Board of Selectmen
Town of Sharon, New Hampshire

We have audited the general purpose financial statements of the Town of Sharon, New Hampshire for the year ended December 31, 1988 and have issued our report thereon dated January 21, 1989. As part of our audit, we made a study and evaluation of the system of internal accounting control of the Town of Sharon, New Hampshire to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards.

The purpose of our study and evaluation was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the entity's financial statements. Our study and evaluation was more limited than would be necessary to express an opinion on the system of internal accounting control taken as a whole.

The officials of the Town of Sharon, New Hampshire are responsible for establishing and maintaining a system of internal accounting control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of a system are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of the inherent limitations in any system of internal accounting control, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the system to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with procedures may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, we do not express an opinion on the system of internal accounting control of the Town of Sharon, New Hampshire taken as a whole. The study and evaluation disclosed no conditions which we consider to be material weaknesses.

During the course of our audit we noted that the Town Treasurer has custody of the Revaluation Capital Reserve Fund. State law (RSA 35) requires that the Town Trustees of Trust Funds hold all capital reserve funds.

Very truly yours,

Carey, Vachon & Clukay, P.C.

REPORT OF THE SELECTMEN

The Selectmen were very pleased at the 1988 Town Meeting when many volunteered to fill vacancies and act as alternates as needed. This gave a real boost to our various boards and committees. There were some resignations in 1988 and 1989 and it was nice to have a pool to choose from.

The Selectmen have received some comments on the rather stark appearance of the addition to the McCoy Road cemetery. We would like to ask for volunteers at the 1989 Town Meeting who would be interested in adding some nature touches to the cemetery. It is the section in which future burials will be done. It was formerly wooded but had to be cleared. There is no money budgeted but we suggest that the interested citizens would gather some local natural trees and bushes to plant among the rows. We will discuss this at Town Meeting and ask that a committee be set up. We think that an afternoon's work should be sufficient.

We have been made aware of the problem of tire dumping at certain secluded locations in Town. We recommend that property owners with roads that are accessible to interior portions take precautions to close these roads. We recommend chains or cables. Tire dumping is not allowed and if found will put the land owner in violation of Town regulations.

It has been brought to the attention of the Selectmen that there is a problem with part of the Sharon-Temple line. A landowner in Temple has requested that the Selectmen of both towns agree on a line. We have requested Temple to help defray the expense. We could probably be successfully sued if we do not set the boundary. We propose to fund the cost by withdrawing some of the accumulated interest from the Perry General Purpose Fund.

Rubbish disposal is going to be a continuing problem. Our payment to Peterborough has gone up considerably and may continue to do so in the future. The blame can be traced to State regulations. Building demolition debris is the greatest problem. It cannot be burned or buried and so must be trucked to an appropriate disposal facility. The Selectmen have been to several meetings with regard to our Solid Waste District and report that implementation of State laws are in a state of near total chaos.

We think that the 1989 tax rate will increase due to several factors. We have seen the correction of the 1988 allocation mistake and the Department of Revenue Administration mandate to use some of our surplus. The latter was done as required by law. If the Con-

val School District votes it's proposed budget we are sure to be in for continuing increases.

We have put two articles on the Warrant relative to the Conval School.

The first relates to a change in the formula for the apportionment of school charges. We do not favor this idea as it would increase our school payments. Also, there is no amount given which would be the Town's share of a necessary reappraisal of real estate.

The second article addresses the possibility of a study committee to look into the feasibility and suitability of the Town of Sharon withdrawing from the Conval District. We think that all options should be reviewed.

Yes, there is a reward for Town service! The Selectmen have learned of a program by which Town officials can be a part of an air refueling mission to be performed by the New Hampshire Air National Guard. The officials are allowed to ride KC-135 tanker aircraft during actual in-flight refueling. The flights originate at Pease Air Force Base and last for about 3 hours. One Selectman has participated in one of these flights and reports that it is a chance of a lifetime. The Sharon flight will be flown by Town Meeting.

Respectfully submitted,
John W. Derby, Chairman
George W. Walsh

REPORT OF THE HIGHWAY AGENT

If you live in Sharon you can be sure that there will be either ice or snow from November through March.

The Town of Sharon does not use any chemicals such as salt or calcium chloride on the roads during the winter. Only sand is used. The roads will not have as many holes and bumps as when salt is used.

The long-range program of sealing blacktop roads is now in its third year and going very well.

During the summer of 1988 Cross Road and McCoy Road received ditch cleaning and culvert replacement. The two roads were sealed with liquid asphalt.

This coming season will see the cleaning of ditches and shoulder work on Temple, Greenleaf and Nashua Roads. A culvert will have to be replaced on Temple Road. The above roads will also be sealed.

Dead trees will be removed as necessary.

The cemeteries will be mowed on a regular basis. They seem to be in fairly good condition.

I wish to thank the residents of Sharon for their patience and cooperation.

Respectfully submitted,
Walter B. Somero
Highway Agent
