DANA BROWN, } SCHOOL
E. L. MILES, } BOARD.

I have examined the accounts of the School Board and find them correctly cast and properly vouched.

C. S. MILES, AUDITOR.

REPORT OF THE SCHOOL BOARD.

The Twin Mountain Grammar department was taught by Emma T. Moore of Littleton. There was a genial feeling between teacher and pupils at all times, thus making the school both pleasant and profitable. She worked hard and earnestly for the good of her pupils, and we hope that none of them failed to appreciate her labors and make the most of their opportunities. This department affords our young students with much better advantages than has been heretofore enjoyed, but we would suggest that they make thorough work of the English branches before attempting the languages.

The Primary department was placed in charge of Sophronia T. Rosebrook of this town. In this school we find some things

to interest us, and we feel that much is due to the pupils who obey their teacher with such willingness and even pleasure, that no teacher could fail to be inspired with a zeal to do their best for them.

In the Town House district Mrs. Stella Snow was employed for the spring and fall terms. Mrs. Snow has had a long and successful experience as a teacher, and gave valuable service to her pupils. The advancement made during the term, both morally and mentally, was highly commendable.

The winter term was taught by Josephine Martineau of Littleton. This was her first experience as a teacher, and she did good work for a beginner. She worked hard, but did not fully comprehend the necessity of discipline.

Miss Florence E. Jenness had charge of the Fabian school for the entire year. Miss Jenness is by no means a stranger in this school. Her previous experience here enabled her to strike the right key. The order was good and an excellent degree of advancement was made.

In Pine Grove, Miss Nettie A. Paige of Whitefield was engaged for the spring and fall terms; but, owing to sickness, she was obliged to return home before finishing the fall term. Miss Hattie Miles took her place. Miss Paige is a good scholar and willing to assist her pupils at all times. The order was invariably good and the work thoroughly done. We were pleased to note the rapid advancement made by some of the younger classes in arithmetic. In closing the fall term Miss Miles made her first attempt at teaching. She labored hard under many difficulties, yet we believe she was fairly successful.

The winter term was taught by Miss Ina M. Brown of Groveton, a thorough scholar and a good teacher. The people in so small a district should consider themselves extremely fortunate to have a teacher who is so well qualified and willing to assist her pupils in every possible way, and we believe Miss Brown's efforts were appreciated both by parents and pupils.

The school in Applebee district was taught by Miss Bertha M. King and Mrs. Evelyn A. King.

Miss Myrtie Libby was in charge of Cherry Mt. school. We are sorry to see such poor attendance in this school. It is an axiom that should be remembered, that however competent a teacher may be, her success, in regard to discipline and general school work, will depend, to a certain degree, upon the course taken by the parents. They should see that their children attend school regularly, for the constant attendance of a scholar is indispensable to good work, and nothing except sickness or some emergency should detain a child from school. Such absence is not only injurious to the child, but frequently to the whole class, as their work is retarded while absentees are making up their loss.

The new books introduced this year have been a source of much pleasure to our teachers, and we would recommend that

other changes be made as soon as convenient. It is necessary that suitable geographies should be provided for class work. It is not just to require teachers to use books that need to be revised.

The above statement in most instances makes a favorable comparison with last year. An increase in the total number of weeks of school, whole number registered, average attendance and number of visits by citizens.

Names of pupils not being absent or tardy the entire year are: Georgie M. Howe, Stella Seymour, Stella Howe, Joseph Liberty, Johnnie Ogle, Ada Wescomb, John Green.

We are confident that the work being done in our schools as a whole, is as progressive and thorough as can be reasonably expected under the present system. As an indication of this several former pupils are now taking advanced work in High schools. These achievements are pleasing, yet we hope that of the younger pupils who are filling their places, a much greater number are aiming for a higher standard.

In closing we wish to thank teachers and citizens for their co-operation and support in school matters during the year.

Respectfully,

MRS. DANA BROWN.

REPORT OF LIBRARY TRUSTEES.

Total number of books in library, 305; whole number of cards issued, 179; number of cards in use, 132; number of magazines, 28.

The trustees and librarian feel thankful that the interest of our younger readers for good literature is unabated, but they regret that the supply does not equal the demand. Miss Maud L. Barron during the past year has presented the library with a handsome copy of Shakespeare complete, and it is hoped that others will remember the great worthiness and needs of our little "book corner," and make it worthy of a growing intelligent town in the White Mountains.

FLORA J. MILES, H. E. JENNESS, J. F. LEAVITT,	}	TRUSTEES.
