Board of Selectmen
Town of Sharon, New Hampshire

We have examined the financial statements of the various funds and account groups of the Town of Sharon, New Hampshire, for the year ended December 31, 1986, and have issued our report dated February 10, 1987. As part of our examination, we made a study and evaluation of the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such an evaluation is to establish a basis for reliance on the system of internal accounting control in determining the nature, timing, and extent of auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed derived benefits and that evaluation of these factors necessarily requires estimates and judgments.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally with respect to the estimates and judgments required in the preparation of the financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study of the system of internal accounting control for the year ending December 31, 1986, would not necessarily disclose all weaknesses in the system because it was based on selective tests of accounting records and related data. The study and evaluation disclosed no conditions which we consider to be material weaknesses.

Very truly yours,

Carey, Vachon & Clukay, PC

SELECTMEN'S REPORT

We are pleased to announce that the Schoolhouse trim has been painted by a Sharon resident, John Miner. He also repainted all the cemetery gates. A job well done.

The Town has been left the sum of \$25,000.00 in the will of Lenna Perry. The only stipuation is that only the interest be spent as the Town votes. It is expected that the money will be received by the Summer.

The Selectmen have been in touch with the attorneys concerned with the Henry Lord Scholarship Trust. There has been no news on the final formula for distribution of funds.

The Conservation Commission has been revived in response to a threat of a potential problem. They have been given the care of the Town Forest and its recently received management plan.

The Selectmen endorse a plan by the Conservation Commission to acquire an 80 acre parcel on the southern border of the Town Forest. The owner will settle for a partial cash payment and will treat the balance as a donation. The Town Forest Fund can easily afford the cash portion of the acquisition. Essentially what would be spent is the accumulated interest since the fund was established in 1975.

The Selectmen ask the support of the Town for increases in the pay for some of the Town Officers. We are finding that more and more time is required as the Town and area continues to grow.

We would like to see the abolishment of the Resident Tax. It is a tax which time has passed by, especially in Sharon. Only \$1,200.00 is collected. This comes about after sorting the inventories, compiling the list, going to the computer service for list changes and tax bills, buying postage and sending out the bills. Even then the list is not correct. Some of the nearby Towns have given serious thought to doing the same. We sure would not be sorry to see the end of it.

We would like to thank the residents of the Town of Sharon for their help and, at times patience. We will give the best management possible.

Respectfully submitted,
George W. Walsh, Chairman
Henry J. Huber
John W. Derby
Selectmen of Sharon

REPORT OF THE HIGHWAY AGENT

The 1986 Winter season started on November 5, 1985 and ended on March 15, 1986. The season had 32 storms which totaled 85 inches. They all required plowing and sanding. The Town uses only sand. No chemicals are used to combat ice.

The major Summer work was done on Spring Hill Rd. It consisted of cleaning ditches and hot topping bad sections.

Gravel was put on Mountain Road, South Road and Swamp Road. These roads were also raked and graded. Brush was cut as well.

The work for the coming year will include removing many dead trees. Some culverts will be cleaned.

Some of the black-top roads will be sealed with liquid asphalt.

We will have to make some improvements on the South end of Cross Road as a new business on that road has created more traffic.

The cemeteries are in fairly good condition due to continuous mowing and brush cutting.

I wish to thank the citizens of Sharon for their cooperation in 1986.

Respectfully submitted,
Walter B. Somero
Highway Agent
