CHARLES E. HOAG, Treasurer.

Weare, N. H., March 1, 1884.

We, the undersigned, have examined the foregoing report of the treasurer and found the vouchers satisfactory and footings correct.

D. P. WOODBURY, DANIEL JOHNSON, Auditors. JOHN L. HADLEY,

STATE OF NEW HAMPSHIRE.

To the inhabitants of the town of Weare, in the county of Hillsborough, in said state, qualified to yote in town affairs:—

You are hereby notified to meet at the town hall on Tuesday, the eleventh day of March next, at 10 of the clock in the forenoon, to act upon the following subjects:

- 1. To choose a moderator to preside in said meeting.
- 2. To choose selectmen and town clerk for the ensuing year.
 - 3. To choose one school committee.
 - 4. To choose one or more fish and game wardens.
 - 5. To make provision for the collection of taxes.
 - 6. To choose all other town officers for the ensuing year.
- 7. To see how much money the town will vote to raise to defray town charges for the ensuing year.
- 8. To see what action the town will take in reference to an act passed at the last legislature, authorizing it to raise money to build reservoirs for manufacturing purposes, and to decide how much money the town will appropriate therefor.
- 9. To see what further action the town will take in regard to preparing and publishing a history of the town of Weare.
- 10. To see if the town will elect a committee and instruct the same to present the charters of Weare, New Boston, and Francestown to competent coursel, and ascertain whether in their opinion the intersection of the continuation of the south and west lines of Weare should not have been originally claimed as the south-west corner of Weare, and if they find that it should have been so claimed, they are hereby instructed to petition the next Legislature to have said intersection established as the south-west corner bound of Weare.
- 11. To see what action the town will take in relation to public schools.
- 12. To see what action the town will take in regard to purchasing one or more road machines.
- 13. To see if the town will adopt the provisions of an act passed at the last legislature, authorizing the selectmen to deliver the blank inventories to the tax payers when said selectmen go to examine and appraise the property to be taxed in town.

- 14. To see if the town will vote to pay Gilbert Hadley the sum of two hundred dollars, the same being a bounty which said Hadley should have received at the time he enlisted as a soldier in the last war.
- 15. To see what action the town will take in relation to paying Edmund M. Rogers, Harvey H. George, Elijah P. Purington and Frederic Purington each two hundred dollars bounty for the war of 1861.
- 16. To see if the town will vote to raise fifty dollars, to enable Stark Fellows Post, G. A. R., to decorate the graves of their fallen comrades.

Given under our hands and seal at said Weare this twenty-third day of February, A. D. 1884.

A. H. WOOD, S. H. DOW, M. R. PEASLEE,

SCHOOL REPORT.

To the Citizens of Weare:

It may be that "line upon line, precept upon precept, here a little and there a little," are needed in every good work and way in order to move upward and onward in ways of improvement and progress. But it seems to us, as we again call attention to schools, like the repetition of a very old story and one so faithfully told from year to year that it must be well known to all. So the question arises, shall we repeat the story and tell once more of the evils and hindrances found in nearly every school in town, discouraging and disheartening faithful teachers, and leading your committee to feel that it is useless, so long as such evils exist, to attempt to maintain anything but a "name to live."

Gladly would we go through with the whole catalogue if we could be encouraged with the least expectation that it would arouse any who by their influence might help the committee accomplish a better work for our schools, more satisfactory results in the expenditure of our school money, and the educating of our

youth.

We are taught that we are not only to be "hearers of the word, but doers." Presuming, then, that all know the word that has come to us in the past, through the annual report of schools.

we will only urge further the doing.

Districts Nos. 1, 2, 5, 6 and 15 are reported by Mrs. C. F. Chase; Nos. 3, 4, 7, 8, (fall and winter term), and No. 9 by A. B. Johnson; Nos. 8, (summer term), 11, 12, 13 and 14 by J. P. Dearborn.

DISTRICT No. 1.—NORTHWESTERN.

Frank Brown, prudential committee. Summer term: Addie M. Fisher, teacher. The appearance of the school on our first visit impressed us favorably. We had reason to expect a profitable term. On our last visit there were but three pupils present. They appeared to have made good progress in their studies. The measles prevailed in this district during several weeks of the term, virtually breaking up the school, and rendering it impossible to form any idea in regard to the teacher's work.

Fall term: Hattie C. Kimball, teacher. This was Miss Kimball's first term as teacher. Order, promptness and animation were marked points at our first visit, all essentials to success in the schoolroom. The examination at the close by A. B. Johnson gave satisfactory evidence as to the faithfulness and efficiency of the teacher, and the industry and obedience of the pupils during this term.

DISTRICT No. 2.—NORTH WEARE.

J. P. Simons, prudential committee. Three terms, all taught by Carrie E. Paige. Here we have a teacher of large experience, well equipped, and full of enthusiasm for the work of the schoolroom. The results so far have been excellent; as the winter term is not yet ended, we cannot give a complete report. We wish to add a word right here. Whenever it is practicable we think it desirable that one teacher should have charge of the school the entire school year in all our districts.

DISTRICT NO. 3.—ROCKLAND.

Joshua Flanders, prudential committee. Summer and fall terms taught by Jennie T. Breed. Teacher and pupils labored earnestly during the summer term for improvement, both in discipline and in the various branches pursued, good results being attained.

There was an evident lack of interest in the fall term, resulting in a loss of much of the improvement of the first term.

Winter term commenced by Irene V. Eastman, who was obliged to leave the school at the close of the sixth week on account of sickness, Julette A. Eastman finishing the term. Both are able and experienced teachers, and labored faithfully to establish good order and give practical instruction, accomplishing more than could be expected in so short a term, with a change of teachers.

District No. 4.—Sugar Hill.

PARMILEE LUFKIN, prudential committee. Lulu II. Smith, Lowell, Mass., teacher of summer term. This was Miss Smith's first school, and although a short term of only seven weeks, more was accomplished than by many of our older teachers in much longer terms, showing what may be accomplished by teachers who have that thorough training which has made Massachusetts schools so popular.

Miss Smith began the winter term, but was obliged to leave on account of sickness, Mrs. Lizzie A. Shepard finishing the term with better results than we looked for in a term of seven weeks with two teachers.

DISTRICT No. 5.—CLINTON GROVE.

J. B. Philbrick, prudential committee. Three terms. Summer term: Aura A. Morse, teacher. A quiet, orderly, pleasant school; teacher, parents and pupils all in harmony. Good progress made.

Fall term: Susie C. P. Whittle, teacher. This was Miss Whittle's second term as teacher. The general appearance of the school did not differ materially from that of the summer term. Although there was a lack of confidence in the teacher on the part

of some, we think she labored faithfully and with good results. If parents only knew how much they might add to a teacher's usefulness by the exercise of a spirit of charity and good will, there would be a wonderful improvement in the value of our schools.

Winter term: Josie A. Cram, teacher. At this writing this term is not yet closed, so our report will be incomplete. Miss Cram is well qualified, both by education and experience, for the position of teacher. At our visit early in the session we found faithful, busy workers here. As we hear from the school from time to time the same good conditions continue, and notwithstanding the miserable jar that has occurred during the term, we think this will be accounted a most profitable school.

DISTRICT No. 6.—WEARE CENTER.

ELIPHALET JONES, prudential committee. Three terms. Josie F. Cram, teacher, first and second, and Lindley H. Farr, third term. The summer and fall terms were visited, and your committee found a large school with a teacher well qualified and enthusiastic in her work, and scholars wide awake, orderly and attentive. Two profitable terms.

Owing to illness in our family, we were unable to visit the winter school, but knowing the teacher's qualifications and previous success, and hearing most excellent reports from residents in the district, we feel justified in pronouncing this also a very profitable term.

DISTRICT NO. 7.—EAST WEARE.

PILLSBURY R. EATON, prudential committee. Summer term taught by Mabel Dearborn. At our first visit the school appeared well, yet at the close did not show the improvement we were led to expect, owing in part, perhaps, to the lack of that discipline which is one of the essentials of a good school.

Fall term by Etta Moore, who labored earnestly to establish order and succeeded better than we dared hope, the result being a profitable term.

Winter term by Isaac N. Center of Litchfield. We were much pleased with the appearance of the school at our first visit. At the close the eight scholars who were present (out of twenty-eight who had attended during the term) had made good improvement.

This school does not take the rank it ought among the best in town, owing, as we believe, mainly to the fact that the parents are apparently more anxious to find some fault in the teacher as an excuse for taking their children out of school than to give him that moral support without which no teacher can be fully successful.

DISTRICT NO. 8.—SOUTH WEARE.

C. J. Hadley, prudential committee. Summer term taught by Lucy A. Colby. This teacher is one that realizes the respon-

sibility of the work, consequently careful and painstaking. Under her charge the school prospered. We have here some of our best and most earnest scholars.

Fall and winter term taught by Jason P. Dearborn, a thorough and accomplished teacher, who aims to make his teaching practical, encouraging his pupils to help themselves rather than look to their teacher on every occasion. We were much pleased with the appearance of the school at our last visit, especially with the advanced class in arithmetic, who by their prompt answers testified to the thoroughness of the work done.

DISTRICT No. 9.—BARNARD HILL.

Thomas Eaton, prudential committee. Two terms, both taught by Nellie S. Eaton. This school at each of our several visits gave ample evidence of earnest work on the part of both teacher and pupils.

DISTRICT NO. 10.—RIVER ROAD.

JOHN P. MELVIN, prudential committee. Summer term taught by Ida W. Fletcher of Greenfield. This was Miss Fletcher's first experience as a teacher. She is an earnest worker, and with experience, we think, will rank among the best.

Winter term taught by Mabel E. McQuestion of Candia, an able and experienced teacher, who did good work, and one we hope to see in our schools again.

DISTRICT No. 11.—MOUNTAIN.

HENRY H. BALCH, prudential committee. The first term taught by Cora L. Cochran, a young lady of good scholarly attainments, lacking a little in confidence, which may be overcome by experience, and a determined purpose to succeed as a teacher. Love the work, and work will be rewarded with success.

The second term by Lucy A. Eastman; this teacher rarely excelled even by teachers with years of experience. We would like fifteen teachers equally as zealous and devoted to the work, and recommend that they be employed, not only for one term, but for each term of the year, and continued so long as they will maintain the same faithfulness and accomplish as good results as were realized for this school by this teacher.

DISTRICT No. 12.—Buxton's.

George W. Dearborn, prudential committee. The first term taught by Lucy A. Eastman, this teacher's first engagement in the work, and of whom we have spoken in connection with school No. 11.

Second and third terms taught by Mabel Dearborn, a teacher of some experience, and very good work was done the second term. Not as much was accomplished during the winter term as

we had reason to expect, and we do not hold the teacher alone responsible for the condition of affairs during the term. There are influences damaging to this school best known to those directly interested. They must be corrected, or this school, which heretofore, in degree of order and excellence, ranked with the first, will go backward.

DISTRICT No. 13.—DEARBORN'S.

FRANK FLANDERS, prudential committee. This district has been fortunate in the past in the selection of teachers, and through their faithfulness and the interest given the school by parents, has been brought into good working order. The examinations at the close of the summer and fall terms, both taught by Vesta P. Osborne, were interesting and convinced us that the teacher had been thorough in the work, earnest and faithful.

Winter term taught by Nellie M. Cochran. The school orderly and prosperous; a teacher of experience and ability, not afraid

of work—consequently successful.

DISTRICT No. 14.—OIL MILLS.

EZRA T. MUDGETT, prudential committee. The first and second term taught by Angie R. Barrett. We felt some concern for this school at the opening of the summer term realizing the circumstances, the teacher being a resident of the district, young and inexperienced; but being naturally wide-awake, we are glad to say under her leadership the school went forward successfully.

Third term, by John R. B. Kelley. We cheerfully give the prudential committee the credit due him in his choice of a teacher for the winter term. This teacher was not a stranger to the work or place, having formerly engaged here as a teacher successfully. It is agreeable to know that his labor and service are appreciated. The school at this writing is in session.

DISTRICT No. 15.—FRIENDS.

Oscar Downing, prudential committee. Two terms, Eldene Osborne, teacher. We found here a quiet, orderly, industrious school with a faithful, competent, conscientious teacher. The results were in accordance with the circumstances—good progress and a profitable term.
