REPORT OF FIREWARDS.

We feel thankful that for the year ending Feb. 15, 1902, we have only two fire alarms to report.

Feb. 25, 1901, alarm sounded for chimney fire at James N. McLane's, damage small. This being before our appointment as firewards we have no report to make.

Sept. 9, alarm was sounded and engine taken to near the house of Eliphalet Richards to protect buildings in that vicinity for a brush fire on land known as Whipple lot and owned by Read Brothers, but its services were not needed. The large number of persons at the fire rendered good service and the fire was soon placed under control, although it had to be watched for a few days.

Respectfully submitted,
FRANK E. FARLEY,
CHARLES F. MARDEN,
Firewards.

REPORT OF TRUSTEES OF THE NEW
BOSTON CEMETERY,
FEB. 15, 1902.

We submit herewith the superintendent's report to us, showing in detail the interments and removals in the cemetery for the past twelve months, and, while we have, in years past, felt constrained to call attention to the general exemption from death that our Heavenly Father has kindly vouchsafed to us, certainly this report calls for renewed thanksgiving to Him for His providential care and thought of us. Considering that the outside burial places have, to so large an extent, been abandoned for the cemetery of the town, the annual report of this cemetery covers practically the mortality of the town; and it is worthy of attention, that, with a census of a thousand or more, such an exceedingly low percentage of deaths can be reported. The list contains those who saw for a brief time the faces of loved ones; those in the maturity of years and usefulness; those who had lived long and waited their summons; and those who, in the strength of manhood and womanhood, had gone to other places to fill up life's measure, and in death had been tenderly brought to the home of their childhood; "gathered with their fathers," and all to rest in our beautiful hillside cemetery.

We have few suggestions to offer. The cemetery has had good care from the superintendent; the fallen leaves were gathered early; the grass was mown in season; the lots and lawns that were his especial care on account of funds left in our hands, have received proper attention; and we thank the many who have attended to their own family lots. May we once more urge a more general interest in the cemetery, and suggest that

the resolve be made by many that before another Decoration day they will, in spite of pressure of work at their homes and farms, devote one day in caring for their own family lot, and bestow a little care beside on those lots which have received all the members of the family for whom they were designed, and no one left to have an especial care and thought of them.

HENRY KELSO,
School Board of New Boston.

Report of School Board.

During the past year we have maintained 30 weeks of school in Nos. 2, 4, 5, 6, 13 and 16, also in the primary and grammar schools, while the high school has had its usual year of 33 weeks. No. 3 had a winter term only, its scholars being provided elsewhere during the remainder of the year. We believe the average quality of our teachers has been unusually good, and our schools were never in better working condition than now.

We have found a very serious drawback to their usefulness, however, in the irregular attendance of the scholars. There are some sections where this is especially demoralizing. Parents do not realize the damage to our schools and the loss inflicted on the individual scholars by poor attendance.

We earnestly ask you to consider this and in the coming year see to it that your children are never absent from school unless it is really necessary.

We also urge parents to visit schools, make yourselves acquainted with your teachers, come to them and to us freely with anything which you feel ought to be changed. We all desire to improve our schools, but the teachers and the school board cannot do it all. We must have your interest and your loyal co-operation. Every parent and citizen can help us in this work, so important to us all.

We have adopted Cyr's Reader in place of the old Harper's and Montgomery's History in place of Barnes's, changes which seemed to us necessary.

Our school buildings are a credit to us and without exception are suitable for their purpose. To make

needed repairs in painting and shingling we ask for an appropriation of \$150.

The school in No. 2 should have a well. One half the insurance on the village school house expires in a short time and should be renewed. We ask appropriations for both these objects. To maintain our schools at their present standard will require in our judgment an appropriation of \$200 above the amount required by law.
