# Selectmen's Foreword And Report

Another year has passed and this brings us to a period of analyzing last years progress and requests from the Selectmen to continue long range planning for our roads, water, and sewerage systems.

1966 saw the completion of all projects authorized by the Town Meeting of 1965 under Article # 9. Most of these projects were started in 1965 and are now completed, namely:

The bridges over Beaver Brook in Derry Village, Birch Street and Highland Avenue bridge, and the bridge on West Broadway over Horne Brook.

The following projects have also been completed:

The highway from the traffic lights to the library was resurfaced.

The extension of the sewer system from Franklin and Folsom Road to Route 28 across from the Chanticleer Restaurant.

The paving of Birch Street from the traffic lights to Shute's Corner done under TRA "B" funds.

The Ross Pond sewer spur, so-called, from an intersection of the Franklin St. sewer to Route 28 near the property of Dr. Giblin has been completed at this writing.

In 1966, under Article # 16, the town authorized the expenditure of \$6,000.00 for exploration of water for the Municipal Water System. The work is completed and a full detailed report is printed in this Town Report.

A new addition to the town sheds was also done in 1966. There is a line item in the budget for the completion of this project.

Looking forward to 1967, the Selectmen have inserted several articles in this years warrant which we feel are necessary for the continued improvement of our town. Although these articles call for a considerable expenditure of money, the following projects can be paid out of monies now in the hands of the Trustee of Trust Funds:

1. The paving of the parking lot on Manning Street.

2. The purchase of a sectional rodder for sewer maintenance.

3. The completion of the town sheds can be paid out of surplus allowed by the New Hampshire Tax Commission. This would not affect the tax rate.

The Selectmen feel that the reconstruction of Crystal Avenue from Broadway to Ross' Corner is of paramount importance to the town. We have an article in the warrant for this purpose which will be explained in detail at the town meeting.

Also, there is an article in the warrant to build a supplemental water system in conjunction with our water exploration report.

These last two articles will call for a Bond Issue over a ten year period to insure completion of the work.

The Board of Selectmen feel they have presented a comprehensive and accurate budget for your consideration.

Respectfully submitted,

Donald Bentley  
Emile J. Bienvenue  
Harold E. DiPietro

# - TOWN WARRANT -

## THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Derry qualified to vote in town affairs:

You are hereby instructed to meet at Veterans Memorial Building in said Town on the second Tuesday of March next, at ten o'clock in the forenoon, to act upon the following subjects:

By vote of the Selectmen, the polls for this meeting will remain open from ten o'clock in the forenoon until seven-thirty o'clock in the afternoon, and as much longer thereafter as the Town, at the opening of the meeting, may vote.

1. To elect a Selectman for three years, Town Clerk, Treasurer, Collector of Taxes, Library Trustees, Trustees of the Trust Funds, Cemetery Trustees, Auditors, and other necessary Town officials for the year ensuing.

2. To vote to raise and appropriate such sums of money as may be necessary for the maintenance of the poor, for laying out and repairing highways, for building and repairing bridges, for suppression of moths, for police department, for the Derry District Court, for hydrant service and electric lights, for salaries of Town officials, for the Board of Health, for the expense of the Town Hall, for support of the libraries, for State and County taxes, for the observances of Memorial Day, for aid to the Derry Visiting Nurse Association, for playground purposes and for band concerts, for cooperating with the State and Federal governments in the control of insect pests and white pine blister, and for all necessary charges arising in said Town, and pass any vote relating thereto.

3. To see if the Town will vote to authorize the Selectmen to sell at public auction and convey any real estate acquired through deeds from the Collector of Taxes or as reimbursement for assistance furnished to citizens, providing that in the case of tax deeded real estate the previous owner, or his or her heirs, if known, or its successors or assigns in the case of a corporation, shall have first opportunity to purchase the same, and pass any vote relating thereto.

4. To see if the Town will vote to authorize the Selectmen to incur debts for temporary loans in anticipation of taxes of the municipal year in which such debts are incurred and made payable therefrom, by such vote, and pass any vote relating thereto.

5. To see if the Town will vote to adopt the provisions of Revised Statutes Annotated, Chapter 80, Section 52-a, providing for the pre-

payment of taxes, and authorize the Collector of Taxes to accept payments in prepayment of taxes, and to further allow the Collector of Taxes to discount taxes according to the following schedule or such other schedule as the meeting may determine, fix the rate of such discount, and pass any vote relating thereto. The Selectmen recommend the following schedule and discount: 2 % discount on taxes prepaid in full, or on installments of not less than \$100.00, prior to July 1, 1967; 1 1/2% discount on installment payments of \$10.00 or more until tax bills are issued; and a 1% discount from the time that the tax bills are issued until 30 days after date of invoice.

6. To see if the Town will vote to raise and appropriate the sum of \$1,753.93 for aid under apportionment A of Town Road Aid Plan to match a State appropriation amounting to \$11,692.84 for the purpose of construction of Class IV and Class V highways, and pass any vote relating thereto.

7. To see if the Town will vote to raise and appropriate the sum of \$6,250.00 for aid under apportionment B of Town Road Aid Plan to match an appropriation by the State of \$6,250.00 for the purpose of construction and reconstruction of Town highways as provided for in said Town Road Aid Plan, and pass any vote relating thereto.

8. To see if the Town will vote to raise and appropriate the sum of \$200.00 to be used in cooperation with State and Federal funds for the control of White Pine Blister Rust within the confines of the town, and pass any vote relating thereto.

9. To see if the Town will vote to transfer the sum of \$1,000.00 from meter receipts to be used for meter expense, and to transfer the balance of said meter receipts to the Trustees of Trust Funds to be added to the capital reserve funds, and pass any vote relating thereto.

10. To see if the Town will vote to authorize the Selectmen to transfer the sum of \$66,198.76 from the Sewer Account to the General Fund, to be used with a state grant of \$14,672.00, to pay the expense of principal, interest and maintenance of sewers, and pass any vote relating thereto.

11. To see if the Town will vote to authorize the Selectmen to withdraw the sum of \$4,000.00 from the sewer capital reserve fund, established under Article 10 of the 1966 Town Warrant, and to expend said sum for the purchase of a sectional rodder machine for cleaning sewer lines, and pass any vote relating thereto.

12. To see if the Town will vote to authorize the Selectmen to borrow a sum not to exceed \$160,000.00 under the terms of Chapter 33 of the Revised Statutes Annotated entitled "Municipal Finance Act," and any amendments thereto, and execute serial notes in the name of the Town

in payment therefor, payable in equal annual installments over a period of ten years, and further authorize the Selectmen to negotiate the interest payments thereon and do any other act necessary to accomplish the purpose thereof, the proceeds from said loan to be used for the acquisition of land and the development and enlargement of the present water system, and pass any vote relating thereto.

13. To see if the Town will vote to authorize the Selectmen to borrow a sum not to exceed \$200,000.00 under the terms of Chapter 33 of the Revised Statutes Annotated entitled "Municipal Finance Act," and any amendments thereto, and execute serial notes in the name of the Town in payment therefor, payable in equal annual installments over a period of ten years, and further authorize the Selectmen to negotiate the interest payments thereon and do any other act necessary to accomplish the purpose thereof, the proceeds from said loan, together with assistance from the State, to be used for the construction and reconstruction of Crystal Avenue from Broadway to Ross' Corner, and pass any vote relating thereto.

14. To see if the Town will vote to raise and appropriate the sum of \$4,180.00 for the purpose of construction of a sidewalk along South Main Street from the present Derry Village School to the driveway to the new school in Derry Village, and pass any vote relating thereto.

15. To see if the Town will vote to authorize the Selectmen to set the pay of the Justice, the Associate Justice and the Clerk of the Derry District Court in accordance with the maximum amounts provided under the statutes now existing, and pass any vote relating thereto.

16. To see if the Town will vote to transfer a sum not to exceed \$6,000.00 from the Parking Lot Fund held by the Trustees of Trust Funds and expend the same for the purposes of developing and paving parking lots adjoining Manning Street and accesses to said parking lots over Manning Street and from First National Bank property, and pass any vote relating thereto.

17. To see what action the Town wishes to take on the question of whether the zoning amendments as proposed by the Planning Board shall be adopted by the Town. To be voted on by ballot during polling hours.

18. To see if the Town will vote to establish a Recreation and Parks Fund, to be administered by the Trustees of Trust Funds, to which individuals, corporations or other donors may make gifts, to be held in trust by said Trustees of Trust Funds, said fund to be used by the Recreation and Parks Commission for the general purposes for which said commission is by law authorized or for such special purposes, authorized by law, as limited by the maker of any such gift, and pass any vote relating thereto.

19. To see if the Town will vote to accept the gift of the triangular shaped parcel of land situated at the intersection of Nesmith Street and the Chester Road from the Estate of Dorothy B. Underhill, and pass any vote relating thereto.

20. To see if the Town will vote to authorize the Selectmen to dispose of the parcel of land acquired from Willis L. Clay and Ruth H. Clay by deed dated March 21, 1966, and pass any vote relating thereto.

21. To see if the Town will vote to discontinue the following portions of highways: That portion of the highway known as Featherbed Lane from its intersection with Route 28 to the boundary of the Harvey Feinauer residence; that portion of the highway known as Old Lowell Road, so-called, from its intersection with the Northerly line of Island Pond Road to its intersection with Lane Road; and that portion of the highway known as Town Poor Farm Road from its intersection with Route 28 to its intersection with Silver Street, and pass any vote relating thereto.

22. By petition: To see if the Town will vote to accept Escumbuit Road for a distance of approximately 2,100 lineal feet, this road to be surfaced as soon as possible, and funds to be raised for the same.

23. Be petition: To see if the Town of Derry will vote to appropriate the estimated sum of three thousand dollars (\$3,000.00) necessary to install a sidewalk on Rollins Street and Rollins Street Extension running from Crystal Avenue to Maple Street. Also the estimated sum of five hundred and seventy five dollars (\$575.00) to install a fence along Rollins Street Extension by Lower Hood Pond, to eliminate and correct the dangerous and hazardous conditions in this area.

24. To see if the Town will vote to request the Recreation Commission to arrange for band concerts during the summer of 1967 at the Mac-Gregor Park, and pass any vote relating thereto.

25. To hear the reports of agents, auditors and committees heretofore chosen, and pass any vote relating thereto.

26. To appoint any necessary committee on any article embraced in this warrant.

27. To transact any other business that may lawfully come before this meeting.

Given under our hands and the seal of the Town of Derry, this 21st day of February A.D. 1967. Selectmen of the Town of Derry.

Donald Bentley      Harold E. DiPietro  
Emile J. Bienvenue

## REPORT ON ADDITIONAL WATER SUPPLY

CAMP, DRESSER & MCKEE

• Consulting Engineers .

One Center Plaza  
Boston, Mass. 02108  
Area Code 617, 742-5151

August 29, 1966

Board of Water Commissioners  
Adams Memorial Building  
Derry, New Hampshire

Gentlemen:

At the request of the Board of Water Commissioners, we have conducted an exploration for additional ground water supply in Derry and report on our findings herewith. The results of our investigation are summarized below and presented in detail in the main body of this report.

### Summary

Exploration for locating potential additional ground - water sources was recommended in our letter report to the Board of Water Commissioners 'Exploration for Ground Water Supply,' dated August 22, 1960. At that time, we suggested that the Board "should develop a supply which will produce at least 200 gallons per minute and preferably substantially more than this amount." A program of exploration was outlined and a limiting cost presented which was deemed sufficient for the exploration to be carried out satisfactorily.

Although the 1960 test well work did not locate a new source of water supply additional capacity, in the amount of 100 gpm, was provided from seven test wells installed several hundred feet to the south of the existing dug well field. While these improvements did provide an inexpensive and desirable addition to the existing supply they did not provide an increase in capacity to the amount hoped for. In our 1961 Report we recommended a continuation of the exploration program, in an attempt to find other possible sites for a ground-water supply, not necessarily close to the existing distribution system. In 1965 and 1966 funds were provided by Town Meeting Action for the conduct of the present exploratory program as reported herein.

During the current investigation two sites were found at which expected yields matched or exceeded the figure used in 1960 as a measure of suitability to consider development of a permanent supply. The first area was designated as Site 8 and was commonly referred to as the Ski Tow Area. This area was upstream of the present supply and the yield from the existing supply facility might experience a decrease if a substantial draft of water was taken at from this location. A more direct deterrent to additional testing in this area was the excessive iron content of the water in this area making it expedient to locate another possible source which would be less costly to develop and operate.

Exploratory well 27 at Site 9 provided sufficient promise to proceed with an extended pumping test on a group of small diameter wells at this location. The results of this pumping test indicated that a 24-in diameter well with an 18-in diameter screen would have a capacity slightly in excess of 250 gpm and that there was a possibility of developing a second well at this same general location.

We recommend that the initial well be constructed at the location of test well No. 27 and that adequate land be acquired to provide for a second location. We expect that the Town will obtain the right to use the

current access to this location and that this road can be used without improvement. The construction of a connecting main would be required from the well to the end of the present distribution system on Kendall Pond Road. The estimated cost for developing this supply with the initial well and water main connection totals \$127,500, including an allowance for engineering and contingencies but exclusive of land costs.

We wish to thank Mr. Harold Bean for his cooperation and for the assistance provided by the Water Department throughout the exploration program.

We are indebted also to the New Hampshire Water Pollution Commission for the several water analyses performed by that agency during this project.

Very truly yours,

CAMP, DRESSER & MCKEE

By Darrell A. Root

DAR/slw

# REPORT ON ADDITIONAL WATER SUPPLY

## INTRODUCTION

At the request of the Board of Water Commissioners, we have conducted an engineering investigation relative to locating an additional water supply for Derry. While the present supply has been able to meet the demand for water without the necessity of imposing restrictions on useage the drought conditions of the last few years has shown that little if any surplus is available to serve an increase in population or to provide an assurance of any quantity of water for prospective industry. This condition has existed for a number of years.

Table 1 lists the consumption figures for the last ten years. Although the average consumption in 1965 was approximately 16% less than in 1960 the 1960 figure was 11% over the 1950 average useage. The use of water consumption to bill for sewer charges along with the loss by fire of two major water users may account for the reduction in useage in the last five years. It is our opinion that the useage will continue to increase due to increases in both individual consumption and population growth. Of course a single industry could cause a very sizeable increase at any time.

During the winter of 1960-1961 an exploratory test well program was carried out without locating a satisfactory additional supply. In compliance with our recommendations, at that time 7 additional 2-1/2-in diameter wells were installed several hundred feet to the south of the original 17 dug wells and connected to the same suction main. Augmenting the old supply by this means was intended only as a temporary measure. Our 1961 report noted that although this expedient would allow an additional 100 gpm (gallons per minute) to be pumped that it would not increase the overall yield appreciably and went on to recommend a continuation of the exploratory program. In 1965 the present exploratory program was initiated.

Subsequently, Camp, Dresser & McKee was authorized by the Board to prepare a contract and specifications for the installation of test wells and related work. Bids were received in September, 1965. The Layne-New England Company submitted the lowest bid for this work and were awarded a contract under which work was started on October 10, 1965.

## PRELIMINARY STUDIES

As noted at the beginning of the report, the original ground-water exploration program was started in 1960. During the course of this present investigation our previous ground-water work was reviewed. With

the exception of test well No. 8, which was located just north of Route 28 and adjacent to Beaver Brook, all of the test well work in 1960-1961 was concentrated in an area between the existing pumping station and the present dump location.

A review of the New Hampshire Department of Resources and Economic Development publication "Rock Well Survey" indicates that relatively shallow depths to ledge can be expected in Derry. This booklet prepared by the State Geologist, Glenn W. Stewart, and Carole Ouelette listed an average depth to ledge of only 18.5-ft based on information from 150 wells in Derry. The ground-water resources map, prepared by the U. S. Geological Survey for Eastern New Hampshire includes only a small corner of Derry. The majority of the Derry area is beyond the limits of the study area as shown on the map. This map and the general ground-water potential was discussed with the Engineers from the New Hampshire Water Pollution Control Commission, Mr. Glenn W. Stewart, State Geologist, and Mr. James M. Weigle of the U. S. Geological Survey.

The original selection of sites for the installation of test wells included nine locations. After examination of the locations with Mr. Erickson of the Layne-NewEngland Company and Mr. Bean, Superintendent of the Derry Water Works the site between Ballard Pond and Warner Road and the site between Beaver Lake and Derry Village were discarded inasmuch as the presence of boulders and ledge outcrops indicated that successful results at these locations would be extremely unlikely. The following is a summary of the results of the work at the other six locations. The site numbers are located on the plan Fig. 2 and the logs for all test wells are as recorded in Table 2.

Site No. 1 is located in a sandpit off High Street westerly of the railroad crossing. A depth of 72-ft was reached at the site, but the lower 13-ft was clay and most of the depth to 59-ft was fine sand which did not yield water freely.

Site No. 2 is near Beaver Brook at the rear of the baseball field adjacent to South Avenue. A depth of 38-ft was reached and the material encountered was largely fine sand with traces of clay.

Site No. 3 is westerly of the railroad and Site No. 2, and south of an existing sand pit. Here refusal was encountered at a depth of only 8-ft.

Site No. 4 is located easterly of Beaver Brook about one-half mile downstream from the existing well field. Eight test wells were driven in this general area and the best well penetrated to a depth of 32-ft into fine to medium sand and gravel. The static water level (before pumping), however, was 16-1/2-ft below the surface of the ground. A short pumping test on the well indicated a specific yield of 14 gallons per minute per foot of drawdown. Due to the lack of adequate depth of

water, a completed facility at that location would yield less than 100 gallons per minute which does not appear to warrant further consideration.

Site No. 5 is in a sand pit about 3-1/2 miles east of West Derry, northerly of Island Pond Road and southwesterly of Ballard Pond. Two test wells at this location reached refusal at a depth of about 12-ft.

Site No. 6 is located about 5-1/2 miles east of West Derry near Taylor Brook and one-fourth mile west of Island Pond. An excavation forming a pool at that location gave some promise of possible water supply development. However, of the three wells driven here, the deepest was only 27-ft and pumped only 25 gallons per minute.

#### GROUND-WATER EXPLORATION

On December 27, 1965, a letter was prepared as an Interim Report to the Board of Water Commissioners reporting on the progress of the work in 1965 and recommending that three additional sites be considered for future work in 1966. These sites were as follows:

Site No. 7 - Easterly of Shields Brook and south of the end of Scobie Pond Road.

Site No. 8- North of the Ski Tow near the confluence of West Running Brook and Beaver Brook.

On the easterly side of the brook about 1200-ft southwesterly of Adams Pond. (No number is assigned to this location as it was not explored since Site No. 9 below appeared to offer a better location).

Subsequently, Sites No. 9 and No. 10 were added for consideration. These sites were adjacent to Beaver Brook south of Gilcreast Road in Londonderry and at the Kimball Lumber Yard near the junction of Routes 93 and 102, respectively.

One of the exploratory wells at Site No. 7 showed what appeared to be a 20-ft thick layer of good water bearing sand and gravel below an 8-ft layer of peat. However, when pumped at 18-in of vacuum only 20 gpm could be pumped. A second well in the area showed a similar condition and a third well was installed in a material which was too tight to pump. The relatively shallow depth combined with the evidence from the third well that the aquifer was apparently limited to one or two low capacity wells indicated that it would not normally be considered as a site for development of a municipal ground-water supply.

At Site 8 in an area between Beaver Brook and West Running Brook, good sand and gravel formations were found at relatively shallow depths. Test wells No. 18, 19, 20, 21, 22, 23, 24, and 25 were installed in this

area. Although an extended pumping test was not conducted at this location, the single short term pumping test that was performed indicated that it was probably possible to develop a supply at this location which would provide in the excess of 200 gpm. A short-term pumping test at this location on a single 2-1/2-in well (No. 20) showed a drawdown of 5-in and 7-in at distances of 88 and 67-ft from well No. 20 which was pumped at a rate of 40 gpm. A full scale, high - capacity pumping test was not carried out because of the excessive iron content of the water. The problem of iron is further discussed under the section on water quality.

Inasmuch as Site 9 was located in the Town of Londonderry, the exploration of this site was delayed until the most promising of the sites within Derry had been tested. While it would have been more desirable to have located an aquifer with a greater depth of sand and gravel, the 35-ft of good material which was discovered does give an adequate depth to warrant the installation of a gravel-backed well. Initial pumping from a single well at the location of well No. 27 showed that at a pumping rate of 56 gpm a drawdown of only 1-ft, 4-in was observed in an observation well 2-ft distant from the pumping well. While no direct comparison can be made between the capacity of a small diameter well such as this and a large production well except for theoretical values, which seldom if ever are matched in practice, these results were sufficiently encouraging to justify an extended pumping test. The results of this extended pumping test are reported hereinafter.

Additional exploratory wells in this area showed that ground-water conditions closer to the Derry-Londonderry line were less favorable than the No. 27 location. Exploratory wells to the south of well No. 27 in the Site 9 area showed adequate depths of water bearing sand and gravel for possible development of an additional well at a future date. While well No. 27 was the only location at which an extended pumping test was conducted, we recommend that the property as far south as the southerly line of the Kimball property be acquired for water supply purposes. The location of the exploratory test wells, well group and the approximate limits of the property that we recommend to be acquired at this site, is shown on Fig. 3.

### EXTENDED PUMPING TEST

At the location of exploratory well No. 27 five additional 2-1/2-in wells were installed to form a four foot diameter circle. Five of these wells were connected to a common suction and the original well was used for observation of the water level during 8 days of pumping and subsequent recovery period. Observations of ground-water levels were also made in wells 50-ft and 400-ft southerly of the well group during the two periods noted above.

Pumping was started on June 9, 1966, at an initial rate of 293 gpm

which was reduced to 270 gpm by 8:30 a.m. on June 10, 1966, and maintained at this rate until June 14, 1966. For the last three days of the test the pumping rate was maintained at 267 gpm. The drawdown of the ground-water during the pumping period and the recovery of the water level after pumping had been discontinued is shown on Fig. 4. Rainfall during the period of observations is shown in Table 5. At the 267 gpm pumping rate the well group stabilized during the last 51 hours of pumping. At this pumping rate the radius of influence was less than 800-ft during the period at which stability was recorded. Recovery readings made at the end of the pumping test appeared to reach full recovery within 8 days equaling the time of pumping. It was unfortunate that persons unconnected with the work in progress removed the pipe used for recording the brook level after only two days of the recovery period. The additional readings would not change the above statement concerning the length of the recovery period significantly.

From the results of these tests, we are of the opinion that a permanent well yielding 260 gpm or 375,000 gpd (gallons per day) could be developed at the test well group location. If a second well some 800-ft south of the group location is later found practical and constructed it could conceivably cause a slight reduction in the capacity quoted for the original well. We expect, however, that such a reduction would not in any way affect the operation of the original well and in all probability would not be apparent unless specific tests were made to check this for record purposes.

#### WATER QUALITY

During the course of the 1960-1961 investigations, 9 well locations were tried and during the present work a total of 38 well locations were explored. While this relatively extensive exploration has not exhausted all of the possible ground-water sites that might be suitable for municipal development, it has covered the most desirable locations. The above studies have shown a possible ground-water source on the ski tow area designated as site No. 8 on Fig. 2. As noted previously the high iron content of the water from this area resulted in a decision to suspend further study of the area.

Table 3 lists the various water analysis made during the conduct of the exploratory work. An examination of the iron content from exploratory wells at site No. 8 showed concentrations as high as 4.20 ppm (parts per million) of iron. This is over three times the iron present at the existing water supply. The existing supply has about three times the iron concentration recommended by the U.S.P.H.S. (U.S. Public Health Service Standards). While these concentrations are not anticipated to be injurious to health concentrations in the order of the existing supply are expected to result in reoccurring complaints because of the color, taste and the staining of laundry which is caused by the iron. The presence of manganese in a quantity greater than recommended by the U.S.P.H.S. makes treatment relatively costly. From our experience

in investigating similar water quality problems, we would expect that iron removal facilities where manganese is present in addition to the iron would require an initial expenditure in equipment and housing of approximately \$200,000 to provide treatment for a million gallons of water per day.

While the exploratory wells No. 33 and No. 38 at Site 9 did show an iron concentration higher than desirable in both cases the iron was less than exists in the present supply and in both cases were at locations over 400-ft away from the well group. The analysis of the water from exploratory well No. 27, location of the well group, showed a water of excellent quality in all items reported by the Department of Health. During the extended pumping from the well group periodic samples were taken and no change in the quality of the water was apparent during the 8 days of pumping. The analysis of the water samples taken during the extended pumping test are shown in Table 4.

Full assurance that this location will continue to be iron free cannot be made in this or any location. In the remote possibility that iron should increase with continuous useage, it is unlikely that the concentration will be more than the present supply and would be relatively inexpensive to treat because of the absence of manganese.

#### RECOMMENDATIONS

We recommend that the Kimball property in Londonderry and the adjacent parcels in conformance with the general recommendations shown in sketch form on Fig. 3, be acquired for water supply purposes. We further recommend that a well, pumping station, and connecting main, be constructed in order to utilize this proposed source of water supply. We do not propose to construct any additional access road and expect that the present gravel roadway to the proposed well site would serve without any new improvements at this time.

The estimated costs, exclusive of land costs, for the proposed construction are as shown on Table 6. The proposed 35 ft well would be designed with an 18-in diameter screen surrounded by a 4-in thick gravel pack. The construction of the pumping station would be of a minimum size approximating 10 by 16 ft in dimensions. Inasmuch as the present supply provides emergency standby pumping equipment standby power has not been considered in the current cost estimates included herein for the proposed supply. The proposed supply would be connected to South Street, in Londonderry, by a short connection approximately 500 feet in length. South Street is an extension of Kendall Pond Road where the proposed main would connect with the existing Derry distribution system.

The addition of the proposed new supply, while not equal in capacity to the existing water supply, will provide an adequate supplemental

source so that rehabilitation of the existing well field can be considered. In this regard, records should be started on a basis of three times a week recording the water levels in certain key dug wells and in observation wells near the 2-1/2-in driven wells. These observations should be recorded together with a reference to how long the pumps had been operating or how long they had been shut down when the reading was made. These readings are most important in dry weather and would not be needed so frequently during the winter or wet season. Similar records should be maintained at the new supply location in order to better evaluate a possible second well at this site.

Gerald H. Cox, Director

1966 DIRECTOR'S REPORT

With the ever-increasing leisure of the general public, demands for facilities to enjoy their leisure has grown; Derry is no exception. The program, as well as the facilities, has been expanded during 1966. The programs, likewise, have been expanded to include everyone of all ages. There is, of course, still room for improvement, but the Recreation and Park Commission has undertaken to provide some activity throughout the year for every person of the community. The Recreation and Parks Department, now in its fourth year of existence, has made considerable advancements since its conception. These achievements have been shown in facilities and physical areas, as well as the program content. The commission is a five-member board, appointed by the Selectmen, and are responsible for their actions to the Selectmen. Progress is being made constantly in the activities of the department, and we are looking forward to an even better year in 1967.

An explanation of the program has included assistance to the revival of the Winter Carnival in Derry on a small scale. The establishment of a ski school, free of charge, for children and adults in our community, a chess club beginning, and a fly-tying activity for the fishermen; the establishment of a TOPS group, which is devoted to the sensible loss of weight, assisting with the dog obedience group, and the Policemens' childrens' Christmas party. The facilities have been improved in a number of ways; at Hood Park, official horseshoe pits have been

built, and two sets of chinning bars have been installed. Poison ivy control has begun around the building and play areas also. Fireplaces have been set in place for public use, and considerable brush clearing has taken place to open up the area for greater free play. At MacGregor Pioneer Park, the bandstand has been renovated and repairs have been made to make it presentable. Landscaping and the removal of some objectionable shrubbery has also been taken care of with the Garden Club working there to replant. Additional benches have been added to the park for use by the visiting public, and additional trash barrels have been added for convenience. At O'Hara Park, the Little League field, the top section of the backstop was installed, and, across the way at Veterans' Field, loam has been brought in to recondition that field. At the Alexander-Carr Playground, more picnic tables have been added for the public to enjoy, and a toboggan run has been added to the winter sport facilities. A parking lot and access path was constructed on the Rockingham Road side of the park to make it easier for the public to get into the park area itself. The Recreation budget was increased to accommodate the many advancements which have taken place, but it should be kept in mind that much of this money is under trust funds, and can only be spent as the trust fund indicates; this is to say that the income for MacGregor fund can only be spent at MacGregor Park; likewise, the income from the Carr fund can only be spent at the playground area. The rest of the program is supported by tax funds. The program in 1966 included many fine activities, including trips for our Senior Citizens, housewives instruction in skiing and tennis, mens' basketball and volleyball programs, and of course, the Pin-Ups basketball program for ladies.

We worked with the scout groups, home demonstration groups, 4-H groups, various craft projects; other activities for the youths included Jet Jr. basketball, grasshopper baseball, and flag football. Round and square dance instruction were also available in our community. The slo-pitch softball was very popular with the men of the town, as was the horseshoe tournament. Our summer activities, which started after July 4, include a morning of arts and crafts, games and play on the equipment at the playground at Hood Park. Our swimming program, due to the fact that Hood Pond has been closed by the state for swimming, took place during the afternoons at Mr. Maloof's pond at the top of Ryans' Hill. Special events throughout the year have been highlights of the various seasons. These events included the Winter Carnival activities, kite-flying contests, Easter-egg drop, dog show, fishing derby, turkey shoot, Christmas in July in the playground along with Smokey the Bear; also on the playground, pony rides, a visit by the fire truck, and a surprise day. A field day was also held at the end of the regular playground season. Window painting for Halloween and Santa's workshop as well as banquets for flag football and Jet Jr. basketball, are among the special events that we may participate in.

The number of people participating in our program has also increased. A total attendance figure of 73,722 surpasses last year's attendance by some 1,011. In order to explain this attendance figure, we say that we

had this many participant sessions, not different people participating. For instance, if a child comes to the playground, that is counted as 1 participant; if he also comes to swimming, that is counted as another participant; if he also plays football and basketball, we count him as a participant in those activities. So, the figure is not different people participating, but the number of times people have participated in the various activities of the Recreation and Parks Commission. The greatest number of participation was in January when the Winter Carnival and skiing were at their height, and during the summer months when the playground, swimming, baseball, and softball, and the outdoor facilities were being used the most. The resources and assistance of the department, as well as the facilities, have been utilized by various youth-serving agencies and special interest groups in town. These groups include the Boy Scouts, Cub Scouts, Brownies, Girl Scouts, 4-H, Grange, Antique Auto, Garden Club, Derry Sportsmen, Jr. Rifle Club, Derry Little League, TOPS, Derry Jets, Campers, Merrimack Valley Dog Club, various church groups, and Spacetown Cadets. The Recreation office also answers many inquiries and requests by telephone.

Volunteers are still an important factor in the Derry Recreation Program; we depend greatly on them for our supervision, coaching, officiating, and organization. Due to the lack of space, we are unable to give thanks to all who have volunteered their assistance in the programs during the past year, but we must make mention of the fact that without the cooperation of the Derry School Board, whose facilities we utilize for many programs, we would not have many of the activities that we now enjoy. Likewise, without the generosity of Mr. Tom Maloof, we would not be able to conduct a successful swimming program as we have in the past. The Lions' Club, Police Relief, Booster Club, and the American Legion have also made it possible for various youth activities and sponsored various teams, adding to the well-being of different leagues. Also, at the top of the list of folks to thank, are the five recreation commissioners, whose names are listed on the front of this report. These people give of their time and energy and are sincere and enthusiastic in their approach to the recreational problems of Derry. Our summer staff consisted of Mr. "Cappy" Smith, Miss Denise Brown, Miss Judith Simpson, and Mr. Kenneth Simpson. The office duties were split among Miss Lizabeth Cowgill and Miss Marcia Clukkey. Mrs. Evangeline Palmer also helped us out from time to time in the office and with the Senior Citizens. The Director of Recreation, Gerry Cox, as well as his duties in town, is also a member of the New England Advisory Council on Recreation and Parks, and belongs to the New Hampshire Park and Recreational Society. He was also a co-chairman for the summer leaders institute, and we are presently working on obtaining a Recreation Department at U.N.H.

Plans for 1967 include some additions and refinements in facilities and programs. More fireplaces and picnic tables will be added to the Alexander-Carr Playground Park, and we are hoping for some addi-

tional land on that tract to assist us with the facilities there. At the Veterans' Field, on Railroad Avenue, a new surface will be seeded and prepared for ball as soon as the weather permits, and we hope that Hood Park will be available for swimming this year. Our problems this year have also kept us busy, as you're bound to have some problems. A continuing problem seems to be vandalism in the various areas; doors kicked in, window and locks broken, equipment stolen or damaged beyond repair, and even a fire on one of our buildings last year. We are still trying to locate a tract of land for a town shooting range, and we're closer to it now than we have ever been before. Some repairs have been made to the Recreation Office, but we still need some heat and floor covering. The need for more maintenance is still paramount, and the specific office hours for the Director have been somewhat planned out.

The Recreation Commission meets twice a month on the second and fourth Wednesday evenings; their meetings are open to the public and they welcome anyone who has anything to say, or complaints they wish to register. Constructive criticism is welcome in any area; facility or program-wise, and I'm sure they will continue to strive for the best program possible with the amount of money budgeted for that purpose. Continued cooperation is necessary if we expect the program to continue on an even keel. With this in mind, I think we can look forward to an even better year in 1967.

Respectfully submitted,

Gerald H. Cox  
Director of Recreation and Parks

## Derry Library

The Derry Public Library has had another very busy year, and our circulation continues rising. By direct requests to the State Library, we have borrowed a record-breaking number of books, with which to supply our students and adults with books not available at our own Library. This is a service which increases every year and one which we are pleased to offer to the public.

The Derry Public Library has been the meeting place for all the meetings of the South-East Area Advisory Board, as well as for the Book Meetings to which Librarians in this area have been invited. The elementary grades and kindergarten groups have visited the Library throughout the year, at which time many of the children received their first Library card.

National Library Week and Children's Library Week were observed with appropriate posters and many new books; a month-long display of our books was presented at the First National Bank and proved highly successful. Work done by the public school children was also

displayed at various times during the past year.

The Librarian has attended all Library meetings held in this and surrounding areas and completed a ten week course given at Notre Dame College, in Manchester.

Our Reference section increases, with the following volumes being purchased: 12 volumes of Audubon Nature Encyclopedia; 10 volumes of Popular Science Encyclopedia; 18 volumes of Our Wonderful World; Who's Who in America; Who Was Who in America; Current Biography; Health Guide; World Almanac; annual supplements for World, Compton's and Americana Encyclopedias.

Again, we extend sincere thanks to our many friends who have made donations of books, flowers, bookmarks and other gifts to the Library. A special mention is given to the Derry Garden Club for their very beautiful decorations for the holidays, and for their continued interest.

To Mrs. Ruth Johnson, now retired, and my other assistants, I wish to offer my thanks and appreciation for their efficiency and support.

We hope to offer to the people of Derry, as complete and efficient Library service as is possible, and extend a sincere invitation to visit your Library and take advantage of its collection.

The Library hours are:

Monday through Friday: 2:00 until 8:00

Saturdays 2:00 until 5:00.

Respectfully submitted,  
Annie Ashton  
Librarian

#### TAYLOR LIBRARY

The Taylor Library has had a very busy and successful year. The circulation continues to remain at a high level.

The Library has become affiliated with the State-wide Development Program and is represented at the Advisory Council by Mrs. Howard Dearth of East Derry, one of our trustees.

The Bookmobile has visited five times. We have borrowed seven hundred and sixty one books. Supplementing our own collection by using this source and the State Library in Concord allows us to have a much wider choice to offer our patrons.

National Library Week and Children's Book Week were observed with posters and new books.

The Art exhibit, borrowed from Pinkerton Academy, was enjoyed by everyone.

We extend our appreciation to Mrs. Ira Moore for loaning us her shell collection.

We wish to thank the Derry Book Club and all individuals who have donated books to the library during the past year.

The Taylor library is open on Tuesday afternoons from 2:00 until 5:00 and 7:00 until 9:00 in the evening and Thursdays from 2:00 until 5:00 and 7:00 until 8:00.

Respectfully submitted,  
Ruth A. Varney, Librarian

During the summer seven men attended Fitzwilliam Fire School and five men attended Gilford Fire School in March.

The members of the E. D. F. D. participated in two fire training classes sponsored by the State Dept. of Education and instructed by Alfred Dick.

The men volunteered a total of 301 hours to better defend their community by attending these fire training classes.

In March the district voted to purchase a new truck from Howe Fire Apparatus Co. It was tested and approved by the State Fire Underwriters and on November 7th the E. D. F. District received their new combination pumper truck.

Eugene H. Matteuzzi Jr.

 No  1214

# Planning Board

The main function of the Planning Board this year has been the examination and review of plans of proposed subdivisions of land for the purpose of insuring their compliance with the subdivision regulations. The board held public bi-monthly meetings to review and discuss proposed subdivisions and approved 48 plot plans comprising of over 300 lots.

During the spring, the board met weekly to discuss proposed changes in the LAND SUBDIVISION CONTROL REGULATIONS. The purpose of the changes was to formulate regulations that would require the developers to build better and more complete roads, thereby, preventing costly repairs and improvements which in the past has been a burden to the taxpayer. After a public hearing held on July 6, 1966, the proposed changes were put into effect on August 11, 1966.

Early in the year, the board was increased in size from five to seven members at which time Wilbur Palmer and Winston McCarty were appointed to the board.

During this past fall, the Board met weekly to propose changes in the present zoning laws. These proposals after having had public hearings are being voted upon at this town meeting. The proposals are to expand the retail business zone, to give the town a mobile home zone, to clarify the industrial zones, and to clarify the zoning laws in general.

## ZONING BOARD

The Derry Zoning Board of Appeals held a total of 84 hearings in 1966 as compared to 108 in 1965. A good share of these related to small business enterprises such as gift shops, home offices, etc. which were located in the residential zone.

Mobile Home hearings were next in number with "small lots" and "set backs" following.

The board wishes to point out that this "small lot" area is becoming an area of concern. Our lakes have many lots, by the shore as well as back lots, which are of such small size that it is doubtful if they can maintain effective sanitary conditions to suppress water pollution. Particularly as many of the camps are now being occupied throughout the entire year.

The following is a list of cases heard as compared to those of 1965 :

		1965		
No.	% of Total	Granted	Denied	
56	52%	41	15	Business
30	28%	7	23	Trailer
12	11%	8	4	Set-back
10	9%	2	8	Small lot
108	100%	58	50	
		1966		
36	81%	29	7	Business
21	52%	11	10	Trailer
7	100%	7		Set-back
16	50%	8	8	Apartments
4	100%	4		
84		59	25

## REPORT OF CIVIL DEFENSE

What will you and your family do if a major disaster strikes tonight? What would happen to the Town of Derry if the country came under nuclear attack tomorrow?

Survival under these conditions is the objective of the local Office of Civil Defense Organization (O.C.D.) which has developed an emergency program for the Town of Derry, with trained personnel who are available at a moment's notice - day or night. Your local O.C.D. has an Emergency Operations Center in which every Town Department can operate if Derry were cut off from the rest of the world at any time.

The New Hampshire Civil Defense Law of 1951 provides for the appointment of a Civil Defense Director for every city and town and the development of an emergency operating plan. The O.C.D. acts under the authority of the Selectmen in any emergency situation.

Derry's O.C.D. came into being years ago and in 1962 Robert A. Ross was appointed C. D. Director and operations began in the lawyer's office at the Adams Memorial Hall. The following year a \$500.00 budget was appropriated and C.D. Headquarters were located over the bank. In 1964 the budget was increased to \$1,000.00. Since 1965 the annual C. D. budget has been \$1,500.00 and in the fall of that year the O.C.D. set up an Emergency Operations Center in the basement of the Post Office.

Through the help of the Postmaster and Col. Richard Low of the General Services Administration (which owns the Post Office Building), a 36 x 58 foot room has been provided free of charge for the use of the O.C.D. A concrete floor was installed, for which the Federal Government and the Town of Derry each paid half, and wall partitions and light have been installed. Office equipment was procured from Government Surplus. C. D. funds have provided a typewriter and a motion picture projector for training purposes.

Special equipment has been purchased, this includes two mobile radio transceivers, two walkie-talkies, and a radio base station, which are being used by the Police Department; a 60 foot radio antenna tower and an auxiliary power plant at the Post Office; an air-raid warning and fire alarm system which has been installed at the East Derry Fire Department. Future plans call for the further development of the emergency radio system to include fire department communications.

The O.C.D. also has a fully equipped medical field hospital and as soon as there are enough trained personnel, it is hoped the Town will have a rescue unit of its own.

Derry plays an integral part in the C.D. Warning Relay System and is responsible for relaying messages to Londonderry, Windham, Salem, Atkinson, Sandown and Plaistow. Many local radio operators

play an important part in the Radio Amateur Civil Emergency Service (R.A.C.E.S.) which is tied into the National Air Raid Warning System (N.A.W.A.S.)

Derry currently has three licensed fall-out shelters which have been stocked by the Federal Government and which will accommodate approximately 400 people. Another shelter is being prepared and it is hoped that other areas will be made available for public use.

All those who work in the Civil Defense Organization volunteer their time and equipment. During 1966, 1,289 man-hours were contributed to the Town. Courses of training have included Radiological Monitoring, Shelter Management, Medical Self-Help, Personal and Family Survival and the Police Training School.

The Derry O.C.D. has a number of trained personnel, but many more people are needed to carry out this important task. More C.D. courses will be offered in the near future. All training is free and it is hoped that many others will avail themselves of this opportunity.

Further information may be obtained by contacting Civil Defense Director Robert A. Ross or any C. D. volunteer. Meetings are held every Tuesday evening at 7:00 p.m. at the Post Office.

AMENDMENTS TO THE ZONING ORDINANCE  
AS PROPOSED BY THE PLANNING BOARD  
TO BE VOTED ON BY BALLOT AT TOWN  
MEETING MARCH 14, 1967

Section will read: To promote the health, safety, convenience, and general welfare of the Town of Derry, to secure efficiency and economy in the process of developing the town and to keep it an attractive place in which to live and do business, the following ordinance is hereby enacted by the voters of said town in town meeting convened, in accordance with authority conferred by Chapter 51 Section 50 to 71 of the Revised Laws of New Hampshire 1942 and Chapter 31 NHRSA 1955.

Section I - Delete the following :

For the purpose of this ordinance the Town of Derry is divided into three zones, namely: Zone 1, to be known as a Retail Business Zone, shall include the following area, beginning at the intersection of East Broadway and Boyd Road and including all land along said East Broadway, for a distance of 125 feet on either side, measured from the centerline of the road, southwest to the intersection of Maple Street and West Broadway. Zone 2, to be known as the General Residence Zone, shall include all the land in the Derry Fire District, except that area designated as Zone 1, all the land in the Derry Village Fire District and all the land in the East Derry Fire District. Zone 3, to be known as the Unrestricted Zone, shall include all other land in the Town of Derry.

- And substitute therefor the following :

Article 1-000 - Definition of Zones. For the purpose of this ordinance, Derry is divided into four zones, namely: Retail Business Zone, Industrial Zone, Mobile Home Zone, and General Residence Zone.

Section 1.100 RETAIL BUSINESS ZONE

Section 1.110 - The area bounded by a line 200 feet south of South Avenue, a line of 200 feet west of Maple Street and Central Street a line along the center of Rollins Street and Lenox Road, a line 200 feet east of Birch Street and Crystal Avenue.

Section 1.120 - The area 200 feet either side of Birch Street and Crystal Avenue extending from Shutes Corner at the south end to Ross Corner on the north.

Section 1.130 - The area 600 feet either side of Rockingham Road from Lawrence Road to the Windham town line.

Section 1-140 - The area 600 feet either side of Londonderry Turnpike from West Running Brook on the North to a line 200 feet north-erly of Berry Road on the South. (This change in zone was protested as provided in the Zoning Laws.)

Section 1.150 - Add the following new section:

Section 1.150 - All distances in the above sections are measured from the center of the street or road. Where a boundary line of a zoning district divides a lot in single ownership upon the effective date of these amendments, or any amendment to the Zoning Map, either zoning district may be interpreted as extending no further than 25 feet into the adjacent district.

## Section 1.200 INDUSTRIAL ZONE

### Section 1.210 - John Shaw Machine Co. - Reo Homes, Inc.

About 8.3 acres of land shown on Plan of Land in Derry, N.H. (A portion being in Londonderry) as drawn for Reo Homes, Inc. June 1966 by Edward N. Herbert.

Starting at a stone wall on the southerly side of Manchester Road (Route 28) near the Londonderry town line; thence easterly by Manchester Road six hundred thirty-eight (638.0) feet to an iron pipe at land now or formerly of Elwin Pingree; thence South  $51^{\circ}$  West two hundred sixty-five ( $265^{\circ}$ ) feet by said Pingree to an iron pipe; thence South  $55^{\circ} 30'$  East one hundred sixty-five (165) feet by said Pingree to an iron pipe set in the wall at land of the Twenty Eight Realty Corp.; thence South  $55^{\circ}$  West by said Twenty Eight land and partly by a wall four hundred sixty-five (465) feet to a wire fence at land now or formerly of Adrien Cote and Fred Ball; thence westerly about three hundred thirty (330) feet to the Londonderry town line; thence northerly by the town line and other land of Reo Homes about seven hundred twenty (720) feet to a stone wall at land formerly of Michael Golden; thence by the stone wall and Golden land North  $30^{\circ} 30'$  East eighty (80) feet to the point of beginning.

Section 1.220 - Starting at the intersection of Tsienneto Road and Manchester Road; thence westerly by Manchester Road about 1040 feet to the boundary between the Giblin Farm and the Smith Farm; thence northeasterly by the westerly line of the Giblin Farm to By Pass 28; thence southerly by the By Pass about 500 feet to the line between the Ross Farm and the Giblin Farm; thence southwesterly about parallel to Tsienneto Road and about 500 feet westerly thereof along the line between the Giblin and Ross farms to the extension of the line of the Derry Shoe land; thence southeasterly following the line of the Derry Shoe land to Tsienneto Road; thence by Tsienneto Road about 1000 feet to Manchester Road. Also the part of the Giblin farm southerly of Manchester Road about 500 feet westerly of Ross Corner, 540 feet on Manchester Road and about 1400 feet deep.

Section 1.230 - The area bounded by the southerly line of the General Business Zone on South Avenue; easterly by the centerline of the Boston and Maine Railroad; southerly by Beaver Brook; westerly by a line 350 feet from the center of the railroad.

### Section 1.300 MOBILE HOME ZONE

Section 1.310 - The area bordered westerly by the Londonderry Town Line, northeasterly by Interstate Route 93, southeasterly by a line 1,000 feet westerly of and parallel with Fordway Extension.

Section 1.320 - Whispering Pines Mobile Home Village.

Section 1.321 - The area of land bordered on the east by the Londonderry Turnpike, By Pass 28; on the west by the Londonderry town line; on the south by a line parallel to the Londonderry-Auburn town line and about 1870 feet south thereof, intending to include the area now occupied by Whispering Pines Mobile Home Park.

- Section 1.322 - The area bordered on the north by the area in Section 1.321, on the east by the Londonderry Turnpike; on the west by the Londonderry town line; on the south by the MacGregor line which is about 975 feet southerly of the park line in Section 1.321. (This change in zone was protested as provided in Zoning Laws).
- Section 1.330 - Redstone Mobile Home Park - The area shown on the plan of land in Derry, N.H. as drawn for James Gallien by Edward N. Herbert dated January 1967 and described as follows: Starting at a point 200 feet northerly of Berry Road at the edge of the present Redstone Mobile Home Park thence north  $13\frac{3}{4}^{\circ}$  west by Rockingham Road 951 feet to the extension of a wall line; thence westerly by the extension of the wall line and the wall 671 feet to a wall at land of Durward; thence south  $6\frac{1}{2}^{\circ}$  west 417.5 feet by the wall to a stake; thence north  $87\frac{1}{2}^{\circ}$  east by Durward 534 feet to a wall; thence south  $5\frac{1}{4}^{\circ}$  west 630 feet to a stake; thence North  $76\frac{1}{4}^{\circ}$  east 471 feet to the point of beginning. (This change in zone was protested as provided in Zoning Laws.)
- Section 1.340 - The area shown on plan of lots in Derry, N.H. as drawn for Onil and Rita Raiche by Edward N. Herbert dated January 1967. Starting at a stone wall on Fordway Extension at land of Leon Whitney and 2000 feet southerly of the intersection of Fordway and Kendall Pond Road; bordered northerly by a line about 2000 feet south of Kendall Pond Road; easterly by Fordway Extension; southerly by a line 600 feet south of the beginning point or 2600 feet south of Kendall Pond Road; westerly by a line 500 feet west of Fordway Extension.
- Section 1.350 - The area shown on plan of MacMillan Mobile Home Park. MacMillan land starting at a stone wall at former Otis Clyde land on Windham Road 1120 feet westerly of the intersection with Route 28; thence westerly along Windham Road 998 feet to a wall at former Scott land; thence south  $10^{\circ}$  east 345 feet to a bend in the wall; thence further along the wall and Scott land 661 feet to the Windham town line; thence easterly by the Windham town line 412 feet to a stone wall at land formerly Brown estate; thence easterly along the wall and Brown land 162 feet to the bend in the wall; thence east 510 feet to a corner of the wall; thence north  $10^{\circ}$  west along Brown land 675 feet to Clyde land; thence westerly along Clyde land 375 feet; thence north  $10^{\circ}$  west by Clyde land 550 feet to the point of beginning. Also the parcel of land across the road from the above parcel starting at a point 1030 feet westerly of Route 28 bordering Windham Road 1228 feet and 725 feet deep. ....
- Section 1.360 - Bangs Mobile Home Park - Zone bounded on the east by the railroad track, on the north by Kendall Pond Road, on the west by Fordway Extension; on the south by a line running from a point on Fordway Extension 1000 feet south of Kendall Pond Road to a point on the railroad 1400 feet south of Kendall Pond Road.
- Section 1.370 - All Mobile Homes installed after the enactment date of

this amendment shall be located solely in the Mobile Home Zone, or in an existing legally operated Mobile Home Park, or a location presently occupied by a Mobile Home provided it meets with Article II Section 6, except that a landowner or lessee may accommodate the trailer or mobile home as a non-paying guest for a period or periods not to exceed 30 days in each calendar year.

**Section 1.371** - For the purpose of the Zoning Laws of the Town of Derby, a Mobile Home is defined as follows:

A single-family dwelling unit with all of the following characteristics:

a. designed for long-term occupancy containing a flush toilet, a tub or shower bath, and cooking and eating facilities, with plumbing and electrical connections provided for attachment to outside systems.

b. designed to be transported, after fabrication, on its own wheels, or on flatbed or other trailers or detachable wheels.

c. arrives at the site where it is to be occupied as a dwelling substantially complete, including major appliances and furniture and ready for occupancy except for minor unpacking and assembly operations, location on foundation supports, connection to utilities and the like.

d. is capable of being readily disconnected or disassembled and moved to another location.

In contrast to a Mobile Home, a prefabricated dwelling is one:

a. in which major structural or utility components are transported, after fabrication, by flatbed, trailer or other device, but not on its own wheels.

b. the components of which arrive at the site where it is to be occupied without major appliances and furniture, and is not ready for occupancy.

c. which is designed and intended for permanent installation on a lot, and cannot be readily moved to another location.

#### **Section 1.400 GENERAL RESIDENCE ZONE**

**Section 1.410** - All the rest of the town not included in the above three zones and, except as otherwise provided by this ordinance, shall be limited to residential type construction and uses. However, accessory uses, including business, may be permitted, by special exception of the Zoning Board of Adjustment provided such use is not objectionable by reason of noise, smoke or fumes and shall not occupy more than 25% of the gross floor area of the principal dwelling or 25% of the lot, if not within an existing building.

#### **Article II**

Delete Section 1 - "The provisions set forth in Article II shall apply to Zones 1 and 2 only."

**Section 2** - Add the following sentence, "No addition shall be built that brings any part of the addition closer to the lot line than requir-

ed for new construction.”

Section will read: Section 2 - Nothing in this ordinance shall be construed to prevent the continuance of any existing use of land or buildings, but when any non-conforming use is discontinued for at least one year or any building or structure is altered, or destroyed by fire, lightning or otherwise, or damaged to an extent affecting the valuation of said building shall be subject to the building provisions of this ordinance. No addition shall be built that brings any part of the addition closer to the lot line than required for new construction.

Section 3 - Add to end of this section, “except in the industrial area provided in Section 5.”

Section will read: Section 3 - No junk yard or place for the storage of discarded machinery, vehicles, or other materials shall be permitted except in the industrial area provided in Section 5. Delete Section 4 - “The provisions of this ordinance shall not apply to such farm structures as small dairy rooms, root cellars, poultry houses, farm storage sheds and other similar small structures necessary to farming.”

Section 5 - Delete first paragraph and reference to Type A and substitute the following:

Industrial uses may be permitted, by special exception of the Zoning Board of Adjustment, in any zone in the Town of Derry provided:

Type A 5 - 4th line delete, “Auto wrecking yard”

Delete last sentence in second paragraph and substitute the following:

In acting upon such special exceptions, the Board shall consider whether said use will adversely affect the neighborhood and may impose conditions and safeguards pertaining to off street parking, loading areas, access drives, signs, scenery from adjoining lots, and set backs greater than minimum requirements of this ordinance.

Section will read: Section 5 - Industrial uses may be permitted, by special exception of the Zoning Board of Adjustment, in any zone in the Town of Derry provided:

Industrial construction and use located upon lots of five acres or more with provision for parking vehicles of all the employees on the premises provided: (1) that the buildings located thereon are not nearer than forty feet to the boundaries of said lot and are not nearer than five hundred feet to a housing development, which development is restricted by deed and recorded plot plan for residential use only; (2) that no existing dwelling is located within one hundred fifty feet from any part of an industrial building on said lot unless written permission is obtained from the owner of such dwelling; (3) that said lot is not located within four hundred feet of Beaver Lake, Island Pond, or Rainbow Lake; (4) that said industry must be of a type that does not produce smoke other than from normal heating and power producing purposes and (5) that said industry is not one of the following: Acetylene Gas Manufacture,

Ammonia, Bleaching Powder, Chlorine Manufacture, Asphalt Manufacture or Refining, Blast Furnace, Boiler Making, Brick, Terra Cotta or Tile Manufacturing, Coke Manufacturing, Creosote Treatment or Manufacturing, Dye Stuff Manufacturing, Emery Cloth or Sandpaper Manufacturing, Foundries, Slaughtering of Animals or Fowls, Smelting or Ores, Stockyards, Tanning or Curing of Raw Hides or Skins or Japanning of Leather, Tardistillation or Manufacturing, Manufacturing of Tar Roofing or Tar Waterproofing, Manufacture of Gunpowder and other explosives.

In acting upon such special exceptions, the Board shall consider whether said use will adversely affect the neighborhood and may impose conditions and safeguards pertaining to off street parking, loading areas, access drives, signs, scenery from adjoining lots, and set backs greater than minimum requirements of this ordinance.

Delete Type B - New industrial construction and use on lots not meeting the requirements of paragraph A above, provided that the lot is not within four hundred feet of Beaver Lake, Island Pond or Rainbow Lake, and provided that in Zone 1 the provisions of Article IV are complied with and in Zone 2 the provisions of Article V are complied with.

Section 6 a. - Insert words "or mobile home" after word dwelling in line 3 of said subsection.

Section will read: Section 6 - No permit shall be granted for the construction of or placement of a building or dwelling on a lot in any zone, unless said lot shall comply with the following requirements:

a. As used in this section, a residential lot shall be defined as a lot or parcel of land on which a dwelling or mobile home is situated.

Section 6 b. - Line 5 change 30 to 35 in last line of said subsection.

Add to end of section the words "or on the road."

Section will read: Section 6 b. - Residential lots not supplied by a community or public water system or sewer system, shall contain a minimum of 25,000 square feet with a width of at least 125 feet at the 35 foot set-back line from the street or on the road.

Section 6 c. 1 - Change 30 to 35 in line 5 and add "or on the road" in last line of said subsection.

Section will read: Section 6 c. 1 - Residential lots where community and/or public water and/or sewer are available, shall contain a minimum of 15,000 square feet with a width of at least 100 feet at the 35 foot set-back line from the street or on the road.

Section 6 c. 2 line 2 - Delete "now" and in line 4, change 30 to 35 and add "or on the road" in last line of said subsection.

Section will read: Section 6 c. 2 - Residential lots where both public water and sewer are available shall contain a minimum of 10,000 square feet with a width of at least

100 feet at the 35 foot set-back line from the street or on the road.

Delete Section 6 g. - For the purpose of this section, a house trailer or mobile home, whether mounted on wheels or a permanent foundation, occupied as living quarters, shall be considered as a dwelling and governed by the provisions of this section, except that a landowner or lessee may accommodate the trailer or mobile home as a non-paying guest for a period or periods not to exceed 30 days in each calendar year.

New Section 6 g. - No commercial or industrial building shall be constructed or placed on a lot smaller than required for a dwelling.

Add the new Section 6 h. - Buildings or businesses not connected to public sewer, shall require 10,000 sq. ft. of lot size above the minimum for the zone for each 200 gallons per day of sewage effluent after the first 200 gallons per day unless the owner can show adequate plans for sewage disposal on a smaller lot.

Add the new Section 6 i. - Any business built or expanded after the date of this ordinance, shall have adequate off street parking for employees and customers on land in the same title as the business property.

Section 7 - Add the following new section:

#### Section 7 - Multiple Dwellings and Apartments

##### Definitions

**Multiple Dwelling.** A dwelling or building designed and used exclusively for residential purposes by more than two families, each suite having an independent entrance from the ground and halls but no connection with each other except in such portion as may be a two-family dwelling and divided from one another by party walls or floors or both.

**Apartment House.** Is a building arranged or intended or designed to be occupied by three or more families living independently of each other, and doing their cooking upon the premises, or by three or more individuals or groups of individuals living independently but having a common heating system and a general dining room.

**Garden Type Apartment Houses.** Are buildings conforming to multiple dwelling and/or apartment house specifications located on a single lot in clusters to provide light, air, and recreational area between them, and shall have a common owner.

##### Requirements

**Density:** A maximum density of forty (40) dwelling units per acre.

**Minimum lot frontage:** One hundred and fifty (150) feet.

**Maximum lot coverage:** Broadway - twenty-five (25) percent  
Other - twenty (20) percent

**Minimum yard requirements:**

(1) Front: thirty (30) feet

(2) Side Yard: thirty (30) feet

(3) Rear Yard: thirty (30) feet

Maximum height: forty-five (45) feet

Distance between buildings for Garden Type Apartments:  
Minimum thirty-five (35) feet

Off-street parking:

A parking space. An area of not less than 180 square feet net, exclusive of access or maneuvering area, or ramps or columns to be used exclusively as a temporary storage space for motor vehicles. One and one-half (1.5) parking spaces per dwelling unit shall be provided with at least 85% of the spaces located to the rear of the front of the building line.

Recreation space: 15% of gross area

Maximum length of structure: Two hundred (200) feet

Water and sewerage: All buildings shall be connected with suitable systems approved by the Planning Board and at least equal to the State code as published by the Division of Public Health and Welfare.

Construction Requirements:

Four Stories or More. Semi-Fireproof Construction:

Buildings shall be of incombustible materials in all structural parts; their exterior bearing walls shall be of four-hour fire-resistive construction, their columns and frames shall be of two-hour fire-resistive construction and their floors and roofs shall be of one-hour fire-resistive construction and shall furnish protection of one-hour fire-resistive rating against the spread of fire.

Three Stories. Light Wood and Masonry Construction:

Buildings shall have exterior bearing walls of masonry or other construction of incombustible materials of four-hour fire-resistive construction and their frames, floors and roofs may be of wood.

Two Stories or Less. Wooden Frame Construction:

Buildings may have walls, frames, floors and roofs of wood.

### Article III

Delete Section 1 - "The provisions set forth in Article III shall apply to Zones 1 and 2 only."

Section 3 d. - Add "or other suitable roofing materials"

New Section will read: Section 3 d. - Pitch roofs must be constructed according to good building practice and covered with wood, tile, asphalt, slate or cement asbestos shingles, or other suitable roofing material.

Section 3 e. - Delete "cesspool"

- Add, "If the sewer line comes within 100 feet of the property line or for special use of lagoons, refer to sewer ordinance and amendments thereto."

New Section will read: Section 3 e. - Sewage: All dwellings and buildings in public use, shall be equipped with septic tanks, or closed vault or connected to town sewage disposal system. If the sewer line comes within 100 feet of the property line or for special use of lagoons, refer to sewer ordinance and amendments thereto.

### Article IV

**Section 2 b. line 4 - Delete "excluding"**

New Section will read: Section 2 b. - All stores intended for the retail sale of such commodities as: antiques, art goods; automobiles, motorcycles and their accessories; the sale of gasoline, bicycles and their accessories; bakery products; pets such as dogs, cats and birds; books, stationery and greeting cards; boots and shoes; cameras and photographic supplies; candy and confections; chemical supplies; cigars, cigarettes, tobacco and smoking supplies; clothing and wearing apparel; flowers and plants; kitchenware; crockery; dairy products; miscellaneous food products; dry goods; drugs and medicines; novelties and variety goods; electrical equipment, appliances and supplies; feed, grain and seeds; meat and fish; fruit and vegetables; furniture and household furnishings; miscellaneous grocery items; hardware; heating supplies and appliances; ice cream and soft drinks; jewelry, watches and clocks; leather, leather goods and luggage; music and musical instruments; newspapers and magazines; office equipment and supplies; optical goods; paint, wallpaper, and painters and decorators supplies; pharmaceutical supplies including drugs and medicines; plumbing fixtures and supplies; radio and phonographs and their supplies; sporting goods.

**Article VI**

**Section 1 - Delete 2nd sentence, "An application fee of \$2.00 for new construction or \$1.00 for major alterations, to be retained by the Building Inspector as full compensation for his services, must be paid by the applicant at the time the application is made."**

New Section 1 will read: Section 1 - The Board of Selectmen shall appoint for a term of one year, a Building Inspector who, by his training and experience, is qualified to administer this ordinance. An application fee shall be charged for each permit, other than those for municipal structures, in accordance with the following schedule:

Dwelling Structure	Structure Other Than Dwelling	Fee
Living Area	Floor Area	
700 Sq. Ft. or Less	1,000 Sq. Ft. or Less	\$ 5.00
701 to 1,200	1,001 to 1,800	10.00
1,201 to 3,000	1,801 to 4,500	25.00
3,001 to 7,000	4,501 to 10,500	50.00
7,001 to 15,000	10,501 to 22,500	75.00
15,001 Sq. Ft. or More	22,501 Sq. Ft. or more	100.00

For each land use or business use other than building 5.00

All fees collected shall be added to the general fund of the Town of Derry. However, in the event the applied for permit is not issued, said fees shall be refunded.

**Article VI**

**Section 3, line 3 - Delete "in Zones 1 or 2"**

New Section 3 will read: Any person before commencing work on the erection or alteration of any building or structure if said alteration affects more than 30% of the existing floor area, must

first obtain a permit duly granted for such erection or alterations by the Building Inspector. Before a permit shall be issued by the Building Inspector, he shall determine whether the proposed construction or alteration conforms to all conditions of this ordinance and a specific blueprint or other record of the approved plan shall be filed before permit is granted. The Building Inspector shall make known his decision within ten days from the date he received application and he shall make inspection of all buildings in a process of construction and report any violation to the Board of Selectmen.

Section 4, line 2 - Delete "in Zones 1 or 2"

New Section 4 will read: No permit shall be issued for construction or alteration unless the proposed structure will present a reasonable appearance and will be in keeping with the neighborhood and unless the building is to be finished on the exterior in a permanent manner and is to be suitably painted on the outside whenever the same is of wood or a material customarily painted. This is intended to eliminate the erection of structures obviously out of place for the neighborhood where they are located, and which may have a detrimental effect on property values and neighborhood character. When an objection, on account of the appearance of a proposed structure as above indicated, is raised by a majority of the families residing or owning property within a radius of 500 feet of the property in question, the Board of Adjustment shall hold a public hearing to receive evidence on both sides and shall have the authority to decide whether the permit shall be issued or not.

Memorial Day	Thursday, May 30, 1968

# - SCHOOL WARRANT -

## THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Derry, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Grinnell School in said district on the 9th day of March 1967, at 8:00 o'clock in the afternoon, to act upon the following subjects:

1. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

2. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district.

3. To see if the district will vote to authorize the school board to accept, in the name of and in behalf of the school district, gifts for the use of the schools.

4. To see if the district will vote to authorize the school board to make application for and to accept and expend on behalf of the school district any or all grants or other funds for educational purposes which may now, or hereafter, be forthcoming from the United States Government or from the State of New Hampshire.

5. To see if the district will vote to accept the provisions of Public Law 89-10 designed to improve educational opportunities with particular reference to children of low-income families, and to appropriate such funds as may be made available to the district under said Federal Act for such particular projects as may be determined by the school board. Further, to see if the district will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.

6. To see if the school district will vote to raise and appropriate the sum of \$6,350. for the purpose of grading and finishing the land area in front of Grinnell School to properly slope it to the playground.

BY PETITION:

7. To see if the School District will vote to authorize a kindergarten educational program for pre-school children to be conducted to the extent possible with existing facilities and equipment, and to raise and appropriate therefor a sum not to exceed Forty-two Thousand (\$42,000) Dollars for such special equipment and instructional staff as the School Board may in its judgment deem necessary to implement said program.

8. To transact any other business that may legally come before said meeting, including the appointment of legal committees.

Given under our hands at said Derry this 7th day of February 1967  
Helen Bachelder, Chr.  
Robert Carbone  
Earl E. Burdick  
Barbara L. Gratton  
John P. Gleason  
School Board

## School Board Chairman's Report

Derry like so many other towns is experiencing pupil growth with unusual rapidity. Elementary enrollment in September was 1440 and as of December first had grown to 1479. Our estimated growth for this year was 1480 and we are certain to exceed it. According to our projections, next year's membership will approximate 1590. Derry's enrollment at Pinkerton Academy will exceed 600, so it is clear to see, we will be educating 2200 pupils. Nothing can prove more definitely why our budget demands are increasing constantly. This necessitates new buildings, equipment, supplies, maintenance, faculty and tuition. Another factor, that cannot be overlooked, is the lower purchasing power of the dollar.

South Range School with a capacity of 555 pupils was more than filled on opening day, which necessitated a transfer of one class to Grinnell School. This transfer meant occupying the room that had been set aside for the library.

Hood School membership has now exceeded its capacity. Thirty-eight and forty class enrollments are not providing for good education. Next year it will be necessary to remove some of the classes and house them in another building. Therefore, we are forced to think very seriously about an addition to Hood Junior High. After this addition is approved, a minimum of one and a half years passes before the building can be completed for use.

Pinkerton Academy has served this town as a High School since its founding. Not only does Pinkerton serve Derry, but also the surrounding towns. This next year is the last year that Pinkerton will have facilities to meet this increased pupil growth. This confronts the Pinkerton Trustees and School Board with a frustrating problem. The Derry board has created a Secondary Education Study Committee to work with us on this facet of education. I am very happy to report that each person asked, accepted most graciously and sincerely.

The members are:

Mr. George Grinnell

Mr. Nelson Tewksbury

Mr. A. C. Gorham

Mr. Donald Bentley

Mr. Wallace Kimball

Mrs. Harriett Morrison

Mr. Richard Beaulieu

Mr. Paul Gibbons

Father Giguere or Father Spillane

Mr. Earl Burdick will represent the School Board.

We have had several meetings with the Trustees and we are all striving to find the best possible solution.

The Board realizes that to keep good teachers and to attract qualified new ones, we must have a new salary program. Our new salary schedule will offer \$5000 to qualified beginners in the educational

field.

The previous part of this report sounds very pessimistic, but we certainly wish to present the optimistic side for which we are very thankful to all who shared in the efforts.

Hood School now participates in the curriculum approved for State Junior High Schools. This year, we were able to add Art, Physical Education, a librarian and guidance director. These services are also available in the other schools to a lesser degree.

The new South Range School, which was opened in September, is certainly a school of which, we may all be proud. It was carefully planned by the Building Committee and School Board for efficiency and having the qualifications for good education.

Now a duplicate building is being constructed in Derry Village, which will be ready for occupancy on September, 1967. This has placed a heavy burden on the taxpayers, but I am sure they realize that our needs were a necessity.

Libraries are curriculum resource centers, a vital part of any school program. Our two new schools give us a good start toward library centered schools in Derry. All schools have library facilities but in temporary quarters, until more room is available. The Grinnell P.T.A. should be congratulated upon the establishment of their library. Reading is the most important and essential subject in our curriculum and our library facilities will certainly enrich this area.

Last year, we provided for adult education classes in modern math. The popularity and success of this opportunity has prompted us to enlarge on the courses offered for 1967. The following courses have been offered - Typing, Slimnastics, French, Clothing, Woodworking and High School Equivalency. Through the cooperation of the Pinkerton Trustees, we have been able to offer the typing class. This is a self sustaining program, paid for by class members.

Curriculum building under the leadership of Mr. Bernard Ellis and the cooperation of the faculty is steadily progressing. I cannot mention this too lightly, because good curriculum planning is the core to good teaching.

Derry is most fortunate to have two such efficient, energetic and dedicated men at the head of our school system. It is both a pleasure and an inspiration to work with Mr. Robert Dolph and Mr. Bernard Ellis because their most important goal is to provide the best possible education for your boys and girls.

The children of today are the adults of tomorrow. The democratic principles, upon which our country was founded, can only be maintained by providing intellectual and moral standards necessary for progress in this ever changing world.

Respectfully submitted,

Helen L. Bachelder  
Chairman, Derry School Board

# Tax Comm. Budget Approval

## STATE TAX COMMISSION

To: Helen L. Bachelder, Chr., Derry Cooperative  
24 Lenox Rd., Derry, New Hampshire

Your report of appropriations voted and property taxes to be raised for the 1966-67 school year has been approved on the following basis:

TOTAL APPROPRIATIONS	1,840,072.72
REVENUES AND CREDITS

# Superintendent's Report

To the school board and citizens of Derry I hereby submit my 4th annual report as your Superintendent of Schools.

## New Assistant Superintendent of Schools

Mr. Bernard Ellis was elected to the position of Assistant Superintendent of Schools as of July 1, 1966 to fill the vacancy created when Mr. Ira Stickney resigned in February 1966 to assume the position of Consultant in the Division of Administration with the New Hampshire State Department of Education in Concord, N. H. Mr. Stickney will deal in problems of school construction, reorganization and school administration problems. His service to Supervisory Union #10 was much appreciated, and we wish him success in his new position.

Mr. Ellis originated from the Keene, N. H. area where he attended the local schools and graduated from Keene State College. He taught and held administrative and supervisory positions in Connecticut for more than ten years. Mr. Ellis holds advanced degrees from University of Connecticut and University of Hartford.

## Growth

The fact that we live in a growing community is now quite well established but the amount of the growth yet to come is still subject for speculation and will no doubt overshadow anything we can imagine at the moment.

Some factors that researchers have brought to light for our consideration are:

1. The population of the United States will more than double during the period 1960 to 2000.

2. The population of the world will more than double during the same period.

3. Medical Science will continue to increase life expectancy of a person living in the United States.

4. Technology will continue to affect the work week and job opportunities.

5. Mobility will continue to be a way of life.

6. Interdependence among various regions of the country and various parts of the world will continue to grow.

7. The population of New Hampshire is expected to nearly triple over the next 60 years. Reduction of the birth rate on a national scale has led to revision of the total population increase for New England. However, New Hampshire has witnessed a larger total population increase than predicted by the 1960 census. Immigration is expected to more than overcome the decline in natural increases and continue New

Hampshire's trend.

The problem of providing quality education will increase in difficulty as the population continues to grow.

The impact of expanding costs of education is keenly felt by the home owner. I feel strongly that other sources of taxes must be explored in order that the property owner will be able to share the heavy burden of education costs and also provide for the many other civic improvement demands that a growing town needs.

Derry has met the school population growth and has voted two new elementary schools into being. These two new elementary schools will house between 1,000 and 1,100 pupils and the combined total of classrooms should provide the needed extra classrooms until the early 1970's.

The two serious problems that are currently being worked on are:

- A. Needed expansion of the Gilbert Hood Memorial Junior High
- B. High School education — (Pinkerton Academy).

The Hood Junior High is over capacity at the present time and an addition must be accomplished soon. We will be in great difficulty if an addition is not voted in March of 1967.

Pinkerton Academy's enrollment is over 900 pupils and the projection made by The Planning Service Group of Cambridge, Mass. shows 912 pupils in the year 1974-75. Pinkerton Academy now houses pupils from Hampstead, Windham, Londonderry, Chester, Auburn as well as Derry. The projected high school enrollment for all towns excluding Derry and Hampstead for the year 1974-75 is 1026 pupils.

The conclusion is quite shocking — Pinkerton will double in enrollment in seven years time and the 15 year contracts will still be in effect until 1976.

New construction is certainly indicated and the problems of how much and where is most complex when one considers that one or more of the towns will soon be of the enrollment size to support its own high school.

Derry has also made a firm commitment to its school children by emphasizing the importance of the school library as the center of the curriculum and by introducing physical education and art education into the curriculum. One other important area has been the class size, with emphasis on holding grade one enrollment to 25 or under. We are trying hard to build some quality into a school system that is expanding at a terrific pace.

I wish to commend many people for all the things that are done for the children. The P.T.A. organizations at each school, Lions Club, Kiwanis Club, Mrs. Fannie Gleason for her great efforts in starting the Grinnell School Library, Gerry Cox for his efforts in using and preserving the school facilities, and all other individuals or organizations who have aided the children.

I also wish to extend grateful appreciation to the Derry School Board, Building Committee for their extra efforts to provide the necessities for all youth. Many thanks to the teachers, principals, assis-

tant principals, supervisors, school nurse - teachers, secretaries, custodians, bus drivers, traffic patrolmen, for their help in the education of 'Derry boys and girls'.

Respectfully submitted,  
Robert W. Dolph  
Superintendent of Schools

## Assistant Superintendent's Report

It is my pleasure to hereby submit my first Annual Report to the people of Derry.

Having assumed my duties as of July 1, 1966, it is only possible to make general comments concerning your school system.

Of particular interest to the town should be the broadening of the curriculum for the children in Derry. These changes include the following:

1. Expanded Physical Education program
2. Full time elementary guidance
3. Central school libraries
4. Expanded reading program.

The curriculum project committee has selected consultants who will work with each committee from time to time during the study. Mr. Howard Beatty from Newton, Mass., will work with the Social Studies group and Dr. Richard Chambers, from Boston University, will work with the Language Arts committee. It is the aim of these committees to develop a curriculum guide that is designed for the students and teachers of Derry.

A pilot-testing program from Science Research Associates was conducted at the seventh grade level this fall. The information derived from these tests proved to be most useful to the teachers and administrators. This testing program will be broadened to include a greater number of students starting in October 1967.

As a rapidly growing community, the schools of Derry have been confronted with the usual problems of additional space, and expanding educational program. However, with our interested townspeople and the dedicated School Board, progress is being made towards an excellent educational program for our students.

I would like to thank the citizens of Derry, the School Board, Mr. Dolph and the members of the staff for making the return to New Hampshire a pleasant experience for my family and myself.

Respectfully submitted,  
Bernard J. Ellis  
Assistant Superintendent of Schools

# Grinnell School

To the Derry School Board and The Superintendent of Schools:

The 1965-66 school year began with an enrollment of 525 pupils as compared to an enrollment of 461 at the same time last year. The present enrollment is now 562. In addition to the 14 classrooms in Grinnell School, we housed three fifth grades in the Auditorium, two fifth grades at the Baptist Church, one first grade at St. Thomas Aquinas School and the Special Class at the Episcopal Church. With the anticipated completion of the South Range School by September, this overcrowded condition will be somewhat resolved.

The major portion of the Redistricting Program has been completed and goes into effect this September. In addition to those children assigned from the Floyd and Grinnell Schools to the South Range School, it should also be noted that the Village School will return to two self-contained classrooms, Grades 1 and 2. Children in Grade 3 and above will be assigned to the Grinnell School and transportation will be provided where necessary. This Redistricting Program was organized and implemented to coincide with Pre-School Registration. Monthly registrations, properly publicized, will be held until September to assure us a most accurate count and proper placement of first - grade children. At this writing, it is clearly indicated that a fourth first grade at the South Range School will be necessary.

There are ten new teachers on the staff this year. This staff has been most cooperative and understanding and their assistance in making a crowded, difficult situation workable clearly indicates their ability as dedicated educators. Without going into detail, it should be noted that with the addition of a new school, the transfer of many personnel from one school to another to accommodate the needs must necessarily be accomplished.

The Grinnell P.T.A. has, as always, been most generous and considerate. Aside from their cooperation in the purchase of playground equipment and educational materials, and the presentation of some unusual and rewarding programs, their project — The School Library, has met with a resounding success! Under the direction of Mrs. Fannie Gleason and Mrs. Ann Therrien, a group of dedicated parents were selected to supervise the Library which is housed in the Girls' Locker Room. The children utilized the Library on a scheduled basis and were offered the opportunity to visit it at least once a week. This project is an excellent example of Parent-Teacher cooperation. Over 1,300 books were donated and proceeds from a Fashion Show were used to purchase additional books and materials. It is hoped that a classroom will be made available this fall to house the Library and the new shelving which has been ordered by the School Department. A sincere thanks to this energetic P.T.A. group.

Educational T.V. (Channel 11) continues to play a part in our Curriculum. Programs are viewed weekly and include:

- Grades I-II — Book Parade
  - All About You
  - Music Theater
  - Listen and Say
- Grade III — Songs and Sounds
  - Book Parade
  - Land and Sea
- Grade IV — Our New Hampshire
- Grade V — Exploring Nature
  - New England Field Trips

It would be impossible to express my appreciation for the untiring, competent, constant effort expended by my secretary, Mrs. Helen Ridervold, during this most busy and trying year.

I will take this opportunity to thank Mr. Henry "Kans" Barrieau for his aid in many facets of school transportation and his able drivers; Mr. Gerald Cox, Recreational Director, for his cooperation and assistance; and the Police and Highway Departments.

Finally, my sincere thanks to Mr. Robert Dolph, Superintendent; the Administration Staff; the Teaching Staff; Mrs. Claire Eddy, School Nurse; the School Custodians, and Cafeteria Staff for their most helpful cooperation.

Respectfully submitted,

Anastas S. Christo, Principal

## Floyd School

To the Derry School Board and the Superintendent of Schools:

The Floyd School opened on September 8, 1965 for its fifty-first year of service to the District with an enrollment of 230 pupils. Floyd School housed grades 1-4 with two classes of each grade.

Our faculty found new faces this year with Mrs. Miller replacing Mrs. Morin, Mrs. Wood replacing Miss Clancy, and Mrs. Craven replacing Mrs. Jones who became a music supervisor. Professional growth in continued education during the school year had Mrs. Miller, Mrs. Smith and Mrs. Craven attending extension courses sponsored by UNH; Miss Doughty attending Rivier College and Mr. Panteli attending courses at Boston University. The faculty also participated in curriculum study in the areas of social studies and language arts.

Through the consideration of the School Board and the Administration, a part-time secretary was added to the staff in the person of Mrs.

Betty Oleson who proved a great asset to the faculty, PTA, and the principal. Mrs. Oleson will be leaving us, as she was appointed secretary to the principal at the new South Range School.

In line with the long range plan of school repairs several classrooms and the lunch room were refurbished with new paint and the northwest corner classroom on the first floor was tiled.

Additional equipment in the form of a new television set was purchased through the cooperation of the PTA and the superintendent. Along with this piece of equipment was added two television stands and the wiring of 4 classrooms on the west side of the building to facilitate educational television viewing.

I wish to thank the Floyd School P.T.A., under the leadership of Mrs. Frederick Anderson, for their fine cooperation. The accomplishments of the P.T.A. were as follows:

- A. Purchase of supplementary reading books for Grades 1 - 3.
- B. Purchase of the following items for the principal's and teachers room: coffee urn, curtains, seat covers, rug.
- C. Raising funds through the calendar and May Fair projects.
- D. Sponsorship of Brownie Troop number 191 under the leadership of Mrs. Sharples which met in the Floyd School cafeteria.
- E. Purchase of a TV set for educational viewing to supplement the set on the first floor.

Educational programs were viewed on Educational Channel 11 as part of our curriculum. Those programs viewed were:

Grades 1 – Listen and Say

Science: All About Me

Grades 2 – Music Theatre

Listen and Say

Grades 3 – Music: Songs and Sounds

Science: Land and Sea

Literature: Book Parade

This year under Federal Funds Floyd School was serviced in the area of remedial reading under Mrs. French and speech therapy under Miss Wood of Boston University. The once used supply room was turned over to these specialists and the following equipment purchased with federal funds was placed in this room: two reading tables, 12 chairs, one portable chalkboard, one movie screen, one tape recorder and one flannel board. The number of children serviced in these areas were as follows: Remedial Reading: 26, Speech Therapy; 6. Also with federal funds, filmstrips, educational phonograph records, books, and other visual aids were added to the curriculum.

Of special note I would like to thank personally Mrs. Davis, who for fourteen years has been ably serving hot lunches to the children at Floyd School and Mr. Stark our custodian who maintained the physical plant. Both are a great asset to the Floyd Staff.

I wish to take this opportunity to thank my faculty; Mr. Robert Dolph, Superintendent of Schools; Mr. Ira Stickney, Assistant Superintendent; the Administrative Staff; Mrs. Betty Oleson, School Secretary; Mrs. Claire Eddy, School Nurse; Mrs. Helen Higgins, Reading Consultant; Mr. Henry Barrieau, owner of Kan's Bus Lines and his drivers; the Cafeteria Staff; Mr. Christo, Principal of Grinnell School; Mr. Donald Day, Principal of Hood Junior High School for their fine cooperation this past year.

Respectfully submitted,  
Angelo E. Panteli, Principal

## Hood Jr. High School

To the Derry School Board and the Superintendent of Schools:

In September 1965 Hood School opened with four divisions each in the sixth, seventh and eighth grades in addition to one fifth grade. By October the enrollment had increased so that it necessitated making one more division in each of the sixth, seventh and eighth grades. With space at a premium the following changes were made throughout the building:

1. The boys' locker room was converted to a classroom.
2. The cafeteria was converted to a classroom.
3. The fifth grade was moved to the floor of the gymnasium at Grinnell School and this space was used by our increased enrollment.

New members of the faculty at Hood School were Miss Irene Cronin and Miss Dawn Clancy in the English Department and Mr. Richard Deneault and Mr. J. Jackson George in the Mathematics Department. New in the sixth grades were Miss Rosemary Morin, Mrs. Frances Van Natter, Mr. Dennis Korumpas, Mr. William Nichols and Mr. Richard Shadlick.

Work on curriculum revision continued this year with the major emphasis being directed toward language arts and social studies. The curriculum study is a continuing type of study and will be carried on next year as well as the past two years.

French was offered to approximately sixty-five more students than before. The students had an opportunity to work with a new language laboratory which was installed during the summer months. Much more individual instruction was afforded the students with this new piece of equipment.

Once again this year Mr. Currier of the Pinkerton Guidance Department was here for the better part of two weeks. While here he talked with eighth grade students about future plans and, more specifically, course selections for their freshman year at Pinkerton.

Mr. Howard Kimball of the State Department of Education spent a

day at Hood School for the purpose of an informal evaluation. His recommendations covered several areas:

1. Room utilization.
2. Curriculum
3. Suggested changes.

This was asked to be done so that changes may be made to help make Hood School a better school to serve the needs of the students and the community.

June twentieth was the date of graduation and officially closed school for the year.

I would like to take this opportunity to express my gratitude to the superintendent's office, school board, faculty, my secretary, the school nurse, custodians, cafeteria workers, parents and other interested people of Hood Memorial School for making the administration of the school a much easier task.

Respectfully submitted,

Donald Day, Principal

## Derry Village School

To the Derry School Board and the Superintendent of Schools:

When school began on September 8, 1965 there were so many first graders that the second and third grades had to be put in one room.

The same teachers returned for another year, Mrs. Barbara Blunt had the first grade, Mrs. Follansbee had the second and third, Mr. Robert Brown had the fourth. Mrs. Follansbee had a student teacher, Miss La Pearl, for the first quarter.

There were no major changes in the curricula.

Mrs. Blunt and Mr. Brown both furthered their professional growth by taking a course each.

Mrs. Blunt and Mrs. Follansbee worked on the committee for building a new curriculum for the whole district.

As this is my last year to serve as a principal I would like to thank all who have been so helpful in making the task less of a burden. Thank you Mr. Robert Dolph, the Administration Staff, Mrs. Blunt, Mr. Brown, Mrs. Oleson and Mr. Ingalls.

I have had thirty-one wonderful years working at the Village School.

Respectfully submitted,  
Alice Follansbee, Principal

# Reading Program

To the Derry School Board and the Superintendent of Schools:

During the summer of 1965 a second Reading Clinic was held at Grinnell School. Sixty-five children were enrolled for this additional summer study. Three qualified teachers were employed in order that all boys and girls receive individual attention. Reading needs can be analyzed only through close observation of reading performance. In this way instruction is planned effectively on the basis of diagnostic study for girls and boys.

Through a federal grant, a Child Development Center was implemented for the disadvantaged child, specifically a readiness program for children who were to enter school in September. Forty-five pre-school children from Derry attended this program at the Grinnell School. This coordinated study, proposed by Mr. Robert Dolph, Superintendent of Schools, received a federal citation for outstanding achievement.

During a recent survey in the town of Derry, the effect on a variety of achievement areas was indicated by the presence of reading disabilities. It was decided by the administration that the remedial program would be extended with the aid and financial support of money derived through Title I.

Through the Title I Federal Grant equipment and materials were provided for all five buildings in Derry, one of which is St. Thomas School.

One fully qualified remedial reading teacher, Miss Linda Gradual, a part-time tutor, Mrs. Viola French and the Reading Consultant implemented this program to 138 children.

To pursue further this corrective reading plan, a summer school schedule of 5 weeks was designated for the students, who are in need of such remedial therapy. Equipment and materials purchased would then be used to maximum potential.

Since the success of a reading program depends upon the quality of instruction, periodic in-service conferences and meetings were held at each grade level with the reading consultant. Working with the classroom teacher, jointly, sharing and providing the best services for all children, superior readers, poor readers or inattentive pupils.

Reading consultants from the Scott Foresman Company and the American Book Company participated also in the in-service program by making periodic visits and giving demonstrations with classroom teachers.

Progress is being made for:

1. There are provisions for different levels of reading ability.
2. There are provisions for difference in the skill needs.
3. There is enrichment in the reading program.

Progress of such areas was submitted to the Board in June of 1965.

Completion and summarization of standard achievement tests were presented at this time. Recommendations were presented to the administration.

Again it is my pleasure to be associated with the administration, Mr. Robert Dolph, Superintendent of Schools and the principals, Mrs. Alice Follansbee, M.:. Anastas S. Christo, Mr. Donald Day, Mr. Angelo Panteli and the teaching staff.

Respectfully submitted,  
Helen T. Higgins, Reading Consultant

## **Speech Therapist**

To the Derry School Board and the Superintendent of Schools:

A speech Therapy Program has been organized and instituted with Title I Federal Government Funds provided for Supervisory Union #10 in elementary schools of Auburn, Derry, Londonderry, and Windham.

This program has been in existence since February, 1966 and until June of last year five graduate students of Speech Pathology were employed on a part-time basis for this School Union. During this time approximately 100 children were seen for one-half hour weekly in a small group or individual session.

A seven week summer program followed providing more extensive service for the children and allowing considerable parent participation. Approximately 40 children attended, usually twice to three times weekly.

The program has continued for the 1966-67 school year but because funds have not been available, a full day of this program has been eliminated. More extensive services are now needed in these areas as the population is so rapidly expanding.

Respectfully submitted,  
Diane Wood  
Speech Therapist

## **School Nurse-Teacher**

To the Derry School Board and the Superintendent of Schools:

This year, September 1965 to June 1966, the Nurse-Teacher serviced 1578 public and parochial pupils. This large enrollment made it most difficult for one person to carry on an effective Health Education Program. The maximum pupil load should not be more than 900 pupils. This coming year, 1966-67, two full time nurse-teachers will be ser-

ving the six schools. I realize that the general public has an image of the nurse-teacher as a nurse working in the hospital taking care of people. The care of the ill child accounts for less than 20% of her time.

The nurse-teacher works as a member of the school staff under the direction of the superintendent. Her permit for working within the schools comes from the State Department of Education after she has shown that she has received college credits in the field of education.

She is involved in many programs, working with school personnel, community agencies, students and parents. Some of her programs and responsibilities are:

1. Arranging and assisting medical and dental examinations.
2. Vision and hearing testing.
3. Emergency care of accidents and illness at school
4. Communicable disease control (excluding and readmitting students)
5. Growth, Development and Nutrition of the child.
6. Guidance and counseling.
7. Exceptional children (physical, emotionally and mentally handicapped).
8. Home visitations.
9. School safety.
10. Contacting local and state agencies.
11. Home instruction of the handicapped.
12. Classroom visitations, lecturer and resource person for teachers and students.
13. Initiating new health programs.
14. Enforcing health policies for students, teachers and school personnel.

These are only a few areas in which the nurse-teacher is involved. Many more duties, too numerous to mention, are carried on throughout the year.

Physical examinations for the first grade were done by Dr. William Wilder, M. D. 189 pupils examined, 19 referred.

Tuberculosis testing was done in grades 1-3-5-8, (715 children plus 60 adults were tested.) The Chest X-rays were taken in my office for two days in May. 170 people were x-rayed. Last year 111 were x-rayed.

Pre-school registration, May 1966 - 207. May 1965 - 163.

Vision testing all grades, 117 referred, 114 treated.

Hearing tested - Grades 1-3-5-8, 11 referred, 11 treated.

Dental Clinic (Floyd-Grinnell) - 54 referred, 111 fillings done.

The leader of communicable diseases this year was Scarlet Fever with 207 cases reported. Last year 4 cases were reported. Many strep throats were also reported. Absenteeism was very high during the month of February. Chicken Pox placed second this year with 65 cases reported. (1965 - 105 cases reported).

280 parent conferences were held during the year and 423 visits were made to the schools.

At this time I would like to express my sincere appreciation for the

full cooperation that I have received from school personnel, parents and local organizations. Without their support, some of our work would be meaningless.

Respectfully submitted,  
 Claire L. Eddy, School Nurse-Teacher

### ENROLLMENT IN SCHOOLS

The following tabulation shows the enrollment in the Derry Schools as of September 23, 1966.

Grades	1	2	3	4	5	6	7	8	Spec	Total
Floyd	56	46	38	25	-	-	-	-	-	165
Grinnell	71	53	65	59	76	60	-	-	-	384
Derry Village	22	19	-	-	-	-	-	-	-	41
So. Range	104	84	87	80	87	89	-	-	13	544
Hood	-	-	-	-	-	-	155	151	-	306
Total	253	202	190	164	163	149	155	151	13	1440

### ENROLLMENT IN HIGH SCHOOL

1966-67

The following tabulation shows the number of high school pupils by grade and the tuition rate:

	9th	10th	11th	12th	Total	Tuition Rate
Pinkerton Academy	173	136	125	113	547	\$490.00
Salem High	-	-	-	1	1	570.00
Haverhill Trade	1	-	-	2	3	550.00

# Hood Graduates

On Monday evening, June 20, 1966, Graduation exercises were held for the 8th grade at Hood Mmemorial School. The following is a list of those who received diplomas:

Alexander, Brian Emery	Geisler, Richard James
Anctil, Michel	Gibbs, Margaret Irene
Bailey, Bryan Lloyd	Gillespie, Kathleen A.
Banister, Carolyn R.	Green, Deborah Ann
Barka, David C.	Guilbault, Patricia Ann
Barry, Norman	Gurall, Sharon
Bartlett, Nancy Louise	Hamblett, Paul Arthur
Beland, Donald A.	Hamilton, Steven Charles
Benoit, Bruce Edward	Hartman, Gregg Alan
Bonnar, Richard Collins	Hartwell, Weston Scott
Booker, Deborah Joy	Gayes, Gregory A.
Booth, Donna Lea	Horton, Mary Ellen
Booth, Jo-Ann	Hutchins, Sharon Ann
Bouchard, Marlene Diane	Hutton, Patrice Elizabeth
Boucher, Bruce Marc	Ivas, Corinne Ann
Breton, Lorraine Alice	Jesson, Michael Charles
Brooks, Charles Hugh	Johnson, Karyn L.
Brooks, John Alan	Joyce, David B.
Brown, Clyde T.	Julian, Dianna

## Cert. of Audit

DIVISION OF MUNICIPAL ACCOUNTING

STATE TAX COMMISSION  
Concord, New Hampshire

September 22, 1966

### Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Derry Cooperative School District for the fiscal year ended June 30, 1966. In our opinion, the Exhibits included herewith reflect the true financial condition of the School District on June 30, 1966, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Harold G. Fowler, Director  
DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION

Frederick E. Laplante  
Hugh J. Cassidy  
Auditors

# State Tax Comm. Findings

DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION  
Concord , New Hampshire

## SUMMARY OF FINDINGS AND RECOMMENDATIONS

September 22, 1966

The School Board  
Derry Cooperative School District  
Derry, New Hampshire

Submitted herewith is the report of an examination and audit of the accounts of the Derry Cooperative School District for the fiscal year ended June 30, 1966, which was made by this Division in accordance with your request. Exhibits as hereafter listed are included as part of the report.

### SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board and the School District Treasurer.

### FINANCIAL STATEMENTS

Comparative Balance Sheets: June 30, 1965—June 30, 1966: (Exhibit A-1)

Comparative Balance Sheets as of June 30, 1965 and June 30, 1966, are presented in Exhibit A-1. As indicated therein, the Net Debt increased by \$696,907.59 during the fiscal year ended June 30, 1966.

Analysis of Change in Financial Condition: (Exhibit B)

An analysis of the change in financial conditions of the School District during the fiscal year is made in Exhibit B, with the factors which caused the change indicated therein. These were as follows:

#### Increase in Net Debt

Bonds Issued During Year	\$695,000.00	
Surplus Used to Reduce School Tax	11,710.34	
Net Budget Deficit	28,254.45	
Advance a/c 1966-67 School Tax	15,000.00	
		\$749,964.79

#### Decrease in Net Debt

Bonds Paid	15,000.00	
Notes Paid	2,500.00	
Deficiency Appropriation for 1965-66	35,557.20	
		53,057.20
Net Increase		696,907.59

## Balance Sheet — Building Fund Account: (Exhibit A-2)

The balance sheet of the Building Fund Account, as of June 30, 1966, is included in Exhibit A-2.

## Comparative Statements of Appropriations and Expenditures — Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended June 30, 1966, are presented in Exhibits C and D. As indicated by the Budget Summary (Exhibit D), a net overdraft of appropriations of \$34,397.03, less a revenue surplus of \$6,142.58, resulted in a net budget deficit of \$28,254.45.

## Summary Statement of Receipts and Expenditures: (Exhibit E)

A summary statement of receipts and expenditures for the fiscal year ended June 30, 1966, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of June 30, 1966, is indicated in Exhibit F.

## Statement of Building Fund Account: (Exhibit G)

A statement showing the activity in the Building Fund account during the fiscal year is presented in Exhibit G.

## Statement of School Lunch Program Account: (Exhibit H)

A statement of the School Lunch Program account for the fiscal year is included in Exhibit H.

## Statement of School Tax Account: (Exhibit I)

A statement of the School Tax account with the Town of Derry is presented in Exhibit I. As indicated therein, as of June 30, 1966, the School District had received from the Town the total amount of the 1965-66 School Tax, plus a prepayment on account of the 1966-67 Tax of \$35,557.20. This prepayment represented a deficiency appropriation for 1965-66 of like amount which was made at the annual meeting of the District in March 1966.

## Statement of Long Term Debt: (Exhibit J)

A statement of the outstanding long term indebtedness of the School District as of June 30, 1966, showing annual debt service requirements, is contained in Exhibit J.

## GENERAL COMMENTS

### Current Surplus or (Deficit):

The current financial condition of the School District changed from a current surplus (excess of total assets over current liabilities) of \$11,710.34, to a current deficit (excess of current liabilities over total assets) of \$7,697.25, during the fiscal year ended June 30, 1966, as shown herewith:

	June 30, 1965	June 30, 1966
Total Assets	\$ 12,826.84	\$ 12,802.78
Current Liabilities	1,116.50	20,500.03
Current Surplus or (Deficit)	\$ 11,710.34	(\$ 7,697.25)

### Recommendations:

It is recommended that each individual School District check, including payroll checks, be entered in the Treasurer's Cash Book.

The Treasurer should also maintain a separate Cash Book for the Building Fund account.

### Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that the summary of findings and recommendations (letter of transmittal) of this report shall be published in the next annual report of the School District.

Yours very truly,

Harold G. Fowler, Director  
DIVISION OF MUNICIPAL ACCOUNTING  
STATE TAX COMMISSION
