Organization

of the

City Government for the Year 1948

INAUGURAL SPEECH

Dr. Leining, Members of the City Council, Citizens of Franklin:

Democracy is Government by the people. It is an extremely healthy sign that tonight we, the people, are here in greater numbers than ever before in the history of this community. Many of us are recently home from the battle fields of Europe and Asia. None will forget the comrades who can never return. There is only one memorial which we who are here can erect and maintain worthy of the sacrifice of they who fought and died for Democracy. Our solemn obligation is to see that such a form of Government flourishes healthy and strong, a triumphant proof to all the world that they have not died in vain. The common people alone have the power to maintain a true Democracy, for unless they, you and I, participate there is no government by the people. When we lose interest the door is left open for special interests and the grafter, and when these vultures have picked the carcass clean, the Communist and Fascists remain to squabble over the bleaching bones.

So during the coming year, I hope that you will join with us, your Mayor and Council in making this city one of the best governed and most democratic in the State. Your presence is invited at any meeting over which I may preside. Feel free to express your approval or your disapproval and should you wish to address us, I promise you the opportunity to be heard. Of course, it may be necessary on some occasions to limit a speaker as to time. My only reservation is that I shall insist on an orderly meeting and, if it becomes otherwise, the Council will adjourn until order can be maintained.

As a city, we face many serious problems, the first of which is the establishment of a City Manager form of Government. Councilman Atwood deserves great commendation for his fine work in contacting candidates, while the Manchester Union recently reported that Keene had only three applicants for the position of City Manager, Mr. Atwood has already secured over twenty-five for our position. When the Council has made its choice, and we intend to go slowly on so important a matter, I shall make it my personal duty to see that every member of the Council and myself lives up to the pledge we gave before election to see that the manager receives our 100% cooperation in giving this form of government a fair trial.

I want to say a word on finances and to remind you that I did not promise a lower tax rate for the coming year, but rather I stated that a higher rate was inevitable. If there was any doubt of this in November, the two December Council meetings put an end to it. Deficiency payments, for the schools, for the tax survey of the Winnepesaukee River, \$6,300.00 additional pay for the Firemen, and \$8,300 for a truck, mean a three dollar increase in the tax rate from what it might otherwise have been. I have every reason to believe that total deficiency payments falling on us may be well over \$30,000. My absolute pledge to you is the lowest possible tax rate in view of this inherited situation. During the year, I shall enforce the strictest economy possible and before it is done I believe that you and the Council will agree that I mean what I now say.

It is not economy to fail to give a just wage to our city employees. We should pay as much and possibly a little more than other communities of our size, such as Lebanon, Newport or Somersworth; but we should remember that Laconia and Claremont are twice our size. The petitions for raises filed by the Police and Highway Departments on December 15th were referred by the Council to a committee to be appointed by the Mayor. I understand that through oversight this committee has never functioned or even been appointed. With the approval of the Council, I shall ask the Highway and Police Committees, respectively, to prepare and present to the Council at the February meeting, for the employees under them a detailed study of comparative wages in other communities. At the same time I should like the Highway Committee to investigate the possibility of putting their employees under the State pension system which is available to us. While discussing wages I would like to point out that the regular drivers of the Fire Department by having their

hours cut in half have received a 100% hourly raise in their wages. It seems fair to me that the city should expect to make use of them in other departments at such time as there is no work for them to do on their own buildings or equipment. In the past I understand that even with the one platoon system they were able to do considerable work for the highway department for which they charged the Department. In view of the new system, we should fairly expect much more of this work to be done at no charge to either the Highway Department or the City.

I believe that the Council should immediately investigate the possibility of a low rent housing project for the City. Councilmen Gilman and Gauthier have already shown a commendable interest in getting one started. The first step would be an invitation to the New Hampshire State Housing Board to send a representative to us to give a full explanation of the ways, means and expense of starting such a project. I hope this step will be taken tonight. It might well be that a portion of the Daniell Park Development could be used as a sight for the project.

In line with expansion of our housing facilities, it is my hope that this city will expand industrially. No community in New Hampshire has greater potential resources. We are centrally located in the state, as well as being in an ideal strategic position for commerce with Maine, Vermont, Massachusetts or Canada. There are many available factory sites and most important of all, one-half to three-quarters of our water power is undeveloped. When, as happens today, mills and cities of Vermont are in darkness for lack of power, when the countryside is aroused over the attempt to construct Wilder Dam to its full height, when we, ourselves, face a major fuel oil shortage, it seems a tragedy to our community, to the state and the nation that our water resources should be wasted. We still poke fun at the bureaucrats who destroyed the little pigs and plowed under growing crops while many of our citizens were in want. Are we, ourselves, any better if we sit idly by while our greatest natural resource is wasted.

I want it distinctly understood that I am not advocating any form of Municipal or Government power project. It does not matter too much to me who develops these resources so long as they are made use of. In many ways it would seem that the logical party to do it is the Public Service Company. However, if they

are either unable or unwilling, and if no other privately owned concern can be induced to do it, then most assuredly I hope that either the State or the Federal Government will step in and come to our rescue.

There are many other problems that I should like to discuss this evening. Most of them are matters on which I have already made my attitude clear, so I shall skip them and discuss matters immediately before us.

First, a few words on the case of Mildred Gilman. Originally this was purely a local matter, but now it is to New Hampshire what the Dreyfus case was to France. It is no longer an issue of Democrat vs Republican, but one of satisfying the demand of all Americans that justice be done to all, particularly women and trusted municipal employees who have served the city without whisper of complaint until a situation developed such that her position was desired for another. The accusations might seriously be considered if we could not remember the same pattern of false and groundless charges as a means of discouraging valuable city employees from continuing in office. Perhaps you have forgotten the procedures used on the finest fire chief in the state of New Hampshire, the street corner slanders directed at Harry Davis or Peter Charland. The strategy on these and many other cases, with which you are more familiar than I, is the same only in this case **Thank God, we have a woman who has had the courage to refuse to strike her colors. I am proud to say that I am with her in her fight for justice and a fair trial.**

A word on the evidence or charges against her. They came from two sources—the city machine and Peisch, Angell & Company. I think little need be said of the man who controls the machine. He has never denied any of the many serious charges made against him in the campaign. It is difficult to see how a man, who once rightly deserved considerable commendation, could have been reduced to his present position. I will only say that in my opinion he has been victimized from two sources. The first is false advisors who, for personal reasons, have sought to destroy him while posing as his friends that they might take his place in Party Politics. The second is his own pronounced tendency to delusions of grandeur. These have reached such a point as to blind him from the logical consequences of his acts. Whatever the reasons, his present position is such that no jury in New Hampshire would place any faith in what he might say.

Now for Peisch, Angell & Company. In considering them remember that this year they have charged the city better than \$4,500 for services rendered—about \$3,600 more than the city ever paid any other accountant in a year. They have installed a new accounting system which, from my observation, is so complicated that if we want to get any data from it we will have to pay one or two hundred dollars for them to dig it out. Already they themselves have changed the system because as originally installed it was unsatisfactory. They have used our books as a field of experimentation and charged us \$2,500 for the privilege.

It might also interest you to know that the replaced bookkeeping system which has been criticized so severely as inadequate and outmoded was installed for the city in 1939 by Peisch, Angell & Company.

This firm has made a report on the cost of the Daniell Park Project. I have gone over this in considerable detail and without the slightest hesitation I say that, in my opinion, it is both fraudulent and dishonest. This is the result either of the gross incompetence of the firm or their willing cooperation with others to misinform the public.

This firm, through its agent and partner, Mr. Hartford, is the principal source of all the so-called evidence against Mrs. Gilman. I would like to go into it in detail but time does not permit. I do say in passing that I have evidence and witnesses to show that this company has been guilty of prejudice toward Mrs. Gilman, has lied in order to make its charges appear more plausible and its members have conducted themselves in a manner grossly unbecoming to any public official. What I have to say of Peisch, Angell & Company is even more true of those with whom they worked in this city.

Against these two sources we have the word of Mrs. Gilman who has had an unblemished record for 22 years, whose reasonable story is supported by many disinterested witnesses. As the sole apparent means of getting a fair and impartial trial, Mrs. Gilman has sued Peisch, Angell & Company for slander, for \$10,000. When that case comes before a jury I know that the honesty and integrity of Mrs. Gilman will come out both untarnished and unsoiled.

Mrs. Gilman it is a great honor and a deep satisfaction to be numbered among the many who have come to your defense. My public career will indeed be gratifying if among the duties of my office falls the task of defending those in whose honor and faithfulness I believe as completely as I do in yours.

It was my hope that after the election we could forget our political differences and unite in a common desire to work for the city we all love. Within the last two weeks I have called at the homes of every Democratic Councilman and had extended talks with them. In the case of Councilman Gilman and Perreault I have had several long talks and on all I have urged cooperation and compromise. As individuals, I found all these men courteous and gentlemanly. But the answer to my efforts has been their joint statement that they will not compromise. They have stated that loyalty to their appointees makes such a step an impossibility. To them I say, it is truly unfortunate when the Democratic Party, the Republican Party or any other individual or group of individuals comes before the welfare of the community. In this country we have but one organization worthy of a name that subscribes to such a doctrine, and that is the Communist Party. Our nation has been made possible from the time thirteen states were banded together to the present, by a willingness on the part of our leaders to compromise in order that we can go on. I feel of the Democratic Councilmen that they, too, have been victimized by unfortunate leadership. If they would think and act as individuals and not as a group, our problems would be solved.

Certainly we can never survive if the spirit which motivated the submission of the recent petition for a raise in pay in the Highway Department continues. In this case the employees submitted to the Chairman of the Highway Committee an entirely reasonable request for a ten cent an hour raise in pay. However, the petition was returned to the Department with the statement that they should ask for twenty-five cents an hour. This, the Highway Department refused to do, but they did compromise on twenty cents. The request is obviously unreasonable. Action of this type by a Councilman can only be interpreted as a deliberate attempt to sabotage our government. The tragedy is that the man responsible has considerable ability and has done much for the city in the past. This is a single instance of a spirit which must go if we are to survive. No person who is unable to free himself of such a spirit should continue in the City Government. The city needs the service of this man. It is my hope that he will never again put vindictiveness above community welfare.

We are faced with major disagreements as to appointments. Here again, I have decided to leave the issue to you. I will veto all appointments I feel detrimental to the city. When I am sure that no agreement can be reached, I shall adjourn the Council for 48 hours. During that time I expect you, the people, to make your desires known to your servants, myself and the City Council. If no agreement is reached at the second Council meeting, I expect to continue the procedure until by fair and peaceable means you have indicated the course you desire us to take.

There were 19 of our fellow citizens who lost their lives in our last war. As a community we have failed in the past two years to erect any form of Memorial to them or those who served with them. Now I see them challenging us to show to the World they died for a worthy cause. There are many interested in restoring Democracy in foreign lands, but there are all together too few who are actively interested in defending and improving it in our own nation. I served in the Phillipines as a Battery Commander. As such it was my duty to notify the parents of those who served under me that their loved one was gone. I shall always feel an obligation to those families, Mothers, Fathers, wives and sweet-hearts. We cannot lessen the terrible cost of the sacrifice they have laid on the altar of Democracy, but by our labors and our devotions we may in a small way convince them of the worthiness of the Cause.

Let us all as citizens, Councilmen, Democrats, Republicans and Independents accept, together the challenge. For this year of 1948 let us dedicate ourselves to the Battle Cry of Freedom. For us it carries but one message—we must “**make Democracy work.**”

EUGENE S. DANIELL, JR.

City Manager's Report

To the Mayor, Councilmen and Citizens of Franklin:

This is the first report submitted since the adoption of the Mayor-Council-Manager form of Government.

It has been a privilege and an honor to have the pleasure of serving you as your first manager. This type of Government has not been accepted by all the citizens of Franklin but at the last election a majority of you expressed enough confidence in it to allow us to continue under the same set-up for another year.

This is the first opportunity that I have had to express my appreciation and to offer my sincere thanks for your vote of confidence. I have done my best and everything within my limited power to make this a better community to live in. Rest assured that I will do my utmost in the future as in the past to serve you.

The people of Franklin should be proud of their city for it is outstanding in many ways. It has a lot to offer and a stranger does and should appreciate the privilege of living here. I personally feel that we have made satisfactory progress and credit is due the Mayor, Councilmen and all city employees for their untiring efforts and cooperation, without which no one could hope to attain success.

ROBERT C. VIOLETTE,

City Manager.

City Government

CITY COUNCIL

Mayor

Elected annually on the fourth Tuesday of November. Salary \$200.00 a year.

Eugene S. Daniell, Jr.

Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term expires
Ward 1—H. Asa Bennett	January 7, 1949
Allen Atwood	January 6, 1950
Charles H. Slack	January 5, 1951
Ward 2—Wiggin S. Gilman	January 7, 1949
Ernest Lemire*	January 6, 1950
Lawrence Gauthier	January 5, 1951
Ward 3—Albert Perreault	January 7, 1949
Scott Coen	January 6, 1950
Frank Gerry	January 5, 1951

*Resigned. Theodore Gosselin elected to fill unexpired term.

Standing Committees of the Council, 1948

Highways—Atwood, Perreault, Gerry

Sewers—Gilman, Slack, Coen

Police—Perreault, Atwood, Slack

Ordinance—Gerry, Gauthier, Gilman

Claims—Coen, Gosselin, Bennett

Health and Welfare—Gauthier, Slack, Gosselin

Street Lighting—Gosselin, Bennett, Coen

Lands and Buildings—Slack, Gosselin, Gauthier

Daniell Park Dev.—Gilman, Gerry, Perreault, Burke, Lacroix

Finance—Daniell, Atwood, Perreault

**City Clerk, Tax Collector, Purchasing Agent, Clerk of Board of
Assessors and Custodian of Memorial Hall**

Elected annually by the City Council. Salary \$3,191.76 a year.

Mildred S. Gilman

Deputy City Clerk

Elected annually by the City Council. Salary \$38.50 a week.

Olive C. Sawyer

Overseer of the Poor

Elected annually by the City Council. Salary \$47.30 a week.

Gertrude Brodeur

City Treasurer

Elected annually by the City Council. Salary \$242.00 per year.

Hazle K. Michaud

City Solicitor*

Elected annually by the City Council. Salary \$770.00 per year.

George T. Ordway

*Office abolished as of Aug. 1st, 1948.

Assessors

Elected annually by City Council. Salary, Chairman, \$605.00 a year,
\$577.50 per year, other two.

Ward One	Ward Two	Ward Three
Albert B. Guay	Albert J. Garneau, chr.	Howard Bilodeau

Highway Commissioner and Tree Warden

Elected annually by City Council. Salary \$60.50 a week.

Earl Nowell

Welfare Commissioners

One member from each ward elected annually for a term of three years.
No salary.

	Term expires
J. P. Blais	February 4, 1949
Albert B. Guay	February 7, 1950
Louis H. Douphinett	February 5, 1951

LEONARD D. RICCIO

Certified Public Accountant

Manchester, New Hampshire

January 15, 1949

To the Honorable Mayor and City Council
City of Franklin
Franklin, New Hampshire

Gentlemen:

Complying with your instructions and in accordance with the City Ordinances. I have made an examination of the books of accounts and underlying records of the City of Franklin for the fiscal year ended in 1948, and submit herewith my report comprising exhibits, supporting schedules and comments.

Scope of Audit

The examination for the year under review was conducted by means of analyses, verification and independent corroboration, followed through by an examination of the Financial Resolutions. I have examined or tested such records and other supporting evidence by the methods and to the extent I deemed appropriate. Amplification of the scope of audit appears in the comments under each subject.

The books are kept on a cash basis except for the Taxes and Accounts Receivable and the amount due from the State of New Hampshire on interest, railroad and savings bank tax which was accrued as at December 15, 1948.

Balance Sheet—General Fund

Exhibit A

The Balance Sheet—General Fund sets forth the financial condition of the City of Franklin as at the close of business on December 15, 1948, except for unpaid liabilities outstanding as at that date.

Cash on Hand and in Banks—\$38,859.81

The cash on hand was verified by count as at the close of business December 15, 1948 and cash in the bank was reconciled to the bank statement and the independent verification received directly from the depository. All checks cancelled during the year were examined and all receipts traced to the bank deposits.

Accounts Receivable—\$3,083.34

A detail listing comprising the outstanding accounts receivable was in agreement with the above. Most of the accounts are the result of charges by the Highway Department and were checked from the original charge slips. Outstanding balances as at December 15, 1948 were confirmed by independent letters of verification. The accounts are aged as follows.

Current	\$171.38
0 to 30 days	1,664.55
30 to 60 days	35.00
60 to 90 days	82.79
90 to 120 days	327.62
Over 120 days	802.00

\$3,083.34

Taxes Receivable—\$33,474.26

The outstanding taxes receivable as at December 15, 1948 was \$33,474.26 against which there is a reserve for uncollected taxes in the amount of \$1,460.24. Exhibit A—Schedule 1 details the activity of the levies of the various years and discloses the differences between the control and the detail accounts as at December 15, 1948. The variances shown on this statement were the same as those determined the first part of the audit which indicates that the activity in the controlling accounts in the current year was correctly reflected in the detail accounts.

Requests for confirmation were sent to several hundred of the outstanding accounts as at December 1, 1948 to which a substantial number replied in concurrence. Any differences reported to me were traced and satisfactorily explained. It is to be noted that 92.6% of the 1948 tax levy was collected.

In addition to proving the valuation footings and proving the ward books to the Assessors' Tax Warrant, the 1948 tax warrant was completely footed for accuracy. The daily receipt stubs on taxes collected were completely checked to the cash books, and the cash receipts books for the various years were footed and checked to the tax ledgers.

The 1948 tax rate of \$4.30 as approved by the State of New Hampshire Tax Commission was confirmed by direct correspondence.

Unredeemed Tax Sales—\$520.42

Property Acquired by Tax Titles—\$699.00

The above reflect property acquired as a result of non-payment of taxes. These items were accepted as shown on the books, although a listing of the accounts was in agreement with the controlling account.

Due from the State of New Hampshire—\$13,398.40

This caption embodies collections on interest, railroad and savings bank tax due the City of Franklin from the State of New Hampshire.

Appropriation Charges to 1949—\$3,446.21

This title embodies the balance due from the State of New Hampshire on Town Road Aid in the amount of \$886.21 and the school department deficiency appropriation in the amount of \$2,580.00. By action of the Council, the School Department overdraft is to be carried to the 1949 budget as a deficiency appropriation. This method of charging a current year overdraft to the succeeding budget is not good municipal accounting practice. The overdraft could be the result of either insufficient thought given the budget requirements of the department or the lack of proper control over its expenditure. In either case it should be corrected, as no department should be allowed to overexpend its appropriation.

Temporary Loans in Anticipation of Taxes—\$75,000.00

The above amount represents the balance due the First National Bank of Boston on a loan of \$260,000.00 borrowed in anticipation of taxes and was independently confirmed by correspondence. All notes paid during the period under review were produced for my inspection.

Withholding Taxes and Blue Cross Deductions—\$879.94

This caption represents the amounts withheld on payrolls and due the various agencies.

Reserve for Soldiers' Bonus Taxes—\$756.04

This item represents the amount due the State of New Hampshire on the special Soldier's bonus Tax and is due when collected.

Parking Meters Unexpended Balance—\$1,190.23

The unexpended amount derived from the parking meters is reflected by the above caption. Cash for this item is necessarily included in the Cash in Bank account. This fund is to be used for the regulation and control of traffic. I witnessed the procedure in meter collections and took readings on the meters at time of collection.

Surplus December 15, 1948—\$14,841.01

This item is shown in detail on Exhibit A—Schedule 2, and compares favorably with the Deficit in the amount of \$8,790.25 as at December 15, 1947.

Balance Sheet—General Indebtedness

Exhibit B

Balance Sheet—General Indebtedness discloses the City liability with respect to borrowings on both serial bonds and long-term notes as at December 15, 1948. The indebtedness is detailed in Exhibit B—Schedule 1. I examined proper authorizations for all loans made during the year under review and further examined all cancelled bonds and interest coupons paid during the year.

Balance Sheet—Trust Funds

Exhibit C

The Balance Sheet—Trust Funds records the assets and sources of such assets in the custody of the Trustees of the Trust Funds.

Cash in Bank—\$52,832.93

Cash in the Commercial and Savings Banks was reconciled to the bank statement and the savings bank books as well as the independent confirmation received from the depositories.

Investments—\$52,662.93

All of the securities were inspected in the presence of two trustees of the Trust Funds as at December 15, 1948. Exhibit C—Schedule 1 details the various trust funds and shows the activity for the year. It also discloses the breakdown between the cash and investments in each of the funds.

Balance Sheet—Water Works

Exhibit D

The Balance Sheet—Water Works sets forth the financial condition of the Water Works of the City of Franklin as at December 31, 1948.

Cash on Hand and in Banks—\$59,483.19

The cash on hand was verified by count and cash in the banks was reconciled to the bank statement. These amounts were independently verified with the depositories.

Accounts Receivable—\$5,667.72

A listing of the detail accounts coincided with the controlling account. Outstanding balances as at December 1, 1948 were verified by circularization.

Inventory—\$5,694.42

The inventory was accepted as submitted by the Superintendent and no attempt was made to examine either the physical items or prices used.

Investment—U. S. Treasury Bonds \$14,009.50

Exhibit D—Schedule 1 details the above account. The bonds were examined in the presence of two Trustees of the Trust Funds in whose custody the bonds are kept. The investment is in accordance with the provision of the Public Laws of 1943—Chapter 160 and is reserved for future construction. During the year under review, Bonds at issue price of \$26,492.00 were sold. The increment in the amount of \$1,764.60 representing interest since date of purchase was credited to Surplus.

Fixed Assets—\$300,654.60

This item is detailed on the Balance Sheet showing Cost, Reserve for Depreciation and Net Book Value.

Due City of Franklin—Bond Fund—\$145,000.00

Request for the sale of bonds was made by the Board of Water Commissioners on April 23, 1948 and authorization for the sale of the bonds was approved by Council on June 7, 1948. The Bonds, known as Water Bonds bearing 2¼ % interest, were sold to the First National Bank of Boston @ 101.321 plus accrued interest for 22 days. The premium and interest is shown on the statement of operations.

Surplus—\$73,700.07

The surplus account is detailed on the balance sheet.

School District—Statement of Receipts and Disbursements

Public Library—Statement of Receipts and Disbursements

Park Commission—Statement of Receipts and Disbursements

Overseer of Poor—Statement of Receipts and Disbursements

The books and records of the above were examined and cancelled checks and vendors invoices were checked to the Cash Disbursements Records. Cash in the banks at the close of the year was reconciled to the bank statements and independently confirmed by the various depositories. Vendors invoices unpaid as at December 15, 1948, which in some cases is sizable, are not reflected on the statement since the City is on a cash basis. Obviously, therefore, the statements of receipts and disbursements does not correctly reflect the activity of those departments.

Payrolls

I examined all the payroll checks cancelled during the year and reconciled the payroll bank statement. I further test-checked the endorsements on cancelled checks with the signatures on W-4 Withholding Tax Exemption Certificates.

City Clerk's Office

The books and records of the City Clerk were completely checked. The Daily Cash Collection register tapes were traced to the Cash Receipt book and bank deposits.

Automobile permits and Dog Licenses issued were verified with the cash books which were completely footed. Business licenses, Marriages, Sunday Dealers, Sewers, etc., were all checked from the points of original entry to the cash book.

General Comments

Several changes should be made in order that the books of the City more accurately reflect its financial status. Under the present system, the departments are charged with expenses only when the commitments are paid. Since the liabilities incurred at the end of the year can directly affect the financial status and the activity of the appropriation, I would suggest that the City change its basis from a cash to a cash-accrual basis. The departments would then be charged with the outstanding liabilities to reflect more clearly their activity. If the Council approves this change, the departments would be required to submit all liabilities as at the end of the year.

Some of the departments have been charging payrolls net; that is, after Withholding Tax, Blue Cross and retirement deductions. The deductions are charged to the payroll accounts when paid to the various agencies and at the end of the year it can readily be seen that the deductions for the 2½ months preceding the close of the year are therefore not reflected in the expenditures until the subsequent year. Deductions for the preceding year, however, are charged in the current year. Payrolls should be charged gross with the corresponding liabilities recorded for the deductions made.

I would also suggest that the financial year of the City be changed so that all departments will close on the same day. Currently, the majority of the departments close their books as at December 15, and one closes on December 31. A clearer financial status of the City would be available if all departments are required to close their books at the same time.

Several departments receive their appropriations from the City and are permitted to manage it independently. This necessarily means that each of them makes its own purchases, approve bills, maintain a checking account and keep a set of financial records

of all transactions. Since the financial management of the City affairs could be more efficiently handled and recorded if all the purchases, disbursements and record-keeping were done in one central office, I recommend discontinuing payment of appropriations to City departments.

Establishing an internal control system is urgently required. Internal control is a system in accounting whereby the work is so laid out that no part of the accounting procedure is under the absolute control of any one person and that the work of one employee is complimentary to that of another. From an auditor's point of view, the lack of such a system necessarily requires a greater amount of checking and verification. A review of the records in several of the departments reveals the necessity for establishing the system.

For example, in the Welfare Department, the Overseer of the Poor acts as visiting agent to applicants of relief, approves the expenditures involved and issues checks in payment of the vouchers. In the Water Works, the bookkeeper has complete charge of all the billing, the collection, the postings to the various accounts and keeping the accounts in balance. The tax collector collects all taxes and has complete charge of the books and accounts of the various tax ledgers. It is apparent, therefore, that if the system were rearranged so that no one individual is in complete charge of the accounting procedure, there would be some internal control of the books and records, which, in turn, would require less auditing.

Each department should be required to submit an inventory at the close of each year. The schedule should include both expendable and unexpendable items. The unexpendable items not having a manufacturer's mark should have an identification mark assigned to it and a complete record of such inventories should be maintained in the general accounting office.

Exhibit A—Schedule 2C sets forth the Budgetary operations for the year and discloses a net unexpended balance of \$14,948.73. Many of the departments have overexpended their appropriations. Appropriations are made to limit and control the amount to be expended by a department. It may be that insufficient consideration was given to the requirements of the departments. In that case, this should be corrected. Otherwise, greater control should be exercised over the departmental expenditures. Some of the overdrafts are a result of charges made against an account for

which no appropriation was made. It would seem that the Council probably had in mind charging some of the other accounts with these expenditures. However, I suggest that future budgets make provisions either by establishing appropriations for these departments or showing in the budget to which accounts these items are to be charged.

In conclusion, may I summarize the salient points which should be carefully considered:

1. Changing the method of accounting to cash-accrual basis.
2. Correcting the procedure in charging payrolls.
3. Changing the fiscal year to the same day for all departments.
4. Eliminating payments of appropriations to departments.
5. Establishing internal control.
6. Maintaining inventory records.
7. Making appropriations for all expenditures.
8. Eliminating appropriation overexpenditures.

I wish to express my appreciation to all the City Officials and the members of their Staffs for the cooperation and courtesies extended me during the audit.

Respectfully submitted,

LEONARD D. RICCIO,

Certified Public Accountant.

Total number of times C. O. 2 used	5

Yearly Report of Hose Co. 1

Total number of bell alarms	15
Total number of miles traveled	74
Total number of feet of 2½ inch hose laid	2100
Total number of gallons gasoline used	38
Total number of hours pumping	7

Yearly Report of Rescue Squad Company

Total number of bell alarms	17
Total number of miles traveled	76
Total number of feet of 1½ inch hose laid	600
Total number of gallons gasoline used	52
Total number of quarts oil used	6
Total number of times boat trailer used	1

Yearly Report of Ladder Co. 1

Total number of bell alarms	15
Total number of times of special service	4
Total number of feet of ladder raised	200
Total number of gallons of gasoline used	47
Total number of hours pumping	1
Total number of hours lighting plant run	4
Value of buildings involved in fires	\$86,200.00
Value of contents involved in fires	32,750.00
Total value of buildings and contents	118,952.00
Damage to buildings involved in fires	4,868.56
Damage to contents involved in fires	3,182.80
Total damage to buildings and contents	8,051.36

Insurance on buildings involved in fires	68,500.00
Insurance on contents on buildings involved	11,200.00
Total insurance on buildings and contents	79,700.00
Insurance paid on buildings involved	3,501.76
Insurance paid on contents involved	1,192.55
Total insurance paid	4,694.31
Total loss on buildings	4,868.56
Total loss on contents	3,182.80
Total fire loss for 1948	8,051.36

Yearly Report of Activities of Permanent Men

During the year 1948, the men, under the supervision of Harlan Leach, built a tank truck for use on fires out of the hydrant district and for use on grass or forest fires. Total cost of this piece of equipment to the city is less than \$700.00 and took 372 hours to build.

They also worked the following: Helping highway mechanic, 1547 hours; painting hydrants for water department, 45 hours; painting highway and police signs, 106 hours; telephone and radio duty for police department, 348 hours; shoveling hydrants, 106 hours; took care of heating plant for highway; rebuilt all chains for trucks; helped clear snow and ice from City Hall and Nesmith School; 16 hours testing and draining of all hydrants for water department to see if water left in outside barrel that would freeze, making hydrant of no use to us if frozen.

The permanent men now work an average of 84 hours per week.

The Board of Engineers wishes to take this opportunity to thank all members of the Fire Department for their cooperation this year. His Honor the Mayor, the City Manager, the Fire Committee and the members of the City Council for their assistance in making this a successful year.

LESLIE N. BOOMHOWER,
Chief

ROBERT O. F. CUNNINGHAM,
Assistant Chief

CARL C. GILMAN,
Assistant Chief

ROBERT O. F. CUNNINGHAM,
Clerk

Police Department

Report of Chief of Police Charles E. Legare

To His Honor the Mayor and City Council and City Manager of Franklin, I herewith submit my report for the year 1948:

Drunk	53
Disorderly conduct	5
Operating under the influence of liquor	16

Catherine M. Chase.....	Library Assistant
Ralph C. Colcord.....	Janitor

During the year 1948 the Franklin Public Library was operated with a total expenditure of \$11,708. The City appropriated \$8,200 of this sum. This represents a per capita expense of \$1.21. Years ago \$1.00 per capita was considered adequate for minimum service but with the declining value of the dollar that minimum amount has risen to \$2.00 for cities and towns of over 3,000 population. Franklin, with a population of 6,749 should be willing to increase the library appropriation annually until that minimum is reached. The City has reason to be proud of the generous hours of service the library has given the community for many years. This weekly schedule of 60 hours is all that many larger city libraries offer with larger staffs and more adequate funds. To the extent of the money available for book purchases a wide variety of titles increase the book collection each year. The last annual additions totaled 1,097 volumes, of which 249 were added to the children's room. Magazines received were 129, of which 40 were gift subscriptions. On the reading room tables 7 daily and weekly newspapers appeared regularly. These books, magazines and newspapers were provided at a cost of \$2,314.69.

The year saw a marked increase in the circulation of library items. The total of 44,487 was 2,703 volumes ahead of 1947. There was an improvement in the reading ratio, with fiction 54 $\frac{7}{8}$ %, non-fiction 21 $\frac{7}{8}$ %, and juvenile books 23 $\frac{1}{4}$ %. New borrowers registered were 449, with 77 from neighboring towns. The out-of-town registrants work or shop in town, or attend Franklin schools. The number of active borrowers stands at 3,132 and the per capita reading record figures 6.5 volumes. The library does not limit its service to town lines. 65 volumes were loaned through Interlibrary Loan; and 60 titles requested, but not owned locally, were borrowed for Franklin readers. Drastic weeding in the fiction section provided needed shelf room and the withdrawal of 1,042 shabby volumes has made the book aisles far neater and more attractive in appearance.

A complete paint job was done on the exterior of the building in May, which had not been done for nine years. New equipment for the year included an additional fluorescent fixture in the Draper room, a portable electric-steam radiator, three three-shelf units of wood and masonite construction, and small fire extinguishers on each of the three floors of the building.

Several class visitations have taken place, five of which were Junior High English classes working on a library project. During Good Book Week several of the lower grades were introduced to the children's room and the library. Exhibits interest visitors of all ages. The chief exhibits were two traveling photography salons, souvenirs from the Far East, a completely furnished doll's house, and nearly thirty F. H. S. graduation class pictures—1883 to date. The last mentioned exhibit attracted the most visitors and comment. A display of winter sports books was arranged in a store window featuring sports goods.

As heretofore, meetings of the Woman's Club and the Hospital Aid Society were held regularly in Library Hall, where other occasional meetings were held.

The value the community places upon the public library is evidenced by its remembrance of the institution with generous gifts of books and magazines. The Memorial Book Shelf received four additions during the past year. One friend added \$150 to the Florence M. Greeley Trust Fund. Two organizations arranged Christmas decorations enjoyed by visitors during the holidays.

The income from fines during 1948 amounted to \$464.25 and \$541.49 was received from the rental collection. Of the total budget \$6,314.26 was expended for salaries. The staff consists of the librarian, the assistant librarian, the library assistant, and a high school page during part of the year.

For professional contacts the librarian attended the national meeting of the American Library Association at Atlantic City; several trustees and the librarian attended sessions of the state meeting of the New Hampshire Library Association at Concord and a neighborhood meeting in Bristol where a trustee and the librarian shared in the program; and invitations to the annual Author Tea at the Laconia Tavern were accepted by several trustees and the librarian.

MILDRED J. PEASLEE,

Librarian.

Board of Education

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

My fourth annual report is the forty-eighth in a series of reports submitted by school superintendents of Franklin to the school board and the community. I have had the opportunity during the past year to read all of these reports and have noted, through the years, the efforts made by superintendents and school boards to improve the educational opportunity for Franklin youth. It is interesting to note that many of the present-day needs of the schools were in evidence twenty-five and thirty years ago and, in some instances, no provision has been made to take care of these needs in the interim.

Financing the School Program:

Many reasons for the lag between demonstrated need and making provision for it are definitely traceable to inadequate financing of the school program. School costs have risen in recent years as has every other municipal expenditure. The accompanying tabulation shows that the City of Franklin since 1944 has not provided, through tax resources, sums of money proportionate to the over-all budgetary increases. It may be noted that while 37% of the total appropriation was devoted to the school program in 1944 that there has been a gradual reduction in this percentage until in 1947-48, 31% of the revenues are used for the school program. Revenues from other sources have increased during this period, and it is quite evident that the State Aid voted in the legislative session of 1947 has helped to meet many of the school needs that would otherwise have had to have been neglected.

**MONEY RAISED BY LOCAL TAXATION APPROPRIATED
FOR THE SUPPORT OF PUBLIC SCHOOLS**

1938-1948

	Total Appropriations by the City for		City's Appropriation for Schools	Percent
	All Purposes			
1938	\$287,821.31		\$73,327.09	25%
1939	265,773.38		73,593.45	28%
1940	288,528.68		78,750.00	27%
1941	282,113.87		83,492.37	29%
1942	266,530.90		78,682.00	30%
1943	252,817.22		86,511.64	34%
1944	249,477.11		91,780.00	37%
1945	268,123.45		93,796.75	35%
1946	315,257.15		108,656.79	35%
1947	376,769.34		115,183.84	31%
1948	435,609.06		132,759.82	31%

Unfortunately, the educational program is closely related to finance. It has been demonstrated time and again that no single factor contributes more to school improvement than that of adequate financing. Most people in Franklin recognize this and many are desirous of providing more adequately for the schools. It would appear that our present operational structure in the area of finance is such that what may be the will of a majority of the people is often thwarted. Certainly, it is not defensible for a superintendent to advocate an educational program that is beyond the scope of a community's financial ability. If Franklin were a poor community, harassed by inadequate tax resources, holding the schools to a bare subsistence level might be a partially defensible practice. However, the fact of the matter is that under any of the known measures of determining a community's relative ability to support public education, Franklin would read well up on the list. In terms of average valuation per pupil in attendance, average income per capita or average income per pupil, Franklin should be classed as "well off." Three out of four of the communities in the New England area are not as favorably situated as is Franklin. Yet, when we learn that our high school pupils are having less spent upon their education than sixty-three other high schools in the State and that but sixteen high schools in the State spend less money than Franklin, one wonders if Franklin's effort to support its school is in any way commensurate with its ability.

Improving a school system takes time and it also takes money. The schools of Franklin have made some progress and some of the recent accomplishments are listed elsewhere in this report.

Citizens of Franklin are fortunate in having a well-trained faculty, alert to the needs of the boys and girls and conscious of the opportunities that might be provided for the pupils. The decision that this community needs to make is that of determining how far along the road of providing better education it is willing to go, and how much of the resources of the community ought to be devoted to the welfare of its children.

Personnel:

In September, 1948, a salary schedule, studies for which were undertaken in the fall of 1946, was placed in operation. This salary schedule provides for Franklin teachers, wages commensurate with those of the State as a whole. From figures contained in a survey conducted in November, 1948, it is shown that on a State-wide basis, classroom teachers are receiving an average salary of \$2506 annually. Classroom teachers in Franklin are receiving an average salary of \$2528 annually or \$22.00 above the average. Franklin's position in this respect has been improved considerably; largely through the untiring efforts of the Franklin School Board over the past three years. Whether Franklin's position in regard to the teachers salaries is such that the community can continue to attract and retain outstanding teachers is a matter that may well be given some thought.

Since the last annual report, the following changes have taken place in the Franklin schools. Mr. Joseph L. King, teacher of science in the Franklin High School since 1941, was elected to the position as headmaster of the Lincoln High School. His position was filled through the appointment of Mr. Alger Bourn, formerly mathematics teacher in the High School, to that of science instructor and the election of Mr. Norman S. Cook, a graduate of Tufts College with a Master's Degree and two years' experience as teacher at Nichols Junior College, to the position as teacher of mathematics. Miss Rita Anne King, head of the commercial department, accepted a position at the Coe-Brown Academy in Northwood to organize and head a new commercial department being undertaken there. Her position was filled through the appointment of Mrs. Madeline Pickess transferred from her duties in the Junior High School to the position as head of the commercial department in the High School, and the election of Miss Mary J. McIntosh, a 1948 graduate of Salem Teachers College, to the position as assistant in the commercial department, handling work for-

merly covered by Mrs. Pickess. Mrs. Dorothy Perrino resigned to be with her husband in Alaska, and her position as social studies teacher in the High School was filled by Miss Rowena Palmer, a 1948 graduate of Whittier College. Mrs. Freda Finnigan resigned to accept a position in Weare, and her position was not filled as a consolidation of teaching positions made it possible to eliminate one of the three home economics teachers employed last year. Miss Barbara C. Wells, teacher of social studies in the Junior High School, resigned to be married and, through a consolidation of teaching positions, it was found unnecessary to fill her position. Miss Jean Van de Bogart, who was teaching ninth grade English, resigned to enter social service work, and her position was filled through the appointment of Mr. Philip W. Ide, a 1948 graduate of the University of New Hampshire with a Master's Degree in English.

In the elementary schools, the resignation of Mrs. Rosina Cummings Donovan to be with her husband, created a vacancy in the third grade that was filled through the appointment of Mrs. Mildred Drazen, a graduate of Willimantic State Teachers College with one year's teaching experience in Willimantic, Connecticut. Mrs. Martha Ford, teacher in the third grade at the Nesmith School, accepted a position in Danbury, and her position was filled through the appointment of Miss Elsie A. Smith, a graduate of Plymouth Normal School with a number of years of experience teaching elementary grades.

The past year has seen the smallest turnover of teaching personnel in the past four years. There can be little doubt but that the adoption of the Salary Schedule is a major contributing factor to this improved situation. Additional personnel needed to improve the educational program include an art supervisor for work in all grades, a director of physical education for the whole school system who will provide for an organized program in the elementary schools, a remedial teacher to assist pupils having difficulty with regular school work, and an assistant for the instructor in the machine shop.

Pupil Population:

The accompanying chart shows the birth rate from 1938 to 1948 and the subsequent enrollment in the first grade of the public schools six years later. There are two reasons for the discrepancy between the birth rate and the public school first grade enrollment. (1) Approximately one-third of the elementary school pupils in Franklin attend the parochial school. (2) Many of those listed

as being born in Franklin come from surrounding towns to the Franklin Hospital. However, the ratio between the birth rate and the first grade enrollment is constant enough so that we may predict a serious problem in the fall of 1952 that will become increasingly serious for the next four or five years.

Birth Rate and First Grade Enrollment Chart 1938-1948

Date	Birth Rate	First Grade Enrollment Six Year Later	
1938	165	1944	70
1939	156	1945	76
1940	191	1946	72
1941	205	1947	103
1942	207	1948	87
1943	160	1949	72*
1944	177	1950	71*
1945	139	1951	62*
1946	225	1952	101*
1947	268	1953	120*
1948	283	1954	128*

*Estimate based on previous birth rate-first grade enrollment ratio.

Crowded conditions at the Hancock School will make it necessary that the sixth grade move to the Daniell Junior High School next fall.

In the Superintendent's report last year, it was recommended that a committee be established to study the problem of providing adequate housing for school children, and it is increasingly apparent that further delay in undertaking such a study would be disadvantageous. I strongly urge that a committee be formed this spring to analyze the problem and to make recommendations.

School attendance in Franklin continued to be remarkably satisfactory. Contributing factors to this situation would include the fine work being done by Miss Marion Moynihan, our School Nurse, the excellence of the School Lunch Program under the direction of Mrs. Ruth Gilman, and the improved transportation facilities being provided for pupils.

Occasionally the question is raised in regard to work being done at Franklin High School in preparing pupils for college. Last spring, a careful analysis of the records made by pupils graduating from Franklin High School and attending post-secondary insti-

tutions was undertaken. The study shows definitely (1) a high correlation between the marks pupils obtained at Franklin High School and the subsequent marks at post-secondary institutions, (2) that Franklin pupils, on the average, make better than the average grades of pupils attending post-secondary institutions and (3) that more pupils make the Dean's List and various other Honor Rolls than the number of pupils attending post-secondary institutions would seem to warrant.

Based on the above findings, it is reasonable to conclude that the Franklin High School is doing a good job of preparing those who wish to attend college. However, it should be pointed out that the principal function of the school is not that of preparing pupils for college but rather that of preparing them to take their place as useful citizens in this community, for but one out of five of the pupils who graduate from Franklin High School ever undertake any further formal study. Our High School, then, should have as one of its principal concerns the preparation for life of these boys and girls who will have as their educational background only what they obtain while in high school.

Buildings and Grounds:

The cooperation of the City Manager in providing assistance from various other departments in the City has helped to maintain our grounds in fair shape during the past year. The School Department has neither the men nor the equipment necessary to maintain in first-class condition the fine playground areas available at the High School and Junior High. It is, therefore, recommended that the maintenance of these areas be undertaken by the Highway Department in order that the grounds may be kept in first-class condition.

This past year some of the most pressing interior renovations have been carried out. There is still a tremendous backlog of needed work on the schools, both interior and exterior. Delay in undertaking this work but increases the ultimate cost and, in the meantime, the schools are not the source of community pride that they should be. Effort should be made to get the buildings in first-class repair. Then for a minimum expenditure annually, they may be maintained in that condition.

What Has Been Accomplished in 1948:

Among the major improvements in the organizational and educational pattern of the community's schools carried out during the past year, the following are mentioned:

1. The extension of our school bus runs to include lower grade pupils in the Prospect Hill area and an improvement in the transportation provided for pupils living in the Webster Lake area.

2. An improvement in the cafeteria services made available to Junior and Senior High School pupils through the providing of separate cafeteria space at the High School building.

3. The shortening of the school day at the High School through improved scheduling practices introduced by the headmaster, Mr. Cashman, and the re-arrangement of transportation schedules and cafeteria services at the High School building.

4. Curriculum improvements in the area of social studies on the High School level. These will be discussed at greater length in the High School Headmaster's report.

5. The transfer of ninth grade pupils to the Franklin High School, giving them the opportunity to enjoy the improved facilities available at that building and providing needed "elbow room" at the Junior High School building.

6. Continuing good work by the faculty curriculum committees, studying various subject matter fields and recommending changes and improvements.

7. A pre-school clinic was established for entering kindergarten and first grade pupils. Please see the School Nurse's Report for further discussion of the clinic.

8. Franklin High School was selected as the pilot school for audio-visual training for the State of New Hampshire.

Recommendations for 1949:

1. That a committee be organized to study the needs in regard to pupil housing in this community.

2. That a plan be undertaken to put our schools in first-class physical condition.

3. That additional teaching personnel, as needed and suggested in the section entitled "**Personnel**," be provided.

4. That the community undertake the municipal ownership of school buses.

Conclusions:

Miss Marion Moynihan, the School Nurse, acknowledges in her report the many contributions to pupil welfare by various agencies of the community. Certainly, the fine interest in the welfare of children demonstrated by the various civic groups is most commendable.

The continued good work of the Franklin Parent-Teacher Association in improving school, home and community relations is most worthy of commendation. The interest of parents and their active support in improving the schools of the community is earnestly solicited. Parents should feel that suggestions and criticisms will always be courteously received, carefully considered and that action will be taken wherever desirable and possible.

The Franklin Teachers Association continues to forge ahead as one of the outstanding professional groups in this State. The number of splendid community services rendered by the group and the purposes of the organization should be more fully known. I have, therefore, asked Mr. William Hoban, the President of the Franklin Teachers Association, to give a brief report that will be included this year in the annual reports published with the various other School Department reports.

I have served as a teacher, principal, and superintendent in five New England communities. Franklin is outstanding in its civic interest and community enterprise. Communities such as this make America what it is, and the preservation of the American way of life, as we know it, depends upon the continued interest in and support of the institutions that have so far done a good job of promoting democracy. The schools of the community belong to all the people, and it is in the interest of all the people to protect them, cherish them and continue them strong. By working together—school board, superintendent, principals, teachers, parents and other citizens—we can make Franklin's schools the best in this State. We should be satisfied with nothing less.

Respectfully submitted,

DONALD W. DUNNAN,

Superintendent of Schools

Resolutions

RESOLUTION

No. 1

In the year of our Lord one thousand nine hundred and forty-eight.

A Resolution relating to borrowing money in anticipation of taxes.

Resolved by the City Council of the City of Franklin as follows:

That, for the purpose of paying such claims against the City of Franklin as may fall due before the 15th day of December, 1948, the City Treasurer of the City of Franklin, with the approval of at least a majority of the standing committee on finance, be and hereby is authorized and empowered to make such temporary loans from time to time for the use of said city, of sums not exceeding the aggregate amount of two hundred seventy-five thousand dollars (\$275,000.00); said loans being in anticipation of the taxes of the present year and hereby made expressly payable therefrom; said Treasurer giving for the said loans the notes of the said City bearing the authenticating certificate of the First National Bank of Boston, in Boston, Massachusetts; said notes to be signed by the City Treasurer and countersigned by the Mayor and to be payable within one year from their respective dates.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 5, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 2

In the year of our Lord one thousand nine hundred and forty-eight.

A resolution relating to taxes and poll taxes.

Resolved by the City Council of the City of Franklin as follows:

That, the Tax Collector shall not allow any discounts on taxes but that twenty cents shall be added to all poll taxes not paid on or before September 15th, 1948.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 5, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 3

In the year of our Lord one thousand nine hundred and forty-eight.

A resolution relating to the appointment of the standing committees of the Council.

Resolved by the City Council of the City of Franklin as follows.

That, the Mayor be authorized to appoint the following standing committees of the Council for the year 1948:

Highways	Ordinances
Sewers	Street Lighting
Fire	Claims
Police	Schools

Health and Welfare
Public Lands and Buildings
Daniell Park Development

and a committee on Finance to consist of the Mayor and two members of the Council.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 5, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 4

In the year of our Lord one thousand nine hundred and forty-eight.

A Resolution relating to the weekly payrolls.

Resolved by the City Council of the City of Franklin, as follows:

That, the Treasurer be and hereby is authorized to draw her draft each week for the payment of the weekly payrolls of the Highway, Sewer and other departments where weekly payment is required.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 5, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 5

In the year of our Lord one thousand nine hundred and forty-eight.

A resolution providing for the organization of a housing authority for the City of Franklin, New Hampshire.

Be it resolved by the City Council of the City of Franklin, as follows:

Section 1. That the City Council of the City of Franklin, New Hampshire, hereby determines, finds and declares in pursuance of Section 4 of the Housing Authorities Law of the State of New Hampshire, that there is need for a housing authority to function in the City of Franklin.

Section 2. In accordance with the foregoing finding, a municipal housing authority for the City of Franklin, be, and hereby is, authorized to function and to transact any business and exercise its powers.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: February 2, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 6

In the year of our Lord one thousand nine hundred and forty-eight.

A Resolution relating to the New England Telephone and Telegraph Company.

Resolved by the City Council of the City of Franklin as follows:

That, the City Council of Franklin views with grave concern the recent demand of the New England Telephone and Telegraph Company before the Public Service Commission for a return of seven per cent on its investment in this state. Considering the present suffering of the common people from uncontrolled inflation, such action, we feel, is representative of the worst characteristics of our present capitalist system. In view of the absolute monopoly granted this company and its apparent right to constant revision of its rates, it is hoped that its return will be limited by the Commission to not more than four per cent.

Approved: EUGENE S. DANIELL, JR., Mayor.

Adopted: May 3, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 7

Resolution authorizing an issue of one hundred forty-five thousand dollars (\$145,000) for water bond.

In the year one thousand nine hundred and forty-eight.

Resolved by the City Council of the City of Franklin as follows:

That, the City Treasurer be and hereby is authorized, with the approval of the Mayor and the Standing Committee on Finance, to prepare, issue and sell bonds in the amount of one hundred forty-five thousand dollars (\$145,000) in accordance with Chapter 72 of the Revised Laws of New Hampshire (1942), and be it further resolved that the proceeds of said issue of bonds be appropriated to

the water department for the purpose of constructing public improvements of a permanent nature, to wit, construction and the enlargement of the City's water works and system by extension of water mains, erection of a new pumping station and construction of well field and acquisition of real estate.

Said bonds are to be designated "Water Bonds," and shall be dated July 1st, 1948 and shall mature \$8000.00 on the first day of July in each of the years 1949 to 1953 inclusive and \$7000.00 July 1st in each of the years 1954 to 1968 inclusive.

Said bonds are to bear interest at not exceeding 3% per annum payable semi-annually, and the place of payment of principal and interest, the fixing of the rate of interest, and provisions for the sale of the bonds and other matters in relation thereto are to be determined by the City Treasurer with the approval of the Mayor and Standing Committee on Finance. Said bonds are to bear the City Seal, and to be signed by the Mayor and countersigned by the City Treasurer, to have coupons attached bearing the facsimile signature of the City Treasurer, for the payment of interest at such rate as may be fixed, payable on the first day of January and July each year.

Approved: EUGENE S. DANIELL, JR., Mayor.

Adopted: June 7, 1948.

The foregoing resolution was read and adopted at the regular monthly meeting of the City Council held on June 7th, 1948.

There were eight members of the City Council present and one absent. A roll call resulted in the adoption of the resolution, unani- mously, by the affirmative vote of eight members.

A true copy of record, attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 8

In the year of our Lord one thousand nine hundred and forty-eight.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: July 23, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 9

In the year of our Lord one thousand nine hundred and forty-eight.

A Resolution relating to the present high cost of living.

Whereas, the cost of food (particularly meat), clothing, and the other necessities of life has risen so rapidly as to sharply reduce the living standard of the citizens of this city, and to seriously endanger the welfare and health of many; and whereas Congress is now in session and both major political parties have pledged a remedy to this situation; therefore be it:

Resolved: that the Council of the City of Franklin unanimously urges and petitions the Congress of the United States to take immediate and effective steps to remedy this situation; and be it further:

Resolved: that copies of this Resolution be sent by telegram to Senators Charles W. Tobey and H. Styles Bridges and Congressmen Chester E. Merrow and Norris Cotton for whatever action they deem most expedient.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: August 2, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 10

In the year of our Lord one thousand nine hundred and forty-eight.

A resolution relating to raising money by taxation.

Resolved by the City Council of the City of Franklin as follows:

That the sum of \$391,181.74 be raised by taxation the present year and that the assessors be instructed to assess for the amount as follows:

County Tax	\$28,228.93
Library	8,200.00
Schools	152,179.82
Poll Taxes	6,376.00
National Bank Stk. Taxes	1,154.00

and the sum of \$195,042.99 to meet the current expenses provided for by the appropriations made and same be appropriated with other revenues of the City to meet the same.

Tax rate for 1948: \$43.00 per thousand.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: August 2, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 11

In the year of our Lord one thousand nine hundred and forty-eight.

A Resolution relating to parking meters in Franklin.

Resolved by the City Council of the City of Franklin that the ballot of the annual city election provide for a referendum on the question

"Shall the city discontinue the use of parking meters."

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: November 1, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

ORDINANCE

An Ordinance relating to traffic and regulating the use of public streets and highways of the City of Franklin providing for the installation, regulation and control of the use of parking meters and parking meter zones; defining parking meter zones: authorizing a method of payment for parking meters and the installation thereof exclusively from the receipts obtained from their operation: providing for enforcement and penalty for violation thereof and providing that invalidity of part shall not effect the validity of remainder.

Be it ordained by the Council of the City of Franklin.

Section 1. The word "vehicle" as used herein shall mean any device by which any person or property may be transported upon a highway, except those operated upon rails or tracks.

Section 2. That the following described streets in the City of Franklin are hereby designated and established as parking meter zones, to-wit: both sides of Central Street from Church Street to Sanborn Bridge. Both sides of Franklin Street from Central Street to Church Street. East side of Memorial Street from Central Street to Canal Street.

Section 3. The City Manager shall provide for installation of meters, including curb or street marking lines, regulation and operation thereof, and shall cause said meters to be maintained in good workable condition. Meters shall be placed upon the curb next to individual parking places and meters shall be so constructed as to display a signal showing legal parking upon deposit therein of the proper coin, or coins, of the United States as indicated by instructions on said meter, and for a period of time conforming to the parking limits of the City of Franklin said signal to remain in evidence until expiration of said parking period so designated, at which time a change of signal or some other mechanical operation shall indicate expiration of said parking period.

Section 4. The City is hereby vested with the authority to enter into a contract for the purchase and installation of parking meters and to provide payment therefor exclusively from the receipts obtained by the City from their operation and that said means of payment shall be in addition to any other purchasing powers heretofore granted the City by its charter, or by the laws of the State of New Hampshire.

Section 5. When any vehicle shall be parked next to a parking meter the owner or operator of said vehicle shall park within the area designated by the curb or street marking lines as indicated for parallel or diagonal parking and upon entering said parking space shall immediately deposit in said meter one or more five cent coins of the United States, and/or one or more one cent coins of the United States as indicated by instructions in said meter. It shall be unlawful for any person to fail to park within said designated area, or fail or neglect to so deposit the proper coin, or coins.

Said parking space may then be used by such vehicle during the legal parking limit provided by the ordinances of the City, and said vehicle shall be considered as unlawfully parked if it remains in said space beyond the legal parking limit and/or when said parking meter displays a signal showing such illegal parking. It shall be unlawful for any person to cause or permit any vehicle registered in his name to be unlawfully parked as set out in this section.

Section 6. It shall be unlawful for any person to deposit, or cause to be deposited in a parking meter one or more five cent coins and/or one or more one cent coins for the purpose of extending the parking time beyond the maximum time fixed by the ordinance of the City of Franklin.

Section 7. It shall be unlawful to deposit or cause to be deposited in any parking meter, any slug, device or a metallic substitute for a coin of the United States.

Section 8. It shall be unlawful for any person to tamper with, open, wilfully break or destroy any parking meter.

Section 9. It shall be the duty of traffic officers so instructed to take the parking meter number, and the state vehicle tag number, of all persons violating the provisions of this ordinance and make complaint therefor in the Municipal or Police Court of the City of Franklin.

Section 10. Any person, firm, or corporation who shall violate or permit or allow anyone to violate Section Five (5) or Section Six (6) of this ordinance shall upon conviction be fined not more than fifty cents (\$.50) and costs.

Section 11. Any person who shall violate or assist in violation of Section Seven (7) or Section Eight (8) of this ordinance shall upon conviction be fined not more than five dollars (\$5.00) and costs.

Section 12. The fee required to be deposited in said meters is hereby levied as a police regulation and inspection fee to cover the cost of providing parking spaces, parking meters, and installation, and maintenance thereof, the cost of regulation and inspection, operation, control and use of the parking meter spaces and zones created herein, for the regulation and control of traffic moving in and out of, and parking in, said parking spaces and zones so created and for the cost of any resultant traffic administration expense.

Section 13. If any section, provision or part thereof in this ordinance shall be adjudged invalid or unconstitutional by a court of competent jurisdiction, then such adjudication shall not effect the validity of the ordinance as a whole, or any section, provision or part thereof not so adjudged invalid or unconstitutional.

Passed by the Council of the City of Franklin this 2nd day of August, 1948.

Approved: EUGENE S. DANIELL, JR., Mayor.

A true copy attest: Mildred S. Gilman, City Clerk.

Amendment to Ordinance, Chapter 6, Section 1, relating to buildings, signs, awnings and trees.

Sect. 1. No building shall hereafter be erected on the North or South side of Central Street between Sanborn Bridge and Daniell Bridge and Church Street or on Franklin Street between Central Street and Church Street or on the East or West sides of Main Street, between Depot Street and Webster Lake outlet, except the same is constructed with solid outside brick walls at least twelve inches thick or constructed with fire resisting material approved by the City Council.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: October 4, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.

Amendment to Amendment to Ordinance on Traffic Regulations.

An amendment relating to Traffic Regulations.

Be it ordained by the City Council of the City of Franklin that Section 15 of Chapter 13 Ordinance relating to Traffic Regulations be amended to read: Section 15. No automobile or other vehicle shall be parked or left on Central Street between Church Street and Sanborn Bridge or on Franklin Street between Central Street and Church Street or on Memorial Street between Central Street and Canal Street for more than two hours at any time, between the hours of 8:00 A. M. and 6:00 P. M. on week days except Fridays and between the hours of 8:00 A. M. and 9:00 P. M. on Fridays. Sunday and holidays excluded.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: October 4, 1948.

A true copy attest: Mildred S. Gilman, City Clerk

ORDINANCE

An Ordinance relating to smoke, cinders, dust, gas, steam or offensive or noisome odors.

In the year of our Lord one thousand nine hundred and forty-eight.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person, company, or corporation shall unreasonably cause, suffer or allow dense smoke, cinders, dust, gas, steam, or offensive or noisome odors to escape or be discharged from any building, vessel, stationary or locomotive engine, place or premises within the City of Franklin, New Hampshire, to the detriment or annoyance of any person in said City.

Section 2. Any person violating this ordinance shall be fined not exceeding twenty dollars.

Section 3. This ordinance shall take effect on its passage.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: November 1, 1948.

A true copy attest: Mildred S. Gilman, City Clerk.
