**INTER-LAKES DAY CARE CENTER
AND NURSERY SCHOOL**

REPORT TO THE TOWNS

During the last twelve months the Inter-Lakes Day Care Center and Nursery School served one hundred sixty one children from Lakes Region families. Operating on a year-round basis from 6:30 a.m. to 5:30 p.m., the Center has made it possible for the parents of one hundred thirty-six children to maintain employment. As a private, non-profit agency under the guidance of a capable Board of Directors, the Center operates a pre-school program for comprehensive child behavior and development. This encompasses a full range of services including education, health care, vision and hearing screening, immunizations, dental care, nutrition, and information/referral. As a participant in the New Hampshire Special Food Service Program, hot lunch, breakfast, and nutritious snacks are served daily.

The primary concern of the Inter-Lakes Day Care Center is to provide a home-like, educational environment for children of working parents. We also offer a nursery school program, a special needs program, and an after school program for elementary school children.

The total budget of the Inter-Lakes Day Care Center is \$106,362.03. Of this we will be receiving \$42,373.76 in tuition paid by parents, \$14,803.10 from N.H. Special Food Service Program, and \$3,016.00 from CETA. This also includes the following: \$41,989.00 in Federal money of which \$21,502.36 is Title XX, \$12,462.45 from Aid to Families with Dependent Children, and \$8,024.32 which must be obtained in local funding in order to receive the Federal amount. The money we receive from the towns that we serve is matched three times.

Area residents are always invited to visit the Inter-Lakes Day Care Center and Nursery School at 11 Lang Street in Meredith.

REPORT OF THE PLANNING BOARD Town of Centre Harbor

During 1978 the development pressures begun the previous year continued. The Board had a total of 13 subdivision applications that it approved as well as discussions with landowners or their representatives concerning future subdivisions. The steady growth of the town and the pressures on land suitable for subdivision makes us recognize the importance of long-range planning. We have taken the first steps toward bringing the master plan for Centre Harbor up to date, but most of the work is still ahead of us. As a result of the Supreme Court decision in a case involving the town of Raymond, it is clear that without a master plan that reflects the current situation, attempts to regulate growth are likely to be overturned by the courts. It is our anticipation that we shall make additional progress on this matter in 1979. Aiding us in this effort will be a grant of \$2000.00 from the Arwood Foundation to be used in revising our master plan. The Board is most grateful to Rawson Wood for his assistance in this.

During the autumn, the Board received from the Conservation Commission a wetlands ordinance that the Commission recommended become a part of the Town zoning ordinance. After consideration of its merits, the Board is recommending that the Town adopt this ordinance in order to protect wetland areas from development and/or contamination. We have worked with both the Conservation Commission and the Lakes Region Planning Commission and we believe that now is the proper time to act on this. We hope voters will review the ordinance and the accompanying map which indicates the areas to be protected.

Another recommended change in the zoning ordinance is the deletion of the section permitting mobile home parks. This deletion will in no way effect the use of mobile or modular homes on ordinary house lots, for they will be treated as any other residence as long as the subdivision regulations are followed. Our reason for eliminating the mobile home park section is to keep the overall density of the town as low as possible. A mobile home park normally increases the number of residential units per acre.

After considerable discussion, the Board has decided to recommend a site plan review procedure for all non-residential subdivisions. This will become a part of our subdivision regulations. Such a plan will enable the Board to review the location of roads and structures, landscaping, lighting, and other pertinent items so that new non-residential subdivisions will be in keeping with general town standards. The Board thereby hopes to avoid developments that might create traffic problems, that have aesthetically poor design, and that might do other damage to the Town. Any comments or suggestions will be welcome.

The Planning Board lost two valued members during the year. Chairman Carl Marshall resigned in the fall. He has served many years and he will be missed. The

other member who left at the expiration of his term was William Montgomery. He had done considerable work for the Board in drawing up procedures and standards for us to follow. His eye for detail was an important contribution to our work. We wish both well and thank them for their diligence and hard work on behalf of the Town.

During 1979 we anticipate additional applications for subdivision, especially in West Centre Harbor, the area of town growing most rapidly. The former Belknap College property in the downtown section of Town will probably begin to be developed also. Because of this anticipated growth, the Planning Board will seek ways to plan the future of the Town so that we can be ready to comprehend how best to deal with the pressures of growth.

We solicit your ideas and suggestions and invite you to attend any of our meetings which are scheduled on the first and third Tuesdays of each month.

Respectfully submitted,

William L. Taylor, Chairman

LAKES REGION PLANNING COMMISSION

Centre Harbor

The Lakes Region Planning Commission is pleased to submit the following for inclusion in your 1978 Town Report. This Memo outlines the general accomplishments, the multi-municipal programs, and the specific services provided to Centre Harbor by the Lakes Region Planning Commission during 1978.

General Accomplishments

Major accomplishments this year include a continued effort in technical assistance provided to member communities and the completion of the Regional Land Use and Housing Elements which were approved by appropriate State and Federal agencies. The Planning Commission has worked hard and conscientiously to meet all of the requirements relating to these two documents.

Other notable accomplishments of the Commission include: the approval of the Overall Economic Development Program designating Belknap County and portions of Grafton and Carroll counties as a Redevelopment Area, which establishes eligibility for funding under the Public Works and Economic Development Act. Also, significant progress has been made in completing the colored environmental inventory mapping to be provided to each municipal Planning Board. This has been possible through utilization of CETA personnel.

Citizen participation, through committees, meetings, hearings, radio and the local newspaper media, has continued to be a strong point in the total LRPC Program, particularly in the development of the Land Use Plan and the 208 Water Quality Management Plan. The Transportation Element was satisfactorily completed, producing the report "Public Transportation, Transportation Alternatives for the Rural Area of the Lakes Region". This final document is also accompanied by a summary report.

The Regional Housing Element was completed in early May. A report "Housing Element - Lakes Region Housing Needs Study", was finalized for distribution to all communities within the planning region and includes the Regional Housing Allocation Plan on a town-by-town basis.

Multi-Municipal Programs

The Commission has presented the completed Regional Land Use Plan, as well as the 208 Water Quality Management Plan to Selectmen, Planning Boards, other community officials and interested public at regional, sub-regional and individual town meetings throughout the year. These personal public contacts and communications have aided further in strengthening the relationship between local government, the general public and the Commission.

It is encouraging to note the local support for these planning programs and a real indication of implementation at the local level.

The Lakes Region Planning Commission has continued, throughout the year, to develop informational meetings, programs with subject matter pertinent to the concerns of local elected officials and the citizenry, and has scheduled sub-regional workshops relating to the Commission's work program. Through these meetings the Commission has encouraged the views of diverse groups and has made all attempts to incorporate their input and participation into the overall regional planning program.

Special programs have been provided to the total Commission membership, Selectmen, Planning Boards, Conservation Commissions, Legislators and interested citizens. The following programs of general interest and concern have been held:

February -- Community Development Block Grant Program

To provide local community officials the opportunity to ask questions and seek information concerning their community's eligibility to apply for funding under the HUD program.

March -- Functions of the New Hampshire Water Supply and Pollution Control Commission

To provide answers to questions community officials may have regarding the purpose and direction of the NHWSPCC in the areas of subsurface disposal, subdivision approval, municipal sewer projects, and marine discharge regulations.

April -- Lakes Region Community Design at Rural Scale

A program designed to look at problems of growth, economic changes and minor community deterioration. Also, a discussion of essential elements to include in a revitalization program, sign recommendations and architectural treatment.

April -- Five-Year Plan of the New Hampshire Department of Public Works and Highways

To provide information to the towns regarding highway projects under consideration, in planning and scheduled for construction.

May -- Cluster Development, Subdivisions and Zoning

A discussion of the principal advantages of cluster development, arrangement of dwellings, lot size, subdivision and zoning requirements. Also, questions and answers regarding density, open space, town facilities (sewer and water), streets and taxes.

June -- Current Use Assessment and Conservation Easement

A program providing discussion relative to land ownership under current use assessment, a means of providing open space, conservation easements and the economic impact of subdivisions versus the impact of utilizing current use assessment. Also discussed were land ownership rights and the conservation agreement.

September -- November -- The Third Annual Municipal Law Lecture Series

A series of six lectures on planning law for community officials, sponsored by the Municipal Training Consortium and hosted by the Commission.

October -- Winter Road Maintenance Seminar

A part of the Commission's efforts to promote the implementation of road salt use recommendations contained in the 208 Water Quality Management Plan.

In addition to these presentations, other presentations have been made by the Commission to the following groups:

Inter-Lakes Elementary School
Tilton-Northfield Chamber of Commerce
Lakes Region Chapter of the Audubon Society
Carroll County Soil Conservation Service
UNH Environmental Resource Class
Gilford Middle School
Winnisquam Middle School

Specific Services Provided to Centre Harbor

Annual Report

The Meredith Area Center has continued to provide comprehensive services to the Meredith Community during 1978. We have grown from an outreach office to an Area Center allowing for programs to be directed at the Meredith location with more full time staff available to residents on a continuing basis. We are continually revising our programs to meet the needs of our low income & elderly families.

Information & Referral

A service which is available to all, Information & Referral provides information on social services, employment, child care, consumer education, health, nutrition and housing. When appropriate, referrals are made to other agencies who can provide direct help in meeting specific needs. We have serviced 192 individual people this year. Not recorded are many more who have taken advantage of this area of service.

Emergency Energy Assistance Program (E.E.A.P.)

This was a program designed to aid families who were unable to keep up with the high cost of energy during the winter of 1977-78. It provided up to \$250.00 per family for payment of fuel bills, obtaining fuel or providing food & clothing for those whose money was spent for the high cost of energy. We were able to assist 92 households through this program.

Weatherization

Our weatherization program this year provided aluminum storm windows & doors to eligible families. We also continued to provide plastic, insulation & weatherstripping when needed, and application of the (HELP) Help for Elderly and Low Income Persons Fuel Loan Program. A close relationship continues with the New Hampshire Housing Commission providing access to benefit of Section 8 Housing Assistance.

Food Coop

The food coop enjoys continued success with the membership growing and a variety of foods available to suit the needs of the individual families. Volunteers play a major role in the success of this program which realized an average weekly gross of \$700.00.

Family Planning

Continued outreach and group education programs have proved successful in enrolling 27 women in the Family Planning Program. In addition to medical care, patients may request VD tests, pregnancy tests, counseling and educational services, all free of charge. Appointments are made at the Family Planning Office at the Community Action Program Center in Laconia.

Operation Green Thumb

Vegetable seed, tomato plants, seed potatoes & fertilizer were distributed to eligible Meredith families in the spring. On donated land Community Action Program employees & volunteers planted two gardens and distributed the produce among senior citizens and needy families.

Elderly Nutrition Program

Besides Meals on Wheels and Congregate Meals, the Elderly Nutrition Program also provides Senior Citizens with Information & Referral, Counseling, Escort Service, Shopping assistance, Nutrition Education and Recreation. The staff is available for field trips and transportation of Congregate clients from their homes to the meal site.

Rural Transportation Service

The Belknap County Rural Transportation Service is designed to help senior citizens and low income persons in need of transportation to medical & dental appointments, shopping, senior citizen activities, and various other errands. One day each week the Rural Transportation Service Bus provides round-trip service from Meredith to Laconia with stops wherever riders request.

REPORT OF DISTRICT FOREST FIRE CHIEF and YOUR FOREST FIRE WARDEN

For more than 80 years, a cooperative effort between the State of New Hampshire and local forest fire authorities has created a forest fire prevention and suppression program that is recognized as superior throughout the United States.

Since the first forest fire laws were written in 1895, the state and local community governments have worked together to prevent and combat forest fires.

Today, 249 forest fire wardens and more than 1,800 deputy wardens are appointed every three years by the State Forester to work with the members of the State Forest Fire staff in this effort. State funds are used to pay one-half the cost of forest fire suppression costs incurred by local forest fire organizations, within pay rates established by the Governor and Council. State funds matched by local funds are used to purchase hand tools to suppress forest fires, to train local forest fire crews and in forest fire prevention work.

All outside burning, when the ground is not covered with snow, is permitted only after obtaining a written fire permit from your local Forest Fire Warden. Penalty for burning without a permit when one is required is a misdemeanor punishable by a fine up to \$1,000 or a jail term of up to one year or both.

REMEMBER, ONLY YOU CAN PREVENT FOREST FIRES!

TOWN HISTORIAN'S REPORT

With the help of the Town and many individuals, the project by the Centre Harbor Historical Society in the restoration of the old Village School is progressing well. Some necessary foundation repair work was done and a Fire and Burglar Alarm System has been installed. Hot water pipes and radiators were removed in their entirety and hopefully an old Box stove may be obtained. Old plaster was removed from all four walls in the portion annexed in early 1900 for the first four grades; this room was later enlarged. The ceiling was whitened and new walls of plaster board installed and painted in Williamsburg colors; work on the floor will be completed soon. A new sign graces the front exterior of the building.

Tables and chairs were donated by the Centre Harbor Fire Department and Garnet Hill Grange. The Society purchased three showcases and another was donated. Many articles have been donated which have special interest to all. It is the earnest desire to complete necessary work as soon as possible so that the building may be open at various times to the public. Presenting a challenge is the work to be done in the large room, originally built for the "One-Room" Schoolhouse in 1886, where for many years all eight grades were taught.

The purpose of the Society is the collection and preservation of objects of historical interest to the Town as well as engaging or participating in projects designed to preserve or improve the Town's historical image.

June 25, 1978

The ceremony of Dedicating the Traditional Indian Burial Ground, located on Old Meredith Road, was held on June 25, 1978. The road, laid out during the stage coach era, was a very narrow cart path. The legend of this Traditional Indian Burial Ground has been echoed down through the generations. An attempt was made to widen the road and several Indian bodies were found, placed in tiers, one group above another, as was the custom. Stones were placed above the graves, possibly to prevent animals from exhuming the bodies, thus forming a mound. A field stone was placed on the site, which remains there today, and the area is continually mowed through the years along with all other town cemeteries.

Taking part in the ceremony was Stephen Laurent, son of Joseph Laurent, Grand Chief of the Abenakis, who founded the century-old Indian encampment in Intervale. Mr. Laurent, who operates a small shop-museum there containing a collection of Abenaki artifacts and souvenirs, told of the skillful inventions and various Indian customs. Ideal burial grounds were often chosen such as this, high on a ridge and overlooking a lake. Rev. Joseph Parkman, Minister of the local Congregational Church, spoke of Lake Winnepesaukee (Winnipiseogee) the Smile of the Great Spirit, a favorite fishing ground. Indian names clinging to our mountains, lakes and rivers as well as organizations are constant reminders of the Red Men and their traditions. Rev. Parkman gave a brief outline of the beautiful legend of Kona,

the young Indian brave whose representative in bronze adorns the bowl of the fountain in the square, presented to the Town in 1907 by Herbert Dumaresq.

Unveiling the bronze plaque, placed by the Historical Society, Col. Lewis C. Hanson, Chairman of the Board of Selectmen, expressed appreciation for the Society's continued interest and efforts in improving the cemeteries. Representing the Society were Mrs. Lewis E. Woodaman, Jr., Vice President, Mrs. Robert W. Benoit and Mrs. Orion F. Bickford, Trustees and Members of the Cemetery Committee.

In closing Mr. Laurent recited the Lord's Prayer in Abenaki, followed by all repeating the Prayer, led by Rev. Parkman.

The Parks and Recreation Commission held a number of informal meetings during 1978 to plan the programs we sponsored through the year. In addition to the traditional Memorial Day and Independence Day parades, the Commission conducted a six-week summer recreation program for children at the beach-front park area, consisting of courses in macrame, gymnastics, crafts and story projects. These classes were led by area adult volunteers, assisted by student volunteers Monica Kozak and Julie Edwards. Two family evenings were presented in the park. All attending were encouraged to bring their supper and picnic while enjoying the entertainment. A bake sale followed.

The swimming program this year included two full-time guards, permitting one guard to patrol the beach while the other guard gave lessons. The lessons were cut back from four to three days a week, but the advanced classes were lengthened from ½ hour to 45 minutes.

Other summer athletics included two softball games and one soccer match with Moultonboro at the Moultonboro playing field.

The summer events were concluded with a Fun Day and swim-meet with Moultonboro at the Centre Harbor beach. A number of booths and activities were set up as well as a display of summer projects.

The fall programs began with a Halloween Party at the Fire Station. Other fall events included a six-week exercise course, a Running (jogging) Clinic, and an eight-week Dog Obedience course.

The Parks and Recreation Commission would like to thank all those who helped to make the past year's programs a success and welcome help and suggestions for the coming year.

Respectfully submitted,

Virginia Sassan
