THE STATE OF NEW HAMPSHIRE

THE POLLS WILL BE OPEN FROM 9:00 A.M. to 6:00 P.M.

To the Inhabitants of the Town of Lincoln in the County of Grafton in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Lin-Wood High School in said Lincoln on Tuesday, the ninth day of March, next at 9:00 of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
3. To see if the Town will vote to raise and appropriate the sum of \$200,000 for the purpose of improving and enlarging the municipal water system, including all related facilities, and including acquisition by negotiated purchase or by eminent domain, of such lands, easements, and rights of way as may be required to implement said purpose, and further to authorize the appropriation of said sum by the issuance of serial bonds or notes, under and in compliance with the provisions of the Municipal Finance Act (RSA Chapter 33, and as amended), and to further authorize the Selectmen to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such action as may be necessary to effectuate the issuance, negotiation, sale, and delivery of such bonds, as shall be in the best interest of the Town, and to take such other and further action as may be necessary to implement said vote.
4. **TOWN OF LINCOLN BY-LAW
RELATIVE TO WATER TAP FEES**

— — — — —

NOW COMES the TOWN OF LINCOLN, by its Selectmen, in accordance with authority granted by Town Meeting held on March 9, 1982, by affirmative Vote of Article 4 and set forth the following By-Law relative to water tap fees:

I. PURPOSE

The purpose of the water tap fee is to defray the cost of construction, principal and interest payments on any debt incurred, management, maintenance, operation and repair of the Town's water system.

All new construction requiring the use of water from the Town's water system shall be required to pay an initial one time tap fee, which shall thereafter entitle the user to tap into the water system. Any change of use of existing structures shall be considered new construction under this by-law.

II. POINT SYSTEM

A point system will be used to try to make the tap fee proportional to the anticipated consumption of water. The dollar charge per point shall be set forth in Exhibit A, attached hereto and made a part hereof. The Selectmen shall assess points in accordance with the anticipated

consumption of each user. A minimum number of 6 points shall be assessed in each case.

Except in unusual circumstances the following guidelines shall be used in assessing points:

1. For Restaurants, the total seating capacity shall be multiplied by .5 and for Bars, the total seating capacity shall be multiplied by .25 to determine the points to be assessed. Provided, however, in the event the Restaurant or Bar utilizes disposable paper products rather than washable dishware, glassware, the number of assessed points shall be reduced by three-fifths.
2. .75 points for each room and each bath of a Motel, Inn, Lodge, or Ski Lodge, Ski Club.
3. At campsites providing hook-up for recreational vehicles and/or travel trailers, each such hook-up shall be multiplied by .5 to determine the points to be assessed.
4. Additional sinks not included in baths or kitchens, .25 points each.
5. Commercial ice makers, 1 point each.
6. Water fountains, water coolers, or water bubblers, .25 points each.
7. A half-bath consisting of one wash basin, and one toilet, 1.5 points each.
8. Each extra toilet or urinal in a half-bath area, an additional .75 points.
9. A single shower or a single tub, 1.5 points.
10. Full baths, which include a shower or tub, a wash basin, and a toilet, 3 points.
11. If a wash basin is located in a room directly adjacent to a shower, a tub, or a toilet, they shall be considered a full bath and shall be assessed three points.
12. Kitchens, 2.5 points.
13. Commercial laundries, 4 points per washer.

14. Residential laundry rough-ins, .5 points each.
15. Outside water taps, or spigots, 1 point each. All residences or commercial establishments shall be assessed for at least one outside water tap or spigot, even though there may in fact, be none present on the outside of the building.
16. Swimming pools, 10 points each.
17. Commercial car washing facilities, 20 points.
18. Fire extinguishing systems, such as wet stand pipes, dry stand pipes, and sprinklers shall not be assessed at all, whether located in residential or commercial establishments.
19. Take-out type restaurants, 12 points.
20. Jacuzzis and hot tubs in a commercial establishment will each be assessed 6 points. Jacuzzis and hot tubs in a residential establishment shall be assessed 2 points each.

III. PROCEDURE, INSPECTION AND ADJUSTMENT

Each owner must apply for and make advance payment of the water tap fee to the Selectmen before the Town will permit the owner to tap onto the Town Water System.

Once the owner has completed construction, or conversion resulting in a change of use the Town shall cause a physical inspection of the premises to be performed to determine the number of points to be assessed according to the provision of Article II above. Adjustment in the prepaid water tap fee shall be made at that time and in the event the points assessed result in a fee greater than the sum paid in advance, the property owner shall be responsible for paying such additional tap fee resulting from the Town's inspection of his premises.

Once the adjustments have been made to the original tap fee, even if the owner subsequently alters his property hereby theoretically reducing the number of points assessed at the time of the original hook-up, the Town shall not be responsible for any refund for the original tap fee paid by the owner or by his predecessor in title.

IV. PENALTIES AND REMEDIES FOR NON-PAYMENT OF FEES

In the event an owner fails or refuses to pay the water tap fee, such

unpaid charges shall result in a lien on the subject property in accordance with State Law. Interest at the rate of 1½% per month computed monthly (18% per year), shall be charged on all unpaid fees, and the owner shall be responsible for all costs of collection including reasonable attorney's fees.

**EXHIBIT A
RATE SCHEDULE**

This tap fee will apply to all physical hook-ups, presold or not, in the Town of Lincoln, New Hampshire, after April 1, 1982 at a rate of \$50.00 per point.

REPORT OF THE LINCOLN POLICE DEPT.

Another year has passed, and again it is time to report to the people on the activities of their police department. It was another progressive year for the department, with changes in faces, procedures, and practices. Here are some highlights of 1981.

In March the voters o.k.'ed funding for a fifth full time officer to provide security at the Village of Loon Mountain, and at Loon Mountain Recreation Area. This request came in light of an increase in the number of burglaries taking place at these areas, and because of the high value of these properties. By mid-April a candidate for the position had been located and hired, that being David Moser. Dave comes to us from the security department at Bretton Woods Ski Area. Since this full-time patrol has been instituted the number of burglaries has dropped significantly.

In other personnel matters, Jeff Mayhew resigned his full-time position in mid-August to assume a position with the U.S. Postal Service. He has remained with the department in a part-time status. Jeff was replaced by John Doveas. John previously served with the Margate Florida Police Department. His background and experience in law enforcement is very strong, and he has proved to be a big asset to the department. In looking for a candidate for this position we looked at people that were already academy certified, as the cost of training an officer at the NH Police Academy is about \$4,000.

Two of our officers attended Part-Time Officer Certification Programs. Rocky Jones attended one program last spring that was sponsored by State Police Troop F. He successfully completed the program and was certified by the State as a part-time officer. This fall our department sponsored one of these programs. Dave Moser attended and passed with flying colors. Clif Dauphine attended this course as a refresher for the one he attended last year. We offered this program on a regional basis, and had officers from Orford, Piermont, Plymouth, Thornton, Franconia, Littleton, and Woodstock attending. The program was under the direction of Jeff Mayhew, who is an instructor for the NH Police Training Council.

During the year we continued to work with parents and the schools on the problem of drug and alcohol abuse. At the time the Drug

Paraphernalia Ban was passed at our last Town Meeting, the Town of Lincoln was one of only a handful of towns in the State, and the nation for that matter, to pass such an ordinance. Since, similar laws have been passed by our State Legislature, and also by the States of Maine and Massachusetts.

While speaking of town ordinances, the police department is in support of the passage of both public drinking and loitering ordinances. These are needed to help rid the town of the large boisterous beer parties that have taken place on the streets.

Again this year the department was involved with the bicycle registration program, the annual Calendar Fund Raiser, Operation: Good Morning, and a Security Check Program.

This year the number of accidents that we investigated was down from last year. For the second year in a row, we are sorry that we must report that one of these accidents involved a fatality. We were hoping to break our previous period for fatality free accidents, that being 4½ years.

During our nightly door and window checks of the area businesses, our department found unsecure buildings 590 times, up about 97% from last year. Our nightly checks include some 63 businesses and building.

Other statistics from the past year are as follows:

	1981	1980	1979
Investigations	382	381	211
Arrests or Cleared Cases	126	163	136
Motor Vehicle Summons	227	187	160
Motor Vehicle Warnings	332	234	214
Accidents Investigated	81	84	108
Incidents/Complaints	1,631	1,548	1,662
Door Checks-Unsecure Bldg's.	590	299	640
DWI Arrests	18	24	32
No. Persons Jailed	46	60	54

This year was the 11th year in which the department and the U.S. Forest Service, working under a cooperative agreement with the U.S. Dept. of Agriculture, provided police protection in the White Mountain National Forest. A little known fact has been brought to light this year, that being when Congress passed the law relating to cooperative

law enforcement agreements the Town of Lincoln was the first place in the country to benefit from it.

The department extends its thanks to the members of the community, the Selectmen, and all others who have supported us throughout the past year. We look forward to the coming year and are most eager to help whenever possible.

Respectfully submitted,
WALLACE J. PELTIER
Chief of Police

**STATE OF NEW HAMPSHIRE
DEPARTMENT OF REVENUE ADMINISTRATION
TRANSMITTAL AND COMMENTARY LETTER**

Board of Selectmen
Town Office
Lincoln, New Hampshire 03251

Members of the Board:

We have examined the financial statements of the various funds and account groups of the Town of Lincoln for the year ended December 31, 1980 and have issued our report thereon dated January 15, 1981. As a part of our examination, we reviewed and tested the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements. Such study and evaluation disclosed the following conditions that we believe to be material weaknesses.

Internal Control

Internal controls over virtually all accounting areas are weak. The majority of these weaknesses are caused by the lack of separation of incompatible accounting duties due to the small number of individuals involved in the accounting function. Without the expansion of the accounting department, such separation of duties is not possible.

Mailing of Vendor Checks

Vendor checks are currently mailed out by the same individual who prepares the checks. To strengthen internal control at no additional expense, we recommend that the individual preparing vendor checks submit to the Treasurer not only the checks but also pre-addressed envelopes to the Treasurer and that the Treasurer mail all checks.

Cancellation of Paid Invoices

Our tests disclosed that paid vendor invoices did not bear any distinguishing marks that indicated the invoice was paid. It is recom-

mended that all invoices be effectively cancelled upon payment to avoid the possibility of duplicate payment.

Other

The objective of internal accounting control is to provide reasonable, but not absolute, assurance as to the safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a system of internal accounting control should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgment by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management with respect either to the execution and recording of transactions or with respect to the estimates and judgments required in the preparation of financial statements. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the Town's system of internal accounting control for the year ended December 31, 1980, which was set forth in the first paragraph, would not necessarily disclose all weaknesses in the system.

Several other areas while not material weaknesses in internal accounting control, merit your attention.

Inventory of Fixed Assets

As is the practice with many New Hampshire municipalities, the Town has not maintained a record of its fixed assets. In order to adequately maintain control of its existing fixed assets, we recom-

mend the Town conduct an inventory of these assets as soon as is practical. As part of their long-term policies, Town officials should initiate fixed asset records. Cost or consideration given is the generally accepted method for valuing fixed assets, and should be recorded on all new acquisitions. Where adequate documentation of cost is unavailable for existing fixed assets, an estimate of original cost is an acceptable standard under accounting principles for governmental entities.

Adequate guidelines for distinguishing between capital additions and "expense" type items should be established. The existence of fixed asset records will not only aid Town officials in their control of these assets, but should be an invaluable tool in long-range planning.

District Court

Our tests disclosed that payments to the Department of Safety and to the Treasurer, State of New Hampshire are not always being made on a timely basis.

Under R.S.A. 262:35 "all fees, fines and forfeitures received by any person under the provisions of any laws of the state relative to the use and operation of motor vehicles, shall be paid to the director within 7 days after the receipt there of, . . ."

Under Chapter 523, Laws of 1977, all penalty assessments collected during the month will be paid to the Treasurer, State of New Hampshire no later than 15 days after the close of that month.

In addition, all invoices should be approved by the District Judge before payments are made.

Capital Projects Fund

As described in Note 9 to the financial statements, the Town appropriated \$280,000 to conduct a sewer system evaluation study and to prepare plans and specifications on sewerage and sewerage treatment. The accounting for financial resources to be used for this project should be reflected in a capital projects fund. We also recommend that the Town record in a separate fixed asset record all phase I design and study costs already incurred and all future costs.

Overdraft of Appropriations

The Municipal Budget Act requires that the Selectmen follow certain procedures detailed in New Hampshire R.S.A. 32:10. The Town did not observe these procedures in connection with a \$38,937 overdraft further described in Note 8 to the financial statements. We strongly urge that the Budget Committee and the Selectmen jointly adopt controls that will identify overdrafts on a timely basis and insure legal compliance.

Publication Requirement

The provisions of R.S.A. 71-A:21 require that this letter be published in the next annual Town report.

However, we suggest that you consider the publication of the entire report which includes auditor's opinion, financial statements and notes to financial statements. No portion of either the auditor's opinion, financial statements or notes to financial statements may be published separately.

We extend our thanks to the officials and employees of the Town of Lincoln for their assistance during the course of our audit.
