover High School and under the conditions printed on the back of this paper requested the approval of the Commissioner of Education.

NORMAN E. SEAVEY,
Secretary.

Approval as above, for the year ending June 30, 1927, September 1, 1926.
E. W. BUTTERFIELD,
Commissioner of Education.

Number of graduates of the high school during the last ten years:

	Boys	Girls	Total	Per Cent.	
				Boys	Girls
1917	21	45	66	31	68
1918	14	29	43	32	67

1925	198	199	397	49	51
1926	219	203	422	52	48

The classical curriculum fits for an academic course at college and for normal schools. It should be chosen by those who wish to be lawyers, physicians, clergymen, teachers and the like.

The scientific curriculum fits for a scientific course at college. It should be taken by boys who wish to

become civil, mechanical and electrical engineers or to do other similar work.

The commerce curriculum fits for their work clerks, cashiers, bookkeepers and stenographers. It is the curriculum for those who wish to engage in any form of mercantile or clerical work.

The mechanic arts curriculum trains artisans. It is for those boys who are to do skilled mechanical work. Under this head come plumbing, steam fitting, drafting, and mechanical and electrical work.

The domestic arts curriculum trains for the work of the home and for normal schools. It is for the election of girls who wish to become nurses, dress-makers, milliners and teachers, and for those who desire a thorough knowledge of the activities of the home.

The modern language curriculum offers a larger choice of subjects than do the other curricula and is open to pupils whose aim is a high school education rather than a training for any particular object.

Pupils admitted to the high school, with the approval of their parents, must select one of the above curricula and take for graduation all the subjects therein. Changes from one curricula to another may be made only by making up all branches included in the chosen curriculum. The work of any curriculum may be completed in four or more years, and extra studies may be taken only with the principal's consent, approved by the superintendent.

REPORT OF DIRECTOR OF PHYSICAL EDUCATION

MEMBERS OF THE SCHOOL COMMITTEE:

There seems to be little new to report at this time. This is partly due to my illness in the middle of the year, and the time given in preparation for the state board examinations. It is necessary that my report be more in general, rather than in detail, and without statistics, because there has been no place where such might be kept.

The grade work this year has been chiefly in the formal classroom work, with the emphasis laid on good posture, muscular control and alertness. Classroom games have been used to some extent to finish up the lesson. It is hoped to make games a part of each lesson when the opportunity is given to select and prepare them for use. A selection of playground games was partly made this summer, with the idea of having supervised play in the spring and fall. Time has not yet been found to complete the selection. After several years in athletics and games, I have come to the conclusion that through these we can do a great deal in the prevention of poor posture, and aid body control. It is my hope and desire that very soon athletics and games may be made possible for every boy and girl in our schools so far as they are physically fit. To carry out such a program, physical examinations should be given to all. To provide such should be the next step in our physical program. It is necessary to know with what we are dealing, so that no injury will result. One of our boys who graduated last year, a football player, was barred from all activi-

ties this fall at the University because of a weak heart. His activities here no doubt did him great harm, and might have been prevented had it been known. I ask you, members of the school committee, to give this every consideration, for the welfare of your boys and girls or your son and daughter who may be playing.

Other activities included a baseball league for the boys in the seventh and eighth grades, there being three teams in each league. This proved more satisfactory than one league taking in the two grades. A beginning was made in playground baseball for the girls, and though started late, gave promise of being a success and a good sport for the girls. An experiment was made with a marble tournament in the third and fourth grades, which went through with much enthusiasm. Indoor work had to be given up for lack of space, and such will be the case this year.

The high school work, as in the past, has been chiefly with the major sports. The athletic teams have been fairly successful and have tried their best at all times. It was shown that even in defeat they had the right spirit, for the results of a very important game drew out this fact. The attitude of the team was such that it made a great impression on one of the central board officials and resulted in a very fine letter to our headmaster, speaking of it as very unusual. That in many respects meant more than a victory. Our football season was not so successful from the point of victories, but it did show that there was a steady improvement in spite of practice conditions. A baseball league was conducted for the classes and playground baseball for the girls two times a week. It is hoped that with the

new addition and facilities, a well organized intramural program can be organized so as to afford an opportunity for all to take part in some form of athletics.

Respectfully submitted,

E. A. F. ANDERSON,

Director of Physical Education.

REPORT OF THE SUPERVISOR OF MUSIC

TO THE SUPERINTENDENT OF SCHOOLS:

For almost five years I have been supervisor of music in the schools of Dover. I enjoy the work more each year, I know the children better, and appreciate more fully the co-operation of teachers and school officials. Still it seems difficult to write a report of what we have done, my thoughts are so busy with what I want to do that any achievement of the past is overshadowed.

The phase of our work which stands out prominently is the spirit of co-operation. We have worked together, the community spirit is growing.

Sawyer school, grades three and four, each gave an operetta last spring, for which Miss Henderson and Miss Belyea worked very hard. The children delight in these imaginative plays, and in some ways they are exceedingly beneficial. They take a great deal of time and strength and involve considerable expense. When each school building has an assembly hall, and such performances can be undertaken by the whole executive force, we should have one every year in each school.

The same problems confront us when any musical entertainment is undertaken in the high school, namely, how to find the time and place for necessary drill, and how to finance the affair.

Meanwhile, the interchange of talent is constantly encouraged. Different grades in the same building sing and listen to one another. The little children in the Sawyer school sing for the upper grades and vice versa, and grade schools and glee clubs visit the high school.

At the Christmas assembly the girls' glee club of the Sawyer school, under the direction of Miss Davis, and Central eighth grade, led by Mrs. Folsom, played the part of the "Waits," singing carols just outside the hall.

Miss Murphy took her seventh grade to the Wentworth Home, and Sherman eighth grade sang for them just before Christmas. The high school orchestra has been to the Home twice this year, and all received such cordial appreciation that they felt amply repaid for their efforts.

Miss Hanson and I went with her boys' glee club to sing for the Kiwanis Club, and later for the Rotary Club. The orchestra played at the Christmas celebration of the Rotary Club. The hearty welcome and keen interest shown by the members of these organizations, and the ready response of the young people to requests for their services show a fine social spirit. Are we not all one family?

A great man once said, "The study of music exalts life." I am more certain each year that every child can sing, and enjoy singing, and that every intelligent child can learn to read music, if the right material is put before him, his curiosity, and so his interest is aroused, and his attention secured. I have made a beginning with class lessons on the piano. I have not the space nor equipment for real class lessons, that requires desks and seats, a school room, in fact. We do not wish to try to make pianists of all the children, but the piano key board gives the best opportunity to learn how music is made, and rapid progress can be made with class work. The really musical child may be discovered and the dull child be stimulated to effort. We hope some day to have a class in each building.

We had three assemblies devoted entirely to music.

Mr. Bilodeau, the cornetist, Mrs. Redman, the pianist, and Mr. Manton, director of music in the University of New Hampshire, each gave a fine talk and musical program. The students assisted with solos and orchestral numbers. We greatly appreciate this courtesy on the part of people high up in the profession, and hope to welcome them to our assemblies again this spring.

Our high school orchestra rendered the usual service at prize speaking, the senior play and graduation. It also took part with two other school orchestras in a concert at Berwick academy. I was able to keep this concert from being competitive. Of course, comparisons were made, but each orchestra played its very best without the expectation of any reward. It was not a contest. It seems to me that it is time to let co-operation replace competition in every line of human endeavor, and there can be no better work for music to accomplish than this very thing. Make the children love music, make them want to learn about it, and they will want to play and sing, and to hear others, just for the pleasure it gives themselves and other people. Why should we try to "beat" someone in all our work and play?

Last May I attended the orchestra and band contest of the New England Music Festival Association. It was a wonderful experience, the sight and sound of those thousands of boys and girls, playing, first with their separate groups, and then in one grand ensemble. But the prizes awarded did not make it any finer. They rather detracted from the wholesome effect. It is impossible for human judgment to be absolutely fair, conditions, equipment and opportunities vary so widely. Our orchestra could not enter the contest if I wished it to do so, it is not well balanced, for we have no bass instruments. But I

venture to express the wish that some public spirited individuals or organization will arrange for the transportation of the members of our orchestra to Boston next May, that they may see and hear the bands on the common, and go to the great Arena to see and hear the orchestras, and perhaps play in the ensemble. It would be a great event in their lives, and they would come back to their home city with a broader outlook on life, and a deeper appreciation of their opportunities.

I wish to thank you, Mr. Superintendent, and members of the school board, for all your help and encouragement. May I suggest the great need of instruments in the orchestra, and express the wish that some recognition of the work of members of the orchestra, and the newly organized band, by the school board, would give added impetus to their efforts.

Respectfully submitted,

MINNIE L. EATON,

Supervisor of Music.

REPORT OF SUPERVISOR OF DRAWING

TO THE SUPERINTENDENT OF SCHOOLS AND MEMBERS
OF THE SCHOOL BOARD:

I herewith submit my second annual report of drawing.

I regret that there were not enough pupils who elected drawing in the high school this year to carry on the course. The extra time given by the discontinuance of the high school course I have given to the three rural schools. Until the snow came I visited each school once a week. Since then I have sent monthly lesson plans and suggestions for school-room decoration to each teacher.

Every room has a half-hour lesson each week, excepting the eighth grades, which have forty minutes. Besides the lessons, I plan a simple decoration each month for every room. The children are very enthusiastic about assisting with the decoration of their own rooms.

In the fall, nature study was taken up in all eight grades until it was no longer possible to secure specimens. This was done through the medium of crayon, water color and colored papers and scissors.

At Thanksgiving all the grades correlated either their history or language with drawing in a project. The time between Thanksgiving and Christmas was spent on Christmas projects. The upper grades made reproductions of rose windows from various cathedrals of Europe. The lower grades made cards, calendars, book marks, boxes and Christmas decorations.

The first of the year we studied lettering, the different kinds and their uses. Some grades made mot-

toes. Other grades applied their knowledge of lettering to posters. The upper grades made posters for Education Week. Many of these were used for advertising. We also made posters for Clean-up week, Fire Prevention week, Safety First week and Health week. Last spring we had an exhibit of our Safety First and Health posters in the Dover public library. Throughout the year we study color. It plays a part in every lesson, whether it is nature, design, landscape, costume design, interior decoration or appreciation.

As the spring advances we take up nature study again. Each grade does more advanced work in the spring than in the fall term.

This year every child has an envelope to keep his work in. Every envelope has the child's individual design or monogram on it.

Respectfully submitted,

HELEN L. BRONSON,

Drawing Supervisor.

REPORT OF THE SCHOOL NURSE

To the superintendent of schools and to the school committee of Dover, New Hampshire, the following report of the school nurse and supervisor of health, from January, 1926, to December, 1926, inclusive, is respectfully submitted.

Visits to schools	409
Visits to schools for physical inspections	138
Visits to schools for follow up work	58
Talks on health and hygiene	148
Treatments	73
Home visits	39
Miscellaneous visits	87

FINDINGS OF PHYSICAL INSPECTIONS

Eyes, 24 cases, treatment secured	6
Ears, 16 cases, treatment secured	6
Malnutrition, 275 cases, gained in weight ...	260
Pediculosis, 30 cases, treatment secured	30

COMMUNICABLE DISEASES REPORTED

Chicken-pox	4
Measles	66
Mumps	13
Pediculosis	19

Pneumonia	9
Scarlet fever	2
Skin diseases	22
Tonsilitis	4
Whooping cough	41

The dental clinic of the District Nursing Association is taking care of the teeth of a number of our children whose parents can not afford to do it, and the clinic will continue this care so long as it may be needed, if the child will do his part, which is to keep his teeth clean by brushing them at least twice a day.

There is more attention paid to cleaning the teeth, but cleaning will not do the whole thing. "A clean tooth never decays" is rather a misleading statement. To build good teeth, (1) they need good building food from the pre-natal period through life. (2) they need food that has to be chewed, like crusts, toast and other hard foods, for the sake of the stomach, and to develop the jaws properly. (3) they should be cleaned at least every night and morning. (4) they need dental care. "Visit your dentist at least twice a year."

There is increasing help given by parents in reporting communicable diseases of all kinds, more especially skin diseases and pediculosis. Sometimes these diseases are acquired through no fault of the victim, and if promptly reported, may be promptly treated and cured.

We hope when the new school building is opened there may be some provision made for our backward children, so that they may succeed in something. Every child needs to succeed at something every day. Success is one of the best stimulants for further effort.

May Day Child Health Day was observed in the different class rooms by health songs, plays and talks, by posters shown in some of the stores and by articles in the local papers. The posters made by the children and shown in the public library were interesting and attractive and were seen by many of the parents and friends of the young artists. Many of the local organizations expressed their approval of the observance of the day and their desire to be of help to the children of the community. They have helped in many practical ways, and we are truly grateful for their interest.

FRANCES HYDE, R. N.

REPORT OF TEACHER OF DOMESTIC SCIENCE

TO THE SUPERINTENDENT OF SCHOOLS:

SIR:—I herewith submit my third annual report of domestic science in the Dover grade schools.

The number of pupils registered in this department varies but little from year to year, as is shown below:

1924-1925	1925-1926	1926-1927
172	182	180

The course of study is that recommended by the state department in the school year 1924-1925. This program has not been altered since that time.

During the month of September every girl in the department canned at least one jar each of vegetables and fruit. The processes of jam and jelly making were also illustrated in the same practical way. Much interest was shown and much profit derived from a demonstration lesson in the use of commercial pectin.

General cooking follows the canning season. Plain meals are prepared and served simply—yet correctly. Proper balance of the diet is considered and thrift in the selection and purchase of foodstuffs is emphasized.

Five luncheons were served during the year. Four of these were at the expense of the Hi-Y and one was financed by the senior class. This is an admirable plan in many ways if great care is taken to make it a simple and not a too frequent feature of classroom work.

Half of the school year is devoted to plain sewing. It is interesting to note how a girl's enthusiasm for needlework develops as her proficiency increases.

Handwork is followed by machine practice and the use of commercial patterns. Repair of wearing apparel by darning and patching is also considered.

During Better Homes Week in April an exhibit of the girls' projects was offered in the library. The great success of this departure from routine activity was made possible by the splendid co-operation of the librarian and her staff. The showing was divided into two parts, one of which was devoted to sewing done entirely at home by the children. The display would seem to indicate that this field of education finds immediate expression in the lives of the pupils. The school display was large and varied. Every girl showed two school projects and thirty dresses formed one unit of the display.

While domestic science for the grades is made as elementary as possible, it is not advisable to overlook entirely the products, implements and devices which science is constantly developing for the household. Then, too, though the work of this department is outlined as cooking and sewing, there is ample opportunity to include good manners, health, thrift, sanitation, improvement of surroundings and the many things which are necessary in successful homemaking.

In closing this report, I wish to thank you and all those whose co-operation and interest add to the pleasure of our endeavors.

Respectfully submitted,

MARY E. CAVANAUGH,

Teacher of Domestic Science.

REPORT OF THE MANUAL TRAINING INSTRUCTOR

It is with pleasure that I submit this report to the superintendent and school board of the public schools in the city of Dover.

Manual training in the grades starts in with the sixth grade. It is carried on by a group system, which means that projects are graded according to difficulty in making them.

In the sixth grade the boys are given the simplest ones to make. These include broom holders, meat boards, bread boards, and several others are simply cut out from stock on which a pattern has been traced. Of course the boys are instructed as to the uses of the simple tools and also how to care for them. I have noticed that the projects which are the most popular with the sixth grade boys are the ones which are cut out with the small coping saws. Thus the reason for the group system. By this process the boy is compelled to go through the whole system, starting with the simplest projects and going up through the difficult ones.

In the seventh and eighth grades the boys are more interested in the difficult projects than they are in the simple ones. They have either made or are making the following: Shelves, taborets, book-cases, hall trees, tables, electric lamps, drawing boards, skiis, serving trays and farm implements, such as troughs, milking stools, cages and hose reels.

It will be well for me to write a few words regarding the home mechanics course, which is offered to the boys of the eighth grade who have completed the group requirements. This course is offered as an

incentive for the boys to do good work in manual training and then to get away from routine work and go on to a variety of repair jobs which are to be brought from home. The boys are urged to bring things to be soldered, glass to be set in window frames, electric bells to be repaired and rough metal work.

I have been disappointed in the progress of the home mechanics course, which should be very popular if I could only get better co-operation between the parents and the pupils. The boys would get a great deal of experience in doing little repair jobs around the house if a little enthusiasm could be aroused. I hope in the future that the course will grow more popular and thus give the boys more experience in doing odd jobs.

The manual training this year as a whole has been of a fair grade of workmanship, but there is always plenty of opportunity for improvement, and it is my ambition to keep the work of the year up to a high standard of workmanship and quality.

During the remainder of the school year, I shall endeavor to make the boys realize the importance of doing good work in manual training, for the principles of manual training and home mechanics are very valuable to them and very helpful in the household.

Respectfully submitted,

CECIL A. GRAVES,

Manual Training Instructor.

TRUANT OFFICER'S REPORT

TO THE SCHOOL COMMITTEE:

I respectfully submit the following report for the school year ending December 17, 1926.

Number of complaints from teachers	158
Number of complaints from St. Charles's school	64
Number of complaints from St. Mary's academy	4
Number of complaints from other sources . .	2
Whole number of complaints received	228
Number of cases of absence investigated . .	226
Number of cases of tardiness investigated .	2
Number of children found absent without good reason	69
Number found to be truant	13
Number found at work illegally	1
Number of visits to schools	266
Number of visits to families	272
Number of visits to manufacturing establishments	64

S. E. TAYLOR,

Truant Officer.

Dover, N. H., January 5, 1927.

SCHOOL CENSUS

TO THE SCHOOL COMMITTEE:

Information to be furnished by enumerator:

1. (a) Number children (5-16) found by enumerator: boys, 1,220; girls, 1,241; total, 1,241.
- (b) Number of these found not to be in school: number 5-8, 187; number 8-14, 9; number 14-16, 37; total, 233.
- (c) Number of these children enumerated and to be accounted for in schools, (a-b), 2,228.

Information to be furnished and completed by superintendent:

2. (a) Number of children in public schools in the district September 30, 1926: total reg. 1,588 (under 5, 0; over 16, 186), 5-16, 1,402.
- (b) No. children in parochial or private schools in district Sept. 30, 1926. Total Reg. 892; (under 5, 11; over 16, 17), 5-16, 864.
- (c) No. children (5-16) living in district but attending H. S. or Acad. outside, 0.
- (d) No. children (5-16) living in district but attending El. school outside, 0.
- (e) Total number of children accounted for in schools (a-b-c-d), 2,266.
3. Number of children (5-16) reported in 2 (a) or (b), who live in other towns, 38.

4. Whole number of resident children (5-16) accounted for, 2,228. 1 (c) equals 4; 2 (e) minus 3 equals 4.
5. Number between the ages of 10 and 16 not able to read and write in the English language, 8.
6. How many of these illiterate children were born in New Hampshire 8; elsewhere in the United States? 0; in foreign countries? 0.
7. Number 10 years of age or over who, on September 30, were in grade I, 1; in grade II, 2.
8. Of the children (8-14) reported in 1 (b) as not registered in any school, how many are excused by the school board on account of physical or mental disability? 9.
9. Of the children (14-16) reported in 1 (b) as not registered in any school, (a) how many have completed the course of study for elementary schools? 34; (b) how many have been excused by the school board because of physical or mental condition? 1; (c) how many have been excused from attendance by the commissioner of education? 2.
10. Number of defective children between 5 and 16: blind, 0; deaf and dumb, 0; feeble minded, 6; total, 6.

There have been labor certificates issued as follows: regular, 45; vacation, 45; age and literacy, 14; evening school certificates, 4.

S. E. TAYLOR,

Enumerator.

NO SCHOOL SIGNAL

The following resolutions were adopted January 4, 1918:

RESOLVED—That the “No School Signal” will be 2-2, 2-2, 2-2, 2-2, on the fire alarm bells, followed by the 2-2, 2-2, on the siren whistle on the Williams’ Belt factory.

When given at 7.40 A. M., it means that no forenoon session will be held in either high or grade schools. When sounded at 7.55, the high school will be in session, but not the graded schools.

The signal for no afternoon session shall be given at 11.15 A. M., or at 12.45 P. M.

LIMITS OF SCHOOL DISTRICTS

The following table of limits gives the general outlines of the districts, which are subject to changes as may be necessary from time to time.

GRADE VIII

Sherman School—East of Central avenue, Ham street and south to and including Stark avenue. West to Central avenue from the B. & M. R. R. to and including Silver street to Belknap street. Suburban districts.

Sawyer School—The northern part of the city bounded on the south by the city hall limits.

Central School—All the southern and western part of the city not included in the above limits.

GRADE VII

Sawyer School—The northern part of the city bounded on the south by the B. & M. R. R., east to the Coheco river, and Fourth street west of the Coheco river.

Central School—South of the Sawyer limits to Sil-

ver street, and as far west as Belknap street; south on Central avenue to Stark avenue and east of these streets. Suburban districts.

Belknap School—All of the southern and western part of the city not included in the above limits.

Sherman School—On the east side of Central avenue, Ham street and south to and including George street and Payne street. On the west side from the B. & M. R. R. to and including St. Thomas street and west to Belknap street. In addition, Rollinsford, Fresh Creek, Garrison Hill district and Blackwater.

GRADES VI, V

Sherman School—On the west side, from the B. & M. R. R., to and including St. Thomas street and west to Belknap street. In addition, Rollinsford, Fresh Creek, Garrison Hill district and Blackwater.

Sawyer School—The northern part of the city bounded on the south by Fourth street, west of the Cocheco river, the B. & M. R. R., between Cocheco and Central avenue and the northern Sherman limits.

Belknap School (b)—South of the Sherman limits to the lower end of Central avenue and as far west as Locust street.

Belknap School (a)—All of the southern and western part of the city not included in the above limits.

GRADES IV, III, II

Sawyer School—The northern and western part of the city. The southern boundary is Cocheco river; the eastern boundary is Park street.

Pierce School—East of the Sawyer limits and as far south as Portland street.

Varney School—East of Central avenue south from the Pierce limits to George street and west to Payne street, west of Central avenue, south from

Sawyer limits to Silver street and Rutland street and including these streets.

Hale School—South of Varney limits to rural district. Pupils from Garrison Hill district and Blackwater will be transported to the school having the smallest number of pupils.

GRADE I

Sawyer School—The northern and western part of the city. The southern boundary is the B. & M. R. R. tracks and Fourth street west of the river. the eastern boundary is Central avenue.

Pierce School—East of the Sawyer limits and south to Portland avenue.

Varney School—East of Central avenue south from the Sherman limits to Silver street and Rutland street and including these streets.

Hale School—South from the Sherman and Varney limits to Watson street and 227 Locust street.

Sherman School—South of the Pierce limits to Washington street.

DOVER WATER WORKS

REPORT OF WATER COMMISSIONERS

TO THE CITY COUNCILS OF THE CITY OF DOVER:

GENTLEMEN:—The board of water commissioners herewith submits its thirty-ninth annual report, together with the report of the superintendent, for the year 1926.

The members of the board for the past year were: Mayor Charles E. T. Caswell, president; Luke H. McEwan, vice-president; Ellsworth N. Brackett, president of the common council, clerk; John Clancy and Gerald A. Scarr.

The filter beds have been scraped and cleaned regularly during the year and filled with sand, taking 358 loads of sand. The receiving basin has been emptied and cleaned.

A new six inch DeLaval centrifugal pump has been purchased to be installed at the pond station.

An eight inch 2,400 gallon DeLaval centrifugal pump has been ordered for the high pressure station.

We laid 2,460 feet of six inch pipe and set two hydrants on the Durham road; 600 feet of six inch and one hydrant on Sixth street; 400 feet of six inch and one hydrant on Florence street.

The quality of the water during the year has been good.

The height of the water in Willand pond is now fifteen and one-half inches below zero. This is very low. A large amount of water has been pumped during the year.

We found a break in the main on Washington street, the water flowing directly into a stone sewer.

Many consumers used more water than usual during the year.

We had a Pitometer company, a leak finding company of New York, make a survey in 1925. Practically nothing was found. We hope that the amount of water to be pumped will decrease and that frequent rains will cause the water level in the pond to reach a higher mark.

The payment of \$10,000 in 1927 will be the final payment on the water debt.

A detailed statement of the work done this year, the changes and improvements made, the receipts, expenditures, and the amount of uncollected rates, may be found in the superintendent's report, which is annexed to and made a part of this report.

RECEIPTS AND EXPENDITURES

 JOHN CLANCY,

Water Commissioners.

Dover, N. H., December 31, 1926.

DOVER WATER WORKS

REPORT OF SUPERINTENDENT

TO THE BOARD OF WATER COMMISSIONERS:

GENTLEMEN:—In accordance with the rules governing the duties of the superintendent, I submit my annual report for the year 1926, it being the thirty-ninth annual report of the department.

At the high pressure station we have ordered a new eight inch DeLaval single stage centrifugal pump, 2,400 G. P. M., to be driven by an 150 H. P. 550 volt, 3 phase, 60 cycle, 1760 R. P. M. induction motor.

This pump is to take the place of the old Blake steam pump, which was installed when the water works were first started, and which for many years has been used as an auxiliary pump. It is now in such bad condition to repair it would be prohibitive.

This new pump will be much more efficient than our present electric pump, which is an older type. We shall use the new pump and have the present pump as an auxiliary in case of accident.

At the low pressure station the motor-driven centrifugal pump in well No. 1 has been run every day during the year; it has run twenty-four hours a day since July 1.

The new six inch centrifugal pump which you have purchased for this station and which will soon be in operation, will be used as an auxiliary. This station will then be well equipped.

The outside of this station was painted during the

summer. The coal shed, for which we had no further use and which was falling to pieces, has been torn down and the grounds graded about the station.

The water in Willand Pond reached its highest mark May 1, thirty-five and three-quarters inches above the zero point; at the close of the year it was fifteen and one-half inches below, forty-six inches lower than one year ago. Owing to the dry season, a very large amount of water has been pumped. We found a break in the main on Washington street, the water flowing directly into a stone sewer, and many consumers have used more water than usual this year.

An analysis of the samples of water by the state chemist shows it to have been in a very satisfactory condition during the year.

The distributing system has been extended 600 feet on Sixth street with one steamer hydrant set, 400 feet on Florence street and one hydrant, 2,460 feet on the Durham road and two steamer hydrants added.

The hydrant on Third street, in front of the Kimball Tavern, has been changed to one with a steamer connection. The aerator and sedimentation basin have been cleaned several times during the year. The sand in both filter beds have been raked and scraped as usual. In November twelve inches of new sand were put in each bed, taking 537 cubic yards.

The receiving basin was emptied and given a thorough cleaning. The reservoir will have to be repaired this summer, the paving stones above the water line have been raised by the action of the frost. I would also recommend putting a new fence around the pumping plant.

Services added 33

Services discontinued	2
Repaired inside street line, charged to owner	60
Repaired outside	40
Shut off for owner to make repairs	6
Frozen	5
Number of services at date	2,166
Meters repaired	159
Repaired by the department	159
Repaired at factory	0
Meters tested	18
Replaced with new	12
Frozen	10
New meters set	27
In use at date	1,852
Hydrants added to system	4
Hydrants repaired	3
Gates set in hydrant branches	2
Distribution system leaks	8
Gates repaired	4
New gates set	4

The follownig is a monthly statement of the elevation in Willand pond for the years 1922 to 1926 inclusive.

DOVER WATER WORKS

SUMMARY OF STATISTICS

For the year ending December 31, 1926, in form recommended by the New England Water Works Association.

DOVER WATER WORKS, CITY OF DOVER,
STRAFFORD COUNTY, NEW
HAMPSHIRE

GENERAL STATISTICS

Population at date, 13,029.

Date of construction, 1888-1889.

By whom owned, City of Dover.

Source of supply, pond and springs.

Mode of pumping (whether gravity or pumping),
pumping.

PUMPING STATISTICS

High Service Station

Builders of pumping machinery, George F. Blake, Lawrence Machine Co., DeLaval Pump Co., Westinghouse and General Electric Co.

Description of fuel used, electricity and coal.

Average price of coal per gross ton, delivered,
\$8.00.

Coal consumed for the year, 57,300 lbs., for heating.

Average static head against which pump works,
168 feet.

Average dynamic head against which pump works,
185 feet.

Electric driven pump—description of power:

Alternating, 3 phase, 60 cycles, 550 volts, 1,700

R. P. M.

1. K. W. H. of electricity used, 328,014.

2. Pumpage by electricity, 289,175,000 gallons.

3. Gallons pumped per K. W. H., 810.9.

4. K. W. H. used per 1,000,000 gallons pumped,
1,233.

5. Total pumpage for the year, 289,175,000 gal-
lons.

Cost of pumping, figured on pumping station ex-
penses, \$10,750.69.

Per billion gallons pumped, \$37.17.

Per million gallons raised one foot (dynamic),
\$0.20.

Low Pressure Station

Description of power:

Alternating, 3 phase, 60 cycles, 550 volts, 1500

R. P. M.

Average static head, 18 feet.

Average dynamic head, 25 feet.

K. W. H. electricity used, 49,756.

Gallons pumped per K. W. H., 4,286.

K. W. H. used per 1,000,000 gallons pumped, 233.

Total pumpage, 213,270,000.

STATISTICS OF CONSUMPTION OF WATER

Estimated total population at date, 13,029.

Estimated population on lines of pipe, 12,600.

Estimated population supplied, 12,600.

Total consumption for the year, 289,175,000 gal-
lons (Venturi meter).

Passed through meters, 129,052,455 gallons (consumers' meters).

Percentage of consumption metered, 45 per cent.

Average daily consumption, 791,899 gallons.

Gallons per day to each inhabitant, 60.7.

Gallons per days to each consumer, 62.8.

Gallons per day to each tap, 319.4.

Cost of supplying water, per million gallons, figured on total maintenance, \$94.47.

Total cost of supplying water, per million gallons, figures on total maintenance plus interest on debt, \$97.28.

STATISTICS RELATING TO DISTRIBUTING

SYSTEM MAINS

Kind of pipe, cast-iron and wrought-iron, cement lined.

Sizes, from 4-inch to 16-inch.

Extended, 3,460 feet during the year.

Total now in use, 27.724 miles.

Number of hydrants added during the year (public and private), 4.

Number of hydrants (public and private) now in use, 246.

Number of stop gates added during the year, 4.

Number of stop gates now in use, 302.

Range of pressure on mains, 54 lbs. to 114 lbs.

SERVICES

Kind of pipe, wrought-iron, cement lined, and cast-iron.

Sizes, 1 to 8 inch.

Extended, 1,462 feet.

Discontinued, 84 feet.

Total now in use, 20,1170 miles.

Number of service taps added during the year, 33.

Number now in use, 2,166.
 Average length of service, 47 feet.
 Number of meters added, 27.
 Number now in use, 1,852.
 Percentage of services metered, 85.5.
 Percentage of receipts from metered water, 83.
 Number of motors added, none.

MARRIAGE INTENTIONS

Recorded in the Office of the City Clerk,
Dover, N. H.

Prior to the year 1877, the marriage records of Dover are very incomplete, many years being entirely missing.

In order to preserve all available evidence of these early unions, and to provide an easily accessible record for the future historian and for those who may find it either necessary or desirable to trace their ancestry, we begin in this issue a transcript of marriage intentions beginning with the earliest book in which such records appear.

The present list embraces the period from January 1, 1824, to January 1, 1840, giving the full name of the prospective groom and bride, and the date the intentions were filed.

1824

Joseph T. Hubbard	Sophia Burnham	Jan.	4
Ichabod Seavey	Relief Courson	Jan.	4
William Pickering	Lois G. Meserve	Feb.	1
