REPORT OF BOARD OF HEALTH.

There have been but few contagious diseases in town the past year.

The sanitary condition of the town in general is very good. The health officers have had more or less trouble with nuisances.

All persons must remember that there is a fine if they leave or cause to be placed in or near a highway, street or public place, or shall allow to be exposed, unburied, any animal or other substance liable to become putrid or offensive, or injurious to the public health. It is hoped that every citizen in town will carefully read the following laws :

ARTICLE 1. "Every physician practising medicine in this state shall report at once to the local board of health every case of cholera, small-pox, typhus fever, yellow fever, diphtheria, membranous croup, scarlet fever, typhoid fever, and measles, coming under his care or observation."

ART. 2. "When any householder knows or has reason to believe that any person within his family or household has either of the diseases named in article 1, he shall, within twenty-four hours, if no physician is in attendance, give notice thereof to the local board of health of the town or city in which he resides, and such notice shall be given, either verbally to one of the health officers or by a communication addressed to the board of health and duly mailed, within the time specified."

ART. 12. "Any person or corporation violating the rules and regulations issued by the State Board of Health, shall be subject to a fine of not more than two hundred dollars, or be imprisoned not more than six months, or both, and it shall be the duty of any person to whom a knowledge of such violation may come, to notify the State Board of Health."

REPORT OF SCHOOL BOARD.

DANIEL G. ANNIS.

At the commencement of the school year it was decided that a thorough inspection of the schools in town should be maintained throughout the year, each committee to have in charge a certain number of schools, also that some general visiting by each member of the Board would be expected, the results of this course have proved to be satisfactory to the board.

A majority of the schools have been in charge of the same teacher throughout the year and, as might be expected from such service has brought good results. Nos. 4 and 9 were exceptions to the rule, owing to circumstances unavoidable, different teachers took charge in each term, which is almost sure to prove detrimental to schools in any district, yet in each of these cases the closing terms proved to be well managed and highly satisfactory to all parties. Sickness entered the ranks of our teachers in a few instances, causing some slight breaks in the work which are to be regretted by all. Yet taken as a whole, we are forced to the conclusion that through the persevering and earnest efforts on the part of the teachers to give, and the hearty and appreciative desire on the part of the pupils to receive instruction, a good amount of work has been done the past year, with commendable progress in the line of common school education.

As one year ago our sympathies were extended to our former teacher, Miss Alice B. Smith, in her failing health, now our hearts are bowed in sadness by reason of her removal to the "Great School" beyond, as also in the death of her younger sister, a former pupil in our schools. May the "Great Teacher" above send comfort to the family and friends.

During the past year, Maury's Geographies have been adopted in our schools, as also have Montgomery's History of the U. S., and Blaisdell's series of Physiology. A change in Arithmetic would now seem to be next in order.

Again your attention is called to the 8th article in the school warrant, as we can but feel that expert management of the work in the school room is the correct way to obtain the best results. * And a vote to adopt the article, would place your School Board in a position, that if an opportunity was presented the coming year, the plan of a Superintendent of Schools might be entered upon as the law directs, otherwise no change could take place.

As we go to press we understand a private term of school is in successful operation in district No. 7, showing a good interest in the cause of education in that part of the town.
