**ARTICLE 5**

To see if the Town will vote to raise and appropriate the sum of Two Million Thirty Nine Thousand One Hundred Dollars (\$2,039,100) to provide periodic maintenance including engineering and inspection on both the Route 286 water tank as well as the Route 107 water tank, including abrasive blast/pressure wash interior and exterior tank surfaces including nearby support structures and equipment within the fenced in area; repair any metal fatigue or damage as needed; repair and coat concrete foundations; test surrounding soils for contamination and remove and dispose as needed; repaint all surfaces to AWWA standards, and to authorize the issuance of not more than \$2,039,100 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA 33) and to authorize the Board of Selectmen and the Town Treasurer to issue and negotiate such bonds or notes and to determine the rate of interest thereon. Further to authorize the Board of Selectmen to apply for, contract for, accept and expend any Federal, State or other available funds toward the project that may be available, according to the terms under which they are received, and to borrow in anticipation of the receipt of such aid or the issuance of such bonds or notes as provided by the Municipal Finance Act, (RSA 33), as amended; and to authorize the Board of Selectmen to take any and all actions as may be necessary to carry out the project in the best interests of the Town of Seabrook. (3/5<sup>th</sup> vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee).

**NOTE:** This article is included in the capital improvement plan approved by the planning board. The 1-million gallon 286 elevated water tank is a steel tank constructed in 1976. The 107 720,000 gallon standpipe water tank is also of steel construction and constructed in 1955. These tanks are important for water storage, fire protection and maintaining system pressures. Periodic maintenance is required to maintain the integrity of this structure.

**YES 761**

**NO 337**

**ARTICLE 6**

To see if the Town will vote to raise and appropriate the sum of Five Hundred Ninety Thousand Nine Hundred Eighty Five Dollars (\$590,985) for the purpose of replacing the existing radio equipment at the police department, and to authorize the issuance of not more than \$590,985 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA 33); and to authorize the Board of Selectmen and the Town Treasurer to issue and negotiate such bonds or notes and to determine the rate of interest thereon. Further to authorize the Board of Selectmen to apply for, contract for, accept and expend any Federal, State or other available funds toward the project that may be available, according to the terms under which they are received, and to borrow in anticipation of the receipt of such aid or the issuance of such bonds or notes as provided by the Municipal Finance Act, (RSA 33), as amended; and to authorize the Board of Selectmen to take any and all actions as may be necessary to carry out the project in the best interests of the Town of Seabrook. (3/5<sup>th</sup> vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee).

**NOTE:** The current radio equipment will soon be obsolete and production has already stopped on the equipment. In 2020 there will no longer be any available parts for the current equipment.

**REPORT OF THE TOWN MANAGER &  
BOARD OF SELECTMEN**

The town had a very busy 2019. The Selectmen successfully reached agreements with three of the four town's unions. Those have been put forth on the town warrant for voter consideration.

Through the work the Board did with the state and federal legislative delegation in 2019 the dredging project at Seabrook Harbor has successfully come to an end. This project was vital to the regional economy, specifically to our fishing industry.

Voter approved warrant articles in 2017 for the sheet pilings at the harbor and 2018 for the painting of the water tanks. We were able to successfully secure these bonds in one note producing a significantly lower interest rate. This is all great news for the taxpayers of Seabrook.

The board was able to save the taxpayer money by combining the water and sewer departments. This is a good move for the town and the selectmen are looking forward to this new transition. We would like to commend Superintendent Curtis Slayton and Chief Operator George Eaton for all of their hard work during the year and taking on the additional responsibilities.

The board is very proud to announce the selection of the new police chief Brett Walker. Chief Walker has done commendable work to bring the department to a new level. Congratulations Chief Walker!

The Town continues to work diligently to bring new policies forward. There are still needed improvements for the town website and channel 22 and we will continue to look into making those changes. All of these accomplishments would not have been made possible without the dedication of our elected officials, board members, commissions and committees and especially the Board of Selectmen. A sincere thank you to all! Certainly, many of these accomplishments and the day-to-day operation of the town manager's office would not efficiently function without the assistance and guidance of Kelly O'Connor and Amy Davis. I congratulate them for their dedication and hard work.

To the Citizens of Seabrook, my gratitude and appreciation for the opportunity to serve you.

Respectfully submitted,

Aboul B. Khan, Chairman  
Theresa A. Kyle, Vice-Chairman  
Ella M. Brown, Clerk

**REPORT OF THE BUDGET  
COMMITTEE**

The purpose of the municipal budget committee is to act as an advisory board on matters related to the town budget. The budget committee sets the recommended budget figure for the town warrant and makes a recommendation to the voters on whether warrant articles dealing with tax dollars should be approved.

This year's budget committee also met in several work sessions to help develop guidance on how budgets and capital plans should be presented. Our committee has advocated for more capital reserve funds to help avoid large one time spikes in capital spending that can lead to instability in the tax rate. The board of selectmen adopted our proposal. We met with each department head to ascertain their needs and recommended funding that provides first rate services while protecting our taxpayers in FY2020.

We will continue to meet throughout 2020 to address policies and procedures for future budgets and to work with our board of selectmen to ensure that we meet the needs of residents while keeping the town affordable.

Respectfully Submitted,  
Members of the Budget Committee

## REPORT OF THE ASSESSOR

### Seabrook Valuation Trends

We passed our assessment review for the assessing department for 2018. This means the State of NH DRA reviewed our office procedures and protocols to be sure we are following the rules and we passed all the tests. We had 134 valid sales this year and 140 valid sales last year. Hopefully this is a sign that things will begin slow down. I completed a partial update for 2019, as the assessment to sales ratio was approximately 85% and we needed to be above 90%. The average overall increase was 6%. However, some areas needed to be adjusted more and some less to bring everyone into the same range of percentage of market value (92%). Market statistics show that generally the market has been increasing since 2014. In the 2017 and 2018 time frame, there was a larger than usual jump. In past years it's been 2-4%, in 2018 it was about 10-11% on average, and in 2019 it was approximately 6%.

Our tax rate went down 50¢ this year to \$15.75. This was primarily due to the funding of the water department being offset by the water/sewer bill revenue beginning partially in 2019 and stepping to full funding over the next few years. However, with the assessment increases, most saw their actual bills increase slightly. Elderly exemptions were at approx. 27.5 Million in assessed value, or \$423,575. Of tax dollars forgiven and disabled exemptions were at approx 5.5 million in assessed value, or \$85,357 of tax dollars forgiven. Veterans tax credits total \$259,000. There will be an article on the 2020 voter's warrant to increase the Veteran's tax credits.

### State Education Property Tax Relief

If the *Low and Moderate Income Homeowners Property Tax Relief* program continues, applications will be available at the assessor's office after April 15, 2020.

### Thank you's

Thank you to Genessa Carrillo and Myranda Gonya for their hard work during the year. Thank you to the tax collector's office and building department employees who work closely with us throughout the year.

### Seabrook Nuclear Power Plant

The town and the joint owners of the nuclear power plant have agreed to a 3 year payment of 12 Million for tax years 2018, 2019 and 2020. The power plant has also been approved for their 20 year operating

license extension from the nuclear regulatory commission, which extended their license to 2050.

## REPORT OF THE SEWER DEPARTMENT

The sewer department is dedicated to collecting and treating an average of 700,000 gallons of wastewater per day that flows into our facility; and delivering a clean, clear effluent into the Atlantic Ocean.

The process and our facility are permitted through the EPA's National Pollutant Discharge Elimination System (NPDES). This permit establishes the discharge limitations for the plant under the Clean Water Act (33 U.S.C. §1251 et seq. (1972) and expires every five years at which time the town has to apply for a renewal. The current permit was issued in September of 2010 and is in the process of being renewed.

(Treatment facility during construction 08/95)

**PROJECTS/PLANNING:** The town's sewer system, which includes 120 lift stations, approximately 50 miles of sewer mains as well as the wastewater treatment facility, officially went online 24 years ago in January of 1996. A majority of the systems that maintain the collection and treatment of the town's waste run 24 hours a day 7 days a week, along with the incredible runtimes, our location along the seacoast has accelerated the deterioration of equipment. In order to maintain effective treatment we need to start planning for future improvements and upgrades. We are working with Weston & Sampson Engineering reviewing the facilities equipment and identifying areas that are in need of improvement. We are also looking into funding options including any grants that may be available.

In addition to the review we have continued the implementation of the asset management program by entering and maintaining equipment records in the town's GIS (Geographical Information System). The asset management program will be vital to planning future equipment replacements to avoid catastrophic

and costly failures.

We are continuing with the Blackwater bridge pipe replacement project. The design work is done and we have NHDOT approval to do the work. Both chlorine tanks were relined this summer and dissolve oxygen probes were installed in the oxidation tanks to continuously monitor the oxygen content of the process to give us better process control. An energy audit was conducted here at the sewer department and the results will be used to design equipment upgrades to the facility and justify grant funding. The outfall diffusers were inspected this year by an underwater diving team. Minor repairs are ongoing. Some of the corroded bolts need replacing along with two missing duck bills.

**STAFFING:** 2019 was a big year for staffing changes with the retirement of Sewer Superintendent Philippe Maltias in April. A longtime employee, Phil started with the department as the chief operator in 1995, when the facility was still under construction. Branden Moore, Syllas Slayton and Joe Walker were hired at the department this year; each of them successfully obtaining a grade I wastewater operator license in December. Daumanic Fucile also tested and successfully upgraded his certification to a grade II wastewater operator in December.

I would like to remind all residents, that non-biodegradable material should not be deposited into the town sewer system. This causes blockages at homes and in sewer mains and damage to important mechanical equipment and increases operating cost.

In closing, I want to thank members of the sewer department staff for their continued dedicated effort to help run an efficient operation. This is a valuable service of maintaining sanitary facilities to the residents and the protection of the environment we all live in.

Respectfully submitted,  
Curtis Slayton,  
Sewer Superintendent

## REPORT OF THE WATER DEPARTMENT

Another year is in the books and like always we have been very busy doing what we do best. I would like to thank the water operators, office staff, and field crews for their continued dedication to the water department and its customers. The water department employees are continually going to training classes to increase their skill level, while applying their new skills to our water system, keeping the water system current and safe as they continue their hard work and dedication to provide the water users the best customer service possible.

Herb Fowler, who was an employee of the water department for more than 40 years, retired in July. Herb started out as an equipment operator for the department and was promoted to foreman in later years. Herb has had a heavy influence on how the water system looks today and always cared deeply that any work done to the water system was an improvement on what was already there.

Robert Moore was promoted to foreman of the water department in December. Among many other duties, he will be overseeing distribution system operations, new construction and GIS work among many other duties. Evie Wasson has taken over the backflow, private hydrant and wellhead protection programs for the department. This position was open after Emily Sanborn retired in 2018. Evie has received specialize training in backflow surveying and will be heading up our BMP inspections.

There were 265,036,000 gallons of water treated and pumped from the ground water treatment facility and 95,077,000 gallons pumped from the town's gravel packed wells 1, 3 and 7 for a total of 360,113,000 gallons of water pumped to the distribution system for the year. This was a 12,030,850 gallon decrease or -3.23% from last year. Commercial and industrial customers accounted for 138,682,628 gallons, while residential users accounted for 157,258,391 gallons. 14,000 gallons of sludge was removed from the treatment facility's holding tanks and trucked to Berwick Maine sewer district by the water department using the sewer departments pump truck.

The water department performed a full system flush of the distribution system this year. The last time a full system flush was carried out was in 2017.

Municipal water systems are required to flush

their systems once every two years per the New Hampshire Code of Administrative Rules (Env-Dw-504.05 Distribution Flushing). In 2018 we preformed a limited flush of dead end and critical areas. 2.7 million gallons of water was used this year to flush water mains.

Bedrock well #2 has been cleaned and redeveloped by Geosphere Environmental Management Inc. BRW#2 specific capacity improved to 3.20 gpm/ft of drawdown at 127 gpm. The results indicate that the specific capacity improved 464% from the pre-redevelopment specific capacity of .69 gpm/ft of drawdown. This work is made possible because of the yearly warrant article for well maintenance. This article allows us to keep the wells at maximum capacity for a consistent supply of water.

This year NHDES significantly lowered the drinking water standards for PFAS (PER-and polyfluoroalkyl substances) compounds that can be in drinking water. These new standards are currently being challenged in the court system, but we completed the required testing. The results of the testing showed that we are below the limits of the new standards. This is great news for us as other communities are not so lucky and they will have to install new treatment systems.

The 20 year old chlorine analyzers where replaced at gravel packed wells #3 and #7. The new ATI analyzers do not require expensive chemical reagents to operate. The cost savings will pay for the new meters in 3 years.

We are currently working with Wright-Pierce engineering of Portsmouth NH, writing specifications for the painting of Route 107 and 286 water tanks. This work will be out to bid for early 2020 and we hope to have the work mostly completed by this time next year.

In closing, I would like to thank the citizens for their continued support and to remind everyone that drinking water is a precious resource. The town is limited on the number of ground water sites within our borders and we need to do all that we can to protect these natural resources for our future and our children's futures.

Respectfully submitted,  
Curtis Slayton,  
Water Superintendent

**REPORT OF THE POLICE DEPARTMENT**

We welcomed several new people to the police department family in 2019. Officers John DiFrancesco, Anthony Robinson, and Stephen Stewart began serving the town in 2019 as did dispatcher Amanda Eaton. They are settling in nicely and getting used to the fast-paced environment in this busy community. The new faces replaced Detective Scott Mendes, who retired after more than twenty years of service to the town, officer Dan Henderson who joined the Massachusetts State Police after more than five years of service to the town, and dispatcher BT Conlon who joined the Merrimack College police department after more than three years of service to the town. We thank them for their service and wish them well in their future endeavors.

We continued our annual active shooter training at the middle and elementary schools during the summer months. Lieutenant Jason Allen, Detective Frank Brown, and School Resource Officer Keith Dietenhofer conducted refresher training for school staff in A.L.I.C.E., a proactive option-based approach for civilians in response to violent intruders. In the fall, officers assisted SES and SMS staff in a lockdown drill. This ongoing training will help the children in the event of a real emergency.

Officers and staff continue to receive exceptional training in order to provide the community with the best police services possible. In 2019 officers attended training in a variety of areas to include active shooter, CPR/First Aid, evidence management, advanced first aid for a K-9, field training officer, mental health, leadership, A.L.I.C.E., animal cruelty investigations, communications training, and more.

The Crimeline for the Hamptons donated money to send two officers to a First Amendment seminar and also purchased three new tasers for officers. Several more tasers were replaced through an account set up by the Estate of Elmo D’Alessandro and provided several more taser replacements for officers. Tasers are an essential tool in modern policing and the availability of these less-lethal force options reduces risks to officers and suspects.

Police staff continue to enjoy opportunities to meet the community through events such as coffee with a cop, trunk-or-treat, the recreation department’s festival of trees, walk to school day, national night out, stuff-a-cruiser, beards for bucks, the special olympics torch run, community rocks with the library, and numerous other interactions that can be found on residents’ social media posts. Our social media accounts continue to provide a direct connection with the community using three platforms:

- Facebook @seabrooknhpolice,
- Instagram @seabrookpolicedepartment
- Twitter @seabrookpolice

As the opioid epidemic continues, we saw our total documented drug overdoses continue to drop. The 44 documented overdoses in 2019 was less than half of the total number reported in 2017. We remain committed to investigating the sale and distribution of illegal drugs in the community. Drug enforcement is a priority for our patrol staff, detectives, and the multi-jurisdictional drug task forces we participate in. Many incidents we respond to are related to drug use and addiction. Combining our enforcement efforts with addiction and rehabilitation resources will, hopefully, result in reduced overdose statistics in the years to come.

Police statistics for 2019 are as follows:

Total Calls for Service:	14,805
Total Offenses Committed:	1,079
Total Felonies:	225
Total Arrests:	416
Shoplifting/Property Thefts:	287
Motor Vehicle Accident Responses:	526
Disabled Motor Vehicle Responses:	163

The men and women of the police department take great pride in serving our community. We appreciate the support from residents and businesses throughout the year at events like coffee with a cop and stuff-a-cruiser as well as in the countless interactions we have on a daily basis. We look forward to another year helping to make this the greatest community on the seacoast.

Respectfully submitted,  
Brett J. Walker  
Chief of Police

## REPORT OF THE FIRE DEPARTMENT

2019 was another year in which the fire department responded to more calls for service than the previous year. We've seen a steady increase in both the calls requiring fire apparatus as well as calls requiring the ambulance service. The fire department has and will continue to do it's best to handle the increasing volume of calls. We urge voter this year to pay close attention to the needs of the fire department's warrant articles. We have two main articles that have been on the ballot for a number of years and is a real need for the department to continue providing the care and services at the same level we do now.

The fire department members continued their work in the community by organizing the toy bank and providing Christmas presents to over 60 families. Operation warm was another success, handing out over 200 coats to children in town. We hosted the 4th annual touch-a-truck event and was able to bring Santa through town for the 5th year, we even avoided the Grinch stealing Christmas!

Our entire department is extremely thankful for the support of this community. We greatly appreciate it and really enjoy all of the feedback we get for the services we provide and the community work that the members do. Many thanks to the board of selectmen, other town departments, and the town manager. Their collective support throughout the year goes a long way in helping our department to be successful.

We also really want to again thank the residents. It is through your support of the town departments and employees that we are able to provide the many services this town is able to provide. We can never thank the residents enough for their support of this department.

Fire Department Calls for Service  
2019 Total Calls for Service: 3,299  
2019 Total Medical Aid Calls: 1,521

Respectfully Submitted,  
William J Edwards  
Fire Chief

## REPORT OF EMERGENCY MANAGEMENT

The emergency management department is the responding agency which assists as liaison and planning office for other town agencies for a variety of emergency situations for the town.

These emergencies can vary to include but not limited to: weather events, hazmat, nuclear, climate change; which can affect our weather and change our sea levels.

In 2019, emergency management started our exercise cycle year involving the emergency management office, The NH Homeland Security/ Emergency Management Division, FEMA, state and local law enforcement and town department heads. We attended a workshop in November to begin this year's graded cycle. We will have two exercises coming up in March and May. The graded drill will be in September of 2020. We run these drills to prepare ourselves for a variety of situations presented to us and other communities in the 10 mile radius of the power plant.

Emergency management hosted and attended a variety of trainings including: WebEOC, a web based communication program which allows local towns to communicate rapidly during any type of disaster; RADEF training, which taught us the ability to read the radiological current in the air surrounding us; and incident command classes.

We would like to recognize and thank all departments involved in contributing to the professionalism and dedication to the continuing safety of our community. Also, thank you to our volunteers and staff members. A special thanks to our town manager Bill Manzi and board of selectmen for their continued support.

Respectfully Submitted,  
Joseph Titone  
Emergency Management Director  
Kelly McDonald  
EM Deputy Director of Drills & Unusual Events

## REPORT OF THE PLANNING BOARD

The planning board acted on 27 applications in 2019. One of the most significant cases that came in front of the board this year was the decision to approve the opening of a C & J Railway into the community. The C & J terminal will be conveniently located at 13 Batchelder Rd. where the old Sam's Club was prior. This project will include the construction of a 4,000 square foot, state-of-the-art terminal. This terminal will serve customers bound for Logan Airport, Boston, and New York, and will be an asset to the town the surrounding communities.

This project is due to begin in the spring and the company is hoping to have an opening date for sometime in October 2020.

In 2019, the board also approved the following cases:

- Construction of a 3,200 SQ FT building at 28 London Lane.
- Self storage facility at Batchelder Rd.
- Small business at 105 Blacksnake rd
- Change of use for Planet Fitness at 325 Lafayette Rd.
- Change of use at Folly Mill rd.
- A 2 lot subdivision at 52 Ledge rd.
- A 2 lot subdivision at 84 and 86 Cenntennial st.
- Condominium conversion 79 Folly Mill Rd.

- Condominium conversion 81 Folly Mill Rd.
- Lot line adjustment 603 Lafayette Rd
- Reopen gas station at 3 Lafayette Road
- Condo conversion 87 Foggs lane
- Condo Conversion 134 Walton rd
- Condo conversion 7 Whittier drive
- Condo conversion 73 Foggs Lane
- Site plan review 24 London Lane
- Subdivision at 13 Batchelder rd.
- Site plan review 13 Batchelder rd.
- Condominium conversion 69 A and 69B Foggs Lane
- Condominium conversion 77 Foggs Lane

We look forward to working with all of you to manage the growth in our town, and preserving the community's history as we go along.

Respectfully submitted,  
Members of the Planning Board

## REPORT OF THE BOARD OF ADJUSTMENT

The board of adjustment has been very busy in 2019. They heard 23 cases for variances, one appeal from an administrative decisions as well as reconsiderations and request for re-hearings.

The board is made of five members and three alternates. They also have one secretary. All board members are volunteers and donate their time and efforts to ensure that our zoning laws are upheld. They have worked diligently to make decisions in the best interest of the town and its residents.

Respectfully submitted,  
Members of the Zoning Board of Adjustment

## REPORT OF PUBLIC WORKS DEPARTMENT

The department of public works would like to thank the residents and taxpayers for their continued support. In addition, special thanks to the men and women of the department for getting the job done. Also, thank you to the board of selectmen for including the public works department as first responders!

## REPORT OF THE HEALTH OFFICER

The health department conducts yearly inspections of all commercial establishments handling food. These include restaurants, grocery stores and all food handlers preparing food product for public consumption. Other facilities inspected by the health department include tattoo facilities and the artists working within these studios, daycare centers, hair and nail salons, and convenience stores. The office also inspects the middle and elementary schools, hotels, motels, rooming houses; issuing permits once the establishment passes the required inspections.

The office deals with health complaints that range from trash, bedbugs, and other issues that might arise in the community. The office also handles multiple complaints during the year and assists the State of NH Health Department on a regular basis.

The health department oversees water quality testing of the beach front and harbor areas. These tests ensure a safe swimming environment and shellfish quality.

## REPORT OF THE LIBRARY

### MISSION STATEMENT

The mission of the library is to ensure that the residents have the right and means to free and open access to the information and ideas that are fundamental to a democracy. The library will protect intellectual freedom, promote literacy and the enjoyment of reading, encourage lifelong learning, and provide a place for community activities. The library welcomes everyone, and the programs and services that are offered are meant to make a difference for those that use them.

### LIBRARY STAFF

The library is a thriving organization thanks to the dedication, hard work and expertise of the librarians and library support staff. Whether it's sharing songs at story time, helping patrons find their next great read, showing patrons how to download content to devices, keeping the shelves tidy, or generating innovative ideas, staff provides the human capital behind the library services and resources.

Susan Schatvet, Director

Shannon Weber, Adult Services Librarian

Jennifer Hartshorn, Youth Services Librarian

Debra L. Hiatt, Assistant

Joyce A. Fry, Assistant

**REPORT OF THE WELFARE DEPARTMENT**

In compliance with RSA 165 and town guidelines, the welfare department administers local emergency assistance for poor individuals and families unable to support themselves and require assistance in a financial crisis. It is our mission to meet legal obligations free of bias, and in a professional thoughtful and cost effective manner.

Welfare works closely with relief agencies .We direct the less fortunate citizens to federal, state, non-profit and homeless shelters to find appropriate housing for residents in need. Homeless shelters not only shelter residents from elements but often needed support and case management to ensure a long term solution to their current crisis.

The shortage of housing in New Hampshire has reached crisis level, vacancy rates are low, housing prices are high and there is a lack of affordable housing for families and young adults. Most low income housing options have a wait list and homeless shelters are at full capacity at times.

The welfare department continues to take pride in our pro-active case management approach that has resulted in increased self-sufficiency for clients, therefore reducing the burden on our department budget and the taxpayers.

The welfare department strives to promote self-reliance and independence in all we serve so they may become productive citizens.

# S eabrook Conservation Commission

The conservation commission reviewed six New Hampshire Department of Environmental Services Wetland Division Dredge and Fill applications this year. Three applications were for beach construction related and for the dredging the beach and three for town construction.

This year on November 11<sup>th</sup> Francis Chase had to step down as chairperson because he is no longer a town resident. Sue Foote's retirement was cut short since Francis Chases has moved so she is reinstated as the conservation chairperson.

The members of the conservation commission are:

- Sue Foote, Chairperson
- Mike Colin
- Helen Lalime
- Albert Mueller
- James Sanborn
- Judie Walker Alternate/ Secretary

Alyson Eberhardt of UNH Extension Coastal Ecosystems State Specialist is working with the conservation commission. She is pursuing additional funding to work on dune resiliency and restoration in town.

The conservation commission is eager to start the following projects while funding is still available:

- Noyes Pond Dam washout essential to the hydrstatic stablization of the footing to the historic arc culvert.
- Repairing the historical arch culvert that connects Noyes Pond to Mill Pond.

The members of the conservation commission would like to thank the residents for their continued support of our projects.

Respectfully submitted,  
Members of the Conservation Commission

**ARTICLE 2**

Are you in favor of the adoption of Amendment No. 1 as proposed by the Planning Board for the Town Zoning Ordinance as follows:

*The proposed amendments to the Zoning Ordinance will be in underline text for proposed additions and strikethrough text for proposed deletions.*

To see if the Town will vote to clarify the Zoning Ordinance by adding the following to Section 6.

Uses that are not designated as permitted (by right or as a conditional use) shall be construed as prohibited.

### ARTICLE 3

Are you in favor of the adoption of Amendment No. 2 as proposed by the Planning Board for the Town Zoning Ordinance as follows:

*The proposed amendments to the Zoning Ordinance will be in underline text for proposed additions and strikethrough text for proposed deletions.*

To see if the Town will vote to amend Section 2 of the Zoning Ordinance in order to prohibit short-term rentals in the residential districts:

**Dwelling Unit:** A single-unit building or portion thereof providing complete independent living facilities for one or more persons including permanent provisions for living, sleeping, eating, cooking and sanitation. This use shall not be deemed to include such transient occupancies as hotels, motels, rooming or boarding houses.

### ARTICLE 4

To see if the Town will vote to raise and appropriate the sum of Six Hundred Eighty-Five Thousand Three Hundred Seven Dollars (\$685,307) for the purpose of replacing the existing radio equipment at the police department and to authorize the issuance of not more than \$685,307 of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA 33) and to authorize the Board of Selectmen and the Town Treasurer to issue and negotiate such bonds or notes and to determine the rate of interest thereon. Further, to authorize the Board of Selectmen to apply for, contract for, accept and expend any Federal, State or other available funds toward the project that may be available, according to the terms under which they are received, and to borrow in anticipation of the receipt of such aid or the issuance of such bonds or notes as provided by the Municipal Finance Act, (RSA 33), as amended; and to authorize the Board of Selectmen to take any and all actions as may be necessary to carry out the project in the best interests of the Town of Seabrook. This bond will be repaid through the communication revolving fund, leaving no tax impact. (3/5th vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee).

**NOTE:** The current radio equipment has reached the end of its 20-year useful life. This project will replace obsolete equipment, and vastly improve police communications in areas where communication is currently substandard, including the beach area and our schools. Payment of the bond will be through the communication revolving fund, derived from lease payments made to Seabrook by Verizon cell tower and T-Mobile water tower, leaving no tax impact.

### ARTICLE 5

Shall the Town raise and appropriate as an operating budget, not including appropriations by special warrant articles and other appropriations voted separately, the amounts set forth on the budget posted with the warrant or as amended by vote of the first session, for the purposes set forth therein, totaling Twenty Four Million Three Hundred Twenty Six Thousand One Hundred Thirty Eight Dollars (\$24,326,138.00)? Should this article be defeated, the default budget shall be Twenty Four Million Two Hundred Forty Nine Thousand Ninety Eight Dollars

(\$24,249,098) which is the same as last year, with certain adjustments required by previous action of the Town or by law; or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only. (Majority vote required)(Recommended by Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$8.903 impact per \$1,000 on the tax rate).

**NOTE:** This operating budget warrant article does not include appropriations contained in **ANY** other warrant articles.

#### **ARTICLE 6**

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Board of Selectmen and the Seabrook Employees Association for the period April 1, 2020 through March 31, 2021; and furthermore to raise and appropriate the sum of Zero Dollars (\$0) for fiscal year 2020, such sum representing the additional costs attributable to the increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels. The increases in salaries and benefits for fiscal year 2021 would be \$19,157 through March 31, 2021. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (No impact on the tax rate).

**NOTE:** The SEA has been without a contract for several years.

#### **ARTICLE 7**

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Board of Selectmen and the Seabrook Police Association for the period April 1, 2020 through March 31, 2021; and furthermore to raise and appropriate the sum of Zero Dollars (\$0) for fiscal year 2020, such sum representing the additional costs attributable to the increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels. The increases in salaries and benefits for fiscal year 2021 would be \$31,376 through March 31, 2021. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (No impact on the tax rate).

**NOTE:** The Seabrook Police Association has been without a contract for several years.

#### **ARTICLE 8**

To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Board of Selectmen and the Seabrook Professional Firefighters Association for the period April 1, 2020 through March 31, 2023; and furthermore to raise and appropriate the sum of Zero Dollars (\$0) for fiscal year 2020, such sum representing the additional costs attributable to the increase in salaries and benefits required by the new agreement over those that would be paid at current staffing levels. The increases in salaries and benefits for fiscal year 2021 would be \$2,970. The increases in salaries and benefits for fiscal year 2022 would be \$2,970. The increases in salaries and benefits for fiscal year 2023 would be \$16,200 through March 31, 2023. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (No impact on the tax rate).

**ARTICLE 9**

To see if the Town, if any of articles 6 – 8 are defeated, will authorize the Board of Selectmen to call one special meeting, at its option, to address the relevant article's or articles' cost items only? (Majority vote required).

**ARTICLE 10**

To see if the Town will vote to establish an Information Technology Equipment Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of purchasing information technology capital items and to further name the Board of Selectmen as agents to expend. This is a special warrant article. (Majority vote required).

**NOTE:** The creation of capital reserve funds will help to plan and save for larger future expenditures thereby smoothing the year-to-year tax burden on Seabrook taxpayers.

**ARTICLE 11**

To see if the Town will vote to raise and appropriate the sum of Forty Thousand Dollars (\$40,000.00) to be added to the existing Town Building Capital Reserve Fund previously established? This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.015 impact per \$1,000 on the tax rate).

**NOTE:** This article would fund capital projects for each Town building.

**ARTICLE 12**

To see if the Town will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000.00) to be added to the existing DPW Vehicle Capital Reserve Fund previously established? This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.018 impact per \$1,000 on the tax rate).

**NOTE:** This article would fund DPW vehicles on a scheduled replacement basis.

**ARTICLE 13**

To see if the Town will vote to raise and appropriate the sum of Three Hundred Thousand Dollars (\$300,000.00) for improvements to Town streets consisting of pavement overlays, adjustments to associated structures, crack-sealing repairs, and design of drainage improvements. Said appropriation will be offset by a State Highway Block Grant estimated to be One Hundred Sixty Thousand Eight Hundred Dollars (\$160,800.00), and by a transfer of the sum of Eighty Thousand Dollars (\$80,000.00) from the Transportation Improvement Special Revenue Fund and an appropriation of Fifty Nine Thousand Two Hundred Dollars (\$59,200.00) from local taxation. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the projects are completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.022 impact per \$1,000 on the tax rate).

#### **ARTICLE 14**

To see if the Town will vote to raise and appropriate the sum of Fifty Thousand Dollars (\$50,000) for the purpose of cleaning, rehabilitation and long-term well and equipment maintenance for seven (7) bedrock wells and five (5) gravel pack wells. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.018 impact per \$1,000 on the tax rate).

**NOTE:** This article is included in the capital improvement plan submitted to the planning board. These wells provide the Town its drinking water. This work is required to prevent permanent damage to these wells and to maintain maximum pumping capacity.

#### **ARTICLE 15**

To see if the Town will vote to raise and appropriate the sum of One Hundred Forty-Three Thousand Seven Hundred Twenty-Seven Dollars (\$143,727.00) to construct new wells including well design, construction and infrastructure to connect to the water treatment plant and authorize the withdrawal of One Hundred Forty-Three Thousand Seven Hundred Twenty-Seven Dollars (\$143,727.00) from the Water Resources Capital Reserve Fund created for that purpose, to fund the appropriation. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article.. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (No impact on the tax rate).

**NOTE:** This article is included in the capital improvement plan. \$725,000 was authorized with the 2015 warrant article #36 for two years and reauthorized in 2018 by article # 17. The two years has passed and \$143,727 remains from the original article. The project is ongoing and the funds need to be reauthorized to continue the work as described.

#### **ARTICLE 16**

To see if the Town will vote to raise and appropriate the sum of One Hundred Thousand Dollars (\$100,000.00) to repair and replace the Centennial Street pump station. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.037 impact per \$1,000 on the tax rate).

**NOTE:** This pump station has had serious odor control issues for many years. This will be a comprehensive solution.

#### **ARTICLE 17**

To see if the Town will vote to raise and appropriate the sum of Ninety-Four Thousand Dollars (\$94,000.00) for the purpose of upgrading the System Control and Data Acquisition (S.C.A.D.A.) system at the Town Wastewater Department. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.034 impact per \$1,000 on the tax rate).

**NOTE:** This article is included in the capital improvement plan. These systems are twenty years old. The Programmable Logic Controller (P.L.C.) the heart of the SCADA system, are no longer manufactured or supported by the factory. Without these components the automation would cease to exist.

### **ARTICLE 18**

To see if the Town will vote to raise and appropriate the sum of Thirty-Five Thousand Dollars (\$35,000.00) to repair the two DPW stormwater pump stations. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.013 impact per \$1,000 on the tax rate).

**NOTE:** These stormwater drainage stations are more than 20 years old. These stations are vital for removing stormwater from the streets of the beach during rain events. It was discovered in the summer of 2019 that all 4 pumps were in need of repairs. 2 of the 4 pumps were replaced or repaired using article 24 of the 2018 warrant. This article will allow us to repair or replace the other 2 pumps and complete necessary valve maintenance and repair.

### **ARTICLE 19**

To see if the Town will authorize the Board of Selectmen to enter into a five-year lease/purchase agreement in the amount of Eight Hundred Seventy Five Thousand Dollars (\$875,000.00) for the acquisition and equipping of a modern Fire Engine for the Fire Department, and to raise and appropriate the sum of One Hundred Seventy Five Thousand Dollars (\$175,000.00) for the first year's payment for that purpose. This lease/purchase agreement contains an escape clause. Further, to authorize the sale or trade of the existing 2003 Rescue Vehicle. This will be a non-lapsing appropriation per RSA 32:7, VI and shall not lapse until the vehicle is fully owned or in five (5) years, whichever occurs first. In future years the lease payments will be included in the proposed and default budgets. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.064 impact per \$1,000 on the tax rate.)

**NOTE:**This article is included in the Capital Improvement Plan. This would be replacing a 2003 Rescue Truck. This truck is necessary to carry specialized tools to vehicle accidents and other emergency calls.

### **ARTICLE 20**

To see if the Town will vote to create four (4) new full-time firefighter positions with the Fire Department, and to raise and appropriate the sum of One Hundred Sixty-Four Thousand Eight Hundred Forty-Eight Dollars (\$164,848.00) in salary and benefits to fund these positions. If approved the appropriations for these positions will become part of the annual operating budget in subsequent years. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.060 impact per \$1000 on the tax rate).

**NOTE:** The hiring of these four (4) firefighters in 2020 will only be for 4-months. In subsequent years it will be for 12 months for a cost of \$498,748.00. The last addition of firefighters occurred in 2003.

### **ARTICLE 21**

To see if the Town will vote to raise and appropriate the sum of Thirty-Five Thousand Dollars (\$35,000.00) to be added to the existing Police Department Equipment Capital Reserve Fund

previously established? This is a special warrant article. (Majority vote required)  
(Recommended by the Board of Selectmen) (Recommended by the Budget Committee)  
(Estimated \$0.013 impact per \$1,000 on the tax rate).

**NOTE:** This article would allow the Town to begin saving for the purchase of police equipment, due in 2025. The equipment will include replacement of firearms, tasers, protective vests, and digital equipment for cruisers. The combined cost is estimated at \$205,000.

#### **ARTICLE 22**

To see if the Town will vote to create two (2) new full-time patrolman positions within the Police Department, beginning in December of 2020, and to raise and appropriate the sum of Twenty-Five Thousand Six Hundred Forty-Four Dollars (\$25,644) in salary and benefits to fund these positions. If approved the appropriations for these positions will become part of the annual operating budget in subsequent years. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.009 impact per \$1,000 on the tax rate).

**NOTE:** The hiring of these two (2) patrolmen in 2020 will only be for 1-month. In subsequent years it will be for 12 months for a cost of \$225,204. The last addition of Patrol Officers occurred in 1993.

#### **ARTICLE 23**

To see if the Town will vote to raise and appropriate the sum of Forty Thousand Dollars (\$40,000.00) to be added to the existing Fire Department Self Contained Breathing Apparatus (SCBA) and Turnout Gear Capital Reserve Fund previously established? This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (Estimated \$0.015 impact per \$1,000 on the tax rate).

**NOTE:** This article is included in the Capital Improvement Plan. This article would allow the Town to begin saving for the mandatory purchase of turnout gear for Firefighters, estimated to be due in 2021, and mandatory purchase of SCBA breathing equipment, estimated to be due in 2025. The combined cost is estimated at \$280,000. The current balance of this fund is \$40,000.

#### **ARTICLE 24**

To see if the Town will vote to raise and appropriate the sum of Seventy-Five Thousand Dollars (\$75,000.00) to install a wet sprinkler system at the Department of Public Works building. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the project is completed or in two (2) years (December 31, 2022), whichever occurs first. This sum to come from the unassigned fund balance. This is a special warrant article. (Majority vote required) (Recommended by the Board of Selectmen) (Recommended by the Budget Committee) (No impact on the tax rate).

#### **ARTICLE 25**

To see if the Town will vote to raise and appropriate the sum of One Hundred Fifty Thousand Dollars (\$150,000.00) for the purchase and equipping of a 6-wheel dump truck with plow and sander and further to authorize the sale or trade of the existing 2007 International Dump Truck with plow and sander. This will be a non-lapsing appropriation per RSA 32:7, VI and will not lapse until the vehicle is acquired or in two (2) years (December 31, 2022), whichever occurs first. This is a special warrant article. (Majority vote required) (Recommended by the Board of

Selectmen) (Recommended by the Budget Committee) (Estimated \$0.055 impact per \$1,000 on the tax rate).

**NOTE:** This article is included in the Capital Improvement Plan.

**ARTICLE 26**

**INDEPENDENT AUDITOR'S REPORT**

To the Members of the Board of Selectmen  
Town of Seabrook  
Seabrook, New Hampshire

We have audited the accompanying financial statements of the governmental activities, major fund, and aggregate remaining fund information of the Town of Seabrook as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessments of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, major fund, and aggregate remaining fund information of the Town of Seabrook, as of December 31, 2018, and the respective changes in financial position and, the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Change in Accounting Principle**

As discussed in Note 2-C to the financial statements, in fiscal year 2018 the Town adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinions are not modified with respect to this matter.

**Other Matters**

Required Supplementary Information – Accounting principles generally accepted in the United States of America require that the following be presented to supplement the basic financial statements:

- Management's Discussion and Analysis,
- Schedule of the Town's Proportionate Share of Net Pension Liability,
- Schedule of Town Contributions – Pensions,
- Schedule of the Town's Proportionate Share of the Net Other Postemployment Benefits Liability,
- Schedule of Town Contributions – Other Postemployment Benefits,
- Schedule of Changes in the Town's Total Other Postemployment Benefits Liability and Related Ratios, and
- Notes to the Required Supplementary Information

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Information** – Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Seabrook's basic financial statements. The combining and individual fund schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Management's Discussion and Analysis  
For the Fiscal Year 2018**

The Town of Seabrook's (the Town) discussion and analysis is designed to: (1) assist the reader in focusing on significant financial issues; (2) provide an overview of the Town's financial activity; (3) identify changes in the Town's financial position (its ability to address the next and subsequent year's challenges); and (4) identify any material deviations from the financial plan (the approved budget).

**Financial Highlights:**

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent year-end by \$49,949,927 (*net position*).
- The Town's change in net position was a decrease of \$2,343,001.
- The Town implemented Governmental Accounting Standards Board Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, during fiscal year 2018. The beginning net position for governmental activities was restated by (\$1,304,752) for the OPEB provided by NHRS and \$ 192,853 for the Town's local OPEB plan to retroactively report the increase/decrease in the net OPEB liability as of July 1, 2017.
- At the close of the current year, the Town's governmental funds reported a combined ending fund balance of \$13,461,019. Approximately 53% (\$7,172,554) of this total amount is available for spending at the Town's discretion (*unassigned fund balance*).
- At the end of the current year, unassigned fund balance for the General Fund is \$7,172,554, which is an increase of 4.8% (\$328,677) in relationship to the year-end balance.

**Overview of the Financial Statements:**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements include four components: 1) government-wide financial statements; 2) fund financial statements; 3) notes to the financial statements; and 4) required supplementary information. In addition to the basic financial statements, this report contains other supplementary information.

**Government-wide financial statements**

The government-wide financial statements provide a broad view of the Town's finances. These statements (*Statement of Net Position* and the *Statement of Activities*) provide both short-term and long-term information about the Town's overall financial position. They are prepared using the accrual basis of accounting which recognizes all revenues and expenses connected with the current year, even if cash has not been received or paid.

The *Statement of Net Position* presents information on all of the Town's non-fiduciary assets and liabilities with the difference between the two being reported as net position. Overall, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information showing how the Town's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future periods (such as uncollected taxes, licenses, and earned but unused vacation leave). This statement also presents a comparison between direct expenses and program revenues for each function of the Town.

The Town participates in governmental activities and does not currently participate in any business type activities. The governmental activities in this section represent most of the Town's basic services and are generally supported by taxes, grants, and intergovernmental revenues. The governmental activities of the Town include general government, public safety, highway and streets, sanitation, water distribution and treatment, health, welfare, culture and recreation, conservation, and economic development.

The government-wide financial statements can be found on pages 13 - 14 of this report.

#### **Fund financial statements**

Unlike government-wide financial statements, the focus of the fund financial statements is directed to specific activities of the Town rather than the Town as a whole. Except for the General Fund, a specific fund is established to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The fund financial statements focus on the individual parts of the Town government and report the Town's operations in more detail than the government-wide statements. The Town's funds are divided into two categories: 1) governmental; and 2) fiduciary.

**Governmental funds:** Most of the basic services provided by the Town are financed through governmental funds. Unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented here with similar information presented in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund *Balance Sheet* and the governmental fund *Statement of Revenues, Expenditures and Changes in Fund Balances* provide reconciliation to the government-wide statements in order to facilitate this comparison between governmental funds and governmental activities.

The Town maintains eleven individual governmental funds. Information is presented separately in the *Governmental Fund Balance Sheet* and in the *Statement of Revenues, Expenditures and Changes in Fund Balances* for the General Fund. The General Fund accounts for governmental services provided to the Town's residents. Data from the other governmental funds are combined into a single, aggregated presentation termed Other Governmental Funds.

The Town's governmental fund financial statements can be found on pages 15 - 18.

**Fiduciary Funds:** These funds are used to account for resources held for the benefit of parties outside the government. While these funds represent trust responsibilities of the Town, these assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, these assets are not presented as part of the Government Wide Financial Statements.

- **Private-Purpose Trust Funds:** These funds account for the activity of trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The Town uses these types to account for scholarship donations.

- **Agency Funds:** These funds account for the resources held in a purely custodial capacity. This fund reports information on developers' performance bonds held by the Town's Treasurer and also two funds that are held by the Trustee of the Trust Funds, which are for School Maintenance and School Special Education Needs.

The Town's fiduciary funds statements can be found on pages 20 - 21 of this report.

#### **Notes to the financial statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements and are required by generally accepted accounting principles (GAAP) in the United States.

The notes to the financial statements begin on page 22.

**Required supplementary information:** The basic financial statements and accompanying notes are followed by a section of required supplementary information. This section includes a Schedule of Funding Progress for Other Postemployment Benefit Plan, Schedule of the Town's Proportionate Share of Net Pension Liability and the Schedule of Town Contributions.

**Other supplementary information:** Other supplementary information includes the combining and financial schedules for the general and other (not-major) governmental funds.

#### **Government-wide Financial Analysis:**

The following table reflects a condensed summary of Net Position compared to the prior year. More detailed information can be found on pages 13 - 14 of this report.

<b>Total net assets</b>	<b>\$ 49,949,927</b>	<b>\$ 52,292,928</b>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred resources exceeded liabilities and deferred inflows of resources by \$49,949,927 as of December 31, 2018.

The Town's capital assets, net of related debt, at the end of 2018 were \$52,992,259. Capital assets are items such as land, buildings, equipment, and infrastructure (roads and bridges). This portion of the Town's net position (106%) reflects its investment in capital assets, less any related debt used to acquire those assets. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending.

Long-term liabilities decreased by \$410,506. This was due to the following factors: a decrease in bond debt of \$382,582; a decrease in capital leases of \$285,246; a decrease in compensated absences (vested sick leave and accrued vacation leave) of \$47,259, an increase in other post employment benefits of \$672,140; and a decrease of \$367,459 in net pension liability.

The Town reported \$15,046 in net position restricted for perpetual care, representing the permanent trust funds. And the Town also reported \$1,614,307 which is restricted for the road improvements, donations, drug forfeiture, library, and capital project. Total restricted net position is \$1,629,353.

The balance of unrestricted net position totaling a deficit -\$4,671,685. The unrestricted net position represents negative 9.4% of the Town's total net.

**Net position**

*Net investment in Capital Assets:* The largest portion of the Town's net position 106.1% reflects its net investment in capital assets.

*Restricted Net Position:* Only 3.26% of the Town's net position represents resources that are subject to external restrictions on how they may be used.

*Unrestricted Net Position:* The remaining -9.36% of the Town's total net position falls into this category. Internally imposed designations of resources are not presented as restricted net position. At the end of the year, the Town did have a negative balance in unrestricted net position.

The following is a summary of the information presented in the Statement of Activities found on page 14.

<b>Net Position</b>	<b>\$ 49,949,927</b>	<b>\$ 52,292,928</b>

\*Beginning net position was adjusted due to retroactively restating capital assets to reflect the proper year-end balance.

**Governmental Activities**

Net position decreased in 2018 by \$2,343,001. This decrease was due mainly to revenue reduction.

The total cost of Governmental activities this year was \$27,016,577. However, as shown in the Statement of Activities, the amount that our taxpayers ultimately financed for these activities through Town property taxes was only \$18,723,107. The overall tax rate in 2018 remained the same as 2017 rate of (\$16.25/\$1000). Those who directly benefited from the programs paid \$2,486,818, and other governments and organizations subsidized certain programs in the amount of \$247,710. The Town paid for the remaining governmental activities with \$3,217,941 in revenues not specifically targeted for specific programs. These revenues are known as general revenues, such as: other taxes, interest, miscellaneous, motor vehicle permit fees, and other licenses and permits.

**Expense and Program Revenues – Governmental Activities**

The Town's expenses cover a range of services. The largest expenses were for Public Safety, which accounts for 40.5% of total expenses. Public safety is made up of police, fire, building inspections, and emergency services.

**Financial Analysis of the Town's Funds:**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**

The governmental fund financial statements for the Town are provided on pages 15 - 18. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

At the end of the current year, the Town's governmental funds reported a combined ending fund balance of \$13,461,019, which increased \$73,460 from the prior year. Of the \$13,461,019 in combined ending fund balance, \$6,228,465 has been designated for specific uses. The remaining fund balance of \$7,172,554 is considered unassigned and is available for spending at the Town's discretion subject to budgetary controls.

The General Fund is the primary operating fund of the Town. At the end of the current year the unassigned fund balance of the General Fund was \$7,172,554. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund expenditures. Unassigned fund balance represents 28.5% of total General Fund expenditures, while total fund balance represents 49.8% of that same amount.

The unassigned fund balance of the Town's General Fund increased by \$308,677, or 4.2%, from the prior year. Key factors in this change are as follows:

Unassigned fund balance used to offset tax rate	(495,000)
Amount voted from fund balance	(480,000)
Excess of revenues over budget estimates	1,504,723
Decrease in fund balance non-spendable	48,680
Decrease in fund balance restricted	138,044
Increase in fund balance committed	(407,770)
<b>Total</b>	<b>\$ 308,677</b>

**Capital Assets and Long-Term Liabilities:**

**Capital assets**

The Town's capital assets for its governmental activities as of December 31, 2018 are \$60,028,160 net of accumulated depreciation. This investment in capital assets includes land, construction in progress, buildings and building improvements, improvements other than buildings, equipment and vehicles, and infrastructure.

**Capital Assets**

	2018	Restated 2017
Land	\$ 3,811,948	\$ 3,811,948
Buildings and improvements	39,862,397	39,820,901
Improvements other than buildings	1,056,573	1,056,573
Equipment and vehicles	10,552,904	10,365,175
Construction in progress	46,776	157,638
Infrastructure	74,229,234	73,541,042
Total	129,559,832	128,753,277
Accumulated Depreciation	(69,531,672)	(66,452,416)
<b>Total Capital Assets</b>	<b>\$ 60,028,160</b>	<b>\$ 62,300,861</b>

**Debt administration and Long-Term Liabilities**

Additional information on the long-term liabilities can be found in Note 13 in the Notes to the Basic Financial Statements.

**Long-term Liabilities Payable as of December 31, 2018**

Long-term Liabilities Payable as of 2017 Restated	\$ 26,469,256
Additions to Long term liabilities	676,984
Reductions to Long term liabilities	(1,087,490)
<b>Long-term Liabilities Payable as of 2018</b>	<b>\$ 26,058,750</b>

**Economic Factors and the Future:**

New Hampshire Employment Security reports Seabrook's unemployment rate for June 2019 at 2.8%, the State's unemployment rate at 2.5%. The National unemployment rate is at 3.7%. These same rates for June 2017 were 2.8%, 2.7%, and 4.3% respectively.

In looking to the future the Town of Seabrook faces the challenge of escalating employee health care costs along with the expiration of a multi-year property tax agreement with its largest property tax payer. These two factors present the Seabrook Board of Selectmen with great challenges in the short term and the longer term.

As noted in a past report Seabrook faces major challenges with the maintenance of equipment and buildings. A comprehensive review of buildings and equipment with a goal of basing future capital requests on data derived from such study, with the funding of a capital reserve account, may assist the Town in dealing with these issues.

As noted in prior reports Seabrook has provided services to its residents without regard to costs. The Board of Selectmen have instituted a fee structure at the Transfer Station to recoup some of the costs of that service. The effort to match costs with revenues is an important effort for Seabrook moving forward. Managing capital assets is another area where additional tools could produce positive results for the Town of Seabrook. Updating and reviewing the capital asset list annually in conjunction with the annual audit would provide a more accurate picture of Seabrook's financial position.

**Requests for Information:**

This financial report is designed to provide a general overview of the Town of Seabrook's finances for all of the citizens, taxpayers, customers, investors, and creditors. **AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Town of Seabrook, New Hampshire (the Town), have been prepared in conformity with U.S. Generally Accepted Accounting Principles (GAAP) for governmental units as prescribed by the Governmental Accounting Standards Board (GASB) and other authoritative sources.

In 2018 the Town implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which changed the way other postemployment benefit (OPEB) liabilities and related expenses are recorded. See Note 1-Q for further information on this pronouncement.

The more significant of the Town's accounting policies are described below.

**1-A Reporting Entity**

The Town of Seabrook is a municipal corporation governed by an elected 3-member Board of Selectmen. In evaluating how to define the Town for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth by the GASB. The Town has no component units to include in its reporting entity.

**1-B Basis of Accounting, and Measurement Focus**

The accounts of the Town are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

**Government-wide Financial Statements** – The Town's government-wide financial statements include a Statement of Net Position and a Statement of Activities. These statements present summaries of governmental activities for the Town accompanied by a total column. Fiduciary activities of the Town are not included in these statements.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including capital assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. The types of transactions reported as program revenues for the Town are reported in two categories: 1) charges for services and 2) operating grants and contributions.

Certain eliminations have been made to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated.

**Governmental Fund Financial Statements** – Include a balance sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances for all major governmental funds and nonmajor funds aggregated. An accompanying statement is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net position and changes in net position presented in the government-wide financial statements. The Town has presented all major funds that met those qualifications.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual basis* of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of reimbursement-based grants, which use a period of one year. Property taxes, licenses and permits, intergovernmental revenue, and interest associated with the current fiscal period are all considered to be susceptible to

**TOWN OF SEABROOK, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The Town reports the following major governmental fund:

**General Fund** – is the Town's primary operating fund. The general fund accounts for all financial resources except those required to be accounted for in another fund. The primary revenue sources include property taxes, state grants and motor vehicle permit fees. The primary expenditures are for general government, public safety, highways and streets, sanitation, culture and recreation, debt service and capital outlay. Under GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, guidance the library, water, sewer, and expendable trust funds are consolidated in the general fund.

Additionally, the Town reports the following fund types:

**Special Revenue Funds** – are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

**Capital Projects Funds** – are used to account for the financial resources and activities relating to specific construction projects.

**Permanent Fund** – are held in the custody of the Trustees of Trust Funds and are used to account for resources held in trust for use by the Town. These can include legal trusts for which the interest on the corpus provides funds for the Town's cemetery operations.

All the governmental funds not meeting the criteria established for major funds are presented in the other governmental column of the fund financial statements. The Town reports 11 nonmajor governmental funds.

**Fiduciary Fund Financial Statements** – include a Statement of Net Position and a Statement of Changes in Net Position. The Town's fiduciary funds are private purpose trust and agency funds, which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. These funds are accounted for on a spending or "economic resources" measurement basis and the accrual basis of accounting.

The Town also reports the following fiduciary funds:

**Private Purpose Trust Fund** – are used to report trust arrangements, other than pension and investment trusts, under which principal and income benefit individuals, private organizations, or other governments.

**Agency Fund** – are custodial in nature and do not involve the measurement of operating results. An agency fund is used to account for assets held on behalf of outside parties, including other governments.

**1-C Cash and Cash Equivalents**

The Town considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Deposits with financial institutions consist primarily of demand deposits and savings accounts. A cash pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and cash equivalents."

The treasurer is required to deposit such moneys in solvent banks in state or the Public Deposit Investment Pool pursuant to New Hampshire RSA 383:22. Funds may be deposited in banks outside of the state if such banks pledge and deliver to a third party custodial bank or the Federal Reserve Bank, collateral security for such deposits. United States government or government agency obligations or obligations to the State of New Hampshire in value at least equal to the amount of the deposit in each case.

**1-D Restricted Assets**

Certain Town assets are classified as restricted assets because their use is restricted by statutory limitation, and/or they are earmarked for a specific purpose.

**1-E Investments**

State statutes place certain limitations on the nature of deposits and investments available as follows:

New Hampshire law authorizes the Town to invest in the following type of obligations:

- Obligations of the United States government,
- The public deposit investment pool established pursuant to RSA 383:22,
- Savings bank deposits,
- Certificates of deposit and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the State treasurer.

Any person who directly or indirectly receives any such funds or moneys for deposit or for investment in securities of any kind shall, prior to acceptance of such funds, make available at the time of such deposit or investment an option to have such funds secured by collateral having a value at least equal to the amount of such funds. Such collateral shall be segregated for the exclusive benefit of the Town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

**Fair Value Measurements of Investments** – In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, except for investments measured using net asset value (NAV) as a practical expedient to estimate fair value, the Town categorizes the fair value measurements of its investments within the fair value hierarchy established by US GAAP. The fair value hierarchy categorizes the inputs to valuation techniques used for fair value measurement into three levels as follows:

**Level 1** – Inputs reflect quoted prices (unadjusted) in active markets for identical assets or liabilities that the Town has the ability to access at the measurement date. Directly held marketable equity securities would be examples of Level 1 investments.

**Level 2** – Inputs are other than quoted prices that are observable for the assets or liabilities, either directly or indirectly, including inputs in markets that are not considered to be active. Because they most often are priced on the basis of transactions involving similar but not identical securities or do not trade with sufficient frequency, certain directly held fixed income securities are categorized in Level 2. All of the Town's holdings in New Hampshire Public Deposit Investment Pool (NHPDIP), U.S. government obligations, and corporate bonds would be examples of Level 2 investments.

**Level 3** – Inputs are significant unobservable inputs.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, it is the level in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. Investments are reported at fair value. If an investment is held directly by the Town and an active market with quoted prices exists, such as for domestic equity securities, the market price of an identical security is used to report fair value and is classified in Level 1. Corporate fixed income securities and certain governmental securities utilize pricing that may involve estimation using similar securities or trade dates and are classified in Level 2. Fair values for shares in registered mutual funds and exchange-traded funds are based on published share prices and classified in Level 1.

In determining fair value, the Town utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible.

**Investments in Certain External Investment Pools** – In accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, the Town held investments with the New Hampshire Public Deposit Investment Pool (NHPDIP) are categorized as Level 2. The NHPDIP measures all of its investments at amortized cost. There are no redemption restrictions and shares may be redeemed by the Town in accordance with the NHPDIP's Information Statement.

**1-F Receivables**

Receivables recorded in the financial statements represent amounts due to the Town at December 31. They are aggregated into a single accounts receivable (net of allowance for uncollectibles) line for certain funds and aggregated columns. They consist primarily of taxes, billing for charges, and other user fees.

**1-G Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**1-H Capital Assets**

Capital assets include property, plant, and equipment, infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), and intangible assets (i.e. easements), which are reported in the applicable governmental activities column in the government-wide financial statements. The accounting and reporting treatment applied to capital assets associated with a fund are determined by the fund's measurement focus. General capital assets are assets of the Town as a whole. When purchased, such assets are recorded as expenditures in a governmental fund and capitalized as assets in the government-wide Statement of Net Position.

Capital assets are defined by the Town as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are carried at historical cost or estimated historical cost. When the cost of the capital assets cannot be determined from available records, estimated historical cost is used. Donated capital assets received on or prior to June 15, 2015 are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015 are recorded at acquisition value.

The costs of normal maintenance and repairs are charged to operations as incurred. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Capital assets of the Town are depreciated using the straight-line method over the following estimated useful lives:

Capital Asset Classes:	Years
Buildings and building improvements	20 - 50
Land improvements	20 - 50
Equipment and vehicles	3 - 20
Infrastructure	20 - 100

**1-I Interfund Activities**

Interfund activities are reported as follows:

**Interfund Receivables and Payables** – Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (i.e. the current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Interfund receivables and payables between funds are eliminated in the Statement of Net Position.

**Interfund Transfers** – Interfund transfers represent flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making the transfers and other financing sources in the funds receiving the transfers. In the government-wide financial statements, all interfund transfers between individual governmental funds have been eliminated.

**1-J Property Taxes**

Property tax billings occur semi-annually and are based on the assessed inventory values as of April 1 of each year in accordance with RSA 76:15-a, *Semi-Annual Collection of Taxes in certain Towns and Cities*. Warrants for the year were issued on May 15, 2018 and November 20, 2018, and due on July 2, 2018, and December 28, 2018. Interest accrues at a rate of 12% on bills outstanding after the due date and 18% on tax liens outstanding.

**DECEMBER 31, 2018**

In connection with the setting of the tax rate, Town officials with the approval of the Department of Revenue Administration, establish and raise through taxation an amount for tax abatement and refunds, known as overlay. This amount is reported as a reduction in tax revenue and is advised by management for any reserve for uncollectible at year-end. The property taxes collected by the Town include taxes levied for the State of New Hampshire, Seabrook School District, Winnacomet Cooperative School District, and Rockingham County, which are remitted to these entities as required by law.

The Town net assessed valuation as of April 1, 2018 utilized in the setting of the tax rate was as follows:

For the New Hampshire education tax	\$ 1,661,390,750
For all other taxes	\$ 2,696,931,950

The tax rates and amounts assessed for the year ended December 31, 2018 were as follows:

	Per \$1,000 of Assessed Valuation	Property Taxes	
		Assessed	Assessed
Municipal portion	7.00	\$	18,893,219
School portion:			
State of New Hampshire	2.13	3,537,626	
Local	6.22	16,767,308	
County portion:			
Total	16.25	\$	41,619,442

**1-K Accounts Payable**

Accounts payable represent the gross amount of expenditures or expenses incurred as a result of normal operations, but for which no actual payment has yet been issued to vendors/providers as of December 31, 2018.

**1-L Deferred Outflows/Inflows of Resources**

**Deferred outflows of resources**, a separate financial statement element, represents a consumption of net position or fund balance that applies to a future period(s) and thus will not be recognized as an outflow of resources (expenses) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension and OPEB expense and contributions from the Town after the measurement date but before the end of the Town's reporting period.

**Deferred inflows of resources**, a separate financial statement element, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within 60 days after year-end.

**1-M Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities, Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the bond premium or discount.

**1-N Compensated Absences**

The Town's policy allows certain employees to earn varying amounts of vacation and sick pay based on the employee's length of employment. Upon separation from service, employees are paid in full for any accrued leave earned as set forth by personnel policy. The liability for such leave is reported as incurred in the government-wide financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements.

**1-O Claims and Judgments**

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. Claims and judgments that would normally be liquidated with expendable available financial resources are recorded during the year as expenditures in the governmental funds. Claims and judgments are recorded in the government-wide financial statements as an expense when the related liabilities are incurred.

**1-P Defined Benefit Pension Plan**

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and as amended by GASB Statement No. 71, *Pension Transitions for Contributions Made Subsequent to the Measurement Date* and GASB Statement No. 82, *Pension Issues – an amendment of GASB Statement No. 67, No. 68 and No. 73* requires participating employers to recognize their proportionate share of collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense, and schedules have been prepared to provide employers with their calculated proportionate share of these amounts. The collective amounts have been allocated based on employer contributions during the respective fiscal years. Contributions from employers are recognized when legally due, based on statutory requirements.

The schedules prepared by New Hampshire Retirement System, and audited by the plan's independent auditors, require management to make a number of estimates and assumptions related to the reported amounts. Due to the inherent nature and uncertainty of these estimates, actual results could differ, and the differences may be material.

**1-Q Postemployment Benefits Other Than Pensions**

The Town maintains two separate other postemployment benefit plans (OPEB), as follows:

**New Hampshire Retirement System Plan** – For the purposes of measuring the total other postemployment benefit (OPEB) liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Hampshire Retirement System OPEB Plan (the plan) and additions to/deductions from the plan's fiduciary net position has been determined on the same basis as they are reported by the New Hampshire Retirement System. For this purpose, the plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

**Single Employer Plan** – For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information has been determined based on the Town's actuarial report. For this purpose, benefit payments are recognized when due and payable in accordance with benefit terms.

**1-R Net Position/Fund Balances**

**Government-wide Statements** – Equity is classified as net position and displayed in three components:

**Net Investment in capital assets** – Consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, or other borrowings that are attributable to the acquisition, construction, or improvement of these assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets.

**TOWN OF SEABROOK, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**Restricted net position** – Results when constraints placed on net position use are either externally imposed by a third party (donatory, bond covenant, or granting agency) or are imposed by law through constitutional provisions or enabling legislation. The Town typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a further project.

**Unrestricted net position** – Consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

**Fund Balance Classifications** – GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, provides more clearly defined fund balance categories to make sure the nature and extent of the constraints placed on a government's fund balances are more transparent. The following classifications describe the relative strength of the spending constraints:

**Nonspendable** – Amounts that cannot be spent because they are either (a) not in spendable form (such as prepaid items, inventory or tax decided property subject to resale); or (b) are legally or contractually required to be maintained intact.

**Restricted** – Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

**Committed** – Amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the legislative body (Town Meeting). These amounts cannot be used for any other purpose unless the legislative body removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying these contractual requirements.

**Assigned** – Amounts that are constrained by the Town's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Selectmen through the budgetary process.

**Unassigned** – Amounts that are available for any purpose. Positive amounts are reported only in the general fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by the offsetting of assigned fund balance amounts.

When multiple net position/fund balance classifications are available for use, it is the government's policy to utilize the most restricted balances first, then the next most restricted balance as needed. When components of unrestricted fund balance are used, committed fund balance is depleted first followed by assigned fund balance. Unassigned fund balance is applied last.

The Town's fund balance policy indicates that the Town will strive to maintain a level of fund balance between 5% and 17% of the total annual budget plus school and county appropriations. This level of fund balance is also in accordance with the best practices recommendation of the NH Department of Revenue Administration and the Government Finance Officers Association.

**1-S Use of Estimates**

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources; the disclosure of contingent assets and liabilities at the date of the financial statements; and revenues and expenses during the period reported. These estimates include assessing the collectability of accounts receivable, and the useful lives and impairment of capital assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from estimates.

**2-A Budgetary Information**

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. At its annual meeting, the Town adopts a budget for the current year for the general fund, as well as the blended water and sewer funds. Except as reconciled below, the budget was adopted on a basis consistent with US generally accepted accounting principles.

Management may transfer appropriations between operating categories as deemed necessary, but expenditures may not legally exceed budgeted appropriations in total. All annual appropriations lapse at year-end unless encumbered.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures, and are therefore, reported as part of the assigned fund balance at year-end, and are carried forward to supplement appropriations of the subsequent year.

State statutes require balanced budgets, but provide for the use of beginning unassigned fund balance to achieve that end. For the fiscal year 2018, \$495,000 of the beginning general fund unassigned fund balance was applied for this purpose and \$480,000 was voted from unassigned fund balance as a transfer to the capital reserve funds.

**2-B Budgetary Reconciliation to GAAP Basis**

The Town employs certain accounting principles for budgetary reporting purposes that differ from a GAAP basis. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budgetary Basis presents the actual results to provide a comparison with the budget. The major difference between the budgetary basis and GAAP basis is as follows:

Encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. Governmental fund budgets are maintained on the modified accrual basis of accounting except that budgetary basis expenditures include purchase orders and commitments (encumbrances) for goods or services not received at year-end. Encumbrances are recorded to reserve a portion of fund balance in the governmental fund types for commitments for which no liability exists.

The following reconciles the general fund budgetary basis to the GAAP basis:

Revenues and other financing sources:	\$ 22,415,218

**2-C Accounting Change/Restatement**

Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (OPEB), was implemented during fiscal year 2018. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with OPEB benefits, including additional note disclosure and required supplementary information. In addition, GASB Statement No. 75 requires a state or local government employer to use the entry age normal actuarial cost method and requires deferred outflows of resources and deferred inflows of resources which arise from other types of events related to OPEB to be recognized. Beginning net position for governmental activities was restated to retroactively report the change in valuation of the beginning total OPEB liability, deferred inflows and outflows of resources, as follows:

	Local	State	Total
	OPEB	OPEB	OPEB
Change in total OPEB liability under current standards, January 1	\$ 192,853	\$(1,392,675)	\$(1,199,822)
Initial balance of deferred outflows of resources	-	92,318	92,318
Initial balance of deferred inflows of resources	-	(4,395)	(4,395)
Cumulative restatement related to GASB No. 75 implementation (see Note 19)	\$ 192,853	\$(1,304,793)	\$(1,111,939)

**DETAILED NOTES ON ALL FUNDS**

**NOTE 3 – CASH AND CASH EQUIVALENTS**

The Town's deposits are entirely covered by federal depository insurance (FDIC) or by collateral held by the Town's agent in the Town's name. The FDIC currently insures the first \$250,000 of the Town's deposits at each financial institution, per case custodian. Deposit balances over \$250,000 are insured by the collateral. As of year-end, the carrying amount of the Town's deposits was \$20,559,540 and the bank balances totaled \$20,210,970. Petty cash totaled \$3,507.

Cash and cash equivalents reconciliation:

Cash per Statement of Net Position (Exhibit A)	\$ 19,938,821
Cash per Statement of Net Position - Fiduciary Fund (Exhibit E-1)	620,719
Total cash and cash equivalents	<u>\$ 20,559,540</u>

**Custodial Credit Risk** - The Town's repurchase agreements are all with banking institutions; therefore, are subject to custodial credit risk. The custodial credit risk is the risk that in the event of bank failure, the Town's deposits may not be recovered.

**Interest Rate Risk** - The term repurchase agreements are also subject to interest rate risk. Interest rate risk is the risk that changes in interest rates will adversely affect the value of the Town's investments.

**NOTE 4 – RESTRICTED ASSETS**

Cash and/or investments are classified as restricted for the following purposes:

Cash and cash equivalents:	
General fund:	
Library	\$ 600,105
Capital reserve funds	13,864
Escrow accounts	940,878

**NOTE 5 – INVESTMENTS**

Note 1-E describes statutory requirements covering the investment of the Town funds. The Town holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the Town's mission, the Town determines that the disclosures related to these investments only need to be disaggregated by major type. The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The Town has the following recurring fair value measurements and maturities as of December 31, 2018:

Investments type:	Valuation Measurement Method	Fair Value
Corporate bonds	Level 2	\$ 668,388
Equity mutual funds	Level 1	2,548,549
New Hampshire Public Deposit Investment Pool	Level 2	5,107
Total fair value		<u>\$ 3,222,044</u>

**Interest Rate Risk** – This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Custodial Credit Risk** – This is the risk that in the event of the failure of the counterparty (e.g. broker/dealer) to honor a transaction, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town does not have custodial credit risk policies for investments.

Investment reconciliation:

Investments per Statement of Net Position (Exhibit A)	\$1,923,463
Investments per Statement of Net Position - Fiduciary Funds (Exhibit E-1)	1,298,581
Total Investments	<u>\$3,222,044</u>

**NOTE 6 – TAXES RECEIVABLE**

Taxes receivable represent the amount of current and prior year taxes which have not been collected as of December 31, 2018. The amount has been reduced by an allowance for an estimated uncollectible amount of \$20,000. Taxes receivable by year are as follows:

	As reported on:	
	Exhibit A	Exhibit C-1
Property:		
Levy of 2018	\$1,375,451	\$1,375,451
Unredeemed under tax lien):		
Levy of 2017	187,364	187,364
Levy of 2016	113,146	113,146
Levies of 2015 and prior	36,417	36,417
Excavation	40	40
Less: allowances for estimated uncollectible taxes	(20,000) *	-
Net taxes receivable	<u>\$1,692,418</u>	<u>\$1,712,418</u>

\*The allowances for uncollectible property taxes is not recognized under the modified accrual basis of accounting (Exhibit C-1 and C-3) due to the 60-day rule as explained in Note 1-B. However, the allowance is recognized under the full accrual basis of accounting (Exhibit A and B).

**NOTE 7 – OTHER RECEIVABLES**

Receivables at December 31, 2018, consisted of accounts (bills) for police details, water, sewer, ambulance, and other user charges) and intergovernmental amounts arising from grants. Receivables are recorded on the Town's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and collectability.

Receivables as of December 31, 2018 for the Town's individual major fund and nonmajor funds in the aggregate including applicable allowances for uncollectible accounts are as follows:

	General Fund	Nonmajor Funds	Total
Receivables:			
Accounts	\$374,308	\$1,387,847	\$1,762,155
Intergovernmental	453,988	-	453,988

**NOTE 9 – INTERFUND BALANCES AND TRANSFERS**

**Interfund Balances** - The composition of interfund balances as of December 31, 2018 is as follows:

Receivable Fund	Payable Fund
General	Nonmajor
Amount	General
\$ 219,832	25,000
<u>\$ 234,832</u>	

The outstanding balances among funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**Interfund Transfers** - The composition of interfund transfers for the year ended December 31, 2018 is as follows:

Transfers in:	
General	
Fund	
\$ 80,000	
Transfers out:	
Nonmajor fund	<u>\$ 80,000</u>

During the year, transfers are used to (1) move revenues from the fund with collection authority to the fund responsible for expenditure and (2) move general fund resources to provide an annual subsidy.

**NOTE 10 – INTERGOVERNMENTAL PAYABLES**

Amounts due to other governments of \$9,864,377 at December 31, 2018 consist of the following:

General fund:	
Balance of the 2018-19 assessment due to the Seabrook School District	\$6,253,011
Balance of the 2018-19 assessment due to the Wrentham Cooperative School District	3,252,123

**NOTE 14 – DEFINED BENEFIT PENSION PLAN**

**Plan Description** – The New Hampshire Retirement System (NHRS or the System) is a public employee retirement system that administers one cost-sharing multiple-employer defined benefit pension plan (Pension Plan), a component unit of the State of New Hampshire, as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*, as an amendment of GASB Statement No. 25. The Pension Plan was established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(c) of the Internal Revenue Code. The Pension Plan is a contributory, defined benefit plan providing services, disability, death and vested retirement benefits to members and their beneficiaries. Substantially all full-time State employees, public school teachers and administrators, permanent firefighters and permanent police officers within the State are eligible and required to participate in the Pension Plan. The System issues a publicly available financial report that may be obtained by writing the New Hampshire Retirement System, 54 Regional Drive, Concord, NH 03301.

**Benefits Provided** – The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II. All assets are held in a single trust and available to pay retirement benefits to all members.

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC) multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the member attains 52.5 years of age by 1/4 of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances, subject to meeting various eligibility requirements. Benefits are based on AFC or earnable compensation and/or service.

**Contributions** – The System is financed by contributions from both the employees and the Town. Member contribution rates are established and may be amended by the State legislature while employer contribution rates are set by the System trustees based on an actuarial valuation. Group I members are required to contribute 7% of earnable compensation and Group II members (police and fire) are required to contribute 11.55% and 11.80% respectively. For fiscal year 2018, the Town contributed 23.33% for police, 27.79% for fire and 11.08% for other employees. The contribution requirement for the fiscal year 2018 was \$1,523,376, which was paid in full.

**Pension Liabilities, Pension Expenses, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions** – At December 31, 2018 the Town reported a liability of \$14,745,598 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was

**TOWN OF SEABROOK, NEW HAMPSHIRE**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating towns and school districts, actuarially determined. At June 30, 2018, the Town's proportion was 0.31% which was a decrease of 0.001% from its proportion measured as of June 30, 2017.

For the year ended December 31, 2018, the Town recognized pension expense of \$1,780,083. At December 31, 2018 the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in proportion	\$ 781,230	\$ 188,100
Changes in assumptions	1,020,468	-
Net difference between projected and actual investment earnings on pension plan investments	-	341,226
Differences between expected and actual experience	117,696	119,396
Contributions subsequent to the measurement date	671,552	-
Total	<u>\$ 2,590,946</u>	<u>\$ 648,722</u>

The \$671,552 reported as deferred outflows of resources related to pensions results from the Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Fiscal Year Ending December 31,
	2019
	\$ 863,706
	2020
	699,543
	(228,375)
	2021
	(64,202)
Totals	<u>\$ 1,270,672</u>

**Actuarial Assumptions** – The collective total pension liability was determined by a roll forward of the actuarial valuation as of June 30, 2017, using the following actuarial assumptions which, accordingly apply to 2018 measurements:

- Inflation: 2.5%
  - Salary increases: 5.6% average, including inflation
  - Wage inflation: 3.25%
  - Investment rate of return: 7.25% net of pension plan investment expense, including inflation
- Mortality rates were based on the RP-2014 employee generational mortality tables for males and females, adjusted for mortality improvements using Scale MP-2015, based on last experience study.
- The actuarial assumptions used in the June 30, 2018 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

**Long-term Rates of Return** – The long-term expected rate of return on pension plan investment was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return net of investment expenses by the target asset allocation percentage and by adding expected inflation.

Total alternative investments	15.00%	2.15%
Real estate	10.00%	3.25%
Total	<u>100.00%</u>	

**Discount Rate** – The discount rate used to measure the collective total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the Pension Plan's actuarial funding policy as required by RSA 100-A:16. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on Pension Plan investment was applied to all periods of projected benefit payments to determine the collective total pension liability.

**Sensitivity of the Town's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** – The following table presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.25% as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1- percentage point lower (6.25%) or 1- percentage point higher (8.25%) than the current rate:

Actuarial Valuation Date	1% Decrease 6.25%	Current Single Rate Assumption 7.25%	1% Increase 8.25%

The \$103,771 reported as deferred outflows of resources related to OPEB results from the Town contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

2020	(2,052)
2021	(2,052)
2022	(421)
Totals	<u>\$ 149,068</u>

**Actuarial Assumptions** – The total OPEB liability in this report is based on an actuarial valuation performed as of June 30, 2018 and a measurement date of June 30, 2017. The total OPEB liability was determined using the following actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

- Price inflation: 2.5 % per year
- Wage inflation: 3.25 % per year
- Salary increases: 5.6 % average, including inflation
- Investment rate of return: 7.25 % net of OPEB plan investment expense, including inflation
- Health care trend rate: Not applicable, given that the benefits are fixed stipends

Mortality rates were based on the RP-2014 healthy annuitant and employee generational mortality tables for males and females with creditability adjustments, adjusted for fully generational mortality improvements using Scale MP-2015, based on last experience study.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2010 – June 30, 2015.

**Long-term Rates of Return** – The long-term expected rate of return on OPEB plan investment was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rate of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. **NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**Benefits Provide** – Benefit amounts and eligibility requirements for the OPEB Plan are set by State law (RSA 100-A:52, RSA 100-A:52-a and RSA 100-A:52-b), and members are designated in statute by type. The four membership types are Group II, Police Officers and Firefighters; Group I, Teachers; Group I, Political Subdivision Employees; and Group I, State Employees. The OPEB Plan provides a medical insurance subsidy to qualified retired members. The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the medical subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the medical subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. The OPEB plan is closed to new entrants.

Maximum medical subsidy rates paid during fiscal year 2018 were as follows:

- For qualified retirees not eligible for Medicare, the amounts were \$375.56 for a single-person plan and \$751.12 for a two-person plan.
- For those qualified retirees eligible for Medicare, the amounts were \$236.84 for a single-person plan and \$473.68 for a two-person plan.

**Contributions** – The OPEB Plan is funded by allocating to the 401(f) subtrust the lesser of 25% of all employer contributions made in accordance with RSA 100-A:16 or the percentage of employer contributions determined by the actuary to be the minimum rate necessary to maintain the benefits provided under RSA 100-A:53-b, RSA 100-A:53-c, and RSA 100-A:53-d. For fiscal year 2018, the minimum rates determined by the actuary to maintain benefits were the lesser of the two options and were used to determine the employer contributions due to the 401(f) subtrust. The State Legislature has the authority to establish, amend and discontinue the contribution requirements of the OPEB Plan. Administrative costs are allocated to the OPEB Plan based on fund balances. For fiscal year 2018, the Town contributed 4.10% for police and fire, and 0.30% for other employees. The contribution requirement for the fiscal year 2018 was \$204,491, which was paid in full.

**OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** – At December 31, 2018, the Town reported a liability of \$2,069,659 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Town's proportion of the net OPEB liability was based on a projection of the Town's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating towns and school districts, actuarially determined. At June 30, 2018, the Town's proportion was 0.45% which was an increase of 0.15% from its proportion measured as of June 30, 2017.

For the year ended December 31, 2018, the Town recognized OPEB expense of \$734,772. At December 31, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Changes in proportion	-	-
Net difference between projected and actual investment earnings on OPEB plan investments	-	6,576
Differences between expected and actual experience	12,148	-
Contributions subsequent to the measurement date	103,771	-
Total	<u>\$ 259,415</u>	<u>\$ 6,576</u>

**Discount Rate** – The discount rate used to measure the total OPEB liability as of June 30, 2018 was 7.25%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made under the current statute RSA 100-A:16 and that plan member contributions will be made under RSA 100-A:16. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the collective total OPEB liability.

**Sensitivity of the Town's Proportionate Share of the OPEB Liability to Changes in the Discount Rate** – The following table presents the Town's proportionate share of the OPEB liability calculated using the discount rate of 7.25% as well as what the Town's proportionate share of the OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate:

Actuarial Valuation Date	1% Decrease 6.25%	Current Single Rate Assumption 7.25%	1% Increase 8.25%
June 30, 2018	\$2,154,110	\$ 2,069,639	\$ 1,833,096

**Sensitivity of the Town's Proportionate Share of the OPEB Liability to Changes in the Healthcare Cost Trend Assumption** – GASB No. 75 requires the sensitivity of the OPEB liability to the healthcare cost trend assumption. Since the medical subsidy benefits are fixed stipends, there is no sensitivity to changes in the healthcare cost trend assumption.

**OPEB Plan Fiduciary Net Position** – Detailed information about the OPEB plan's fiduciary net position is available in the separately issued New Hampshire Retirement System Cost-Sharing Multiple Employer Defined Benefit OPEB Plan financial report.

**15-B Town of Seabrook Retiree Health Benefit Program**

**Plan Description** – GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, requires governments to account for other postemployment benefits (OPEB) on an accrual basis, rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially determined expense on the Statement of Activities when a future retiree earns their postemployment benefits, rather than when they use their postemployment benefit. The postemployment benefit liability is recognized on the Statement of Net Position over time.

**Benefits Provided** – The Town provides postemployment healthcare benefits for certain eligible retirees. The Town provides medical benefits to its eligible retirees. The benefits are provided through the New Hampshire Inter-Local Trust.

**Employees Covered by Benefit Terms** – At January 1, 2018 the following employees were covered by the benefit terms:

Retired employees	21
Active employees	123
Total participants covered by OPEB plan	<u>144</u>

**Total OPEB Liability** – The Town's total OPEB liability of \$983,052 was measured as of January 1, 2018 and was determined by an actuarial valuation of that date.

**Actuarial Assumptions and Other Inputs** – The total OPEB liability of \$983,052 in the January 1, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate:	3.80%
Healthcare Cost Trend Rates:

The selected discount rate was based on the prescribed discount interest rate methodology under GASB No. 74-75 using an average of three 20-year bond indices (e.g. Bond Buyer-20 Bond GO-4.09%, S&P Municipal Bond 20 Year High Grade Rate Index -3.64% and Fidelity GA AA 20 Years -3.71%) as of December 31, 2018.

Mortality rates were based on the Employee and Healthy Annuitant Tables for both pre & post retirement projected with mortality improvement using the most current Society of Actuaries Mortality Improvement Scale MP-2018.

**Changes in the Total OPEB Liability**

	December 31, 2018
OPEB liability beginning of year, as restated	\$ 987,896
Changes for the year:	
Service cost	14,423
Interest	36,481
Benefit payments	(55,748)
OPEB liability end of year	<u>\$ 983,052</u>

**Sensitivity of the Town's OPEB Liability to Changes in the Discount Rate** – The January 1, 2018 actuarial valuation was prepared using a discount rate of 3.80%. If the discount rate were 1% higher than what was used the OPEB liability would decrease to \$893,312 or by 9.13%. If the discount rate were 1% lower than what was used the OPEB liability would increase to \$1,090,233 or by 10.90%.

	Discount Rate	
	1% Decrease	1% Increase
Total OPEB Liability	\$ 1,090,233	\$ 893,312

**Sensitivity of the Town's OPEB Liability to Changes in the Healthcare Cost Trend Rates** – The January 1, 2018 actuarial valuation was prepared using an initial trend rate of 9.0%. If the trend rate were 1% higher than what was used the OPEB liability would increase to \$1,131,952 or by 15.15%. If the trend rate were 1% lower than what was used the OPEB liability would decrease to \$836,155 or by 12.91%.

	Healthcare Cost Trend Rates	
	1% Decrease	1% Increase
Total OPEB Liability	\$ 836,155	\$ 1,131,952

**OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB** – For the year ended December 31, 2018, the Town recognized OPEB expense of \$50,904. At December 31, 2018, the Town reported nondeferred outflows of resources or deferred inflows of resources related to OPEB.

**NOTE 16 – ENCUMBRANCES**

**NOTE 20 – RISK MANAGEMENT**

The Town is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. During fiscal year 2018, the Town was a member of the New Hampshire Public Risk Management Exchange (Primesx) Workers' Compensation and Property/Liability Programs.

The New Hampshire Public Risk Management Exchange (Primesx) Workers' Compensation and Property/Liability Programs are pooled risk management programs under RSAs 5-B and 281-A. Coverage was provided from January 1, 2018 to December 31, 2018 by Primesx, which retained \$1,000,000 of each workers' compensation loss, \$500,000 of each liability loss, and \$200,000 of each property loss. The Board has decided to self-insure the aggregate exposure and has allocated funds based on actuarial analysis for that purpose. The workers' compensation section of the self-insurance membership agreement permits Primesx to make additional assessments to members should there be a deficiency in contributions for any member year, not to exceed the member's annual contribution. GASB Statement No. 10 requires members of a pool with a starting risk to disclose if such an assessment is probable, and a reasonable estimate of the amount, if any. At this time, Primesx foresees no likelihood of any additional assessment for this or any prior year.

The Town continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**AS OF AND FOR THE FISCAL YEAR ENDED**  
**DECEMBER 31, 2018**

**NOTE 21 – CONTINGENT LIABILITIES**

There are various legal claims and suits pending against the Town which arise in the normal course of the government's activities. In the opinion of management, the ultimate disposition of these various claims and suits will not have a material effect on the financial position of the Town.

The Town participates in various federal grant programs, the principal of which are subject to program compliance audits pursuant to the Single Audit Act as amended. Accordingly, the government's compliance with applicable grant requirements will be established at a future date. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the government anticipates such amounts, if any, will be immaterial.

**NOTE 22 – TAX ABATEMENTS**

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of these governments.

For the fiscal year 2018 the Town did not have any such agreements.

**NOTE 23 – SUBSEQUENT EVENTS**

Subsequent events are events or transactions that occur after the balance sheet date, but before the financial statements are issued. Recognized subsequent events are events or transactions that provided additional evidence about conditions that existed at the balance sheet date, including the estimates inherent in the process of preparing the financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the balance sheet date, but arose after the date. Management has evaluated subsequent events through October 18, 2019, the date the December 31, 2018 financial statements were available to be issued, and no events occurred that require recognition or disclosure.

**INDEPENDENT AUDITOR'S COMMUNICATION  
OF MATERIAL WEAKNESS**

To the Members of the Board of Selectmen  
Town of Seabrook  
Seabrook, New Hampshire

In planning and performing our audit of the financial statements of the governmental activities, major fund, and aggregate remaining fund information of the Town of Seabrook as of and for the year ended December 31, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the Town of Seabrook's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Seabrook's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Seabrook's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness and no deficiency that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in internal control to be a material weakness:

**General Ledger Maintenance**

It was determined that the Town's general ledger is not being properly reconciled and maintained, this condition existed and was commented on in the prior period. Key accounting tasks such as monthly reconciliations play a key role in proving the accuracy of accounting data and information included in interim financial statements. The interfund accounts required significant adjustment and further reconciliation to complete the audit. We recommend that the Town establish more efficient review and reconciliation policies and procedures as a customary part of the accounting processes.

This communication is intended solely for the information and use of management, Board of Selectmen, and others within the Town of Seabrook, and is not intended to be used by anyone other than these specified parties.
