**INAUGURAL ADDRESS**  
**BY**  
**HON. THOMAS JEWETT CHESLEY**

---

Delivered January 1, 1930.

---

MEMBERS OF THE CITY COUNCILS, AND FELLOW CITIZENS:

We are assembled here this morning, on the first day of the New Year, to enter upon our duties as directors of the municipal corporation known as the City of Dover, and have severally sworn to execute those duties to the best of our ability and understanding.

Under a new draft of our city charter, passed at the last session of the New Hampshire General Court, several changes were made, the most outstanding one being the extension of the term of service of the mayor and members of the city government from one year to two years. It is hoped, and confidently believed, that this change in governmental control will operate beneficially to the city, as it permits of a two-year planning program uninterrupted by possible political changes with its consequent variation in economic policies.

I regard it as a cheering augury for continued civic progress, that so many of the members of the incoming city government have been returned for service. To my former colleagues I extend most cordial greetings; to those members who are just entering public life, I convey a most sincere welcome, and bespeak your joint co-operation in behalf of the city's welfare which, in large measure, must depend upon the manner in which we exercise our official trusts.

The year just closed is now a matter of history. The unity of thought and action which characterized the administration just closed, found its reflex in the public en-

dorsement accorded our candidacy for re-election; an endorsement which should stimulate us to even greater efforts in behalf of the public weal, to the end that the faith reposed in us may not be wrecked upon the shoals of neglected opportunity, or its glory tarnished through indifference to our individual obligations as servants of the people.

In bidding farewell to the year 1929, I wish to record my sincere appreciation for the many courtesies accorded me by the city officials, the members of the various boards of trustees and commissions of the city, and particularly to the members of the retiring city government. Their helpful advice and unselfish service were potent factors in making the administration of 1929, in all branches of our municipal government, one which, I confidently believe, met with an unusually large measure of public commendation.

The past year marked the beginning of permanent road building in our city. The material necessarily removed from Central avenue to make room for cement construction work, was advantageously used in resurfacing other streets throughout the city. While the expense of the cement replacement was slightly in excess of the sum originally provided for the purpose, (\$35,000.00) we were enabled, through the economical administration of other municipal sub-divisions, to reduce the loan negotiated for the new construction work to \$27,000.00, and at the same time to reduce our outstanding indebtedness \$11,000.00 for the year.

This cement work formed no part of the general appropriation for the ordinary maintenance of our public thoroughfares. It was authorized and controlled through an order of the City Councils under a specially provided appropriation, and financed through the highway department. I trust that it will be possible to continue the permanent reconstruction of our public highways the coming season.

I have no intention of selecting any particular department of our city for special mention. Each sub-division, in its own field of activity, is essentially important, and may be considered as an elemental factor in the general scheme of municipal development. The care with which we guard and foster these varied interests, will be our answer to the citizens of Dover at the close of our term of office.

The cash balance in the hands of the city treasurer at the beginning of the year 1929, was \$45,212.42; the cash balance today is \$45,867.69, a trifle in excess of one year ago. Our assets as represented by uncollected taxes, are \$2,026.79 in excess of the resources from that source of one year ago. Taking into consideration the fact that the fire department has been provided with a new piece of apparatus, modern in type and of proven efficiency; that new highway and sewer construction called for an addition to the original appropriation of some \$3,000.00; that new traffic signals have been installed by the police department at an expense of a little over \$3,000.00, which was not contemplated in the annual budget; that the support of paupers exceeded the available funds for that purpose by some \$1,250.00, with outstanding claims of an indeterminate amount; that court orders, tree surgery and other interests have called for the expenditure of no inconsiderable sums of money for which no specific appropriation was provided, and that an additional sum of \$2,500.00 was required to balance the accounts of the Wentworth Hospital, we regard with no little gratification even such a slight increase in our financial resources for the twelve months just drawn to a close, as we find in the available cash balance today over the sum reported at the beginning of the year.

Our city is one of outstanding prominence in all that goes to make up a progressive, up-to-date community; one which we are proud to call our home. Its domestic affairs have been wisely conducted in the past, as evi-

denced by its physical and financial status today. We have never experienced periodic or unhealthy booms in growth; but we have enjoyed a steady and permanent increase in population, and a corresponding expansion along practically every avenue of civic endeavor.

Let it be our constant purpose to so build for the future that the political economists of later years may point to the administration of 1930-31, as marking a new era in municipal progress.

I am anticipating a two years' term with you, gentlemen, which shall prove conspicuous in its service in behalf of the city in which we live. Doubtless some mistakes may be made during our incumbency, but let us so perform our duties that should such mistakes occur, they may readily be classified as errors of omission rather than of commission.

Much can be accomplished if we but work together in harmony, with an eye single to the greatest good to the greatest number, each working for the betterment of our city, and incidentally for the best interests of our county, State and Nation.

**INVENTORY**  
**OF THE**  
**CITY OF DOVER, 1929**

---

**REPORT**  
**OF THE**  
**TAX LIST COMMITTEE**

---

To THE BOARD OF MAYOR AND ALDERMEN:

1928

To tax list as committed.....	\$478,033.44	
To interest .....	531.14	
To added list .....	2,064.75	
		—————\$480,629.33

1928

By paid city treasurer.....	\$468,877.08	
By discounts given.....	5,454.49	
By abatements .....	5,766.62	
To interest .....	531.14	
		—————\$480,629.33

Your committee, having found that Arthur L. Davis, collector of taxes for the year 1928, has collected all the taxes for that year and paid the same to the city treasurer, taking his receipt for the same, we recommend that the chairman of this committee be empowered and instructed to write a discharge upon the collector's bond for the year, and that the same be placed on file.

Respectfully submitted,

HENRY H. CLIFFORD,  
EDGAR A. DAVIS,  
JAMES F. DENNIS,  
Tax List Committee.

Dover, N. H., Sept. 5, 1929.

**REPORTS**  
OF THE  
**TAX LIST COMMITTEE**

---

TO THE BOARD OF MAYOR AND ALDERMEN:

## ANNUAL APPROPRIATIONS, 1929

---

Band Concerts, .....	
\$500.00 from money to be received from the state for taxation on interest and dividends. The arrangements for such concerts to be under the direction of the joint standing committee on finance.	
Brown-Tail Moths and other Tree Pests, suppression of, .....	\$ 3,100.00
and \$135.00 from miscellaneous income, To be expended under the direction of the board duly appointed to represent the city in the suppression of brown-tail moths and other tree pests.	
Cemeteries, .....	1,500.00
and \$1,000.00 from money to be received from registration of motor vehicles. To provide for general maintenance of all public cemeteries within the limits of the city, also the care of the Grand Army lot and all plots throughout the city containing memorials to Dover citizens who died while in the service of their country during the World War. All income to revert to the department. All coal to be supplied by the committee on municipal coal supply.	
City Debt, .....	20,000.00
\$8,000.00 from money to be received for registration of motor vehicles, and	

\$10,000.00 from income of the water department.

City Hall Committee, .....\$ 7,000.00

and income of the department, for general maintenance of the city building and incidental charges provided by ordinance. All coal to be supplied by the committee on municipal coal supply.

Contingent Expenses, ..... 14,200.00

and all other municipal income not otherwise herein appropriated. To include Memorial Day and Fourth of July observances, such sum of money as the City Councils may by vote appropriate for the purchase of a State Armory lot, \$500.00 toward a joint Federal, State and municipal fund for the elimination of the white pine blister rust, \$500.00 toward the maintenance of a dental clinic to be conducted under the direction of the District Nurses' Association, for advertising the city, and the payment of all claims and awards against the city not properly chargeable to other municipal subdivisions. Fund to be disbursed under the personal supervision of the mayor or by specific vote of the city councils.

County Tax ..... 28,000.00

and \$17,165.12 from money to be received from the State for taxation on interest and dividends.

Currier Fund, .....

Income of fund only, to be applied by

the mayor under the conditions imposed in the trust.

Damage by Dogs.....

So much of the money received for dog license fees as may be necessary to meet duly approved claims, the balance of such receipts to be transferred to the treasurer of the school committee.

Dover Public Library, .....\$ 9,100.00

and income of the department. To include the amount required by law, and the payment of \$1,800.00 to the school committee for heating and janitor service.

Dover Water Works,..... 6,250.00

For maintenance of fire hydrants and for all water used for fire fighting purposes. The water department to pay the city hall committee \$200.00 for rent of rooms in the city building, and contribute \$10,000.00 toward the reduction of the city debt.

Election, ..... 1,500.00

To include land rent, ward rooms supplies and general election expenses.

Fire Department, ..... 26,500.00

For general maintenance and the purchase of 500 feet of fire hose; also to include the purchase of a chassis for fire department purposes. To consummate the purchase of said chassis the joint standing committee on fire department is hereby authorized to make such disposal of

the Winton combination wagon and the Reo supply wagon as to said committee may seem for the best interests of the city. Any and all money received from such sale or sales as the above named committee may effect under this authorization shall be credited to the appropriation for fire department purposes; and said committee shall be limited in its expenditures for such chassis to the appropriation herein provided and the available department income. All coal to be supplied by the committee on municipal coal supply.

Guppy Fund, .....

Income of fund only, to be applied by the mayor under the conditions imposed in the trust.

Health Department, .....\$ 12,750.00

And income of the department. To include the maintenance of clinics, and \$50.00 to be paid the city hall committee for rent of rooms in the city building.

Highways, ..... 82,000.00

Together with all reimbursements and other income, including any money that may be received from the sale of such steel rails as have not heretofore been disposed of, and so much of \$35,000.00 (to be provided by a loan to be negotiated by the joint standing committee on finance), as may be necessary to carry the following cement construction programme into effect: No part of said \$35,000.00

shall be expended except for new cement road construction on Central avenue, agreeably to plans to be approved by the joint standing committee on finance, and to include Franklin square, Central square, and southerly along said avenue from Central square to such point as the funds available for such purpose will permit.

The said sum of \$82,000.00 and all other income not otherwise herein set apart, shall be expended by the street commissioner for general maintenance and improvements required in or by the various sub-divisions and interests under the supervision of the street commissioner, also for the fulfillment of all lawful demands of the State Highway department, and the payment to said State department, of \$5,000.00 on account of the new cement road leading from Dover to Rochester, and the reservation of not less than \$2,000.00 as a nucleus to secure sewer relief for residents on Fourth street.

Insurance, .....	\$	4,250.00
To be disbursed by the mayor.		
Interest, .....		16,250.00
and income received from interest on daily balances from National banks.		
Lands and Buildings, .....		700.00
Municipal Coal, .....		4,400.00
\$3,250.00 from money coming from the State and \$850.00 from miscellaneous in-		

come. For fuel to be furnished the city hall committee, the Wentworth hospital, fire and cemetery departments. To be purchased and distributed under the direction of the joint standing committee on finance.

Parks and Playgrounds,.....\$ 7,000.00

To include supervision and development of parks and playgrounds and the extension of the retaining wall along the river bank in Henry Law park. The above sum, together with any and all income accruing to the department to be disbursed by the board of park commissioners.

Police Department, ..... 26,500.00

and income of the department from police court fines, fees, etc., to include the gratuity heretofore allowed to Ex-City Marshal Wilkinson for the year 1929. The department to pay the city hall committee \$500.00 for rent of rooms in the city building.

Printing and Stationery, ..... 500.00

and \$1,000.00 from money to be received for registration of motor vehicles.

Repairs of Schoolhouses, ..... 5,000.00

Salaries, ..... 13,300.00

To include the mayor, city clerk, city treasurer, collector of taxes, city messenger, city solicitor, board of assessors and clerk of said board, city physician,

clerk of the common council, overseer of the poor, sealer of weights and measures, justice and clerk of the municipal court, and probation officer.

Schools, .....\$116,118.00

and income of the department. To include all legal requirements, cleaning schoolhouses, heating and janitor service for the public library, and the maintenance of a physical director for the public schools.

School Tax ..... 3,332.00

State Tax .....

\$43,321.20 from money coming from the State.

Street Lighting ..... 26,250.00

Support of Paupers ..... 6,000.00

and \$9,000.00 from money to be received for registration of motor vehicles.

Wentworth Hospital ..... 24,000.00

and income of the department. The above sum shall include the care and treatment, without charge, of any member of the fire department of the city of Dover requiring such attention as the direct result of injuries sustained while in the discharge of his official duties. All coal to be supplied by the committee on municipal coal supply.

## FINANCIAL ANALYSIS

---

As various financial factors are embodied in the following tables which do not appear in the treasurer's report of cash debits and credits, a summary of these elements are appended to bring the two into juxtaposition.

### RESOURCES

Resources as per table No. 1.....	\$638,280.48
Add balance on hand January 1, 1929.....	45,212.42
	<hr/>
Total .....	\$683,492.90
Deduct sums drawn from treasury.....	11,500.00
	<hr/>
To balance .....	\$671,992.90

### EXPENDITURES

To determine treasury balance:	
Balance unexpended, Table II.....	\$ 23,094.54
Less overdrafts .....	10,939.27
	<hr/>
Gives a total of.....	\$ 12,155.27
Deduct sums drawn from treasury.....	11,500.00
	<hr/>
Makes a net gain of.....	\$ 655.27
Add treasury balance Jan. 1, 1929.....	45,212.42
	<hr/>
And we find treasury balance Jan. 1, 1930...	\$ 45,867.69

## FINANCIAL SUMMARY

### TABLE I., 1929

Dover, N. H., December 31, 1929.

**ANNUAL REPORT**  
**OF THE**  
**JOINT STANDING COMMITTEE ON FINANCE**

---

Dover, N. H., January 1, 1930.

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The undersigned, joint committee on finance of the City of Dover, have examined the books and accounts of the City Treasurer, Ellen M. Galucia, and compared the footings of the receipts and disbursements with accounts kept by the City Clerk, and find the same in agreement.

We have carefully examined and verified all bonds, securities and trust funds accounts belonging to the City, and are satisfied that all funds and other property for which the City Treasurer is officially responsible are accounted for, leaving a cash balance in banks to the credit of the City Proper, of \$45, 867.69.

A complete list of the bonds and securities above referred to is hereto appended.

Respectfully submitted,

T. JEWETT CHESLEY,  
ALONZO G. WILLAND,  
E. F. WENTWORTH,  
E. DEAN NELSON,  
H. A. MORRISON,

Joint Standing Committee on Finance,

## MAYORS

---

An act incorporating the City of Dover was signed June 29, 1855. It was accepted by the citizens of Dover at a town meeting held August 15, 1855. The first Mayor took the oath of office March 25, 1856, and the City Government was then inaugurated.

Name	Term
Thomas E. Sawyer,*	1857
Andrew Pierce,*	1856
James Bennett,*	1858—1859
Albert Bond,*	1860
Alphonso Bickford,*	1861—1862
William F. Estes,*	1863—1865
Joshua G. Hall,*	1866—1867
Eli V. Brewster,*	1868—1869
William S. Stevens,*	1870—1872
Charles H. Horton,*	1873—1874
Edward P. Hodgdon,*	1875—1876
Solomon H. Foye,*	1877—1878
Joseph D. Guppey,*	1879—1880
Charles M. Murphy,*	1881—1882
James E. Lothrop,*	1883—1884
Richard N. Ross,*	1885—1886
George G. Lowell,*	1887—1888
B. Frank Nealley,*	1889—1890
Henry R. Parker,*	1891—1892
Alonzo M. Foss,*	1893—1895
William F. Nason,*	1896—1897
Charles A. Fairbanks,	1898—1900
Arthur G. Whittemore,	1901—1903
John H. Nealley,*	1904—1905
Alonzo T. Pinkham,*	1906

---

\*Deceased.

Mayor Pinkham died August 22, 1906; George J. Foster was elected Mayor by the City Councils September 6, 1906.

Michael J. White, .....	1907—1908
George J. Foster,* .....	1909—1910
Dwight Hall, .....	1911—1912
Charles H. Foss, .....	1913—1914
George D. Barrett,* .....	1915—1916
Fred N. Beckwith, .....	1917

Mayor Beckwith “joined the colors” in mid-summer, and on August 31, Alderman Alonzo G. Willand was elected chairman of the Board of Aldermen and acting mayor, serving as such for the remainder of the year.

Fred C. Smalley, .....	1918—1919
Alvah T. Ramsdell,* .....	1920—1921
Charles G. Waldron,* .....	1922—1924

## BOARD OF HEALTH

---

### Organization

---

A. P. RICHMOND, M. D., Chairman.  
W.M. E. WHITELEY, Executive Officer and Clerk.  
THOMAS HATHAWAY.  
Office: Room 20, City Building.  
Hours: 8.30 to 9.30 A.M.; 2 to 3 P.M.

---

School Nurse,  
MISS FRANCES HYDE.

---

Clinics,  
Room 6, Union Block, 123 Washington Street.

Tuberculosis,  
ROBERT B. KERR, M.D., Physician.  
MISS LORETTA LANDRY, R.N., Nurse.

Dental,  
District Nursing Association.

**ANNUAL REPORT**  
**OF THE**  
**Executive Officer of the Board of Health**

---

GENTLEMEN OF THE CITY COUNCILS:

In accordance with the usual custom, I submit the following review of the operations of the local department of public health and sanitation for the year ending December 31, 1929.

FINANCIAL SUMMARY

RESOURCES

Appropriation .....	\$ 12,750.00
License fees .....	186.00
	<hr/>
	\$ 12,936.00

EXPENDITURES

Pay rolls .....	\$ 10,185.25
Rent of clinic rooms.....	240.00
Fumigating .....	49.27
Printing and office supplies.....	118.72
Express .....	9.63
Use of two horses (contract).....	1,370.00
Blacksmith work (repairing carts).....	123.74
Telephone service .....	59.10
Removing cats and dogs from streets.....	2.00
Hardware .....	9.02
Taxi service .....	105.00
D. Foss & Son.....	6.75
Rat poison .....	5.50
Trucking .....	10.00

Veterinary service .....	\$ 5.00
Medical supplies .....	.85
E. J. York .....	4.50
Milk and cream .....	2.77
Nursing (diphtheria) .....	21.00
Care of quarantined cases .....	28.75
Rent of office .....	50.00
Insurance liability .....	232.94
Professional service (diphtheria) .....	54.00
Removing dead horse, Washington Street....	5.00
	<hr/>
	\$ 12,698.79
By balance .....	237.21
	<hr/>
	\$ 12,936.00

REGISTERED MORTALITY FOR THE YEAR ENDING  
DECEMBER 31, 1929.

Population (estimated) .....	15,000
Rate per one thousand deaths .....	10.6
Births .....	289
Birth rate per one thousand .....	19.26
Death rate per one thousand, under one year	55.02
Deaths exclusive of still births .....	159
Deaths, non-residents .....	24
Dead from other places brought to Dover for burial .....	105
Still births .....	10
Burial permits issued .....	298

Lobar Pneumonia.....	5												5
Tuberculosis, Active Medium....	1					1			1	3			6
Measles.....		3	2		1	1						2	9
Gonorrhoea.....				5		3							8
Typhoid Fever.....									1				1
Diphtheria.....										2	2	3	7
Vincent's Angina.....												1	1
Scabies.....												1	1
	147	19	26	29	4	4	1	1	4	14	26	19	296

## MORTALITY STATISTICS

In the following table is presented a classification of the causes of death in the city of Dover during the year 1929, exclusive of non-residents brought to this city for treatment in hospitals or other public institutions.

## I. Epidemic, Endemic and Infectious Diseases:

10	Diphtheria .....	1	33	Tuberculosis Colitis ...	1
31	Pulmonary tuberculosis.	1	36	Tuberculosis of kidney.	1
32	Tuberculosis meningitis.	2	41	Septicemia (general) ...	1
32	Tubercular Spinal meningitis .....	1	41	Pyemia .....	1

## II. General Diseases Not Included in Class I:

43	Cancer of cheek.....	1	57	Cancer of breast .....	2
44	Cancer of stomach.....	5	49	Cancer of larynx.....	1
45	Cancer of rectum.....	3	57	Diabetes mellitus .....	2
45	Cancer of intestines....	2	49	Abdominal carcinoma ..	1
45	Cancer of colon.....	1	58 (a)	Pernicious anemia.....	2
45	Cancer of duodenum....	1	52	Anthraxis deformans....	1
46	Cancer of uterus.....	2	71 (a)	Cerebral meningitis ..	1

## III. Diseases of the Nervous System and of the Organs of Special Sense:

71 (b)	Cerebral spinal meningitis .....	2	74 (b)	Cerebral thrombosis ..	1
74 (a)	Cerebral hemorrhage	13	76	General paralysis.....	1
74 (a)	Apoplexy .....	3	88	Acute endocarditis .....	1
74 (b)	Cerebral embolism.	2	88	Acute myocarditis .....	1

## IV. Diseases of the Circulatory System:

89	Angina pectoris .....	5	90	Myocarditis .....	6
90	Chronic myocarditis .....	8	90	Chronic endocarditis ..	7
90	Valvular heart disease.	4	91 (b)	Arterio-sclerosis .....	16

## V. Diseases of the Respiratory System:

100 (a)	Broncho pneumonia	7	101 (b)	Pneumonia .....	1
101 (a)	Lobar pneumonia..	7			

## VI. Diseases of the Digestive System:

109 (b)	Vincent's angina ..	1	124	Cholecystitis .....	1
112	Indigestion .....	1	126	Peritonitis .....	1

## VII. Non-Venereal Diseases of the Genito-Urinary System and Annexa:

128	Acute nephritis .....	2	129	Interstitial nephritis ..	1
129	Chronic nephritis .....	3	129	Chronic parenchy matous nephritis .....	1
129	Chronic interstitial nephritis .....	2	138	Plevis abscess .....	1
129	Chronic Bright's disease	1	139	Fibroid uterus .....	1

VIII. The Puerperal State:

146 Puerperal septicimia... 1

IX. Diseases of the Skin and of the Cellular Tissue:

X. Diseases of the Bones and of the Organs of Locomotion:

XI. Malformation:

159 (b) Blue baby ..... 1      159 (c) Congenital malformation ..... 1

XII. Early Infancy:

161 (a) Premature births.. 9      161 (b) Breech presentation 1

XIII. Old Age:

164 Senility ..... 1

XIV. External Causes:

167 Suicide by inhalation illuminating gas ....	1	180 Suffocated by piece of bread .....	1
192 Inanition, family feeding .....	1	201 Fracture of femur.....	2
		201 Fracture of hip.....	1
		201 Fracture of skull.....	1

XV. Ill Defined Diseases:

205 (a) Marasmus ..... 1      205 (a) Natural causes.... 1

Still-Birth.

10

---

MILK SUPPLY

The principal advantages of milk as a food are the following: It requires no cooking or other preparation, it is readily and thoroughly digested by the average person, it is a complete food, containing all the constituents necessary for body building and maintenance, it is well balanced in that it furnishes food material in desirable proportions; it contains no waste materials, it contains vitamins or growth promoting accessories, and it is usually cheaper than other foods possessing similar characteristics.

## ADVANTAGES OF PASTEURIZATION

Proper pasteurization of milk has the following advantages:

It makes the milk safe by destroying any pathogenic bacteria that may be present.

It prolongs the life of the milk by reducing the number of lactic acid organisms.

It reduces the total bacterial count of the milk by approximately 99 per cent.

MILK INSPECTIONS

Samples collected (milk) . . . . .	35
Samples collected (cream) . . . . .	5
Samples sent to state laboratory . . . . .	40

## WATER SUPPLY

An adequate and safe water supply is essential. The water shed or drainage area must be freed so far as possible, from human habitation, for the purpose of protecting the supply from pollution and possible infection.

Samples have been taken from the supply and submitted to the state chemist, with the following results:

March—Good.

April—Good.

Samples were taken from springs and wells and forwarded to the state chemist for examination.

---

SANITARY INSPECTION

This work has been given special attention throughout the year.

It covers quite a range and includes the placarding of houses during periods of infection, the investigation of suspected sources of contamination, visits to schools, restaurants, bakeries and grocery stores.

These tours of inspection require no little time.

It is one of the duties of the board of health to see that nuisances are abated and animals removed.

The condition of the streets, yards and alleys throughout the city are comparatively clean and free from offensive matter. Special attention has been given to these collections as they are considered of great importance to the health of the city.

---

INCINERATION

The incinerator is taking care of all refuse and combustible material collected by the department or delivered by private conveyance.

All bedding and other matter collected from infected

premises has been destroyed under careful supervision as well as old book accounts, papers and accumulated rubbish from business establishments.

A total of 12,553 loads of material were hauled to the incinerator during the year, including extra deliveries in the Spring and Fall clean ups, as follows:

Garbage .....	2,931 loads
Ashes .....	1,567 loads
Automobiles .....	6,114 loads
Teams .....	1,941 loads
	<hr/>
Total .....	12,553 loads

The number of dead animals collected and destroyed during the year are enumerated as follows:

Fish, barrels of .....	369
Eggs, barrels of .....	36
Dogs .....	94
Cats .....	63
Pigs .....	19
Rabbit .....	1
Horse .....	1
Calves .....	3
Deer .....	1
Hens, bags of .....	12
Mattresses .....	52

---

#### CLEAN-UP CAMPAIGNS

Clean property seldom burns. Get rid of all rubbish in cellar, attic, yard, and in all outbuildings. Your home and place of business will be healthier places in which to live and work.

## PLUMBING

The sewage from each building, on every street provided with a common sewer, should be connected with such sewer. During the past year there have been installed:

Baths, complete .....	50
Toilets .....	53
Septic tanks .....	11

---

 NEW HAMPSHIRE TUBERCULOSIS ASSOCIATION

During the past year, the New Hampshire Tuberculosis Association held ten clinics in Dover, with an average attendance of fourteen people.

Through the efforts of the Association six patients from Dover, suffering with tuberculosis were admitted to sanatoriums in this state, and one patient admitted to U. S. Veterans' Sanatorium in Rutland, Massachusetts.

The city of Dover has at the present time, eight patients receiving sanatorium treatment, three at Pembroke Sanatorium, Pembroke, N. H., three at the State Sanatorium, Glencliff, N. H., and two at U. S. Veterans' Sanatorium at Rutland, Mass. Several patients are following the rest treatment at home, under the supervision of the county tuberculosis nurse.

It is the aim of the Association to examine each and every person coming in contact with an active tuberculosis patient thereby discovering tuberculosis in its earliest stage, when discovery is easiest and earlier attained, shortening the period of unemployment which is a serious economical problem, especially, when the chief support of the family is the prey.

The county tuberculosis nurse made 425 house calls in Dover during the year. These calls were made in seeking out new cases, in follow up work, in securing financial

aid to the families when needed in making arrangements for transportation of patients to sanatoriums and helping to secure employment to persons whose disease has become arrested and are again financial assets to their family and community.

LORETTA A. LANDRY, R. N.

---

DOVER DISTRICT NURSING ASSOCIATION

The Dental Clinic conducted by the Dover District Nursing Association gave 600 treatments during the year 1929.

This completes four years of service rendered by this clinic.

The first three years it was supported wholly by the District Nursing Association and various dentists very generously gave their services.

This year the city of Dover appropriated \$500. towards its maintenance. This sum supplemented by funds from the Association treasury provided for the employment of a dentist one half day each week and permitted the expansion of the work, extending the service to a larger group of children than was possible before.

DOVER DISTRICT NURSING ASSOCIATION.

By Dr. E. C. Godfrey, President.

STATE OF NEW HAMPSHIRE.

STATE BOARD OF HEALTH

*Division of Chemistry and Sanitation*

DISINFECTION OF WELLS AND SPRINGS IN FLOODED AREAS

Notice to Health Officers.

This notice is being sent to all health officers calling attention to the hazard involved in using undisinfected drinking water drawn from wells or springs which have become more or less contaminated, and its use without

boiling or some other form of disinfection may cause sickness.

Please advise local consumers in all cases coming to your attention that such water can be rendered safe by heating to boiling and maintained at this point for a few minutes.

Disinfection of wells and springs with chloride of lime can also be effected as follows:

Use one ounce (a heaping tablespoon) from a freshly opened can of chloride of lime to each one thousand gallons of water to be treated.

Each foot of depth of water in a three foot well represents fifty gallons; in a five foot well, 150 gallons. Rub up the chloride of lime to a thin paste with a little water in a bucket, fill the latter with water and add the required proportion of this bucketful to the well or spring.

Mix thoroughly with a clean board or other convenient paddle and allow to stand a half hour before drawing for use.

This treatment may impart some chlorine taste to the water for a short time, but this is in nowise injurious and will soon disappear.

For sterilizing smaller quantities of water rub up a heaping teaspoonful of the chloride of lime as before and add water. To make a pint of this solution, add one tablespoonful to each ten gallons of water, stir and let stand a few minutes before using.

An equivalent treatment for one gallon is 30-40 drops.

Two drops ordinary tincture of iodine added to a quart of water also serves as an efficient and harmless disinfectant.

*Signed* CHAS. D. HOWARD,  
Chief of Division.

Respectfully submitted,

WM. E. WHITELEY,  
Executive Officer.

Elm, gravel 2, cold patch 5. Durham Road, stone 2, gravel 3, cold patch 10. Preble, stone 9, gravel 25, cinders 3, cold patch 5. Coolidge Ave., stone 7, gravel 47, fill 300, sidewalk 13. Snows Court, fill 75, regraded. Lexington, cold patch 2. Rose, Garrison Hill Road, fill 1. Angle, regraded. Perl St. Ex. fill 44, cinders 3, sidewalk 18. Milwaukee Ave., gravel 17, fill 250, sidewalk 6.

Lexington, cold patch 2. Franklin Court, gravel 31. Second, stone 5, gravel 1, cold patch 14.

60 loads of fill, 53 of cold patch, 46 of rock, 4 of gravel and 1046 loads of sand were used to put the following streets in condition to be oiled. Fisher, Hamilton, Essex, Hancock, Atlantic Ave., Ham, Hill, Park, Oak, Sixth, Eliot Road, Ash, East, Portland Ave., Portland, Horne, Summer, Florence, Durrell, Court, Union, Watson, Watson Lane from Dover Point Road through the cemetery to Court St., Payne, Middle, Rogers, Church, Twombly, Forest, Spring, Hanson, Glenwood Ave., East, Dover, Lincoln, Chestnut, Roosevelt Ave., Reservoir, Abbott, Everett, Back River Rd., Knox Marsh Rd., Mt. Vernon, Baker, Pierce, Durham Rd., Preble, Cushing, Washington, Arch, Grove. West Concord, East Concord, Mechanic, Richmond, Prospect, Fourth, Elm, Tolend Rd., North Pine, South Pine, Fifth, Belknap, Nelson, School and Locust. The cost of this work was \$3,557.32. The total cost of the tar and asphalt binders and maintenance oiling was \$15,105.34. This took 707 loads of sand, 63 loads of water, and 130,294 gallons of binder. This total cost includes hauling the sand covering the tar and the cost of the binder.

Hough street was constructed of hot top at a total cost of \$769.93.

The material used on the streets and referred to as fill is the hot top and stone that was taken from the Avenue when the cement was put in.

#### RUTLAND STREET SEWER

Completed June 1929. 3130 ft. of 18 in. pipe laid, 1201 ft. of 12 in., 3241 ft. of 10 in., 4014 ft. of 8 in., 2100 ft. of 10 & 12 in., 52 manholes and 8 catch basins.

Ames Construction Co.....	\$ 34,528.64
Chas. Avery, Inspector.....	195.75
John Gorman, Inspector.....	134.80

Geo. Foster, advertising proposals	\$ 12.50
W. H. Wheeler, engineer services	15.62
Total	\$ 34,887.31

## CEMENT PAVEMENT, CENTRAL AVENUE

Completed August 28, 1929.

Total paid to Robie Construction Co.	\$ 34,511.00
Other Misc. engineering, specifications, etc.	991.20
Fixing crossings & cleaning up	41.72
Total	\$ 35,543.92

Receipts on cement.

Portland cement Ass., $\frac{1}{2}$ inspectors pay while the mixer run	\$ 76.05
Sale of plans	20.00
John Culliane, $\frac{1}{2}$ cost of cement sidewalk	91.90
	\$ 187.95

This makes the actual cost to the city of the  
cement \$ 35,355.97

## OAK STREET SEWER

Engineer services and labor \$1,891.21. Pipe and material \$855.74 making the total cost \$2,746.95.

## MAIN STREET SEWER

Engineer services and labor \$880.97. Pipe and material \$205.88 making the total cost \$1,086.85. There will be more backfilling to be done in the spring before the street can be put in its former condition.

The Monroe Street sewer was started in December and will not be finished until sometime in 1930.

The road machine and tractor was used on 30 streets at a cost of \$769.01. The roller was used on 20 streets.

In doing the miscellaneous patching on the different

streets, 12 loads of stone, 14 of gravel, 17 of cinders, and 95 of cold patch were used. The total cost was \$1,300.12.

Asphalt gutters and driveways were put in on Central Avenue, Fifth, Coheco, and Portland Avenue at a total cost of \$218.38.

278 feet of guard rail was put in, in the city, at a cost of \$55.10. The Central Avenue bridge was repaired using 2 loads of stone and 2 loads of fill at a cost of \$4.24. The City Farm Bridge was replanked at a cost of \$388.55.

718 loads of cinders put on sidewalks cost \$1,096.94. 222 loads of sand on the sidewalk cost \$946.61. Gutters cleaned 122 loads cost \$324.41. 675 loads of snow hauled off cost \$764.94. Sidewalks and Highways broken out at a cost of \$519.07. Catch basins cleaned in the winter cost \$215.77, in the summer 169 loads cost \$499.47. 202 loads of sand stored to put on sidewalks, cost \$515.42. 37 loads of cinders for various uses stored at a cost of \$19.79. Streets cleaned 155 days, loads 1327 cost \$2,533.85. 644 loads of leaves hauled off. 52 loads of water used to sprinkle streets cost \$59.70.

#### NECESSARY REPAIRS AT THE CITY FARM

Building put up over the cold patch mixer \$106.07. Miscellaneous repairs in the barn, this includes new windows, garage doors, lights and new floor in garage, \$146.38. Cement platform to main entrance to barn \$71.70. Brick wall and piers in barn cellar \$25.10. Paper, painting and plastering the care takers house, \$72.16.

8 new catch basins were put in and 9 repaired, cost \$304.96. 9 metal culverts, 7 lengths of akron pipe and 2 wooden culverts were put in at a cost of \$209.83. In repairing and putting in new driveways and drains 7 metal culverts, 59 ft. of akron pipe, 5 wooden culverts, 2 loads of crushed stone and 4 loads of cinders were used at a cost of \$399.22.

Curbing and edgestone reset at a cost of \$111.61.

78 sq. yds. of cement sidewalk and 36 sq. yds. of hot top sidewalk were laid. Sidewalks were repaired and the brick relaid at a cost of \$123.58.

A new Ingersoll Rand compressor and a gas engine and pump has been purchased jointly by the Water Department and the Highway Department.

Respectfully submitted,

ERNEST L. LUCAS,  
Street Commissioner.

**ANNUAL REPORT**  
**OF THE**  
**BOARD OF POLICE COMMISSIONERS**

---

HIS HONOR, THE MAYOR, AND GENTLEMEN OF THE CITY COUNCILS:

We have the honor to submit the following report of the business of the Dover police department for the year 1929.

Governor Charles W. Tobey and his council re-appointed Owen Coogan for the three year term beginning September 7, 1929.

The organization of the commission was as follows: Charles E. Lord, chairman; Thomas W. Webb, clerk; Owen Coogan.

The department has been very active as can be seen by the City Marshal's report, which is attached to and made a part of our annual report.

Along with the regular activities of the department Central Avenue underwent reconstruction of cement. The Stop and Go signal system was also installed during the busiest part of the season's tourist travel, which was exceedingly heavy. During this period detours had to be devised to accommodate our visiting guests with as little trouble and inconvenience to them as possible. All this was accomplished by the regular members of the department thereby incurring no extra expense to the city while construction was in progress.

PERSONNEL OF THE DEPARTMENT  
FOR THE YEAR 1930

CHARLES C. CROWLEY, City Marshal.  
RAYMOND P. LOUGHLIN, Assistant Marshal.  
WILLIAM D. LOTHROP, Sergeant.

Delivered to out of town police .....	9
Delivered to U. S. Marshal .....	8
Delivered to federal narcotic agent .....	1
Discharged without trial .....	31
Discharged after trial .....	5
Delivered to state industrial school .....	1
Nol-prossed .....	5
Placed on file .....	6
Paid fines and cost .....	61
Paid cost .....	1
Suspended mittimus call of court .....	21
Sentenced to industrial school .....	2
Sentenced to industrial school mittimus to issue call of court .....	2
 Total .....	 <hr/> 230

#### FINANCES

Appropriation .....	\$ 26,500.00
Earnings .....	2,617.45
	<hr/>
	\$ 29,117.45
Expended .....	\$ 32,348.39
Resources .....	29,117.45
	<hr/>
Deficit .....	\$ 3,230.94

This deficit was attributable to installation of traffic

lights occasioned by reconstruction of Central Avenue, and decrease in police court revenues.

Number of ambulance calls during the year.....	101
Number of lodgers put up at police headquarters for year .....	409
Number of doors and windows found unlocked by the patrolmen .....	447
Number of street lights reported out by the pa- trolmen .....	484
Amount of lost and stolen property recovered by the department .....	\$ 6,587.68
Fines paid into treasurer.....	2,617.45

At this time I wish to extend to Honorable Patrick W. Murphy, Clerk Bert Wentworth, Solicitor Albert P. Sherry, and Ralph W. Caswell, Commissioner of law in-forcement, my heartiest appreciation for their valuable co-operation and ever ready assistance.

I also desire to commend all officers of the depart-ment for the manner in which they have performed their duties, which they have at all times discharged in a very commendable and satisfactory manner.

Respectfully submitted,

CHARLES C. CROWLEY,

City Marshal.

December 31, 1929.

**ANNUAL REPORT**  
**OF THE**  
**CLERK OF THE MUNICIPAL COURT**

---

GENTLEMEN OF THE CITY COUNCILS:

The following cases have been entered in the criminal docket for the year ending December 31, 1929.

Adultery .....	1

1925.....	2,928	1,691	7,823	12,443
1926.....	2,127	1,358	6,790	10,275
1927.....	2,855	1,457	7,614	11,926
1928.....	3,958	1,623	8,157	13,738
1929.....	3,651	2,522	8,037	14,910
Total.....	54,809	308,721	161,595	247,977
Average for year....	2,283	1,286	6,733	10,332

Supplementing the foregoing information it might be illuminating to present the ratio which the number of

partially paying and absolutely free patients bear to the total number of patients admitted.

Year	Patients Admitted	Paying in Full	Paying in Part	Absolutely Free	Ratio Free to No. Admitted
1906.....	75	65	7	3	4.00
1907.....	307	285	2	20	6.61
1908.....	338	270	12	56	16.57
1909.....	325	282	16	27	8.30
1910.....	400	303	70	27	6.75
1911.....	421	328	18	75	17.81
1912.....	415	378	1	36	8.67
1913.....	466	405	10	51	10.90
1914.....	441	330	14	97	22.00
1915.....	552	432	16	104	18.84
1916.....	480	387	22	71	14.79
1917.....	513	434	24	55	10.20
1918.....	759	601	25	133	17.52
1919.....	710	607	24	79	11.12
1920.....	950	836	13	101	10.63
1921.....	1,008	897	17	94	9.32
1922.....	960	802	11	147	15.31
1923.....	1,106	953	25	128	11.57
1924.....	973	850	11	112	11.51
1925.....	933	783	14	136	14.57
1926.....	779	638	34	107	13.74
1927.....	983	789	45	149	15.16
1928.....	1,029	781	50	198	19.24
1929.....	1,039	809	42	188	18.06
	15,962	13,245	523	2,048	13.05

An analysis of the foregoing statistical tabulations reveals many interesting facts which might escape the attention of the casual reader, hence we have taken the liberty of briefly summarizing some of the more important institutional activities of the year, that their relation to the physical and material interests of the city may be more clearly understood.

The number of accident cases treated at the hospital during the past year is not only larger than for any previous calendar period, but is more than double the annual average for the twenty-four years the hospital has been in operation. To be prepared for the reception and treatment of these patients requires the maintenance of an adequate corps of experienced hospital attendants, a requirement which forms quite a factor in the general cost of maintenance.

While it is in evidence that the average daily cost for treatment in the various hospitals throughout the country exceeds the average daily revenue received from that source, yet it is generally conceded that institutions functioning in the best interest of the public are an asset to the community where they are located, and are not considered as a possible source of revenue.

The number of emergency cases practically parallel the number of accident calls, and these two phases of hospital work, supplemented by the number of patients brought to the institution by ambulance, forms substantially thirty-five per cent of the total number of admissions.

Of the 1,039 patients admitted, 188 were given 3,651 days of absolutely free service, or an average of about twenty days each; of the 851 others, the average number of days' service rendered each patient was only thirteen. This variation in the length of time paying and non-paying patients remain in the hospital may have several explanations, yet the most prominent cause might very definitely be ascribed to the physical condition of the patient when admitted, and the resistance they can bring to bear upon their particular disease.

One hundred fourteen children were born at the hospital during the past twelve months, or about forty per cent of the registered births throughout the city for that period. The number of deaths, for the same period,

reached thirty-four. The number of deaths, however, forms no criterion upon which to base conclusions as to the efficiency of hospitals as a class. It is a recognized fact that hospital treatment, in most instances, is sought as a last resort; that the patient has exhausted other resources and seeks institutional ministrations in the hope that relief may be found.

Of the 1,039 patients admitted during 1929, 641 were from Dover, ninety-six other places scattered throughout New Hampshire, Maine, Massachusetts, New York, Vermont, Rhode Island, New Jersey, Pennsylvania, Connecticut and Canada, contributed the remainder. The largest number of patients from any one place was sixty-three from Somersworth; Durham contributed 60; South Berwick, 36; Portsmouth, 23; Rochester and Newmarket, 14 each; North Berwick, 13; Rollinsford, 10, and other towns ranging from one to nine.

Hospital Day was observed at the Wentworth Hospital on Sunday, May 12th, 1929, when the entire institution, including the Rollins Memorial Home for Nurses, was opened to public inspection from 1.30 to 5 o'clock in the afternoon. Hundreds of Dover residents, as well as many visitors from surrounding towns, availed themselves of the opportunity thus offered, and were unanimous in their expression of approval of the institution and its modernized equipment for the scientific and successful treatment of practically every form of human ailment.

The appalling catastrophe at Cleveland, Ohio, on May 15th, which followed an explosion in the X-Ray room of one of the largest hospitals in that city, suggested an immediate investigation into the manner in which the X-Ray department of the local hospital was conducted, and the adoption of such measures as would guarantee the highest measure of protection to all parties in interest.

The alterations and additions to the domestic facilities of the institution, and the installation of a refrigerating plant, while involving the expenditure of quite a sum of money, have already demonstrated their economic value, and will continue, for years to come, to minimize the maintenance cost in those particular branches of hospital service.

The average daily cost of treatment of patients based upon the actual maintenance charges for the past year, was \$4.85. These figures compare favorably with the per capita cost in other similar institutions. Upon this basis of cost, the service rendered those who were unable to pay, would reach the rather surprising total of \$17,707.35, or about 67½% of the total amount received from the city for hospital maintenance.

That the average patient registered at the hospital receives the benefit of the entire resources of the institution at a per diem charge considerably less than the actual cost for such service, is evident from statistical computation, and clearly shows that the hospital, in its administrative capacity, is humanitarian in its functional activities, and distributes its largess irrespective of the financial standing or ability to pay of those who seek its ministrations.

We believe that the Wentworth Hospital today is adequately equipped to perform its duties to its patients, at a minimum of cost, and with the exception of accommodations for those afflicted with contagious diseases, is prepared to satisfactorily fulfill its mission as a Class A institution.

For all details relative to the internal administration of affairs, you are respectfully referred to the detailed reports of the Superintendent and other department officials, hereto attached, and made a part of this report.

Respectfully submitted,

T. JEWETT CHESLEY,  
ALONZO G. WILLAND,

## REPORT OF THE SUPERINTENDENT

---

TO THE BOARD OF TRUSTEES:

GENTLEMEN:—Your superintendent submits the following report for the year 1929.

Number of patients in the hospital.....	31
Paying .....	22
Free .....	9
Total number of patients admitted from January 1, 1929 to January 1, 1930.....	1,039
Number of paying patients.....	809
Number of part pay patients.....	42
Number of free patients.....	188
Total .....	1,039
Total number of accidents.....	147
Number of emergencies.....	146
Number of ambulance patients.....	79
Number of deaths.....	34
Civic conditions:	
Single .....	550
Married .....	429
Widowed .....	60
Total .....	1,039

## Conditions treated:

Medical .....	248	
Surgical .....	459	
Nose and throat .....	180	
Ophthalmic and aural .....	38	
Births .....	114	
		<hr/>
Total .....		1,039

## Causes of death:

Abscess of orbit .....	1
Amputation, traumatic, of right thigh and left leg; lacerated wounds, shock .....	1
Anemia, pernicious .....	1
Anemia, pernicious, Tuberculosis of lungs, incipi- ent, miscarriage .....	1
Appendicitis, acute with peritonitis .....	1
Broncho-pneumonia .....	1
Broncho-pneumonia, gastric and duodenal ulcer..	1
Carcinoma of cheek .....	1
Carcinoma of intestines .....	1
Carcinoma of rectum .....	1
Colitis, ulcerative and tubercular .....	1
Diabetes mellitus .....	1
Empyema of pleura .....	1
Fracture of femur, transverse .....	1
Fracture of femur, simple oblique, gangrene senile of toes .....	1
Fracture of skull .....	1
Fracture of skull, simple, fracture and dislocation of spine, simple .....	1
Hemorrhage, intracranial .....	1
Influenza, acute edema of lungs .....	1
Malnutrition .....	1
Meningitis, cerebral .....	1

Meningitis, Tuberculous cerebrospinal.....	1
Mitral insufficiency, arterio sclerosis, general....	1
Myocarditis, acute, chronic cholecystitis.....	1
Myocarditis, chronic .....	1
Myocarditis, chronic, acute cholecystitis .....	1
Nephritis, chronic .....	1
Pneumonia, lobar .....	1
Prematurity .....	3
Prostate, hypertrophy of.....	1
Septicemia, puerperal (admitted with).....	1
Streptococcus; infection general .....	1

## Condition of those discharged:

Well .....	760
Relieved .....	197
Not relieved .....	12
Not treated .....	8
Died .....	34
*In hospital .....	31

Total .....	1,042
Stillborn .....	3

## Occupation of those admitted:

Accountant .....	1	Business woman .....	1
Agent, insurance ....	1	Caretaker .....	1
Agent, telephone ....	1	Carpet fitter .....	1
Antique dealer .....	1	Carpenter .....	6
Athletic coach .....	2	Cashier .....	1

The Hospital has been unusually taxed with accident and emergency patients. Many times we have had a shortage of private rooms, and the wards have had extra beds to accommodate our patients.

A real need exists for a contagious department, and such a department would relieve many families of the necessity of quarantine which so often causes a real crisis in financial situations. When the bread winners are in quarantine the family income stops.

The painting done inside has been most satisfactory and the hospital has been greatly improved in appearance. Outside painting is still needed, and I trust the Board of Trustees can find a way to have this done in the near future.

The usual repairs have been looked after as needs arose. The Morris chairs in the private rooms need to

be replaced, as they have arrived at the point where they are almost past repairing.

The amount of work done in the Laboratory increases, and it is astonishing when one comes to realize the demands on this department. The report of the Pathologist is appended.

The X-Ray department is invaluable, and more and more patients are coming to realize that this important adjunct of the Hospital is a necessity in helping diagnose many conditions.

The Training School for Nurses is able to keep up its number, as we have more applications than we have vacancies. The class work is increasing constantly, and a great deal of time is spent by the pupil nurses in preparing their subjects.

Miss King, for seven years our night supervisor, resigned in September, to take a needed rest. We miss her very much. Faithful and interested in her work, and always trustworthy, she has left a real vacancy in the hospital family.

We thank the various members of the City Departments for their ready response when we are in need of their various services.

As usual, I thank the Board of Trustees, Mr. Fred E. Quimby and Miss Ellen M. Galucia for their many courtesies and considerations.

Respectfully submitted,

GRACE P. HASKELL, R. N.

Superintendent.

## PINE HILL CEMETERY

---

### REPORT OF THE SUPERINTENDENT

---

TO THE HONORABLE BOARD OF TRUSTEES:

GENTLEMEN:—I have the honor to submit herewith the annual report of the Superintendent of Cemeteries for the year ending December 31, 1929, together with a brief summary of the work accomplished during my incumbency.

Mr. Frank P. Coleman, who has served continuously as superintendent of cemeteries since his first election in 1891 passed away at the Palmer Memorial Hospital, Boston, Massachusetts, on the fifth day of February last, following a brief illness. At an adjourned meeting of the board of trustees held February 25th, 1929, your present superintendent was chosen to fill the vacancy, and much of the work of the year has been done under his supervision.

In addition to the general care of the cemetery premises, including the care of some 1200 lots which are guaranteed under individual trusts, sixty-nine foundations for monuments and tablets have been put in, and a new thirty-five lot section has been graded in the new addition and is now available for use.

The sidewalk curbing on the Central avenue front of the Cemetery grounds has been reset and the sidewalk regraded, which adds materially to the appearance of the premises.

We are indebted to Miss Florence Woods for a new and attractive fence on the street line of the "Old Bury-

ing Grounds" on the Dover Point road, which fence she erected without cost to the city, connecting with a similar fence enclosing her own land which lies on both sides of the city's property.

In the following tabulations is given the names and particular place of burial of persons committed to my care together with the date of internments.

### REPORT OF WATER COMMISSIONERS

---

TO THE CITY COUNCILS OF THE CITY OF DOVER:

GENTLEMEN:—We submit herewith the forty-second annual report of the water commissioners, covering the fiscal year ending December 31, 1929.

The personnel of the board was as follows: Hon. T. Jewett Chesley, president; Luke H. McEwan, vice-president; Alonzo G. Willand, secretary; John Clancy, Gerald A. Scarr.

The water in Willand pond is only four inches lower than it was one year ago, notwithstanding the fact that the rainfall during the past twelve months was considerably below normal. The Hussey springs are in excellent condition, supplying a large amount of water, practically one-third of the present consumption. Reports from the State Board of Health show that the water furnished the citizens of Dover is of excellent quality.

More than one mile of distributing mains have been laid during the year just closed.

A summary of the work accomplished during the year, the changes and improvements made, together with a detailed list of the receipts and expenditures, are contained in the report of the superintendent, which is annexed to and made a part of this report.

#### RECEIPTS AND EXPENDITURES

##### RECEIPTS

GERALD A. SCARR,  
Board of Water Commissioners.

Dover, N. H., December 31, 1929.

## DOVER WATER WORKS

---

### REPORT OF THE SUPERINTENDENT

---

TO THE BOARD OF WATER COMMISSIONERS:

GENTLEMEN:—I have the pleasure of presenting the forty-second annual report of the Superintendent of the Dover Water Works, showing the general condition of the department, together with a summary of the work accomplished during the year ending December 31, 1929.

The past year has been an unusually active one, many requests for extensions of the service in various parts of the city having been presented, all of which requests were favorably considered.

Supplementing the new road construction programme on Central avenue, it was decided to renew all water services within the area to be treated in 1929 before the cement surface was placed in position. These replacements involved quite an expenditure of money, and was particularly timely as many of the services were found to be in very bad condition.

The extensions made during the past season cost \$16,195.00, and the general maintenance aggregated \$30,050.67. In addition, \$10,000.00 was paid into the city treasury to meet the requirements of the appropriation budget, and a further sum of \$8,000.00 from the department earnings was transferred to the city's credit. The balance on hand to the credit of the department at the close of the year was \$10,881.64. The receipts for the year were \$6,000.00 more than for any similar period since the establishment of the water system.

The coming to Dover of the Elliot Rose Company, whose ultimate ambition is to have the largest hot house plant in the United States, necessitated the extension of a six-inch main along Stark avenue a distance of 2,860 feet. This work was done by the department at a considerable saving over the contractors' estimate, and at little inconvenience to the travelling public. There were 780 feet of six-inch pipe laid on the company's property, the department receiving reimbursement for all expense involved. This plant, although only one-third completed, bids fair to be the largest consumer of water in the city. In addition to the construction above referred to seven residences were connected with the main, and a hydrant for fire purposes located at the end of the line.

Other extensions were as follows:

- 375 feet of six-inch pipe on Oak street;
- 785 feet of six-inch pipe on New Rochester road;
- 663 feet of six-inch pipe on Back River road;
- 220 feet of six-inch pipe on Birchwood avenue;
- 200 feet of six-inch pipe on Pearl street;
- 212 feet of four-inch pipe on Everett street;
- 100 feet of four-inch pipe on Horne street.

In the fall of 1928 considerable work was done at the Hussey springs for the purpose of conserving all the available water in that locality, by laying new pipes from the various wells, with the result that during the past year about one-third of our water supply was derived from that source. This supplementary supply relieved the demand on Willand pond to such an extent that although the rainfall for the past year was very much below normal, the pond level is only four inches below that obtaining one year ago.

The erection of the new business block on the Pacific Mills lot, so called, by the Franklin Square Corporation, necessitated the cutting of the main from the Pacific

mills supplying the four-way hydrant in front of the Royal Restaurant on Central avenue. This hydrant was removed, and a steamer hydrant installed on Broadway near its junction with Central avenue, to insure better protection to property in that locality.

All of the fire hydrants have been regularly inspected, and repairs made where necessary; the filtration plant is in good condition, but the beds will have to be refilled during the coming season. At the Lowell avenue and pond stations everything is in a satisfactory condition.

Seventy-one new meters have been installed during the year, and two hundred forty have been renovated or replaced with new ones.

Frequent analysis of the water supply has been made during the year by the State Chemist, and in every instance it has been shown to be of excellent quality.

Following are tables and figures showing the activities of the department in detail:

Services renewed .....	72
Services added .....	42
Services discontinued .....	5
Repaired inside street line, charged to owner...	69
Repaired outside .....	43
Frozen .....	
Shut off and turned on .....	39
Number of services at date.....	2,273
Meters repaired .....	240
Repaired by the department.....	240
Repaired at factory .....	0
Meters tested .....	32
Replaced with new .....	25
Frozen .....	2
New meters set .....	71
In use at date .....	2,060
Hydrants added to system .....	4

Hydrants repaired .....	6
Gates set in hydrant branches.....	2
Distribution system leaks .....	9
Gates repaired .....	12
New gates set.....	8

## RAINFALL

Rainfall in inches as recorded at the pumping station for the years 1922 to 1929, inclusive.

### FINANCIAL SUMMARY

January 1, 1929, cash on hand.....\$13,650.95

Bills due previous to Jan. 1,  
1929:

Sale of meters .....	\$ 0.00	
Service piping .....	393.06	
Fixed rates .....	127.50	
Metered rates .....	6,060.02	
Repairs .....	99.17	
Miscellaneous .....	23.00	
	<hr/>	\$ 6,702.75

Bills sent to consumers:

Sale of meters .....	374.50	
Service piping .....	3,032.32	
Fixed rates .....	2,554.10	
Metered rates .....	47,139.40	
Repairs .....	1,362.32	
Miscellaneous .....	404.44	
Hydrants .....	6,250.00	
	<hr/>	\$61,117.08
		<hr/>
		\$67,819.83

Rebates:

Sale of meters .....	\$ 15.00	
Fixed rates .....	52.25	
Metered rates .....	145.09	
Miscellaneous .....	3.50	
	<hr/>	\$ 215.84
		<hr/>
		\$67,603.99

## Uncollected:

Service piping .....	\$ 940.61	
Fixed rates .....	113.00	
Metered rates .....	4,844.71	
Repairs .....	216.35	
Miscellaneous .....	12.96	
	<u>          </u>	\$ 6,127.63
		<u>          </u> \$61,476.36
Total .....		\$75,127.31

## SUMMARY OF ACCOUNTS RECEIVABLE

## Received from:

Sale of meters .....	\$ 359.50	
Service piping .....	2,484.77	
Fixed rates .....	2,516.35	
Metered rates .....	48,209.62	
Repairs .....	1,245.14	
Miscellaneous .....	410.98	
Hydrants .....	6,250.00	
	<u>          </u>	
Total .....		\$ 61,476.36
Cash paid to city treasurer.....		\$ 61,476.36

## SUMMARY OF ACCOUNTS PAYABLE

## Construction:

Service piping .....	\$ 2,919.17	
Distribution piping .....	11,821.27	
Meter service .....	1,454.56	
	<u>          </u>	\$ 16,195.00

## Maintenance:

General .....	\$ 7,253.10

## DOVER WATER WORKS

---

### SUMMARY OF STATISTICS

---

For the year ending December 31, 1929, in form recommended by the New England Water Works Association.

DOVER WATER WORKS, CITY OF DOVER  
STRAFFORD COUNTY, NEW  
HAMPSHIRE

---

#### GENERAL STATISTICS

Population at date, 14,193.

Date of construction, 1888-1889.

By whom owned, City of Dover.

Source of supply, pond and springs.

Mode of pumping (whether gravity or pumping),  
pumping.

#### PUMPING STATISTICS

##### High Service Station

Builders of pumping machinery, DeLaval Pump Co.,  
Westinghouse and General Electric Co.

Description of fuel used, electricity and coal.

Average price of coal per net ton, \$9.00.

Coal consumed for the year, 63,700 lbs., for heating.

Average static head against which pump works, 188  
feet.

Average dynamic head against which pump works,  
206 feet.

Electric driven pump—description of power:

Alternating, 3 phase, 60 cycles, 550 volts, 1,700 R.

P. M.

1. K. W. H. of electricity used, 242,077.
2. Pumpage by electricity, 239,710,000. gallons.
3. Gallons pumped per K. W. H., 990.
4. K. W. H. used per 1,000,000 gallons pumped, 1010.

5. Total pumpage for the year, 239,710,000 gallons.  
Cost of pumping, figured on pumping station expenses, \$7,896.53.

Per million gallons pumped, \$32.94.

Per million gallons raised one foot (dynamic), \$0.625.

#### Low Pressure Station

Description of power:

Alternating, 3 phase, 60 cycles, 550 volts, 1500 R.

P. M.

Average static head, 18 feet.

Average dynamic head, 25 feet.

K. W. H. electricity used, 33,513.

Gallons pumped per K. W. H., 4,436.

K. W. H. used per 1,000,000 gallons pumped, 225.

Total pumpage, 148,689,000.

#### STATISTICS OF CONSUMPTION OF WATER

Estimated total population at date, 14,193.

Estimated population on lines of pipe, 12,750.

Estimated population supplied, 12,750.

Total consumption for the year, 239,710,000 gallons (Venturi meter).

Passed through meters, 147,318,607 gallons (consumers' meters).

Percentage of consumption metered, 85 per cent.

Average daily consumption, 656,739 gallons.

Gallons per day to each inhabitant, 46.2.

Gallons per day to each consumer, 51.5.

Gallons per day to each tap, 288.9.

Cost of supplying water, per million gallons, figured on total maintenance, \$79.76.

STATISTICS RELATING TO DISTRIBUTING  
SYSTEM MAINS

Kind of pipe, cast-iron and wrought-iron, cement-lined.

Sizes, from 4-inch to 16-inch.

Extended, 5,415 feet during the year.

Total now in use, 29.085 miles.

Number of hydrants added during the year (public and private), 5.

Number of hydrants (public and private) now in use, 256.

Number of stop gates added during the year, 7.

Number of stop gates now in use, 319.

Range of pressure on mains, 54 lbs., to 120 lbs.

SERVICES

Kind of pipe, wrought-iron, cement-lined, cast-iron, and copper.

Sizes, 1 to 8 inch.

Extended, 2,996 feet.

Discontinued, 192 feet.

Total now in use, 21.19 miles.

Number of service taps added during the year, 42.

Number now in use, 2,273.

Average length of service, 71 feet.

Number of meters added, 71.

Number now in use, 2,060.

Percentage of services metered, 89.

Percentage of receipts from metered water, 78.5.

Number of motors added, none.

## DOVER PUBLIC LIBRARY

---

### OFFICERS FOR THE YEAR 1929

T. JEWETT CHESLEY, ex-officio, mayor of the city.  
ALONZO G. WILLAND, ex-officio, president of common  
council.  
DWIGHT HALL, elected 1920, term expires 1929  
ROSCOE G. BLANCHARD, elected 1908, term expires 1930  
ARCHIBALD B. PATON, elected 1924, term expires 1931  
FRED HOOPER HAYES, elected 1900, term expires 1932  
CLARENCE I. HURD, elected 1901, term expires 1933  
ERNEST C. LORD, elected 1929, term expires 1934  
MRS. ELIZABETH A. WELCH,  
elected 1929, term expires 1935

---

President of the Board,  
THE MAYOR.

---

Secretary,  
CLARENCE I. HURD.

---

Treasurer,  
ELLEN M. GALUCIA.

---

Committees,  
Library—HAYES, BLANCHARD, HALL.  
Finance—MRS. WELCH, LORD.  
Building—THE MAYOR, PRESIDENT OF THE COMMON  
COUNCIL, THE SECRETARY.

Librarian,  
CAROLINE H. GARLAND.

---

Assistant Librarian,  
BEATRICE M. G. JENKINS.

---

Assistants,  
BESSIE I. PARKER, in charge of Children's Room.  
MINNIE P. MORRILL, in charge of Cataloguing.  
MILDRED E. MORRISON, in charge of Circulation.

---

Janitor,  
PERLIE P. STEVENS.

**ANNUAL REPORT**  
OF THE  
**BOARD OF TRUSTEES**

---

TO THE CITY COUNCILS OF THE CITY OF DOVER:

The trustees of the Public Library have exercised their usual care in oversight of all bills and consideration of all needs, and their meetings have been held regularly each month, except during July and August, with good attendance. The library is in good condition and for details of its work reference should be made to the reports of librarian and treasurer, appended to and made a part of this report.

The trustees record with deep regret the loss by death of one member of the Board, Mr. Archibald B. Paton, who, after a lingering illness died on December 4th of this year. His loss is mourned by his associates, who hold in high regard his genial presence and his un-failing friendship and practical counsel.

There have been two changes in membership during the year. To fill the position made vacant by the death of Mr. John H. Nealley in the last month of last year, Mrs. Elizabeth A. Welch was elected on May 2, 1929. On Oct. 11, 1929, Mr. William H. Roberts resigned and on December 5, 1929, Mr. Ernest C. Lord was elected to fill his place.

For the trustees,

CLARENCE I. HURD,  
Secretary.

## TREASURER'S REPORT

---

### RECEIPTS

Balance from 1928 .....	\$ 556.39
Annual appropriation .....	9,100.00
Fines .....	316.94
Lothrop fund income .....	50.00

## FINANCE COMMITTEE'S REPORT

---

TO THE TRUSTEES OF THE DOVER PUBLIC LIBRARY:

This is to certify that we have examined the financial accounts of Ellen M. Galucia, treasurer, from January 1 to December 31, 1929, and find them to be correctly cast, properly vouched and the balance on hand to be as represented. We have also examined the several investments and find them to be as represented in the report.

ELIZABETH A. WELCH,  
ERNEST C. LORD,

Finance Committee.

Dover, N. H., December 31, 1929.

## REPORT OF LIBRARIAN

---

TO THE BOARD OF TRUSTEES OF THE DOVER PUBLIC LIBRARY:

GENTLEMEN:—The report of the librarian, showing the work of the library for the year 1929, is herewith presented.

### THE YEAR'S GROWTH

Whole number of volumes January 1, 1929.....	54,149
Volumes purchased .....	555
Volumes received by gift.....	128
Bound periodicals .....	170
	<hr/>
Total number of accessions .....	853
Received from U. S. Government, 4,089 volumes and pamphlets.	
Worn out volumes withdrawn .....	168
	<hr/>
Total increase for the year.....	685
	<hr/>
Total number of accessioned volumes December 31, 1929 .....	54,834

### THE YEAR'S WORK

The prevalence of influenza in last January brought about such a drop in the circulation of books that it seemed as if the year must show a loss in figures. But the last half of the time made up the deficiency so that the end of the year shows the same number as 1928, with a gain of 200. The year's circulation is 68,647 of which 14,250 is from the children's room. This means an aver-

age circulation of nearly five books for each man, woman and child in the city. No books have been lost from the children's room in this circulation and only three from the main room. The smallness of this loss has been due to the unremitting care of the attendants in charge, who by mail notices and letters, personal calls, and repeated requests, manage to recover most of their books, even when they have been carried away from the city. Once this year in answer to repeated letters, two books were returned from California, where they had been taken by a family leaving town.

The most important new work of the year has been the new registration of borrowers, begun in September. The old registration had never been revised since the opening of the Library in 1884, and had reached a number over 21,000. This list included the names of many persons who had died or moved away or given up cards and it seemed best to make a new list, which should contain only the names of active borrowers. On that January afternoon in 1884, when the Library opened to the public, now nearly forty-seven years ago, a group of high school boys were the first to enter and ask for cards. John H. Quint, now a minister settled in Chelsea, Mass., registered first and obtained card number one, a fact that he always recalls with pleasure, whenever he returns to this city. The first book asked for was *Ivanhoe*. Of the 160 persons who registered that first afternoon 14 are still living in town and still borrowing books. One of this 14 is now a trustee of this library. The new registration made a good deal of work because every applicant for a book had to fill out a new application blank and receive a new number. Up to the present time 1,675 persons have taken out new cards.

#### BOOKPLATES

Considerable work has been done on the Bookplate

collection this year. For several years whatever book-plates have been acquired by gift or exchange have been allowed to accumulate without mounting. This year however, these have been sorted, mounted, had cards made for them and been filed alphabetically in the boxes with the rest of the collection. Nearly 500 duplicates were taken out and held for exchange. The whole collection now numbers over 4000. One box contains examples of historical styles, another holds specimens of the work of different designers, another contains a collection numbering 71 of the work of S. L. Smith, perhaps the most noted of present day designers, and the remaining 25 boxes contain the collection of individual plates, arranged alphabetically. The most noteworthy single plate added this year is that of President Coolidge, obtained through the courtesy of the Library of Congress assistant detailed to arrange the books of the President's library. He was a friend of this library and was given permission to send the plate here. A collection of book-plates is not a vital necessity to a public library, but it appeals strongly to persons of fine tastes and its ownership confers distinction on the institution.

Work has also been done in mounting pictures of old houses. It will be remembered that several years ago an exhibition of amateur photography of Dover's old houses was held here at the library, attracting much attention. These photographs have now been arranged in scrap books and form an interesting set of views of local exteriors, interiors, doorways, fireplaces, panelling, and stairways. There are 150 of these photographs all suitably arranged and labeled. They make a welcome addition to the historical room.

In the historical room, too, has been done some work on certain old maps. These old maps, yellow and time-worn, but still distinct and usable, came to this library from the old corporate Dover library. Some of them are

over a hundred years old; one, a topographical map of New Hampshire, bears the date of 1784. It was printed in London for the geographer to the king. It was made by Samuel Holland, surveyor general of the colonies and of Canada for nearly 50 years. In 1775 he wrote to Lord Dartmouth that he was ready to run a line between Massachusetts and New York, and he lent to a surveyor in this region a survey of Maine, which by advice of the Provincial Congress of Massachusetts was never returned to him, "fearing" it was said, "that it might be used to the prejudice of the Whigs."

Another noteworthy map is that of Philip Carrigan, who served as Secretary of State for some years. He surveyed a great part of the state and in 1816 published so excellent a map that boundaries are still traced by it. He was the first to apply to New Hampshire the name of the Granite State.

Several county maps here are rare enough not to be found in the collection of the Library of Congress. They are by H. P. Walling, a cartographer connected with the U. S. Geological Survey. It was said that "to him more than any one else is due the better appreciation of good maps which is now bearing fruit in the national survey".

From the time of Walling's work more than half a century ago, the national government has gone on issuing detailed topographical maps of states and cities all over the country. In our department of public documents there are now over 300 of these maps and they are still coming.

This work of rearranging and filing was work that needed to be done but it was somewhat outside the daily routine of library activity. The regular work has gone on as usual. An average of 227 books have been sent out for circulation daily. Many hundreds of catalog cards have been made; much reference work has been done with high school students, assistance has been given

in debates, study clubs have been helped in their programs, information has been given by telephone, out of town requests for information have been answered by mail and weekly notices of new books have been furnished to the daily paper.

In May an exhibition of school health posters was held and in November an exhibition of new books for children's book week. In the summer the class in library science from the University of New Hampshire were received and in the fall was held a neighborhood meeting of librarians.

There has been one change in the Library staff. In September the resignation of Miss Devin, on account of ill health, was accepted. By her extraordinary aptitude in work and her personal charm Miss Devin had endeared herself to all users of the library during her ten years of service, and her resignation met with general regret. The vacancy was filled by the election of Miss Mildred E. Morrison, who has begun her work most satisfactorily. To the whole library staff public acknowledgment is due for their unflinching efforts to make library service all that it should be.

To the trustees is gratefully given continued appreciation of their counsel and kindly oversight.

Respectfully submitted,

CAROLINE H. GARLAND,  
Librarian.

December 31, 1929.

**ANNUAL REPORT**  
**OF THE**  
**SUPERINTENDENT OF SCHOOLS**

---

TO THE SCHOOL COMMITTEE OF THE CITY OF DOVER:

I take pleasure in submitting for your consideration, my twelfth annual report as Superintendent of the Dover schools.

The general work and results in the different departments of school activities are well and ably covered in the detailed reports of the heads of these departments, but as your administrator of the entire plant, my own special interest this year is centered on the remarkable increase in the number of pupils now in our schools, and the proportionately large increase, from year to year, in the expense of maintenance of the department. It has been found necessary to open three new rooms in the last three years, to provide for the overflow in first, second and seventh-eighth grades, and still we are crowded. This is a wholesome indication of growth in our city, and is not to be regretted in any way. Our family is growing, and we must provide for it. One new teacher has also been found necessary for the Mechanic Arts High school, and another room equipped and opened up in that department. The cost of maintenance of this work is much higher than in the older classical and scientific courses, but the fact that the course is so popular, so much appreciated by parents and children, proves its value in preparing students to go out into the world ready to earn their own living. We must expect, and be prepared for, the reasonable and natural increase in the school budget. It may and probably will be necessary

to open still more rooms, and engage more teachers, and such expense will be a very definite increase over our present budget. At the same time I do not think that any great increase of salaries should be considered this year. We have a fine corps of teachers, and while in many cases larger salaries should be paid, I cannot feel that this should be done, while our needs are still so great in the matter of providing ample space and instruction for the children who are entering our schools in such large numbers every year. There are fifty-nine more pupils enrolled this year than last. Many of these are found in our expensive Mechanic Arts department. It costs money to provide teachers, books, supplies, benches and tools for these pupils. Out of the 85 school districts in the state, sixteen, most of which are very small towns, have a slightly lower average cost than Dover. Sixty-eight, including every city with a single exception, have higher costs. Our tuition rate for out-of-town pupils in the high school is now \$90.00, and I advocate raising this to \$100.00 at least. The average cost in the state is \$136.10 and it is probably true that even with this increase, the tuition rate charged to our out-of-town pupils would still be very low, considering present day costs.

Various unexpected expenses during the year would have caused a deficit were it not our good fortune to receive an unusual amount from three sources. The Smith-Hughes fund was about \$600 more than the sum previously awarded us. It was a welcome dividend, earned by the quality of work done by Dover schools. The dog tax, also, was larger by about \$125. The number of tuition pupils was also considerably increased, there being now 60 such pupils in the high school, and a few in the grades. Our revenue from this source was greater than last year by about \$600. Our schools are in fine condition, doing excellent work, and we have every right to be proud of them. We must keep our present high

standard, improving even that whenever possible, and at the same time do all that we can to keep down the cost to a reasonable figure. When we consider the fact that the federal expenses of our country are now increased by 379% over the cost of 1914, it is not a matter for surprise that school costs have, in the same time, increased 265% for the country as a whole. Nothing like this percentage of increase has taken place in Dover in spite of the fact that we have built an expensive addition to our high school. Our policy has been conservative and economical and should continue as such. At the same time I think I have made it clear that we must expect an increase in our budget next year to maintain our schools and take care of our needs even on this basis.

The following list of teachers, and the positions they hold, may be of interest to parents and citizens in general.

Several new names appear here, representing teachers employed to fill vacancies due to resignations last year.

Mr. Guy O. Edmunds, who is now Sub-master in the High school, and who came to us from Rochester, is no stranger to Dover schools, having done fine work in the Mechanic Arts school for several years, before taking charge of that department in our neighbor city. Under his able administration the work continues smoothly and satisfactorily. Mr. Clifton Dustin, who came to us when our Mechanic Arts department was but an infant activity, had the pleasure and satisfaction of seeing the splendid growth of this branch of school work, the development from a small ill-equipped one-room affair, into the object of pride which it has become to all Dover people. To Mr. Dustin and his unflinching interest and devoted service, the city owes much, and it is with great pleasure that I express our gratitude and appreciation for his faithful work in Dover schools. It is with pride that we note his elevation to a position of importance and responsibility in taking charge of the Department of Trades

and Industries, of which he is now Supervisor for the State of New Hampshire.

Mr. Harold Hanson, of the Mechanic Arts school, left us for a position in Rochester, and his place is now filled by Mr. Everett M. Winslow. Miss Marjorie M. West fills the position made vacant by the resignation of Miss Doris Spiller, and Clyde Garvin replaced Samuel Cutler, as Manual Training teacher. On his resignation in December, Mr. Harold E. Plante of Keene was elected to this position.

Physical Director, Ernest A. F. Anderson, resigned, is replaced by Mr. Oliver J. Adams. Mr. Harold C. Bingham, a new assistant in the high school, is an extra teacher found necessary, owing to the great increase in the registration.

At the end of the year, as we look over the results accomplished, we may take courage for renewed effort in our hopes and plans for the future of Dover schools. The increasing number of young people in our graduating classes, represents dividends to the tax-paying community. It shows that the business of getting a better education is attracting our older boys and girls. It shows the holding power of the schools on all classes of children. We find evidence of the equality of opportunity. We are giving them a precious gift. Let us make it still better as the years go by.

As a final word, I wish to speak of the great loss which the school department has suffered, in the death of Attendance Officer Sidney E. Taylor. For more than ten years his faithful service and kindly personality have given much help to all of us, teachers, superintendent,

and school board. We shall long hold him in affectionate remembrance.

Respectfully submitted,

J. E. WIGNOT,

Superintendent of Schools.

**ANNUAL REPORT**  
**OF THE**  
**HEADMASTER**  
**of the Dover High School**

To THE SCHOOL COMMITTEE:

Herewith I submit my twelfth annual report of the Dover High School:

ATTENDANCE

	1918-1919	1919-1920	1920-1921	1921-1922	1922-1923	1923-1924	1924-1925	1925-1926	1926-1927	1927-1928	1928-1929	1929-1930

ENROLLMENT BY CLASSES

Fall term.

Postgraduates:

Boys .....	1
Girls .....	1
—	
Total .....	2

Candidates for diplomas in June, 1930:

	1st year	2nd year	3rd year	4th year	Total
Boys .....	116	64	54	37	271
Girls .....	86	51	44	51	232
	—	—	—	—	—
	202	115	98	88	503

Postgraduates ..... 2

Grand Total ..... 505

Graduates of the city grammar schools:

Per cent of these pupils entering the high school in  
September, 1929:

Sawyer School .....	90.4
Central School A .....	92.5
Central School B .....	71.4
Central School C .....	90.4

Average percentage ..... 86.1

Per cent of admissions for the past twelve years:

	1918	1919	1920	1921	1922	1923	1924	1925	1926	1927	1928	1929
Central A	80	80	97.5	92.5	92.5	90.6	100	89.7	90	80	92.5	
Central B	60	68	48	84.8	87.8	50	66.6	92	75.7	80.8	73	71.4
Central C											85.7	90.4
Sawyer	84	90	80	85.3	91	87.8	86.5	78.7	80	81.8	78.5	90.4

The record of the pupils entering in September, after graduating from the grammar schools of the city, is approximately seven per cent higher than last year.

In the present freshman class there are two hundred pupils,—the largest in the history of the school.

This class includes not only those who were graduated from the public grammar schools and St. Mary's Academy, but also all grammar graduates who have come to us from the surrounding towns. The enrollment in this class alone is larger than the total membership in eighty per cent of the high schools of the state.

The membership in the other three classes is somewhat larger than usual; consequently, the school has a total enrollment of five hundred and five pupils.

During the fall, additional equipment was purchased, and ere long more space will be needed for the student body.

Since post secondary institutions are continually raising their requirements for entrance, it is absolutely

necessary that the pupils give more time and attention to their academic subjects, or they will fail to meet college or professional school standards for admission.

Athletic activities should have a place on our daily program, but they should not consume time which is needed in the academic and technical subjects.

The city has taxed itself to obtain money for the welfare of the coming generation. It desires that the young people may be trained for true American citizenship.

The parents of the pupils should make a great sacrifice to keep their children in school, that they may take advantage of the instruction and training freely offered by the public.

A reasonable time should be devoted to the daily preparation of all assignments. The instructors, in the main, are specialists in their respective subjects, are always interested in the young people, and are ever ready to assist them as opportunity offers.

All members of the teaching body are required to return, on a certain day of each week, to aid pupils who find difficulty in the preparation of their daily work, and to make up lessons due to unavoidable absence.

There are pupils in school who are unable to obtain a diploma in four years, but who usually, with encouragement, can accomplish the work and graduate at the end of the fifth year. Such students have, in many instances, made good records in higher institutions.

Pupils leaving school during the summer vacation:

	1927			1928			1929		
	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Tot.
Juniors	3	3	6	4	1	5	0	3	3
Sophomores	3	3	6	4	1	5	1	5	6
Freshmen	3	3	6	5	6	11	8	7	15
	—	—	—	—	—	—	—	—	—
	9	9	18	13	8	21	9	15	24

## Approximate percentage of enrollment by classes:

Postgraduates .....	100	0
Seniors .....	42	58
Juniors .....	56	44
Sophomores .....	55	45
Freshmen .....	57	43
<hr/>		
Total average without postgraduates...	52.5	47.5

The membership for the fall term, including post-graduates, was two hundred seventy-three boys and two hundred thirty-two girls.

The student body has increased from four hundred seventeen in September, 1927, to four hundred ninety-four in September, 1929.

Course	Class.		Sci.	Com'l.	M. A.	D. A.	Gen.	Com'l.	T'tl

Domestic arts (three classes).....	17
Domestic arts-Commercial (four classes).....	75
Commercial course (four classes).....	89
Commercial arithmetic and penmanship.....	59
Mechanic arts (four classes).....	117

#### MECHANIC ARTS PUPILS BY CLASSES

Seniors 13 or approximately 14.4% of the class.

Juniors 25 or approximately 25.7% of the class.

Sophomores 23 or approximately 20% of the class.

Freshmen 57 or approximately 28% of the class.

The number of pupils in the Mechanic Arts department is approximately twenty-three per cent of the total membership of the school.

Entrance for the past twelve years:

	1918	1919	1920	1921	1922	1923	1924	1925	1926	1927	1928	1929	Total
Entrance	39	43	55	88	71	60	62	69	84	82	77	118	848
Loss each year	19	18	11	5	5	5	2	9	6	5	3	4	92

This department is under the guidance of a skilled instructor with four assistants, who are especially well equipped to give the training required.

The boys, at graduation, should be prepared to enter employment which demands more or less technical skill.

#### OPEN NIGHT AT DOVER HIGH SCHOOL

Education week was fittingly observed at Dover High School on the evening of November 14. At that time the headmaster and the faculty were "at home" to the parents and other friends of the school. The teachers received in their respective rooms from 7 until 7.45 P. M. The Mechanic Arts Department was open for inspection and here the pupils interested in vocational training were seen at work.

At the close of the reception, the hosts and their guests assembled in the auditorium where they listened to a brief but exceedingly interesting program consisting of music by the Dover High School band, readings, tableaux, and solo dancing by the pupils of our public schools.

PROGRAM OF WORK AND REQUIREMENTS IN  
MECHANIC ARTS DEPARTMENT

The mechanic arts curriculum is administered as follows:

Year	Enrollment	Subject Matter	Hours per week
Freshmen	57	Wood shop	12.5
"		Mechanical drawing	2
"		Shop mathematics	4
Sophomore	22	Pattern Shop	12.5
"		Mechanical drawing	2
"		Shop mathematics	4
Junior	25	Machine Shop	12.5
"		Mechanical drawing	2
"		Electricity	4
Senior	13	Machine Shop	12.5
"		Mechanical Drawing	1
"		Shop Physics & Math.	4
"		Shop Organization	1

An increase in the freshman enrollment made it necessary to equip a third wood shop.

The teaching staff exerts every effort to make good use of the equipment provided to train boys in processes and operations (manipulative training), in repetitive experiences (practice), in the intelligent application of facts to guide skill (trade knowledge), and in auxiliary information.

The mechanic arts boy is further rounded out in his training by the academic high school in courses of history, economics, mathematics, and chemistry.

To enumerate project activity, as completed at the school shops, is well-nigh impossible in the space allotted.

Wood shop, however, provides as many experiences in cabinet making and related wood work, as seems advisable to attempt.

Pattern shop, as the name implies, provides the preliminary training to the metal trades and advanced wood work.

Each year this shop makes patterns of articles to be machined at the school.

Machine work consists of machine and hand tool work, welding, heat treatment of metals, etc. The most prominent project in this shop, at present, is a twenty inch band saw.

Drawing and related mathematics courses are as closely correlated to the shop courses as possible.

The school shops are in good condition and the physical equipment is proving very satisfactory for the purposes it was purchased.

MARCH—Band

#### DOMESTIC ARTS PROGRAM

Pupils:

Seniors 3 or approximately 3.3% of the class.

Juniors 0 or approximately 0% of the class.

Sophomores 5 or approximately 4.3% of the class.

Freshmen 9 or approximately 4.5% of the class.

#### COMMERCIAL PROGRAM

Pupils:

Seniors 21 or approximately 23.3% of the class.

Juniors 16 or approximately 16.3% of the class.

Sophomores 19 or approximately 16.5% of the class.

Freshman 34 or approximately 17% of the class.

#### COMMERCIAL- DOMESTIC ARTS PROGRAM

Pupils:

Seniors 15 or approximately 16.6% of the class.

Juniors 15 or approximately 15.4% of the class.

Sophomores 16 or approximately 13.8% of the class.

Freshmen 29 or approximately 14.5% of the class.

The percentage of students in the real domestic arts course is small in comparison with that of those who elected the commercial-domestic arts course.

Greater interest should be taken in domestic arts work in order that the young women may become skilled homemakers. Possibly a larger percentage of the girls

would choose this program, could suitable rooms be provided and equipped for this work.

## OUTLINE OF WORK FOR EACH YEAR

### TEXTILES AND CLOTHING

Activities in this unit course should give the girl opportunity, through study and experience, to acquire a knowledge of textile fabrics and of their use in clothing and in house furnishings, in order that she may be able to select fabrics wisely, construct garments skillfully, and care economically and independently for her wardrobe.

The following articles were completed:

Two suits of underwear.

Two cotton dresses,

One wool dress.

One silk dress.

One set of bed or table linen.

### FOOD AND NUTRITION

Activities in this unit course should give the girl opportunity through instruction and experience to acquire the knowledge necessary to choose food wisely, to prepare it skillfully, and to serve it attractively. The course should result in improvement in the health habits of the girls and of the family.

The following were studied in the laboratory:

Selection of foods.

Preparation of food for the table.

Milk.

Batters and doughs.

Sandwiches.

Meats.

Fish.

Salads.

Frying in deep fat.  
 Desserts.  
 Food preservation.  
 Canning.  
 Storage of winter vegetables.  
 Table etiquette.

#### THE HOME, ITS CARE, AND MANAGEMENT

The work outlined for this year should enable the girl to plan the home wisely, to care for it efficiently, to buy for it economically, and to arrange its furnishings attractively.

The following were studied:

The house—plan and cost.  
 Furnishing the house.  
 Management.  
 Appliances of value in the care of the home.  
 Household accounting.  
 Planning and care of home grounds.

#### THE FAMILY AND ITS MEMBERS

In this course the girls gain an appreciation of the importance of well organized family life and of the knowledge and training necessary, in order that they may become efficient and responsible members of the family and community.

The following were studied:

Home membership and responsibility.  
 Use of leisure time.  
 Home care of the helpless.  
 Community responsibilities.  
 Choice of vocation.

In addition to the projects performed in class, girls are required to carry on, during each of the four years, home projects that are closely related to the unit being considered in school.

A concert was given by the Dover High School Band,  
on Thursday Evening, March 7, 1929.

## PROGRAM

## PART I.

## SCHOOL OF INSTRUCTION

## SELECTIONS BY MEMBERS OF THE BAND

Duet—"Home, Sweet Home"

"THE STAR SPANGLED BANNER"

MR. BILODEAU conducting

MR. ROBERT PRYOR, pianist for the band

## DRAMATICS

On Friday evening, March 22, the Seniors presented a play, "Apple Blossom Time," by Eugene G. Hafer.

A local newspaper commented as follows: "The annual senior play, given by the senior class of Dover High School at the Dover Opera House last evening, was a success from every viewpoint, and most certainly from the standpoint of attendance, for never before has a high school play been given to so large an audience. The production was well up to the standard of the attendance. To say that it was good would be putting it mildly, for every member of the cast extracted every possible laugh and every bit of drama possible from their respective parts."

Music was furnished by the High School orchestra.

The receipts of the play, after meeting expenses, with money obtained from other entertainments during the year, were used to defray, in part, the expenses of a trip to Washington in the latter part of April.

The characters were as follows:

Bob Matthews	Elwyn R. Boston
Charlie Lawrence	Herbert W. Jackson
Spud McClosky	E. Raymond Smith
Mickey Maguire	James A. Collins
Cal Pickens	Carroll E. Jackson
Betty Ann Stewart	Jeanne C. Hills
Nancy Prescott	Amy S. McIntosh
Loretta Harris	Doris E. Lavalley
Polly Biddle	Gertrude M. Tinker
Malvina Kurtz	Ada G. Berry
Mrs. Forrest	Cynthia T. Corson
Annabel Spriggins	Thelma M. Otis

The prize speaking contest was held in the school auditorium on May 24, 1929.

## PROGRAM

### OVERTURE

HIGH SCHOOL ORCHESTRA

"The Teacher Who Taught the Governor" E. Balmer  
PAUL GEORGE KARKAVELAS

### AWARD OF PRIZES

---

Winners of the Perkins' Medal.

1905 Miss Lavinia O. Meader.

1906 Miss Eva Stacey.

1907 Miss Ina G. Leighton.

- 1908 Mr. Donald B. Keyes.  
 1909 Miss Bertha M. Boyle.  
 \*1910 Miss Annie Cole.  
 1911 Miss Guida P. Hopkins.  
 \*1912 Mr. Eaton Cook.  
 1913 Mr. Clifton Hayes.  
 1914 Mr. Edward D. Sullivan.  
 1915 Mr. John Bloomfield.  
 1916 Miss Hazel Dearborn.  
 1917 Miss Abigaile Kneeland.  
 1918 Mr. Ernest E. Hatch.  
 1919 Miss Lillian E. Hacking.  
 1920 Miss Ursula V. Dondero.  
 1921 Mr. Willis E. Littlefield.  
 1922 Mr. John H. Minnick.  
 1923 Miss Louise Jaques Raymond.  
 1924 Mr. Winston Hammond Lothrop.  
 1925 Miss Louise Mary Hughes.  
 1926 Miss Elizabeth Wingate Smith.  
 1927 Mr. Robert Pierce Caverly.  
 1928 Miss Irene Jane Couser.  
 1929 Mr. Adrian Frederick Allen.

A local publication commented as follows: "The contestants' selections were even more pleasing than usual and were all keenly enjoyed by the audience, while the judges found it a difficult task to pick the winners. Adrian Frederick Allen won the coveted Perkins' Medal, the second prize of a five dollar gold piece being awarded to Gladys Alice Bumford, while Mary Elizabeth Wilbur received honorable mention.

At the close of the contest, after the judges had reached their decisions, the winners were called to the stage and were presented with their prizes by Prof. Edmund A. Cortez of the University of New Hampshire, who acted as one of the judges."

The Dover High School orchestra, under the direction of Miss Minnie L. Eaton, added to the enjoyment of the program with several very pleasing selections, while the high school band, under the baton of the student leader, Paul Chabot, also contributed to the pleasure of the evening with the closing selection."

On Friday evening, May 31, 1929, the students participated in an Ensemble Concert, given in our auditorium by the orchestras from Austin-Cate Academy, Farmington, and Dover High Schools.

### PROGRAM

MARCH—"With the Colors"	Panella
OVERTURE—"Black Diamond"	Gruenwald

THE PLAYERS

1st violins: Stanley Harding, Lee Martin, Harold Spear; 2nd violin: Ruth Doe; banjo: Doris Edgerly; mandolins: Madlyn Floyd, Alice Adams; saxophone: Lewis Knox; cornets: Melvin Amazen, Kenneth Moulton, John Earle, Millard Roberts; drums: Charles Lawrence; piano: Eloise Roberts.

AUSTIN-CATE ACADEMY ORCHESTRA

1st violins: Alma Lakeman, Ruth Babb, Elizabeth Leighton, Alice Gibb, Rose Mitchell, Alice Howard; 2nd violins: Ruth Howard, Hazel Lingard, Robert Jones, Randolph Dudley; 1st cornets: Eleanor Buzzell, Arthur Van Dine, Albert Leighton; 2nd cornets: S. A. Hayes, S. B. Hayes; trombones: Leslie Caverly, Everett Haynes, Lloyd Scruton; clarinets: Abbie Hanson, Valmore Caverly, John Goodstone; bass: Charles Wood; 'cello: Avis Foss; oboe: Helen Hayes; french horn: Walter Batchelder; glockenspiel: Lucy Thompson; traps: Sumner Foss; drums: Clarence Rowe, Richard Foss; piano: Dorothy Gibb.

DOVER HIGH SCHOOL ORCHESTRA

1st violins: Louise Williams, Carroll Jackson, Eleonora Boston, Esther Freaman, Dudley Twombly, Robert Chase; 2nd violins: Daniel McCarthy, Israel Wiseman, Arnold Baer, Alder Hatch; 2nd mandolin: Amy McIntosh; 2nd banjo: Raymond Smith, Robert Varney; 'cello:

Donald Nason; flute: Mary Elizabeth Wilbur; clarinet: Elwyn Boston; 1st cornet: Paul Chabot, Ralph Wiggin, Gordon Hayes; 2nd cornet: Herbert Jackson, Thomas Brown; alto horn: Edward Hayes, Charles Pryor; alto saxophone: Kenneth Bunker, Maurice Varney; B flat saxophone: Charles Norton; baritone: Henry Carrier, Raymond Wolcott; trombone: Robert Lord; drums: Robert Young, Edward Burke; piano: Mildred Walker, Robert Pryor.

---

#### ASSEMBLY PERIODS

The programs on these periods varied in character and content to entertain, instruct, and meet the general needs of the school body. The musical instructor supplemented the work with orchestra, band, or vocal selections.

Literary productions generally found a place in these exercises.

Representative citizens were invited to give short addresses, educational in character, which were intended to inspire the young people to do better work in the high school. All literary efforts, together with the musical productions, were enthusiastically received by the pupils.

Citizens and friends of the school are cordially invited to attend these weekly assembly periods.

#### SAMPLE PROGRAM

Assembly on Thursday, September 19, 1929

March—School Orchestra

Song—"Doxology"

Responsive Reading, No. 10

Prayer

Song, No. 145

Salute to the Flag

Song, No. 136

Piano Solo—"Caprice Vianose"

Kreisler

Doris Fowler

Short Address by Rev. Leon Morse

Song, No. 184

Speakers who have addressed the students:

Supt. Jacob E. Wignot

Rev. Arthur M. Dunstan

Miss Frances Hyde

Mr. M. J. Desautels

Rev. Leon Morse

Rev. Harriet B. Robinson

#### ATHLETICS

Athletic activities are under the control of an athletic council, consisting of ten members.

Letters are required of all parents whose sons and daughters wish to participate in any form of athletics, stating that they are willing to assume all responsibility for any injury which may be received.

A physical examination should be required of students who desire to take an active part in athletic contests.

Nearly forty per cent of the students took part in some form of athletics. Class leagues were organized in basketball and baseball for the boys, and basketball and badminton for the girls. There are sports that could be added that would make it possible for many more to take an active part. Under present conditions this is not possible as the Director's time is now divided between the grades and the high school.

#### "THE TATTLER"

"The Tattler" completed its second year as a magazine. It was published six times, the last edition being a commencement issue. All four classes were represented in the excellent material that was contributed. A new cover design gave a chance for competition in art as several designs were submitted.

## STATE SCHOLARSHIP DAY

Dover sent three teams to Plymouth on May 11, 1929, to participate in the day. The teams were composed as follows:

Spelling—Louise Williams, Jeanne Hills, Amy McIntosh.

Arithmetic—Raymond Seymour, Constantine Daeris, Doretta Robillard.

Place Geography—Melvin Boomer, Harold Richardson, Charles Norton.

They were all successful, winning first, second, and third places respectively.

## CLASS ODE

Words and music by

MILDRED A. WALKER

The time has come for us to part,  
 From dear old Dover High;  
 To friends and teachers we have loved,  
 We now must say good-bye.

We'll treasure many a memory,  
 Of happy days spent here;  
 That will ever with us linger,  
 And in future days give cheer.

Life is waiting, arms outstretched,  
 We must harken to her call;  
 In her hands vast treasures lie,  
 Destined for us, one and all.

Life's success on training waits,  
 Courage must our motto be;  
 Ever higher is our aim,  
 D. H. S. we cheer for thee.

"CORONATION MARCH" from "The Prophet"

Meyerbeer

THE ORCHESTRA

## GRADUATES, 1929

CLASSICAL:—Ada Gertrude Berry, James Ashton Collins, Eleanor Frances Cook, Margaret Doe, Jeanne Champlain Hills, Dorothy Elizabeth Horne, Arthur Henry Hughes, Olive Ames Jenness, John Fay Keefe, Doris Elizabeth Lavalley, Amy Seavey McIntosh, Cornelius John Morgan, Margaret Elizabeth Page, William Albert Rogers, Ford Orison Steeves, Dorothy Mae Williams, Louise Smith Williams.

SCIENTIFIC:—Harry Chester Behan, Elwyn Richard Boston, Carroll Edward Jackson, Harold Stanley Maguire, John Reginald McGraw, Charles Edward Norton, Vincent Peter Nossiff, Chester Balch Sewell, Raymond Benedict Seymour, Edwin Raymond Smith, Robert Winfield Varney, James Erving Wentworth, Ralph Edwin Wiggin, Jr., Robert Benson Young.

COMMERCIAL:—Ethel Caroline Allen, Doris France Aubert, Rena Mae Caswell, Mabel Florence Chandler, Earle Freeman Kimball, Phyllis Eleanor MacGowan, Madeline Bernadette Monroe, Bernice Alberta Nelson, Louise Rita O'Brien, Thelma Mae Otis, Julia Margrette Rinaldi, Doretta Germaine Robillard, Pauline Sawyer Seavey, Hazel Lois Stimpson, Gertrude Martha Tinker.

GENERAL:—Melvin Foss Boomer, Robert Pierce Caverly, Cynthia Towle Corson, Constantine Daeris, Thomas Penn French, Beatrice Louise Gerrish, Herbert William Jackson, Frances Winifred Laton, John Emmett Mallen, Harold Elmer Richardson.

DOMESTIC ARTS:—Althea Dorothy Berry, Amy Madeline Day, Dorothy Bernice Dyer, Mildred Ruth Gray, Mildred Annie Walker, Dorothy Elizabeth Whiting.

MECHANIC ARTS:—Joseph James Barry, Donald Francis Begley, Kenneth Horne Bunker, Winfield Scott Caswell, Paul Chabot, Timothy David Flynn, William Henry North, Henry Beaton Osbon, James Augustus

Piper, Daniel Hiram Vickery, Richard Dana Watson.

The following graduates entered post-graduate institutions in September:

University of New Hampshire: Harry C. Behan, Ada Gertrude Berry, Elwyn R. Boston, Cynthia T. Corson, Margaret Doe, Thomas P. French, Jeanne C. Hills, Carroll E. Jackson, Frances W. Laton, Doris E. Lavalley, John R. McGraw, Charles E. Norton, Harold E. Richardson, Chester B. Sewell, Raymond B. Seymour, Gertrude M. Tinker, Robert W. Varney, Lloyd H. Wentworth, Class of 1928. Ralph E. Wiggin, James B. Walker, Class of 1928, Dorothy M. Williams, Frances E. Platts, Class of 1928.

Other Colleges:

Norwich University, Northfield, Vt.: Melvin F. Boomer.

Rollins College, Winter Park, Florida,: William A. Rogers.

Schools for Nurses:

Children's Hospital, Boston: Ruth E. Allen, Class of 1928.

Webber Hospital, Biddeford, Maine: Ruth H. Langley, Class of 1926.

St. Joseph's Hospital, Nashua, N. H., Doris F. Aubert.

Special Schools:

Bentley School of Accounting, Boston, Mass.: Constantine Daeris.

Tabor Academy, Marion, Mass.: Herbert W. Jackson.

Katherine Gibbs School, Boston: Olive A. Jenness.

Plymouth Normal School: Dorothy E. Horne, Margaret E. Page, Dorothy E. Whiting, Louise R. O'Brien.

Gorham, Maine Normal School: Linwood T. Davis, Class of 1928.

Framingham, Mass. Normal School: Amy M. Day.  
 Boston School Physical Education: Blanche Bumford, 1928.

Copley School of Art, Boston, Mass.: Edwin R. Smith.

McIntosh Business College: Beatrice Louise Gerrish, John Emmett Mallen, Amy Seavey McIntosh, Julia Margrette Rinaldi, James Erving Wentworth, Robert Benson Young.

New England Conservatory of Music, Boston, Mass.: Mildred Annie Walker.

Lynn Electric Works, Lynn, Mass.: Henry Beaton Osbon.

#### COURSES OF STUDY

There are practically seven courses of study in the High School. They are outlined as follows:

Year	Curriculum I			Curriculum II		
		Days per wk.	Periods per wk.		Days per wk.	Periods per wk.
I	English	5	5	English	5	5
	Latin	5	5	Zoology and Botany	5	5
	Algebra	5	5	Algebra	5	5
	Ancient History	5	5	French	5	5
II	English	5	5	Mechanical Drawing (Optional)	4	4
	Caesar	5	5	English	5	5
	Geometry (or Algebra for Durham pupils)	5	5	Geometry	5	5
	Greek or French or German)	5	5	French	5	5
III	English	5	5	Mechanical Drawing (Optional)	4	4
	Cicero	5	5	German (Optional)	5	5
	*5 Rev. Math. (or Geometry for Durham pupils)	5	5	Modern History	5	5
	Greek or French or German)	5	5	Physics	4	4
IV	English	5	5	Review Mathematics *5	5	5
	Vergil	5	5	French or	5	5
	Am. Constitutional History	5	5	German (Optional)	5	5
	Greek or French or German)	5	5	Mechanical Drawing (Optional)	4	4
	Physics	4	6			
	*6 Adv. Mathematics (Optional)	4	4			

Year	Curriculum III			Curriculum IV		
		Days per wk.	Periods per wk.		Days per wk.	Periods per wk.
I	English	5	5	English	5	5
	Arithmetic and Penmanship	5	5	Algebra	5	5
	Algebra	5	5	Carpentry and Woodturning	5	26
	Zoology and Botany or Clothing and Textiles or	5	7	See attached sheet for outline of units in shops and related subjects.		
II	†French (for Durham or St. Mary's students)	5	5			
	English	5	5	English	5	5
	Commercial Geography and History	5	5	Geometry	5	5
	Bookkeeping (5-5)	5	5	Pattern Making, Moulding and Forging	5	26
III	Geometry or Foods and Nutrition or	5	7	See attached sheet for outline of units in shop and related subjects		
	†French (for Durham or St. Mary's students)	5	5			
	English	5	5	English	5	5
	2nd Bookkeeping	5	5	Machine Work and Electrical Wiring	5	26
IV	Physics or the Home, its Care and Management	4	7	Bus. Law and Political Economy	5	5
	1st Stenography	5	5	See attached sheet for outline of units in shop and related subjects.		
	Typewriting (1 unit)	5	5			
	English or The Family and its Members	5	5	English (5-5) or Chemistry	5	7
Am. Constitutional History	5	5	Am. Constitutional History	5	5	
Bus. Law and Pol. Economy	5	5	Machine Work and Engineering	5	26	
2nd Stenography	5	5	See attached sheet for outline of units in shop and related subjects.			
Typewriting (1 unit)	5	5				

Year	Curriculum V	Days per wk.	Periods per wk.	Curriculum VI	Days per wk.	Periods per wk.
I	English	5	5	English	5	5
	Zoology and Botany	5	5	Latin or French	5	5
	French	5	7	Ancient History	5	5
	Textiles and Clothing	5	7	Algebra (5-5) or (Zoology and Botany)	5	7
II	English	5	5	Drawing (Optional)	4	4
	French	5	5	English	5	5
	Commercial Geography and History	5	5	Latin or German or (Modern History)	5	5
	Foods and Nutrition	5	7	French or Com'l Geog.	5	5
III	English	5	5	Geometry	5	5
	French	5	5	Drawing (Optional)	4	4
	Mathematics (Algebra)	5	5	English	5	5
	The Home, its Care, and Management	5	5	German or Review Math.	5	5
IV	English	5	5	French	5	5
	French or Mathematics (Geometry)	5	5	Latin (5-5) or Physics (1)	5	7
	Chemistry	5	7	(1) (2)		
	Am. Constitutional History	5	5	Drawing (Optional)	4	4
Household Management or The Family and its Members	5	5	English	5	5	
				Chemistry	5	7
				Am. Constitutional History	5	5
				French or Latin or German	5	5
				Drawing (Optional)	4	4

In curriculum I, at least two years of a modern language must be taken if it is begun before the Senior Year.

\*6 Content—Intermediate and Advanced Algebra, 16 weeks; Solid Geometry completed 12 weeks; Trigonometry completed 10 weeks; (plane).

\*5 Content—Review Algebra including graphs and equations containing radicals, binomials theorem 19 weeks. Review Plane Geometry with 100 additional originals 19 weeks.

†Year I—Those who elect French this year and pass it should elect a second unit in year II.

†Year II—A second year of French is required of those who elect French in the preceding year.

See page 227 of Revised Secondary Program of Studies (1919).

Note—Each pupil to select at least three years of two of the following: Latin, French, German, Mathematics, Science.

Each pupil required also to take four studies each year, one of which must be English. American Constitutional History must be taken in the fourth year. Five subjects for those taking Curriculum I and V in fourth year.

#### RECORD OF ADOPTION AND APPROVAL

The school board at a meeting held June 13, 1929, adopted the foregoing as the program of studies for Dover High School and under the conditions printed on the back of this paper requested the approval of the Commissioner of Education.

Norman E. Seavey,  
Secretary.

Approved as above, for the year ending June 30, 1930, Aug. 28, 1929.

E. W. Butterfield,  
Commissioner of Education.

SMITH-HUGHES MECHANIC ARTS CURRICULUM FOR THE YEAR 1929-30	Per Week		
	Clock hours	Periods	Units
<b>FRESHMAN YEAR</b>			
Shop woodwork consisting of cabinet making and wood turning. . . . .	12½		
<small>SHOP</small>			
Related Mechanical Drawing, not to exceed 2 clock hours per week. . . . .	2		
<small>RELATED WORK</small>			
Shop Mathematics 4 clock hours for the semester in which Occupations is not given, and 3 clock hours for the semester in which Occupation is given. . . . .	3		
Occupations (1 semester) . . . . .	1		2
English I. . . . .		5	
Algebra. . . . .		5	2
<b>SOPHOMORE YEAR</b>			
<small>SHOP</small>			
Pattern making, moulding and forging. . . . .	12½		
Shop Mathematics. . . . .	4		
Related Mechanical Drawing. . . . .	2		2
<small>RELATED WORK</small>			
English II. . . . .		5	
Geometry. . . . .		5	2
<b>JUNIOR YEAR</b>			
<small>SHOP</small>			
Machine work using lathe, shaper, or planer, drill, etc. Electric wiring such as winding motors, wiring house, repairing or installing electrical equipment of automobiles and tractors, etc. Making primary and secondary batteries. . . . .	12½		
<small>RELATED WORK</small>			
Related Mechanical Drawing, not to exceed 2 clock hours. . . . .	2		
Shop Physics. The applied physics of the shop, e.g., Heat treatment of steel, molar and molecular properties of metals, strength of metals, electrical conductivity of metals, etc. This course will be taught in the shop chiefly. . . . .	4		2
English III. . . . .		5	
Law and Political Economy. . . . .		5	2
<b>SENIOR YEAR</b>			
<small>SHOP</small>			
No. 1 Machine Shop Practice, including use of milling machine, Elementary tool making, machine shop practice, machine shop organization, etc. Wholly on projects of commercial use and value. . . . .	12½		
<small>RELATED WORK</small>			
Mechanics—Relating to power evolution and transmission. Problems of pulleys, belts, sprockets, chains, etc. Horsepower generated by or used up in motors and machines actually determined. . . . .	4		
Mechanical Drawing not to exceed. . . . .	1		
Shop Organization. . . . .	1		
No. 1 Automotive Repair may be offered in place of Machine Shop Practice if desired. . . . .	12½		
United States Constitutional History. . . . .		5	
Chemistry—Theory and application of is strongly recommended as the second academic subject, or English. . . . .		7	
Grade XII. . . . .		5	

Three changes were made in the teaching force in the Mechanic Arts work, and, due to the large increase in membership, one teacher was added to the Academic Department. With one exception, all were experienced teachers in their respective positions. Professional training, coupled with experience and skill, usually makes for progress in any line of work, whether in school or in the business world.

#### DEFICIENCIES

According to school regulations, deficiencies were sent to all parents every two weeks whose children failed to attain an average rank of seventy per cent in all subjects. This action serves to keep the parents informed of the school standing of their sons and daughters.

In the case of the senior class, personal letters were sent out to give further information of the progress made in their subjects.

This was done that there might be no misunderstanding about the probability of graduation at the end of the school year in June.

#### OPENING OF SCHOOL IN SEPTEMBER

If parents are uncertain as to just what courses should be pursued in the freshman class, it would be well to consult the headmaster at the beginning of the school year in September.

Young people should not be allowed to choose the line of work in the high school without the advice of those who are in a position to understand the meaning of a liberal education, or one which will fit them for an active business career.

The ultimate aim of the pupil should determine, to a great extent, the character of the course elected.

## CONCLUSION

I desire to express my obligations to all who in any way have aided me in the management and control of the high school.

Respectfully submitted,

CHARLES L. WALLACE,  
Headmaster.

Dover, N. H., December 20, 1929.

## REPORT OF THE DIRECTOR OF PHYSICAL EDUCATION

---

TO THE BOARD OF EDUCATION:

Since assuming the duties of Director of Physical Education of the schools here in Dover, I have endeavored, as far as possible, to carry on the program which Mr. Anderson, the former director, had so well founded throughout the school system. Having been here a number of years, he had instituted certain customs and practices which, when I took over his work, I recognized as possessing extreme merit and any changes I have made, or shall make, I shall try to fit into his scheme of things, thus bringing about a gradual transition rather than abruptly changing from one system to another.

The physical training program in the first four grades has consisted of simple gymnastic exercises, marching, games, story-plays, folk-dancing, and stunts. The director has visited each grade in the city once a week, spending from fifteen minutes to a half-hour in each room. At this time, various stunts, exercises, and games are taught, with subsequent training and practice being given by the teacher in these activities.

Above the fourth grade, and including the eighth, the pupils come to the high school gymnasium once a week for a one hour period of physical training. In these classes, the boys and girls come separately, thus affording both the opportunity to achieve the best results in widely different forms of physical activity and development. The program in these classes includes marching tactics and floor work, calisthenics, stunts, relays, games

and contests of various types. Particular emphasis is placed, at all times, upon good sportsmanship and right conduct in all forms of athletic training upon the gym, the director firmly believing that at this age, in the heat of the contest, the correct attitudes and lessons may be taught in sportsmanship which will inculcate the elements of good American citizenship and will be lasting in after years.

Outside of school hours, an extensive program of inter-class and inter-school athletics is being planned and carried out irrespective of the varsity teams at the High School. During the Fall, a start was made in developing football in the grammar schools. Two or three games were played, with the winner engaging the freshmen of the High School. For the winter season, various leagues are being formed for basketball and twenty-eight teams will use the High School gym once a week or oftener, thus assuring practically continuous use of the gym every afternoon, Saturday mornings, and one or two evenings a week.

For varsity athletics, I can only speak about football as the basketball, baseball, and track seasons are still before us. In football, we had an inexperienced team, few veterans being available, and many of the boys playing their first year of football. The spirit shown, however, was excellent and gives promise of better prospects for next year. A squad of 55 boys reported in September of which about 35 finished the season. The team's record was 4 won, 4 lost and 1 tied.

In bringing this report to a close I wish to express my appreciation and thanks to Supt. Wignot, Principal Wallace, and members of the teaching staff throughout the city who have cooperated so well with me this year as I commenced my work and to whom I owe much for

the many little hints and practical advice they have so whole-heartedly given me.

Respectfully submitted,

OLIVER J. ADAMS,  
Director of Physical Education.

## REPORT OF THE SUPERVISOR OF MUSIC

---

TO THE SUPERINTENDENT OF SCHOOLS:

This is my eighth annual report; and as I think of it eight years is a long time to have the opportunity of directing the work in music of 1500 children. There should be some results showing for one's efforts, if rightly directed and well supported. I am always glad to express my appreciation of the splendid, patient work of the grade teachers, and of the encouragement of the superintendent and school board.

If there are any signs of progress in our work, they are well known to you all. The public sees and knows what is done. I see more clearly where I have failed to produce results and where in the future I should do more and better work. For something accomplished does not finish work, it just opens another door of opportunity which must be used and improved or all the work is in vain.

For instance, we have organized a band, and the boys are interested, attend rehearsals well, and love to play, but we must go on, have more instruction, a better organization, better and more varied music. It must come to be recognized as part of the school work, and its financial support be assured.

I would note with appreciation some of the helps along the way which the music department has received from the school board and friends during the eight years.

We have many more text books; without displacing the old books which have many lovely songs, and good material for sight reading, we have added many books for supplementary reading and assembly singing. Books

for reading and song singing have been put into the second and third grades where they had not used them before.

We have a fine repertoire of music for the orchestra which can be used and used again and we are continually making additions to it.

There are music racks for orchestra and band.

Each school has been provided with music charts of the staff and notes and signs. It is not very satisfactory, the passing of material from room to room, and we would like a set for each room at least of the primary schools.

The Conn Company sent us a set of picture charts of musical instruments for each building of the grammar schools.

Each building has a piano now, but two of them should be replaced by better instruments as soon as possible. A victrola has been placed in each school with a few records. We need many more, and much more work should be done in listening lessons, and appreciation.

We note again the gift of a violin from Mrs. Smith, a cornet from Mrs. Morgan, and the piano from Mr. Williams, also the loan of a trombone by Mrs. Whitehouse and a violin by Mr. Brown.

We must mention with warm appreciation the fine radio which has been installed in the gymnasium. At eleven o'clock every Friday the pupils of Central school listen to the talks on music by Mr. Walter Damrosch. He speaks very clearly and in language easily understood by all. We wish all the grammar schools and the high school children could have this privilege, and we hope to make more use of it in the future.

We have "earned", as we call it, when friends and organizations give money to the department for our services, a set of drums and a cello. We are planning the

purchase of a string bass, as soon as we can decide between the three instruments that have been offered.

Mr. Clyde Whitehouse has given ten dollars for the band.

We must not forget the rhythm band. The school board gave us cymbals and tambourines, the more expensive instruments, the Mechanic Arts Department have made us all the triangles and sticks we need, the children have made clappers, or clogs as they are called, and in some cases brought their own drums. We are asking for xylophones or Pan's pipes, and a set of instruments for each room. We are fairly well provided with one for each school. Some day we will have perfect sets which are carefully tuned.

All these things are for the future, as we become skilled in their use we shall find them of the greatest value. Where the rhythm bands are well established, great results have been realized not only in music, but in habits of attention and concentration in all school work, and fine preparation for regular band and orchestra work, for the children learn to watch the leader, to listen to phrases and themes, and later, to count measures where they rest and read notes and time signs.

The band concert was a great success, and we are to give another January sixteenth. The band played finely at the contest in Laconia, and brought home a beautiful drum, the gift of the Conn Company. This year the contest will be conducted under very strict rules, and may be more satisfactory. As you well know, I am not interested. The results of contests are not happy and beneficial. I am pleased that our band has done well every time they have played, and that the members have conducted themselves as musicians, trained in self control and courtesy.

The pressing need of our department is the proper financing of music instruction. I like to have the boys

and girls feel that whatever they can do for orchestra, band, or the school, they should do cheerfully, and well, and that the joy of playing and their own development in music is ample reward. We too early are apt to look for pay for service rendered. But they need instruction which I cannot give and for which they cannot afford to pay. If we assume that music is part of their school training we must provide for it.

We received ten dollars from the Methodist church for the playing of our band at their evening service, ten dollars from the Royal Arcanum for leading their procession in parade through the city, and twenty dollars from the Episcopal church for playing at their lawn party.

The orchestra received fifteen dollars when they played for the concert given by the Baptist church, and twenty-five dollars for playing at the entertainment given by the Episcopal Club.

The ensemble orchestra concert last spring was under the auspices of the Austin Cate Academy. We intend to have another this year in Dover, and may go out of the city for another. I think the ensemble work is one of our best efforts, and I know the effect on the boys and girls is wholesome and inspiring.

We have just received the blanks for membership in the All New England Orchestra. We sent three members of our orchestra this year, Mary Wilbur, Donald Nason, and Robert Chase, and from all reports they did excellent work. The managers of the organization are very anxious that these three shall go again this year and we hope to send two others. We should be glad if after three days of hard work in rehearsing, morning, afternoon and evening, they could come back to school to receive some recognition of their efforts. When music is accorded its proper place in the curriculum, there will

be credit for such work. Now the reward is after all the better one, of conscientious work, well done, and progress in their study of music.

When we realize that preparation for living is more important than preparation for college, or for making a living, music will stand very near the head of the list of required subjects in our high school.

Thanking you all for your cordial support,

Respectfully submitted,

MINNIE L. EATON.

## REPORT OF SUPERVISOR OF DRAWING

---

TO THE SCHOOL COMMITTEE:

I hereby submit my fifth annual report as Supervisor of Drawing.

In the school-room it is my work to discover, guide, and develop artistic talent, and at the same time to improve the taste of those with less artistic ability.

It is surprising what some first grade children can do with their hands. On the other hand some beginners have never been allowed to handle pencils, crayons, or scissors, so naturally their work is crude until they have become accustomed to their materials and to the use of their hands. There are a few children who will always be awkward and unable to do artistic work. It is my task to teach these children how to recognize and appreciate the good work of others, and also how to distinguish details such as line and color.

I try to give the children work that will be of everyday value to them. Everyone is often called upon to print for business and social purposes. I have the children begin to print in the first grade and continue every year throughout the grammar school.

Everyone ought to be able to choose correct color combinations and to know why they are right and why other combinations are wrong. In the lower grades the children acquire the habit of seeing certain colors together. Gradually, as the children grow older, they find out how colors are made and why they are used as they are.

The children begin doing very simple posters in the second grade. The upper grades have made some fine

original posters for Health, Fire Prevention, Accident Prevention and Education. Last spring we had an exhibit of these in the Public Library.

This year the seventh grades have worked out some fine original pottery designs, using figures from the American Indian sign-language.

The eighth grades have been working on a long color problem. We reviewed color-theory step by step from the primary colors to the quarternary colors. Then we applied our color-theory to practical problems of rug design, textiles, clothing, and interior decoration.

In all the grades the children have spent a part of the fall and spring terms on nature-work when good specimens were available. This work is done with crayons, water color, or colored paper and scissors. Neatness, accuracy, and true color have been stressed.

In all the grades projects have been made for various holidays.

Whenever possible I have been to the rural schools.

It is not possible to accomplish all that I should like to in one short lesson a week. I wish that each room might have two lessons a week. The second lesson would be a continuation of the first lesson, planned by the supervisor and carried out by the room-teacher.

Respectfully submitted,

HELEN L. BRONSON,  
Drawing Supervisor.

## REPORT OF THE SCHOOL NURSE

---

TO THE DOVER SCHOOL COMMITTEE:

The following report of the school nurse and supervisor of health is respectfully submitted.

From January 1929 to December 1929 inclusive.

Visits to schools .....	383
Visits to schools for physical inspection.....	151
Visits for follow up work.....	115
Talks on health and hygiene.....	120
Treatments .....	323
Home visits .....	45
Miscellaneous visits .....	52

### FINDINGS OF HEALTH INSPECTIONS

Eyes, treatment secured .....	22
Ears, treatment secured .....	1
Malnutrition, gained in weight.....	236
Pediculosis, treatment secured .....	21
Gland disease, treatment secured .....	2
Adenoids, treatment secured .....	9
Tonsils, treatment secured .....	9
Defective teeth, treatment secured .....	80

### COMMUNICABLE DISEASES REPORTED

Chicken pox .....	50
Diphtheria .....	2
Influenza .....	15
Measles .....	6
Measles (German) .....	2
Mumps .....	267
Scarlet fever .....	3

Skin diseases .....	27
Whooping cough .....	7
Tonsilitis .....	1

## CLINICS

The New Hampshire Tuberculosis Association holds a clinic once a month at 123 Washington street, room 6. At the present time we have 5 children under observation. Examination and advice is free to any resident of New Hampshire.

Physicians from the State Hospital come to Dover about once in two months to look over their paroled patients, and they allow us to take in children who are retarded, and who do not appear to profit by their instruction. In 1929 there were 13 examined, 8 were diagnosed backward, 5 were diagnosed feeble-minded. We need ungraded classes with suitable equipment, so that these backward children might be trained to use their hands, and thus more likely to become self supporting as they grow older.

The Dental clinic of the Dover District Nursing Association is maintained for the benefit of all pre-school, and first grade children living in Dover. It was opened in May of 1925 with 7 of the local dentists giving their services, each in their turn, free, this they continued to do until April of 1929 when the City government gave the Association \$500.00 to help run the clinic. There is now one dentist employed by the Association, who serves Wednesday morning one week, and Thursday afternoon the following week. We greatly appreciate the devoted service of the dentists who worked so long and faithfully for the children of Dover, often at great inconvenience to themselves.

Our health posters were shown as usual in the Public Library, in May. They grow better and better each year, thanks to the supervision of the drawing teacher,

and the class room teachers. Some of them however were original, and were made at home with out any help at all. They show that their health teaching has meant something to them. Posters were made for Education Week under the direction of the drawing teacher, and shown in the corridor of the Annex. They illustrated each day of the week, and attracted much attention from parents during Open Night. These displays of work done by the children are interesting to other children, to the parents, and in fact to all who have anything to do with our schools.

Health—the business of each of us. It may be attained and kept by correcting defects, and practicing good health habits. Health is a necessity to each of us. One can not be happy without it, but it is not found in a bottle. There is no cure-all. Good health is found in fresh air, exercise, sunshine, wholesome food, and restful sleep.

FRANCIS HYDE,  
School Nurse and Supervisor of health.

## REPORT OF TEACHER OF DOMESTIC SCIENCE

---

TO THE SUPERINTENDENT OF SCHOOLS:

Sir:—My sixth annual report of Domestic Science in the Dover grade schools is submitted for your consideration.

Previously, the report has been devoted largely to an account of work accomplished in this department during a school year. Therefore, if it appears that the usual course has not been followed in this account, it is merely to avoid repetition since the subject in itself is so rich in material that one never lacks a project nor the enthusiasm for its fulfilment. Also, it may interest those who so generously supply the necessary appropriation and you who co-operate with us in all our aims to look with us beyond the jars of foodstuffs we process annually, the meals we cook and serve and the many garments that are made in our sewing room to the character building of our pupils which, after all, is the basis of education but so easily overshadowed in the business of getting things done.

Our major subjects are known as cooking and sewing but through these branches of school work runs a unity of purpose-training for family leadership. With this idea in mind all opportunities are welcomed to teach lessons that will lead our girls to feel the nobility of being successful homemakers. Once this ideal is inculcated, it furnishes an incentive for a desire on their part to excel in Domestic Science.

Cooking becomes then not merely the baking of a cake or the preparation of one meal but a large project in which one must consider year round economy in pur-

chase and use of supplies and at the same time a proper scientific balance of elements so that each member of the family may have strength and energy for work and play and the necessary resistance for disease. With all this in mind it is still our aim to keep the food problems those of a simple home, to arouse the child's interest in the great advances that are being made in the study of food and yet not dull childish enthusiasm with too much science.

During these years of a child's life the constructive tendency is decidedly uppermost in his or her being and so we give it play in sewing. Time flies while a girl works out her idea with her hands and she not only gets momentary pleasure from her accomplishment but it is to be hoped that she has found in this education a source for the enjoyment of leisure or the seed of a vocation.

As the number receiving instruction is steadily mounting it will eventually become necessary to meet the increase in added space and equipment. Our thanks are due the Mechanic Arts Department of the High School for additions and repairs made during the year.

In closing, we thank you and all others whose generous co-operation is helping us teach our girls to make and manage homes than which nothing is harder to do and do well.

Respectfully submitted,

MARY E. CAVANAUGH,  
Teacher of Domestic Science.

## REPORT OF THE INSTRUCTOR OF MANUAL TRAINING

---

TO THE SUPERINTENDENT OF SCHOOLS AND MEMBERS OF  
THE SCHOOL BOARD:

This training in the schools of today is important when we consider the development of the growing child. And this fact is rapidly becoming recognized.

Several of the projects our boys are making or have made this year are: bread boards, steak planks, dough boards, broom holders, blotter holders, milking stools, fern stands, taborets, gun racks, golf racks, magazine and book racks, etc.

Total enrollment 205 pupils

May I take this opportunity to express my sincere appreciation of the cooperation extended by those officials and faculty members coming in contact with the manual training activities.

Respectfully,

HAROLD E. PLANT,  
Instructor of Manual Training.

## TRUANT OFFICER'S REPORT

---

Number of complaints from teachers.....	126
Number of complaints from St. Charles' School...	23
Number of complaints from other sources.....	1
Whole number of complaints received.....	150
Number of cases of absence investigated.....	114
Number of children found absent without good reason .....	39
Number found to be truant.....	9
Number of visits to schools.....	180
Number of visits to families.....	187
Number of visits to manufacturing establishments..	63

Return of school census, 1929, school district of Dover.

1. (a) Number children (5-16) found by enumerators: Boys, 1,331; girls, 1,315; total, 2,646.
- (b) Number of these found not to be in school: Number 5-8, 236; number 8-14, 2; number 14-16, 35; total, 273.
- (c) Number of children enumerated and to be accounted for in schools, (a-b), 2,373.

### INFORMATION TO BE FURNISHED AND COMPLETED BY SUPERINTENDENT

2. (a) Number children in public schools, in the district September 30, 1929: \*Total registered, 1,747; (under 5, 0; over 16, 215), 5-16, 1,532.
- (b) Number children in parochial or private schools

Explanations. \*Answers to these questions should be taken from school registers.

Number of children between certain ages means number that have reached the lower age, but have not reached the older age. For instance, number of children between 5 and 14 means the number who have reached or passed their fifth birthday and have not reached their fourteenth birthday.

in the district, September 30, 1929: \*Total registered, 889; (under 5, 0; over 16, 13), 5-16, 876.

- (c) Number children (5-16) living in district but attending high school or academy outside, 1.
  - (d) Number children (5-16) living in district but attending elementary school outside, 1.
  - (e) Total number of children accounted for in schools, (a+b+c+d), 2,410.
3. Number of children (5-16) reported in 2(a) or (b), who live in other towns, 37.
  4. Whole number of resident children (5-16) accounted for in schools, 2,373. 1 (c)=4 2 (e)-3=4.
  5. Number between the ages of 10 and 16 not able to read and write in the English language, 9.
  6. How many of these illiterate children were born in New Hampshire? 9. Elsewhere in the United States? 0. In foreign countries? 0.
  7. Number 10 years of age or over who, on September 30, were in Grade I, 0; in Grade II, 2.
  8. If the children (8-14) reported in 1 (b) as not registered in any school, how many are excused by the school board on account of physical or mental disability? 2.
  9. Of the children (14-16) reported in 1 (b) as not registered in any school, (a) how many have completed the course of study for elementary schools? 33; (b) how many have been excused by the school board because of physical or mental condition? 2; (c) how many have been excused from attendance by the Commissioner of Education? 2.
  10. Number of defective children between 5 and 16: blind, 0; deaf and dumb, 0; feeble-minded, 7; total, 7.

S. E. TAYLOR,  
 Enumerator.

## LIMITS OF SCHOOL DISTRICTS

The following table of limits gives the general outlines of the districts, which are subject to changes as may be necessary from time to time.

## GRADE VIII

Central School B—East of Central avenue, Ham street and south to and including Stark avenue. West to Central avenue from the B. & M. R. R. to and including Silver street to Belknap street. Suburban districts.

Sawyer School—The northern part of the city bounded on the south by the Central limits.

Central School A—All the southern and western part of the city not included in the above limits.

## GRADE VII

Sawyer School—The northern part of the city bounded on the south by the B. & M. R. R., east to the Coche-

co river, and Fourth street west of the Cocheco river.

Central School—South of the Sawyer limits to Silver street, and as far west as Belknap street; south on Central avenue to Stark avenue and east of these streets. Suburban districts.

Belknap School—All of the southern and western part of the city not included in the above limits.

Central School—On the east side of Central avenue, Ham street and south to and including George street and Payne street. On the west side from the B. & M. R. R. to and including St. Thomas street and west to Belknap street. In addition, Rollinsford, Fresh Creek, Garrison Hill district and Blackwater.

#### GRADES VI, V

Central School—On the west side, from the B. & M. R. R., to and including St. Thomas street and west to Belknap street. In addition, Rollinsford, Fresh Creek, Garrison Hill district and Blackwater.

Sawyer School—The northern part of the city bounded on the south by Fourth street, west of the Cocheco river, the B. & M. R. R., between Cocheco and Central avenue and the northern Central limits.

Belknap School (b)—South of the Central limits to the lower end of Central avenue and as far west as Locust street.

Belknap School (a)—All of the southern and western part of the city not included in the above limits.

#### GRADES IV, III, II

Sawyer School—The northern and western part of the city. The southern boundary is Cocheco river; the eastern boundary is Park street.

Pierce School—East of the Sawyer limits and as far south as Portland street.

Varney School—East of Central avenue south from the Pierce limits to George street and west to Payne street, west of Central avenue, south from Sawyer limits to Silver street and Rutland street and including these streets.

Hale School—South of Varney limits to rural district. Pupils from Garrison Hill district and Blackwater will be transported to the school having the smallest number of pupils.

#### GRADE I

Sawyer School—The northern and western part of the city. The southern boundary is the B. & M. R. R. tracks and Fourth street west of the river, the eastern boundary is Central avenue.

Pierce School—East of the Sawyer limits and south to Portland avenue.

Varney School—East of Central avenue south from the Sherman limits to Silver street and Rutland street and including these streets.

Hale School—South from the Sherman and Varney limits to Watson street and 227 Locust street.

Sherman School—South of the Pierce limits to Washington street.
