## SELECTMEN'S REPORT

1986 has seen continued progress in Town Government. The various departments which make up Deering's Government have improved and expanded their services.

The Highway Department, led by Peter Beard, has provided efficient, effective maintenance of the Town roads. To this end they have been helped by the acquisition of their new Chevrolet truck which has extended their ability to service the roads. During 1987, the Highway Department would like to improve the remainder of the East Deering Road (including the Cross Road and the Dudley Brook Road) and Peter Woods Hill Road. While these improvements are expensive, they are needed. The improvements made now will certainly be less costly than if they are delayed more years. The Highway Department is outgrowing its quarters behind the Town Hall. The Town should consider purchasing land on which to expand. A committee should be formed to investigate this and make recommendations. The Board of Selectmen encourage interested citizens to volunteer to serve on such a committee.

The Fire Department under the leadership of Chief William Edes and the Board of Fire Wards have provided fast, effective, and courteous responses throughout the year. The Department would like to purchase a new fast response fire truck which will increase the Department's ability to respond quickly wherever needed. The growing number of new dwellings being built or proposed increases the demand on the Department. A new truck will go a long way toward meeting this demand. The Rescue Squad, headed by Captain Gordon Sherman, successfully continues to provide the much needed emergency medical services. The Squad has acquired a newer rescue vehicle which enhances their service.

Planning Board Chairman and his Board have been busy with an increasing number of requests for sub-divisions. In addition, the Planning Board with the help of many others has prepared a questionnaire to gather input from the Townspeople as to the direction the Town should take in its Master Plan.

Police Chief John Mitchell accepted the responsibility of the Deering Police Department this year and has done an excellent job of seeing to it that the highways are safe and the citizens are protected. Chief Mitchell has organized the paperwork of the Department so that police activity reports reach the Board of Selectmen in a timely manner.

Town Buildings, especially, the Town Hall, need regular custodial services. The floor will not sweep itself, rugs will not vacuum themselves, minor repairs and maintenance do not correct themselves. Thus the Selectmen have increased the Town Buildings budget to allow hiring a parttime person to accomplish this. The salt shed is in bad repair caused by trucks dumping the salt there and by the front end loader entering the shed. The salt should be stored elsewhere, and the building repaired. Suggestions are welcome.

Financially the Town is in good shape. We have generated a surplus this year of approximately \$60,000. Much of this has come from penalty taxes on land use changes (open space). Anyhow it will serve to reduce taxes in the upcoming year.

The Town is fortunate to have the many public spirited citizens serving on boards and committees. They do this without compensation. The Board of Selectmen extends a heartfelt thanks to these thoughtful individuals for their service. We also commend our paid employees for their effort and dedication throughout the year. And to those who have guided and supported us during the year, Thank you.

BUILDING INSPECTOR REPORT

Another year has passed and there has been a considerable amount of building construction in the Town of Deering. There has been beautiful homes and additions added to this community for which the towns people should be very proud, for both quality and appearance.

I have been invited to some of the homes after completion and I must say I felt as much pride as the homeowner.

#### LIBRARY TRUSTEES REPORT

The Library Trustees, who also serve as librarians, sometimes wonder whom they are serving! Nevertheless, they continue to carry on the functions of a library for the residents of Deering.

Your library is open during posted hours from June through September at the Old Schoolhouse Building and in the Town Hall the remainder of the year. A selection of books of current interest and readability are available there during the same hours that the Clerk's office is open.

The Summer story hours are very popular. Many new children's books have been purchased as well as new adult fiction and non-fiction.

The Trustees sincerely hope that more residents will take advantage of the service offered so that they can continue to provide reading materials to enhance your leisure hours and they wish to thank those who do use the library. They make their work seem worthwhile.

#### POLICE DEPARTMENT REPORT

At this time I would like to thank the Board of Selectmen, the residents of Deering and my fellow Police Officers for their support since I was appointed Chief of Police in April.

Your department now consists of five officers, enabling us to give the town twenty four hours of on call coverage and forty hours per week of duty coverage.

A reminder to town residents in the 464 telephone exchange that for any emergency -- Police, Fire or Rescue, they may now dial 911. For residents in the 529 phone exchange they still must dial 464-3600 for Police Emergencies.

The Police Department is often told that an incident happened last night but we didn't want to bother you. We can not place enough emphasis on having people call us when the incident happens and not wait until the next day. That is what we are here for.

Unfortunately due to the large increase for Police Liability insurance, 1985 - \$600, 1986 - \$2,746, we did go over our appropriated budget. But, as you will note, we did strive to keep it as close as possible by cutting back in other areas of the budget.

Since I was appointed Chief in April you department has answered the following calls or complaints:

Motor Vehicle Complaints	--	43
Motor Vehicle Accidents	--	27
Assist Motorists	--	34
Burglary	--	10
Burglar Alarms	--	18

DEERING FIRE DEPARTMENT

The Deering Fire Department has had a busy year. We have supplied mutual aid to Hillsboro, Weare and Antrim a number of times. We have also had a busy year in Deering.

This year has seen the men of the department attending more area schools both for fire and rescue. The fire department has had more members become state certified.

We have presented several fire prevention presentations to schools in the area. The department also had the pleasure of doing a demonstration at this year's crafts fair. We hope to be able to do more this year with the town on fire prevention. I wish to take this chance to thank everyone involved this year for their time and contributions.

The Deering Fire and Rescue was able to acquire a newer Ambulance thanks to the Hillsboro Rescue. The rescue has had a very busy year also. The rescue has had several more men complete EMT certification, and First Responder classes. The Rescue has also put on CPR classes for department members.

I now have a membership of 33 men and women on the department, with the majority of the men state certified. We have 6 trucks (3 pumpers - 3 tankers) and 1 Ambulance.

As always the Fire Wards, myself and, the men of the Deering Fire and Rescue wish to thank the residents of Deering for their support and their efforts in fire prevention. If at any time you have a problem, question, or suggestion; feel free to call the Fire Wards, myself or the Selectmen. Your input is important to the growth and development of the Deering Fire and Rescue.

#### CONSERVATION COMMISSION REPORT

The Annual Clean-up Day held on April 19th attracted more volunteers than usual. All enjoyed a lunch served at the Community Church. Anyone wishing to help on the 1987 Clean-up Day, notify the Commission.

There were no recipients of the sponsorship to the Youth Conservation Camp in 1986. Anyone wishing to attend the Camp in June, is between the ages of 13 and 18, and has completed the eighth grade, please contact the Commission for details.

Testing of the Lake continued in 1986. This year a conductivity meter which measures the levels

of matter in the water was borrowed from the state Biology Lab to test the lake water quality. Conductivity levels in the lake were stable except for a high reading at the main turbidity which feeds the lake year-round. Lab tests revealed high fecal coliforms and turbidity. The problem was discovered to be due to a large beaver dam on the stream. State biologists recommended removal of the beaver and the dam. Next summer the commission members will undertake a door to door educational campaign on the lake to discuss problems and ideas with lakeside property owners.

The Commission has been involved in two instances of Dredge and Fill violations this year. In an attempt to provide residents with the necessary information to prevent problems around our wetlands, copies of the state regulations pertaining to Dredge and Fill will be available at the Town Office.

Work in progress include the completion of the scaling of the soils maps for use by the Commission and the Planning Board. These maps are provided by the U.S. Department of Agriculture and are now on the same scale as the tax maps. These maps show the location of wetlands and other critical areas and will be a useful tool for both groups in their efforts to protect certain aspects of the town.

The mapping and indexing of individual wetland areas continues. This information is now on computer and will be added to as more work is done. Anyone wishing to be involved with this project is more than welcome.

The Commission meets every third Monday of the month at 7:30 p.m. in the Town Hall. Interested residents are welcome to attend.

PLANNING BOARD REPORT

The year of 1986 has been a busy year for the Planning Board and its members. Board members, members of the Conservation Commission, Zoning Board

and interested citizens have been busy working on the Town Master Plan. A Master Plan questionnaire has been prepared and is ready for distribution to all residents and people who are tax payers in Deering. The questionnaire is designed to solicit the peoples feelings on Deering and its future. When you see the questionnaire please respond carefully and thoughtfully. The Planning Board, using your responses and state guidelines, will update the Deering Master Plan. This is an important activity since it forms the foundation for land use and planning regulations.

The Planning Board became an active member of the Central New Hampshire Regional Planning Commission (CNHRPC) this year. The Commission provides guidance and support on regional and local planning issues. The organization is comprised of 15 central New Hampshire towns. Meetings are held in various member towns on the 3rd Thursday of the month. These meetings serve as an effective forum for discussing planning and land use subjects of interest.

During 1986, 12 subdivision applications were received. Of the 12 applications, 2 were major subdivisions containing more than 4 lots, 8 were minor subdivisions, and 2 were lot line adjustments. One major subdivision was approved while the other is awaiting satisfactory completion of improvement to Tubbs Hill Road. Approvals were issued for 7 minor subdivisions and 2 minor lot line adjustments. One application was rescinded by the subdivider. Two carry overs for major subdivisions were reviewed, one was rejected the other expired due to time limitations.

The Planning Board meets on the second Wednesday of the month at 7:30 p.m. at the town hall, attendance by concerned citizens is always welcome.

SOLID WASTE TRANSFER STATION COMMITTEE REPORT

Since late 1985, a committee has been exploring the most expedient and cost effective methods of collecting and transporting the solid waste, now being deposited in the Hillsboro Sanitary Landfill,

to the proposed incineration project at Concord. The committee has inspected a number of transfer stations in New Hampshire and Massachusetts and has met with representatives of neighboring towns who are also members of the Concord incinerator cooperative.

It was the consensus of the committee that the transfer station be constructed on Hillsboro town property in a building to be located adjacent to the town garage, and that the collection method be "The Open Top Trailer System". Hillsboro has engaged SEA Consultants Inc. to provide engineering and supplemental services for the design and construction administration of the solid waste transfer station. It was specified that the design be completed in sufficient time for construction bids to be in hand prior to the March 1987 Town Meeting.

It was agreed that the committee would be given opportunity to review design plans and specifications.

#### REPORT OF GENERAL ASSISTANCE

Local general assistance is designed to provide a) temporary emergency aid, b) temporary, short-term assistance, or c) longer-term assistance, in rare cases.

There were several who contacted the Welfare Office during 1986. Following application and screening procedures to determine the applicants' eligibility, several were referred to other sources of assistance. Only two applicants received general assistance from the Town of Deering. Both received emergency aid, and one of the two needed additional assistance in the form of temporary, short-term assistance.

 TRUSTEES OF TRUST FUNDS REPORT

As was indicated in last year's report, we are in the process of much needed repair of grave stones in our cemeteries. The project completed this past year was the restoration of the stones in the East Deering Cemetery. We were able to again contract with the Keene Monument Company, based on the excellent work they accomplished the previous year in the West Deering Cemetery. East Deering required much more work with approximately 140 stones needing care. This care included preparing cement bases to stop the tipping, repair of broken stones, and the setting of stones in cement that could not be repaired by other methods. The cost for this work was \$3200.00. We have received many favorable comments about this project.

The third phase is the restoration of the stones in the Wilkins Cemetery on Old County Road. We have approximately the same number of stones to be repaired as with East Deering.

Future plans call for the repair of the other cemeteries within the town, the expansion of East Deering Cemetery by clearing and grading the quarter acre parcel given to the town by Mrs. Edna Yeaple, and the possible expansion of other areas.

ADJOURNED TOWN MEETING  
MAY 12, 1986

Meeting was called to order by Moderator Charles Galdes at 7:00 P.M.

Article 11A. To see if the Town will vote to raise and appropriate the sum of \$13,500.00 for continued use of the Hillsboro Landfill. This Article was defeated.

Article 11B. It was voted to table this article.

Following this, a motion was voted to re-consider Article 11A. By amendment, it was voted to raise and appropriate \$20,000.00 for continued use of the Hillsboro Landfill (Deering's share for the cost of using the Landfill to be determined by dividing the sum of the equalized evaluation of both Deering and Hillsboro into the cost of the Landfill's operation and multiplying the result by Deering's equalized evaluation) and for refuse removal. Result of vote- Yes-22, No-10

It was then voted to suspend the rules and re-consider Article 11B. By amendment, it was voted to use the same formula stated in Article 11A to determine Deering's share, not to exceed \$150,000.00, of the cost of closing the Hillsboro Landfill when at such future date it is mandated that the Landfill must be closed and sealed.

Article 12. To see if the Town will vote to raise and appropriate the sum of \$60,000.000 to purchase land and the sum of \$20,000.00 to set up

and operate a transfer station for solid waste disposal, was defeated.

The meeting adjourned at 8:00 P.M.

Respectfully submitted,  
Hazel C. Vogelien  
Town Clerk
