SELECTMEN'S FOREWORD

The Town Meeting of 1964 authorized the Town Manager Plan of Government for Derry and on June 15th Mr. Dana H. Jacobs was hired.

During the year operating procedures were developed by the Manager and Selectmen which effected a greater over-all efficiency. During this period of transition all facets of our town government have experienced a change from the "status quo" of past years to a new programming that will better serve the needs of all the citizens of Derry. This transitional period has not yet been completed and, while many advantages and benefits have already been achieved, the full potential has not yet been realized.

Among the programs established was an up-to-date accounting system which utilizes the services of a National Cash Register accounting machine. For the first time, it is now possible to maintain all accounts on a current basis and to have available a detailed financial analysis of all Departmental budgets. This machine will meet the expanding needs of the community including the posting of accounts receivable, accounts payable, water billings, tax billings, payroll accounts, sewer billings and State and Federal tax accrual accounts.

The effectiveness and efficiency of the Highway Department were greatly improved by planned programming, better utilization of its labor force and the purchasing of necessary highway equipment.

The water main system was extended approximately one mile (from the pumping station to Shute's Corner) making the water system available to the Kendall Pond Road area and, at the same time, completing a loop that greatly increased the possible utilization of the water system while also increasing the fire protection potential.

The excess sewer charge for Derry users is being eliminated by the Selectmen beginning with the second quarter (April 1, 1965) of the current year. The original purpose of this excess charge was to establish a fund for replacement of vital sewage equipment. It is our judgement that the sum of \$20,000 recently transferred to a capital reserve account will be sufficient for any foreseeable needs.

Article Number 9 in your Town Warrant of 1965 requests that the Selectmen be authorized to borrow up to \$100,000.00 for the construction and reconstruction of the roads and bridges listed in this Article and for the extension of the sewage system from the intersection of Franklin Street and Folsom Road to Route 28.

Because of the pressing need, it seems advisable to take care of these problems immediately; thereby availing the town of these improvements during the current year. The present condition of these highways and bridges constitutes a very definite hazard to both pedestrians and vehicular traffic. The condition of Hood Pond, as well as the brook that feeds this body of water and then flows by our well field, is another health hazard that can no longer be ignored. The installation of the proposed sewage system extension would rectify this community health menace.

The ability to solicit bids for projects of this magnitude would result in an attractive contract price. In addition, by doing this work at this time we would be ahead of rising construction costs.

While we realize that this period of growth and expansion of our town has created a multitude of problems, we have sincerely endeavored to face these problems realistically and have worked toward establishing a firm foundation on which the community may grow and prosper.

Respectfully submitted,
R. Dana Smith
Irving E. Shemeld
Donald Bentley

TOWN WARRANT
THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Derry qualified to vote in town affairs:

You are hereby instructed to meet at the Veteran's Memorial Building in said Town on the second Tuesday of March next, at ten o'clock in the forenoon, to act upon the following subjects:

By vote of the Selectmen, the polls for this meeting will remain open from ten o'clock in the forenoon until seven-thirty o'clock in the afternoon, and as much longer thereafter as the Town, at the opening of the meeting, may vote.

1. To elect a Selectman for three years, Town Clerk, Treasurer, Collector of Taxes, Library Trustees, Trustees of the Trust Funds, Cemetery Trustees, Auditors, and other necessary Town officials for the year ensuing.

2. To vote to raise and appropriate such sums of money as may be necessary for the maintenance of the poor, for laying out and repairing highways, for building and repairing bridges, for suppression of moths, for police department, the Derry District Court, for hydrant service and electric lights, for salaries of Town officials, for the Board of Health, for the expense of the Town Hall, for support of the Libraries, for State and County taxes, for the observances of Memorial Day, for aid to the Derry Visiting Nurse Association, for playground purposes and for band concerts, for cooperating with the State and Federal governments in the control of insect pests and white pine blister, and for all necessary charges arising in said Town, and pass any vote relating thereto.

3. To see if the Town will vote to authorize the Selectmen to sell at public auction and convey any real estate acquired through deeds from the Collector of Taxes or as reimbursement for assistance furnished to citizens, providing that in the case of tax deeded real estate the previous owner, or his or her heirs if known, or its successors or assigns in the case of a corporation, shall have first opportunity to purchase the same, and pass any vote relating thereto.

4. To see if the Town will vote to authorize the selectmen to incur debts for temporary loans in anticipation of taxes of the municipal year in which such debts are incurred and made payable therefrom, by such vote, and pass any vote relating thereto.

5. To see if the Town will vote to adopt the provisions of Revised Statutes Annotated, Chapter 80, Section 52-a, providing for the prepayment of taxes, and authorize the Collector of Taxes to accept payments in prepayment of taxes, and to further allow the Collector of Taxes to discount taxes according to the following schedule or such other schedule as the meeting may determine, fix the rate of such discount, and pass any vote relating thereto. The Selectmen recommend the following schedule and discount: 2% discount on taxes prepaid in full, on installments of not less than \$100.00, prior to July 1, 1965; 1½% discount on installment payments of taxes of not less than \$10.00 per payment until July 1, 1965; 1% discount in installment payments of \$10.00 or more until October 1, 1965, or until tax bills are issued; and a 1% discount from the time that the tax bills are issued until October 1, 1965.

6. To see if the Town will vote to raise and appropriate the sum of \$5,000.00 for the purpose of defraying the cost of exploration and research to find an adequate additional source of water for the Municipal Water System and pass any vote relating thereto.

7. To see if the Town will vote to approve the employment of the State Tax Commission by the Selectmen to re-assess the taxable property of the Town at an estimated total cost of \$25,000.00 and to raise and appropriate therefore the sum of \$15,000.00 as the 1965 payment on account of said contract and pass any vote relating thereto.

8. To see if the Town will vote to raise and appropriate the sum of \$2,625.00 for the purpose of construction of a sidewalk from Grinnell School over land of the Cooperative School District No. 1 of the Town of Derry to Crystal Avenue at a point between the Bahan Chiropractic Clinic and the Hinky-Dinky Drive-in and pass any vote relating thereto.

9. To see if the Town will vote to authorize the Selectmen to borrow the sum of \$100,000.00 under the terms of Chapter 33 of the Revised Statutes Annotated entitled "The Municipal Finance Act", and any amendments thereto and execute serial notes in the name of the Town in payment therefore, payable in ten equal amounts annually for a period of ten years, and further authorize the Selectmen to negotiate the interest payments thereon and do any other act necessary to accomplish the purpose thereof. The proceeds from said loan to be used in the year 1965 for the construction and re-construction of the following projects: The bridges over Beaver Brook on the East Derry Road in Derry Village, Birch Street, and Highland Avenue, and the bridge on West Broadway over Horns Brook, the resurfacing of

the following highways: East Broadway from the traffic light to the library and West Broadway to the Londonderry line, and for the purpose of extending the municipal sewerage system from a point near the Franklin Street pumping station to a point near the Londonderry line on state highway road, Route 28, and pass any vote relating thereto.

10. To see if the Town will vote to recind the present arrangement whereby the Veterans Memorial Building, so-called is used by the Lester W. Chase Post American Legion so that the Town may take full control and possession of said building, including the use and occupancy for the purpose of using said building to house municipal functions including the Derry District Court, Police Department, such other departments as the Selectmen may determine, and for use for storage of documents and other town property and pass any vote relating thereto.

11. To see if the Town will vote to transfer from the MacGregor Fund in the hands of the Trustees of Trust Funds the sum of \$500.00, to be expended during the summer of 1965 for band concerts at MacGregor Park, and pass any vote relating thereto.

12. To see if the Town will vote to raise and appropriate the sum of \$1,715.60 for aid under apportionment A of Town Road Aid Plan to match a State appropriation amounting to \$10,265.48 for the purpose of construction of Class IV and Class V highways, and pass any vote relating thereto.

13. To see if the Town will vote to raise and appropriate the sum of \$6,270.00 for aid under apportionment B of Town Road Aid Plan to match an appropriation by the State of \$6,270. for the purpose of construction and reconstruction of Town highways as provided for in said Town Road Aid Plan, and pass any vote relating thereto.

14. To see if the Town will vote to raise and appropriate the sum of \$277.54 for membership by the Town in the New Hampshire Municipal Association, and pass any vote relating thereto.

15. To see if the Town will vote to raise and appropriate the sum of \$250.00 to be used in cooperation with State and Federal funds for the control of White Pine Blister Rust within the confines of the town, and pass any vote relating thereto.

16. By petition, to see if the Town will vote to raise and appropriate a sum not exceeding \$500.00 to be expended by the Recreation Commission for the benefit of the local youth organization in the Town of Derry known as Spacetown Cadets, and pass any vote relating thereto.

17. By petition, to see what action the Town wishes to take on the following question: "Do you favor the continuance of the Town Manager Plan as now in force in this Town?" (This question must by law be voted on by ballot).

18. By petition, to see if the Town will vote to provide a suitable area for a permanent target shooting range for the use of the Citizens of the Town, and pass any vote relating thereto.

19. To hear the reports of agents, auditors and committees heretofore chosen, and pass any vote relating thereto.

20. To appoint any necessary committee on any article embraced in this warrant.

21. To transact any other business that lawfully may come before this meeting.

Given under our hands and the seal of the Town of Derry, this 19th day of February A. D. 1965.

TOWN MANAGER'S REPORT

To the Board of Selectmen and the Citizens of Derry:

The activities of your Municipal Government, for the fiscal year ending December 31, 1964, are summarized for your information and evaluation.

Your inspection of the respective reports of the various departments, boards and committees will reveal that this has been an active year for your Municipal Government as it provided the services demanded by the citizens:

It is noteworthy that the Planning Board's program to develop a "Master Plan" for Derry has been implemented through the retention of the Planning Services Group of Cambridge, Mass. Progress is being made and in the near future a completed plan will be available for review and acceptance by the Town.

Although I have served as your Town Manager for only a matter of months, I have become very interested in the Town of Derry and what I think its potential is. Derry is at the threshold of definite growth. With growth will come more complex problems, however, it is most surely the way to progress toward the goal of an enhanced community life for its citizens.

During my brief tenure to date, I have found Derry Town Officials, Department heads and Town employees to be cooperative and receptive to the changes that are currently taking place in their Municipal Government. The department heads have knowledge and skill in their respective jobs and the desire to render adequate service to their community.

I am particularly pleased to report the the Municipal Accounting System installation authorized by the Selectmen, is now operative to the extent of utilizing four programs. Ie, Appropriation, Revenue, Payroll and Water and Sewer Billing. Programs involving Tax Billing and Composite Reporting will be initiated as soon as practicable. Financial Reporting is now being done on a monthly basis and spot-checking in any account can be done at will. The installation of the NCR Municipal Accounting System has naturally posed many problems that demanded time, patience and a lot of extra work to iron out and I commend my office staff particularly for their willingness to tackle the tremendous amount of work involved and their tireless diligence

to do their work well. Their's was definitely a labor of unstinting loyalty to the Town of Derry.

Dana Jacobs,
Town Manager

OPERATING STATEMENT

For fiscal year ending December 31, 1964

I. INCOME

Cash on hand January 1, 1964	139,779.20
Receipts and revenues to 12/31/64	<u>1,605,919.29</u>

SALARY REVIEW FOR BUDGET YEAR 1965

In the Town Report for 1962, a committee appointed for the purpose of salary study presented a detailed report on the recommended basis for establishing equitable salary grades.

Although the approach was sound, there were insufficient safe-guards in the form of rules of application.

This factor, plus the transition from a 48 hour week to a 40 hour week, has upset the original equitability planned.

One feature of the salary schedule that has proved unwieldy is the close overlap of the rate ranges.

With these points in mind, the Office of Selectmen decided to submit for approval updated Salary Grades for the 40 hr. week and elimination of Salary Grades for the 48 and 44 hr. week.

To meet the requirements of an advancing economy, it is further recommended that the Town consider a unified approach to payroll programs.

Based on a Wage and Salary Survey by the New Hampshire Municipal Association, dated September 1, 1964, the following facts have been developed:

1. Average rates have been established for all jobs in New Hampshire towns having a population of 5000 to 8000. These rates are the basis for the new rate structure.
2. Five percent (5%) (adjusted to nearest cent) has been added to the developed average rates. This completes structure computation.
3. The resulting rate is assigned to appropriate Derry position salary grade maximum level.
4. The increment of 5% was developed by examination of Employment and Wages report of private industry by the New Hampshire Department of Employment Security, dated September, 1964.

In the report, the averaged earnings of towns selected in item 1. above were compared with average earnings of Derry. Derry reflects approximately 5% higher income (other towns - \$4090, Derry - \$4244).

5. Rate Scale developed:

PROPOSED PAY SCALE BASED ON A 40 HOUR WEEK

Grade	Step 1	Step 2	Step 3	Step 4
1	1.36	1.45	1.54	1.63
2	1.45	1.56	1.67	1.77
3	1.56	1.67	1.78	1.87
4	1.67	1.82	1.97	2.12
5	1.82	1.87	2.09	2.30
6	2.00	2.15	2.30	2.45
ANNUAL SALARY				
7	4,400.	4,650.	4,900.	5,200.
8	4,650.	4,950.	5,250.	5,550.
9	4,950.	5,350.	5,800.	6,200.

Based on the above, minimum rate would be trial or starting probationary rate used for six months. Steps thereafter earned at rate of not more than 1 step increase per each 12 month period unless employee is raised to a different job.

No more than 20% increase annually, regardless of promotions.

Employees not to be raised in range without approval of Town Manager.

Employees not to be advanced in Grade Level without approval of Selectmen.

**WAGE DATA FOR THE 1965 BUDGET BASED ON THE NEW
WAGE SCALE PROPOSAL TO BE PUT INTO EFFECT

GERALD H. COX, DIRECTOR

Director's 1964 Report

The activities of the Recreation and Parks Commission were many and varied. Everyone was invited to participate in programs of different types. All ages have something to do sometime during the year.

The schools have been very cooperative in allowing supervised programs in school facilities. In 1964, these programs included Jet Jr. basketball, Pin-ups basketball, Men's basketball, Spacetown Square Dance Instruction, Derry Youth Center, Hunter Safety Course, sports banquet, Girl Scouts and Cub Scouts. Due to the inclusion of classrooms in the Gym and on the stage of the Grinnell School, the use of that facility has been limited to the use of the cafeteria.

Volunteers are essential to our programs. Without them, the activities would be reduced considerably. Some groups such as the Lions Club have conducted roller skating trips to Nashua. Mrs. Ann Crosby Folsom and the Union Marble Plant sandblasted clean the monuments at MacGregor Park without charge. Mr. Gallien at Beaver Lake and Mr. Maloof at Ryan's Hill allowed swimming activities at their respective facilities. Many others have donated their time and energy as coaches, officials and other helpful ways. I am sorry that I can't list all groups and individuals who have helped the various programs.

Miss Julia Holaday and Miss Gail Laycock taught Red Cross Swimming and Life Saving. They also conducted the afternoon program at Hood Park including arts and crafts, games and contests and special events. Due to the fact polluted water runs into Hood Pond, the chlorinator for the swimming area was not installed as we had hoped. When the sewerage is taken care of in the area contributing to the pollution, we can then apply again for the chlorinator.

Additional funds were voted at last town meeting for the

tennis courts at the corner of Rollins and Manning Streets. The area has been expanded to serve a dual purpose. Ice skating on the area in winter and tennis in the summer. A ten foot fence has been erected on the railroad side of the surface.

The biggest improvement was made at Alexander Playground where a 620 foot rope tow for skiing was installed after four acres of hill was cleared and grubbed for that purpose. A road and parking lot were also developed not only for skiing but picnicking in the summer.

Special events for the year included the annual band concerts, Hood Park Field Day, Art Festival at MacGregor Park, Turkey Shoot and Labor Day Festival. The K of C lawn festival was held on Veteran's Field.

Buckley Field was used by the American Legion baseball team which did very well this year, the Jr. high girls softball, the grasshoppers baseball and the farm teams of the little league. The tennis court was also utilized by many. The Labor Day Festival was also held on Buckley Field. A few improvements are needed here.

O'Hara Park is used for Little League only. The teams play every night during the week all summer long. The volunteers do a big job with this organization.

Saturday morning bowling league for children has been popular with the boys and girls. The flag football was also well attended by the boys on Saturday mornings. The womens softball team used the Veteran's Field and the men's league gave way to a team which used the field for practice. The team played in a twilight league in Manchester. Many feel lights at Veteran's Field would double the use of that facility and return the men's league to operation.

Additional duties of the director have been many. The director is a resource person for 4-H, boy and girl scout units, Home Demonstration Group, School Building Committee, Labor Day Festival Committee, Men's Softball team manager, service clubs which serve youth, soap box derby, art shows, square dance, veterans groups and planning areas.

The selectmen appointed Joan LeMahieu to replace Ruth Lee Root whose term expired as commission member. The Commission as a whole has done a lot of planning for the future as well as getting things done when they are needed. In years to come, they will develop their plans and make the program and facilities the most useful for the citizens of the Town of Derry.

We are still striving to acquire the remainder of the Alexander Playground property. When it is taken care of, the plans can be realized according to schedule.

Respectfully submitted,
Gerald H. Cox

Director, Derry Recreation and Parks.

REPORT OF THE PLANNING BOARD

One of the main concerns of the Planning Board this year, as in the past years, has been the examination and review of plans of proposed subdivisions of land for the purpose of insuring the orderly subdivision and development of land within the Town. During the past year approximately eighty preliminary and final plans were considered by the Planning Board. In addition, the Board also held special meetings with Town officials and some of the contractors and builders to discuss mutual problems concerning land subdivision.

The other main aspect of the Planning Board's activity during the past year has been the progress of the comprehensive plan for Derry's growth and development. As explained in previous reports, although the Town's share of the matching funds for this program were voted at the 1963 town meeting, delays at the State and Federal levels, all of which were beyond the control of the Planning Board, prevented the program from getting underway until 1964. Actual work on the plan was begun by the Planning Services Group, the consulting firm engaged to assist the Board in developing this plan, in July of 1964.

The first stage of this program, the gathering of basic information concerning the Town's land use pattern, economy and other facets, is now in progress. The Board has recently been involved in joining groups of interested citizens in neighborhood meetings. These serve the dual purpose of acquainting those attending with the planning process and of supplying the Board with information concerning the neighborhood and the town, which is of assistance in developing this plan. The second phase, to start in mid 1965, would include an analysis of community facilities and services and of the Town's street system. The final stage of the program, scheduled for the Fall of 1965, will involve, among other things, the completion of a future land use program and the preparation of capital improvements program. Following the completion of the planning program and based on the proposals included in the plan, the Town should be able to intelligently revise its Zoning Ordinance and any other ordinance that may be necessary to implement the goals developed.

The members of the Planning Board and its consulting firm appreciate the interest and hospitality shown in recent meetings. We sincerely hope that this will continue, since it is only through complete understanding and help of the citizens that we will be able to develop a meaningful and acceptable comprehensive plan for the town.

Books loaned to public	38,243
Books loaned to schools	1,237
Total circulation for 1964	39,480

Librarian's Report

Circulation at the Derry Public Library continues to rise, with a gain of 5,629 more books being loaned during 1964 than in the previous year. Juvenile circulation has increased by 2,354 and the adult circulation had a gain of 3,296 books. The teachers have borrowed 1,273 books for the schools.

We have made 535 direct requests to the State Library, which is a gain of 161 more requests than in 1963; this has resulted in 935 books being sent to us to supplement our own collection. This service is used mainly by the students. We are glad to write to the State Library for any material or books which our readers may request.

The bookmobile had made the usual 5 visits during the year and we borrowed 1,918 books for our readers.

Our reference section has had the following additions: 11 volumes of the Dictionary of American Biography; 6 volumes of the Dictionary of American History; Atlas of American History; World Atlas; 5 volumes of the Encyclopedia of Nations; Compton's and World Book Yearbooks; New Hampshire Register, as well as several books on politics and government.

Many exhibits and displays have been shown in the Library, with special attention being given to Children's Book Week and National Book Week. Many of the elementary grades and a kindergarten have visited the library in the mornings, and there have been various organization meetings held in the building.

The Librarian was a speaker at 5 meetings and attended workshops at the University of New Hampshire, and was present at various Library meetings in this area.

We extend grateful thanks to those who have made donations of books, bookmarks and flowers; special mention is given to the Derry Garden Club for their interest and their decorations for the holidays.

To my two able assistants, Mrs. Ruth Johnson and Mrs. Mildred Ingalls, go my sincere thanks and appreciation for their efficiency and support.

As our circulation continues to increase, we again offer our full cooperation to the teachers and the general public. We shall attempt to serve our readers in the most efficient and satisfactory manner possible.

REPORT OF THE TAYLOR LIBRARY

The circulation of the Taylor Library has continued to rise during the past year. More books were loaned in 1964 than in any other year since the Library was established in 1878.

National Library Week was observed with an interesting display of gardening books, which we hope helped many people with their spring planting.

Children's Book Week in November saw many children visiting the library to see the new books, both fiction and non-fiction, bought especially for their section.

The Librarian enjoyed working with some of the Boy Scouts from Troop 129 on their reading Merit Badges. The voluntary work done by the boys in the library was greatly appreciated.

The painting of the building has been completed. The interior walls are a very attractive pastel green. The magazine room in the basement has also been painted and the shelves widened to accommodate a complete five year file. This has been a great help to our students in doing research for term papers. The "Reader's Guide" to the magazines is kept upstairs and is easily accessible.

A large window fan has been installed to keep the building more comfortable during the summer months.

The Bookmobile has called every ten weeks throughout the year. We have borrowed a total of seven hundred and thirty-seven books for our readers.

We wish to thank Mrs. Walter Harding for her annual gift of the wreath that she made for our door during the Christmas season. Our thanks also to all our patrons who have helped make the year a successful one.

The Taylor Library is open on Tuesdays from 2:00 until 5:00 and 7:00 until 9:00 and on Thursdays from 2:00 until 5:00 and 7:00 until 8:00.

Respectfully submitted,
Ruth A. Varney

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half-century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming a reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy - both industrial and recreational - is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area - 4,350,000 acres - is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

SCHOOL WARRANT

School Meeting – March 4, 1965

The State of New Hampshire

To the Inhabitants of the School District in the Town of Derry, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Grinnell School in said district on the 4th of March, 1965, at 8:00 o'clock in the afternoon to act upon the following subjects:

1. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
2. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.
3. To see if the district will vote to authorize the school board to accept, in the name of and in behalf of the school district, gifts for the use of the schools.
4. To see if the district will vote to authorize the school board to make application for and to accept on behalf of the school district any or all grants or other funds for educational purposes which may now, or hereafter, be forthcoming from the United States Government or from the State of New Hampshire.
5. To see if the district will authorize the school board to arrange for the annual audit of school accounts by the Municipal Accounting Division of the New Hampshire State Tax Commission and pass any vote relating thereto.
6. To see if the district will vote to raise and appropriate sixteen hundred, twenty-five dollars (\$1,625.00) for the purchase of land. This land is described as follows:
A parcel of land containing 52,007 square feet on the Westerly side of Hood Road and Southerly of land of the Town of Derry known as Hood School land.
7. To see if the district will approve the use of, and pass any vote relating thereto, the Sweepstakes monies to the amount of nine thousand, five hundred eighty-seven dollars and ninety-three cents (9,587.93) for replacement of boiler at Grinnell School. Replacement was declared emergency measure by the Derry School Board, State Board of Education and the Derry Municipal Budget Committee.

8. BY PETITION: To see if the district will vote to raise and appropriate a sum, not to exceed ten thousand dollars (10,000.00) for transportation of Derry students who attend Pinkerton Academy and who live a distance of more than one and one-half (1½) miles from Pinkerton Academy.

9. To see if the school district will approve school bus transportation for the pupils according to the following policy:

- a. All pupils in grades one, two and three (1-2-3) shall be entitled to school bus transportation if they reside over one (1) mile from the school to which they are assigned.
- b. All pupils in grades four through eight (4-8) shall be entitled to school bus transportation if they reside over one and one-half (1½) miles from the school to which they are assigned.
- c. All pupils in grades nine, ten, eleven and twelve (9-12) shall be entitled to school bus transportation if they reside over one and one-half (1½) miles from the school with which the District has a contract, namely Pinkerton Academy.

10. To see if the school district will vote to raise and appropriate a sum of money not to exceed five thousand dollars (\$5,000.00) for additional school bus transportation for the pupils of the school district according to the following policy:

- a. All pupils in grades one, two and three (1-2-3) shall be entitled to school bus transportation if they reside over one-half (½) mile from the school to which they are assigned.
- b. All pupils in grades four, five and six (4-5-6) shall be entitled to school bus transportation if they reside over one (1) mile from the school to which they are assigned.
- c. All pupils in grades seven, eight, nine, ten, eleven and twelve (7-8-9-10-11-12) shall be entitled to school bus transportation if they reside over one and one-half (1½) miles from the school to which they are assigned. Pinkerton Academy by virtue of District contract is designated as the assigned school for grades nine, ten, eleven and twelve.

11. To see if the district will vote to raise and appropriate in addition to the original appropriation for 1965-66 a sum of money in the amount of twelve thousand dollars (\$12,000.00) to be made available to the school district prior to July 1, 1965 for a deficiency of eight thousand dollars (\$8,000.00) caused by extra teachers and four thousand dollars (\$4,000.00) used for repairs, additional lighting, furniture, renovation of Derry Village basement, temporary partition in gym and on stage and extra transportation.

12. To see if the school district will appropriate the sum of six hundred ninety-five thousand dollars (\$695,000.00) for the acquisition of land and for the construction and the original equipping and furnishing of an elementary school, and determine whether any such appropriation shall be raised by taxation, by transfer from available funds, by borrowing, or by any combination of these methods, or take any action in relation thereto.

13. To see if the district will vote to raise and appropriate the sum of twelve thousand two hundred and fifty dollars (\$12,250.00) to pay the first interest payment on the new bond issue.

14. To see if the district will vote to authorize the School Board to withdraw and use monies and interest to the amount of four thousand, eight hundred sixty-two dollars and forty cents (\$4,862.40) presently in the hands of the Trustees of Trust Funds. This money to be used solely for building purposes as was voted by the district at the time of payment into the Capital reserve fund.

15. To see if the district will vote to convey the West Side School property, both land and building to the Town of Derry.

16. To transact any other business that may legally come before said meeting, including the appointment of legal committees.

Given under our hands at said Derry, this 16th day of February, 1965.

SCHOOL WARRANT
School Meeting – March 9, 1965

The State of New Hampshire

To the Inhabitants of the School District in the Town of Derry, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the Veterans Memorial Hall in said district on the 9th day of March 1965, at 10:00 o'clock in the forenoon, to act upon the following subjects:

By vote of the School Board, the polls will remain open from 10:00 o'clock in the forenoon until seven o'clock in the afternoon, and as much longer thereafter as the district, at the opening of the meeting may vote.

1. To choose a moderator for the ensuing year.
2. To choose a Member of the School Board for the ensuing five years.

Given under our hands at said Derry, this 19th day of February, 1965.

SCHOOL BOARD REPORT

Derry, like every school district in the state, has outgrown its facilities. The school budget has taken a sharp increase, but there are very special reasons for these increases.

Increased enrollment has necessitated more equipment, more books and supplies, an increase in faculty, and additional facilities. This, along with maintenance and repair of your present buildings, is necessary in order to keep abreast of modern education. The lower purchasing power of the dollar is just as evident in school support as in the individual cost of living.

We are very indebted to the Survey Committee for their faithful and untiring research in compounding such valuable information for future educational planning.

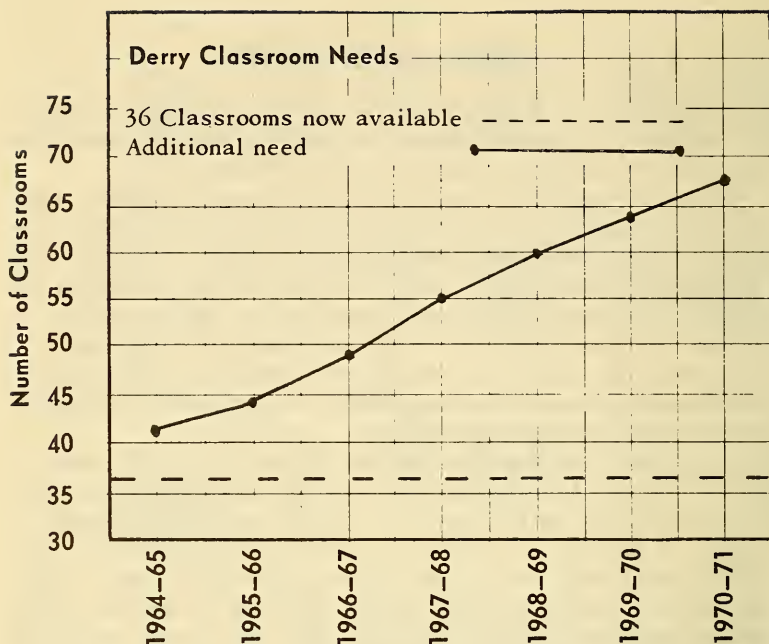

Our school building program was delayed a year in order to have a true picture of our projected educational needs to present to the public. At present our Derry School capacity by rooms is: Floyd - 8, Grinnell - 14, Hood - 12, Derry Village - 2. A total of 36 classrooms. We are now using additional space in the Episcopal Church, Grinnell stage, Grinnell auditorium, Derry Village basement, Hood music room, and the sixth grades are using 4 rooms of the Hood School. This is a total of 9 rooms.

In September of 1965 we are going to need classroom space for three additional grades, one first, one second and one fifth grade.

Additional space needed for September 1, 1966: Grade I - 1, Grade II - 1, Grade III - 1, Grade IV - 1, Grade VI - 1. A total five additional rooms. Adding these you will find that this means by September of 1966 we will need 17 additional classrooms.

The board feels sure that after the people of Derry carefully study the graph shown that there will be but one answer. There is no alternative, a new school is a must in order to educate the children who will be our next generation of Derry citizens. We must strive to give our children quality education so that they have equal opportunities with the children of other communities.

We would like to take this opportunity of telling you of some of the work that has been accomplished during the past year. At Grinnell School, gates have been installed which enables us to separate the gymnasium section of the building from the classrooms, which is very important when youth groups and organizations are using the building. The steel boiler which has worn out is being replaced with a cast-iron one, and a walkway has been cut and graveled from Crystal Avenue through to the school in anticipation of it eventually becoming a roadway.

At Hood, gates have been installed and repair work has been done to the gymnasium roof. At Floyd, one more floor was tiled during the summer, lighting of the classrooms was improved, window shades were replaced and a ceiling was installed in the remedial reading room. At the village, one floor was tiled, which completes the floor tiling at that school, and a bulkhead had to be installed because of the classroom that was added in the cellar.

In spite of the fact that we have had to spend dollars preparing these temporary classrooms with heat, lighting, etc. they are not a good situation and should not be considered a permanent solution.

We are asking for \$12,000 this year to pay a deficit incurred because of the need to hire three teachers due to increased enrollments, and also money that had to be spent in putting the bulkhead in at the Village School. You should note however that at last year's meeting we asked for a deficit appropriation of \$7,375, but through careful spending we did not have to use any of this amount.

The School Board wishes to publicly thank Mrs. Jenny Grinnell, widow of Herbert Grinnell, for whom Grinnell School is named, for her generous gift to the school. Mrs. Grinnell was a former music teacher in the school system and has always been interested

in our music program. Her generosity has been responsible for adding a beautiful spinet piano, two slide trombones, two clarinets and two trumpets to the Grinnell musical equipment.

We wish to express our grateful appreciation to Superintendent Robert Dolph and Assistant Superintendent Ira Stickney for their outstanding guidance in the educational processes and accomplishments in the past year.

American education has become a testing ground for democracy. Our democracy can be no stronger than the moral and intellectual fiber of our people. Our nation can be no richer than our teachers' minds and the opportunities made available to our pupils. Each generation must provide educational opportunities for those who come after if our great nation is to remain great and democracy is to survive. We should not lose our precious heritage because the cost seems too great. Each generation must have its opportunity to be educated in order to rediscover our heritage and democracy.

Respectfully submitted,
Anna D. Stevens, Chairman
Robert F. Perry
Helen L. Bachelder
Barbara L. Gratton
Robert J. Carbone

SUPERINTENDENT'S REPORT

To the School Board and the Citizens of Derry:

I am presenting herewith my second annual report as Superintendent of Schools in Derry. Reports from the Assistant Superintendent, Principals, Reading Consultant and Nurse will discuss in more detail the activities with which they are concerned. Statistical reports are listed separately at the end of the report.

Personnel: (New appointments - Sept. 1964)

FLOYD SCHOOL - We are most fortunate to have but one teacher change at Floyd School.

Grade 3 - Mrs. Carol Mae Jones of Derry, N. H.

HOOD SCHOOL -

Principal - Mr. Donald Day of Franklin, N. H. High School was employed to replace Mr. Leonard Littlefield who moved to the Lynnfield, Mass. school system. Mr. Day, a graduate of Plymouth State College and a Masters Degree from there, had teaching experience at Bristol High and Lancaster High. He was assistant principal of Franklin High School.

English and Reading - Mrs. Beverly Ells, a graduate of Keene State College, with teaching experience at Wilton High School, Wilton, N. H.

English and Reading - Mrs. Robert Thompson, a University of New Hampshire graduate. Transferring from Grinnell School.

Mathematics - Miss Ann Flammia, a graduate of North Adams State Teachers College, Mass., with practice teaching experience in North Adams, Mass.

Grade 6 - Miss Irene Cronin, a graduate of Mount St. Mary College, Hooksett, N.H. Miss Cronin was most recently employed in social work by the State of N. H.

Science - Miss Carol Medico, a graduate of the University of N. H., who has substituted in Derry Schools and was most recently employed in Boston.

English - Mr. Robert Blakslee, a graduate of Plymouth State College, with teaching experience in Franklin High School and Tilton-Northfield High School, Tilton, N. H.

GRINNELL SCHOOL -

Grade 4 - Miss Mary Kane of Windham, N. H., educated at Keene State College with teaching experience in Concord, Mass., was employed to take the place of Mrs. Alys Horsfal who was granted a leave of absence.

Grade 3 - Mrs. Helen Wood, a 1964 graduate of Keene State College, with practice teaching experience in Manchester.

Grade 1 - Miss Dianne Wood, a 1964 graduate of Keene State College, with practice teaching experience in Manchester.

Grade 5 - Mr. Warren Cooke, a graduate of Bridgewater State, with teaching experience in Massachusetts schools.

Grade 3 - Mrs. Judith Pendergast, a graduate of Salem State College, with teaching experience in Salem and Lynn, Mass.- and Nashua, N. H. Mrs. Pendergast's third grade is located in the Hood School temporarily.

Grade 4 - Mrs. Daisy Day, a graduate of Plymouth State College, with teaching experience in Concord, Groton and Bristol, N. H., was hired because of the heavy increase in 4th grade pupils. This class is located on the Grinnell gym floor.

Grade 1 - Mrs. Eleanor Graham, a graduate of Keene State College, with teaching experience in Concord, N. H. and Conn., returned to enable us to lower the Grade One size. This grade is located on the Grinnell stage.

VILLAGE SCHOOL -

Grades 4 and 5 - Mr. Robert Brown, a graduate of Boston University, was employed to take the increased class size in Grades 4 and 5. This class is housed in the renovated basement.

Housing

My remarks in last year's report need only to be restated and reemphasized. The need for classroom space is critical. The School Survey Committee under the chairmanship of Robert Carbone included the following people:

James LeMahieu	Leo Pieroni	Raymond Buckley
Ruth Clay	Barbara Jacobson	Ernest Metts
Leander Burdick	Barbara Schurman	Donald Ball
Roy Feinauer	Donald Randall	Wilton Geissenhainer

A long and exhaustive study has been made and much data collected. The presentation of this data in graph and chart form has been made to several PTA's and Civic groups. The conclusions to me are quite obvious and I am sure that once you see the information you will not be able to deny the need.

I believe that a new school is indicated in South Derry and that the future will see a four room addition to Grinnell, expansion of classrooms at Hood and a new school in East or North Derry. This long range program will take place because of the rapid population growth in Derry over the next few years.

We have a 6-2-4 system in Derry, that is, Grades one through six should be housed in schools designed for that purpose, and Grades seven and eight assigned to the Junior High School in which the curriculum reflects the needs of this age group. The four high school years are taken at Pinkerton Academy thus completing the 6-2-4 system.

The Hood Junior High is very much hampered by lack of room. We currently have one grade 3 and four grade 6 taking valuable space from the 7th and 8th grades; consequently library space and facilities, expanded Home Economics, Physical Education, Music and Art classrooms, and a Foreign Language Lab are missing. These valuable areas, when missing, handicap our students in their preparation just before high school.

The housing outlook is grim when one considers that by September of 1965, just five months away, our students will need five classrooms that we do not have.

The use of the Grinnell gym to house two classes, 1 grade one and 1 grade four, hampered our Physical Education program, and proved to be inadequate for classroom use. Many problems, including heat and light, as well as acoustics and inconveniences, pointed out the difficulties when makeshift arrangements are used for educational classrooms.

CLASSROOM NEED PROJECTIONS:

- 1 Classroom housed temporarily at the Episcopal Church
- 1 Grade 3 in a Junior High classroom
- 1 Grade 4 in the Grinnell Gym
- 1 Grade 1 on the Grinnell Stage

- 1 Grade 4-5 in the Basement at the Village
- 4 Grade 6 at the Junior High
- 1 Grade 1 additional need **Sept. 1965**
- 1 Grade 2 additional need **Sept. 1965**
- 1 Grade 5 additional need **Sept. 1965**

- 1 Grade 1 additional need **Sept. 1966**
- 1 Grade 2 additional need **Sept. 1966**
- 1 Grade 3 additional need **Sept. 1966**
- 1 Grade 4 additional need **Sept. 1966**
- 1 Grade 6 additional need **Sept. 1966**

 17 Rooms Total

This brings the increasing numbers of students to approximately 500 and 17 classrooms by the time a school could be built (Sept. 1966) if voted at the March 4, 1965 meeting.

Do not let your children down, their education is most important. Provide them with adequate facilities.

Curriculum

Our school system has benefited from new textbooks, maps and globes, emphasis on skill subjects (Reading, Writing and Arithmetic) and we still have a considerable way to go to achieve **Quality** education. Our town spends less than the state average per pupil (Derry \$323.74) (State Average \$328) in elementary grades and also in the junior high (Derry \$375) (State Average \$438).

The School Board sponsored a course in Modern Math, which was taught by Miss Debra Stone of the University of New Hampshire staff. This course, for 3 college credits, was held late afternoons once a week at the Hood School for the fall semester.

The introduction of a Reading program into the Junior High area was accomplished and this should prove to be of great value in strengthening our curriculum.

The Industrial Arts program was strengthened by the addition of sheet metal work so that we now offer woodworking, mechanical drawing and sheet metal work. Next year we hope to add basic electricity.

The French and Algebra programs are working very well and a check of our pupils at Pinkerton shows that the Math and Foreign Language foundation at Hood is excellent.

Appreciation

I wish to extend grateful thanks for all of the help, guidance and inspiration given by local civic clubs, organizations and individuals. No one stands so tall as when he stoops to help a child.

Many thanks to the School Board, Building Survey Committee and School Building Committee for their combined efforts and goals in promoting better education for all children. Their work

accomplished during long payless hours needs to be recognized by the loyal support of all citizens.

I also wish to extend my appreciation to all teachers, principals, assistant principals, music supervisors, school nurse, school secretaries and custodians, for their help in our common cause "The Good Education of Derry Youth".

Respectfully submitted,
Robert W. Dolph, Superintendent

TEACHERS UNDER APPOINTMENT

REPORT OF THE ASSISTANT SUPERINTENDENT

It is my pleasure to present my second annual report to the Citizens of Derry for the year ending June 30, 1964.

To follow up my previous report and give an indication of the progress in areas mentioned, I present the following:

The School Building Survey Committee has done an enormous amount of work and has given the new School Building Committee data to work with and this committee in turn has devoted hours and effort to improve our educational set up.

The sixth grade remains at Hood as well as the Special Class which is housed in the Music Room at Hood. It appears that all of these spaces will be needed for the next year 1964-65.

Plans are in progress to extend the reading program through the eighth grade and to continue the expansion of the Audio-

Lingual Method of teaching French I at the seventh and eighth grade levels. This has been accomplished to the point that our students, if recommended, and having proper grades, will be allowed credit for French I and start French II at Pinkerton Academy in Grade 9.

Algebra 8 is to be treated in a like manner and students as ninth graders will take Plane Geometry at Pinkerton.

For those students not taking Algebra in grade eight and those in grade seven, we are presently moving toward Modern Math for both. Plans are approved for an extension course for teachers in Modern Math to be given in the fall of 1964. As soon as this is accomplished we hope to move more rapidly into the program.

The discussion of Library needs as stated in last year's report is still a great need. Space does not allow for a good situation although some reference materials have been added.

The cost of education is constantly growing and, to make matters worse, our school population also grows. The solution to this problem is or should be of concern to all citizens. The answer is not less education but a revision of thinking in terms of making better our offerings and presentation. This is a terrific task and needs the cooperation of every person in Derry.

I wish to take this opportunity to thank the people of Derry, the School Board, Mr. Dolph and members of the Faculty and Staff for making this another successful and pleasant year.

Respectfully submitted,

Ira A. Stickney

Assistant Superintendent

REPORT OF THE GRINNELL ELEMENTARY SCHOOL

To the Derry School Board and the Superintendent of Schools:

The 1963-64 school year began with an enrollment of 409 pupils. The enrollment at this time last year was 473. The sixth grade classes were transferred to Hood School and this alleviated our overcrowded conditions to a great degree.

There are six new teachers on the staff this year. I have been fortunate to have such a willing and able group of educators who are most cooperative and dedicated. The Special Class, under the direction of Miss Linda Gradual, was inaugurated this year and is housed at Hood School. This class provides the specialized individual teaching essential for those children assigned to it.

Mrs. Helen Higgins is our Reading Consultant. Her interest in the reading program extends from the child to the teacher in that she works with groups of children in remedial work and observes and consults with teachers on the progress of the reading program.

Since Mrs. Helen Riddervold has assumed the position of part-time secretary and has relieved me of much of the detail and paper work involved in administering so large a building, I now have the opportunity to spend a great deal more time on observation and supervision in the classroom.

I am pleased to announce the generous gifts of a spinet piano and six instruments from Mrs. Jenny Grinnell. Her devotion to music and her continued interest in the welfare of Derry children is known by all.

I wish to thank the PTA for their assistance in procuring a filmstrip projector, previewer, cabinet and filmstrips. Their cooperation in all matters is appreciated.

The Grinnell School share of the Pageant Fund has been directed towards the replacement of our 16mm sound projector, an additional record player, an overhead projector, and a listening box for individual or small group work with the record player or tape recorder.

The Educational TV Programs are viewed on Channel 11 and continue to be a part of our curriculum. All educational programs are viewed weekly and are accompanied by study guides. Programs viewed are as follows:

Grades 1-3	Primary Music and Phonics
Grades 1-4	Children's Literature
Grade 3	Science
Grade 4	New Hampshire (Social Studies)
Grade 5	Natural Sciences

I wish to take the opportunity to thank Mr. Henry Barrieau, owner of Kan's Bus Lines, and his drivers, for their assistance; Mr. Gerald Cox, Recreational Director, for his cooperation; and the Highway Department.

Finally I would like to express my sincere thanks to Mr. Robert Dolph, Superintendent; Mr. Ira Stickney, Assistant Superintendent; the Administration Staff; the Teaching Staff; Mrs. Claire Eddy, School Nurse; Mrs. Helen Riddervold; the School Custodians; and the Cafeteria Staff for their most helpful cooperation.

Respectfully submitted,
Anastas S. Christo
Principal

REPORT OF THE FLOYD SCHOOL

To the School Board and the Superintendent:

The re-opening of school for the 1963-64 school year brought four new members to the staff of the Floyd School. Miss Dawn Clancy, Grade 4; Mrs. Gertrude Smith returned to Grade 3; Miss Ann Doughty to Grade 2; and Mrs. Barbara Hill returning to Grade 1. In October Miss Eleanor Charette joined the staff, filling the vacancy left by the death of Miss Mavis Rutledge.

Those teachers who had the privilege of being at Floyd School during Miss Rutledge's tenure will long remember her indomitable spirit, loyalty to her profession and unswerving devotion to her work.

The school plant, in line with the long range plan for renovation and repair, had new paint in the halls and basement. White paint on the plastered walls of the halls makes them appear larger and lighter. A first grade room, chosen as the first room to be renovated had been painted in two shades of green, and with tan tile on the floor was most attractive.

Much needed storage closets had been built in the cafeteria and boys' basement. The closet in the boys' basement formed the partition for a room to be used as a combination library and classroom. Tall bookcases at each end of the room furnish space for text and reference books, making them readily available to all the staff. Movable bookcases with sliding doors had been built and placed in the first three grades.

Loam brought in and dumped on the front grounds was raked over during the Fall and a new lawn was started. Due to the dryness it has not grown too well.

During the school year the library has been used by Mrs. Higgins, Reading Consultant, and Mr. Tgettis, Music Supervisor.

New texts were placed as follows; revised editions of basic reading series in second grades; Silver Burdette's revised Modern Arithmetic Series, Grades one and two; and new basic texts in Science, Social Studies and Music in all four grades. These books were displayed at the Open House in November and May.

A tape recorder, additional reels of tape, and four sets of earphones with a jack were received from the PTA. The tape and earphones were made available through the efforts of Mr. Osborn Stone.

The School was given a set of History Encyclopedias by the local branch of the Super-Save Stores.

Reading chairs were purchased for the third grades.

The classes have participated in Educational TV programs over Channel 11. The fourth grades visited Concord as a part of the fourth grade History program. The first three grades

visited the Benson Wild Animal Farm. The school also participated in the annual Evening of Music.

As in the past the Floyd School PTA has contributed to the success of many of the school projects.

I would like to express my sincere appreciation for the cooperation and assistance given me, in so many ways, by the administrative staff; supervisors; school department personnel; Mr. Barrieau and his drivers; and the Floyd School staff.

May I remind you that Floyd School will be entering its fiftieth year of service to Derry when school reopens in Sept. 1964.

Respectfully submitted,

Martha C. Moore

Principal

REPORT OF THE HOOD MEMORIAL SCHOOL

To the Derry School Board and the Superintendent of Schools:

In September 1963 Hood School welcomed four sixth grades and the Special Class. These classes were necessitated by lack of room in other schools.

The school year 1963 - 1964 saw the following changes in curriculum:

1. Aural-Oral methods of teaching French were introduced along with added equipment to make this possible. The need for this change was speeded up by the fact that Pinkerton at that time converted their Language classes to the same method and this made our change a necessity.

Presently, Pinkerton Academy has agreed to take as French II students those from Hood who have successfully completed ALM French in grades 7 and 8, and have the recommendation of their teacher and Principal.

2. The Algebra course offered at Hood is a fully acceptable course of Algebra I on a high school level.

Again in agreement with Pinkerton Academy, our eighth grade graduates who have done well in Algebra I and have the recommendation of the teacher and principal are allowed credit for Algebra I and may take Plane Geometry at Pinkerton as Freshmen.

3. The Industrial Arts area was changed to some extent to better prepare the student for the use of facilities. Drafting was introduced as a preliminary step to work in the shop. It is taught in conjunction with the project and certainly increases understanding.

Rush seat weaving was also added to the Industrial Arts offering.

In closing, all of the help given to Hood School during the year was gratefully appreciated.

Respectfully submitted,
Donald Day
Principal

REPORT OF THE DERRY VILLAGE SCHOOL

To the Derry School Board and the Superintendent of Schools:

Each year some repairs or improvements are made at the Village School. This year the lunchroom was newly painted.

Our grades were divided as Grade 1-2, Mrs. Blunt; and Grade 3-4, Mrs. Follansbee. This was due to our increased enrollment.

The PTO is continually working for the benefit of the children and the teachers. Each year they take charge of the refreshments and the serving of them for the holiday parties. They furnish transportation and pay the fare to the Museum of Science for the pupils who are patrol leaders throughout the year. If the teachers purchase any material at the State Convention they reimburse the teachers for it.

We have excellent books and materials to work with, and we are still having several lessons a week on T.V.

Respectfully submitted,
Alice Follansbee
Principal

REPORT OF THE READING PROGRAM

The responsibility of reading instruction has until recently been assigned to the elementary school. Now, with full acceptance that reading is taught in all grades from the first grade through college, it is most important to clarify the responsibilities of a reading consultant in the Town of Derry. This past year has been a year in which reading instruction has been under survey and study.

A survey of the reading program from Grade 2 through Grade 6 was completed. This was administered in order that strengths and weaknesses in reading at the elementary grade levels could be identified. All children were initially tested with a standardized test, the Gates Basic Reading Test. The results of the reading scores were compared with the results of the Stanford Achievement Tests. An evaluation of the present program was

made understandable. Preparation for a developmental program and ground work for aims of such a program was begun. The results of this study provided evidence and purpose for grouping; organization of groups for remedial reading and corrective reading, special class learning and methods of teaching reading.

Inservice work with teachers was indicated. This study has included group meetings of teachers at all elementary levels. Substitute teachers were invited to attend in order that they, too, understand the progress and importance of a sequential reading program. These meetings were carried on as a workshop. Goals and understandings were made realistic to our "teachers". A competent teacher is quick to accept suggestions and make changes.

These workshops had a basic plan which included the fact that the administration does believe in the basal reading program, that the administration does subscribe to the "sight and sound" method of teaching reading. In an overall picture this included:

1. the purpose of the basal reader
2. study skills
3. group organizations
4. techniques
5. how to help the slow learning child

Through the survey, the workshop, group conferences and individual conferences, a study of available materials and diagnostic procedures, the need of a guide for teaching of phonics was felt. This guide was compiled and given to teachers of grades 3 through 6.

During the month of January inservice meetings were continued on phonics again with teachers from the intermediate grades, that included an explanation of phonetic skills, its place in the grade level and the effectiveness of the skill in use.

An analysis of phonic work at second and third grade level took place during the months of January and February. After compiling these results for second grade teachers it was concluded that at this level and third grade level a sequential and comprehensive program of phonics is necessary in order to maintain the fundamentals and reading background of our children.

During May the children who were under grade level in the first testing period were retested. Evaluations were completed and recommendations were given for individuals. Graphs were prepared and presented to the administration and school board in order that weaknesses and growth can be identified in the present reading area.

Demonstration reading lessons have been given at **all levels** for participating teachers in the classroom.

By scheduling frequent conferences with principals and teachers, progress can be followed which includes the working of the inservice program, the report of pupil progress, survey of textbooks and textbook use, suggestions for certain changes in

the reading program and suggestions for individual children.

Through this interpretation of reading scores, through this survey, and through the evaluation of the present program a definite need to continue a developmental reading program at Junior High level is evident; one which might be termed a three-dimensional program.

1. one with good literary quality
2. a developed and maintained program of reading skills, including:
 - a. mechanics of word recognition
 - b. advanced comprehension and interpretation
 - c. a **complete how-to-study program.**

Early in the school year the WISC and Stanford Binet individual tests were administered to students with individual problems, and those children being screened for the Special Class.

Small groups of children meet for remedial work. These children meet with the reading consultant for at least three periods each week. The personal relationship with the remedial teacher sometimes helps a child to overcome his emotional problem as well as his reading difficulties. With the increasing number of children in Derry it is hoped that plans will be provided for an additional person in this area.

A phonic workshop was requested by the staff. This was planned as part of the inservice training during the summer. Plans were made early in the spring to initiate a pilot program from the American Book Company at two different grade levels. A reading clinic was initiated for summer study for children who needed corrective help in reading, children who were slow learners, the average learner, and the advanced student.

This has been a rewarding year as well as one of challenge. Again, it is my pleasure to be associated with the administration in the Town of Derry, Mr. Robert Dolph, Mr. Ira Stickney; the Principals: Mrs. Alice Follansbee, Mrs. Martha Moore, Mr. Anastas S. Christo, Mr. Donald Day, and the teaching staff.

Respectfully submitted,
Helen T. Higgins
Reading Consultant

REPORT OF THE SCHOOL NURSE

In 1957, the Derry School Board decided to have their own health services due to the increased Supervisory Union No. 10 enrollment. In seven years the Derry pupil enrollment has crept up gradually. This year our enrollment in grades 1-8 reached an all time high with a sharp upward trend projected for the next two years.

The inclusion of St. Thomas Aquinas in the health service program as of April, added approximately 350 more students to the supervision of the nurse-teacher. Approximately 1450 pupils are being supervised by one person. This is about 550 more students than is recommended by the State Nurse-Teacher Organization. You must realize that it is an impossibility for one to give adequate health supervision in all areas with such a case load. Our thinking must not only be in providing classroom teachers for our students, but in adding extra health personnel to help relieve the situation.

CLINICS: In May, pre-school registration was held at Grinnell School. Due to the increased enrollment the clinic was held for 3 days. 157 children registered. In 1963, 96 registered.

During the months of October, November and February, the dental clinic sponsored by the Floyd and Grinnell PTA was held. Dr. R. Banister, Derry, and Dr. A. Tannenbaum, Laconia, were the participating dentists. 97 fillings were completed and 83 children, grades 1 through 5, were examined.

Dental Health Week in February is observed in all schools, grades 1-6, in conjunction with our State Dental Health Program. Last year 40% of the dental cards were returned to the schools and this year 48% were returned. This represents the percentage of dental care received by the pupils.

The Tuberculosis Patch Testing program was held in May. All children in grades 1-3-5-8 had the opportunity to be tested. 628 patch tests were done, 5 positive reactions were noted. Chest X-rays were taken in June. 63 adults and children attended the clinic.

From September to June, 9 children received therapy at the Child Guidance Center in Concord. Twelve children were re-evaluated at the Manchester Rehabilitation Speech Center. From October through June the students were tested for visual and hearing difficulties. It was a pleasure working with the new modern vision tester that the Lions Club donated to our town. The model of the eye and ear which were purchased by the school has proven to be a valuable teaching aid.

A total of 343 visits were made to the schools and 226 families were contacted during the year.

COMMUNICABLE DISEASES

German Measles	137	Impetigo	28
Measles	12	Ringworm	50
Scarlet Fever	25	Pediculosis	3
Mumps		24	

My sincere thanks to the administrative staff, all school personnel, and our local organizations who are always willing to give their assistance when called upon.

Respectfully submitted,
 Claire L. Eddy
 School Nurse-Teacher

ENROLLMENT IN SCHOOLS

The following tabulation shows the enrollment in the Derry schools as of September 18, 1964.

Grade	1	2	3	4	5	6	7	8	Spec.	Tot.
Floyd	68	54	60	44						226
Grinnell	88	74	72	77	109				11	431
Village	16	16	23	13	14					82
Hood						122	127	119		368
Total	172	144	155	134	123	122	127	119	11	1107

ENROLLMENT IN HIGH SCHOOL

1964-1965

The following tabulation shows the number of high school pupils by grades and the tuition rate.

	9th	10th	11th	12th	Total	Rate
Pinkerton Academy	149	122	123	115	509	\$470

HOOD SCHOOL GRADUATION

On Wednesday, June 17, 1964, graduation exercises were held for the eighth grade at Hood Memorial School. The following is a list of those who received diplomas:

Franklin Allgeyer	John Hazen	G. Eric Peterson
Susan Bangs	Mark Huson	Alfred Pierce
Ronald Banks	Vickijane Hutchinson	Elaine Pingree
David Barlow	Lana Irish	Larry powers
John Beckett	Ronald Ivon	Kathleen Purdy
Jack Bernier	Paul Jenkins	Mary Putnam
Albert Blackler	Earl Jordan	Walter Ramsden
Ann Bland	Cynthia Joyce	Brenda Leighton
Curtis Boles	Michael Kirkpatrick	Patricia Richardson
Robert Bonnar	John Kisielewski	Diane Rider
Carleton Boucher	Wayne Knope, Jr.	Dana Robie
Gary Boyle	Beverly Knowlton	Eugene Saunders
Laurin Buckley	Arthur LaBelle	Richard Schofield
Christine Burgoyne	Martha Lapoint	Donald Seavey
Richard Caplette	Michael Lee	Kenneth Smith
George Chase	Peter Locke	Owen Smith
Charles Clark, III	Patricia Low	Cynthia Stevens
Pamela Cournoyer	Walter MacLeod	Janet Swanson
Louise Dane	Joan Mannarini	Carl Sweezy
Patricia DeGroot	Kathleen Martel	Ethel Tsetsilas
Roy Dexter	Cynthia McDonald	George Varney
James Dickey	Joel McKay	Melissa Varney
Susan Dutra	Penelope Mills	Judith Viglione
Ralph Estes	James Mitchell	Robert Ward
David Folsom	Carol Moher	Bonita Watts
Linda Gannon	Basil Morin, Jr.	Candice Watts
Peter Gardner	Brenda Morrill	Darlene Watts
Patricia Goodwin	Michael Morin	William Webster
Bruce Greico	patricia Murray	Sally Wentworth
Robert Guilbault	Ronald Myatt, jr.	Richard Wheeler
Virginia Hamblett	Karleen Myette	Barbara Wilks
John Hamilton	Rory O'Connor	Marilyn Willey
Charlene Hartman	Daniel Olson	Lawrence Wise
Mary Hastie	Darlene Owen	Bonnie Woodbury
Marsha Hatch	Leander Papp	Michael Yanuszewski
Christine Hatfield	Lynn Pendak	Jennifer Young
		Susan Young

SCHOOL SURVEY COMMITTEE REPORT

The Survey Committee was appointed in March 1964 by the Derry School Board to study the present school facilities, the educational structure in the schools, and to determine the town population growth and its effect upon school population. The final report of the committee has been submitted to the School Board. The Committee's findings have, in many areas, been comprehensive enough to aid the School Board in directing future planning. Some areas originally outlined for study by the Committee have not been thoroughly investigated, and these areas will require additional future study. This news release is necessarily brief on its coverage of the committee report. Copies of the full report will be in the Derry Libraries for those who wish a more detailed examination of the survey study.

The Committee members were assigned to study Groups which concentrated on areas of the Derry School System. These areas were defined as follows: 1. Lay Community – investigation of the relationship between the community and school; 2. Academic School Curriculum – study of the educational aspect of the school system; 3. School Facilities – evaluation of the physical condition of our present schools. An Advisory Group, consisting of school principals, presented the educator's viewpoint on design of new facilities and possible modification to existing schools.

The Lay Community Study Group concentrated mainly in the area of population analysis. The schools were overcrowded and conditions appeared to be getting worse which focused attention on questions centering around population. The annual school census was taken and expanded to include the entire town. With the aid of many adults and Pinkerton Academy students, the census was successful with a return of eighty-one percent of all Derry residences. The census sheets were compiled and extended to include estimates for those people missed. Estimates of future growth have been projected from this census. The following summarizes some of the more important statistics: The population as of June 1964 was 8317 compared with 6976 reported by the Federal Census of 1960. It is estimated that the Derry population will be 10,385 by 1971. The growth of population has not been uniform within age groups. The age group of over 50 years has decreased in total numbers while the age group between 20 and 50 years old has accounted for the increase in adult population. More specifically the adults, age 20 to 40 years, have increased by over 500. An increase in school age population has also occurred and now accounts for 38% of the total Derry population. The number of

school age children (0-18) has increased 660 since 1960 and is estimated to increase another 747 by 1970. This increase will result in an addition of 565 pupils to our elementary and jr. high school enrollments which are already overcrowded. A detailed breakdown shows a possible increase of 462 pupils in grades one through six and 103 in grades seven and eight. In terms of elementary educational facilities (grades 1-8) this means the addition of 24 to 26 permanent classrooms (considering nine of the present elementary classrooms are temporary in nature). The four rooms now occupied by the sixth grade at Hood Jr. High School will be required to meet the increased enrollment of seventh and eighth graders.

General information obtained from the Census concerning attitudes and facts of the Derry population shows the following: 82% of the households indicated a desire to remain here in Derry, 73% own their own dwelling; 16½% of all residences are under six years old; 42% favored a public supported kindergarten; while 19.1% did not, and 28.4% of the census sheets had no answer marked on this question.

The report on the Academic School Community encompassed areas of curriculum, room usage, teacher load, and subjects taught. The educational system is based upon a policy of facility division as follows; grades 1-6; 7-8; and 9-12. In effect this 6-2-4 policy states that an elementary school should, wherever possible, contain grades one through six and so on for junior high and high school. The elementary system is built around a classroom being a nearly complete academic unit while in junior high room usage is specialized and the student moves from room to room as he changes subjects. The present school system derives continuity of curriculum through common textbook policy. The subject content and emphasis remains within the teacher's and principal's control. Coordination of curriculum between Hood Jr. High School and Pinkerton Academy exists in French and Algebra courses. Active coordination between the various elementary schools and the junior high school was not apparent. It was felt in general that the coordination and continuity of curriculum could be increased both within the individual school and between schools without restricting the individual teacher freedom that our system of education requires. If the guidance and direction by the Superintendent's and Principal's office were increased it was felt that the educational system would benefit from both a student and teacher standpoint.

The classroom utilization showed overcrowded conditions and maximum use of all available space. In addition to the regular classroom space, the Village School basement, Grinnell

gym, Hood music room and library, and the Episcopal Church basement are being used as classrooms. In all schools, rooms are being used for purposes other than was originally intended due to the classroom shortage. As a result music programs, library facilities and physical education programs are lacking adequate space if not totally missing from the educational system.

The teacher load was not evaluated due to lack of study time and the difficulty of the subjective nature of evaluation ratings. The subjects taught were compiled and presented by general subject heading where available time allocations to these subjects were given in the text of the report.

The existing facilities group reported on the general condition of our present school buildings; condition of the rooms, heating plant, electrical system, plumbing, ventilation and other facilities, in tabular form. Again the overcrowded pupil condition was found to tax the physical plants of our schools. The findings of this group are reflected in the Survey Committee Recommendations.

The Advisory Group consisting of the school principals, submitted reports on desirable features to be incorporated in new facilities and useful changes in existing facilities to make them more functional. Their reports were made having knowledge of recommendations of the teachers in our school system. The detail of room design and classroom features along with school facility layout and requirements will be of great value in the planning of new facilities.

The School Survey Committee recommendations are presented below; they are a direct outgrowth of the studies made by the several sub-committees:

1. It is recommended that the School Board take proper action to provide adequate facilities to alleviate the present overcrowded conditions and provide room for the estimated increase in the number of school children expected by 1970 as shown by the census projections.

2. It is recommended that one of the four following proposals be considered as a solution to alleviate the immediate (Sept. 1965) classroom requirements. This is contingent on the economic feasibility of each solution.

- a. Permanent addition to the Village School with at least a four room addition and an all purpose room. This will make the school fit a 6-2-4 system.

- b. Temporary reactivation of the West Side School.

- c. Temporary leasing of available space in town.

- d. Temporary leasing of prefabricated classrooms.

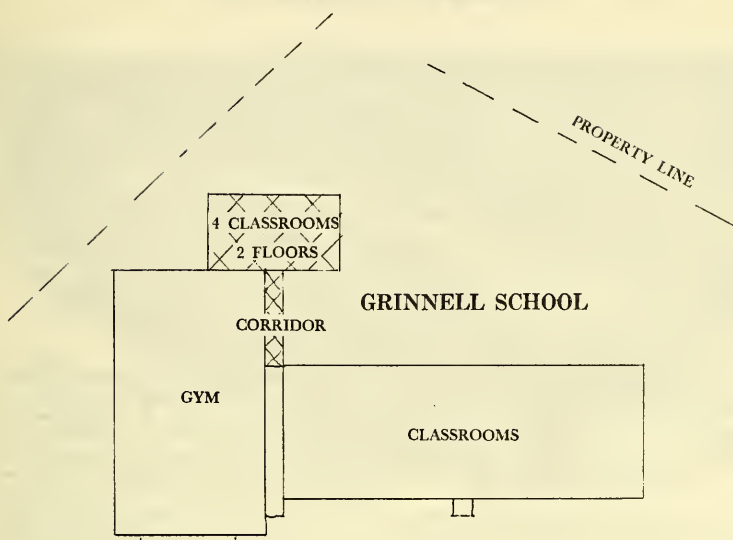

3. It is recommended that the Junior High School
 - a. be returned physically to the original designed use.
 - b. a study of facilities and course programs be conducted to improve the accrediting of the school.
4. It is recommended that Grinnell Elementary School be returned to original designed use providing adequate areas for supplementary programs and activities.
5. It is recommended that Floyd School
 - a. have a careful renovation program continued and scheduled (by time and monies) to bring the physical plant (lighting, ventilation, electrical, and fire protection) up to standard and preserve the building for future use.
 - b. be provided adequate room for support programs (reading, library, etc.) convert two classrooms leaving a six classroom capacity consistent with school system policy of 6-2-4 grade division.
6. It is recommended that any new building project be accompanied by a consistency of membership on the Building Committee to the extent that present School Board Members, regardless of expiration of term, remain on the Building Committee until the building is completed and that a QUALIFIED 'clerk of the works' be hired to oversee actual construction on a full-time basis to insure that proper building practices and materials are used. It is felt that the insurance provided by adequate and qualified direct supervision of construction is worth the monies involved.
7. It is recommended that a fall-out shelter be considered in any new school. This is to be an approved Civil Defense Shelter.

Robert Carbone, Chairman

Summary of Investigation for School Housing and School Board Justification for Proposed Needs

The present two-room school will be kept in use and maintained for some time to come.

The Grinnell School area was investigated as to the feasibility of constructing an addition by State Department of Education personnel as well as an architectural firm.

The state board's policy according to site would indicate that additional land must be obtained as the combined land purchases from Curtis-Pillsbury-Standard Sash-Sole-Stevens amounts to approximately six and one-quarter ($6\frac{1}{4}$) acres. This could be accomplished by the school board's plan to allocate part of the Buckley Field land area to Grinnell School and the ultimate purchase of a portion of Hood pasture land beside the Hood School for Hood School future expansion.

— FOUR ROOM ADDITION —

The architect has made a Survey of a possible solution for constructing a four-classroom addition to Grinnell. The solution for classrooms in the rear of the school is probably the best because the "Georgian" design would not have to be followed, thereby saving considerable money.

The approximate cost would be about \$20,000 per room without complications such as need of another boiler, ledge, land purchase, etc. Therefore four classrooms fully equipped would cost in the area of \$80,000 for construction costs.

The existing cafeteria and gymnasium could handle the additional pupil load but some improvements would have to be made to the playground area.

— NOT ENOUGH —

The plan to add four rooms to Grinnell is a good one and was considered by the school board for a future proposal. The four room addition is needed but would not be enough construction to provide for the total need.

The Floyd School will continue to be used and a yearly renovation and maintenance schedule will help keep it liveable. The playground area is much too small but the topography will not allow expansion of building or playground.

The Hood School can be added to and the long range plan of the School Board is to acquire additional land and to construct an addition to the Junior High School. This move will come about before 1970.

All of the possible solutions have been dealt with in a most serious manner and the best possible solution as proposed by the school board is to build a new eighteen room school in the south-western part of Derry, as the survey committee indicates the greatest growth area is there now.

The school board's long range construction plans are:

1. New school, 18 rooms - southwest Derry
2. Addition of 4 rooms - Grinnell School
3. New school, 18 rooms - Derry Village - East Derry area.
4. Addition to Hood Junior High

Summary of Investigation for School Housing and School Board Justification for Proposed Needs

The Derry Village school area was investigated as to the feasibility of constructing an addition. Mr. Damon Russell, of the State Department of Education, viewed the site and commented as to the inadequacy of the site. The policy for school construction sites is:

1. Five acres for the original site
2. One acre for each 100 pupils

Using this formula it appears that additional acreage would have to be acquired as a six-room elementary school, having a student capacity of 180 pupils, would need the basic five acres plus an additional two, since the enrollment capacity approaches 200. The total acreage would be seven acres.

— SECURED ARCHITECT —

The school board next sought the services of a professional architect. The architect made a visit to the site and inspected it in relation to the construction

of an addition. He reported that additional land would have to be purchased but even then the project would not be feasible as it would be all but an impossibility to add to the existing building. The architect advised the board that it would cost considerably more to add to the existing two-room school than to go another location and build a six-room school. The board, after viewing the school survey report and the recommendations of the architect, have decided that according to growth areas Derry Village and East Derry would in all probability be the site area for the next new school to be constructed, probably an area which is close to the East Derry—Derry Village heaviest growth area. A new school in this area should provide space for health service, library, multi-purpose area including eating facilities and a teachers' room. This would carry out the school board's policy of providing EQUAL services and facilities in all schools.

PROPOSED ELEMENTARY SCHOOL

Derry, New Hampshire

DESCRIPTION:

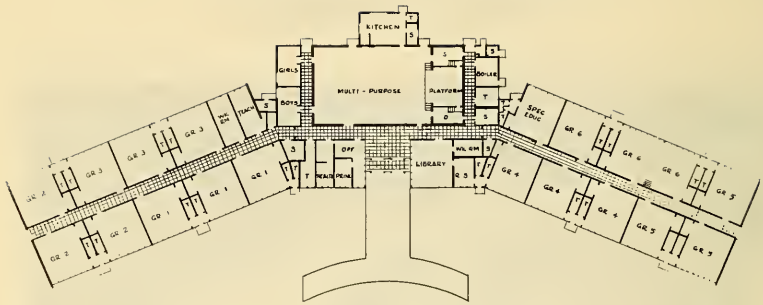

Facilities Provided:

18 classrooms; special education classroom; library; library work room; remedial services room; administrative suite; health room; teachers' work room; teachers' room; multi-purpose room; with stage, dressing room and storage room; boys and girls locker rooms; men and women public toilets; boiler room; incinerator room; custodial services rooms; storage rooms.

The above facilities will accommodate 600 students in grades 1 through 6. The multi-purpose room will seat 600 as an auditorium. In-wall fold up dining tables and benches - will be installed in walls of multi-purpose room for a 300 seat cafeteria. Each pair of classrooms will exit to the outdoor play areas through a foyer which also serves boys and girls toilet rooms. The above school is fire-proof throughout and will have a two hour fire rating.

CONSTRUCTION DATA:

Concrete foundations; concrete floor slabs; brick and concrete block exterior walls; concrete block interior partitions; vinyl and ceramic tile wall coverings; vinyl asbestos, ceramic and quarry tile floor finishes; acoustical fire-guard ceilings; poured-in-place gypsum roof slab on steel joists; 25 year tar and gravel roof; panel curtain walls and windows; aluminum entrances; zoned control heating system; mechanical ventilation; fluorescent and incandescent lighting.

DIVISION OF MUNICIPAL ACCOUNTING

State Tax Commission
Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

September 8, 1964

The School Board
Derry Cooperative School District
Derry, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Derry Cooperative School District for the fiscal year ended June 30, 1964, which was made by this Division in accordance with your request. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

FINANCIAL STATEMENTS

Comparative Balance Sheets as of June 30, 1963 and June 30, 1964, are presented in Exhibit A. As indicated therein, the Net Debt decreased by \$31,645.46 during the fiscal year ended June 30, 1964.

An analysis of the change in financial condition of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

Decrease in Net Debt	
Bonds Paid	\$15,000.00
Notes Paid	2,500.00
Net Budget Surplus	6,770.46
Deficiency Appropriation for 1963-64	7,375.00
	\$31,645.46

Comparative Statements of Appropriations and Expenditures, estimated and actual revenues for the fiscal year ended June 30, 1964, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a net unexpended balance of appropriations of \$234.50, plus a revenue surplus of \$6,535.96, resulted in a net budget surplus of \$6,770.46.

A summary statement of receipts and expenditures for the fiscal year ended June 30, 1964, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of June 30, 1964, is indicated in Exhibit F.

A statement of the School Lunch Account for the fiscal year ended June 30, 1964 is contained in Exhibit G.

A statement of the outstanding long term indebtedness of the School District as of June 30, 1964, showing annual debt service requirements, is presented in Exhibit H.

A statement of the School Tax Account with the Town of Derry is included in Exhibit I. As indicated therein, as of June 30, 1964, the School District had received from the Town the total amount of the 1963-64 School Tax of \$571,483.93, plus a prepayment on account of the 1964-65 tax of \$7,375.00. This prepayment represented a deficiency appropriation for the year 1963-64 of like amount which was made at the annual meeting in March 1964.

GENERAL COMMENTS

The current financial condition of the School District changed from a current deficit (excess of current liabilities over total assets) of \$6,081.42, to a current surplus (excess of total assets over current liabilities) of \$8,064.04 during the fiscal year ended June 30, 1964, as shown by the following statement:

	June 30, 1963	June 30, 1964
Total Assets	\$ 3,949.63	\$ 8,064.04
Current Liabilities	10,031.05	0
Current (Deficit) - Surplus	(\$ 6,081.42)	\$ 8,064.04

The provisions of Chapter 184 of the Laws of 1955, require that the summary of findings and recommendations (letter of transmittal) of this report shall be published in the next annual report of the School District.

We extend our thanks to the officials of the Derry Cooperative District for their assistance during the course of the audit.

Yours very truly,
Harold G. Fowler, Director
Division of Municipal Accounting
State Tax Commission

Lionel DeGrace

CERTIFICATE OF AUDIT

This is to certify that we have examined and audited the accounts and records of the Derry Cooperative School District for the fiscal year ended June 30, 1964. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1964, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,
Harold G. Fowler, Director
Div. of Municipal Accounting
State Tax Commission
