ARTICLE 17 (cont.)

Fire Chief James Colprit presented a plaque to Donald Begley on his retirement from the Fire Department after 28 years of devoted service.

Robert Houston, Planning Board Chairman presented a report of that committee.

The policy for the use of DeMerritt Park field was discussed. A vote of those present indicated that the town would have no objections to the Oyster River Youth Association using both fields for Little League baseball during the summer.

The March 24th meeting of the water district was announced and that Joan Schrieber was retiring from the water commission and a new member would be elected.

Rubbish removal from the town park was discussed and the selectmen will look into a suitable method.

It was verified through discussion that money realized through the sale of "Madbury, Its People and Places" would be deposited in the "Eloi Adams and Charles Jennison 1968 Bicentennial Fund."

The town voted an expression of appreciation and thanks to the following Town Officers on their retirement:

Lucile Hutchins for 14 years as Town Clerk

Harry Cheney for 18 years as Selectman

Robert Houston for 15 years on the Planning Board

A standing ovation followed.

Meeting concluded at 10:00 p.m. to count ballots.

Meeting adjourned at 11:10 p.m.

REPORT OF THE FIRE DEPARTMENT

To the Citizens of Madbury:

The year 1976 was our busiest year since the department was formed.

There have been no major improvements in our equipment, which is in good operating condition.

Turnout gear was purchased, which gives each man the protection of helmet, coat, gloves and boots.

Three hundred feet of 1½ inch hose was purchased, to give each vehicle proper attack lines.

Three new Plectron Alerting radios were purchased, giving us a total of 12.

In August, the Madbury Fire Department through negotiations with the UNH Durham Fire Department, obtained the use of the services of the dispatching system at Durham for alerting the Madbury firemen. This has been a great improvement in the dispatch of equipment, and especially in getting out manpower.

The response time has been improved, and the average number of men responding has increased to eight men per call.

The presence of an alerting radio in the fireman's home gives him a more personal sense of responsibility, and dedication to duty.

The future needs of the Department are, two additional airmasks, more alerting radios, and a new portable pump.

STRAFFORD REGIONAL PLANNING COMMISSION

The Strafford Planning Region is an area of about 450 square miles inhabited by over 80,000 people. Nine municipalities and Strafford County itself are members of the Strafford Regional Planning Commission (SRPC). They have joined (1) to seek together solutions for regional problems such as growth and development, water supplies, solid waste management; (2) to receive planning assistance for local municipal needs; and (3) to receive federal and state grants to carry out these services. The Commission is now in its eighth year. Since 1968 the Commission has grown from three to ten members and the staff from two to four full time people. There is also part time staff, paid through WIN, CETA, and student work-study programs. Jack Mettee became the planning director in July. He also has served as chairman of Madbury's Conservation Commission.

The Commission's work falls into four major categories: (1) review of applications and permits; (2) regional programs; (3) local assistance projects; and (4) information and education.

(1) Review of applications and permits

When the SRPC receives federal grants, it is required to evaluate proposals from Strafford Region projects which involve federal funds. A waste treatment system for Dover and an extension of the Knox Marsh Industrial Park are examples of projects reviewed for compatibility and regional concerns and plans.

(2) Regional programs

The SRPC is building an inventory of basic regional data and of planning guides in various areas of need. This year's activities include: (a) completion of a land-capability analysis for the central part of the Planning Region as a companion to last year's study for the southern portion of the region; (b) completion of a plan for developing a mass transit system in the southern Strafford Region which will include Portsmouth and Exeter. (c) Continuation and near-completion of a solid waste management study offering information on resources recovery and recycling. (d) Refinement of studies for a state coastal zone management plan which includes investigating the potential for onshore facilities related to offshore oil and gas development. Madbury, Dover, Durham and Newmarket are involved in this plan.

STRAFFORD REGIONAL PLANNING COMMISSION (cont.)

(e) Initiation of an economic base study and regional economic development plan. Upon completion of such studies, member towns may be eligible for federal grants for economic development. (f) Publication of a guide to planning for Industrial Park development. (g) Publication of a guide to open space planning with specific proposals for securing such land in this rapidly growing region. (h) Action initiated by the SRPC to develop a Human Services Council to coordinate the various agencies providing these health and social services. The council will prevent overlap of efforts and determine funding priorities to meet the needs of the region.

(3) Local Assistance

The SRPC provided a variety of technical and planning services to member communities in 1976. The Commission gave every planning board member in these towns a looseleaf notebook which includes the New Hampshire state enabling legislation on planning, an outline of the process for developing a master plan, guidelines for reviewing subdivision proposals, a glossary of planning terms, and a "where to go for help" list.

Some Activities In Other Towns:

The SRPC prepared a bicycle path study for Durham; supplied Rollinsford with an initial groundwater investigation with regard to development near the town wells; prepared a fact-sheet package on the city for the Dover Chamber of Commerce. Madbury, Lee and Nottingham received special help in their master planning process this year.

MADBURY

In Madbury the SRPC helped the planning board, water board, conservation commission, and the growth guidance committee develop policies and regulations to manage growth and protect open space. The Commission assisted the planning board and conservation commission prepare a wetlands ordinance.

The Commission completed a town-wide mapping inventory of natural resources and land capability, and also printed an accompanying narrative. SRPC printed the water board-instigated Barbados Pond investigation with an analysis of the results, in terms of appropriate development of the area.

STRAFFORD REGIONAL PLANNING COMMISSION (cont.)

(4) Information and Education

The Commission worked with the University of New Hampshire and the Extension Service sponsoring a series of seminars on the master planning process. This series, conducted by Jack Mettee, was very well attended by officials, planning board members, and citizens of towns throughout the Strafford Region.

Other informative programs have been held, for example on the flood plain insurance program and on economic development in New England, New Hampshire and Strafford Region.

MADBURY WATER DISTRICT

Our most visible activity of the past year is the well water survey. At our Annual Meeting last March, Bernard Lucey of the New Hampshire Water Supply and Pollution Control Commission spoke about water testing and demonstrated the technique of taking samples. Since then we have encouraged people to have the tests made, and have received reports on about 40 wells. This project continues at a slow pace.

We recently received the final report on the Barbadoes Pond survey from the Strafford Regional Planning Commission. This completes a project begun four years ago at the request of the Water District, and resulted from some questions raised by Joe Cole.

The Water Board has agreed to work with the Planning Board to help develop land use planning with respect to existing water supplies and future sources. Some recommendations have been made and are under consideration by the Planning Board.

In other activities we have offered technical assistance to individuals and to the Planning Board and the Zoning Board of Adjustment on water supply systems. We are gathering a fair library of reference material on water supply and sewage disposal systems, including State and Federal standards. Residents may have access to these by contacting one of the Commissioners.

MADBURY PLANNING BOARD

The Planning Board held twelve monthly meetings and numerous work meetings during the year. Ten public hearings on land subdivision were conducted as well as hearings on proposed amendments to the Zoning Ordinance, Building Regulations and Subdivision Regulations.

Some board members have taken the opportunity of informing themselves on planning techniques by attending workshops and seminars. Planning activities have brought us into closer working relationship with other town agencies during the past several months.

The Board of Selectmen and Planning Board received a citizens' petition calling for a moratorium on the issuance of building permits until directives for orderly growth have been incorporated into the master plan. The Board and its Guiding Growth Resource Committee have found that a moratorium of this nature would not be legally advisable as no crisis exists that requires the Town to provide facilities or expanded services.

To respond to the intent of the petition and to further the development on our Master Plan the Board has chosen to propose land use suitability regulations in order to control, delay or curtail development in areas where the Town could be required to provide services or improvements causing an excessive expenditure of public funds. The first step in the direction of land use suitability planning is the proposed Wetlands Conservation Overlay District. The Conservation Commission and Planning Board worked diligently in forming this proposal.

Increased citizen participation in planning is becoming quite obvious as more help is being offered in the work of preparing the town plan. We are grateful for the assistance given and wish to thank everyone who have lent a helping hand.

Respectfully,

Sylvia H. Grimes, Chairman
Madbury Planning Board

BICENTENNIAL COMMITTEE

Due to the efforts of many of you townspeople, Madbury became a Bicentennial Town on May 17th. The flag flies over the DeMerritt triangle.

The Madbury Magpies, the Community Club, the Ladies Aid, the 4-Hers and the Fire Department were responsible for a very successful Family Day held on July 5.

Some homes have been identified and marked as to age. Richard Bromley was (and is) willing to provide hand-crafted wooden house markers for a very nominal fee. Jeannette Ramsbotham took part in the Bicentennial Wagon Train on May 17, presenting Madbury's Re-dedication Scrolls and accompanying the Conestoga Wagon Train from Rochester as it traveled toward Valley Forge.

Your committee anticipates that other projects will get off the ground. The thrust of the national bicentennial celebration was to spur ongoing community interaction in civic projects, not simply to look back to the past. We hope there will be participation in further projects here to draw us together as friends and neighbors. Let's get a historic association underway this year; call Tom Crosby if you are interested.

The entire town owes a vote of thanks to those who made possible the bicentennial efforts to date.

Respectfully submitted,

JESSE JAMES, Chairman
