[www.unh.edu/survey-center](http://www.unh.edu/survey-center)

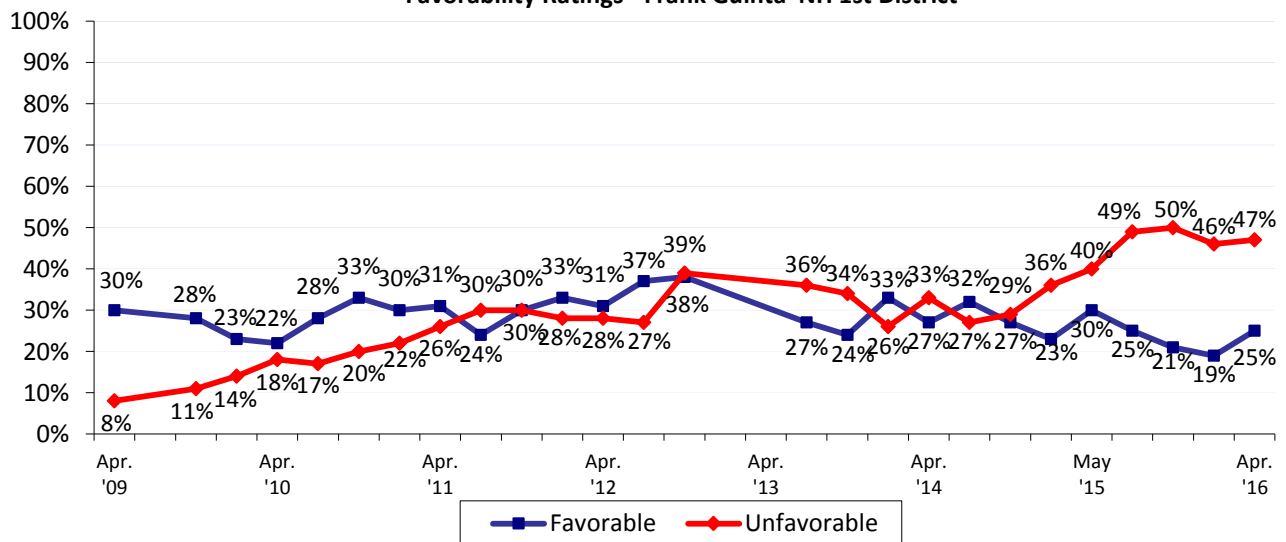

DURHAM, NH –First District congressman Frank Guinta remains very unpopular in his district and faces a tough battle for re-election as nearly half of First District likely voters say they would definitely vote for another candidate. Second District congresswoman Ann Kuster remains somewhat popular in her district. However, potential challengers to both Guinta and Kuster are largely unknown.

These findings are based on the latest **WMUR Granite State Poll**,\* conducted by the University of New Hampshire Survey Center. Six hundred and twenty-one (621) randomly selected New Hampshire adults were interviewed by landline and cellular telephone between April 7 and April 17, 2016. The margin of sampling error for the survey is +/- 3.9 percent. Included were five hundred and fifty-three (553) likely 2016 general election voters (MSE = +/- 4.2%). Three hundred and ten (310) residents were from the First Congressional District (MSE = +/- 5.6%) and three hundred and eleven (311) were from the Second District (MSE = +/- 5.6%).

### Favorability Ratings – Frank Guinta

In New Hampshire’s First Congressional District, incumbent Frank Guinta remains unpopular largely due to fallout from a settlement with the Federal Election Commission (FEC) over campaign finance violations from his 2010 run for Congress. Currently, only 25% of 1<sup>st</sup> District adults have a favorable opinion of Guinta, 47% have an unfavorable opinion of him, 8% are neutral and 19% don’t know enough about him to say. His net favorability rating is -22%, up slightly from -27% in February. Guinta is somewhat popular among Republicans (net +9%), unpopular among Independents (-20%) and very unpopular among Democrats (-48%).

Favorability Ratings - Frank Guinta NH 1st District

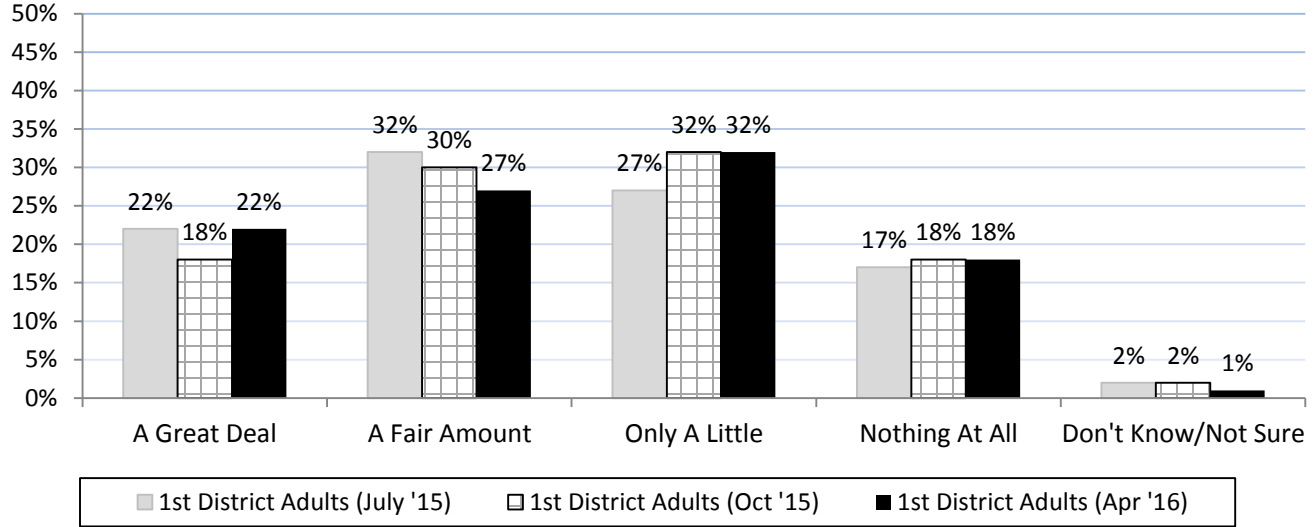

\* We ask that this copyrighted information be referred to as *the Granite State Poll*, sponsored by WMUR-TV, and conducted by the University of New Hampshire Survey Center.

### Knowledge of Frank Guinta FEC Story

Residents of the First District are fairly well informed about the campaign finance controversy. Almost half of first district residents have heard a great deal (22%) or a fair amount (27%) about the Guinta story, 32% have heard only a little and 18% have heard nothing at all. This measure is unchanged since July.

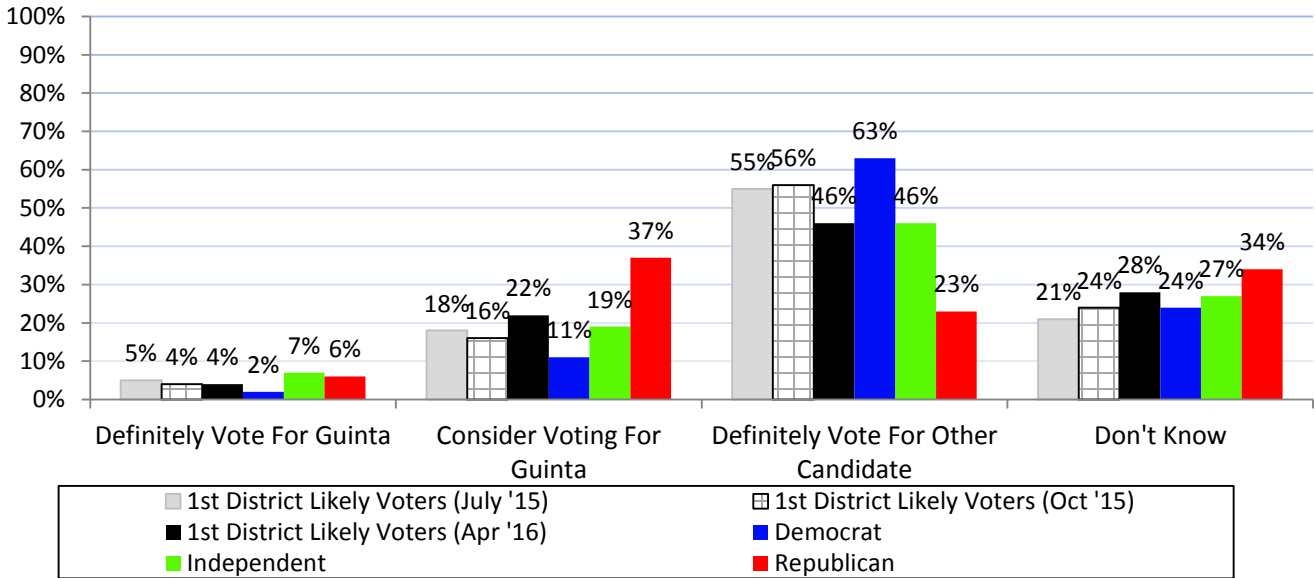

How Much Have You Heard About Guinta FEC Story? - 1st District Adults

### Guinta 2016 Re-Election Bid

The scandal is hurting Guinta's chances for re-election in 2016 as nearly half of 1st District likely voters said they would definitely vote for someone else if Guinta were on the ballot – 46% say they would definitely vote for another candidate, 4% would definitely vote for Guinta, 22% would consider voting for him and 28% are unsure. A majority of Democrats (63%), 46% of Independents and 23% of Republicans say they would definitely vote for another candidate. However, the percentage who say they will definitely vote for another candidate has decreased ten points since October.

If Guinta Ran for Re-Election in 2016, Would You...

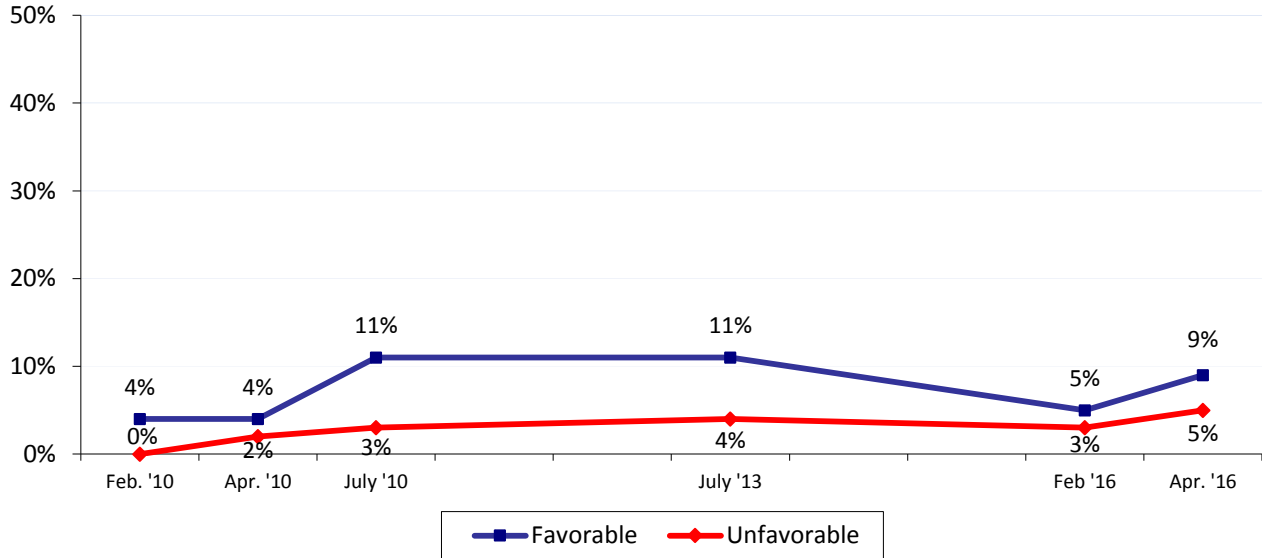

### Potential Republican Challengers – 1<sup>st</sup> District

Guinta faces two major challengers for the Republican nomination -- state representative Pam Tucker (Greenland) and businessman Rich Ashooh (Bedford) have both gotten into the race. Ashooh challenged Guinta for the nomination in 2010 while Tucker is making her first run for higher office. Both are largely unknown in the 1<sup>st</sup> District.

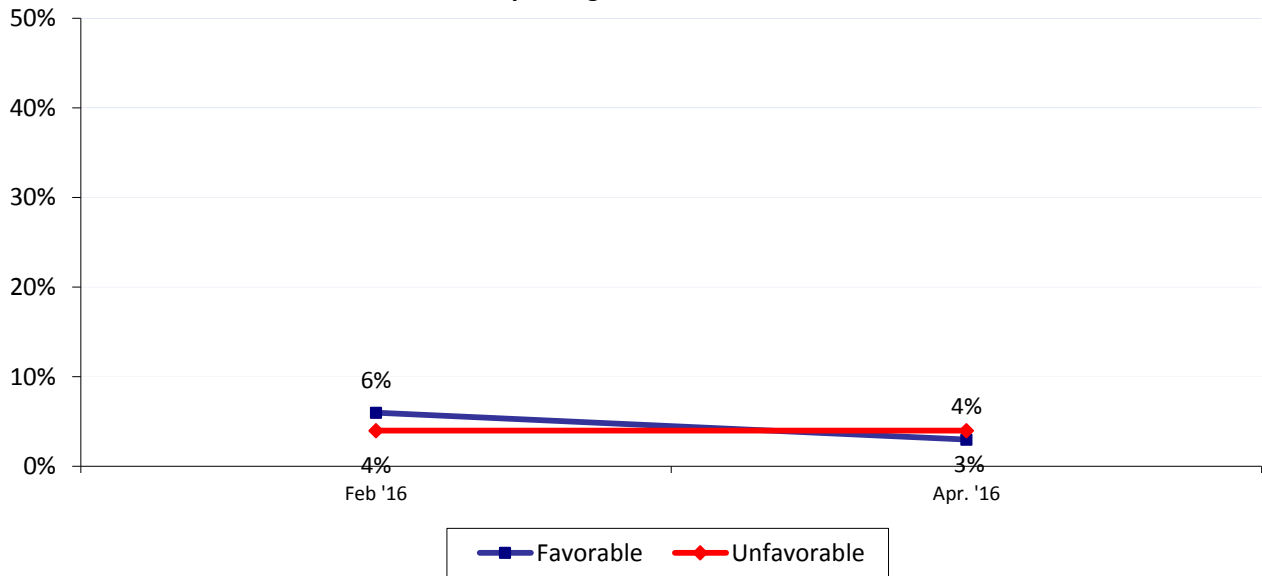

Currently only 9% of residents of New Hampshire's 1<sup>st</sup> District have a favorable opinion of Ashooh, 5% have an unfavorable opinion, 7% are neutral and 80% don't know enough about him to say. Ashooh's net favorability is +4%

Favorability Ratings - Rich Ashooh NH 1st District

Tucker is even less known, only 3% of 1<sup>st</sup> District residents have a favorable opinion of Tucker, 4% have an unfavorable opinion, 8% are neutral and 84% don't know enough about her to say. Tucker's net favorability is -1%.

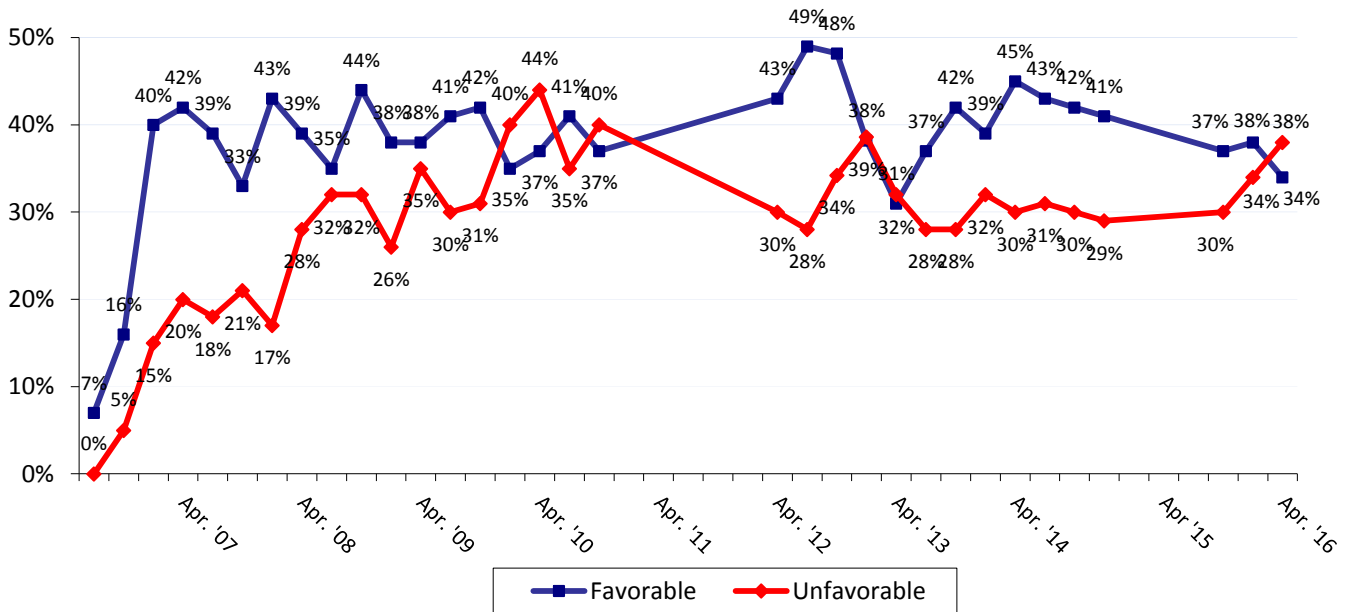

Favorability Ratings - Pam Tucker NH 1st District

### Democratic Challengers – 1<sup>st</sup> District

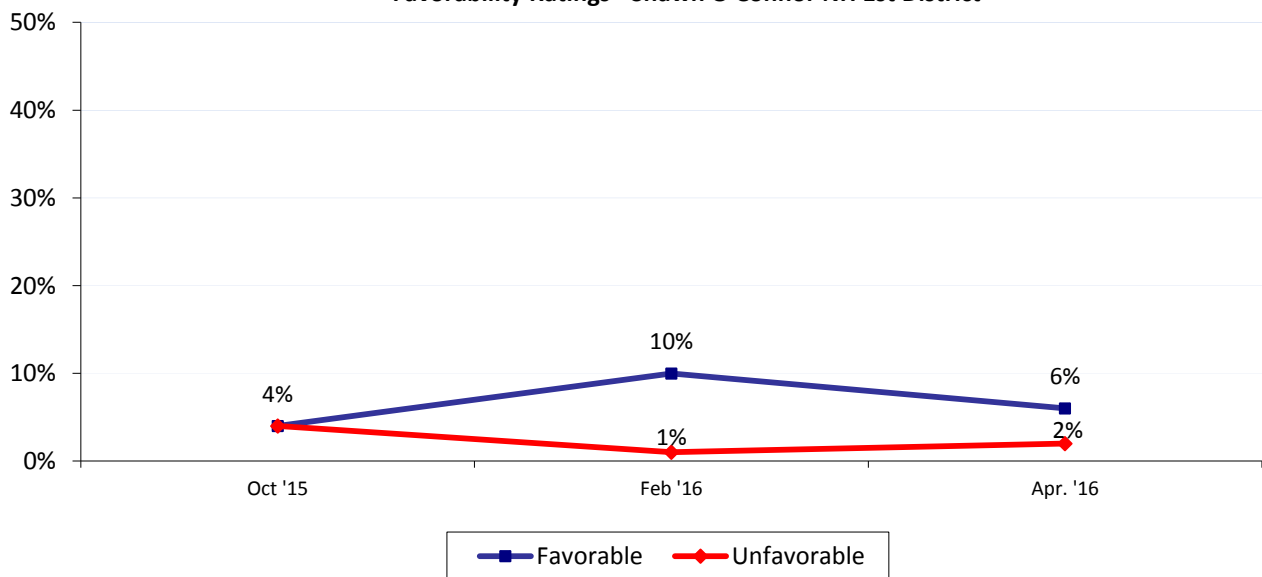

Former congresswoman Carol Shea-Porter, who held the first district seat from 2007-2011 and 2013-2015, is running again in 2016. If Shea-Porter gets the Democratic nomination and Guinta the Republican nomination, it would mark the fourth consecutive election they would face off for the seat. Currently 34% of 1<sup>st</sup> District residents have a favorable opinion of Shea-Porter, 38% have an unfavorable opinion, 9% are neutral and 19% don't know enough about her to say. Her net favorability is -4%, which is down from +4% in February. Shea Porter is very popular among Democrats (+45%), unpopular among Independents (-27%) and very unpopular among Republicans (-55%).

#### Favorability Ratings – Carol Shea-Porter – 1<sup>st</sup> District

Businessman Shawn O'Connor of Bedford is also seeking the Democratic nomination for the 1<sup>st</sup> District seat, but remains largely unknown among district residents. Currently 6% have a favorable opinion of O'Connor, 2% have an unfavorable opinion, 6% are neutral and 86% don't know enough about him to say. O'Connor's net favorability is +4%.

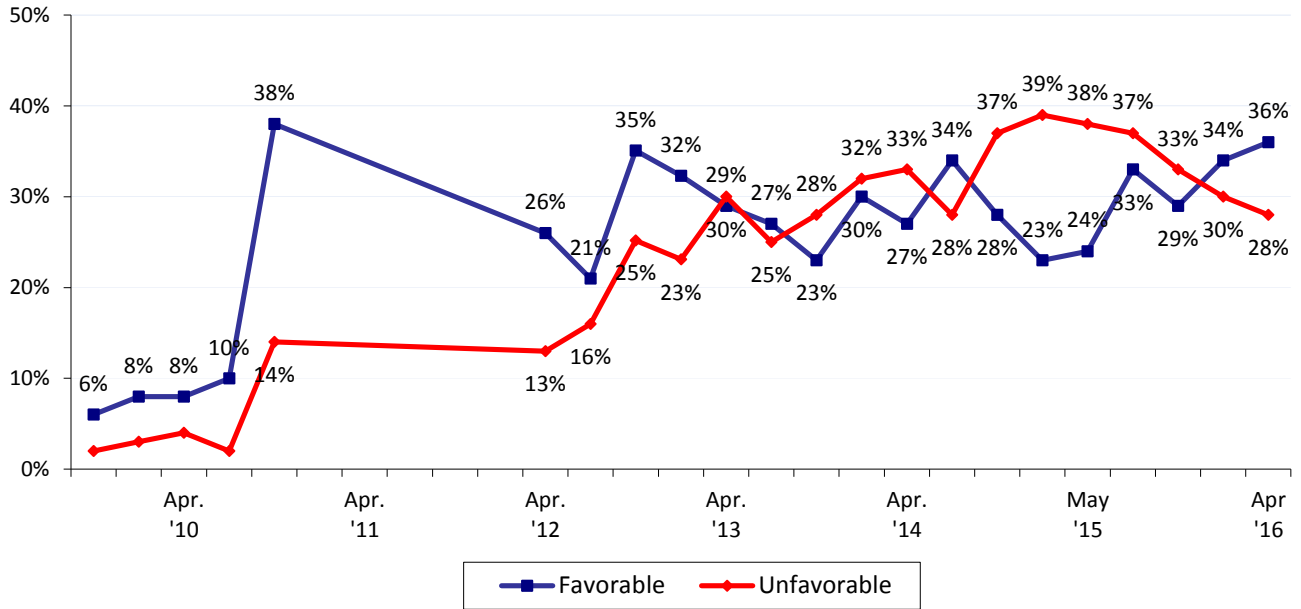

#### Favorability Ratings - Shawn O'Connor NH 1st District

### Favorability Ratings – Ann Kuster

Second District congresswoman Ann Kuster is somewhat popular in her district -- currently, 36% of 2<sup>nd</sup> District adults have a favorable opinion of Kuster, 28% have an unfavorable opinion of her, 9% are neutral, and 27% don't know enough about her to say. Her net favorability rating is +8%, which is up from +4% in February. She is very popular among Democrats (net +40%), popular among Independents (+16%), and very unpopular among Republicans (-39%). Kuster faces no major challenger for the Democratic nomination.

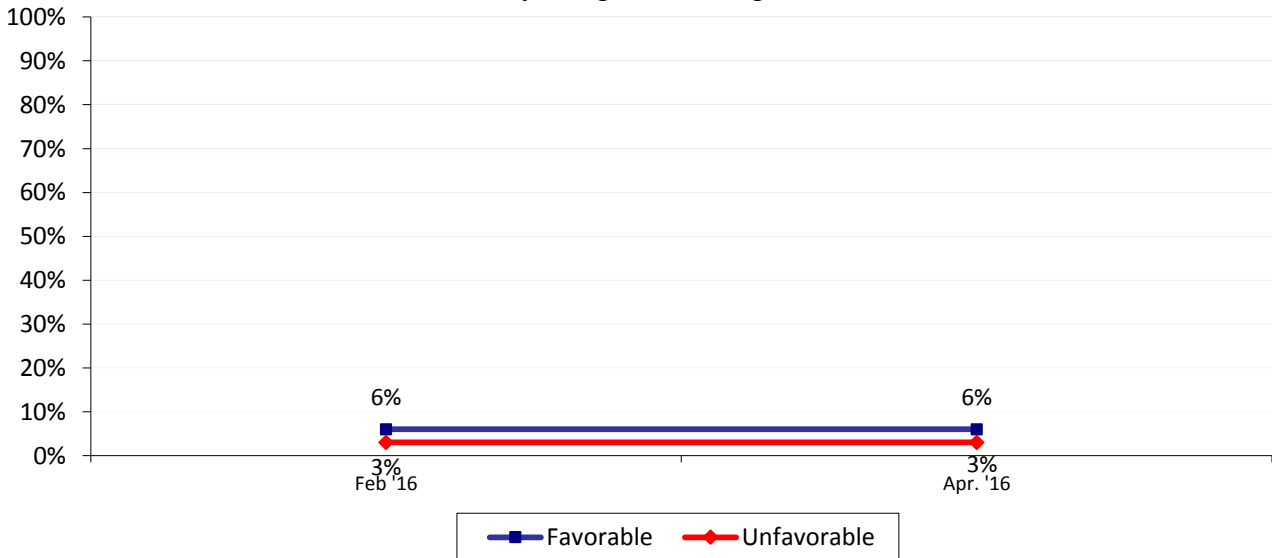

### Favorability Ratings – Ann Kuster -- 2nd District

### Republican Challenger – 2<sup>nd</sup> District

State representative Jack Flanagan (R-Brookline) has announced a run to challenge Kuster. Currently, only 6% of 2<sup>nd</sup> District residents have a favorable opinion of Flanagan, 3% have an unfavorable opinion, 9% are neutral and 82% don't know enough about him to say. Flanagan's net favorability is +3%.

### Favorability Ratings - Jack Flanagan NH 2nd District

### Granite State Poll Methodology

These findings are based on the latest WMUR Granite State Poll, conducted by the University of New Hampshire Survey Center and funded by WMUR-TV, Manchester, NH. Six hundred and twenty-one (621) randomly selected New Hampshire adults were interviewed in English by landline and cellular telephone between April 7 and April 17, 2016. If a household included more than one adult, the adult who had the most recent birthday was selected to be interviewed.

The margin of sampling error is +/- 3.9 percent for the entire sample. Included were five hundred fifty-three (553) likely 2016 general election voters (MSE +/- 4.2%). Three hundred and ten (310) residents were from the First Congressional District (MSE = +/- 5.6%) and three hundred and eleven (311) were from the Second District (MSE = +/- 5.6%). These MSE's have not been adjusted for design effect. The design effect for the survey is 1.1%.

The random sample used in the WMUR Granite State Poll was purchased from Marketing Systems Group (MSG), Horsham, PA. MSG screens each selected telephone number to eliminate non-working numbers, disconnected numbers, and business numbers to improve the efficiency of the sample, reducing the amount of time interviewers spend calling non-usable numbers.

The data have been weighted to adjust for numbers of adults and telephone lines within households. Additionally, data were weighted by respondent sex, age, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

For more information about the methodology used in the WMUR Granite State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).
