with the provisions of the Municipal Act (Chapter 33 of the NH RSA and amendments thereto) and to authorize the Selectmen to issue and negotiate such bonds and to determine the rate of interest thereon, and to take such actions as may be necessary to effect the issuance, negotiation, sale, and delivery of such bonds, as shall be in the best interest of the Town of Lincoln, and further, to authorize the Selectmen to apply, negotiate, and do all other things necessary to obtain such Federal, State, or other financial assistance in the form of grants or loans as may be available, and to pass any vote thereto.

48. To see if the Town will vote to adopt the following Drug Paraphernalia Ordinance:

Article 1
(Definitions)

The term “drug paraphernalia” means all equipment, products, and materials of any kind which are used, intended for use, or designed for use, in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance in violation of this Ordinance. It includes, but is not limited to:

- (1) Kits used, intended for use, or designed for use in planting, propagating, cultivating, growing or harvesting of any species of plant which is a controlled substance or from which a controlled substance can be derived;
- (2) Kits used, intended for use, or designed for use in manufacturing, compounding, converting, producing, processing, or preparing controlled substances;
- (3) Isomerization devices used, intended for use, or designed for use in increasing the potency of any species of plant which is a controlled substance;
- (4) Testing equipment used, intended for use, or designed for use in identifying or in analyzing the strength, effectiveness or purity of controlled substances;
- (5) Scales and balances used, intended for use, or designed for use in weighing or measuring controlled substances;

- (6) Diluents and adulterants, such as quinine hydrochloride, mannitol, mannite, dextrose and lactose, used, intended for use, or designed for use in cutting controlled substances;
- (7) Separation gins and sifters used, intended for use, or designed for use in removing twigs and seeds from, or in otherwise cleaning or refining marihuana;
- (8) Blenders, bowls, containers, spoons and mixing devices used, intended for use, or designed for use in compounding controlled substances;
- (9) Capsules, balloons, envelopes and other containers used, intended for use, or designed for use in packaging small quantities of controlled substances;
- (10) Containers and other objects used, intended for use, or designed for use in storing or concealing controlled substances;
- (11) Hypodermic syringes, needles and other objects used, intended for use, or designed for use in parenterally injected controlled substances into the human body;
- (12) Objects used, intended for use, or designed for use in ingesting, inhaling, or otherwise introducing marihuana, cocaine, hashish, or hashish oil into the human body, such as:
 - (a) Metal, wooden, acrylic, glass, stone, plastic, or ceramic pipes with or without screens, permanent screens, hashish heads, or punctured metal bowls;
 - (b) Water pipes;
 - (c) Carburetion tubes and devices;
 - (d) Smoking and carburetion masks;
 - (e) Roach clips: meaning objects used to hold burning material, such as a marihuana cigarette, that has become too small or too short to be held in the hand;
 - (f) Miniature cocaine spoons and cocaine vials;
 - (g) Chamber pipes;
 - (h) Carburetor pipes;
 - (i) Electric pipes;

- (j) Air-driven pipes;
- (k) Chillums;
- (l) Bongos;
- (m) Ice pipes or chillers;

In determining whether an object is drug paraphernalia, a court or other authority should consider, in addition to all other logically relevant factors, the following:

- (1) Statements by an owner or by anyone in control of the object concerning its use;
- (2) Prior convictions, if any, of an owner, or of anyone in control of the object, under any State or Federal law relating to any controlled substance;
- (3) The proximity of the object, in time and space, to a direct violation of this Ordinance;
- (4) The proximity of the object to controlled substances;
- (5) The existence of any residue of controlled substances on the object;
- (6) Direct or circumstantial evidence of the intent of an owner, or of anyone in control of the object, to deliver it to persons who he knows, or should reasonable know, intend to use the object to facilitate a violation of this Ordinance; the innocence of an owner, or of anyone in control of the object, as to a direct violation of this Ordinance should not prevent a finding that the object is intended for use, or designed for use as drug paraphernalia;
- (7) Instructions, oral or written, provided with the object concerning its use;
- (8) Descriptive materials accompanying the object which explain or depict its use;
- (9) National and local advertising concerning its use;
- (10) The manner in which the object is displayed for sale;
- (11) Whether the owner, or anyone in control of the object, is a legitimate supplier of like or related items to the

Article II

(Offenses and Penalties)

SECTION A (Possession of Drug Paraphernalia)

It is unlawful for any person to use, or to possess with intent to use, drug paraphernalia to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale or otherwise introduce into the human body a controlled substance in violation of this Ordinance. Any person who violates this section, upon conviction, shall be fined not more than \$100.00, no portion of which may be suspended.

SECTION B (Manufacture or Delivery of Drug Paraphernalia)

It is unlawful for any persons to deliver, possess, with intent to deliver, or manufacture with intent to deliver, drug paraphernalia, knowing, or under circumstances where one reasonably should know, that it will be used to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance, in violation of this Ordinance. Any person who violates this section, upon conviction, shall be fined not more than \$100.00, no portion of which may be suspended.

SECTION C (Delivery of Drug Paraphernalia to a Minor)

Any person 18 years of age or over who violates Section B by delivering drug paraphernalia to a person under 18 years of age who is a least 3 years his junior, upon conviction, shall be fined not more than \$100.00, no portion of which may be suspended.

SECTION D (Advertisement of Drug Paraphernalia)

It is unlawful for any person to place in any newspaper, magazine, handbill, or other publication any advertisement, knowing, or under circumstances where one reasonably should know, that the purpose of the advertisement, in whole or in part, is to promote the sale of objects designed or intended for use as drug paraphernalia. Any person who violates this section, upon conviction, shall be fined not more than \$100.00, no portion of which may be suspended.

Article III
(Civil Forfeiture)

All drug paraphernalia as defined above shall be, upon proof of a violation as set forth above, subject to civil seizure and forfeiture.

Article IV
(Severability)

If any provision of this Ordinance or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or application of the Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are severable.

49. Any other business that may legally come before the meeting.

REPORT OF THE LINCOLN POLICE DEPT.

During the past few years we have seen a rise in the crime rate in rural areas, Lincoln is no exception. But we are happy to report slightly fewer crimes than last year. The following statistics tell our story:

	1980	1979	1978
Investigations	381	211	187
Arrests	119	136	147
Motor Vehicle Summons	N/A	160	412
Motor Vehicle Warnings	234	214	238
Motor Vehicle Accidents	84	108	101
Incidents Reported	1,548	1,662	1,581
Door Checks—Unsecured Bldg's.	299	640	562
D.W.I. Arrests	24	32	—

Many will note the dramatic rise in the number of criminal investigations made this year versus last. This number is so high because of a new crime reporting system of the state which causes us to file our cases differently than in previous years. In actuality there appears no significant rise in this category. Data on the motor vehicle summons that were issued is not available at this writing as all court material has not been completely returned from the court as some are still pending trial. We are proud to report that the number of motor vehicle accidents that occurred in Lincoln during 1980 was way down from 1979, down about 22%. We must report one negative note though, of the 84 accidents, one involved a fatality. This was the first fatal accident in Lincoln in 4½ years.

During the year the department saw some changes in personnel. In April Patrolman Philip English resigned from the department to take a position with the Henniker NH Police Department. In May Lawrence Drew was promoted to Patrolman First Class to replace English. Also that month Clifton Dauphine was promoted to Patrolman First Class and given the duties of Auxiliary Supervisor. In late May Drew was given the duties of the department equipment officer and Jeffrey Mayhew was made the Training Officer. In late August Mayhew was moved to the position of full-time patrolman, filling the vacancy in the full-time officer roster.

In April Jeffrey Mayhew successfully completed a course in Criminalistics offered by the New Hampshire Police Standards and Training Council. In July Mayhew became one of the first 42 of the state's 1,500 part-time officers to be certified by the Police Training Council, after successfully completing a nine part equivalency examination. In October the Lincoln and Woodstock Police Departments jointly sponsored a training course for area Part-Time Officers to meet state training requirements. The course was the first of its type to be conducted in the state. After nine weeks in the classroom, 18 area part-time officers successfully passed the course.

In July the department received it's new police cruiser, a 1980 Ford L.T.D. The vehicle was specially equipped for use by Officer Larry Drew, who installed the lights, radio, siren system, etc. In looking at new cruisers, the department looked towards vehicles that would give better fuel economy. Also smaller engine size was considered. In addition to looking towards a smaller cruiser and fuel conservation, the department began a fuel conservation program of it's own. The result was less gas being eaten up by travelling less and by obtaining better gas mileage.

Throughout the year the department presented special programs to various classes at the area schools on the different functions of the police department. In the spring, in conjunction with the Woodstock Police Department, a bicycle safety and registration clinic was run. This fall the department began working with a group of concerned citizens and parents on the problem of drug use amongst children. A newsletter on ski theft prevention has been developed and we are in hopes of soon getting it printed and out on the street. A crime prevention program for homeowners is in the developmental process. On December 1st the first anniversary of OPERATION: Good Morning was celebrated. The program is a cooperative effort with the Communications Center to check daily on the elderly. The Forest Service recently donated a sign for the P.D. to be put on the street, showing where the station is located.

Again this year the department worked in cooperation with the U.S. Forest Service and the Loon Mountain Recreation Area/Village of Loon Mountain to provide special police services.

Also this year the department has worked out mutual assistance agreements with the Woodstock and Plymouth Police Departments should an emergency arise. These agreements allow for department officers to have full law enforcement powers during an emergency situation.

The police department would like to take this time to thank the members of our community, the town fathers, and all the rest who have helped us and made our job a little easier to perform. If at any time during the year you have a question or need help stop by or call us, we are most eager and happy to help whenever possible.

Respectfully submitted,
WALLACE J. PELTIER,
Chief of Police

REPORT OF THE LINCOLN FIRE DEPARTMENT

In 1980 we were called out a total of twenty-four times. The breakdown is as follows: seven chimney fires, six car fires, four structure fires, three grass fires, and four miscellaneous calls. This does not include fourteen calls responded to on Halloween night. All in all, however, we had relatively little dollar damage and certainly hope this trend continues.

Twice monthly we have training meetings during which we test our equipment, and do general maintenance and cleaning. During good weather we often go out for "hands-on" practice at different locations around town. For instance, last March an expert from Petrolane Gas Company came and instructed us on the proper techniques of fighting propane fires.

Last summer we held our second Fireman's Parade and Muster which was a big success. We feel that it is a great way to improve fire-fighting skills while having a good time competing against area firemen. At the same time we were able to raise money for the Kancamagus Recreation Area.

Currently we are trying to improve our communications, which at best are very poor. Our radios are only able to reach one or two miles and are very unreliable. We have set up a Radio Fund at Granite State Trust Company in order to purchase a new radio system. We held a raffle for this purpose and each of the firemen have pledged one-half of this year's pay as their contribution. Many people and businesses have donated to this cause and we are very grateful.

We would like to remind all those of you who heat with wood to use common sense and check your chimney often.

Respectfully submitted,

LINCOLN FIRE DEPARTMENT

REPORT OF THE COMMUNICATIONS CENTER

During 1980 we saw no major changes in the Communications Center, but again it's use by the public increased by leaps and bounds. The statistics tell the story:

	1980	1979	% Change
Radio Log Entries	42,566	37,316	+14%
Phone Calls	23,119	15,708	+47%
Ambulance Calls	162	156	+ 3%
CB Radio Calls	69	207	-66%
Fire Department Calls	32	7	+357%

You will note the reduction in the number of CB Radio calls. This is the second year we have seen this, and we attribute it to the end of the CB fad.

In March the voters in Woodstock, at their town meeting, voted to contribute funds to the operation of the Communication Center.

In the fall the Fire Department began a drive to raise funds for radio pagers, to help keep the dispatchers in closer touch with all the firemen. The new pagers can be incorporated into the existing paging system used by the ambulance service. Once in service the new pagers will allow for a faster and more efficient response of the fire department to the scene of a fire.

On December 1st our program, OPERATION: Good Morning, celebrated it's first anniversary. The program provides a daily check on area senior citizens who live alone. After several false alarms the system was put to a test. On December 31st no contact could be made with one of the ladies in the program. A police officer was dispatched to her house to check on her. On his arrival the officer found the lady lying on the floor in her home, unable to move after suffering a possible massive stroke. Medical personnel were quickly summoned to the scene and she was whisked off to the hospital. Without this program we wonder how long it might have been before this lady received help. All feel that was well worth the time put into it to be able to have helped just this one person.

If you ever have any questions about our services just give us a call. If you have any ideas of how we can better serve you, the members of our community, don't hesitate to call upon us. Thanks for your support throughout the year.

Respectfully submitted

**STATE OF NEW HAMPSHIRE
DEPARTMENT OF REVENUE ADMINISTRATION
TRANSMITTAL AND COMMENTARY LETTER**

Board of Selectmen
Town Office
Lincoln, New Hampshire 03251

Members of the Board:

We have examined the financial statements of the various funds and account groups of the Town of Lincoln for the year ended December 31, 1979 and have issued our report thereon dated May 22, 1980. As a part of our examination, we reviewed and tested the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements. Such study and evaluation disclosed the following conditions that we believe to be material weaknesses.

Inventory of Fixed Assets:

As is the practice with many New Hampshire municipalities, the Town has not maintained a record of its fixed assets. In order to adequately maintain control of its existing fixed assets, we recommend the Town conduct an inventory of these assets as soon as is practical. As part of their long-term policies, Town officials should initiate fixed asset records. Cost or consideration given is the generally accepted method for valuing fixed assets, and should be recorded on all new acquisitions. Where adequate documentation of cost is unavailable for existing fixed assets, an estimate of original cost is an acceptable standard under accounting principals for governmental entities. The existance of fixed asset records will not only aid Town officials in their control of these assets, but should be an invaluable tool in long range planning.

Mailing of Vendor Checks:

Vendor checks are currently mailed out by the same individual who prepares the checks. To strengthen this aspect of internal control, we recommend that the individual preparing vendor checks submit to the Treasurer not only the checks but also pre-addressed envelopes for the Treasurer to mail.

Mutilation of Paid Invoices:

Our tests disclosed that paid vendor invoices did not bear any distinguishing marks that indicated the invoice was paid. It is recommended that all invoices be effectively cancelled upon payment to avoid the possibility of duplicate payment.

Incompatibility of Offices:

Under RSA 41:4 "No person shall at the same time hold any two of the following offices: selectmen, treasurer, collector of taxes, auditor and highway agent . . ." We are aware that tax collector also serves as administrative assistant to the selectmen performing many of their functions in their behalf for several years. We believe that this is not only a violation of RSA 41:4 but serves to weaken internal controls in the area of taxes. Under sound business practices, no one person should have access to tax assessment records and be able to record collection of these taxes. Our comment in no way is intended to cast any dispersions over the work of the current tax collector/administrative assistant. Our examination did not disclose any problem in this regard. However, generally accepted auditing standards require us to disclose such deviation from legal requirements and weaknesses in internal control such as this. Therefore, we suggest that the selectmen consider steps to bring town operations into compliance with state statutes.

Other:

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived

and also recognizes that the evaluation of these factors necessarily requires estimates and judgment by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management with respect either to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the Town's system of internal accounting control for the year ended December 31, 1979, which was set forth in the first paragraph, would not necessarily disclose all weaknesses in the system.

It should be noted that a letter of this type is critical in nature and that we do not intend to imply that our review failed to disclose commendable features in the present accounting and operating procedures of the Town.

Publication Requirements:

The provisions of RSA 71-A:21 require that only this letter be published in the next annual Town Report.

However, we suggest that you consider the publication of the entire report which includes auditor's opinion, financial statements and notes to financial statements. No portion of either the auditor's opinion, financial statements or notes to financial statements may be published separately.

We extend our thanks to the officials and employees of the Town of Lincoln for their assistance during the course of our audit.
