The schools of the Town District have been above the average the past year, and we have hardly a failure to report. Good progress has been made in most of our schools, and many of the advanced scholars have entered the High School, and the Board flatter themselves that

they stand as well as others who have had better advantages.

New furniture had to be purchased for some of the schools as the increase of scholars found us short of room. At Scytheville the school yard is too small, and an article has been inserted in the warrant to see if the district will vote to buy or lease more land which would be greatly appreciated by the scholars.

The amount of money voted by the district has been sufficient for the needs of the schools, and enough to pay the debt and leave a small balance in favor of the district. It will not be necessary to raise so much for the next year.

We would again urge the parents to take more interest in the schools, and to cooperate with the Board. By so doing our schools would soon rank with the best.
